(2) Based on 78,512,921 Common Shares outstanding as of November 2, 2016, as reported in NeoGenomics Form 10-Q for the period ended September 30, 2016 and filed with the Securities and Exchange Commission on November 4, 2016.

EXPLANATORY NOTE

This Amendment No. 1 (this Amendment No. 1) amends and supplements the statement on Schedule 13D (the Original Schedule 13D) jointly filed with the Securities and Exchange Commission (the SEC) on December 30, 2015 by (i) General Electric Company, a New York corporation (General Electric) and (ii) GE Medical Systems Information Technologies, Inc., a Wisconsin corporation (GE InfoTech). As described in the Original Schedule 13D, GE InfoTech is a wholly owned subsidiary of General Electric.

This Amendment No. 1 is filed to reflect a change aggregating more than one percent (1%) in the beneficial ownership of the reporting persons resulting from a redemption of Preferred Shares by NeoGenomics. See Item 5(c) below for additional information.

Except as specifically provided herein, this Amendment No. 1 does not modify any of the information previously reported in the Original Schedule 13D. Any capitalized terms used in this Amendment No. 1 and not otherwise defined herein shall have the respective meanings ascribed to such terms in the Original Schedule 13D.

ITEM 2. Identity and Background.

Schedule A to the Original Schedule 13D is hereby amended and restated in the form attached as Schedule A attached hereto, which is incorporated herein by reference. In all other respects, there have been no changes to the information disclosed in Item 2 of the Original Schedule 13D.

ITEM 5. Interest in Securities of the Issuer.

Item 5 is hereby amended and replaced by the following:

(a) Beneficial ownership of the securities of NeoGenomics referred to herein is being reported hereunder because the reporting persons beneficially own 15,000,000 Common Shares and 6,600,000 Preferred Shares as of the date of this Amendment No. 1. Based on the conversion price of \$7.50 per share and the liquidation preference of the Preferred Shares in effect as of the date of this Amendment No. 1, 6,600,000 shares of Common Stock could have been issued had the Preferred Shares been convertible, and converted in full, on the date of this filing. Assuming such conversion of the Preferred Shares into Common Shares as described in the preceding sentence and based on the number of Common Shares reported as outstanding by NeoGenomics as of November 2, 2016, the securities beneficially owned by the reporting persons would represent approximately 25.4% of the outstanding Common Shares.

In addition, the terms of the Preferred Shares contain certain provisions that could impact the number of Preferred Shares and the underlying Common Shares beneficially owned by reporting persons, including:

PIK Dividends. As provided for in the terms of the Preferred Shares, it is expected that paid-in-kind dividends (PIK Dividends) on each Preferred Share will accrue and will be paid in kind in Preferred Shares at the specified PIK Dividend rate, multiplied by the then-effective liquidation preference (including all accrued and unpaid PIK Dividends), in each case, as adjusted for certain anti-dilution adjustments.

Optional Conversion and Automatic Conversion. At any time after December 30, 2018, to the extent that the volume weighted average price of the Common Share equals or exceeds \$8.00 per share, as adjusted for

standard anti-dilution adjustments, for 30 consecutive trading days, GE Infotech would be entitled to convert all or any of the Preferred Shares into Common Shares in accordance with the terms of the Preferred Shares. In addition, any Preferred Shares remaining issued and outstanding on December 30, 2025 will automatically convert into Common Shares pursuant to the terms of the Preferred Shares. Based on the conversion price as of the date of this Amendment No. 1 and assuming all PIK Dividends are paid pursuant to the terms of the Preferred Shares, it is expected that a total of 11,448,954 Common Shares would be issued if all of the Preferred Shares remain outstanding through December 30, 2025 and are converted in full on such date.

Redemption. The Preferred Shares are subject to redemption by NeoGenomics pursuant to their terms.

Each holder of Preferred Shares is entitled to vote its Preferred Shares, on an as-converted (into Common Shares) basis, on each matter upon which the holders of Common Shares are entitled to vote and will vote with the holders of Common Shares (and any other class or series which may be similarly entitled to vote) as one class on all such matters. In addition, the Preferred Shares vote as a separate class on certain matters that affect the Preferred Shares.

(b) As of December 22, 2016, General Electric and GE InfoTech hold shared voting and dispositive power to vote or dispose of the securities reported in this Amendment No. 1.

Except as set forth in this Amendment No. 1, each of General Electric and GE InfoTech does not, and, to the best of each of General Electric's and GE InfoTech's knowledge, each of their respective executive officers and directors does not, beneficially own any Common Shares.

(c) On December 22, 2016, NeoGenomics redeemed directly from GE InfoTech 8,066,667 Preferred Shares at a redemption price of approximately \$6.8182 per share. Such redemption occurred pursuant to the terms of the Preferred Shares. Except as set forth above, each of General Electric and GE InfoTech has not, and, to the best of each of General Electric's and GE InfoTech's knowledge, each of the persons listed in Schedule A hereto has not, effected any transaction in Common Shares during the past 60 days.

(d) Not applicable.

(e) Not applicable.
