AXIALL CORPORATION

Notes to the Unaudited Condensed Consolidated Financial Statements

1. NEW DEVELOPMENTS AND BASIS OF PRESENTATION

Pending Merger

On June 10, 2016, the Company entered into an Agreement and Plan of Merger (the *Merger Agreement*) with Westlake Chemical Corporation (*Westlake*) and Lagoon Merger Sub, Inc., a newly formed wholly owned subsidiary of Westlake (*Merger Sub*). The Merger Agreement provides, among other things and subject to the terms and conditions set forth therein, for the merger of Merger Sub with and into the Company (the *Merger*), with the Company surviving the Merger as a wholly owned subsidiary of Westlake in a transaction in which each share of the Company's common stock (*Company Common Stock*), issued and outstanding immediately prior to the time the Merger becomes effective, other than certain excluded shares as further described in the Merger Agreement, will be converted automatically into the right to receive \$33.00 in cash, without interest (the *Merger Consideration*). The Merger is expected to be completed by the fourth quarter of 2016.

Each of the Company's and Westlake's obligation to consummate the Merger is subject to a number of conditions specified in the Merger Agreement, including, among others, (i) the adoption of the Merger Agreement by the affirmative vote of the holders of a majority of all outstanding shares of the Company Common Stock, (ii) the receipt of required regulatory approvals, including expiration of the waiting period under the Hart-Scott-Rodino Antitrust Improvements Act of 1976, as amended, and receipt of required approval under the Canadian Competition Act, (iii) the absence of an order, judgment, injunction or law prohibiting the consummation of the Merger, (iv) the accuracy of the other party's representations and warranties contained in the Merger Agreement (subject to certain materiality standards set forth in the Merger Agreement), and (v) the other party's compliance with or performance of its covenants and agreements contained in the Merger Agreement in all material respects. The consummation of the Merger is not subject to a financing condition.

The Merger Agreement contains certain termination rights for each party. In addition, the Merger Agreement, in certain circumstances, provides for the payment of a termination fee by the Company to Westlake in the amount of \$77.7 million.

In connection with the unsolicited offer and subsequent Merger Agreement, we incurred \$8.4 million and \$13.6 million of expenses during the three and six months ended June 30, 2016, respectively, including legal, financial advisor and accounting fees that are reflected in fees associated with unsolicited offer and strategic alternatives in our unaudited condensed consolidated statements of operations.

On August 1, 2016, we filed a definitive proxy statement with the SEC in order to notify the Company's shareholders of a special meeting to be held on August 30, 2016 to vote on the Merger and to seek proxies from the Company's shareholders in connection with such vote. Axiall and Westlake have received all regulatory approvals required for the Merger, including approvals required by U.S. and Canadian competition laws.

The Company has terminated its previously announced sale process for its Building Products business.

Basis of Presentation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not

Page 7 of 70

Table of Contents

include all of the information and footnotes required by GAAP for complete financial statements. The accompanying unaudited condensed consolidated financial statements reflect all adjustments that, in the opinion of management, are necessary to present fairly the financial position, results of operations and cash flows for the interim periods reported. Such adjustments are of a normal, recurring nature.

Our financial condition as of, and our operating results for, the three and six month periods ended June 30, 2016 are not necessarily indicative of the financial condition and results that may be expected for the full year ending December 31, 2016 or any other interim period.

On September 30, 2015, the Company entered into and consummated the transactions contemplated by an asset purchase agreement between INEOS Americas LLC (INEOS) and Axiall LLC, a wholly-owned subsidiary of the Company, pursuant to which the Company sold its aromatics business to INEOS. The Company has concluded that it met the accounting requirements for reporting the financial position, results of operations and cash flows of its former aromatics business as discontinued operations when the sale was consummated.

On February 24, 2016, the Company entered into an asset purchase agreement among Royal Group, Inc. (RGI), Royal Window and Door Profiles Plant 13 Inc., Royal Window and Door Profiles Plant 14 Inc., and Axiall Corporation, as sellers, and North American Profiles Canada, LTD (NAPC), as purchaser, pursuant to which the Company sold its window and door profiles business and its Concord, Ontario compounding operations to NAPC on March 31, 2016 for net proceeds of approximately \$29.2 million, subject to certain working capital and other adjustments and future performance-based payments. The Company concluded that it met the accounting requirements for reporting the financial position, results of operations and cash flows of its former window and door profiles business as discontinued operations when the sale was consummated. The sale of our Concord, Ontario compounding operations did not meet the criteria for classification as discontinued operations.

The accompanying unaudited condensed consolidated balance sheets as of June 30, 2016 and December 31, 2015, and statements of operations and statements of cash flows for the three and six months ended June 30, 2016 and 2015, and the related notes to the unaudited condensed consolidated financial statements, have been adjusted to reflect the presentation of the results of operations and cash flows of the former aromatics and window and door profiles businesses as discontinued operations. These adjustments relating to the discontinued operations of our aromatics and window and door profiles businesses did not impact the Company's consolidated net income (loss) attributable to Axiall. Refer to Note 3 for additional information relating to these sales.

Certain prior period amounts have been reclassified to conform to the current period's presentation. These reclassifications are of a normal recurring nature and did not impact the Company's operating income (loss) or consolidated net income (loss).

There have been no material changes in the significant accounting policies followed by us during the three and six months ended June 30, 2016 from those disclosed in our Annual Report on Form 10-K for the year ended December 31, 2015 (the 2015 Annual Report).

The accompanying unaudited condensed consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes to the audited consolidated financial statements included in the 2015 Annual Report, which have not been revised to reflect the discontinued operations of our window and door profiles business. Unless the context otherwise requires, references to Axiall, the Company, we, our or us, mean Axiall Corporation and its consolidated subsidiaries.

Table of Contents**2. EARNINGS (LOSS) PER SHARE**

Basic earnings (loss) per share from continuing operations attributable to Axiall is based on the weighted-average number of common shares outstanding during the three and six month periods ended June 30, 2016 and 2015. Diluted earnings (loss) per share from continuing operations attributable to Axiall is based on the weighted-average number of common shares outstanding during the three and six month periods ended June 30, 2016 and 2015, adjusted for the dilutive effect of employee share-based compensation and other share-based compensation awards.

Due to the net loss from continuing operations in the three and six month periods ended June 30, 2016, common stock equivalents of 0.4 million shares and 0.3 million shares, respectively, were excluded from the computation of diluted loss per share in both periods due to their anti-dilutive effect. Certain of our restricted stock units participate in dividend distributions; however, the distributions for these restricted stock units do not have a material impact on our earnings (loss) per share calculation.

The following table provides a reconciliation of the numerators and denominators used to determine basic and diluted earnings (loss) per share from continuing operations attributable to Axiall and discontinued operations for the three and six month periods ended June 30, 2016 and 2015:

<i>(In millions, except per share data)</i>	Three Months Ended June 30, 2016		Six Months Ended June 30, 2015

3. DISCONTINUED OPERATIONS

Sale of Building Products Window and Door Profiles Business

On February 24, 2016, the Company entered into an asset purchase agreement among RGI, Royal Window and Door Profiles Plant 13 Inc., Royal Window and Door Profiles Plant 14 Inc., and Axiall Corporation, as sellers, and NAPC, as purchaser, pursuant to which the Company sold its window and door profiles business, and its Concord, Ontario compounding operations to NAPC for net proceeds of approximately \$29.2 million, subject to certain working capital and other adjustments and future performance-based payments. The sale was consummated on March 31, 2016. The Company concluded that it met the accounting requirements for reporting the financial position, results of operations and cash flows of its former window and door profiles business as discontinued operations when the sale was consummated and recognized a loss on sale of \$25.2

Table of Contents

million reflected in loss from discontinued operations in the unaudited condensed consolidated statements of operations. The Company concluded that the sale of its Concord, Ontario compounding operations did not meet the criteria for classification as discontinued operations. In connection with the sale of the Concord, Ontario compounding operations, the Company recognized a loss on the sale of assets of \$4.0 million that is reflected in restructuring and divestiture costs in its unaudited condensed consolidated statements of operations. The net cash proceeds of approximately \$27.5 million received from the sale of our window and door profiles business is included in cash flows from investing activities discontinued operations in the unaudited condensed consolidated statements of cash flows. The Company has terminated its previously announced sale process for the remainder of the Building Products businesses.

Sale of Aromatics Business: Discontinued Operations

On September 30, 2015, the Company entered into and consummated the transactions contemplated by an asset purchase agreement between INEOS and Axiall LLC, a wholly-owned subsidiary of the Company. Pursuant to such asset purchase agreement, INEOS acquired certain assets used in the Company's aromatics business, including but not limited to, its cumene production facility located in Pasadena, Texas. The Company retained the land and plant at its phenol, acetone and alpha-methylstyrene production facility located in Plaquemine, Louisiana (the Plaquemine Phenol Facility), which is part of a broader set of other Axiall facilities located in Plaquemine. In addition, the Company retained the following assets associated with its aromatics business: (i) cash and cash equivalents; (ii) accounts receivable; and (iii) inventory, other than certain raw materials and work-in-process inventory at its Pasadena facility. The Company has discontinued the manufacture of products at its Plaquemine Phenol Facility and expects to decommission and dismantle that facility by the end of 2016.

At closing, the Company received \$52.4 million in cash, which consisted of: (i) the sale price of \$47.4 million; and (ii) a \$5.0 million advance toward the cost of decommissioning and dismantling our Plaquemine Phenol Facility. That advance was recorded as a liability in our unaudited condensed consolidated balance sheets. During the fourth quarter of 2015, the Company met certain terms and conditions set forth in the asset purchase agreement that entitled it to receive \$5.5 million of contingent consideration, pursuant to which it recorded \$5.3 million, as a gain, net of a \$0.2 million working capital adjustment, related to the sale. Further, the Company may receive an additional \$5.0 million from INEOS to help defray the costs of decommissioning and dismantling the Plaquemine Phenol Facility. The Company's receipt of all or any portion of the remaining \$5.0 million that INEOS may be required to pay and our right to retain the \$5.0 million advance payment will depend on the amount of costs incurred by us to decommission and dismantle the Plaquemine Phenol Facility.

The following represents major classes of assets and liabilities related to the discontinued operations included in our unaudited condensed consolidated balance sheets as of the following dates:

4. RESTRUCTURING AND DIVESTITURE COSTS

During the three and six month periods ended June 30, 2016, the Company had restructuring and divestiture costs pertaining to: (i) the sale of certain assets of its compound additives business, known as Solucor, and its manufacturing facility located in Concord, Ontario, in its chlorovinyls segment; (ii) the reorganization of its building products segment, including the sale of our window and door profiles reporting unit; (iii) the sale of its

Table of Contents

aromatics business; and (iv) workforce and other expense reductions to drive cost savings throughout the Company.

Chlorovinyls

During the three and six month periods ended June 30, 2016, our chlorovinyls segment incurred restructuring costs of \$0.3 million and \$10.4 million, respectively, primarily relating to severance and related payments in conjunction with our February 2016 workforce reduction activities and cost savings initiatives, and divestiture costs of \$0.9 million and \$20.8 million, respectively, primarily relating to the sales of its Solucor business and its Concord, Ontario manufacturing operations. During both the three and six month periods ended June 30, 2015, the Company recorded \$0.4 million related to the sale of its specialty phosgene derivatives business.

On February 24, 2016, the Company entered into an asset purchase agreement among RGI and Axiall Corporation, as sellers, and Galata Chemicals (Canada) Inc., as Purchaser, for the sale of certain assets of its compound additives business, known as Solucor, and its manufacturing facility located in Bradford, Ontario, for a price of approximately \$9.2 million, subject to adjustment based upon the amount of inventory of the Solucor business on the closing date of the transaction, which was February 29, 2016. The Company recognized a loss on the sale of \$15.5 million that is recorded in restructuring and divestiture costs in our unaudited condensed consolidated statements of operations for the six months ended June 30, 2016. Also, in conjunction with the sale of our window and door profiles business in our building products segment, the sale of our Concord, Ontario compounding operations resulted in a loss on sale of \$4.0 million that is recorded in restructuring and divestiture costs in our unaudited condensed consolidated statements of operations for the six months ended June 30, 2016.

Building Products

During the three and six months ended June 30, 2016, our building products segment incurred restructuring costs of \$0.6 million and \$2.7 million, respectively, primarily relating to severance payments in conjunction with our workforce reduction activities and cost savings initiatives, and divestiture costs of \$0.7 million and \$1.1 million, respectively, primarily related to the strategic review of our building products segment, which we terminated subsequent to the announced Merger between Axiall and Westlake. During the three and six month periods ended June 30, 2015, our building products segment did not incur material restructuring and divestiture charges. During the six months ended June 30, 2015 our building products segment incurred \$0.3 million of long-lived asset impairment charges pertaining to its window and door profiles reporting unit.

Corporate

Restructuring charges primarily related to severance payments in conjunction with our workforce reduction activities and cost savings initiatives. Restructuring costs in corporate, unallocated totaled \$0.8 million and \$2.6 million for the three and six month periods ended June 30, 2016, respectively. There were no similar costs during the three and six month periods ended June 30, 2015. Also, as of June 30, 2016, we made cash payments of \$3.2 million related to the separation of executives under the terms of the Company's severance plans and policies. As of June 30, 2016, we had remaining payments of \$0.9 million that are expected to conclude by November 2016.

Divestiture charges primarily related to costs associated with the strategic review of our building products segment as announced in the third quarter of 2015 and the sale of certain non-core business operations. The Company has terminated its strategic review of the building products segment subsequent to the announced execution of the Merger Agreement between Axiall and Westlake. Divestiture costs in corporate, unallocated

Table of Contents

were \$1.2 million and \$3.6 million during the three and six month periods ended June 30, 2016. There were no similar costs during the three and six months ended June 30, 2015.

5. NEW ACCOUNTING PRONOUNCEMENTS

In March 2016, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU or Update) 2016-09 *Compensation Stock Compensation (Topic 718)*. The amendments in this Update are designed to simplify several aspects of accounting for share-based payment transactions, including the income tax consequences, classification of awards as either equity or liabilities, forfeitures and classification on the statements of cash flows. The amendments in this Update are effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. Management is currently evaluating this Update and does not anticipate a material impact on our unaudited condensed consolidated financial statements.

In March 2016, the FASB issued ASU 2016-07 *Investments Equity Method and Joint Ventures (Topic 323)*. The amendments in this Update eliminate the requirement that when an investment qualifies for use of the equity method as a result of an increase in the level of ownership interest or degree of influence, an investor must adjust the investment, results of operations, and retained earnings retroactively on a step-by-step basis as if the equity method had been in effect during all previous periods that the investment had been held. The amendments of this Update require that the equity method investor add the cost of acquiring the additional interest in the investee to the current basis of the investor's previously held interest and adopt the equity method of accounting as of the date the investment becomes qualified for equity method accounting. Therefore, upon qualifying for the equity method of accounting, no retroactive adjustment of the investment is required. The amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2016. Management is currently evaluating this Update and does not anticipate a material impact on our unaudited condensed consolidated financial statements.

In March 2016, the FASB issued ASU 2016-05 *Derivatives and Hedging (Topic 815)*. The amendments in this Update clarify that a change in the counterparty to a derivative instrument that has been designated as the hedging instrument under *Topic 815* does not, in and of itself, require de-designation of that hedging relationship provided that all other hedge accounting requirements continue to be met. The amendments in this Update are effective for annual periods beginning after December 15, 2016, and interim periods within those annual periods. We have adopted the amendments of this Update and there was no impact on our unaudited condensed consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02 *Leases (Topic 842)*. The core principle of *Topic 842* is that a lessee should recognize the assets and liabilities that arise from leases. All leases create an asset and a liability for the lessee and, therefore, recognition of those leased assets and leased liabilities represents an improvement over previous GAAP, which did not require leased assets and leased liabilities to be recognized for most leases. The amendments in this Update are effective for annual periods, including interim periods, beginning after December 15, 2018, and early adoption is permitted. We are evaluating the amendments in this Update and have not yet determined the impact on our unaudited condensed consolidated financial statements.

In May 2014, the FASB issued ASU 2014-09 *Revenue from Contracts with Customers (Topic 606)*. The Update outlines a single, comprehensive model for entities to use in accounting for revenue arising from contracts with customers and supersedes most current revenue recognition guidance issued by the FASB, including industry specific guidance. The Update also provides a model for the measurement and recognition of gains and losses on the sale of certain nonfinancial assets, such as property and equipment, including real estate. In August 2015, the FASB issued ASU 2015-14 *Revenue from Contracts with Customers: Deferral of*

Table of Contents

the Effective Date. This Update provides for a one year deferral of the effective date of ASU 2014-09. As a result, the Company expects that it will apply the new revenue standard to annual and interim reporting periods beginning after December 15, 2017. The new standard must be adopted using either a full retrospective approach for all periods presented in the period of adoption or a modified retrospective approach. The modified retrospective approach requires that the new standard be applied to all new and existing contracts as of the date of adoption, with a cumulative catch-up adjustment recorded to the opening balance of retained earnings at the effective date for existing contracts that still require performance by the entity. Under the modified retrospective approach, amounts reported prior to the date of adoption will be presented under existing guidance. The Update also requires entities to disclose both quantitative and qualitative information to enable users of the financial statements to understand the nature, amount, timing, and uncertainty of revenue and cash flows arising from contracts with customers. We have not yet determined the impact of adopting the standard on our unaudited condensed consolidated financial statements, nor have we determined whether we will utilize the full retrospective or modified retrospective approach.

In 2016, FASB issued additional ASUs containing implementation guidance relating to ASU 2014-09, including: ASU 2016-08 *Revenue from Contracts with Customers (Topic 606) Principal versus Agent Considerations (Reporting Revenue Gross versus Net)* which is intended to improve the operability and understandability of the implementation guidance on principal versus agent considerations; ASU 2016-10 *Revenue from Contracts with Customers (Topic 606) Identifying Performance Obligations and Licensing*, which is intended to clarify two aspects of Topic 606: (i) identifying performance obligations; and (ii) the identifying the licensing implementation guidance; and ASU 2016-12 *Revenue from Contracts with Customers (Topic 606) Narrow-Scope Improvements and Practical Expedients*, which contains certain provisions and practical expedients in response to identified implementation issues. The effective date for these ASUs is the same as the effective date for ASU 2014-09.

6. INVENTORIES

As of June 30, 2016 and December 31, 2015, the major classes of inventories were as follows:

<i>(In millions)</i>	June 30, 2016	December 31, 2015
Raw materials	\$ 69.4	\$ 84.2
Work-in-process	0.9	1.6
Finished goods	205.7	195.1
Inventories	\$ 276.0	\$ 280.9

Table of Contents**7. PROPERTY, PLANT AND EQUIPMENT, NET**

As of June 30, 2016 and December 31, 2015, property, plant and equipment consisted of the following:

<i>(In millions)</i>	June 30, 2016	December 31, 2015
Chemical manufacturing plants	\$ 1,317.0	\$ 1,308.8
Machinery and equipment	1,117.8	1,080.4
Buildings	138.9	134.7

Property, plant and equipment, at cost	2,832.6	2,793.0
Less: accumulated depreciation	1,273.8	1,236.5
Property, plant and equipment, net	\$ 1,558.8	\$ 1,556.5

8. GOODWILL AND OTHER INTANGIBLE ASSETS

Our intangible assets consist of goodwill, customer relationships, supply contracts, technology, and trade names. Goodwill is the excess of the cost of an acquired entity over the fair value of tangible and intangible assets acquired (including, but not limited to, customer relationships, supply contracts, technology, and trade names) and liabilities assumed under acquisition accounting for business combinations.

As of June 30, 2016, our chlorovinyls segment includes goodwill in its chlor-alkali and derivatives and compound reporting units and our building products segment includes goodwill primarily in its siding reporting unit.

Valuation of Goodwill and Indefinite-Lived Intangible Assets. The carrying values of our goodwill and indefinite-lived intangible assets are tested for impairment annually in the fourth quarter, using a measurement date of October 1. In addition, we evaluate the carrying values of these assets for impairment between annual impairment tests if an event occurs or circumstances change that would more likely than not reduce the fair value of a reporting unit below its carrying amount. Such events and indicators may include, without limitation, significant declines in the industries in which our products are used, significant changes in the estimated future cash flows of our reporting units, significant changes in capital market conditions and significant changes in our market capitalization.

Impairment testing for goodwill is a two-step test performed at the reporting unit level. The first step of the impairment analysis involves comparing the fair value of the reporting unit to its carrying value, including goodwill. If the fair value of the reporting unit exceeds the carrying value, goodwill is not considered impaired. If the carrying value exceeds the fair value, the second step of the impairment analysis is performed, in which we measure the amount of impairment. Our goodwill evaluations utilize discounted cash flow analyses (the income approach) and market multiple analyses (the market approach), in estimating fair values. Inherent in our fair value determinations are certain judgments and estimates relating to future cash flows, including our interpretation of current economic indicators and market conditions, overall economic conditions and our strategic and operational plans with regard to our business units. In addition, to the extent significant changes occur in market conditions, overall economic conditions or our strategic or operational plans, it is possible that goodwill not currently impaired, may become impaired in the future.

Table of Contents

Goodwill. During the six months ended June 30, 2016, we wrote-off \$3.3 million of goodwill pertaining to the sale of our Solucor business and our Concord, Ontario compounding operations in our chlorovinyls segment, which was recognized as a component of the loss on sales of assets in the restructuring and divestiture costs in our unaudited condensed consolidated statements of operations during the six months ended June 30, 2016. The following table provides the detail of the changes made to goodwill during the six months ended June 30, 2016.

<i>(In millions)</i>	Chlorovinyls	Building Products	Total
Gross goodwill at December 31, 2015	\$ 1,766.0	\$ 160.2	\$ 1,926.2
Accumulated impairment losses	(923.7)	(150.4)	(1,074.1)
Net goodwill at December 31, 2015	\$ 842.3	\$ 9.8	\$ 852.1
<hr/>			
Gross goodwill at December 31, 2015	\$ 1,766.0	\$ 160.2	\$ 1,926.2
Goodwill write-downs from sales of assets	(3.3)	-	(3.3)
Cumulative foreign currency translation adjustments	7.6	-	7.6
Gross goodwill at June 30, 2016	1,770.3	160.2	1,930.5
Accumulated impairment losses	(923.7)	(150.4)	(1,074.1)
Net goodwill at June 30, 2016	\$ 846.6	\$ 9.8	\$ 856.4

Indefinite-lived intangible assets. As of June 30, 2016 and December 31, 2015, our indefinite-lived intangible assets consisted of certain trade names with a carrying value of \$5.6 million and \$5.9 million, respectively, net of cumulative foreign currency translation adjustments. In connection with the sale of our Solucor business and our Concord, Ontario compounding operations in our chlorovinyls segment, during the six months ended June 30, 2016, we wrote-off \$0.3 million of indefinite-lived intangible assets.

Definite-lived intangible assets. As of June 30, 2016 and December 31, 2015, we had definite-lived intangible assets related to: (i) customer relationships, supply contracts, technology and trade names in our chlorovinyls segment; and (ii) customer relationships and technology in our building products segment. During the six months ended June 30, 2016, we wrote-off \$4.8 million of definite-lived intangible assets and the associated accumulated amortization pertaining to the sale of our window and door profiles business in our building products segment. All prior period amounts have been reclassified to reflect the sale as a discontinued operations in our unaudited condensed consolidated balance sheets. The following table provides the definite-lived intangible assets, by reportable segment, as of June 30, 2016 and December 31, 2015.

Table of Contents

<i>(In millions)</i>	Chlorovinyls		Building Products		Total	
	June 30, 2016	December 31, 2015	June 30, 2016	December 31, 2015	June 30, 2016	December 31, 2015

New Term Loan Facility (net of deferred financing fees totaling \$2.8 million and \$3.1 million at June 30, 2016 and December 31, 2015, respectively)	February 27, 2022	243.5	244.4
ABL Revolver	December 17, 2019	-	-
Total debt		1,367.3	1,367.0
Less: current portion of long-term debt		(2.5)	(2.5)
Long-term debt, net		\$ 1,364.8	\$ 1,364.5

4.625 Notes

The Company and certain of its subsidiaries guarantee \$688.0 million in aggregate principal amount of 4.625 percent senior unsecured notes due 2021 (the 4.625 Notes) that were issued by a wholly-owned subsidiary, Eagle Spinco Inc. (Spinco), on January 28, 2013. Interest payments on the 4.625 Notes commenced on August 15, 2013 and interest is payable semi-annually in arrears on February 15 and August 15 of each year. The 4.625 Notes are fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis by the Company and by its existing and

future domestic subsidiaries, other than certain excluded subsidiaries.

4.875 Notes

On February 1, 2013, the Company issued \$450.0 million in aggregate principal amount of 4.875 percent senior unsecured notes due 2023 (the *4.875 Notes*). Interest payments on the *4.875 Notes* commenced on May 15, 2013 and interest is payable semi-annually in arrears on May 15 and November 15 of each year. The *4.875 Notes* are fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis by each of our existing and future domestic subsidiaries, other than certain excluded subsidiaries.

Term Loan

On February 27, 2015, Axiall Holdco, Inc., a wholly-owned subsidiary of the Company (*Axiall Holdco*), entered into a credit agreement with a syndicate of financial institutions (the *Term Loan Agreement*) for a new \$250 million term loan facility (the *New Term Loan Facility*) to refinance the principal amount outstanding under the Company's existing term loan facility, to pay related fees and expenses, and for general corporate purposes. Obligations under the *New Term Loan Facility* are fully and unconditionally guaranteed, on a senior secured basis, by the Company and by each of the Company's existing and future wholly-owned domestic subsidiaries, other than certain excluded subsidiaries. The obligations under the *New Term Loan Facility* are secured by substantially all of the assets of *Axiall Holdco*, *Axiall Corporation* and the subsidiary guarantors.

Table of Contents

The New Term Loan Facility contains an accordion feature that permits Axiall Holdco, subject to certain conditions and to obtaining lender commitments, to incur additional term loans under the New Term Loan Facility in an amount up to the greater of: (i) \$250 million; and (ii) an amount that would not result in the Company's consolidated secured debt ratio being greater than 2.50 to 1.00.

At the election of Axiall Holdco, the New Term Loan Facility bears interest at a rate equal to: (i) the Base Rate (as defined in the Term Loan Agreement) plus 1.50 percent per annum; or (ii) LIBOR (as defined in the Term Loan Agreement) plus 3.25 percent per annum; provided that at no time will the Base Rate be deemed to be less than 2.00 percent per annum or LIBOR be deemed to be less than 0.75 percent per annum. As of June 30, 2016, outstanding borrowings under the New Term Loan Facility had a stated interest rate of 4.00 percent per annum.

The Term Loan Agreement contains customary covenants (subject to exceptions), including certain restrictions on the Company and its subsidiaries to pay dividends and repurchase shares of Company Common Stock.

ABL Revolver

The Company's second amended and restated asset based revolving credit facility (the *ABL Revolver*), which the Company entered into on December 17, 2014, provides for a maximum of \$600.0 million of revolving credit, subject to applicable borrowing base limitations and certain other conditions. The credit agreement governing the ABL Revolver (the *ABL Credit Agreement*) contains customary covenants, including certain restrictions on the Company and its subsidiaries to pay dividends and repurchase shares of Company Common Stock. These covenants are subject to certain exceptions and qualifications. Under the ABL Revolver, dividend payments and repurchases of Company Common Stock in an aggregate amount not to exceed \$150 million in any fiscal year may be made if both borrowing availability under the ABL Revolver would have exceeded \$75 million at all times during the thirty days immediately preceding any such restricted payment and our consolidated fixed charge coverage ratio (as defined in the ABL Revolver) is equal to or exceeds 1.00 to 1.00, each on a pro forma basis after giving effect to any such proposed restricted payment. In addition, under the ABL Revolver, additional cash dividend payments and repurchases of Company Common Stock may be made if both borrowing availability under the ABL Revolver then exceeds \$100 million and our consolidated fixed charge coverage ratio (as defined in the ABL Revolver) is equal to or exceeds 1.10 to 1.00, each on a pro forma basis after giving effect to the proposed restricted payment. On December 30, 2015, we amended our ABL Credit Agreement to, among other things, provide additional flexibility to pay dividends and consummate stock repurchases, modify the definition of consolidated EBITDA to include certain additional add backs and reductions to net income in determining consolidated EBITDA (as defined in the ABL Revolver), revise the definition of consolidated capital expenditures to exclude capital expenditures made in connection with the proposed ethane cracker (ethylene manufacturing plant) located in Lake Charles, Louisiana (the *Plant*), and provide for a reduction in the amount of its basket for investments in such a plant by the amount of such capital expenditures that are excluded from the definition of consolidated capital expenditures.

As of June 30, 2016 and December 31, 2015, we had no outstanding balance under our ABL Revolver. Our availability under the ABL Revolver at June 30, 2016 was approximately \$383.9 million, net of outstanding letters of credit totaling \$72.9 million. As of June 30, 2016, depending on the duration of the loan, the applicable rate for future borrowings would have been between 2.15 percent to 4.00 percent based on LIBOR or the Prime Rate.

As of June 30, 2016, we were in compliance with the covenants under our ABL Credit Agreement, the Term Loan Agreement and the indentures governing the 4.625 Notes and the 4.875 Notes.

Table of Contents**Lease Financing Obligation**

As of June 30, 2016 and December 31, 2015, we had a lease financing obligation of \$46.8 million and \$44.0 million, respectively. The lease financing obligation is a result of the sale and concurrent leaseback of certain land and buildings in Canada in 2007 for an original term of ten years. In connection with this transaction, certain terms and conditions, including the requirement to execute a collateralized letter of credit in favor of the buyer-lessor, resulted in the transaction being recorded as a financing transaction rather than a sale for GAAP purposes. As a result, the land, building and related accounts continue to be recognized in the unaudited condensed consolidated balance sheets. The collateralized letter of credit expired on February 2, 2015 and is no longer required.

In connection with the sale of our window and door profiles business, on March 31, 2016, we assigned the leases associated with two of the four properties that were recorded as part of such sale-leaseback transaction on our unaudited condensed consolidated balance sheets and extended the lease term for one of the remaining properties through 2019. Consequently, we are no longer the primary obligor under the two assigned leases and we derecognized \$25.6 million from property plant and equipment, net and decreased our lease financing obligation by \$37.5 million on our unaudited condensed consolidated balance sheets as of June 30, 2016. The deferred gain of \$11.9 million associated with these two assigned leased properties was recognized and offset against the loss on sale of our window and door profiles business in discontinued operations during the six months ended June 30, 2016, all of which was a non-cash transaction.

The sale of our window and door profiles business was classified as discontinued operations and, therefore, all prior period amounts pertaining to these two properties were reclassified. The change from the December 31, 2015 balance, excluding the reclassification of the two properties, is due to the change in the Canadian dollar exchange rate as of June 30, 2016. We are not obligated to repay the lease financing obligation amount of \$46.8 million. Our obligation is for the future minimum lease payments under the terms of the related lease agreements. The future minimum lease payments under the terms of the related lease agreements as of June 30, 2016 are \$1.7 million in 2016, \$2.5 million in 2017, \$2.2 million in 2018 and \$0.6 million in 2019, the final year of the lease agreements.

11. FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial instruments consist primarily of cash and cash equivalents, accounts receivable, accounts payable, accrued expenses, commodity purchase contracts and long-term debt. The carrying amounts of cash and cash equivalents, accounts receivable, accounts payable and accrued expenses approximate their fair values because of the nature of such instruments. The fair values of our outstanding notes, as shown in the table below, are based on quoted market values. The fair value of our New Term Loan Facility is based on present rates for indebtedness with similar amounts, durations and credit risk. Our commodity purchase contracts are fair valued with Level 2 inputs based on quoted market values for similar but not identical financial instruments. When computed for the purposes of impairment testing, the fair values of our goodwill and other acquired intangible assets are determined using Level 3 inputs. For further details concerning the fair value of goodwill and other intangible assets, see Note 8 of the notes to the unaudited condensed consolidated financial statements.

Table of Contents

The FASB's ASC 820-10 establishes a fair value hierarchy that prioritizes observable and unobservable inputs to valuation techniques used to measure fair value. These levels, in order of highest to lowest priority, are described below:

- Level 1 Quoted prices (unadjusted) in active markets for identical assets or liabilities at the measurement date.
- Level 2 Observable prices that are based on inputs not quoted on active markets, but corroborated by market data.
- Level 3 Prices that are unobservable for the asset or liability and are developed based on the best information available under the circumstances, which might include the Company's own data.

The following is a summary of the carrying amounts and estimated fair values of our long-term debt and commodity purchase contracts as of June 30, 2016 and December 31, 2015:

<i>(In millions)</i>	June 30, 2016		December 31, 2015	
	Carrying Value	Fair Value	Carrying Value	Fair Value
Level 1:				
<i>Long-term debt:</i>				
4.625 Notes (net of debt issuance costs totaling \$8.8 million and \$9.6 million at June 30, 2016 and December 31, 2015, respectively)	\$ 679.2	\$ 703.5	\$ 678.4	\$ 635.1
4.875 Notes (net of debt issuance costs totaling \$5.4 million and \$5.8 million at June 30, 2016 and December 31, 2015, respectively)	\$ 444.6	\$ 461.3	\$ 444.2	\$ 408.4
Level 2:				
<i>Long-term debt:</i>				
New Term Loan Facility (net of deferred financing fees totaling \$2.8 million and \$3.1 million at June 30, 2016 and December 31, 2015, respectively)	\$ 243.5	\$ 246.6	\$ 244.4	\$ 247.8
<i>Derivative instruments:</i>				
Commodity purchase contracts	\$ 1.2	\$ 1.2	\$ (0.4)	\$ (0.4)

Derivative Financial Instruments. The Company is directly and indirectly affected by changes in certain market conditions and market risks. When deemed appropriate, we use derivatives as a risk management tool to mitigate the potential impact of certain market risks. The primary market risks that may be managed by the Company through the

use of derivative instruments are foreign currency exchange rate risk, commodity price risk and interest rate risk. As an integral part of our risk management program, we may manage our financial exposures to reduce the potentially adverse effect that the volatility of the commodity markets may have on our operating results. We do not engage in speculative transactions nor do we hold or issue financial instruments for trading purposes.

All derivative financial instruments are carried at fair value in our unaudited condensed consolidated balance sheets. If the derivative financial instrument qualifies for hedge accounting treatment, changes in the fair value are either offset against the change in fair value of assets, liabilities or firm commitments through earnings or recognized in other comprehensive income (loss) until the hedged item is recognized in earnings.

Table of Contents

We also enter into derivative financial instruments that are designed to hedge risks but are not designated as hedging instruments. Changes in the fair values of these non-designated hedging instruments are adjusted to fair values through earnings in our unaudited condensed consolidated statements of operations.

We formally document hedging instruments and hedging transactions, as well as our risk management objective and strategy for undertaking hedged transactions. This process includes linking derivative financial instruments that are designated as cash flow hedges to specific assets or liabilities on the unaudited condensed consolidated balance sheets or linking derivatives to forecasted transactions. We also formally assess, both at inception and on an ongoing basis, whether the derivative financial instruments used in hedging transactions are highly effective in offsetting changes in the fair values or cash flows of hedged transactions. When it is determined that a derivative is not highly effective or the derivative is expired, sold, terminated, exercised, discontinued, or otherwise settled because it is unlikely that a forecasted transaction will occur, we discontinue the use of hedge accounting for that specific hedge derivative financial instrument.

12. COMMITMENTS AND CONTINGENCIES

Legal Proceedings. We are involved in a number of contingencies incidental to the normal conduct of our business, including lawsuits, claims and environmental contingencies. The outcome of these contingencies is inherently unpredictable. We believe that, in the aggregate, the outcome of all known contingencies including lawsuits, claims and environmental contingencies will not have a material adverse effect on our unaudited condensed consolidated financial statements; however, specific outcomes with respect to such contingencies may be material to the unaudited condensed consolidated financial statements of any particular period in which costs, if any, are recognized. Our assessment of the potential impact of environmental contingencies is subject to uncertainty due to the complex, ongoing and evolving process of investigation and remediation of such environmental contingencies, and the potential for technological and regulatory developments. In addition, the impact of evolving programs, such as natural resource damage claims, industrial site reuse initiatives and state remediation programs creates further uncertainty of the ultimate resolution of these environmental contingencies. We anticipate that the resolution of many contingencies, and in particular environmental contingencies, will occur over an extended period of time.

On December 20, 2013, a fire occurred at our PHH Monomers, LLC (PHH) vinyl chloride monomer (VCM) manufacturing plant in Lake Charles, Louisiana. As of June 30, 2016, approximately 2,607 individuals have filed lawsuits against the Company alleging personal injury or property damage related to the incident. We do not expect any other individuals to file lawsuits regarding this matter, as the prescribed deadline for doing so has expired. We have not recorded an accrual in connection with any of these lawsuits because, at this time, we are unable to reasonably determine whether any potential loss is probable or estimable. In addition, we currently are unable to provide a reasonable estimate of the potential loss or range of loss, if any, expected to result from this contingency. We are unable to make these determinations due to a number of variables, including without limitation, uncertainties related to: (i) the fact that no written or oral discovery has been conducted by the Company in any of these lawsuits; (ii) the parties' respective litigation strategies; (iii) the fact that none of the complaints have alleged specific injuries or a specific amount of damages; (iv) any symptoms experienced by any of the plaintiffs, and whether there will be any reliable information, documentation or other discovery related thereto; (v) the pre- and post-fire medical or physical condition of the plaintiffs, and whether there will be any reliable information, documentation or other discovery related thereto; and (vi) the location of any plaintiff at the time of the fire, and the duration of any exposure related thereto, and whether there will be any reliable information, documentation or other discovery related thereto.

On September 19, 2014, three employees at our Natrium, West Virginia facility (the Natrium Facility) were injured while changing a valve on a caustic line in the manufacturing plant at such facility. One of the employees eventually died of his injuries. The estate of our deceased employee, and the other two injured

Table of Contents

employees, have filed lawsuits against one of our subsidiaries, Eagle Natrium LLC, seeking damages for personal injury, death and pain and suffering. Following discovery and court ordered mediation of these lawsuits, we have recorded accruals for these lawsuits of \$34.5 million in the aggregate in other accrued liabilities on our unaudited condensed consolidated balance sheets. Liability relating to these lawsuits in excess of \$25 million is expected to be reimbursed to us pursuant to the indemnity provisions of our excess liability insurance policies and, as such, we also have recorded an offsetting receivable from our insurance carriers of \$9.5 million in prepaid expenses and other on our unaudited condensed consolidated balance sheets.

Environmental Remediation. Our operations and assets are subject to extensive environmental, health and safety regulations, including laws and regulations related to air emissions, water discharges, waste disposal and remediation of contaminated sites, at both the national and local levels in the United States. We are also subject to similar laws and regulations in Canada and other jurisdictions in which we operate. The nature of the chemical and building products industries exposes us to risks of liability under these laws and regulations due to the production, storage, use, transportation and sale of materials that can cause contamination or personal injury, including, in the case of chemicals, potential releases into the environment. Environmental laws may have a significant effect on the costs of use, transportation and storage of raw materials and finished products, as well as the costs of the storage and disposal of wastes. We have incurred and will continue to incur substantial operating and capital costs to comply with environmental laws and regulations. In addition, we may incur substantial costs, including fines, damages, criminal or civil sanctions and remediation costs, or experience interruptions in our operations for violations arising under these laws and regulations.

As of June 30, 2016 and December 31, 2015, we had reserves for environmental contingencies totaling approximately \$39 million and \$41 million, respectively, of which approximately \$1 million, was classified as current liabilities as of both June 30, 2016 and December 31, 2015. Our assessment of the potential impact of these environmental contingencies is subject to considerable uncertainty due to the complex, ongoing and evolving process of investigation and remediation, if necessary, of such environmental contingencies, and the potential for technological and regulatory developments.

Some of our significant environmental contingencies include the following matters:

We have entered into a Cooperative Agreement with the Louisiana Department of Environmental Quality (LDEQ) and various other parties for the environmental remediation of a portion of the Bayou d Inde area of the Calcasieu River Estuary in Lake Charles, Louisiana. Remedy implementation began in the fourth quarter of 2014 and is expected to be completed during 2016 with a period of monitoring for remedy effectiveness to follow remediation. As of June 30, 2016 and December 31, 2015, we had reserved approximately \$3 million and \$4 million, respectively, for the costs associated with this matter.

As of both June 30, 2016 and December 31, 2015 we had reserved approximately \$12 million for environmental contingencies related to on-site remediation at the Lake Charles South Facility, principally for ongoing remediation of groundwater and soil in connection with our corrective action permit issued pursuant to the Hazardous and Solid Waste Amendments of the Resource Conservation and Recovery Act. The remedial activity is primarily related to the operation of a series of well water treatment systems across the Lake Charles South Facility. In addition, remediation of possible soil contamination will be conducted in certain areas. These remedial activities are expected to continue for an extended period of time.

As of both June 30, 2016 and December 31, 2015, we had reserved approximately \$18 million, for environmental contingencies related to remediation activities at the Natrium Facility. The remedial

Page 23 of 70

Table of Contents

actions address National Pollutant Discharge Elimination System permit requirements related primarily to hexachlorocyclohexane (commonly referred to as BHC) and mercury. We expect that these remedial actions will be in place for an extended period of time.

Environmental Laws and Regulations. Due to the nature of environmental laws, regulations and liabilities, it is possible that we may not have identified all potentially adverse conditions. Such conditions may not currently exist or be detectable through reasonable methods, or may not be estimable. For example, our Natrium Facility and Lake Charles South Facility have both been in operation for over 65 years. There may be significant latent liabilities or future claims arising from the operation of facilities of this age, and we may be required to incur material future remediation or other costs in connection with future actions or developments at these or other facilities.

We expect to be continually subjected to increasingly stringent environmental and health and safety laws and regulations, and that continued compliance will require increased capital expenditures and increased operating costs or may impose restrictions on our present or future operations. It is difficult to predict the future interpretation and development of these laws and regulations or their impact on our future earnings and operations. Any increase in these costs, or any material restrictions on our ability to operate or the manner in which we operate, could materially adversely affect our liquidity, financial condition and results of operations. However, estimated costs for future environmental compliance and remediation may be materially lower than actual costs, or we may not be able to quantify potential costs in advance. Actual costs related to any environmental compliance in excess of estimated costs could have a material adverse effect on our financial condition in one or more future periods.

Heightened interest in environmental regulation, such as climate change issues, has the potential to materially impact our costs and present and future operations. We, and other chemical companies, are currently required to file certain governmental reports relating to greenhouse gas (GHG) emissions. The U.S. Government has considered, and may in the future implement, restrictions or other controls on GHG emissions, any of which could require us to incur significant capital expenditures or further restrict our present or future operations.

In addition to GHG regulations, the United States Environmental Protection Agency (the EPA) has recently taken certain actions to limit or control certain pollutants created by companies such as ours. For example:

In January 2013, the EPA issued Clean Air Act emission standards for boilers and incinerators (the Boiler MACT regulations), which are aimed at controlling emissions of toxic air contaminants at covered facilities. The coal fired power plant at our Natrium Facility is our source most significantly impacted by the Boiler MACT regulations. Pursuant to an extension granted by the West Virginia Department of Environmental Protection (WVDEP), we expect to comply with the requirements of the Boiler MACT regulations on or before December 2016.

In April 2012, the EPA issued final regulations to update emissions limits for polyvinyl chloride (PVC) and copolymer production (the PVC MACT regulation). The PVC MACT regulation sets standards for major sources of PVC production and establishes certain working practices, as well as monitoring, reporting and record-keeping requirements. Following the issuance of the PVC MACT regulation, a variety of legal challenges were filed by the vinyl industry s trade organization, several vinyl manufacturers and several environmental groups. Most of these challenges have been resolved; however, there are several petitions to reconsider certain provisions in the rule that are still pending. We anticipate that some of these provisions will likely be changed as a result of these petitions, and there could be significant changes from the currently existing PVC MACT regulation after all legal

Table of Contents

challenges have been exhausted. These changes could require us to incur further capital expenditures, or increase our operating costs, to levels significantly higher than what we have previously estimated.

In March 2011, the EPA proposed amendments to the emission standards for hazardous air pollutants for mercury emissions from mercury cell chlor-alkali plants. These proposed amendments would require improvements in work practices to reduce fugitive mercury emissions and would result in reduced levels of mercury emissions while still allowing the mercury cell facilities to continue to operate. We operate a mercury cell production unit at our Natrium Facility. No assurances as to the timing or content of the final regulation, or its ultimate cost to, or impact on us, can be provided.

In May and September 2013, the EPA conducted inspections at our Plaquemine facility pursuant to requirements of the federal Clean Air Act Section 112 (r) Risk Management Program and Title V. As a result of the inspections, the EPA identified areas of concern and the Company has subsequently engaged in negotiations, which are anticipated to result in penalties in excess of \$100,000. These negotiations are expected to conclude in 2016.

The potential impact of these and/or unrelated future, legislative or regulatory actions on our current or future operations cannot be predicted at this time but could be significant. Such impacts could include the potential for significant compliance costs, including capital expenditures, which could result in operating restrictions or could require us to incur significant legal or other costs related to compliance or other activities. For example, a recent revision to ambient air quality standards for ozone may, in the future, result in significant operating costs, compliance costs, and capital expenditures at some of our facilities. Any increase in the costs related to these initiatives, or restrictions on our operations, could materially adversely affect our liquidity, financial condition or results of operations.

Environmental Remediation: Reasonably Possible Matters. Our assessment of the potential impact of environmental contingencies is subject to considerable uncertainty due to the complex, ongoing and evolving process of investigation and remediation, if necessary, of such environmental contingencies, and the potential for technological and regulatory developments. As such, in addition to the amounts currently reserved, we may be subject to reasonably possible loss contingencies related to environmental matters in the range of \$40 million to \$80 million.

13. SHARE-BASED COMPENSATION

We have granted various types of share-based payment awards to participants in the form of time-based restricted stock units (RSUs), performance-based restricted stock units (PRSUs) and stock option grants. The key terms of our RSUs, PRSUs and our stock option grants, including all financial disclosures, are set forth in the 2015 Annual Report. These various types of share-based payment awards are subject to certain accelerated vesting clauses that vary by the award.

Time-based Restricted Stock Units and Performance-based Restricted Stock Units

In March 2016, we granted PRSUs to our executive officers for which the number of shares ultimately earned depends on our Company's relative total shareholder return (TSR), as compared to a group of peer companies. The number of shares of Company Common Stock to be awarded in connection with the vesting of those PRSUs ranges from 0 percent to 200 percent, with the percentage to be used in such vesting calculation based on the TSR performance metric. One-half of those executive officer PRSUs are scheduled to vest on the third anniversary of the grant date and the other one-half of those executive officer PRSUs are scheduled to vest on the fourth anniversary of the grant date,

in each case so long as the executive officer remains employed with the Company through the applicable vesting date and subject to achievement of the

Page 25 of 70

Table of Contents

performance metric. Also in March 2016, we granted PRSUs to certain of our executive officers for which the vesting depends on the Company having a positive Adjusted EBITDA for its 2016 fiscal year. Those PRSUs are scheduled to vest in three equal installments on each of the first, second and third anniversaries of the grant date, so long as the executive officer remains employed with the Company through the applicable vesting date and the Company achieves positive Adjusted EBITDA for its 2016 fiscal year. In addition, in March 2016, we granted time-based RSUs to certain of our executive officers, for which there is no performance metric, some of which are scheduled to vest in three equal installments on each of the first, second and third anniversaries of the grant date and the remainder of which are scheduled to vest in four equal installments on each of the first, second, third and fourth anniversaries of the grant date, provided, in each case, that the executive officer remains employed by the Company through the applicable vesting date. Also in March 2016, we granted time-based RSUs to non-officer employees, all of which are scheduled to vest in three equal installments on each of the first, second and third anniversaries of the grant date, so long as the employee remains employed with the Company through the applicable vesting date, and for which there is no performance metric.

Effect of the Merger on Share-based Compensation Awards

The Merger Agreement provides that, upon closing of the Merger, any outstanding and unexercised Company stock options, whether or not vested, will be converted into the right to receive a cash payment equal to the Merger Consideration minus the exercise prices of such options. Any outstanding or payable Company awards (other than Company stock options) under any Company stock plans will be assumed by Westlake and converted into restricted stock units in respect of Westlake common stock (Westlake Common Stock), with substantially the same terms and conditions (including with respect to dividend equivalent rights, if any), except that upon settlement the award holder will receive the greater of (i) the value of the Merger Consideration with respect to the shares of Company Common Stock related to the award prior to closing of the Merger and (ii) the value of the Westlake Common Stock. Any account balances under any Company benefit plan that provides for the deferral of compensation and represents amounts notionally invested in Company Common Stock or provides for distributions or benefits calculated based on the value of Company Common Stock will be converted into the right to receive an amount in cash calculated based on the Merger Consideration.

Share-based Compensation Expense

Information regarding our share-based compensation expense for the three and six months ended June 30, 2016 and 2015 is as follows:

<i>(In millions)</i>	Three Months Ended		Six Months Ended	
	June 30,		June 30,	
	2016	2015	2016	2015
Share-based compensation expense	\$ 4.1	\$ 3.8	\$ 6.1	\$ 7.7
Income tax provision related to share-based compensation expense	(1.4)	(1.1)	(2.1)	(2.4)
After tax share-based compensation expense	\$ 2.7	\$ 2.7	\$ 4.0	\$ 5.3

During the three and six months ended June 30, 2016, we reversed approximately \$0.3 million and \$1.3 million, respectively, of expense related to share-based compensation due to the forfeiture of RSUs and PRSUs held by certain employees of the Company whose employment with the Company terminated prior to the vesting of those RSUs and PRSUs.

Table of Contents**14. EMPLOYEE RETIREMENT PLANS*****Defined Benefit Pension and OPEB Welfare Plans***

The Company sponsors and contributes to pension plans (Pension Plans) and other post-retirement employment benefit (OPEB) plans covering many of our United States (U.S.) employees, in whole or in part based on meeting certain eligibility criteria. In addition, the Company's subsidiaries have various Pension Plans and other forms of post-retirement arrangements outside the U.S., namely in Canada and Taiwan.

The Pension Plans provide benefits to certain employees and retirees and are closed to new hires. Effective January 31, 2014, amendments to the Pension Plans for U.S. non-bargained employees froze all future benefit accruals for non-bargained employees who were not already frozen.

The OPEB plans are unfunded and provide medical and life insurance benefits for certain employees and their dependents.

The U.S. nonqualified pension plan was remeasured on February 29, 2016 following the February 2016 workforce reduction implemented as part of our cost savings initiatives. This event reduced the plan's benefit obligation by \$0.7 million and was recognized fully through a \$0.7 million adjustment to Other Comprehensive Income. The plan's net periodic benefit cost for 2016 has been adjusted to reflect the remeasurement due to the resulting curtailment event.

In the third quarter of 2015, we changed the method we use to estimate the service and interest components of net periodic benefit cost for U.S. pension and other postretirement benefits. This new estimation approach discounts the individual expected cash flows underlying the service cost and interest cost using the applicable spot rates derived from the yield curve used to discount the cash flows used to measure the benefit obligation. Historically, we estimated these service and interest cost components utilizing a single weighted-average discount rate derived from the yield curve used to measure the benefit obligation at the beginning of the period.

We made this change to provide a more precise measurement of service and interest costs by improving the correlation between projected benefit cash flows to the corresponding spot yield curve rates. We have accounted for this change as a change in accounting estimate that is inseparable from a change in accounting principle and accordingly have accounted for it prospectively. This change in accounting estimate was first reflected in benefit cost for the third quarter of 2015 for the OPEB plans and in 2016 for the Pension Plans.

The following table details the pension and postretirement benefit income, for the three and six month periods ended June 30, 2016 and 2015:

<i>(In millions)</i>	Pension Benefits		OPEB	
	2016	2015	2016	2015
Components of net periodic benefit income:				
Interest cost	\$ (6.5)	\$ (7.7)	\$ (0.5)	\$ (1.1)
Service cost	(0.9)	(1.1)	(0.2)	(0.2)
Expected return on assets	10.5	11.4	-	-
Amortization of:				
Prior service credit	-	-	3.1	2.3

Actuarial loss	(0.7)	(0.7)	-	-
Total net periodic benefit income	\$ 2.4	\$ 1.9	\$ 2.4	\$ 1.0

Page 27 of 70

Table of Contents

<i>(In millions)</i>	Pension Benefits		OPEB	
	Six Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
Components of net periodic benefit income:				
Interest cost	\$ (13.0)	\$ (15.4)	\$ (1.0)	\$ (2.2)
Service cost	(1.8)	(2.2)	(0.4)	(0.4)
Expected return on assets	21.0	22.8	-	-
Amortization of:				
Prior service credit	-	-	6.2	4.6
Actuarial loss	(1.4)	(1.4)	-	-
Total net periodic benefit income	\$ 4.8	\$ 3.8	\$ 4.8	\$ 2.0

Contributions

There were no significant contributions to the pension plan trusts during the three and six months ended June 30, 2016 and 2015. We estimate that we will make payments of approximately \$2.1 million for benefit payments and contributions related to our Pension Plans and \$7.3 million for benefit payments related to the OPEB plans for the year ending December 31, 2016.

Defined Contribution Plans

Most of our employees participate in defined contribution plans under which we make contributions to individual employee accounts. Our expense related to our defined contribution plans was approximately \$3.3 million and \$3.4 million for the three months ended June 30, 2016 and 2015, respectively, and \$7.3 million for both the six month periods ended June 30, 2016 and 2015.

15. ACCUMULATED OTHER COMPREHENSIVE LOSS AND OTHER COMPREHENSIVE INCOME (LOSS)**Accumulated Other Comprehensive Loss**

Accumulated other comprehensive loss includes: (i) foreign currency translation of assets and liabilities of foreign subsidiaries and the effects of exchange rate changes on intercompany balances of a long-term nature; (ii) unrealized gains or losses on derivative financial instruments designated as cash flow hedges; (iii) equity investee's other comprehensive income or loss items; and (iv) adjustments to pension and OPEB plan liabilities. Amounts recorded in accumulated other comprehensive loss, net of tax, as of June 30, 2016 and December 31, 2015, and changes within those periods are as follows:

<i>(In millions)</i>	Foreign Currency Items	Derivative Cash Flow Hedges	Accrued Pension and OPEB Plan Liabilities	Accumulated Other Comprehensive Loss
----------------------	------------------------	-----------------------------	---	--------------------------------------

Balance at January 1, 2016	\$	(89.4)	\$	0.5	\$	(29.1)	\$	(118.0)
Other comprehensive income before reclassifications		23.4		0.2		0.2		23.8
Amounts reclassified from accumulated other comprehensive loss, net of tax		-		0.7		(3.0)		(2.3)
Net current period other comprehensive income (loss)		23.4		0.9		(2.8)		21.5
Balance at June 30, 2016	\$	(66.0)	\$	1.4	\$	(31.9)	\$	(96.5)

Other Comprehensive Income (Loss)

Other comprehensive income (loss) is derived from adjustments to reflect: (i) changes in foreign currency translation adjustments; (ii) the unrealized gains or losses on derivative financial instruments designated as cash flow hedges; (iii) changes in equity investee's other comprehensive income or loss; and (iv) adjustments

Table of Contents

to pension and OPEB plan liabilities. The components of other comprehensive income (loss) for the three and six month periods ended June 30, 2016 and 2015 are as follows:

<i>(In millions)</i>	Three Months Ended June 30,		Six Months Ended June 30,	
	2016	2015	2016	2015
Change in foreign currency translation adjustments:				
Foreign currency translation adjustments	\$ 0.1	\$ 11.5	\$ 28.8	\$ (23.5)
Tax expense (benefit)	-	1.7	3.4	(1.9)
Foreign currency translation adjustments, net of tax	\$ 0.1	\$ 9.8	\$ 25.4	\$ (21.6)
Change in derivative cash flow hedges:				
Commodity hedge contracts	\$ 1.6	\$ 2.0	\$ 1.6	\$ 7.2
Equity interest in investee's other comprehensive income (loss)	-	-	(0.1)	3.9
Pre-tax amount	1.6	2.0	1.5	11.1
Tax expense	0.6	0.7	0.6	4.2
Derivative cash flow hedges, net of tax	\$ 1.0	\$ 1.3	\$ 0.9	\$ 6.9
Change in pension and OPEB liability adjustments:				
Amortization of actuarial loss and prior service credit	\$ (2.4)	\$ (1.6)	\$ (4.8)	\$ (3.2)
Other pension and OPEB plan adjustments	0.1	-	0.3	0.4

16. INVESTMENTS

We own an interest in several manufacturing joint ventures in our chlorovinyls segment. In our chlorovinyls segment, we have a 50 percent ownership interest in RS Cogen, LLC (RS Cogen), which produces electricity and steam that are primarily sold to Axiall and its joint venture partner under take-or-pay contracts with terms

Table of Contents

that extend to 2022 and is reported in our chlorovinyls segment. The joint venture was formed with a wholly-owned subsidiary of Entergy Corporation (Entergy) in 2000 for the construction and operation of a 425 megawatt combined cycle, natural gas-fired cogeneration facility in Lake Charles, Louisiana, the majority of which was financed by loans having terms that extend to 2022 from a syndicate of banks. Axiall's future commitment to purchase electricity and steam from the joint venture per the take-or-pay contracts approximates \$23.5 million per year subject to contractually defined inflation adjustments. As of June 30, 2016, our future commitment under the take-or-pay arrangement approximates \$147.5 million in the aggregate, with purchases during the three and six months ended June 30, 2016 totaling \$6.6 million and \$13.2 million, respectively, and purchases during the three and six months ended June 30, 2015 totaling \$6.4 million and \$12.9 million, respectively.

RS Cogen is a variable interest entity under GAAP. The daily operations of the cogeneration facility are the activities of RS Cogen that most significantly impact its economic performance. These activities are directed by a management team with oversight by a management committee that has equal representation from Axiall and Entergy. By the terms of the joint venture agreement, all decisions of the management committee require approval by a majority of its members. Accordingly, the power to direct the activities of RS Cogen is equally shared between RS Cogen's two owners and, thus, Axiall does not consider itself to be the joint venture's primary beneficiary. Accordingly, Axiall accounts for its investment in RS Cogen under the equity method of accounting. We have recorded our investment in RS Cogen in other assets in the accompanying unaudited condensed consolidated balance sheets and our share of investee earnings in cost of goods sold in the unaudited condensed consolidated statements of operations.

The following table summarizes our maximum exposure to loss associated with RS Cogen as of June 30, 2016 and December 31, 2015:

	June 30,	December 31,
<i>(In millions)</i>	2016	2015
Investment in and net advances to RS Cogen	\$ 9.9	\$ 9.5
Supply contracts	35.3	36.3
Maximum exposure to loss	\$ 45.2	\$ 45.8

We produce chlorine, caustic soda, hydrogen, hydrochloric acid, also known as muriatic acid (HCL), and sodium hypochlorite (bleach) at our Kaohsiung, Taiwan facility. The Kaohsiung, Taiwan facility is operated by Taiwan Chlorine Industries, Ltd. (TCI), a joint venture in which we own a 60 percent interest and consolidate in our unaudited condensed consolidated financial statements in our chlorovinyls segment. The following table presents a reconciliation of our minority partner's ownership interest, reported as noncontrolling interest:

Six Months Ended June 30,

<i>(In millions)</i>	2016	2015
Noncontrolling interest - beginning of period	\$ 74.8	\$ 107.9
Net income attributable to noncontrolling interest	0.8	3.1
Other comprehensive income attributable to noncontrolling interest	2.0	3.0
Distribution to noncontrolling interest	(7.1)	(8.4)
Other	-	(0.1)
Noncontrolling interest - end of period	\$ 70.5	\$ 105.5

On June 17, 2015, Eagle US 2 LLC (Eagle), a wholly-owned subsidiary of the Company, entered into an amended and restated limited liability company agreement with Lotte Chemical USA Corporation (Lotte) related to the formation of LACC, LLC (LACC), which was formed by Eagle and Lotte to design, build and operate a state-of-the-art 1.0 million metric tons per annum ethane cracker (ethylene manufacturing plant) in the Plant. On December 17, 2015, Axiall and Lotte reached a final investment decision to construct the Plant

Table of Contents

and LACC entered into the engineering, procurement and construction agreement with CB&I Inc., the construction contractor. The Plant is being built adjacent to Axiall's largest chlor-alkali chemical facility, located in Lake Charles, Louisiana, to take advantage of Axiall's existing infrastructure, access to competitive feedstock resources, and ethylene distribution infrastructure. The anticipated start-up for the Plant is expected to be the beginning of 2019.

The Plant will provide partial backward integration for Axiall's vinyls business and will supply a new monoethylene glycol (MEG) facility being built by Lotte. Pursuant to a contribution and subscription agreement, dated as of June 17, 2015, between the Company, Eagle and LACC, Eagle has agreed to make a maximum capital commitment to LACC of up to \$225 million to fund the construction costs of the Plant. Eagle's investment is expected to represent approximately 10 percent of the interests of LACC. Eagle and Lotte also entered into a call option agreement, dated as of June 17, 2015, pursuant to which Eagle has the right, but not the obligation, until the third anniversary of the substantial completion of the Plant, to acquire up to a 50 percent ownership interest in LACC from Lotte.

As of June 30, 2016 and December 31, 2015, our investment in LACC is \$34.4 million and \$14.9 million, respectively, and is reflected in other assets in our unaudited condensed consolidated balance sheets. Our investment in LACC is accounted for under the cost method.

17. SEGMENT INFORMATION

We manage our operating activities in two reportable segments: (i) chlorovinyls and (ii) building products. These two segments reflect the organization used by our management to allocate resources and for internal reporting purposes. Our chlorovinyls segment produces a highly integrated chain of chlor-alkali and derivative products (chlorine, caustic soda, vinyl chloride monomer (VCM), vinyl resins, ethylene dichloride, chlorinated solvents, calcium hypochlorite, and hydrochloric acid, also known as muriatic acid, and compound products (vinyl compounds and plasticizers)). Our building products segment manufactures and distributes interior and exterior trim and mouldings products, deck products, siding, pipe and pipe fittings.

Earnings of our segments exclude interest income and expense, unallocated corporate expenses and general plant services and provision for (benefit from) income taxes. Transactions between operating segments are valued at market based prices. The revenues generated by these transfers and reconciliations from consolidated operating income (loss) to consolidated income (loss) from continuing operations before income taxes for the three and six month periods ended June 30, 2016 and 2015 are provided in the tables below.

18. INCOME TAXES

Our continuing operations effective income tax rates for the three and six months ended June 30, 2016 were 51.0 percent and 47.1 percent, respectively compared to 7.7 percent and 19.4 percent, respectively, for the three and six months ended June 30, 2015. The continuing operations effective income tax rates were determined using the estimated annual effective income tax rates after considering discrete income tax items for each respective period. The continuing operations effective income tax rates for the three and six months ended June 30, 2016 were higher than the United States statutory federal income tax rates primarily due to various favorable permanent differences including deductions for depletion. The continuing operations effective income tax rates for the three and six months ended June 30, 2015 were lower than the United States statutory federal income tax rates primarily due to various favorable permanent differences including deductions for depletion and manufacturing activities.

Table of Contents**19. SUBSEQUENT EVENTS**

On August 1, 2016, we filed a definitive proxy statement with the SEC in order to notify the Company's shareholders of a special meeting to be held on August 30, 2016 to vote on the Merger and to seek proxies from the Company's shareholders in connection with such vote.

20. GUARANTOR INFORMATION

Axiall Corporation is primarily a holding company for its 100-percent and majority owned subsidiaries. Payment obligations under the indentures for the 4.875 Notes issued by Axiall Corporation, the 4.625 Notes issued by Spinco and the Term Loan Credit Agreement under which Axiall Holdco is the borrower, as described in Note 10 of the notes to the unaudited condensed consolidated financial statements, are guaranteed by each of Axiall Corporation's 100-percent owned domestic subsidiaries (including Spinco in the case of the 4.875 Notes), other than certain excluded subsidiaries. Axiall Corporation is also a guarantor under the 4.625 Notes issued by Spinco, and the Term Loan Credit Agreement.

As of June 30, 2016, payment obligations under the indenture for the 4.875 Notes issued by Axiall Corporation are guaranteed by Axiall Noteco, Inc., Axiall Holdco, Inc., Axiall, LLC, Georgia Gulf Lake Charles, LLC, Royal Building Products (USA) Inc., Royal Window and Door Profiles Plant 13 Inc., Royal Window and Door Profiles Plant 14 Inc., Plastic Trends, Inc., Rome Delaware Corporation, Royal Plastics Group (U.S.A.) Limited, PHH Monomers, LLC, Eagle Holdco 3 LLC, Eagle US 2 LLC, Axiall Ohio, Inc., Eagle Natrium LLC, and Eagle Pipeline, Inc. (collectively, the "Guarantor Subsidiaries") and Spinco. As of June 30, 2016, payment obligations under the indenture for the 4.625 percent Notes issued by Spinco are guaranteed by Axiall Corporation and each of the Guarantor Subsidiaries.

Each of Spinco and the Guarantor Subsidiaries is a direct or indirect 100-percent owned subsidiary of Axiall Corporation. The guarantees made by each of Axiall Corporation, Spinco and the other Guarantor Subsidiaries are full, unconditional and joint and several. Except as disclosed in Note 10 of the notes to the unaudited condensed consolidated financial statements, there are no restrictions on the ability of Axiall Corporation, Spinco or any other Guarantor Subsidiary to obtain funds from any of its direct or indirect 100-percent owned subsidiaries through dividends, loans or advances as a result of the issuance of the 4.625 Notes or the 4.875 Notes. Separate financial statements and other disclosures with respect to Spinco or the Guarantor Subsidiaries have not been provided as management believes the following information is sufficient. Investments in subsidiaries in the guarantor financial statements reflect investments in 100-percent owned entities within Axiall under the equity accounting method. This presentation of Spinco, the Guarantor Subsidiaries and the non-guarantor subsidiaries of Axiall Corporation (the "Non-Guarantor Subsidiaries") is not included to present the Company's financial condition, results of operations or cash flows for any purpose other than to comply with the specific requirements for subsidiary issuer and subsidiary guarantor reporting.

The following tables present the (i) guarantor unaudited condensed consolidating balance sheets as of June 30, 2016 and December 31, 2015, (ii) guarantor unaudited condensed consolidating statements of operations and comprehensive income (loss) for the three and six month periods ended June 30, 2016 and 2015, and (iii) guarantor unaudited condensed consolidating statements of cash flows for the six months ended June 30, 2016 and 2015, of each of Axiall Corporation (as parent issuer), Spinco (as subsidiary issuer), the Guarantor Subsidiaries (which excludes Spinco), the Guarantor Subsidiaries, including Spinco (which also includes entries necessary to eliminate Spinco's investment in such Guarantor Subsidiaries and other intercompany account balances) and the Non-Guarantor Subsidiaries.

Item 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

General

Axiall Corporation (together with its consolidated subsidiaries, herein referred to as Axiall, the Company, we, us or our), a Delaware corporation incorporated in 1984, is a leading North American manufacturer and international marketer of chemicals and building products. We operate through two reportable segments: (i) chlorovinyls and (ii) building products. These two reportable segments reflect the organization used by our management for purposes of allocating resources and assessing performance. Our chlorovinyls chemical products are sold for further processing into a wide variety of end-use applications, including plastic pipe and pipe fittings, siding and window frames, high-quality plastics, and coatings for wire and cable, paper, minerals, metals and water treatment industries. Our building products segment consists of interior and exterior trim and mouldings products, deck products, siding, pipe and pipe fittings.

Pending Merger

On June 10, 2016, the Company entered into an Agreement and Plan of Merger (the Merger Agreement) with Westlake Chemical Corporation (Westlake) and Lagoon Merger Sub, Inc., a newly formed wholly owned subsidiary of Westlake (Merger Sub). The Merger Agreement provides, among other things and subject to the terms and conditions set forth therein, for the merger of Merger Sub with and into the Company (the Merger), with the Company surviving the Merger as a wholly owned subsidiary of Westlake in a transaction in which each share of the Company's common stock (the Company Common Stock), issued and outstanding immediately prior to the time the Merger becomes effective, other than certain excluded shares as further described in the Merger Agreement, will be converted automatically into the right to receive \$33.00 in cash, without interest (the Merger Consideration). The Merger is expected to be completed by the fourth quarter of 2016.

For additional information relating to the Merger, see the definitive proxy statement contained in Schedule 14A filed with the Securities and Exchange Commission (the SEC) on August 1, 2016 and the Current Report on Form 8-K filed with the SEC on June 13, 2016, including the full text of the Merger Agreement filed as Annex A to the proxy statement and Exhibit 2.1 to the Form 8-K. The proxy statement provided notice and information about the special meeting of the Company's shareholders to vote on the Merger Agreement that will be held on August 30, 2016. See Item IA Risk Factors, herein for information on certain risks relating to the Merger. Axiall and Westlake have received all regulatory approvals required for the Merger, including approvals required by U.S. and Canadian competition laws.

As a result of the Merger, the Company has terminated its previously announced sale process for the remainder of its Building Products business.

Other Portfolio Initiatives

Chlorovinyls

On February 24, 2016, the Company entered into the transactions contemplated by the asset purchase agreement among Royal Group, Inc. (RGI), and the Company, as sellers, and Galata Chemicals (Canada) Inc., as purchaser, for the sale of certain assets of the Company's compound additives business, known as Solucor, and the Company's manufacturing facility located in Bradford, Ontario, for a purchase price of approximately \$9.2 million, subject to adjustment based upon the amount of inventory of the Solucor business on the closing date of the transaction, which

was February 29, 2016. The Company recognized a loss of \$15.5 million on the sale of its Solucor business during the six months ended June 30, 2016.

Page 42 of 70

Table of Contents

On February 24, 2016, the Company entered into an asset purchase agreement among RGI, Royal Window and Door Profiles Plant 13 Inc., Royal Window and Door Profiles Plant 14 Inc., and the Company, as sellers, and North American Profiles Canada, LTD (NAPC), as purchaser, pursuant to which the Company sold its Concord, Ontario compounding operations, to NAPC on March 31, 2016. The sale of our Concord, Ontario compounding operations did not meet the criteria for classification as discontinued operations. The Company recorded a loss on the sale of assets of \$4.0 million that is reflected in restructuring and divestiture costs in our unaudited condensed consolidated statements of operations.

Building Products

On February 24, 2016, the Company entered into an asset purchase agreement among RGI, Royal Window and Door Profiles Plant 13 Inc., Royal Window and Door Profiles Plant 14 Inc., and the Company, as sellers, and NAPC, as purchaser, pursuant to which the Company sold its window and door profiles business, to NAPC on March 31, 2016. The Company concluded that it met the accounting requirements for reporting the financial position, results of operations and cash flows of its former window and door profiles business as discontinued operations when the sale was consummated and recorded a loss on sale of \$25.2 million reflected in loss from discontinued operations in the unaudited consolidated statements of operations.

The Company has terminated its previously announced sale process for the remainder of its Building Products business.

Sale of Aromatics Business: Discontinued Operations

On September 30, 2015, the Company entered into and consummated the transactions contemplated by an asset purchase agreement between INEOS Americas LLC (INEOS) and Axiall LLC, a wholly-owned subsidiary of the Company. Pursuant to such asset purchase agreement, INEOS acquired certain assets used in the Company's aromatics business, including but not limited to, its cumene production facility located in Pasadena, Texas (the Pasadena Cumene Facility). The Company retained the land and plant at its phenol, acetone and alpha-methylstyrene production facility located in Plaquemine, Louisiana (the Plaquemine Phenol Facility), which is part of a broader set of other Axiall chemical manufacturing facilities located in Plaquemine. In addition, the Company retained the following assets associated with its aromatics business: (i) cash and cash equivalents; (ii) accounts receivable; and (iii) inventory, other than certain raw materials and work-in-process inventory at the Pasadena Cumene Facility. The Company has discontinued the manufacture of products at its Plaquemine Phenol Facility and expects to decommission and dismantle that facility by the end of 2016.

Ethane Cracker Project with Lotte Chemical

On June 17, 2015, Eagle US 2 LLC (Eagle), a wholly-owned subsidiary of the Company, entered into an amended and restated limited liability company agreement with Lotte Chemical USA Corporation (Lotte) related to the formation of LACC, LLC (LACC), which is an entity formed by Eagle and Lotte to design, build and operate a state-of-the-art 1.0 million metric tons per annum ethane cracker (ethylene manufacturing plant) in Lake Charles, Louisiana (the Plant). The Plant will provide partial backward integration for Axiall's vinyls business and will supply a new monoethylene glycol facility being built by Lotte. Pursuant to a contribution and subscription agreement, dated as of June 17, 2015, between the Company, Eagle and LACC, Eagle has agreed to make a maximum capital commitment to LACC of up to \$225 million to fund the construction costs of the Plant. Eagle's investment is expected to represent approximately 10 percent of the interests of LACC. Eagle and Lotte also entered into a call option agreement, dated as of June 17, 2015, pursuant to which Eagle

Table of Contents

has the right, but not the obligation, until the third anniversary of the substantial completion of the Plant, to acquire up to a 50 percent ownership interest in LACC from Lotte.

On December 17, 2015, Axiall and Lotte announced that the companies reached a final investment decision to construct the Plant and LACC entered into the engineering, procurement and construction agreement with CB&I Inc., the construction contractor. The Plant is being built adjacent to Axiall's largest chlor-alkali chemical facility, located in Lake Charles, Louisiana, to take advantage of Axiall's existing infrastructure, access to competitive feedstock resources, and ethylene distribution infrastructure. The anticipated start-up for the Plant is expected to be the beginning of 2019. As of June 30, 2016 and December 31, 2015, our investment in LACC is \$34.4 million and \$14.9 million, respectively, and is reflected in other long-term assets in our unaudited condensed consolidated balance sheets.

Consolidated Overview

Net sales totaled \$776.1 million and \$869.2 million for the three months ended June 30, 2016 and 2015, respectively, decreasing by \$93.1 million or approximately 11 percent.

Operating loss was \$37.6 million and Adjusted EBITDA was \$60.7 million for the three months ended June 30, 2016 versus operating income and Adjusted EBITDA of \$43.1 million and \$105.7 million, respectively, for the three months ended June 30, 2015.

Net loss attributable to Axiall was \$27.8 million and diluted loss was \$0.39 per share for the three months ended June 30, 2016 compared to net income attributable to Axiall of \$20.6 million and diluted earnings of \$0.29 per share for the three months ended June 30, 2015. Adjusted Net Income and Adjusted Earnings Per Share were \$8.4 million and \$0.12 per diluted share, respectively, for the three months ended June 30, 2016, and \$34.7 million and \$0.49 per diluted share, respectively, for the three months ended June 30, 2015.

Net sales totaled \$1,475.3 million and \$1,653.8 million for the six months ended June 30, 2016 and 2015, respectively, decreasing by \$178.5 million or approximately 11 percent.

Operating loss was \$72.8 million and Adjusted EBITDA was \$129.7 million for the six months ended June 30, 2016 versus operating income and Adjusted EBITDA of \$65.2 million and \$192.5 million, respectively, for the six months ended June 30, 2015.

Net loss attributable to Axiall was \$81.4 million and diluted loss was \$1.15 per share for the six months ended June 30, 2016 compared to net income attributable to Axiall of \$10.0 million and diluted earnings of \$0.14 per share for the six months ended June 30, 2015. Adjusted Net Income and Adjusted Earnings Per Share were \$20.1 million and \$0.28 per diluted share, respectively, for the six months ended June 30, 2016, and \$41.9 million and \$0.59 per diluted share, respectively, for the six months ended June 30, 2015.

Chlorovinyls Business Overview

Our chlorovinyls segment produces a highly integrated chain of chlor-alkali and derivative products (chlorine, caustic soda, vinyl chloride monomer (VCM), vinyl resins, ethylene dichloride (OR 1, 2 dichloroethane), chlorinated solvents, calcium hypochlorite and hydrochloric acid, also known as muriatic acid) and compound products (vinyl compounds and plasticizers)). As discussed further below, certain highlights from our chlorovinyls segment s results of operations for the three and six months ended June 30, 2016 compared to

Page 44 of 70

Table of Contents

the three and six months ended June 30, 2015 were as follows:

Net sales totaled \$578.4 million and \$666.1 million for the three months ended June 30, 2016 and 2015, respectively, decreasing by \$87.7 million or approximately 13 percent.

Operating loss was \$37.1 million and Adjusted EBITDA was \$42.0 million for the three months ended June 30, 2016 versus operating income and Adjusted EBITDA of \$37.8 million and \$89.0 million, respectively, for the three months ended June 30, 2015.

Net sales totaled \$1,134.5 million and \$1,314.5 million for the six months ended June 30, 2016 and 2015, respectively, decreasing by \$180.0 million or approximately 14 percent.

Operating loss was \$46.7 million and Adjusted EBITDA was \$113.3 million for the six months ended June 30, 2016 versus operating income and Adjusted EBITDA of \$81.6 million and \$185.7 million, respectively, for the six months ended June 30, 2015.

Our chlorovinyls segment is cyclical in nature and is affected by domestic and worldwide economic conditions. Cyclical price swings, driven by changes in supply and demand, can lead to significant changes in the overall profitability of our chlorovinyls segment. The demand for our chlorovinyls products tends to reflect fluctuations in downstream markets that are affected by consumer spending for durable and non-durable goods as well as construction. Global capacity also materially affects the prices of chlorovinyls products. Historically, in periods of high operating rates, prices rise and margins increase and, as a result, new capacity is announced. Since world scale size plants are generally the most cost-competitive, new increases in capacity tend to be on a large scale and are often undertaken by existing industry participants. Usually, as new capacity is added, prices decline until increases in demand improve operating rates and the new capacity is absorbed or, in some instances, until less efficient producers withdraw capacity from the market. As the additional supply is absorbed, operating rates rise, prices increase and the cycle repeats.

In addition, purchased raw materials and natural gas costs account for the majority of our cost of sales and can also have a material effect on our profitability and margins. Some of the primary raw materials used in our chlorovinyls products are ethylene, crude oil and natural gas derivatives and therefore follow the oil and gas industry price trends.

Building Products Business Overview

Our building products segment consists of interior and exterior trim and mouldings products, deck products, siding, pipe and pipe fittings. As discussed further below, certain highlights from our building products segment's results of operations for the three and six months ended June 30, 2016 compared to the three and six months ended June 30, 2015 were as follows:

Net sales totaled \$197.7 million and \$203.1 million for the three months ended June 30, 2016 and 2015, respectively, decreasing by 3 percent. On a constant currency basis, net sales for the three months ended June 30, 2016 decreased by 1 percent.

For the three months ended June 30, 2016, our building products segment's geographical sales to the United States and Canada were 63 percent and 37 percent, respectively, compared with 60 percent and 40 percent, respectively, for the three months ended June 30, 2015.

Operating income was \$26.7 million and Adjusted EBITDA was \$33.8 million for the three months ended June 30, 2016 compared to an operating income of \$23.3 million and Adjusted EBITDA of

Page 45 of 70

Table of Contents

\$29.0 million for the three months ended June 30, 2015.

Net sales totaled \$340.8 million and \$339.3 million for the six months ended June 30, 2016 and 2015, respectively, increasing by \$1.5 million. On a constant currency basis, net sales for the six months ended June 30, 2016 increased by 3 percent.

For the six months ended June 30, 2016, our building products segment's geographical sales to the United States and Canada were 65 percent and 35 percent, respectively, compared with 61 percent and 38 percent, respectively, for the six months ended June 30, 2015.

Operating income was \$30.8 million and Adjusted EBITDA was \$45.3 million for the six months ended June 30, 2016 compared to an operating income of \$19.8 million and Adjusted EBITDA of \$31.9 million for the six months ended June 30, 2015.

The building products segment is impacted by changes in the North American home repair and remodeling sectors and the new construction industry, which may be significantly affected by changes in economic and other conditions such as gross domestic product levels, employment levels, demographic trends, consumer confidence, increases in interest rates and availability of consumer financing for home repair and remodeling projects as well as the availability of financing for new home purchases. These factors can lower the demand for, and pricing of, our products, while we may not be able to reduce our costs by an equivalent amount.

Results of Operations

The following table sets forth our unaudited condensed consolidated statements of operations data for each of the three and six month periods ended June 30, 2016 and 2015, and the percentage of net sales of each line item for the three and six month periods presented.

	Three Months Ended June 30,				Six Months Ended June 30,

Three Months Ended June 30, 2016 versus Three Months Ended June 30, 2015**Consolidated Results**

Net sales. For the three months ended June 30, 2016, net sales totaled \$776.1 million, a decrease of 11 percent compared to \$869.2 million for the three months ended June 30, 2015. The decrease in net sales for the three months ended June 30, 2016 as compared to the three months ended June 30, 2015 was primarily attributable to: (i) a \$87.7 million decrease in the net sales of our chlorovinyls segment due to lower polyvinyl chloride (PVC), VCM and chlorinated derivatives sales prices, lower electrochemical unit (ECU) values, especially with respect to caustic soda pricing and lower volume driven by the extended timing of a scheduled turnaround at our Plaquemine, Louisiana VCM facility (the Plaquemine VCM Facility); and (ii) a \$5.4 million decrease in the net sales of our building products segment, driven primarily by the impact of a stronger United States dollar relative to a weaker Canadian dollar, as well as a 3 percent decrease in sales volumes in Canada, partially offset by a 4 percent increase in sales volumes in the United States.

The lower sales prices for PVC, VCM and chlorinated derivatives were driven by: (i) an oversupply of PVC in North America and globally, relative to demand; (ii) a significant reduction in global oil prices making many foreign producers of PVC and chlorinated derivatives more competitive (i.e., a reduction in the natural-gas-based cost advantage enjoyed by North American producers), which has reduced pricing and margins on North

American-produced PVC and chlorinated derivatives; and (iii) lower average industry costs for natural gas and ethylene. The lower ECU values, especially with respect to caustic soda pricing, have been caused primarily by: (i) the addition of new production capacity in North America starting in 2014 coupled with slower growth in the demand needed to absorb that capacity; and (ii) a significant reduction in global energy prices, primarily oil and coal, making many foreign ECU producers more competitive.

Gross margin percentage. Total gross margin percentage decreased to 9 percent for the three months ended June 30, 2016 from 14 percent for the three months ended June 30, 2015.

Selling, general and administrative expenses. Selling, general and administrative expenses totaled \$69.8 million for the three months ended June 30, 2016, a decrease of 8 percent from \$75.8 million for the three months ended June 30, 2015. The decrease in selling, general and administrative expenses was primarily due to the decrease in compensation and benefit related costs resulting from our workforce reduction activities and cost savings initiatives.

Table of Contents

Restructuring and divestiture costs. Restructuring and divestiture costs consists of three components: (i) costs associated with restructuring activities; (ii) costs associated with divestiture activities; and (iii) long-lived asset impairment charges related to restructuring and divestiture activities. Restructuring and divestiture costs were \$4.5 million and \$0.4 million for the three month periods ended June 30, 2016 and 2015, respectively. The higher restructuring and divestiture costs during the three months ended June 30, 2016 pertained to: (i) \$1.7 million in restructuring costs which primarily related to severance costs associated with our Company-wide cost savings initiatives; and (ii) \$2.8 million in divestiture costs relating to the sale of our Solucor business and our Concord, Ontario compounding operations during the first quarter of 2016, as well as the strategic review of our building products business. During the three months ended June 30, 2015, the Company incurred \$0.4 million in divestiture costs related to the sale of its specialty phosgene derivatives business.

Integration-related costs and other, net. Integration-related costs and other, net, decreased \$2.1 million to \$2.1 million for the three months ended June 30, 2016 from \$4.2 million for the three months ended June 30, 2015. For the three months ended June 30, 2016, our costs included \$1.7 million related to non-capitalizable costs associated with standardizing to a common enterprise resource planning (ERP) platform for our chemicals business and \$0.4 million for the run-off of replacement share-based compensation awards from the PPG Industries (PPG) merger.

Legal and settlement claims, net. Legal and settlement claims, net, totaled \$23.4 million during the three months ended June 30, 2016. On September 19, 2014, three employees at our Natrium, West Virginia facility (Natrium Facility) were injured while changing a valve on a caustic line in the manufacturing plant at such facility. One of the employees eventually died of his injuries. The estate of our deceased employee, and the other two injured employees, have filed lawsuits against one of our subsidiaries, Eagle Natrium LLC (Eagle Natrium), seeking damages for personal injury, death, pain and suffering. Following discovery and court ordered mediation of these lawsuits, we have recorded accruals for these lawsuits of \$34.5 million in the aggregate. Liability relating to these lawsuits in excess of \$25 million is expected to be reimbursed to us pursuant to the indemnity provisions of our excess liability insurance policies and, as such, we also have recorded an offsetting receivable from our insurance carriers of \$9.5 million. In addition, we received proceeds of \$1.6 million from a favorable recovery relating to the British Petroleum Company's Deepwater Horizon Oil Spill (the BP Deepwater Oil Spill) that occurred in April 2010.

Fees associated with unsolicited offer and strategic alternatives. Following Westlake's public proposal to acquire Axiall, announced on January 29, 2016, we incurred legal and professional fees related to Westlake's unsolicited offer and subsequent exploration of strategic alternatives, including negotiation and execution of the Merger Agreement relating to the Merger of Axiall and Westlake executed on June 10, 2016. During the three months ended June 30, 2016, we incurred \$8.4 million in related legal and professional fees, including negotiation and execution of the Merger Agreement. There were no similar fees incurred during the three months ended June 30, 2015. The Company will incur additional legal and professional fees relating to closing the Merger.

Operating income (loss). Operating loss was \$37.6 million and operating income was \$43.1 million for the three months ended June 30, 2016 and 2015, respectively. The operating loss during the three months ended June 30, 2016 when compared to operating income for the three months ended June 30, 2015 was primarily attributable to a \$37.1 million operating loss, in our chlorovinyls segment which resulted from: (i) lower PVC, VCM and chlorinated derivatives sales prices, driven by the factors described above; (ii) a \$25.0 million charge to legal and settlement claims, net, pertaining to an accident at our Natrium Facility in September 2014, partially offset by a \$1.6 million favorable recovery from the BP Deepwater Oil Spill; (iii) lower ECU values, especially with respect to caustic soda pricing; and (iv) lower sales volume and higher maintenance expenses driven by the extended timing of a scheduled turnaround at our Plaquemine VCM Facility. These unfavorable factors were partially offset by decreases in our cost of ethylene and natural gas and an increase in the operating income of

Table of Contents

our building products segment. For the three months ended June 30, 2016, building products operating income increased \$3.4 million to \$26.7 million from an operating income of \$23.3 million for the three months ended June 30, 2015. The increase in the operating income of our building products segment was primarily a result of lower raw material costs, lower selling, general and administrative expenses and higher sales volumes, offset in part by the impact of a stronger United States dollar relative to a weaker Canadian dollar and higher charges relating to restructuring activities.

Interest expense, net. Interest expense, net, was \$18.0 million and \$18.3 million for the three months ended June 30, 2016 and 2015, respectively.

Foreign currency exchange loss. Foreign currency exchange loss was \$0.1 million for both the three month periods ended June 30, 2016 and 2015.

Provision for (benefit from) income taxes. The benefit from income taxes from continuing operations was \$28.4 million for the three months ended June 30, 2016 and the provision for income taxes from continuing operations was \$1.9 million for the three months ended June 30, 2015. The change in income tax to a benefit in 2016 from a provision in 2015 was primarily due to a loss from continuing operations before income taxes during the three months ended June 30, 2016 compared to income from continuing operations for the three months ended June 30, 2015. During the three months ended June 30, 2016 and 2015, the Company recorded a benefit from income taxes of \$1.7 million and \$0.8 million, respectively, pertaining to the discontinued operations of our window and door profiles reporting unit and our former aromatics segment.

Our continuing operations effective income tax rates for the three months ended June 30, 2016 and 2015 were 51.0 percent and 7.7 percent, respectively. The difference in our continuing operations effective income tax rate as compared to the United States statutory federal income tax rate in 2016 was primarily due to various favorable permanent differences including deductions for depletion. The difference in our continuing operations effective income tax rate as compared to the United States statutory federal income tax rate in 2015 was primarily due to various favorable permanent differences including deductions for depletion and manufacturing activities.

Net loss from discontinued operations. On February 24, 2016, the Company entered into an asset purchase agreement among RGI, Royal Window and Door Profiles Plant 13 Inc., Royal Window and Door Profiles Plant 14 Inc., and the Company, as sellers, and NAPC, as purchaser, pursuant to which the Company sold its window and door profiles business, to NAPC on March 31, 2016. Also, on September 30, 2015, the Company sold certain assets in our aromatics business to INEOS, pursuant to the terms of an asset purchase agreement, including the Pasadena Cumene Facility. These sales were treated as discontinued operations for accounting purposes. Net loss from discontinued operations was not material for the three months ended June 30, 2016 and was \$0.9 million for the three months ended June 30, 2015.

Chlorovinyls Segment

Net sales. Net sales totaled \$578.4 million for the three months ended June 30, 2016, a decrease of 13 percent from net sales of \$666.1 million for the comparable three month period of 2015. The decrease in net sales was primarily due to: (i) lower PVC, VCM and chlorinated derivatives sales prices; (ii) lower ECU values, especially with respect to caustic soda pricing; and (iii) lower sales volume driven by the extended timing of a scheduled turnaround at our Plaquemine VCM Facility.

The lower sales prices for PVC, VCM and chlorinated derivatives were driven by: (i) an oversupply of PVC in North America and globally, relative to demand; (ii) a significant reduction in global oil prices making many foreign

producers of PVC and chlorinated derivatives more competitive (i.e., a reduction in the natural-gas-

Page 49 of 70

Table of Contents

based cost advantage enjoyed by North American producers), which has reduced pricing and margins on North American-produced PVC and chlorinated derivatives; and (iii) lower average industry costs for natural gas and ethylene. The lower ECU values, especially with respect to caustic soda pricing, have been caused primarily by: (i) the addition of new production capacity in North America starting in 2014 coupled with slower growth in the demand needed to absorb that capacity; and (ii) a significant reduction in global energy prices, primarily oil and coal, making many foreign ECU producers more competitive.

Operating income (loss). Operating loss was \$37.1 million during the three months ended June 30, 2016 and operating income was \$37.8 million for the three months ended June 30, 2015. The \$74.9 million decrease in operating income was due to: (i) lower PVC, VCM and chlorinated derivatives sales prices, driven by the factors described in the preceding paragraph; (ii) a \$25.0 million charge to legal and settlement claims, net, pertaining to an accident at our Natrium Facility in September 2014, partially offset by a \$1.6 million favorable recovery from the BP Deepwater Oil Spill; (iii) lower ECU values, especially with respect to caustic soda pricing; and (iv) lower sales volume and higher maintenance expenses driven by the extended timing of a scheduled turnaround at our Plaquemine VCM Facility. These unfavorable factors were partially offset by decreases in our cost of ethylene and natural gas. According to the July 2016 IHS, Inc. (IHS) report, average industry natural gas prices decreased 26 percent and average industry ethylene prices decreased 11 percent for the three months ended June 30, 2016, compared to the three months ended June 30, 2015. The Adjusted EBITDA decrease of \$47.0 million to \$42.0 million for the three months ended June 30, 2016 from \$89.0 million for the three months ended June 30, 2015 was predominantly due to the factors discussed above in items (i), (iii) and (iv).

Building Products Segment

Net Sales. Net sales totaled \$197.7 million for the three months ended June 30, 2016, decreasing 3 percent from \$203.1 million for the comparable three month period of 2015. The net sales decrease was driven by the impact of a stronger United States dollar relative to a weaker Canadian dollar, as well as a 3 percent decrease in sales volumes in Canada, partially offset by a 4 percent increase in sales volumes in the United States. On a constant currency basis, net sales decreased by 1 percent for the three months ended June 30, 2016 compared to the three months ended June 30, 2015. For the three months ended June 30, 2016, our building products segment's geographical sales to the United States and Canada were 63 percent and 37 percent, respectively, compared to 60 percent and 40 percent, respectively, for the three months ended June 30, 2015.

Operating Income. Operating income was \$26.7 million and \$23.3 million for the three months ended June 30, 2016 and 2015, respectively. The increase in operating income was primarily a result of lower material cost, lower selling, general and administrative expenses and higher sales volumes, offset in part by the impact of a stronger United States dollar relative to a weaker Canadian dollar and higher charges relating to restructuring activities. Adjusted EBITDA was \$33.8 million and \$29.0 million for the three months ended June 30, 2016 and 2015, respectively. The increase in Adjusted EBITDA was primarily a result of lower material costs, lower selling, general and administrative expenses and higher sales volumes, offset in part by the impact of a stronger United States dollar relative to a weaker Canadian dollar.

Six Months Ended June 30, 2016 versus Six Months Ended June 30, 2015**Consolidated Results**

Net sales. For the six months ended June 30, 2016, net sales totaled \$1,475.3 million, a decrease of 11 percent compared to \$1,653.8 million for the six months ended June 30, 2015. The decrease in net sales for the six months ended June 30, 2016 as compared to the six months ended June 30, 2015 was primarily attributable to: (i) a \$180.0

million decrease in the net sales of our chlorovinyls segment due to lower PVC, VCM and chlorinated derivatives sales prices, lower ECU values, especially with respect to caustic soda

Page 50 of 70

Table of Contents

pricing and lower sales volume driven by the extended timing of a scheduled turnaround at our Plaquemine VCM Facility; partially offset by (ii) a \$1.5 million increase in the net sales of our building products segment, driven primarily by a 5 percent increase in sales volumes, with sales volumes in the United States increasing by 9 percent, offset in part by the impact of a stronger United States dollar relative to a weaker Canadian dollar.

The lower sales prices for PVC, VCM and chlorinated derivatives were driven by: (i) an oversupply of PVC in North America and globally, relative to demand; (ii) a significant reduction in global oil prices making many foreign producers of PVC and chlorinated derivatives more competitive (i.e., a reduction in the natural-gas-based cost advantage enjoyed by North American producers), which has reduced pricing and margins on North American-produced PVC and chlorinated derivatives; and (iii) lower average industry costs for natural gas and ethylene. The lower ECU values, especially with respect to caustic soda pricing, have been caused primarily by: (i) the addition of new production capacity in North America starting in 2014 coupled with slower growth in the demand needed to absorb that capacity; and (ii) a significant reduction in global energy prices, primarily oil and coal, making many foreign ECU producers more competitive.

Gross margin percentage. Total gross margin percentage decreased to 10 percent for the six months ended June 30, 2016 from 14 percent for the six months ended June 30, 2015.

Selling, general and administrative expenses. Selling, general and administrative expenses totaled \$139.9 million for the six months ended June 30, 2016, a decrease of 8 percent from \$151.8 million for the six months ended June 30, 2015. The decrease in selling, general and administrative expenses was primarily due to the decreases in compensation and benefit related costs, as a result of our cost reduction initiatives, and legal and other professional fees.

Restructuring and divestiture costs. Restructuring and divestiture costs consists of three components: (i) costs associated with restructuring activities; (ii) costs associated with divestiture activities; and (iii) long-lived asset impairment charges related to restructuring and divestiture activities. Restructuring and divestiture costs were \$41.2 million and \$1.1 million for the six month periods ended June 30, 2016 and 2015, respectively. The higher restructuring and divestiture costs during the six months ended June 30, 2016 pertained to: (i) \$15.7 million in restructuring costs which included \$11.9 million in severance costs related to our Company-wide cost savings initiatives; and (ii) \$25.5 million in divestiture costs which included losses of \$20.8 million on the sales of our Solucor business and our Concord, Ontario compounding operations. During the six months ended June 30, 2015, the Company incurred \$1.1 million of restructuring and divestiture costs of which \$0.5 million pertained to the impairment of long-lived assets, \$0.4 million related to the sale of our specialty phosgene derivatives business and \$0.1 million in connection with severance payments.

Integration-related costs and other, net. Integration-related costs and other, net, decreased \$3.8 million to \$5.5 million for the six months ended June 30, 2016 from \$9.3 million for the six months ended June 30, 2015. For the six months ended June 30, 2016, our costs included \$4.5 million related to non-capitalizable costs associated with standardizing to a common ERP platform for our chemicals business and \$0.9 million for the run-off of replacement share-based compensation awards from the PPG merger.

Legal and settlement claims, net. Legal and settlement claims, net, totaled \$23.4 million during the six months ended June 30, 2016. On September 19, 2014, three employees at our Natrium Facility were injured while changing a valve on a caustic line in the manufacturing plant at such facility. One of the employees eventually died of his injuries. The estate of our deceased employee, and the other two injured employees, have filed lawsuits against one of our subsidiaries, Eagle Natrium, seeking damages for personal injury, death, pain and suffering. Following discovery and court ordered mediation of these lawsuits, we have recorded accruals for these lawsuits of \$34.5 million in the

aggregate. Liability relating to these lawsuits in excess of \$25 million is

Page 51 of 70

Table of Contents

expected to be reimbursed to us pursuant to the indemnity provisions of our excess liability insurance policies and, as such, we also have recorded an offsetting receivable from our insurance carriers of \$9.5 million. In addition, we received proceeds of \$1.6 million from a favorable recovery relating to the BP Deepwater Oil Spill that occurred in April 2010.

Fees associated with unsolicited offer and strategic alternatives. Following Westlake's public proposal to acquire Axiall, announced on January 29, 2016, we incurred legal and professional fees related to Westlake's unsolicited offer and subsequent exploration of strategic alternatives, including negotiation and execution of the Merger Agreement relating to the Merger executed by Axiall and Westlake on June 10, 2016. During the six months ended June 30, 2016, we incurred \$13.6 million in related legal and professional fees, including negotiation and execution of the Merger Agreement. There were no similar fees incurred during the six months ended June 30, 2015. The Company will incur additional legal and professional fees relating to closing the Merger.

Operating income (loss). Operating loss was \$72.8 million and operating income was \$65.2 million for the six months ended June 30, 2016 and 2015, respectively. The operating loss during the six months ended June 30, 2016 when compared to operating income for the six months ended June 30, 2015 was primarily attributable to a \$46.7 million operating loss, in our chlorovinyls segment which resulted from: (i) lower PVC, VCM and chlorinated derivatives sales prices, driven by the factors described above; (ii) lower ECU values, especially with respect to caustic soda pricing; (iii) a \$25.0 million charge to legal and settlement claims, net, pertaining to an accident at our Natrium Facility in September 2014, partially offset by a \$1.6 million favorable recovery from the BP Deepwater Oil Spill; (iv) \$20.8 million in losses related to the sale of two non-core business units, Solucor and Axiall's Concord, Ontario compounding operations; (v) lower sales volume and higher maintenance expenses driven by the extended timing of a scheduled turnaround at our Plaquemine VCM Facility; and (vi) \$10.3 million in severance and other costs related to restructuring activities associated with our 2016 cost savings initiatives. These unfavorable factors were partially offset by decreases in our cost of ethylene and natural gas and an increase in the operating income of our building products segment. For the six months ended June 30, 2016, building products operating income increased \$11.0 million to \$30.8 million from an operating income of \$19.8 million for the six months ended June 30, 2015. The increase in the operating income of our building products segment was primarily a result of lower raw material costs, higher sales volumes, and lower selling, general and administrative expenses, offset in part by the impact of a stronger United States dollar relative to a weaker Canadian dollar and higher charges relating to restructuring activities.

Interest expense, net. Interest expense, net, was \$35.0 million and \$35.9 million for the six months ended June 30, 2016 and 2015, respectively.

Debt refinancing costs. During the six months ended June 30, 2015, the Company refinanced its existing term loan facility, increasing the principal balance to \$250 million and incurred \$3.2 million in fees related to the transaction. There were no similar activities during the six months ended June 30, 2016.

Foreign currency exchange loss. Foreign currency exchange loss was \$1.0 million and \$0.8 million, for the six months ended June 30, 2016 and 2015 respectively.

Provision for (benefit from) income taxes. The benefit from income taxes from continuing operations was \$51.2 million for the six months ended June 30, 2016 and the provision for income taxes from continuing operations was \$4.9 million for the six months ended June 30, 2015. The change in income tax to a benefit in 2016 from a provision in 2015 was primarily due to a loss from continuing operations before income taxes during the six months ended June 30, 2016 compared to income from continuing operations for the six months ended June 30, 2015. During the six months ended June 30, 2016 and 2015, the Company recorded a benefit from income

Table of Contents

taxes of \$10.1 million and \$1.6 million, respectively, pertaining to the discontinued operations of our window and door profiles reporting unit and our former aromatics segment.

Our continuing operations effective income tax rates for the six months ended June 30, 2016 and 2015 were 47.1 percent and 19.4 percent, respectively. The difference in our continuing operations effective income tax rate as compared to the United States statutory federal income tax rate in 2016 was primarily due to various favorable permanent differences including deductions for depletion. The difference in our continuing operations effective income tax rate as compared to the United States statutory federal income tax rate in 2015 was primarily due to various favorable permanent differences including deductions for depletion and manufacturing activities.

Net loss from discontinued operations. On February 24, 2016, the Company entered into an asset purchase agreement among RGI, Royal Window and Door Profiles Plant 13 Inc., Royal Window and Door Profiles Plant 14 Inc., and the Company, as sellers, and NAPC, as purchaser, pursuant to which the Company sold its window and door profiles business, to NAPC on March 31, 2016. As a result, the Company recorded a loss from the sale of assets totaling \$25.2 million. There was no similar transaction during the six months ended June 30, 2015. Also, on September 30, 2015, the Company sold certain assets in our aromatics business to INEOS, pursuant to the terms of an asset purchase agreement, including the Pasadena Cumene Facility. Net loss from discontinued operations for the six months ended June 30, 2016 and 2015 was \$23.0 million and \$7.3 million, respectively, relating to the sale of both our window and door profiles business and our aromatics business.

Chlorovinyls Segment

Net sales. Net sales totaled \$1,134.5 million for the six months ended June 30, 2016, a decrease of 14 percent from net sales of \$1,314.5 million for the comparable six month period of 2015. The decrease in net sales was primarily due to: (i) lower PVC, VCM and chlorinated derivatives sales prices; (ii) lower ECU values, especially with respect to caustic soda pricing; and (iii) lower sales volume driven by the extended timing of a scheduled turnaround at our Plaquemine VCM Facility.

The lower sales prices for PVC, VCM and chlorinated derivatives were driven by: (i) an oversupply of PVC in North America and globally, relative to demand; (ii) a significant reduction in global oil prices making many foreign producers of PVC and chlorinated derivatives more competitive (i.e., a reduction in the natural-gas-based cost advantage enjoyed by North American producers), which has reduced pricing and margins on North American-produced PVC and chlorinated derivatives; and (iii) lower average industry costs for natural gas and ethylene. The lower ECU values, especially with respect to caustic soda pricing, have been caused primarily by: (i) the addition of new production capacity in North America starting in 2014 coupled with slower growth in the demand needed to absorb that capacity; and (ii) a significant reduction in global energy prices, primarily oil and coal, making many foreign ECU producers more competitive.

Operating income (loss). Operating loss was \$46.7 million during the six months ended June 30, 2016 and operating income was \$81.6 million for the six months ended June 30, 2015. The \$128.3 million decrease in operating income was due to: (i) lower PVC, VCM and chlorinated derivatives sales prices, driven by the factors described in the preceding paragraph; (ii) lower ECU values, especially with respect to caustic soda pricing; (iii) a \$25.0 million charge to legal and settlement claims, net, pertaining to an accident at our Natrium Facility in September 2014, partially offset by a \$1.6 million favorable recovery from the BP Deepwater Oil Spill; (iv) \$20.8 million in losses related to the sale of two non-core business units, Solucor and Axiall's Concord, Ontario compounding operations; (v) lower sales volume and higher maintenance expenses driven by the extended timing of a scheduled turnaround at our Plaquemine VCM Facility; and (vi) \$10.4 million in severance and other costs related to restructuring activities in connection with our 2016 cost savings initiatives. These unfavorable

Table of Contents

factors were partially offset by decreases in our cost of ethylene and natural gas. According to the July 2016 IHS report, average industry natural gas prices decreased 27 percent and average industry ethylene prices decreased 17 percent for the six months ended June 30, 2016, compared to the six months ended June 30, 2015. The Adjusted EBITDA decrease of \$72.4 million to \$113.3 million for the six months ended June 30, 2016 from \$185.7 million for the six months ended June 30, 2015 was predominantly due to the factors discussed above in items (i), (ii) and (v).

Building Products Segment

Net Sales. Net sales totaled \$340.8 million for the six months ended June 30, 2016, increasing slightly from \$339.3 million for the comparable six months of 2015. The net sales increase was driven by a 5 percent increase in sales volumes, with sales volumes in the United States increasing by 9 percent, offset in part by the impact of a stronger United States dollar relative to a weaker Canadian dollar. On a constant currency basis, net sales increased by 3 percent for the six months ended June 30, 2016 compared to the six months ended June 30, 2015. For the six months ended June 30, 2016, our building products segment's geographical sales to the United States and Canada were 65 percent and 35 percent, respectively, compared to 61 percent and 38 percent, respectively, for the six months ended June 30, 2015.

Operating Income. Operating income was \$30.8 million and \$19.8 million for the six months ended June 30, 2016 and 2015, respectively. The increase in operating income was primarily a result of lower material costs, higher sales volumes, and lower selling, general and administrative expenses, offset in part by the impact of a stronger United States dollar relative to a weaker Canadian dollar and higher charges relating to restructuring activities. Adjusted EBITDA was \$45.3 million and \$31.9 million for the six months ended June 30, 2016 and 2015, respectively. The increase in Adjusted EBITDA was primarily a result of lower material costs, higher sales volumes and lower selling, general and administrative expenses, offset in part by the impact of a stronger United States dollar relative to a weaker Canadian dollar.

Reconciliation of Non-GAAP Financial Measures

In addition to its consolidated financial statements prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) that are set forth in this Quarterly Report on Form 10-Q (the Financial Statements), Axiall reports four non-GAAP financial measures: (i) Adjusted Net Income; (ii) Adjusted Earnings Per Share; (iii) Adjusted EBITDA; and (iv) building products net sales on a constant currency basis.

Adjusted Earnings or Loss Per Share is calculated using Adjusted Net Income or Loss rather than consolidated net income or loss attributable to Axiall calculated in accordance with GAAP.

Adjusted Net Income or Loss is defined as consolidated net income or loss attributable to Axiall excluding adjustments for tax-effected restructuring and certain other charges, if any, related to discontinued operations, financial restructuring and business improvement initiatives, gains or losses on sales of certain assets, debt refinancing costs, certain acquisition accounting and non-income tax reserve adjustments, certain professional fees associated with various potential and completed mergers and acquisitions, divestitures, joint ventures and other transactions, costs to attain synergies related to the integration of the former chlor-alkali and derivatives business of PPG (the Merged Business), legal and professional fees related to Westlake's unsolicited offer to acquire the Company and our exploration of strategic alternatives, including negotiation and execution of the Merger Agreement relating to the Merger, certain favorable and unfavorable legal claims, amortization of definite-lived intangible assets, impairment charges for goodwill, intangible assets, and other long-lived assets. For the three and six months ended June 30, 2016 and 2015, we have excluded amortization of definite-lived intangible assets from our calculation of Adjusted Net Income and intend to do so in future periods. We believe

Table of Contents

excluding this item from our calculation of Adjusted Net Income is helpful to investors because the amortization of our intangible assets is a non-cash charge that does not impact our liquidity and is not representative of our operational performance.

Adjusted EBITDA is defined as Earnings or Loss Before Interest, Taxes, Depreciation and Amortization, restructuring and certain other charges, if any, related to discontinued operations, financial restructuring and business improvement initiatives, gains or losses on sales of certain assets, debt refinancing costs, certain acquisition accounting and non-income tax reserve adjustments, certain professional fees associated with various potential and completed mergers and acquisitions, divestitures, joint ventures and other transactions, costs to attain synergies related to the integration of the Merged Business, legal and professional fees related to Westlake's unsolicited offer to acquire the Company, and our exploration of strategic alternatives, including negotiation and execution of the Merger Agreement relating to the Merger, certain favorable and unfavorable legal claims, impairment charges for goodwill, intangible assets, and other long-lived assets, certain pension and other post-retirement plan curtailment gains and settlement losses and interest expense related to the lease-financing transaction discussed in Note 10 of the Notes to the Unaudited Condensed Consolidated Financial Statements in this Quarterly Report on Form 10-Q.

Axiall reports Adjusted Net Income or Loss and Adjusted Earnings or Loss Per Share because investors commonly use financial measures such as Adjusted Net Income or Loss and Adjusted Earnings or Loss Per Share as a component of performance and valuation analysis for companies, such as Axiall, that recently have engaged in transactions and have incurred expenses such as professional fees related to potential transactions, that result in non-recurring pre-tax charges or benefits that have a significant impact on the calculation of consolidated net income or loss attributable to Axiall pursuant to GAAP, in order to approximate the amount of net income or loss that such a company would have achieved absent those non-recurring, transaction-related charges or benefits. In addition, Axiall reports Adjusted Net Income or Loss and Adjusted Earnings or Loss Per Share because we believe these financial measures will be helpful to investors in approximating what our net income or loss would have been absent the impact of certain non-recurring, pre-tax charges and benefits. We have reported Adjusted EBITDA because investors commonly use Adjusted EBITDA as a main component of valuation analysis of cyclical companies such as Axiall.

In addition, we may compare certain financial information, including building products net sales on a constant currency basis. We present such information to provide a framework for investors to assess how our underlying businesses performed, excluding the effect of foreign currency rate fluctuations, primarily fluctuations in the Canadian dollar. To present this information, current and comparative prior period financial information for certain businesses reporting in currencies other than United States dollars are converted into United States dollars at the average exchange rate in effect during the base period, rather than the average exchange rates in effect during the respective periods.

Adjusted Earnings or Loss Per Share, Adjusted Net Income or Loss, Adjusted EBITDA and building products net sales on a constant currency basis, are not measurements of financial performance under GAAP and should not be considered as an alternative to net income or loss, GAAP diluted earnings or loss per share or net sales, as a measure of performance or as an alternative to cash provided by or used in operating activities as a measure of liquidity. In addition, our calculation of these various non-GAAP measurements may be different from the calculations used by other companies and, therefore, comparability may be limited.

Reconciliations of our non-GAAP financial measures to the most comparable GAAP measures are presented in the tables set forth below.

Table of Contents**Adjusted Earnings Per Share Reconciliation**

	Three Months Ended June 30,		Six Months Ended June 30,

Table of Contents**Liquidity and Capital Resources***Overview*

Historically, our primary sources of liquidity and capital resources have included cash provided by operations, proceeds from the sale of assets, the issuance of debt, and the use of available revolving credit and other borrowing facilities. As of June 30, 2016, we had liquidity of \$512.3 million, comprised of approximately \$383.9 million of availability under our second amended and restated asset based revolving credit facility (the ABL Revolver) and \$128.4 million in cash and cash equivalents. The net change in cash and cash equivalents for the six months ended June 30, 2016 and 2015 consisted of the following:

<i>(In millions)</i>	Six Months Ended June 30,	
	2016	2015
Net cash provided by (used in) operating activities	\$ (6.2)	\$ 36.2
Net cash used in investing activities	\$ (81.3)	\$ (68.5)
Net cash provided by (used in) financing activities	\$ (47.5)	\$ 1.5
Effect of exchange rate changes on cash and cash equivalents	5.4	(4.6)
Net change in cash and cash equivalents	\$ (129.6)	\$ (35.4)

Operating Activities. In the unaudited condensed consolidated statements of cash flows, changes in operating assets and liabilities are presented excluding the effects of changes in foreign currency, non-cash transactions and the effects of acquisitions and divestitures. Accordingly, the amounts in the unaudited condensed consolidated statements of cash flows differ from changes in the operating assets and liabilities that are presented in the unaudited condensed consolidated balance sheets.

As of June 30, 2016, net working capital was \$481.4 million, a decrease of \$173.7 million as compared to net working capital of \$655.1 million as of June 30, 2015. The decrease in net working capital for the six months ended June 30, 2016 when compared to the six months ended June 30, 2015, was primarily due to the reduction in current assets resulting from the sale of our window and door profiles business, as well as the sale of our Solucor business and our Concord, Ontario compounding operations, as well as a slight increase in our current liabilities.

Operating working capital used in operations for the six month periods ended June 30, 2016 and 2015 was \$59.7 million and \$68.2 million, respectively, decreasing by \$8.5 million. The decrease in operating working capital during the six months ended June 30, 2016 as compared to the six months ended June 30, 2015 was primarily due to: (i) a \$60.7 million increase in other accrued liabilities; (ii) a \$27.0 million increase in inventories; (iii) a \$14.2 million increase in accounts payable; (iv) a \$13.8 million increase in accrued compensation; partially offset by (iv) a \$67.4 million decrease in prepaid expenses and other; (v) a \$6.1 million decrease in accrued income taxes; and (vi) a \$33.7 million decrease in accounts receivable.

Investing Activities. For the six months ended June 30, 2016, net cash used in investing activities increased \$12.8 million as compared to the six months ended June 30, 2015, primarily due to: (i) \$26.8 million in net cash flows provided from the sale of our window and door profiles business in February 2016, reflected in cash provided by (used in) investing activities discontinued operations on our unaudited condensed consolidated statements of cash flows; (ii) \$11.5 million, in net cash proceeds received primarily from the sale of our non-core Solucor business in Bradford, Ontario in February 2016; offset in part by (iii) a \$45.7 million increase in capital expenditures which included a \$25.0 million increase in cash used to fund our investment in LACC.

Table of Contents

Financing Activities. For the six months ended June 30, 2016, net cash used in financing activities was \$47.5 million as compared to net cash provided by financing activities of \$1.5 million during the six months ended June 30, 2015. For the six months ended June 30, 2016, net cash used in financing activities was primarily comprised of: (i) \$22.8 million in dividend payments to shareholders; (ii) a \$15.0 million deferred acquisition payment to PPG in connection with the funding status of certain assumed pension plans of the Merged Business (our final such payment is due in fiscal year 2017); and (iii) a \$7.1 million dividend payment to our noncontrolling interest. During the six months ended June 30, 2015, our financing activities included entering into our New \$250 million term loan facility (the New Term Loan Facility) totaling \$248.8 million, net, partially offset by: (i) \$196.1 million in long-term debt repayments; (ii) \$23.1 million in dividend payments to shareholders; (iii) a \$10.0 million deferred acquisition payment to PPG; (iv) an \$8.4 million dividend payment to our noncontrolling interest; and (v) \$6.2 million in share based compensation plan activities.

As of June 30, 2016 and December 31, 2015, our long-term debt consisted of the following:

<i>(In millions)</i>	Maturity Date	June 30, 2016	December 31, 2015
4.625 Notes (net of debt issuance costs totaling \$8.8 million and \$9.6 million at June 30, 2016 and December 31, 2015, respectively)	February 15, 2021	\$ 679.2	\$ 678.4
4.875 Notes (net of debt issuance costs totaling \$5.4 million and \$5.8 million at June 30, 2016 and December 31, 2015, respectively)	May 15, 2023	444.6	444.2
New Term Loan Facility (net of deferred financing fees totaling \$2.8 million and \$3.1 million at June 30, 2016 and December 31, 2015, respectively)	February 27, 2022	243.5	244.4
ABL Revolver	December 17, 2019	-	-
Total debt		1,367.3	1,367.0
Less: current portion of long-term debt		(2.5)	(2.5)

Long-term debt, net	\$ 1,364.8	\$ 1,364.5
---------------------	------------	------------

4.625 Notes

The Company and certain of its subsidiaries guarantee \$688.0 million in aggregate principal amount of 4.625 percent senior unsecured notes due 2021 (the 4.625 Notes) that were issued by a wholly-owned subsidiary, Eagle Spinco Inc. (Spinco), on January 28, 2013. Interest payments on the 4.625 Notes commenced on August 15, 2013 and interest is payable semi-annually in arrears on February 15 and August 15 of each year. The 4.625 Notes are fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis by the Company and by its existing and future domestic subsidiaries, other than certain excluded subsidiaries.

4.875 Notes

On February 1, 2013, the Company issued \$450.0 million in aggregate principal amount of 4.875 percent senior unsecured notes due 2023 (the 4.875 Notes). Interest payments on the 4.875 Notes commenced on May 15, 2013 and interest is payable semi-annually in arrears on May 15 and November 15 of each year. The 4.875 Notes are fully and unconditionally guaranteed, jointly and severally, on a senior unsecured basis by each of our existing and future domestic subsidiaries, other than certain excluded subsidiaries.

Table of Contents***Term Loan***

On February 27, 2015, Axiall Holdco, Inc., a wholly-owned subsidiary of the Company (Axiall Holdco), entered into a credit agreement with a syndicate of financial institutions (the Term Loan Agreement) the New Term Loan Facility to refinance the principal amount outstanding under the Company s existing term loan facility, to pay related fees and expenses, and for general corporate purposes. Obligations under the New Term Loan Facility are fully and unconditionally guaranteed, on a senior secured basis, by the Company and by each of the Company s existing and future wholly-owned domestic subsidiaries, other than certain excluded subsidiaries. The obligations under the New Term Loan Facility are secured by substantially all of the assets of Axiall Holdco, Axiall Corporation and the subsidiary guarantors.

The New Term Loan Facility contains an accordion feature that permits Axiall Holdco, subject to certain conditions and to obtaining lender commitments, to incur additional term loans under the New Term Loan Facility in an amount up to the greater of: (i) \$250 million; and (ii) an amount that would not result in the Company s consolidated secured debt ratio being greater than 2.50 to 1.00.

At the election of Axiall Holdco, the New Term Loan Facility bears interest at a rate equal to: (i) the Base Rate (as defined in the Term Loan Agreement) plus 1.50 percent per annum; or (ii) LIBOR (as defined in the Term Loan Agreement) plus 3.25 percent per annum; provided that at no time will the Base Rate be deemed to be less than 2.00 percent per annum or LIBOR be deemed to be less than 0.75 percent per annum. As of June 30, 2016, outstanding borrowings under the New Term Loan Facility had a stated interest rate of 4.00 percent per annum.

The Term Loan Agreement contains customary covenants (subject to exceptions), including certain restrictions on the Company and its subsidiaries to pay dividends and repurchase shares of the Company Common Stock.

ABL Revolver

The ABL Revolver, which the Company entered into on December 17, 2014, provides for a maximum of \$600.0 million of revolving credit, subject to applicable borrowing base limitations and certain other conditions. The credit agreement governing the ABL Revolver (the ABL Credit Agreement) contains customary covenants, including certain restrictions on the Company and its subsidiaries to pay dividends and repurchase shares of Company Common Stock. These covenants are subject to certain exceptions and qualifications. Under the ABL Revolver, dividend payments and repurchases of Company Common Stock in an aggregate amount not to exceed \$150 million in any fiscal year may be made if both borrowing availability under the ABL Revolver would have exceeded \$75 million at all times during the thirty days immediately preceding any such restricted payment and our consolidated fixed charge coverage ratio (as defined in the ABL Revolver) is equal to or exceeds 1.00 to 1.00, each on a pro forma basis after giving effect to any such proposed restricted payment. In addition, under the ABL Revolver, additional cash dividend payments and repurchases of Company Common Stock may be made if both borrowing availability under the ABL Revolver then exceeds \$100 million and our consolidated fixed charge coverage ratio (as defined in the ABL Revolver) is equal to or exceeds 1.10 to 1.00, each on a pro forma basis after giving effect to the proposed restricted payment. On December 30, 2015, we amended our ABL Credit Agreement to, among other things, provide additional flexibility to pay dividends and consummate stock repurchases, modify the definition of consolidated EBITDA to include certain additional add backs and reductions to net income in determining consolidated EBITDA (as defined in the ABL Revolver), revise the definition of consolidated capital expenditures to exclude capital expenditures made in connection with the Plant, and provide for a reduction in the amount of its basket for investments in such a plant by the amount of such capital expenditures that are excluded from the definition of consolidated capital expenditures.

Table of Contents

As of June 30, 2016 and December 31, 2015, we had no outstanding balance under our ABL Revolver. Our availability under the ABL Revolver at June 30, 2016 was approximately \$383.9 million, net of outstanding letters of credit totaling \$72.9 million. As of June 30, 2016, depending on the duration of the loan, the applicable rate for future borrowings would have been between 2.15 percent to 4.00 percent based on LIBOR or the Prime Rate.

As of June 30, 2016, we were in compliance with the covenants under our ABL Credit Agreement, the Term Loan Agreement and the indentures governing the 4.625 Notes and the 4.875 Notes.

Lease Financing Obligation

As of June 30, 2016 and December 31, 2015, we had a lease financing obligation of \$46.8 million and \$44.0 million, respectively. The lease financing obligation is a result of the sale and concurrent leaseback of certain land and buildings in Canada in 2007 for an original term of ten years. In connection with this transaction, certain terms and conditions, including the requirement to execute a collateralized letter of credit in favor of the buyer-lessor, resulted in the transaction being recorded as a financing transaction rather than a sale for GAAP purposes. As a result, the land, building and related accounts continue to be recognized in the unaudited condensed consolidated balance sheets. The collateralized letter of credit expired on February 2, 2015 and is no longer required.

In connection with the sale of our window and door profiles business, on March 31, 2016, we assigned the leases associated with two of the four properties that were recorded as part of such sale-leaseback transaction on our unaudited condensed consolidated balance sheets and extended the lease term for one of the remaining properties through 2019. Consequently, we are no longer the primary obligor under the two assigned leases and we derecognized \$25.6 million from property plant and equipment, net and decreased our lease financing obligation by \$37.5 million on our unaudited condensed consolidated balance sheets as of June 30, 2016. The deferred gain of \$11.9 million associated with these two assigned leased properties was recognized and offset against the loss on sale of our window and door profiles business in discontinued operations during the six months ended June 30, 2016, all of which was a non-cash transaction.

The sale of our window and door profiles business was classified as discontinued operations and, therefore, all prior period amounts pertaining to these two properties were reclassified. The change from the December 31, 2015 balance, excluding the reclassification of the two properties, is due to the change in the Canadian dollar exchange rate as of June 30, 2016. We are not obligated to repay the lease financing obligation amount of \$46.8 million. Our obligation is for the future minimum lease payments under the terms of the related lease agreements. The future minimum lease payments under the terms of the related lease agreements as of June 30, 2016 are \$1.7 million in 2016, \$2.5 million in 2017, \$2.2 million in 2018 and \$0.6 million in 2019, the final year of the lease agreements.

Table of Contents**Dividends**

During the six months ended June 30, 2016 and 2015, the Company's Board of Directors declared dividends of \$0.32 per share, in equal installments of \$0.16 per share according to the following record and payment dates:

Declared Date	Record Date	Payment Date
2016		
March 8, 2016	March 25, 2016	April 8, 2016
May 17, 2016	June 24, 2016	July 8, 2016
2015		
March 3, 2015	March 27, 2015	April 10, 2015
May 19, 2015	June 26, 2015	July 10, 2015

Management believes, based on current and projected levels of operations and conditions in our markets and cash flow from operations, together with our cash and cash equivalents on hand and the availability to borrow under our ABL Revolver, we have adequate funding for the foreseeable future to make required payments of interest on our debt, fund our operating needs, working capital and capital expenditure requirements, comply with the financial ratios in our debt agreements, and make any required prepayments of principal under our debt agreements. As of June 30, 2016, we have no significant required payments of principal on our debt until February 2021. To the extent our cash flow and liquidity exceeds the levels necessary for us to make required payments on our debt, fund our working capital and capital expenditure requirements and comply with our ABL Revolver, we may use the excess liquidity to further grow our business through investments or acquisitions, to pay dividends or to reduce our debt.

Forward-Looking Statements

This Quarterly Report on Form 10-Q contains certain statements relating to future events and our intentions, beliefs, expectations and predictions for the future. Any such statements other than statements of historical fact are forward-looking statements within the meaning of the Securities Act of 1933 and the Securities Exchange Act of 1934 (the Exchange Act). Words or phrases such as anticipate, believe, plan, estimate, project, may, will, in expect, would or could (including the negative variations thereof) or similar terminology used in connection with any discussion of future plans, actions or events generally identify forward-looking statements. These statements relate to,

among other things, our outlook for future periods and our expectations regarding the expected benefits of the Merger and the expected timing for completion of the Merger, demand for our products and the seasonality of that demand, product mix and margin impacts related thereto, expected growth of our businesses and products, our results of operations, our financial and operational performance, our business prospects and opportunities, product pricing and sales volumes, planned outages and the impact of those outages on our financial and operational performance, natural gas and ethylene costs, the components of our ethylene supply portfolio, natural gas hedging and the impacts thereof on our financial performance, corporate overhead, supply and demand, pricing trends and market forces within the chemical and building industries, cost reduction strategies and their results, planned capital expenditures, long-term objectives of management, expected benefits of acquisitions, divestitures, joint ventures and other transactions, and other statements of expectations concerning matters that are not historical facts. These statements are based on the current expectations of our management. There are a number of risks and uncertainties that could cause our actual results to differ materially from the forward-looking statements included in this Quarterly Report on Form 10-Q. These risks and uncertainties include, among other things:

the failure to receive the required approval for the Merger from our shareholders;

the risk that a condition to the closing of the Merger may not be satisfied;

Page 63 of 70

Table of Contents

the diversion of management's time on Merger-related issues and other potential operational disruption caused by the Merger that may make it more difficult to maintain relationships with customers, employees or suppliers;

the risk of potential litigation related to the Merger;

changes, seasonality and/or cyclicity in the industries in which our products are sold and changes in demand for our products or increases in overall industry capacity that could affect production volumes and/or pricing;

the costs and operating restrictions associated with compliance with current and future environmental, health and safety laws and regulations;

the availability and pricing of energy and raw materials;

risks, hazards and potential liabilities associated with manufacturing and transporting chemicals and building products, including, among others, explosions and fires, mechanical failures, unscheduled downtime and related litigation;

legislative and regulatory developments;

changes in the general economy, including the impacts of the current, and any potential future, economic uncertainties in the housing and construction markets;

our level of indebtedness and debt service obligations and ability to continue to comply with the covenants in the credit agreement governing the ABL Revolver, the agreement governing the New Term Loan Facility and the indentures governing the 4.875 Notes and the 4.625 Notes;

our reliance on a limited number of suppliers for specified feedstock and services and our reliance on third-party transportation;

risks, costs and liabilities associated with pension and other post-retirement employment benefit plans;

competition within our industry;

complications resulting from our multiple ERP systems and the implementation of our new ERP systems;

strikes and work stoppages relating to the workforce under collective bargaining agreements;

any impairment of goodwill, indefinite-lived intangible assets or other intangible assets;

the failure to realize the benefits of, and/or disruptions resulting from, any asset dispositions, asset acquisitions, joint ventures, business combinations or other transactions;

shared control of our joint ventures and similar arrangements with unaffiliated third parties, including the ability of such joint venture partners and other counterparties to fulfill their obligations;

costs resulting from complications or delays relating to the Plant;

fluctuations in foreign currency exchange and interest rates;

the failure to adequately protect our data and technology systems; and

our ability to successfully implement and administer our cost-saving initiatives (including our restructuring programs) and produce the desired results (including projected savings).

Table of Contents

In light of these risks, uncertainties, assumptions and other factors, the forward-looking statements discussed in this Quarterly Report on Form 10-Q may not occur. Other unknown or unpredictable factors could also have a material adverse effect on our actual future results, performance or achievements. For a further discussion of these and other risks and uncertainties applicable to us and our business, see the section of this Quarterly Report on Form 10-Q entitled "Risk Factors" and in our subsequent periodic filings with the SEC. As a result of the foregoing, readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date of this report. We do not undertake, and expressly disclaim, any duty to update any forward-looking statement whether as a result of new information, future events or changes in our expectations, except as required by law.

Critical Accounting Policies and Estimates

During the six months ended June 30, 2016, we had no material changes to our critical accounting policies listed in Part II, Item 7. "Management's Discussion and Analysis of Financial Conditions and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2015 (the "2015 Annual Report").

Item 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

For a discussion of certain market risks related to Axiall, see Part II, Item 7A, "Quantitative and Qualitative Disclosures About Market Risk," in our 2015 Annual Report. There have been no material changes with respect to our exposure to market risks from those set forth in such report.

Item 4. CONTROLS AND PROCEDURES.

Controls and Procedures. We carried out an evaluation, under the supervision and with the participation of Axiall management, including our Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and operation of the Company's disclosure controls and procedures as defined in Rule 13a-15(e) under the Exchange Act. Based on that evaluation, the Chief Executive Officer and Chief Financial Officer have concluded that the Company's disclosure controls and procedures were effective as of June 30, 2016.

Changes in Internal Control. We completed the implementation of a new ERP system as of April 1, 2016. This new ERP system is a significant component of our internal control over financial reporting. Except for the implementation of this ERP system, there has been no change in our internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rules 13a-15 or 15d-15 under the Exchange Act that occurred during the three months ended June 30, 2016 that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

Table of Contents**PART II. OTHER INFORMATION.**

Item 1. LEGAL PROCEEDINGS. We are involved in a number of contingencies incidental to the normal conduct of our business, including lawsuits, claims and environmental contingencies. The outcome of these contingencies is inherently unpredictable. We believe that, in the aggregate, the outcome of all known contingencies, including lawsuits, claims and environmental contingencies, will not have a material adverse effect on our unaudited condensed consolidated financial statements; however, specific outcomes with respect to such contingencies may be material to the unaudited condensed consolidated financial statements of any particular period in which costs, if any, are recognized. Our assessment of the potential impact of environmental contingencies is subject to uncertainty due to the complex, ongoing and evolving process of investigation and remediation of such environmental contingencies, and the potential for technological and regulatory developments. In addition, the impact of evolving programs, such as natural resource damage claims, industrial site reuse initiatives and state remediation programs creates further uncertainty of the ultimate resolution of these environmental contingencies. We anticipate that the resolution of many contingencies, and in particular environmental contingencies, will occur over an extended period of time.

During September 2010, our Lake Charles North and Plaquemine, Louisiana facilities each received a Consolidated Compliance Order and Notice of Potential Penalty, alleging violations of various requirements of those facilities' air permits, based largely on self-reported permit deviations related to record-keeping violations. The Company has been negotiating a possible settlement of these matters with the Louisiana Department of Environmental Quality (LDEQ). Based upon a communication from the LDEQ in September 2014, the Company believes this matter may require the payment of a monetary sanction in excess of \$100,000, but it does not expect that the resolution of this matter will have a material adverse effect on its unaudited condensed consolidated financial statements for any period.

On December 20, 2013, a fire occurred at our PHH Monomers, LLC (PHH) VCM manufacturing plant in Lake Charles, Louisiana. As of June 30, 2016, approximately 2,607 individuals have filed lawsuits against the Company alleging personal injury or property damage related to the incident. We do not expect any other individuals to file lawsuits regarding this matter, as the prescribed deadline for doing so has expired. We have not recorded an accrual in connection with any of these lawsuits because, at this time, we are unable to reasonably determine whether any potential loss is probable or reasonably possible. In addition, we currently are unable to provide a reasonable estimate of the potential loss or range of loss, if any, expected to result from this contingency. We are unable to make these determinations due to a number of variables, including without limitation, uncertainties related to: (i) the fact that no written or oral discovery has been conducted by the Company in any of these lawsuits; (ii) the parties' respective litigation strategies; (iii) the fact that none of the complaints have alleged specific injuries or a specific amount of damages; (iv) any symptoms experienced by any of the plaintiffs, and whether there will be any reliable information, documentation or other discovery related thereto; (v) the pre-and-post fire medical or physical condition of the plaintiffs, and whether there will be any reliable information, documentation or other discovery related thereto; and (vi) the location of any plaintiff at the time of the fire, and the duration of any exposure related thereto, and whether there will be any reliable information, documentation or other discovery related thereto.

In April 2015, the Company received a communication from the United States Environmental Protection Agency (the EPA) related to, among other things, the EPA's investigation of the December 2012 and December 2013 fires that occurred at the Company's PHH VCM plant in Lake Charles, Louisiana. In November 2015, the Company settled this matter with the EPA, with such settlement including supplemental environmental projects and a payment of \$0.9 million, which was paid in December 2015.

Table of Contents

In May and September 2013, the EPA conducted inspections at our Plaquemine facility pursuant to requirements of the federal Clean Air Act Section 112 (r) Risk Management Program and Title V. As a result of the inspections, the EPA identified areas of concern and the Company has subsequently engaged in negotiations, which are anticipated to result in penalties in excess of \$100,000. These negotiations are expected to conclude in 2016.

Item 1A. RISK FACTORS.

For information regarding our risk factors, see the factors set forth in Part I, Item 1A, Risk Factors in our 2015 Annual Report. These risk factors could materially affect our business, financial condition or future results. Other than the Merger-related risk factors noted below, there have been no significant changes to our risk factors included in Part I, Item 1A of our 2015 Annual Report. The risks described in this document are not the only risks facing the Company. Additional risks and uncertainties not currently known to us or that we currently do not recognize as material also may materially adversely affect our business, financial condition or future results.

Risk Factors Related to the Merger

The Merger is subject to receipt of approval from our shareholders as well as satisfaction of other conditions in the Merger Agreement.

The Merger Agreement contains a number of conditions to completion of the Merger, including, among others, (i) adoption of the Merger Agreement by the affirmative vote of the holders of a majority of all outstanding shares of the Company Common Stock, (ii) the receipt of required regulatory approvals, including approval under the Hart-Scott-Rodino Antitrust Improvements Act of 1976 and the Canadian Competition Act (each of which has been obtained), (iii) the absence of an order, judgment, injunction or law prohibiting the consummation of the Merger, (iv) the accuracy of the other party's representations and warranties contained in the Merger Agreement (subject to certain materiality standards set forth in the Merger Agreement), and (v) the other party's compliance with or performance of its covenants and agreements contained in the Merger Agreement in all material respects. There is no assurance that all of the conditions will be satisfied, or that the Merger will be completed on the proposed terms, within the expected timeframe, or at all. Many of the conditions to completion of the Merger are not within either our or Westlake's control, and neither company can predict when or if these conditions will be satisfied. Any delay in completing the Merger could cause us not to realize some or all of the benefits that we expect to achieve if the Merger is successfully completed within its expected timeframe.

Failure to complete the Merger could adversely affect our stock price and future business operations and financial results.

If the Merger is not completed for any reason, including as a result of the Company's shareholders failing to adopt the Merger Agreement, the ongoing business of the Company may be materially adversely affected and the Company would be subject to a number of risks, including the following:

the Company may experience negative reactions from the financial markets, including negative impacts on our stock price, or from our employees, suppliers and customers;

the Company will still be required to pay certain significant costs relating to the Merger, such as legal, accounting, financial advisor and printing fees;

Table of Contents

the Company may be required to pay a cash termination fee as required under the Merger Agreement;

the Merger Agreement places certain restrictions on the conduct of business pursuant to the terms of the Merger Agreement, which may have delayed or prevented us from undertaking business opportunities that, absent the Merger Agreement, may have been pursued;

matters relating to the Merger require substantial commitments of time and resources by the Company's management, which could have resulted in the distraction of management from ongoing business operations and pursuing other opportunities that could have been beneficial to the Company; and

litigation related to any failure to complete the Merger or related to any enforcement proceeding commenced against the Company to perform its obligations under the Merger Agreement.

If the Merger is not completed, the risks described above may materialize and they may have a material adverse effect on the Company's business operations, financial results and stock price.

We are subject to contractual restrictions in the Merger Agreement that may hinder operations pending the consummation of the Merger.

Whether or not the Merger is completed, the pending Merger may disrupt the current plans and operations of the Company, which could have an adverse effect on our business and financial results. The Merger Agreement generally requires the Company to operate its business in the ordinary course of business pending consummation of the Merger and it also restricts the Company from taking certain actions with respect to its business and financial affairs without Westlake's consent, including without limitation a restriction on our ability to pay dividends other than regularly quarterly cash dividends in the ordinary course of business consistent with our current dividend policy, and these restrictions could be in place for an extended period of time if the consummation of the Merger is delayed. For these and other reasons, the pendency of the Merger could adversely affect our business and financial results.

We will be subject to various uncertainties while the Merger is pending that may cause disruption and may make it more difficult to maintain relationships with employees, suppliers or customers.

Uncertainty about the effect of the Merger on employees, suppliers and customers may have an adverse effect on us. These uncertainties may impair our ability to attract, retain and motivate key personnel until the Merger is completed, and could cause customers and others that deal with us to seek to change existing business relationships with us. Retention and motivation of certain employees by us may be challenging while the Merger is pending, as certain employees may experience uncertainty about their future roles. If key employees depart because of issues relating to the uncertainty and difficulty of integration or a desire not to remain with us, our business could be harmed. In addition, there could be distractions to or disruptions for our employees and management associated with obtaining the required regulatory approvals to close the Merger. Our suppliers and customers may experience uncertainty with the Merger, including with respect to current or future business relationships following the Merger. Our business relationships may be subject to disruption as customers, distributors, suppliers, vendors and others may attempt to negotiate changes in existing business relationships or consider entering into business relationships with parties other than us. These disruptions could have an adverse effect on our business operations and financial results. The risks, and adverse effects, of such disruptions could be exacerbated by a delay in completion of the Merger or termination of the Merger Agreement.

Table of Contents**Item 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.**

The following table summarizes the Company Common Stock repurchase activity for each month of the quarter ended June 30, 2016:

Period	Total Number Shares Purchased⁽¹⁾	Average Price Paid Per Share
April 1 - April 30, 2016	-	\$ -
May 1 - May 31, 2016	56,676	\$ 22.17
June 1 - June 30, 2016	-	\$ -
Total	56,676	

- (1) The Company did not repurchase any of its equity securities during the period covered by this report pursuant to any publicly announced plan or program, and no such plan or program is presently in effect. All purchases reflected in the table above pertain to purchases of Company Common Stock by the Company in connection with tax withholding obligations of the Company's employees upon the vesting of such employees' restricted stock awards.
