Highlights

PRUDENTIAL GLOBAL SHORT DURATION HIGH YIELD FUND, INC.

The Fund benefited from strong security selection highlighted by positioning in the industrial, gaming/lodging/leisure, building materials & home construction and emerging market sovereign debt sectors.

Sector allocation hurt performance during the reporting period. Against the Bloomberg Barclays Global High Yield Ba/B 1-5 Year 1% Issuer Constrained (USD Hedged) Index (the Index), an overweight to the health care & pharmaceutical sector and an underweight to the upstream (exploration and production) energy sector were the largest detractors. The Fund's overweight in the building materials & home construction sector also hurt performance.

The Fund's underweights in the banking and emerging market sovereign debt sectors added value during the period. Overweight positions in the gaming/lodging/leisure, industrial and technology sectors also contributed to returns.

This report is not authorized for distribution to prospective investors unless preceded or accompanied by a current prospectus.

Letter from the President

Dear Shareholder:

We hope you find the semiannual report for Prudential Global Short Duration High Yield Fund, Inc. informative and useful. The report covers performance for the six-month period ended January 31, 2017.

Since market conditions change over time, we believe it is important to maintain a diversified portfolio of funds consistent with your tolerance for risk, time horizon, and financial goals.

Your financial advisor can help you create a diversified investment plan that may include funds covering all the basic asset classes and that reflects your personal investor profile and risk tolerance. Keep in mind, however, that diversification and asset allocation strategies do not assure a profit or protect against loss in declining markets.

Prudential Investments[®] is dedicated to helping you solve your toughest investment challenges whether it's capital growth, reliable income, or protection from market volatility and other risks. We offer the expertise of Prudential Financial's affiliated asset managers that strive to be leaders in a broad range of funds to help you stay on course to the future you envision. They also manage money for major corporations and pension funds around the world, which means you benefit from the same expertise, innovation, and attention to risk demanded by today's most sophisticated investors.

Thank you for choosing our family of funds.

Sincerely,

Stuart S. Parker, President

Prudential Global Short Duration High Yield Fund, Inc.

Your Fund's Performance (unaudited)

Performance data quoted represent past performance and assume the reinvestment of all dividends. Past performance does not guarantee future results. An investor may obtain more recent performance data by visiting our website at www.prudentialfunds.com.

Investment Objective

The Fund seeks to provide a high level of current income by investing primarily in higher-rated, below-investment-grade fixed income instruments of issuers located around the world, including emerging markets.* The Fund seeks to maintain a weighted average portfolio duration of three years or less and a weighted average maturity of five years or less.

*There can be no guarantee the Fund will achieve its objective. Higher-rated high yield bonds, commonly referred to as junk bonds, are below investment grade and are considered speculative. They are rated Ba, B by Moody's Investors Service, Inc. (Moody's); BB, B by Standard & Poor's Ratings Services (S&P) and Fitch, Inc. (Fitch); or comparably rated by another nationally recognized statistical rating organization (NRSRO), or if unrated, are considered by PGIM Fixed Income to be of comparable quality.

Performance Snapshot as of 1/31/17

	Total Return for Six Months Ended 1/31/17 (%)
Price Per Share (\$)	
16.59 (NAV)	3.81

Strategy and Performance Overview

How did the Fund perform?

For the six-month reporting period that ended January 31, 2017, the **Prudential Global Short Duration High Yield Fund** returned 2.19% based on market price and 3.81% based on net asset value (NAV). For the same period, the Index returned 3.93%, and the Lipper Closed End High Yield Leveraged Funds Average returned 8.41%. All Fund returns reflect reinvestment of dividends.

What were conditions like in the short-term global high yield corporate bond market?

Global high yield bonds generated a positive total return during the six-month period, as commodities, particularly the metals & mining and energy sectors, continued their rebound from the underperformance they experienced in 2015. The par-weighted US high yield default rate ended January at 3.61%, which is within the historical average range of 3.5% to 4%. Excluding commodities, the default rate was just 0.8%.

The short duration, higher-quality sub-style of global high yield bonds, as measured by the Index, underperformed the US broad high yield market, returning 3.93% for the six-month period. Among the best sector performers were upstream and midstream energy, metals & mining and finance & insurance. The banking, emerging market sovereign debt and health care & pharmaceutical sectors struggled during the period.

Across the regional components of the broad global high yield universe, the US high yield corporate component, which has the largest exposure to energy, performed the best with a return of 6.1%. The European high yield corporate component also produced solid performance during the period, returning 4.8%. The emerging markets component lagged the other components, returning 3.8% over the period.

What worked?

The Fund benefited from strong security selection highlighted by positioning in the industrial, gaming/lodging/leisure, building materials & home construction and emerging market sovereign debt sectors.

Overweights to issuers in the industrial sector including **Laureate Education**, **Unifrax** and **Grainger** added to performance. Overweights to **Scientific Games** (gaming), **Beazer Homes** (building materials & home construction) and **BMC Software** (technology) also added to performance.

The Fund's underweights in the banking and emerging market sovereign debt sectors added value during the period. Overweight positions in the gaming/lodging/leisure, industrial and technology sectors also contributed to returns.

What didn't work?

Sector allocation hurt performance, with an overweight to the health care & pharmaceutical sector and an underweight to the upstream (exploration and production) energy sector, the largest detractors. The Fund's overweight in the building materials & home construction sector also hurt performance.

The Fund was hampered by security selection within the consumer non-cyclical, retailers & restaurants and paper & packaging sectors.

An overweight to **Agrokor** (consumer non-cyclical) was the largest detractor from performance at the issuer level. Overweights to **Community Health Systems** (health care) and **Neiman Marcus** (retailers) also limited results.

How did the Fund's borrowing (leverage) strategy affect its performance?

The Fund's use of leverage contributed positively to results as the returns of the securities purchased were in excess of the cost of borrowing.

As of January 31, 2017, the Fund had borrowed \$285 million and was about 29.6% leveraged. During the reporting period, the average amount of leverage utilized by the Fund was about 29.5%.

Did the Fund have exposure to derivatives?

Derivatives in the form of forward currency exchange contracts were used to hedge against the Fund's positions not denominated in US dollars. Changes in the value of non-dollar bonds due to currency fluctuations were offset by the derivative positions, so the use of foreign currency exchange contracts had a minimal effect on performance.

Current Outlook

PGIM Fixed Income has a positive long term outlook for high yield bonds, with demand for the asset class supported by a thirst for yield as interest rates are low due to low inflation and central bank support. Increased government spending could promote top line growth for certain companies and industries. Potential tax cuts under a Trump administration would help the bottom line of many corporations as well. Default rates outside of the energy and basic materials sectors should remain benign through 2018. However, many macro concerns could weigh on the market including uncertainty in China, the Middle East, Europe and the Fed. While pro-business, President Trump's anti-globalization policies and his unpredictable positions should elevate risk premiums. Fiscal stimulus will likely increase the budget deficit, putting upward pressure on rates and also creating potential problems down the road.

Notes to Financial Statements (unaudited)

Prudential Global Short Duration High Yield Fund, Inc. (the Fund) is a diversified, closed-end management investment company, registered under the Investment Company Act of 1940, as amended (1940 Act). The Fund was incorporated as a Maryland corporation on July 23, 2012. The Fund's investment objective is to provide a high level of current income.

Note 1. Accounting Policies

The Fund follows investment company accounting and reporting guidance of the Financial Accounting Standards Board (FASB) Accounting Standard Codification Topic 946 Financial Services-*Investment Companies*. The following accounting policies conform to U.S. generally accepted accounting principles. The Fund consistently follows such policies in the preparation of its financial statements.

Securities Valuation: The Fund holds securities and other assets that are fair valued at the close of each day (generally, 4:00 PM Eastern time) the New York Stock Exchange (NYSE) is open for trading. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. The Board of Directors (the Board) has adopted Valuation Procedures for security valuation under which fair valuation responsibilities have been delegated to Prudential Investments LLC (PI or Manager). Under the current Valuation Procedures, the established Valuation Committee is responsible for supervising the valuation of portfolio securities and other assets. The Valuation Procedures permit the Fund to utilize independent pricing vendor services, quotations from market makers, and alternative valuation methods when market quotations are either not readily available or not deemed representative of fair value. A record of the Valuation Committee's actions is subject to the Board's review, approval, and ratification at its next regularly-scheduled quarterly meeting.

Various inputs determine how the Fund's investments are valued, all of which are categorized according to the three broad levels (Level 1, 2, or 3) detailed in the table following the Portfolio of Investments.

Investments in open-end, non-exchange-traded mutual funds are valued at their net asset values as of the close of the NYSE on the date of valuation. These securities are classified as Level 1 in the fair value hierarchy since they may be purchased or sold at their net asset values on the date of valuation.

Fixed income securities traded in the OTC market are generally valued at prices provided by approved independent pricing vendors. The pricing vendors provide these prices after evaluating observable inputs including, but not limited to yield curves, yield spreads, credit

Notes to Financial Statements (unaudited) (continued)

ratings, deal terms, tranche level attributes, default rates, cash flows, prepayment speeds, broker/dealer quotations, and reported trades. Securities valued using such vendor prices are classified as Level 2 in the fair value hierarchy.

Bank loans are generally valued at prices provided by approved independent pricing vendors. The pricing vendors utilize broker/dealer quotations and provide prices based on the average of such quotations. Bank loans valued using such vendor prices are generally classified as Level 2 in the fair value hierarchy.

OTC derivative instruments are generally valued using pricing vendor services, which derive the valuation based on inputs such as underlying asset prices, indices, spreads, interest rates, and exchange rates. These instruments are categorized as Level 2 in the fair value hierarchy.

Centrally cleared swaps listed or traded on a multilateral or trade facility platform, such as a registered exchange, are generally valued at the daily settlement price determined by the respective exchange. These securities are classified as Level 2 in the fair value hierarchy, as the daily settlement price is not public.

Securities and other assets that cannot be priced according to the methods described above are valued based on pricing methodologies approved by the Board. In the event that unobservable inputs are used when determining such valuations, the securities will be classified as Level 3 in the fair value hierarchy.

When determining the fair value of securities, some of the factors influencing the valuation include: the nature of any restrictions on disposition of the securities; assessment of the general liquidity of the securities; the issuer's financial condition and the markets in which it does business; the cost of the investment; the size of the holding and the capitalization of the issuer; the prices of any recent transactions or bids/offers for such securities or any comparable securities; any available analyst media or other reports or information deemed reliable by the investment adviser regarding the issuer or the markets or industry in which it operates. Using fair value to price securities may result in a value that is different from a security's most recent closing price and from the price used by other mutual funds to calculate their net asset values.

Restricted and Illiquid Securities: The Fund may invest in illiquid securities, including those which are restricted as to disposition under securities law (restricted securities). Restricted securities are valued pursuant to the valuation procedures noted above. Illiquid securities are those that, because of the absence of a readily available market or due to legal or contractual restrictions on resale, cannot be sold within seven days in the ordinary

course of business at approximately the amount at which the Fund has valued the investment. Therefore, the Fund may find it difficult to sell illiquid securities at the time considered most advantageous by its Subadviser and may incur expenses that would not be incurred in the sale of securities that were freely marketable. Certain securities that would otherwise be considered illiquid because of legal restrictions on resale to the general public may be traded among qualified institutional buyers under Rule 144A of the Securities Act of 1933. These Rule 144A securities, as well as commercial paper that is sold in private placements under Section 4(2) of the Securities Act, may be deemed liquid by the Fund's Subadviser under the guidelines adopted by the Fund. However, the liquidity of the Fund's investments in Rule 144A securities could be impaired if trading does not develop or declines.

Forward Currency Contracts: A forward currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. The Fund enters into forward currency contracts in order to hedge its exposure to changes in foreign currency exchange rates on its foreign portfolio holdings or on specific receivables and payables denominated in a foreign currency and to gain exposure to certain currencies. The contracts are valued daily at current forward exchange rates and any unrealized gain (loss) is included in net unrealized appreciation or depreciation on foreign currencies. Gain (loss) is realized on the settlement date of the contract equal to the difference between the settlement value of the original and negotiated forward contracts. This gain (loss), if any, is included in net realized gain (loss) on investments and foreign currency transactions. Risks may arise upon entering into these contracts from the potential inability of the counterparties to meet the terms of their contracts. Forward currency contracts involve risks from currency exchange rate and credit risk in excess of the amounts reflected on the Statement of Assets and Liabilities. The Fund's maximum risk of loss from counterparty credit risk is the net value of the cash flows to be received from the counterparty at the end of the contract's life.

Cross Currency Exchange Contracts: A cross currency contract is a forward contract where a specified amount of one foreign currency will be exchanged for a specified amount of another foreign currency.

Master Netting Arrangements: The Fund is subject to various Master Agreements, or netting arrangements, with select counterparties. These are agreements which a subadviser may have negotiated and entered into on behalf of the Fund. A master netting arrangement between the Fund and the counterparty permits the Fund to offset amounts payable by the Fund to the same counterparty against amounts to be received; and by the receipt of collateral from the counterparty by the Fund to cover the Fund's exposure to the counterparty. However, there is no assurance that such mitigating factors are easily enforceable. In addition to master netting arrangements, the right to set-off exists when all the conditions are met such that each of the parties owes the other determinable amounts, the reporting party has the right to set-off the amount owed with the amount owed by the other party, the reporting party intends to set-off and the right of set-off is enforceable by law. During the reporting period, there was no intention to settle on a net basis and all amounts are presented on a gross basis on the Statement of Assets and Liabilities.

Notes to Financial Statements (unaudited) (continued)

The Fund is party to ISDA (International Swaps and Derivatives Association, Inc.) Master Agreements with certain counterparties that govern OTC derivative and foreign exchange contracts entered into from time to time. The Master Agreements may contain provisions regarding, among other things, the parties' general obligations, representations, agreements, collateral requirements, events of default and early termination. With respect to certain counterparties, in accordance with the terms of the Master Agreements, collateral posted to the Fund is held in a segregated account by the Fund's custodian and with respect to those amounts which can be sold or re-pledged, are presented in the Portfolio of Investments. Collateral pledged by the Fund is segregated by the Fund's custodian and identified in the Portfolio of Investments. Collateral can be in the form of cash or debt securities issued by the U.S. Government or related agencies or other securities as agreed to by the Fund and the applicable counterparty. Collateral requirements are determined based on the Fund's net position with each counterparty. Termination events applicable to the Fund may occur upon a decline in the Fund's net assets below a specified threshold over a certain period of time. Termination events applicable to counterparties may occur upon a decline in the counterparty's long-term and short-term credit ratings below a specified level. In each case, upon occurrence, the other party may elect to terminate early and cause settlement of all derivative and foreign exchange contracts outstanding, including the payment of any losses and costs resulting from such early termination, as reasonably determined by the terminating party. Any decision by one or more of the Fund's counterparties to elect early termination could impact the Fund's future derivative activity.

In addition to each instrument's primary underlying risk exposure (e.g. interest rate, credit, equity or foreign exchange, etc.), swap agreements involve, to varying degrees, elements of credit, market and documentation risk. Such risks involve the possibility that no liquid market for these agreements will exist, the counterparty to the agreement may default on its obligation to perform or disagree on the contractual terms of the agreement, and changes in net interest rates will be unfavorable. In connection with these agreements, securities may be identified or received as collateral from the counterparty in accordance with the terms of the respective swap agreements to provide or receive assets of value and to serve as recourse in the event of default or bankruptcy/insolvency of either party. Such OTC derivative agreements include conditions which, when materialized, give the counterparty the right to cause an early termination of the transactions under those agreements. Any election by the counterparty for early termination of the contract(s) may impact the amounts reported on financial statements.

As of January 31, 2017, the Fund has not met conditions under such agreements that give the counterparty the right to call for an early termination.

Forward currency contracts, written options, short sales, swaps and financial futures contracts involve elements of both market and credit risk in excess of the amounts reflected on the Statement of Assets and Liabilities. Such risks may be mitigated by engaging in master netting arrangements.

Loan Participations: The Fund may invest in loan participations. When the Fund purchases a loan participation, the Fund typically enters into a contractual relationship with the lender or third party selling such participations (Selling Participant), but not the borrower. As a result, the Fund assumes the credit risk of the borrower and any other persons interpositioned between the Fund and the borrower. The Fund may not directly benefit from the collateral supporting the senior loan in which it has purchased the loan participation.

Payment-In-Kind Securities: The Fund may invest in open market or receive pursuant to debt restructuring, securities that pay-in-kind (PIK) the interest due on such debt instruments. The PIK interest, computed at the contractual rate specified, is added to the existing principal balance of the debt when issued bonds have the same terms as the bond or recorded as a separate bond when terms are different from the existing debt, and is recorded as interest income.

Delayed-Delivery Transactions: The Fund may purchase or sell securities on a when-issued or delayed-delivery basis. These transactions involve a commitment by the Portfolio to purchase or sell securities for a predetermined price or yield, with payment and delivery taking place beyond the customary settlement period. When delayed-delivery purchases are outstanding, the Portfolio will set aside and maintain an amount of liquid assets sufficient to meet the purchase price in a segregated account until the settlement date. When purchasing a security on a delayed-delivery basis, the Portfolio assumes the rights and risks of ownership of the security, including the risk of price and yield fluctuations, and takes such fluctuations into account when determining its net asset value. The Portfolio may dispose of or renegotiate a delayed-delivery transaction subsequent to establishment, and may sell when-issued securities before they are delivered, which may result in a capital gain (loss). When selling a security on a delayed-delivery basis, the Portfolio forfeits its eligibility to realize future gains (losses) with respect to the security.

Cash Flow Information: The Fund invests in securities and distributes dividends from net investment income, which are paid in cash or are reinvested at the discretion of stockholders. These activities are reported in the Statement of Changes in Net Assets and additional information on cash receipts and cash payments is presented in the Statement of Cash Flows.

Accounting practices that do not affect reporting activities on a cash basis include carrying investments at value, accruing income on PIK (payment-in-kind) securities and accreting discounts and amortizing premiums on debt obligations.

Notes to Financial Statements (unaudited) (continued)

Securities Transactions and Net Investment Income: Securities transactions are recorded on the trade date. Realized gains (losses) from investment and currency transactions are calculated on the specific identification method. Dividend income is recorded on the ex-date. Interest income, including amortization of premium and accretion of discount on debt securities, as required, is recorded on the accrual basis. Expenses are recorded on the accrual basis, which may require the use of certain estimates by management, that may differ from actual.

Dividends and Distributions: The Fund intends to make a level dividend distribution each month to the holders of Common Stock. The level dividend rate may be modified by the Board from time to time, and will be based upon the past and projected performance and expenses of the Fund. The Fund intends to also make a distribution during or with respect to each calendar year (which may be combined with a regular monthly distribution), which will generally include any net investment income and net realized capital gain for the year not otherwise distributed.

PI has received an order from the Securities and Exchange Commission granting the Fund an exemption from Section 19(b) of the 1940 Act and Rule 19b-1 thereunder to permit certain closed-end funds managed by PI to include realized long-term capital gains as a part of their respective regular distributions to the holders of Common Stock more frequently than would otherwise be permitted by the 1940 Act (generally once per taxable year). The Fund intends to rely on this exemptive order. The Board may, at the request of PI, adopt a managed distribution policy.

Dividends and distributions to stockholders, which are determined in accordance with federal income tax regulations and which may differ from generally accepted accounting principles, are recorded on the ex-date. Permanent book/tax differences relating to income and gain (loss) are reclassified amongst undistributed net investment income, accumulated net realized gain (loss) and paid-in capital in excess of par, as appropriate.

Taxes: It is the Fund's policy to continue to meet the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable net income and capital gains, if any, to its stockholders. Therefore, no federal income tax provision is required. However, due to timing of when distributions are made by the Fund, the Fund may be subject to an excise tax of 4% of the amount by which 98% of the Fund's annual taxable income and 98.2% of the net realized gains exceed the distributions from such taxable income and realized gains for the calendar year. The Fund paid approximately \$306,000 of Federal excise taxes attributable to calendar year 2016 in March 2017. Withholding taxes on foreign interest are recorded, net of reclaimable amounts, at the time the related income is earned.

Estimates: The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

Note 2. Agreements

The Fund has a management agreement with PI. Pursuant to this agreement, PI has responsibility for all investment advisory services and supervises the subadviser's performance of such services. PI has entered into a subadvisory agreement with PGIM, Inc., which provides subadvisory services to the Fund through its PGIM Fixed Income (PFI) unit. The subadvisory agreement provides that PFI will furnish investment advisory services in connection with the management of the Fund. In connection therewith, PFI is obligated to keep certain books and records of the Fund. PI pays for the services of PFI, the cost of compensation of officers of the Fund, occupancy and certain clerical and bookkeeping costs of the Fund. The Fund bears all other costs and expenses.

The management fee paid to PI is accrued daily and payable monthly, at an annual rate of .85% of the average daily value of the Fund's investable assets. Investable assets refers to the net assets attributable to the outstanding Common Stock of the Fund plus the liquidation preference of any outstanding preferred stock issued by the Fund, the principal amount of any borrowings and the principal on any debt securities issued by the Fund.

PI and PGIM, Inc. are indirect, wholly-owned subsidiaries of Prudential Financial, Inc. (Prudential).

Note 3. Other Transactions with Affiliates

The Fund may enter into certain securities purchase or sale transactions under Board approved Rule 17a-7 procedures. Rule 17a-7 is an exemptive rule under the 1940 Act, that permits purchase and sale transactions among affiliated investment companies, or between an investment company and a person that is affiliated solely by reason of having a common (or affiliated) investment adviser, common directors, and/or common officers. Such transactions are subject to ratification by the Board.

The Fund invests its overnight sweep cash in the Prudential Core Ultra Short Bond Fund (the Core Fund), a portfolio of the Prudential Investment Portfolios 2, registered under the 1940 Act, and managed by PI. The Fund may also invest in other affiliated mutual funds. Earnings from the Core Fund and other affiliated mutual funds are disclosed on the Statement of Operations as Affiliated dividend income .

Note 4. Fund Securities

The cost of purchases and the proceeds from sales of portfolio securities, other than short-term investments, for the six months ended January 31, 2017, were \$286,189,113 and \$284,842,593, respectively.

Notes to Financial Statements (unaudited) (continued)

Note 5. Tax Information

The United States federal income tax basis of the Fund's investments and the net unrealized depreciation as of January 31, 2017 were as follows:

Tax Basis	\$ 973,670,262
Appreciation	12,546,681
Depreciation	(32,586,298)
Net Unrealized Depreciation	\$ (20,039,617)

The book basis may differ from tax basis due to certain tax-related adjustments.

For federal income tax purposes, the Fund had a capital loss carryforward as of July 31, 2016 of approximately \$76,698,000 which can be carried forward for an unlimited period. No capital gains distributions are expected to be paid to shareholders until net gains have been realized in excess of such losses.

Management has analyzed the Fund's tax positions taken on federal, state and local income tax returns for all open tax years and has concluded that no provision for income tax is required in the Fund's financial statements for the current reporting period. The Fund's federal, state and local income and federal excise tax returns for tax years for which the applicable statutes of limitations have not expired are subject to examination by the Internal Revenue Service and state departments of revenue.

Note 6. Capital

For the six months ended January 31, 2017, the Fund did not issue any shares of Common Stock in connection with the Fund's dividend reinvestment plan. There are 1 billion shares of \$0.001 par value Common Stock authorized. As of January 31, 2017, Prudential owned 7,554 shares of Common Stock of the Fund.

Note 7. Borrowings and Re-hypothecation

The Fund currently is a party to a committed credit facility (the credit facility) with a financial institution. The credit facility provides for a maximum commitment of \$300 million or 50% of the net asset value based on the most recent fiscal year end. Interest on any borrowings under

Edgar Filing: Prudential Global Short Duration High Yield Fund, Inc. - Form N-CSRS

the credit facility is payable at the negotiated rates. The Fund's obligations under the credit facility are secured by the assets of the Fund segregated for the purpose of securing the amount borrowed. The purpose of the credit facility is to provide the Fund with portfolio leverage and to meet its general cash flow requirements.

During the six months ended January 31, 2017, the Fund utilized the credit facility and had an average daily outstanding loan balance of \$283,967,391 during the 184 day period that the facility was utilized, at an average interest rate of 1.36%. The maximum amount of loan outstanding during the period was \$290,000,000. There was a balance of \$285,000,000 outstanding at January 31, 2017.

Re-hypothecation: The Board recently approved an amendment to the credit facility, whereby the credit facility agreement permits, subject to certain conditions, the financial institution to re-hypothecate, up to the amount outstanding under the facility, portfolio securities segregated by the Fund as collateral. The Fund continues to receive interest on re-hypothecated securities. The Fund also has the right under the agreement to recall the re-hypothecated securities from financial institution on demand. If the financial institution fails to deliver the recalled security in a timely manner, the Fund will be compensated by the financial institution for any fees or losses related to the failed delivery or, in the event a recalled security will not be returned by financial institution, the Fund, upon notice to the financial institution, may reduce the loan balance outstanding by the value of the recalled security failed to be returned plus accrued interest. The Fund will receive a portion of the fees earned by the financial institution in connection with the re-hypothecation of portfolio securities. Such earnings are disclosed in the statement of operations under Other Income. As of January 31, 2017, there were no earnings to be disclosed.

Note 8. Recent Accounting Pronouncements and Reporting Updates

In December 2016, the FASB released an Accounting Standards Update (ASU) that makes technical changes to various sections of the Accounting Standards Codification (ASC), including Topic 820, Fair Value Measurement. The changes to Topic 820 are intended to clarify the difference between a valuation approach and a valuation technique. The changes to ASC 820-10-50-2 require a reporting entity to disclose, for Level 2 and Level 3 fair value measurements, a change in either or both a valuation approach and a valuation technique and the reason(s) for the change. The changes to Topic 820 are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2016. At this time, management is evaluating the implications of the ASU and its impact on the financial statements and disclosures has not yet been determined.

On October 13, 2016, the SEC adopted new rules and forms and amended existing rules and forms which are intended to modernize and enhance the reporting and disclosure of information by registered investment companies and to improve the quality of information that funds provide to investors, including modifications to Regulation S-X which would require standardized, enhanced disclosure about derivatives in investment company financial statements. The new rules also enhance disclosure regarding fund liquidity and redemption practices. The compliance dates of the modifications to Regulation S-X are August 1, 2017 and other amendments and rules are generally June 1, 2018 and December 1, 2018. Management is currently evaluating the impacts to the financial statement disclosures, if any.

Note 9. Subsequent Event

Dividends and Distributions: On February 28, 2017 the Fund declared monthly dividends of \$0.1000 per share payable on March 31, 2017, April 28, 2017, and May 31, 2017, respectively, to shareholders of record on March 17, 2017, April 14, 2017, and May 12, 2017, respectively. The ex-dates are March 15, 2017, April 12, 2017, and May 10, 2017, respectively.

Dividend Reinvestment Plan. Unless a holder of Common Stock elects to receive cash by contacting Computershare Trust Company, N.A. (the Plan Administrator), all dividends declared on Common Stock will be automatically reinvested by the Plan Administrator pursuant to the Fund's Automatic Dividend Reinvestment Plan (the Plan), in additional Common Stock. The holders of Common Stock who elect not to participate in the Plan will receive all dividends and other distributions (together, a Dividend) in cash paid by check mailed directly to the stockholder of record (or, if the Common Stock is held in street or other nominee name, then to such nominee) by the Plan Administrator as dividend disbursing agent. Participation in the Plan is completely voluntary and may be terminated or resumed at any time without penalty by notice if received and processed by the Plan Administrator prior to the Dividend record date; otherwise such termination or resumption will be effective with respect to any subsequently declared Dividend. Such notice will be effective with respect to a particular Dividend. Some brokers may automatically elect to receive cash on behalf of the holders of Common Stock and may re-invest that cash in additional Common Stock.

The Plan Administrator will open an account for each common stockholder under the Plan in the same name in which such common stockholder's Common Stock is registered. Whenever the Fund declares a Dividend payable in cash, non-participants in the Plan will receive cash and participants in the Plan will receive the equivalent in Common Stock. The Common Stock will be acquired by the Plan Administrator for the participants' accounts, depending upon the circumstances described below, either (i) through receipt of additional unissued but authorized Common Stock from the Fund (Newly Issued Common Stock) or (ii) by purchase of outstanding Common Stock on the open market (Open-Market Purchases) on the NYSE or elsewhere. If, on the payment date for any Dividend, the closing market price of the Common Stock plus per share fees (as defined below) is equal to or greater than the NAV per share of Common Stock (such condition being referred to as market premium), the Plan Administrator will invest the Dividend amount in Newly Issued Common Stock on behalf of the participants. The number of Newly Issued Common Stock to be credited to each participant's account will be determined by dividing the dollar amount of the Dividend by the NAV per share of Common Stock on the payment date, provided that, if the NAV per share of Common Stock is less than or equal to 95% of the closing market price per share of Common Stock on the payment date, the dollar amount of the Dividend will be divided by 95% of the closing market price per Common Stock on the payment date. If, on the payment date for any Dividend, the NAV per share of Common Stock is greater than the closing market value per share of Common Stock plus per share fees (such condition being referred to as market discount), the Plan Administrator will invest the Dividend amount in shares of Common Stock acquired on behalf of the participants in Open-Market Purchases.

48 Visit our website at prudentialfunds.com

Per share fees include any applicable brokerage commissions the Plan Administrator is required to pay.

In the event of a market discount on the payment date for any Dividend, the Plan Administrator will have until the last business day before the next date on which the Common Stock trades on an ex-dividend basis or 30 days after the payment date for such Dividend, whichever is sooner (the Last Purchase Date), to invest the Dividend amount in Common Stock acquired in Open-Market Purchases on behalf of participants. If, before the Plan Administrator has completed its Open-Market Purchases, the market price per share of Common Stock exceeds the NAV per share of Common Stock, the average per share purchase price paid by the Plan Administrator for Common Stock may exceed the NAV per share of the Common Stock, resulting in the acquisition of fewer shares of Common Stock than if the Dividend had been paid in Newly Issued Common Stock on the Dividend payment date. Because of the foregoing difficulty with respect to Open-Market Purchases, the Plan provides that if the Plan Administrator is unable to invest the full Dividend amount in Open-Market Purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Administrator may cease making Open-Market Purchases and may invest the uninvested portion of the Dividend amount in Newly Issued Common Stock at the NAV per share of Common Stock at the close of business on the Last Purchase Date, provided that, if the NAV is less than or equal to 95% of the then current market price per share of Common Stock, the dollar amount of the Dividend will be divided by 95% of the market price on the payment date for purposes of determining the number of shares issuable under the Plan.

The Plan Administrator maintains all stockholder accounts in the Plan and furnishes written confirmation of all transactions in the accounts, including information needed by stockholders for tax records. Common Stock in the account of each Plan participant will be held by the Plan Administrator on behalf of the Plan participant, and each stockholder proxy will include those shares purchased or received pursuant to the Plan. The Plan Administrator will forward all proxy solicitation materials to participants and vote proxies for shares held under the Plan in accordance with the instructions of the participants.

In the case of the holders of Common Stock such as banks, brokers or nominees that hold shares of Common Stock for others who are the beneficial owners, the Plan Administrator will administer the Plan on the basis of the number of shares of Common Stock certified from time to time by the record stockholder's name and held for the account of beneficial owners who participate in the Plan.

The Plan Administrator's service fee, if any, and expenses for administering the plan will be paid for by the Fund. If a participant elects by written, Internet or telephonic notice to the Plan Administrator to have the Plan Administrator sell part or all of the shares held by the

Other Information (continued)

Plan Administrator in the participant's account and remit the proceeds to the participant, the Plan Administrator is authorized to deduct a \$15.00 transaction fee plus a \$0.12 per share fee. If a participant elects to sell his or her shares of Common Stock, the Plan Administrator will process all sale instructions received no later than five business days after the date on which the order is received by the Plan Administrator, assuming the relevant markets are open and sufficient market liquidity exists (and except where deferral is required under applicable federal or state laws or regulations). Such sale will be made through the Plan Administrator's broker on the relevant market and the sale price will not be determined until such time as the broker completes the sale. In every case the price to the participant shall be the weighted average sale price obtained by the Plan Administrator's broker net of fees for each aggregate order placed by the participant and executed by the broker. To maximize cost savings, the Plan Administrator will seek to sell shares in round lot transactions. For this purpose the Plan Administrator may combine a participant's shares with those of other selling participants.

There will be no brokerage charges with respect to shares of Common Stock issued directly by the Fund. However, each participant will pay a pro rata share of brokerage commissions incurred in connection with Open-Market Purchases. Each participant will be charged a per share fee (currently \$0.05 per share) on all Open-Market Purchases. The automatic reinvestment of Dividends will not relieve participants of any federal, state or local income tax that may be payable (or required to be withheld) on such Dividends. See Tax Matters. Participants that request a sale of Common Stock through the Plan Administrator are subject to brokerage commissions.

Each participant may terminate the participant's account under the Plan by so notifying the Plan Administrator via the Plan Administrator's website at www.computershare.com/investor, by filling out the transaction request form located at the bottom of the participant's Statement and sending it to the Plan Administrator or by calling the Plan Administrator. Such termination will be effective immediately if the participant's notice is received by the Plan Administrator prior to any dividend or distribution record date. Upon any withdrawal or termination, the Plan Administrator will cause to be delivered to each terminating participant a statement of holdings for the appropriate number of the Fund's whole book-entry shares of Common Stock and a check for the cash adjustment of any fractional share at the market value of the Fund's shares of Common Stock as of the close of business on the date the termination is effective less any applicable fees. In the event a participant's notice of termination is on or after a record date (but before payment date) for an account whose dividends are reinvested, the Plan Administrator, in its sole discretion, may either distribute such dividends in cash or reinvest them in shares of Common Stock on behalf of the terminating participant. In the event reinvestment is made, the Plan Administrator will process the termination as soon as practicable, but in no event later than five business days after the reinvestment is completed. The Plan may be terminated by the Fund upon

Privacy Notice

Prudential values your business and your trust. We respect the privacy of your personal information and take our responsibility to protect it seriously. This privacy notice is provided on behalf of the Prudential companies listed at the end of this notice (Prudential), and applies to our current and former customers. **This notice describes how we treat the information we receive about you, including the ways in which we will share your personal information within Prudential and your right to opt out of such sharing.**

Protecting Your Personal Information

We maintain physical, electronic and procedural safeguards to protect your personal information. The people who are authorized to have access to your personal information need it to do their jobs, and we require them to keep that information secure and confidential.

Personal Information We Collect

We collect your personal information when you fill out applications and other forms, when you enter personal details on our websites, when you respond to our emails, and when you provide us information over the telephone. We also collect personal information that others give us about you. This information includes, for example:

- name
- address, email address, telephone number, and other contact information
- income and financial information
- Social Security number
- transaction history
- medical information for insurance applications
- consumer reports from consumer reporting agencies
- participant information from organizations that purchase products or services from us for the benefit of their members or employees

Using Your Information

We use your personal information for various business purposes, including:

- normal everyday business purposes, such as providing services to you and administering your account or policy
- business research and analysis
- marketing products and services of Prudential and other companies in which you may be interested
- as required by law

Sharing Your Information

We may share your personal information, including information about your transactions and experiences, among Prudential companies and with other non-Prudential companies who perform services for us or on our behalf, for our everyday business purposes, such as providing services to you and administering your account or policy. We may also share your personal information with another financial institution if you agree that your account or policy can be transferred to that financial company.

We may share your personal information among Prudential companies so that the Prudential companies can market their products and services to you. We may also share consumer report information among Prudential companies which may include information about you from credit reports and certain information that we receive from you and from consumer reporting agencies or other third parties. You can limit this sharing by following the instructions described in this notice. For those customers who have one of our products through a plan sponsored by an employer or other organization, we will share your personal information in a manner consistent with the terms of the plan agreement or consistent with our agreement with you.

We may also share your personal information as permitted or required by law, including, for example, to law enforcement officials and regulators, in response to subpoenas, and to prevent fraud.

Unless you agree otherwise, we do not share your personal information with non-Prudential companies for them to market their products or services to you. We may tell you about a product or service that other companies offer and, if you respond, that company will know that we selected you to receive the information.

Limiting Our Sharing Opt Out/Privacy Choice

You may tell us not to share your personal information among Prudential companies for marketing purposes, and not to share consumer report information among Prudential companies, by opting out of such sharing. To limit our sharing for these purposes:

visit us online at: www.prudential.com/privacyoptout
call us at: 1-877-248-4019

If you previously told us in 2016 not to share your personal information among Prudential companies for marketing purposes, or not to share your consumer report information among Prudential companies, you do not need to tell us not to share your information again.

You are not able to limit our ability to share your personal information among Prudential companies and with other non-Prudential companies for servicing and administration purposes.

Questions

If you have any questions about how we protect, use, and share your personal information or about this privacy notice, please call us. The toll-free number is 1-877-248-4019.

We reserve the right to modify this notice at any time. This notice is also available anytime at www.prudential.com.
