We use words such as believe, anticipate, expect, intend, seek, estimate, project, should, potential, reasonably possible, plan, aim and similar expressions to identify forward-looking statements. In addition, we from time to time make forward-looking statements in our periodic reports to the SEC on Forms 20-F and 6-K, annual and interim reports, invitations to annual shareholders meetings and other information sent to shareholders, offering circulars and prospectuses, press releases and other written materials. Our management board, supervisory board, officers and employees may also make oral forward-looking statements to third parties, including financial analysts.

Such forward-looking statements may include, without limitation, statements relating to the following:

other statements relating to our future business development and economic performance.

By their very nature, forward-looking statements involve risks and uncertainties, both general and specific. We base these statements on our current plans, estimates, projections and expectations. Our forward-looking statements speak only as of the date we make them, and we undertake to publicly update, to the extent required by U.S. federal securities laws, any forward-looking statement to reflect certain events or circumstances after such dates or to reflect the occurrence of unanticipated events.

We caution you that a number of important factors could cause our actual results to differ materially from those we describe in any forward-looking statement. These factors include, among others, the following:

the potential development and impact on us of economic and business conditions;

other changes in general economic and business conditions;

changes and volatility in currency exchange rates, interest rates and asset prices;

changes in governmental policy and regulation, including measures taken in response to economic, business, political and social conditions;

The five corporate divisions are supported by infrastructure functions. In addition, we have a regional management function that covers regional responsibilities worldwide.

Our business operations are currently being reorganized under a new divisional structure comprising the divisions Corporate and Investment Bank (CIB), Private & Commercial Bank (PCB), and Deutsche Asset Management (Deutsche AM). CIB will combine the existing Corporate & Investment Banking and Global Markets divisions. PCB will consist of private and commercial banking, including Postbank, and wealth management. Deutsche Asset Management will be more operationally segregated with a minority stake traded on the public markets, assuming the planned IPO of a portion of Deutsche AM is successfully undertaken, while we retain a majority stake.

The following paragraphs describe the business activities of the five corporate divisions prior to the ongoing reorganization.

Global Markets

The Global Markets business combines sales, trading and structuring of a wide range of financial markets products, including bonds, equities and equity-linked products, exchange-traded and over-the-counter derivatives, foreign exchange, money market instruments, and structured products. Coverage of institutional clients is provided by the Institutional Client Group and Equity Sales, while Research provides analysis of markets, products and trading strategies for clients.

Corporate & Investment Banking

Corporate & Investment Banking (CIB) brings together our commercial banking, corporate finance, and transaction banking expertise under one common corporate division. It consists of our Corporate Finance and Global Transaction Banking businesses. CIB advises and executes on the multiple financial requirements of sophisticated corporate and institutional clients.

Private, Wealth and Commercial Clients

The Private, Wealth & Commercial Clients (PW&CC) corporate division combines our expertise in private and commercial banking as well as in wealth management solutions. PW&CC offers high-quality advice and a wide range of financial services in both our home market in Germany and internationally. Its objective is to be an advisory bank with a global network, strong expertise in capital markets and financing solutions and cutting-edge digital services.

The Issuer is conducting an Exchange Offer for the Original Notes, which is summarized below.

The Exchange Offer

The Issuer is offering to exchange up to \$4,500,000,000 aggregate principal amount of the outstanding Original Notes for a like principal amount of the Exchange Notes. You may tender Original Notes only in denominations of \$150,000 and integral multiples of \$1,000 in excess thereof. The Issuer will issue the Exchange Notes promptly after the Expiration Date. In order to be exchanged, an Original Note must be validly tendered, not validly withdrawn and accepted. Subject to the satisfaction or waiver of the conditions of the Exchange Offer, all Original Notes that are validly tendered and not validly withdrawn will be exchanged. As of the date of this prospectus, \$4,500,000,000 aggregate principal amount of Original Notes is outstanding. If all outstanding Original Notes are tendered for exchange, there will be \$4,500,000,000 aggregate principal amount of Exchange Notes outstanding after the Exchange Offer.

Accrued Interest on the Exchange Notes and Original Notes

The Exchange Notes will bear interest from (and including) the most recent date on which interest on the Original Notes has been paid. Ranking

As is the case with the Original Notes, the Exchange Notes will rank equally and *pari passu* with all of our other unsecured and unsubordinated debt, subject to any statutory priority regime under German law that provides that certain claims will be satisfied first in a resolution or insolvency proceeding with respect to us. Under German law, the Exchange Notes constitute non-preferred debt instruments within the meaning of Section 46f(6) sentence 1 of the German Banking Act (*Kreditwesengesetz*).

Resolution Measures

Under the relevant resolution laws and regulations as applicable to us from time to time, the Exchange Notes (as is the case with the Original Notes) may be subject to the powers exercised by the competent resolution authority to:

write down, including write down to zero, the claims for payment of the principal amount, the interest amount or any other amount in respect of the Exchange Notes;

convert the Exchange Notes into ordinary shares of (i) the Issuer or (ii) any group entity or (iii) any bridge bank or other instruments of ownership of such entities qualifying as common equity tier 1 capital (and the issue to or conferral on the holders (including the beneficial owners) of such ordinary shares or instruments); and/or

We refer to each of these measures as a Resolution Measure. When we refer to a group entity, we mean an entity that is included in the corporate group subject to a Resolution Measure, and when we refer to a bridge bank, we mean a newly chartered German bank that would receive some or all of our equity securities, assets, liabilities and material contracts, including those attributable to our branches and subsidiaries, in a resolution proceeding. Resolution Measures include, among others, the measures generally referred to within the meaning of the bail-in tool under the European Union directive of May 15, 2014 establishing a framework for the recovery and resolution of credit institutions and investment firms. For the avoidance of doubt, any non-payment by us arising out of any such Resolution Measure will not constitute a failure by us under the terms of the Exchange Notes or under the Indenture to make a payment of principal of, interest on or other amounts owing. By acquiring any Exchange Notes, you will be bound by and will be deemed irrevocably to consent to the imposition of any Resolution Measure by the competent resolution authority. As a result, you would have no claim or other right against us arising out of any Resolution Measure or, with respect to the Exchange Notes, increased losses incurred based on the order of priority introduced by the Resolution Mechanism Act as described under *Description of the Exchange Notes* below. In addition,

Table of Contents

by your acquisition of any Exchange Notes, you waive (to the fullest extent permitted by the Trust Indenture Act (defined below) and applicable law) any and all claims against the Trustee (defined below) and the Exchange Note Agents (defined below), and agree not to initiate a suit against the Trustee or any Exchange Note Agent in respect of, and agree that the Trustee and the Exchange Note Agents will not be liable for, any action that the Trustee or any Exchange Note Agent takes, or abstains from taking, in either case in accordance with the imposition of a Resolution Measure by the competent resolution authority with respect to the Exchange Notes. Accordingly, you may have limited or circumscribed rights to challenge any decision of the competent resolution authority to impose any Resolution Measure. For more information, please see the sections *Resolution Measures* and *Risk Factors* of this prospectus.

Waiver of Set-Off; No Security provided

No holder may set off its claims arising under the Exchange Notes against any claims of the Issuer. No security or guarantee will be provided at any time securing claims of the holders under the Exchange Notes; any security or guarantee already provided or granted in the future in connection with other liabilities of the Issuer may not be used for claims under the Exchanges Notes.

Event of Default

An **Event of Default** with respect to the Exchange Notes means the opening of insolvency proceedings against us by a German court having jurisdiction over us. There are no other events of default under the Exchange Notes. This represents a change from the Original Notes.

No Acceleration in case of Default in Payment or Performance; Right to Bring Actions on Default

There is no right of acceleration in the case of a default in the payment of principal of, or interest on, or other amounts owing under the Exchange Notes or default in our performance of any other covenant of the Issuer under the Exchange Notes or the Indenture. This represents a change from the Original Notes.

No holder has any right to initiate legal actions or other remedies unless such holder shall have given written notice of the default to the Trustee and the holders of not less than a majority in aggregate principal amount of the Exchange Notes shall have made written request to the Trustee to initiate such action or proceedings and the Trustee for 60 days after such notice shall have failed to initiate any such action.

Listing and Admission to Trading

We do not intend to list the Exchange Notes on any stock exchange. The Original Notes were also unlisted.

Book-Entry Issuance, Settlement and Clearance

The Exchange Notes will be represented by one or more fully registered global notes in book-entry form (the **Global Notes**). The Global Notes will be registered under the name of Cede & Co., as nominee for DTC. You may elect to hold interests in the Exchange Notes through either DTC (in the United States), or Clearstream Banking, société anonyme, which we refer to as **Clearstream, Luxembourg**, or Euroclear Bank, S.A./N.V., or its successor, as operator of the Euroclear System, which we refer to as **Euroclear** (outside of the United States), if you are participants of such systems, or indirectly through organizations which are participants in such systems. Interests held through Clearstream, Luxembourg and

Euroclear will be recorded on DTC's books as being held by the U.S. depository for each of Clearstream, Luxembourg and Euroclear, which U.S. depositories will in turn hold interests on behalf of their participants' customers' securities accounts.

Benefit Plan Investor Considerations

The Exchange Notes may be acquired by (i) an employee benefit plan as defined in and subject to Title I of the U.S. Employee Retirement Income Security Act of 1974, as amended (ERISA), (ii) a plan, account or other arrangement subject to Section 4975 of the U.S. Internal Revenue Code of 1986, as amended (the Code), (iii) any plan (such as a governmental plan (as defined in Section 3(32) of ERISA), a non-U.S. plan (as described in Section 4(b)(4) of ERISA) and certain church plans (as defined in Section 3(33) of ERISA)), account or arrangement that, while not subject to Title I of ERISA or Section 4975 of the Code, is subject to substantially similar provisions of any U.S. federal, state or local law, or non-U.S. law (Similar Law) or (iv) any entity whose underlying assets include, or are deemed for the purposes of ERISA, the Code or any Similar Law to include, plan assets of any such employee benefit plan or other plan, account or arrangement, each as described in (i), (ii) or (iii), subject to certain conditions. Each investor in an Exchange Note will be deemed to have made certain representations regarding these matters. Prospective investors must carefully consider the restrictions set forth in *Benefit Plan Investor Considerations*.

Taxation

All amounts payable in respect of the Exchange Notes will be made without deduction or withholding for or on account of any present or future taxes, duties or governmental charges of any nature whatsoever imposed or levied by way of deduction or withholding by or on behalf of Germany or any political subdivision or any authority thereof or therein having power to tax (**Withholding Taxes**), unless such deduction or withholding is required by law. In the event that any such deduction or withholding is imposed by Germany, the Issuer will, save in certain limited circumstances as described herein under *Description of the Exchange Notes - Payment of Additional Amounts*, be required to pay Additional Amounts to cover the amounts so deducted or withheld.

RISK FACTORS

Investing in the Exchange Notes involves risk, including the risk of loss of a holder's entire investment in the Exchange Notes. Before making a decision whether to participate in the Exchange Offer, you should carefully consider the risks and uncertainties described in this prospectus, including the risk factors set forth in the documents and reports filed with the SEC that are incorporated by reference herein. Investors should reach their own investment decision with regard to the Exchange Notes only after consultation with their own financial and legal advisers about risks associated with an investment in the Exchange Notes, and the suitability of investment in the Exchange Notes in light of their particular circumstances.

We believe that the factors described below represent the principal risks inherent in investing in the Exchange Notes, but our inability to pay interest, principal or other amounts on or in connection with any Exchange Notes or otherwise fulfill our obligations in connection with any Exchange Notes may occur for other reasons which we may not consider to be significant risks based on information currently available to us or which we may not currently anticipate. In addition, certain factors which are material for the purpose of assessing the market risks associated with the Exchange Notes are also described below. Prospective investors should give careful consideration to the following risk factors in evaluating the merits and suitability of an investment in the Exchange Notes.

The information is not intended to be an exhaustive list of all potential risks associated with an investment in the Exchange Notes. Prospective investors should also read the detailed information set out elsewhere in this prospectus and reach their own views prior to making any investment decision.

Risks relating to Deutsche Bank AG

For a description of the risks associated with Deutsche Bank AG, see the section entitled *Item 3: Key Information Risk Factors* of the 2016 Form 20-F.

Risks Relating to the Exchange Offer

There is uncertainty as to the trading market for Original Notes not exchanged.

To the extent we accept tenders of Original Notes for exchange in the Exchange Offer and the Exchange Offer is completed, the trading market for the Original Notes that remain outstanding following such completion may be significantly more limited, an outcome which may be exacerbated depending on the outcome of the Tender Offer being conducted concurrently (see *The Exchange Offer Relationship with the Tender Offer*). The remaining Original Notes may trade at a lower price than a comparable issue of securities with greater market liquidity. A reduced market value and reduced liquidity may also make the trading price of the remaining Original Notes more volatile. As a result, the market price for the Original Notes that remain outstanding after the completion of the Exchange Offer (and the Tender Offer) may be adversely affected as a result of the Exchange Offer (and the Tender Offer) and holders may be unable to resell their Original Notes for an extended period of time, if at all. None of the Issuer, the Dealer Manager, the Exchange Agent or the Information Agent has any duty to make a market in any remaining Original Notes.

Original Notes not exchanged or rejected from the Exchange Offer will be treated differently from Exchange Notes.

If you do not exchange your Original Notes for Exchange Notes pursuant to the Exchange Offer or if they are rejected therefrom, your Original Notes will remain outstanding. The terms and conditions governing the Original Notes, including the covenants and other protective provisions contained in the Agency Agreement governing the Original Notes, will remain unchanged. No amendments to these documents are being sought.

The Original Notes that remain outstanding or are rejected from the Exchange Offer will remain subject to the existing transfer restrictions. The Original Notes may not be offered, sold or otherwise transferred, except in compliance with the registration requirements of the Securities Act, pursuant to an exemption from registration under the Securities Act or in a transaction not subject to the registration requirements of the Securities Act, and in compliance with applicable state securities laws. Holders who do not participate in the Exchange Offer will face restrictions on the resale of their Original Notes, and may not be able to sell their Original Notes at the time they wish or at prices acceptable to them. In addition, we currently do not intend to register the Original Notes under the Securities Act and, if you are eligible to exchange your Original Notes in the Exchange Offer and do

Table of Contents

not exchange your Original Notes in the Exchange Offer, you will not be entitled to have those Original Notes registered under the Securities Act at a later date.

We are conducting the Tender Offer concurrently with the Exchange Offer. While you may be able to tender in the Tender Offer Original Notes that are not tendered in the Exchange Offer pursuant to the terms of the Tender Offer, you may, due to timing or other reasons, be unable to do so. In particular, we cannot assure any holder that any Original Notes rejected or withdrawn from the Exchange Offer will be credited to any holder's account in time for such holder to tender such Original Notes in the Tender Offer. We are also unable to assure that any Original Notes not tendered in the Exchange Offer will be eligible for tendering in the Tender Offer pursuant to its terms.

From time to time, and subject to certain conditions, we may in the future acquire Original Notes that are not tendered and accepted for purchase in the Exchange Offer through open market purchases, privately negotiated transactions, tender offers, exchange offers or otherwise, upon such terms and at such prices as may be determined, which may be more or less than the price to be paid pursuant to the Tender Offer and could be for cash or other consideration. There can be no assurance as to which, if any, of these alternatives (or combinations thereof) we may choose to pursue in the future.

Responsibility for complying with the procedures of the Exchange Offer.

Holders of Original Notes are responsible for complying with all of the procedures for tendering Original Notes for exchange in a timely manner. Therefore, holders of Original Notes that wish to exchange them for Exchange Notes should allow sufficient time to ensure timely delivery of the Original Notes and other required documents to the Exchange Agent and holders should carefully follow the instructions on how to tender their Original Notes. If the instructions are not strictly complied with, the Agent's Message may be rejected. None of Issuer, the Dealer Manager, Exchange Agent or the Information Agent assumes any responsibility for informing any holder of Original Notes of irregularities with respect to such holder's participation in the Exchange Offer. See *The Exchange Offer Procedures for Tendering*.

Consummation of the Exchange Offer may not occur.

The Exchange Offer is subject to the satisfaction of certain conditions. See *The Exchange Offer Conditions to the Exchange Offer*. Even if the Exchange Offer is completed, it may not be completed on the schedule described in this prospectus. Accordingly, holders participating in the Exchange Offer may have to wait longer than expected to receive their Exchange Notes, during which time such holders will not be able to effect transfers of their Original Notes tendered in the Exchange Offer.

Until we announce whether we have accepted valid tenders of Original Notes for exchange pursuant to the Exchange Offer, no assurance can be given that the Exchange Offer will be completed because, subject to applicable law and as provided in this prospectus, we may, in our discretion, extend, re-open, amend, waive any condition of or terminate any or all of the Exchange Offer, subject to applicable law, at any time until then.

Risks relating to the Exchange Notes

The Exchange Notes may be written down, be converted into ordinary shares or other instruments qualifying as common equity tier 1 capital or become subject to other resolution measures. You may lose part or all of your investment if any such measure becomes applicable to us. Also, since January 1, 2017, in a resolution or German insolvency proceeding instituted with respect to the Issuer, certain specifically defined senior unsecured debt instruments (such as the Exchange Notes) would rank junior to, without constituting subordinated debt, all other outstanding unsecured unsubordinated obligations of the Issuer, and be satisfied only if all other senior unsecured obligations of the Issuer have been paid in full. Such ranking might result in higher losses being allocated to the Exchange Notes described in this prospectus than to other outstanding unsecured unsubordinated obligations of the Issuer.

On May 15, 2014, the European Parliament and the Council of the European Union adopted a directive establishing a framework for the recovery and resolution of credit institutions and investment firms (commonly referred to as the Bank Recovery and Resolution Directive). The Bank Recovery and Resolution Directive required each member state of the European Union to adopt and publish by December 31, 2014 the laws, regulations and administrative provisions necessary to comply with the Bank Recovery and Resolution Directive. To implement the Bank Recovery and Resolution Directive,

Table of Contents

Germany adopted the Recovery and Resolution Act (*Sanierungs- und Abwicklungsgesetz*, or the Resolution Act), which became effective on January 1, 2015. The Bank Recovery and Resolution Directive and the Resolution Act provided national resolution authorities with a set of resolution powers to intervene in the event that a bank is failing or likely to fail and certain other conditions are met. From January 1, 2016, the power to initiate resolution measures applicable to significant banking groups (such as Deutsche Bank Group) in the European Banking Union has been transferred to the European Single Resolution Board (SRB) which, based on the European Union regulation establishing uniform rules and a uniform procedure for the resolution of credit institutions and certain investment firms in the framework of a Single Resolution Mechanism and a Single Resolution Fund (SRM Regulation), works in close cooperation with the European Central Bank, the European Commission and the national resolution authorities.

Pursuant to the SRM Regulation, the Resolution Act and other applicable rules and regulations, the Exchange Notes are subject to the powers exercised by the competent resolution authority to write down, including write down to zero, the claims for payment of the principal amount, interest amount or any other amount in respect of the Exchange Notes, to convert the Exchange Notes into ordinary shares of (i) the Issuer, (ii) any group entity or (iii) any bridge bank or other instruments of ownership of such entities qualifying as common equity tier 1 capital, or to apply any other resolution measure including, but not limited to, any transfer of the Exchange Notes to another entity, the amendment, modification or variation of the terms and conditions of the Exchange Notes or a cancellation of the Exchange Notes. We refer to each of these measures pursuant to German and European law, as applicable to us from time to time in effect, as a Resolution Measure. Resolution Measures include, among others, the measures generally referred to as the bail-in tool under the Bank Recovery and Resolution Directive as implemented by the Resolution Act. The competent resolution authority may apply Resolution Measures individually or in any combination. Imposition of a Resolution Measure would likely occur if we become, or are deemed by the competent supervisory authority to have become, non-viable (as defined under the then applicable law) and are unable to continue our regulated banking activities without a Resolution Measure becoming applicable to us. The Bank Recovery and Resolution Directive and the Resolution Act are intended to eliminate the need for public support of troubled banks, and you should be aware that public support, if any, would only potentially be used by the competent supervisory authority as a last resort after having assessed and exploited, to the maximum extent practicable, the resolution tools, including the bail-in tool.

If a Resolution Measure is imposed, the competent resolution authority will have to exercise its powers in a way that results in (i) common equity tier 1 capital instruments (such as ordinary shares of Deutsche Bank AG) being written down first in proportion to the relevant losses, (ii) thereafter, the principal amount of other capital instruments (additional tier 1 capital instruments and tier 2 capital instruments) being written down on a permanent basis or converted into common equity tier 1 capital instruments in accordance with their order of priority and (iii) thereafter, eligible liabilities such as those under senior debt securities and warrants being written down or converted into common equity tier 1 capital instruments in accordance with a set order of priority.

The German Banking Act as amended by the German law on the mechanism for the resolution of banks of November 2, 2015 (*Abwicklungsmechanismusgesetz*, or the Resolution Mechanism Act) provides that in a German insolvency proceeding of the issuer, certain specifically defined senior unsecured debt instruments (such as the Exchange Notes) would rank junior to, without constituting subordinated debt, all other outstanding unsecured unsubordinated obligations of the issuer, and be satisfied only if all such other senior unsecured obligations of the Issuer have been paid in full. This prioritization would also be given effect if Resolution Measures are imposed on the Issuer, so that obligations under debt instruments that rank junior in insolvency as described above would be written down or converted into common equity tier 1 instruments before any other senior unsecured obligations of the Issuer are written down or converted. Debt instruments that rank junior to other senior obligations according to the Resolution Mechanism Act comprise bearer bonds, negotiable registered bonds and similar instruments which by their nature are tradable on the capital markets, as well as promissory notes and non-negotiable registered bonds which do not qualify as deposits, unless they are expressly exempted. A large portion of our liabilities consists of senior unsecured obligations that fall outside this statutory definition or are expressly exempted. Among those unsecured unsubordinated obligations that are expressly exempted are money market instruments and senior unsecured debt instruments whose terms provide that (i) the repayment or the amount of the repayment depends on the occurrence or non-occurrence of an event which is uncertain at the point in time when the senior unsecured debt instruments are issued or is settled in a way other than

Table of Contents

by monetary payment, or (ii) the payment of interest or the amount of the interest payments depends on the occurrence or non-occurrence of an event which is uncertain at the point in time when the senior unsecured debt instruments are issued unless the payment of interest or the amount of the interest payments solely depends on a fixed or floating reference interest rate and is settled by monetary payment.

This order of priority introduced by the Resolution Mechanism Act became effective on January 1, 2017 and would apply to then outstanding debt instruments of the Issuer if German insolvency proceedings were instituted or if Resolution Measures were imposed on such debt instruments. In a German insolvency proceeding or in the event of the imposition of Resolution Measures with respect to the Issuer, the competent regulatory authority or court would determine whether the Exchange Notes have the terms described in clauses (i) or (ii) above, referred to herein as Structured Debt Securities, or whether they do not, referred to herein as Non-Structured Debt Securities. We expect and intend the Exchange Notes to be classified as Non-Structured Debt Securities. In a German insolvency proceeding or in the event of the imposition of Resolution Measures with respect to the Issuer, Structured Debt Securities and warrants are expected to be among the unsecured unsubordinated obligations that would bear losses after the Non-Structured Debt Securities as described above. The order of priority introduced by the Resolution Mechanism Act could lead to increased losses for the holders of Non-Structured Debt Securities (such as the Exchange Notes) if insolvency proceedings were initiated or Resolution Measures imposed on the issuer.

In November 2016, the European Commission proposed substantial amendments to, among other laws, the Capital Requirements Regulation, the Bank Recovery and Resolution Directive and the SRM Regulation. The proposals cover multiple areas, including the ranking of certain unsecured debt instruments in national insolvency proceedings (to include a new category of non-preferred senior debt referred to as eligible liabilities instruments), the introduction of a moratorium tool, refinements of the minimum requirement for own funds and eligible liabilities (or MREL) framework, and the integration of the minimum total loss-absorbing capacity (or TLAC) standard into EU legislation. Based upon the current proposals, we expect the Exchange Notes to qualify as eligible liabilities instruments and to continue to rank similar to Non-Structured Debt Securities once the proposals become effective. The proposals, if they are enacted as proposed, may also enable us to issue instruments similar to the Exchange Notes, but ranking senior to them. The proposals are to be considered by the European Parliament and the Council of the European Union and therefore remain subject to change. The legislation when final may not include all elements of the proposals and new or amended elements may be introduced in the course of the legislative process. Until the proposals are in final form, it is uncertain how the proposals will affect us or holders of the Exchange Notes. The current proposals, as well as the economic and financial environment at the time of implementation and beyond, can have a material impact on our operations and financial condition and they may require us to raise additional capital or issue additional eligible liabilities instruments.

You would have no claim or other right against us arising out of any Resolution Measure, and we would have no obligation to make payments under the Exchange Notes following the imposition of a Resolution Measure. In particular, the imposition of any Resolution Measure will not constitute a default or an Event of Default under the Exchange Notes, or under the Indenture, or give you any other right to accelerate or terminate the Exchange Notes.

There is some uncertainty as to what protections, if any, will be available to holders of securities that are subject to a Resolution Measure and to the additional resolution powers that may be granted to the competent resolution authority. Under the Resolution Act, there are certain limited judicial proceedings available to challenge any Resolution Measure taken by the competent resolution authority. Limited judicial proceedings to challenge Resolution Measures under the SRM Regulation (including possible proceedings before the European Court of Justice) may also be available. However, it remains unclear what remedies may be available to holders commencing such proceedings. In addition, by your acquisition of the Exchange Notes, you waive (to the fullest extent permitted by the Trust Indenture Act and applicable law) any and all claims against the Trustee and the paying agent, the authenticating agent, the issuing agent and the registrar for the Exchange Notes (the Exchange Note Agents) for, agree not to initiate a suit against the Trustee or any Exchange Note Agent in respect of, and agree that the Trustee and the Exchange Note Agents will not be liable for, any action that the Trustee or any Exchange Note Agent takes, or abstains from taking, in either case in accordance with the imposition of a Resolution Measure by the competent resolution authority with respect to the Exchange Notes. Accordingly, you may have limited or circumscribed rights to challenge any decision of the competent resolution authority to impose any Resolution Measure.

Table of Contents

The extent to which the principal amount of, or other amount payable with respect to, the Exchange Notes may be subject to a Resolution Measure may depend on a number of factors that may be outside our control, and it will be difficult to predict when, if at all, a Resolution Measure might become applicable to us in our individual case. Accordingly, secondary market trading in the Exchange Notes may not follow the trading behavior associated with other types of securities issued by other financial institutions that may be or have been subject to a Resolution Measure. In addition, secondary market trading in any securities constituting Non-Structured Debt Securities may not follow the trading behavior associated either with Structured Debt Securities issued by us or with securities issued by other financial institutions that are not subject to the Resolution Mechanism Act or similar laws. You may lose part or all of your investment in the securities if a Resolution Measure becomes applicable to us, even though the Exchange Notes are governed by New York law.

There are differences between the Original Notes and the Exchange Notes. These differences include terms designed to cause the Exchange Notes to qualify as eligible liabilities instruments under proposed banking regulations expected to be applicable to us. As such, the ranking of the Exchange Notes will be subject to any statutory priority regime under German law that provides that certain claims will be satisfied first in a resolution or insolvency proceeding with respect to us, and you will have no right to accelerate or terminate the Exchange Notes in the event of any payment default or non-performance under the Exchange Notes or the Indenture.

The terms of the Exchange Notes will be different from those of the Original Notes. In particular, the terms of the Exchange Notes are designed to qualify as eligible liabilities instruments once the amendments to the Capital Requirements Regulation, the Bank Recovery and Resolution Directive and the SRM Regulation referred to in the immediately preceding risk factor have become effective. To effect this eligibility, the Indenture and the Exchange Notes will provide that the Exchange Notes will rank equally and *pari passu* with all of our other unsecured and insubordinated debt, subject to any statutory priority regime under German law that provides that certain claims will be satisfied first in a resolution or insolvency proceeding with respect to us. The Indenture and the Exchange Notes will further provide that the Exchange Notes will constitute non-preferred debt instruments within the meaning of Section 46f(6) sentence 1 of the German Banking Act (*Kreditwesengesetz*), which forms part of the statutory scheme establishing the qualifications for treatment of securities as eligible liabilities instruments. Furthermore, the Indenture and the Exchange Notes will provide no right of acceleration in the case of any default in the payment of principal of, or interest on, or other amounts owing under the Exchange Notes or default in the performance of any other covenant we make in the Exchange Notes or the Indenture. Accordingly, higher losses may be allocated to the Exchange Notes than to other outstanding unsecured unsubordinated obligations we have issued or may in the future issue.

Investors should carefully consider the differences described in the preceding paragraph in addition to those described under *Comparison of Material Differences Between the Original Notes and the Exchange Notes* in deciding whether to tender Original Notes for exchange in connection with the Exchange Offer.

Changes in law may adversely affect the rights of the holders.

Changes in law after the date hereof may adversely affect the rights and effective remedies of holders as well as the market value of the Exchange Notes. Such changes in law may include changes in statutory, tax and regulatory regimes during the life of the Exchange Notes, which may have an adverse effect on investment in the Exchange Notes.

The Exchange Notes may not be a suitable investment for all investors.

Each potential investor in the Exchange Notes must determine the suitability of such investment in light of its own circumstances. Holders should consult their own tax, accounting, financial and legal advisers regarding the suitability to themselves of the tax or accounting consequences of participating in the Exchange Offer. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Exchange Notes, the merits and risks of investing in the Exchange Notes and the information contained or incorporated by reference in this prospectus;

Table of Contents

- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Exchange Notes and the impact the Exchange Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Exchange Notes, including where the currency for principal or interest payments is different from the currency in which such potential investor's financial activities are principally denominated;
- (iv) understand thoroughly the terms of the Exchange Notes, such as the circumstances under which the competent resolution authority will impose a Resolution Measure with respect to the Exchange Notes, and the effect of our condition on the Exchange Notes;
- (v) understand thoroughly that there will be no right to accelerate or terminate the Exchange Notes; and
- (vi) be able to evaluate possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

A potential investor should not invest in the Exchange Notes unless it has the knowledge and expertise (either alone or with a financial adviser) to evaluate how the Exchange Notes will perform under changing conditions, the resulting effects on the value of the Exchange Notes due to the likelihood of an exercise of resolution powers or the ordering of Resolution Measures with respect to us, and the impact this investment will have on the potential investor's overall investment portfolio. Prior to making an investment decision, potential investors should consider carefully, in light of their own financial circumstances and investment objectives, all the information contained in this prospectus or incorporated by reference herein.

None of Deutsche Bank AG, the Dealer Manager, the Exchange Agent, the Information Agent or their respective directors, officers, employees, agents or affiliates is acting for any holder, or will be responsible to any holder for providing any protections which would be afforded to its clients or for providing advice in relation to the Exchange Offer, and accordingly none of Deutsche Bank AG, the Dealer Manager, the Exchange Agent, the Information Agent or their respective directors, officers, employees, agents or affiliates makes any recommendation whatsoever regarding the Exchange Offer, or any recommendation as to whether you should tender your Original Notes for exchange pursuant to the Exchange Offer. None of Deutsche Bank AG, the Dealer Manager, the Exchange Agent, the Information Agent or their respective directors, officers, employees, agents or affiliates has expressed any opinion as to whether the terms of the Exchange Offer are fair.

No public market exists for the Exchange Notes, and there are uncertainties regarding the existence of any trading market for the Exchange Notes.

The Exchange Notes are new securities which may not be widely distributed and for which there is currently no active trading market. If the Exchange Notes are traded after their initial issuance, they may trade at a discount to their issue price, depending upon prevailing interest rates, the market for similar securities, general economic conditions, or our results of operations, financial condition, liquidity profile and regulatory capital adequacy. Therefore, holders may not be able to sell their Exchange Notes easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. The Exchange Notes generally would have a more limited secondary market and more price volatility than conventional debt securities.

The Exchange Offer is not subject to any minimum level of participation. Accordingly, if the level of participation in the Exchange Offer is low, and we consummate the Exchange Offer and issue Exchange Notes, the trading market for the Exchange Notes may be limited, and the Exchange Notes may trade at a lower price than a comparable issue of securities with greater market liquidity. A low market value and low market liquidity may also make the trading price of the Exchange Notes more volatile than a comparable issue with a larger market value and greater liquidity.

The Exchange Notes are not listed or admitted for trading on any securities exchange, and we have no plans to effect such listing or admission, which may compound the risk described in the preceding paragraph. Illiquidity may have a severely adverse effect on the market value of the Exchange Notes.

Credit ratings may not reflect all risks. Changes to the credit ratings of the Exchange Notes could affect the value of the Exchange Notes.

Edgar Filing: DEUTSCHE BANK AKTIENGESELLSCHAFT - Form F-4

Upon issuance, it is expected that one or more independent credit rating agencies will assign credit ratings to the Exchange Notes. However, we are under no obligation to ensure that the Exchange

Notes are rated by any rating agency. The credit ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Exchange Notes. There can be no assurance that the methodology of these credit rating agencies will not evolve or that such credit ratings will not be suspended, reduced or withdrawn at any time. Further, such credit ratings may be revised downwards in the event of a deterioration in our capital position or viability. A credit rating is not a recommendation to buy, hold or sell securities and may be subject to suspension, reduction or withdrawal at any time by the assigning rating agency.

Our credit rating may not reflect all risks of an investment in the Exchange Notes.

Our credit rating may not reflect the potential impact of all risks relating to the market values of the Exchange Notes. However, real or anticipated changes in our credit rating will generally affect the market values of the Exchange Notes or may result in a downgrade in the credit ratings for the Exchange Notes. A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time.

There is no restriction on the amount or type of further securities or indebtedness which we may issue.

There is no restriction on the amount or type of further securities or indebtedness which we may issue or incur, as the case may be, which rank senior to, or *pari passu* with, the Exchange Notes. The issue or incurrence of any such further securities or indebtedness, as the case may be, may limit our ability to meet our obligations under the Exchange Notes.

The market value of the Exchange Notes may be influenced by unpredictable factors.

Many factors, most of which are beyond our control, will influence the value of the Exchange Notes and the price, if any, at which securities dealers may be willing to purchase or sell the Exchange Notes in the secondary market, including:

(i) our creditworthiness and, in particular our results of operations, financial condition, liquidity profile and regulatory capital adequacy;

(ii) supply and demand for the Exchange Notes, including inventory with any securities dealer; and

(iii) economic, financial, political or regulatory events or judicial decisions that affect us or the financial markets generally.

Accordingly, if a holder sells its Exchange Notes in the secondary market, it may not be able to obtain a price equal to the principal amount of the Exchange Notes or a price equal to the price that it paid for the Exchange Notes.

The global certificates are held by or on behalf of DTC, Euroclear and Clearstream, Luxembourg and holders will have to rely on their procedures for transfer, payment, voting and communication with us.

The Exchange Notes are represented by global certificates deposited with the custodian for DTC. Except in certain limited circumstances described in the global certificates, holders will not be entitled to receive Exchange Notes in fully certificated, non-global definitive form, which we refer to as Definitive Notes. DTC (and Euroclear and Clearstream, Luxembourg as indirect participants in DTC) will maintain records of the beneficial interests in the global certificates. While the Exchange Notes are represented by one or more global certificates, holders will be able to trade their beneficial interests in Exchange Notes only through DTC or any other clearing system, as applicable.

A holder of a beneficial interest in a global certificate must rely on the procedures of DTC or any other clearing system to receive payments under the Exchange Notes. We have no responsibility or liability for the records relating to, or payments made in respect of, beneficial interests in the global certificates.

Holders of beneficial interests in the global certificates will not have a direct right to vote in respect of the Exchange Notes. Instead, such holders will be permitted to act only to the extent that they are enabled by DTC to appoint appropriate proxies.

Table of Contents

Any transfer of Exchange Notes that is initiated prior to the delivery of a notice to DTC specifying the opening of insolvency proceedings against us but that is scheduled to settle after receipt of such notice by DTC will be rejected by DTC and will not settle within DTC.

Following the receipt of notice by DTC regarding the opening of insolvency proceedings against us, DTC will suspend all clearance and settlement of the Exchange Notes. As a result, holders will not be able to settle the transfer of any Exchange Notes following the receipt of such notice by DTC due to the suspension of settlement activities with respect to the Exchange Notes within DTC. In addition, any sale or other transfer of the Exchange Notes that a holder may have initiated prior to the receipt of such notice by DTC that is scheduled to settle following the receipt of such notice by DTC will be rejected by DTC and will not be settled within DTC. In this circumstance, transferors of the Exchange Notes would not receive any consideration through DTC in respect of such intended transfer because DTC will not settle such transfer.

Legal investment considerations may restrict certain investments.

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal advisers to assess the terms of the Exchange Notes (including as to the circumstances under which the competent resolution authority would impose a Resolution Measure with respect to the Exchange Notes, the acknowledgement thereof and consent thereto and the effect of the Issuer's condition on the Exchange Notes) and to determine whether and to what extent (1) Exchange Notes are legal investments for it, (2) Exchange Notes can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Exchange Notes. Financial institutions should consult their legal advisers or the appropriate regulators to determine the appropriate treatment of Exchange Notes under any applicable risk-based capital or similar rules.

Movements of the market interest rate and the credit risk premium can adversely affect the price of the Exchange Notes and lead to losses upon a sale.

You will be exposed to the risk that the price of the Exchange Notes decreases as a result of changes in the premium the market applies to the risks relating to us or our capital. We refer to this kind of premium as the credit risk premium. You will also be exposed to interest rates as determined on a particular day on the capital markets, which we refer to as a market interest rate. As the market interest rate or the credit risk premium changes, the price of the Exchange Notes would typically be expected to change in the opposite direction. For example, if either the market interest rate or the credit risk premium increases, the price of the Exchange Notes on the secondary market would typically be expected to fall in response. Movements of the market interest rate and the credit risk premium are independent of each other, and such movements can adversely affect the price of the Exchange Notes and can accordingly lead to losses on your investment in the Exchange Notes.

Repurchase of the Exchange Notes prior to their scheduled maturity requires regulatory approval.

Any repurchase of the Exchange Notes prior to their stated maturity shall be subject to (i) receipt by the Issuer of prior written approval of the Issuer's competent supervisory authority, if then required under applicable law, capital adequacy guidelines, regulations or policies of such competent supervisory authority, and (ii) compliance with any other regulatory requirements. If the Exchange Notes are repurchased without prior written approval of such competent supervisory authority, then the amounts paid on the Exchange Notes must be returned to the Issuer irrespective of any agreement to the contrary.

The consents of holders may not be required for certain majority decisions, modifications of the terms of the Exchange Notes or the Indenture, or for waivers.

The terms of the Exchange Notes contain certain voting provisions for holders of Exchange Notes regarding matters affecting their interests generally. These provisions permit defined majorities to bind all holders, including holders who did not vote and holders who voted in a manner contrary to the majority.

Additionally, we and the Trustee may amend, modify or supplement the Indenture or the Exchange Notes without the consent of any holder to, for example, evidence the succession of another corporation to us, to cure any ambiguity or to correct or supplement any provision contained in the

Table of Contents

Indenture or the Exchange Notes which may be defective or inconsistent with any other provision contained therein, or to make such other provisions as we may deem necessary or desirable, provided that no such action shall adversely affect the interests of the holders.

You might incur costs in connection with the tender, the blocking or upon return of Notes

If you authorize the tendering of Notes and the blocking of the relevant accounts in any of the clearing systems or if we do not accept your tender of Notes and accordingly your Notes are unblocked, you might incur costs in connection with such actions. You should therefore consult your broker, dealer, bank, custodian, trust company, other nominee or financial advisor to inform yourself about any such possible costs.

Certain tax considerations

Tendering Notes may result in tax consequences. See *Taxation* for a discussion of certain tax matters that should be considered in evaluating the Exchange Offer.

THE EXCHANGE OFFER

This section describes the Exchange Offer, but it may not contain all of the information that is important to you. See Where You Can Find More Information; Documents Incorporated By Reference.

General

The Exchange Offer is not being made to holders of Original Notes in any jurisdiction where the exchange would not comply with the securities or blue sky laws of such jurisdiction.

Terms of the Exchange Offer

Upon the terms and subject to the conditions described in the Offer Documents, we will accept for exchange Original Notes that are properly tendered before 11:59 p.m., New York City time, on the Expiration Date and not validly withdrawn as permitted below. We will issue a like principal amount of Exchange Notes in exchange for the principal amount of the Original Notes tendered under the Exchange Offer. As used in this prospectus, the term Expiration Date means May 16, 2017. However, if we have extended the period of time for which the Exchange Offer is open with respect to the Original Notes, the term Expiration Date means the latest date and time to which we extend the Exchange Offer.

As of the date of this prospectus, \$4,500,000,000 aggregate principal amount of Original Notes is outstanding. The Original Notes were issued pursuant to the Agency Agreement. Our obligation to accept Original Notes for exchange in the Exchange Offer is subject to the conditions described below under *Conditions to the Exchange Offer*. We reserve the right to extend the period of time during which the Exchange Offer is open and we may elect to extend the Expiration Date. In addition, in the event of any material change in the Exchange Offer, we will extend the period of time during which the Exchange Offer is open, if necessary, so that the Expiration Date is at least five Business Days following the date of notice of the material change. In the event of such extension, and only in such event, we may delay acceptance for exchange of the Original Notes by giving written notice of the extension to the holders of Original Notes as described below. During any period prior to such extended Expiration Date, all Original Notes previously tendered will remain subject to the Exchange Offer and may be accepted for exchange by us. Any Original Notes not accepted for exchange will be returned to the tendering holder. We will instruct DTC, via the Exchange Agent, to do so promptly after the expiration or termination of the Exchange Offer.

Original Notes may be tendered and accepted for exchange only in principal amounts equal to minimum denominations of \$150,000 and integral multiples of \$1,000 in excess thereof. No alternative, conditional or contingent tenders will be accepted. Holders who tender less than all of their Original Notes must continue to hold Notes in at least the minimum Authorized Denomination of \$150,000 principal amount.

We reserve the right to amend or terminate the Exchange Offer, and not to accept for exchange any Original Notes not previously accepted for exchange, upon the occurrence of any of the conditions of the Exchange Offer specified below under *Conditions to the Exchange Offer*. We will give written notice of any extension, amendment, non-acceptance or termination to the holders of the Original Notes as promptly as practicable. Such notice, in the case of any extension, will be issued by means of a press release or other public announcement no later than 9:00 a.m., New York City time, on the next Business Day after the previously scheduled Expiration Date.

Our acceptance of the tender of Original Notes by a tendering holder will form a binding agreement upon the terms and subject to the conditions provided in the Offer Documents.

Absence of Dissenters Rights of Appraisal

Holders of the Original Notes do not have any dissenters rights of appraisal in connection with the Exchange Offer.

Procedures for Tendering

Except as described below, a tendering holder must, at or prior to 11:59 p.m., New York City time, on the Expiration Date:

transmit a properly completed and duly executed letter of transmittal, including all other documents required by the letter of transmittal, to the Exchange Agent at the address listed below under the heading *Dealer Manager and Agents Exchange Agent and Information Agent*; or

if Original Notes are tendered in accordance with the book-entry procedures described below, the tendering holder must transmit an Agent's Message to the Exchange Agent at the address listed below under the heading *Dealer Manager and Agents Exchange Agent and Information Agent*.

In addition:

the Exchange Agent must receive, at or before 11:59 p.m., New York City time, on the Expiration Date, certificates for the Original Notes, if any; or

the Exchange Agent must receive a timely confirmation of book-entry transfer of the Original Notes into the Exchange Agent's account at DTC, the book-entry transfer facility.

The term *Agent's Message* means a message, transmitted to DTC and received by the Exchange Agent and forming a part of a book-entry transfer, that states that DTC has received an express acknowledgment that the tendering holder agrees to be bound by the letter of transmittal and that we may enforce the letter of transmittal against this holder.

The method of delivery of Original Notes, letters of transmittal and all other required documents is at your election and risk. If the delivery is by mail, we recommend that you use registered mail, properly insured, with return receipt requested. In all cases, you should allow sufficient time to assure timely delivery. You should not send letters of transmittal or Original Notes to anyone other than the Exchange Agent.

If you are a beneficial owner whose Original Notes are registered in the name of a broker, dealer, commercial bank, trust company or other nominee, and wish to tender, you should promptly instruct the registered holder to tender on your behalf. Any registered holder that is a participant in DTC's book-entry transfer facility system may make book-entry delivery of the Original Notes by causing DTC to transfer the Original Notes into the Exchange Agent's account.

Signatures on a letter of transmittal or a notice of withdrawal must be guaranteed unless the Original Notes surrendered for exchange are tendered:

by a registered holder of the Original Notes that has not completed the box entitled *Special Issuance Instructions* or *Special Delivery Instructions* on the letter of transmittal; or

for the account of an eligible institution.

If signatures on a letter of transmittal or a notice of withdrawal are required to be guaranteed, the guarantees must be by an eligible institution. An eligible institution is a financial institution, including most banks, savings and loan associations and brokerage houses, that is a participant in the Securities Transfer Agents Medallion Program, the New York Stock Exchange Medallion Signature Program or the Stock Exchanges Medallion Program.

We will reasonably determine all questions as to the validity, form and eligibility of Original Notes tendered for exchange and all questions concerning the timing of receipts and acceptance of tenders in our sole discretion. These determinations will be final and binding.

Edgar Filing: DEUTSCHE BANK AKTIENGESELLSCHAFT - Form F-4

We reserve the right to reject any particular Original Note not properly tendered, or any acceptance that might, in our judgment or our counsel's judgment, be unlawful. We also reserve the right to waive any defects or irregularities with respect to the form or procedures applicable to the tender of any particular Original Note prior to the Expiration Date. Unless waived, any defects or irregularities in connection with tenders of Original Notes must be cured prior to the Expiration Date. None of the Issuer, the Exchange Agent, the Information Agent or any other person will be under any duty to give notification of any defect or irregularity in any tender of Original Notes. Nor will the Issuer, the Dealer Manager, the Exchange Agent, the Information Agent or any other person incur any liability for failing to give notification of any defect or irregularity.

Table of Contents

If the letter of transmittal is signed by a person other than the registered holder of Original Notes, the letter of transmittal must be accompanied by a certificate of the Original Notes endorsed by the registered holder or written instrument of transfer or exchange in satisfactory form, duly executed by the registered holder, in either case with the signature guaranteed by an eligible institution. In addition, in either case, the original endorsement or the instrument of transfer must be signed exactly as the name of any registered holder appears on the Original Notes.

If the letter of transmittal or any Original Notes or powers of attorney are signed by trustees, executors, administrators, guardians, attorneys-in-fact, officers of corporations or others acting in a fiduciary or representative capacity, these persons should so indicate when signing. Unless waived by us, proper evidence satisfactory to us of their authority to so act must be submitted.

Acceptance of Original Notes for Exchange; Delivery of Exchange Notes

Upon satisfaction or waiver of all of the conditions to the Exchange Offer, we will accept, promptly after the Expiration Date, all Original Notes properly tendered. We will issue the Exchange Notes promptly after the Expiration Date and acceptance of the corresponding Original Notes. See *Conditions to the Exchange Offer* below. For purposes of the Exchange Offer, we will be deemed to have accepted properly tendered Original Notes for exchange when, as and if we have given written notice of such acceptance to the Exchange Agent.

For each Original Note accepted for exchange, the holder of the Original Note will receive an Exchange Note having a principal amount equal to that of the surrendered Original Note. The Exchange Notes will bear interest from the most recent date to which interest on the Original Notes has been paid. Original Notes accepted for exchange will cease to accrue interest from and after the date of completion of the Exchange Offer. Holders of Original Notes whose Original Notes are accepted for exchange will not receive any payment for accrued interest on the Original Notes otherwise payable on any interest payment date, the record date for which occurs on or after completion of the Exchange Offer and will be deemed to have waived their rights to receive the accrued interest on the Original Notes.

In all cases, issuance of Exchange Notes for Original Notes will be made only after timely receipt by the Exchange Agent of:

certificates for the Original Notes, or a timely book-entry confirmation of the Original Notes into the Exchange Agent's account at the book-entry transfer facility;

a properly completed and duly executed letter of transmittal or a transmitted Agent's Message; and

all other required documents.

Unaccepted or non-exchanged Original Notes will be returned without expense to the tendering holder of the Original Notes. We will instruct DTC, via the Exchange Agent, to do so promptly after the Expiration Date.

In the case of Original Notes tendered by book-entry transfer in accordance with the book-entry procedures described below, we will instruct DTC, via the Exchange Agent, to return or recredit Original Notes not exchanged in the Exchange Offer promptly after the Expiration Date.

Book-Entry Transfer

The Exchange Agent will make a request to establish an account for the Original Notes at DTC for purposes of the Exchange Offer within two Business Days after the date of this prospectus. Any financial institution that is a participant in DTC's systems must make book-entry delivery of Original Notes by causing DTC to transfer those Original Notes into the Exchange Agent's account at DTC in accordance with DTC's procedure for transfer. This participant should transmit its acceptance to DTC at or prior to 11:59 p.m., New York City time, on the Expiration Date. DTC will verify this acceptance, execute a book-entry transfer of the tendered Original Notes into the Exchange Agent's account at DTC and then send to the Exchange Agent confirmation of this book-entry transfer. The confirmation of this book-entry transfer will include an Agent's Message. Delivery of Exchange Notes issued in the Exchange Offer may be effected through book-entry transfer at DTC. However, the letter of transmittal or facsimile of it or an Agent's Message, with any required signature guarantees and any other required documents, must be transmitted to and received by the Exchange Agent at the address listed below under *Dealer Manager and Agents' Exchange Agent and Information Agent* at or prior to 11:59 p.m., New York City time, on the Expiration Date.

Table of Contents

Exchanging Book-Entry Notes

The Exchange Agent and the book-entry transfer facility have confirmed that any financial institution that is a participant in the book-entry transfer facility may utilize the book-entry transfer facility's ATOP procedures to tender Original Notes. Any participant in the book-entry transfer facility may make book-entry delivery of Original Notes by causing the book-entry transfer facility to transfer such Original Notes into the Exchange Agent's account in accordance with the book-entry transfer facility's ATOP procedures for transfer. However, the exchange for the Original Notes so tendered will only be made after a book-entry confirmation of the book-entry transfer of Original Notes into the Exchange Agent's account, and timely receipt by the Exchange Agent of an Agent's Message and any other documents required by the letter of transmittal.

Withdrawal Rights

Any financial institution that is a participant in the book-entry transfer facility may utilize the book-entry transfer facility's ATOP procedures to withdraw Original Notes. For a withdrawal to be effective, the Exchange Agent must receive a written notice of withdrawal at the address or, in the case of eligible institutions, at the facsimile number indicated below under *Dealer Manager and Agents Exchange Agent and Information Agent* before 11:59 p.m., New York City time, on the Expiration Date. Any notice of withdrawal must:

specify the name of the person, referred to as the depositor, having tendered the Original Notes to be withdrawn;

identify the Original Notes to be withdrawn, including the certificate number or numbers and principal amount of the Original Notes;

in the case of Original Notes tendered by book-entry transfer, specify the number of the account at the book-entry transfer facility from which the Original Notes were tendered and specify the name and number of the account at the book-entry transfer facility to be credited with the withdrawn Original Notes and otherwise comply with the procedures of such facility;

contain a statement that the holder is withdrawing his election to have the Original Notes exchanged;

be signed by the holder in the same manner as the original signature on the letter of transmittal by which the Original Notes were tendered, including any required signature guarantees, or be accompanied by documents of transfer to have the registrar with respect to the Original Notes register the transfer of the Original Notes in the name of the person withdrawing the tender; and

specify the name in which the Original Notes are registered, if different from that of the depositor.

If certificates for Original Notes have been delivered or otherwise identified to the Exchange Agent, then, prior to the release of these certificates, the withdrawing holder must also submit the serial numbers of the particular certificates to be withdrawn and signed notice of withdrawal with signatures guaranteed by an eligible institution unless this holder is an eligible institution. We will determine all questions as to the validity, form and eligibility, including time of receipt, of notices of withdrawal. Any Original Notes so withdrawn will be deemed not to have been validly tendered for exchange. No Exchange Notes will be issued with respect to any Original Notes so withdrawn unless such Original Notes are validly re-tendered. Any Original Notes that have been tendered for exchange, but which are not exchanged for any reason, will be returned to the tendering holder without cost to the holder. We will instruct DTC, via the Exchange Agent, to do so promptly after the expiration of the Exchange Offer. In the case of Original Notes tendered by book-entry transfer, we will instruct DTC, via the Exchange Agent, to credit to an account maintained with the book-entry transfer facility for the Original Notes promptly after the Expiration Date. Validly withdrawn Original Notes may be re-tendered by following the procedures described under *Procedures for Tendering* above at any time on or before 11:59 p.m., New York City time, on the Expiration Date.

Conditions to the Exchange Offer

Notwithstanding any other provision of this prospectus, with respect to the Exchange Offer, we will not be obligated to (i) accept for exchange any validly tendered Original Notes or (ii) issue any Exchange Notes in exchange for validly tendered Original Notes or complete the Exchange Offer if:

there is threatened, instituted or pending any action or proceeding before, or any injunction, order or decree issued by, any court or governmental agency or other governmental regulatory or administrative agency or commission that might, in our reasonable judgment, materially impair our ability to proceed with the Exchange Offer;

there is proposed, adopted or enacted, or there shall occur a change in the current interpretations by the staff of the SEC that might, in our reasonable judgment, materially impair our ability to proceed with the Exchange Offer; or

the Exchange Offer or the making of any exchange by a holder of Original Notes would violate applicable law or any applicable interpretation of the SEC staff.

In addition, we will not accept for exchange any Original Notes tendered, and no Exchange Notes will be issued in exchange for any Original Notes, if any stop order is threatened by the SEC or in effect relating to the registration statement of which this prospectus constitutes a part or the qualification of the Indenture under the Trust Indenture Act of 1939, as amended (the "Trust Indenture Act"). We are required to use our commercially reasonable efforts to obtain the withdrawal of any order suspending the effectiveness of a registration statement.

The Exchange Offer is not conditioned upon any minimum amount of Original Notes being tendered or the consummation of any other offer and the Exchange Offer may be amended, extended or terminated individually. The Exchange Offer is also not conditioned on the completion of the concurrent Tender Offer (see also "Relationship with the Tender Offer").

Fees and Expenses

We will not make any payment to brokers, dealers or others soliciting acceptances of the Exchange Offer. We have agreed to pay all expenses incident to the Exchange Offer other than commissions or concessions of any brokers or dealers. The cash expenses to be incurred in connection with the Exchange Offer, including out-of-pocket expenses for the Exchange Agent and Information Agent, will be paid by us.

Transfer Taxes

We will pay any transfer taxes in connection with the tender of Original Notes in the Exchange Offer unless you instruct us to register Exchange Notes in the name of, or request that Original Notes not tendered or not accepted in the Exchange Offer be returned to, a person other than the registered tendering holder. In those cases, you will be responsible for the payment of any applicable transfer taxes.

Accounting Treatment

The Exchange Notes will be recorded at the same carrying value as the Original Notes as reflected in our accounting records on the date of the exchange. Accordingly, we will not recognize any gain or loss for accounting purposes upon the completion of the Exchange Offer. Payments made to other third parties will be expensed as incurred in accordance with generally accepted accounting principles.

Consequences of Exchanging or Failing to Exchange the Original Notes

Holders of Original Notes that do not exchange their Original Notes for Exchange Notes under the Exchange Offer will remain subject to the restrictions on transfer of the Original Notes as set forth in the legend printed on the Original Notes as a consequence of the issuance of the Original Notes and as otherwise set forth in the pricing supplements distributed in connection with such offering pursuant to exemptions from, or in transactions not subject to, the registration requirements of the Securities Act and applicable state securities laws. In general, you may not offer or sell the Original Notes unless they are registered under the Securities Act, or if the offer or sale is exempt from registration under the Securities Act and applicable state securities laws. We do not intend to register resales of Original Notes under the Securities Act.

Table of Contents

Relationship with the Tender Offer

We are conducting the Tender Offer for the Original Notes concurrently with the Exchange Offer. The Offer Documents do not constitute an offer to tender Original Notes in the Tender Offer. An offer to tender Original Notes for purchase may be made only by means of the Offer to Purchase and only by holders eligible to participate in the Tender Offer pursuant to the terms thereof. Any Original Notes you exchange in the Exchange Offer may not be tendered in the Tender Offer. Any Original Notes validly withdrawn prior to the Expiration Date, may, once such Original Notes have credited to the account maintained at DTC designated by the participant therein that tendered such Original Notes, be tendered in the Tender Offer if eligible pursuant to the terms thereof and if time permits. However, we cannot assure any holder that any Original Notes rejected or withdrawn from the Exchange Offer will be credited to any holder's account in time for such holder to tender such Original Notes in the Tender Offer.

DESCRIPTION OF THE EXCHANGE NOTES

The following is a summary of certain terms of the Exchange Notes.

General

On or about May 18, 2017, which we refer to as the **Issue Date**, we, Deutsche Bank Aktiengesellschaft, expect to issue 4.25% fixed rate Eligible Liabilities Senior Notes, which we refer to as the **Exchange Notes**, due October 14, 2021, which we refer to as the **Maturity Date**, in an aggregate principal amount corresponding to the aggregate principal amount of our 4.25% Senior Notes due 2021 (CUSIP No. 251541AN8), which were issued on October 14, 2016 in an aggregate principal amount of \$3,000,000,000 and on October 18, 2016 in an aggregate principal amount of \$1,500,000,000 (together forming a single issue), which we refer to as the **Original Notes**, that are validly tendered and accepted by us in the Exchange Offer. We expect to issue the Exchange Notes under, and the Exchange Notes will be governed by, an eligible liabilities senior indenture (which we refer to as the **Indenture**) dated as of April 19, 2017 among us, The Bank of New York Mellon, as trustee (which we refer to as the **Trustee**), and Deutsche Bank Trust Company Americas, as paying agent, authenticating agent, issuing agent and registrar. The Exchange Notes will constitute a separate series of securities under the Indenture. We filed a form of the Indenture on April 19, 2017 as an exhibit to the registration statement of which this prospectus forms a part, and you should read the Indenture for provisions that may be important to you. We have summarized below the material provisions of the Indenture and the Exchange Notes. These descriptions are only summaries and are qualified in their entirety by the Indenture. The terms of the Indenture include both those stated in the Indenture and those made part of the Indenture by reference to the Trust Indenture Act of 1939, as amended, which we refer to as the **Trust Indenture Act**. The terms of the Exchange Notes have been set by an Officers **Certificate** dated as April 19, 2017 and will also include those stated in the global notes in the form of which the Exchange Notes are expected to be issued. We filed a form of such global note on April 19, 2017 as an exhibit to the registration statement of which this prospectus forms a part, and you should read the form of global note for provisions that may be important to you.

The Indenture will be qualified under the Trust Indenture Act. Under the provisions of the Trust Indenture Act, if the same institution acts as trustee under the Indenture and under another indenture of ours, upon a default in any series of securities issued under either indenture, the trustee may be deemed to have a conflicting interest and may be required to resign and a successor trustee will be appointed. As of the date of this prospectus, The Bank of New York Mellon also acts as trustee under indentures relating to our trust preferred securities and our Additional Tier 1 securities.

Status

The Exchange Notes will be our direct, unconditional, unsecured and unsubordinated obligations and will rank on parity with the claims of all our other unsecured and unsubordinated creditors subject to any statutory priority regime under German law that provides certain claims will be satisfied first in a resolution or insolvency proceeding with respect to us. Under German law, the Exchange Notes will constitute non-preferred debt instruments within the meaning of Section 46f(6) sentence 1 of the German Banking Act (*Kreditwesengesetz*).

No Set-Off

No holder may set off its claims arising under the Exchange Notes against any claims of ours.

No Security

No security or guarantee shall be provided at any time securing claims of the holders under the Exchange Notes; any security or guarantee already provided or granted in the future in connection with other liabilities of ours may not be used for claims under the Exchange Notes.

Form, Ownership and Denomination of the Exchange Notes

We will issue the Exchange Notes in fully registered, global (i.e., book-entry) form. Book-entry interests in the Exchange Notes will be issued in minimum denominations of \$1,000 and in integral multiples thereof. The Exchange Notes will be represented by global notes registered in the name of The Depository Trust Company, which we refer to as the **Depository**, or its nominee, which will be the sole registered owner and the holder of all the Exchange Notes represented by the global notes.

Table of Contents

An investor therefore will not be a holder of the Exchange Note, but will own only beneficial interests in a global note, which are held by means of an account with a broker, bank or other financial institution that in turn has an account as a participant in the Depository or with another institution that does. The Depository maintains a computerized, book-entry system that will reflect the interests in the global notes held by participants in its book-entry system. An investor's beneficial interest in the global notes will, in turn, be reflected only in the records of the Depository's direct or indirect participants through an account maintained by the investor with such participant.

The Issuer expects to deliver the Exchange Notes through the facilities of the Depository on or about May 18, 2017. For a more detailed summary of the form of the Exchange Notes and settlement and clearance arrangements, please see *Book-Entry, Delivery and Form of Securities* in this prospectus. Indirect holders trading their beneficial interests in the Exchange Notes through the Depository must trade in the Depository's same-day funds settlement system and pay in immediately available funds. Secondary market trading will occur in the ordinary way following the applicable rules and operating procedures of Clearstream, Luxembourg and Euroclear.

Except in the limited circumstances set forth under *Book-Entry, Delivery and Form of Securities Form of Securities Global Securities Discontinuance of Any Depository* in this prospectus, you may not exchange registered global notes or interests in registered global notes for a certificate issued to you in definitive form (a certificated note). A further description of the Depository's procedures for global notes representing book-entry notes is set forth under *Book-Entry, Delivery and Form of Securities Clearing, Delivery and Settlement The Depository and Book-Entry, Delivery and Form of Securities Form of Securities Global Securities* in this prospectus.

Legal Ownership. The person or entity in whose name the Exchange Notes are registered will be considered the holder and legal owner of the Exchange Notes. Our obligations under the Indenture, as well as the obligations of the Trustee and those of any third parties employed by us or the Trustee, run only to the registered holders of the Exchange Notes. We do not have obligations to investors who own beneficial interests in global notes, in street name or by any other indirect means. For example, once we make a payment or give a notice to the registered holder, we have no further responsibility for that payment or notice even if that holder is required, under agreements with depository participants or customers or by law, to pass it along to the indirect holders (e.g., owners of beneficial interests), but does not do so. Similarly, if we need to ask the holders of the Exchange Notes to vote on a proposed amendment to the Exchange Notes, we would seek approval only from the registered holders, and not the indirect holders, of the Exchange Notes.

Special Considerations for Indirect Holders. If you hold Exchange Notes through a bank, broker or other financial institution, either in book-entry form or in street name, you should check with your own institution to find out:

how it handles securities payments and notices;

whether it imposes fees or charges;

how it would handle voting if it were ever required;

whether and how you can instruct it to send you Exchange Notes registered in your own name so you can be a direct holder, if that is permitted; and

how it would pursue rights under the Exchange Notes if there were an Event of Default, a default or other event triggering the need for holders to act to protect their interests.

Payments on the Exchange Securities

The Exchange Notes will bear interest from (and including) April 14, 2017 to (but excluding) the Maturity Date at a rate of 4.25% per year. Interest will be payable semi-annually in arrears on April 14 and October 14 of each year, which we refer to in each case as an Interest Payment Date, commencing on October 14, 2017. Interest on the Exchange Notes will be computed on the basis of a 360-day year of twelve 30-day months. Interest on the Exchange Notes will accrue from and including the most recent Interest Payment Date to which interest has been paid or duly provided for, or, if no interest has been paid or duly provided for, from and including April 14, 2017. Interest will accrue to but excluding the next Interest Payment Date or, the date the amount due with respect to the principal has been paid or duly made available for payment,

except as described in the paragraph below.

If any scheduled Interest Payment Date is not a Business Day, we will pay interest on the next Business Day, but interest on that payment will not accrue during the period from and after the

Table of Contents

scheduled Interest Payment Date. If the scheduled Maturity Date is not a Business Day, we may pay interest and principal on the next succeeding Business Day, but interest on that payment will not accrue during the period from and after the scheduled Maturity Date.

The record date for any interest payment date is (a) in the case of global notes, the date that is one New York Banking Day immediately preceding the relevant date of payment in respect of such interest payment date and (b) in the case of certificated notes, the close of business on the 15th calendar day (whether or not such 15th day is a New York Banking Day) before such interest payment date. However, upon maturity, the paying agent will pay any interest due to the holder to whom it pays the principal of the Exchange Note.

For the purposes of the Exchange Notes, (a) **Business Day** means a day (other than Saturday or Sunday) on which commercial banks and foreign exchange markets settle payments and are open for general business (including dealing in foreign exchange and foreign currency deposits) in New York and on which the Trans-European Automated Real-time Gross Settlement Express Transfer (TARGET2) System is open and settles payments, and (b) **New York Banking Day** means any day except a Saturday, Sunday or a legal holiday in New York City or a day on which banking institutions in New York City are authorized or required by law or executive order to close.

Payment of principal of, interest on and other amounts owing under the Exchange Notes, so long as the Exchange Notes are represented by global notes, will be made to the account of the Depository, as holder of the global notes, by wire transfer of immediately available funds. We expect that the Depository, upon receipt of any payment, will immediately credit its participants' accounts in amounts proportionate to their respective beneficial interests in the global notes as shown on the records of the Depository. We also expect that payments by the Depository's participants to owners of beneficial interests in the global notes will be governed by standing customer instructions and customary practices and will be the responsibility of those participants.

Interest and Principal Payments

Paying Agent. We have appointed Deutsche Bank Trust Company Americas, 60 Wall Street, New York, NY 10005 as our current paying agent for the Exchange Notes. We may appoint one or more financial institutions to act as our paying agents at whose designated offices Exchange Notes in certificated (i.e., definitive) form may be surrendered for payment at their maturity. We may add, replace or terminate paying agents from time to time. We may also choose to act as our own paying agent. We will notify you of changes in the paying agents.

Payments of Interest. The paying agent will pay interest, if any, to the person in whose name the Exchange Note is registered at the close of business on the applicable record date. However, upon maturity, the paying agent will pay any interest due to the person to whom it pays the principal of the Exchange Note. The paying agent will make the payment of interest on the Maturity Date, whether or not that date is an Interest Payment Date. The paying agent will make the initial interest payment on an Exchange Note on the first Interest Payment Date falling after the Issue Date.

Book-entry and other indirect owners should consult their banks or brokers for information on how they will receive payments on their Exchange Notes.

Payments on Global Notes. The paying agent will make payments of principal, premium, if any, and interest, if any, to the account of the Depository, as holder of the global notes, by wire transfer of immediately available funds. We expect that the Depository, upon receipt of any payment, will immediately credit its participants' accounts in amounts proportionate to their respective beneficial interests in the global notes as shown on the records of the Depository. We also expect that payments by the Depository's participants to owners of beneficial interests in the global notes will be governed by standing customer instructions and customary practices and will be the responsibility of those participants.

Payments on Certificated Notes. The paying agent will make payments on certificated notes as follows:

the principal, premium (if any) or interest (if any) due at maturity shall be paid in immediately available funds or transfer of other property only upon presentation of such certificated note at the corporate trust office of the paying agent;

the interest (if any) due on each Interest Payment Date (other than interest payable at maturity) shall be paid by check mailed to the record holder of such certificated note on the record date; or

Table of Contents

for holders of the equivalent of at least U.S. \$10,000,000 in aggregate principal amount of certificated notes (having identical tenor and terms), the interest shall be paid on each Interest Payment Date by wire transfer of immediately available funds, if appropriate wire transfer instructions have been received by the paying agent not less than 16 days prior to such Interest Payment Date.

Resolution Measures

By acquiring the Exchange Notes, you will be bound by and will be deemed to consent to the imposition of any Resolution Measure, as defined under *Resolution Measures* of this prospectus, by our competent resolution authority. As a result, you would have no claim or other right against us arising out of any Resolution Measure. See *Resolution Measures* in this prospectus. In addition, by your acquisition of Exchange Notes, you waive, to the fullest extent permitted by the Trust Indenture Act and applicable law, any and all claims against the Trustee or the agents under the Indenture, as defined below, for, agree not to initiate a suit against the Trustee or paying agent in respect of, and agree that the Trustee or paying agent will not be liable for, any action that that trustee or paying agent takes, or abstains from taking, in either case in accordance with the imposition of a Resolution Measure by our competent resolution authority with respect to the Exchange Notes. Accordingly, you may have limited or circumscribed rights to challenge any decision of our competent resolution authority to impose any Resolution Measure. For more information, please see the sections *Resolution Measures* and *Risk Factors* in this prospectus.

Payment of Additional Amounts

All amounts payable in respect of the Exchange Notes will be made without deduction or withholding for or on account of any present or future taxes, duties or governmental charges of any nature whatsoever imposed or levied by way of deduction or withholding by or on behalf of the Federal Republic of Germany or any political subdivision or any authority thereof or therein having power to tax (*Withholding Taxes*), unless such deduction or withholding is required by law.

In such event, we will, to the fullest extent permitted by law, pay such additional amounts of principal and interest (which we refer to as *Additional Amounts*) as will be necessary in order that the net amounts received by the holders, after such withholding or deduction, will equal the respective amounts which would otherwise have been receivable in the absence of such withholding or deduction; except that no such *Additional Amounts* shall be payable on account of any taxes, duties or governmental charges which:

are payable by any person acting as custodian bank or collecting agent on your behalf, or otherwise in any manner which does not constitute a deduction or withholding by us from payments of principal or interest made by us; or

are payable by reason of your having, or having had, some personal or business connection with the Federal Republic of Germany and not merely by reason of the fact that payments in respect of the Exchange Notes are, or for purposes of taxation are deemed to be, derived from sources in, or are secured in, the Federal Republic of Germany; or

are deducted or withheld pursuant to (i) any European Union Directive or Regulation concerning the taxation of interest income, (ii) any international treaty or understanding relating to such taxation and to which the Federal Republic of Germany or the European Union is a party, or (iii) any provision of law implementing, or complying with, or introduced to conform with, such Directive, Regulation, treaty or understanding; or

are presented for payment more than 30 days after the Relevant Date (as defined below) except to the extent that you would have been entitled to additional amounts on presenting the same for payment on the last day of the period of 30 days assuming that day to have been a Business Day; or

are withheld or deducted in relation to an Exchange Note that is presented for payment by or on your behalf if you would have been able to avoid such withholding or deduction by presenting the relevant Exchange Note to another paying agent in a member state of the European Union; or

are deducted or withheld by a paying agent from a payment if the payment could have been made by another paying agent without such deduction or withholding; or

Table of Contents

would not be payable if the Exchange Notes had been kept in safe custody with, and the payments had been collected by, a banking institution; or

are payable by reason of a change in law or practice that becomes effective more than 30 days after the relevant payment of principal or interest becomes due, or is duly provided for and notice thereof is given in accordance with the section *Notices* of this prospectus, whichever occurs later.

Relevant Date means the date on which the payment first becomes due but, if the full amount payable has not been received by the paying agent on or before the due date, it means the date on which, the full amount having been so received.

Moreover, all amounts payable in respect of the Exchange Notes will be made subject to compliance with Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986, as amended (the **Code**), any regulations or other official guidance thereunder, official interpretations thereof, or any applicable agreement described in Section 1471(b) of the Code or any intergovernmental agreement entered into in connection therewith (including any agreement, law, regulation or other official guidance implementing such agreement). We will have no obligation to pay additional amounts or otherwise indemnify you in connection with any such compliance with the Code (collectively, the **Foreign Account Tax Compliance Act** or **FATCA**).

Registration and Transfer

So long as the Exchange Notes are in global form, only the Depositary will be entitled to transfer and exchange the Exchange Note as described in this subsection, because it will be the only holder of the Exchange Notes. Global notes may be transferred and exchanged only in the manner and to the extent set forth under *Book-Entry, Delivery and Form of Securities Form of Securities Global Securities Discontinuance of Any Depositary* in this prospectus. In the limited circumstances under which certificated (i.e., definitive) notes are issued, certificated notes may be registered or transferred at the office of Deutsche Bank Trust Company Americas, 60 Wall Street, New York, New York, 10005, as our current transfer agent for the transfer and exchange of the Exchange Notes.

Charges. No service charge will be made for any registration or transfer or exchange of Exchange Notes, but we may require payment of a sum sufficient to cover any tax or other governmental charge payable in connection with the registration of transfer or exchange of Exchange Notes.

Impact of Significant Corporate Actions and Other Developments

Under German law, a surviving corporation in a merger or consolidation generally assumes the obligations of its predecessors. There are, however, no covenants in the Indenture or other provisions designed to protect holders of the Exchange Notes against a reduction in the creditworthiness of Deutsche Bank AG that would afford holders of Exchange Notes additional protection in the event of a recapitalization transaction, a change of control of us, a merger or consolidation, a sale, lease or conveyance of all or substantially all of our assets or a highly leveraged transaction or any other transaction that might adversely affect holders of the Exchange Notes.

It may be that Deutsche Bank AG will depend increasingly upon the earnings and cash flow of its subsidiaries to meet its obligations under the Exchange Notes. Since the creditors of any of its subsidiaries would generally have a right to receive payment that is superior to Deutsche Bank AG's right to receive payment from the assets of that subsidiary, holders of Exchange Notes will be effectively subordinated to creditors of Deutsche Bank AG's subsidiaries. In addition, there are various regulatory requirements applicable to some of Deutsche Bank AG's subsidiaries that limit their ability to pay dividends and make loans and advances to Deutsche Bank AG.

Redemption

The Exchange Notes will be redeemed on the Maturity Date. There are no early redemption provisions in respect of the Exchange Notes.

Events of Default; Default

Event of Default. An **Event of Default** with respect to the Exchange Notes means the opening of insolvency proceedings against us by a German court having jurisdiction over us. There are no other events of default under the Exchange Notes.

Table of Contents

If an Event of Default occurs and is continuing, the Trustee or the holder or holders of not less the 33 $\frac{1}{3}$ % in aggregate principal amount of all outstanding notes issued under the Indenture, voting as one class, by notice writing to us, may declare the principal amount of the Exchange Notes and interest accrued thereon, if any, to be due and payable immediately in accordance with the terms of the Indenture.

Upon the occurrence of any Event of Default or any default in the payment of principal of, interest on, or other amounts owing under the Exchange Notes, we will give prompt written notice to the Trustee. In accordance with the Indenture, the Trustee may proceed to protect and enforce its rights and the rights of the holders of the Exchange Notes whether in connection with any breach by us of our obligations under the Exchange Notes, the Indenture or otherwise, by such judicial proceedings as the Trustee will deem most effective.

No Acceleration of Exchange Notes Upon Any Other Default.

There is no right of acceleration in the case of a default in the payment of principal of, or interest on, or other amounts owing under the Exchange Notes or default in our performance of any other covenant under the Exchange Notes or the Indenture.

No Negative Pledge. The Indenture does not contain any restrictions preventing us from incurring additional debt or from securing any of our debt by a pledge, lien or other encumbrance on any of our assets.

Waiver of Defaults. The Indenture provides that the holders of a majority in aggregate principal amount of all series of outstanding securities under the Indenture, voting as one class, may on behalf of the holders of all such securities, including the Exchange Notes, waive any past Event of Default or default and its consequences, except a default in respect of a covenant or provision of the Indenture which cannot be modified or amended without the consent of the holder of each security affected.

Indemnification of Trustee for Actions Taken on Your Behalf. The Indenture provides that the Trustee will not be liable with respect to any action taken or omitted to be taken by it in good faith in accordance with the direction of the holders of securities issued under the Indenture relating to the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred upon the Trustee. In addition, the Indenture contains a provision entitling the Trustee, subject to the duty of the Trustee to act with the required standard of care during a default, to be indemnified by the holders of the securities issued under the Indenture before proceeding to exercise any right or power at the request of holders. Subject to these provisions and some other limitations, the holders of a majority in aggregate principal amount of each affected series of outstanding securities, voting as one class, may direct the time, method and place of conducting any proceeding for any remedy available to the Trustee, or exercising any trust or power conferred on the Trustee.

Limitation on Actions by You as an Individual Holder. The Indenture provides that no individual holder of securities may institute any action against us under the Indenture, except actions for payment of overdue principal and interest at maturity, unless the following actions have occurred:

the holder must have previously given written notice to the Trustee of the Event of Default or default and the continuance thereof;

the holders of not less than a majority in aggregate principal amount of the outstanding securities of each affected series, treated as one class, must have (1) requested the Trustee to institute that action and (2) offered the Trustee reasonable indemnity;

the Trustee must have failed to institute that action within 60 days after receipt of the request referred to above; and

the holders of a majority in aggregate principal amount of the outstanding securities of each affected series, treated as one class, must not have given directions to the Trustee inconsistent with those of the holders referred to above.

The Indenture contains a covenant that we will file annually with the Trustee a certificate of no default or a certificate specifying any default that exists.

Further Issues

We may, from time to time, without the consent of the holders of the Exchange Notes, issue additional notes under the Indenture having the same ranking and same interest rate, Maturity Date and other terms as the Exchange Notes described in this prospectus except for the price to the public and issue date. Any such additional notes, together with the Exchange Notes offered by this prospectus, may constitute a single series of securities under the Indenture, provided that if such additional notes have the same CUSIP, ISIN or other identifying number as the outstanding Exchange Notes, such additional notes must either (i) be issued with no more than a de minimis amount of original issue discount for U.S. federal income tax purposes or (ii) be otherwise issued in a qualified reopening for U.S. federal income tax purposes. There is no limitation on the amount of notes or other securities that we may issue under the Indenture.

Replacement of Exchange Notes

At the expense of the holder, we may, in our discretion, replace any Exchange Notes that become mutilated, destroyed, lost or stolen or are apparently destroyed, lost or stolen. The mutilated Exchange Notes must be delivered to the Trustee, the paying agent and the registrar or satisfactory evidence of the destruction, loss or theft of the Exchange Notes must be delivered to us, the paying agent, the registrar and the Trustee. At the expense of the holder, an indemnity that is satisfactory to us, the principal paying agent, the registrar, in the case of registered Exchange Notes, and the Trustee may be required before a replacement Exchange Note will be issued.

Discharge of Indenture

We may discharge all of our obligations, other than as to transfers and exchanges, after we have:

paid or caused to be paid the principal of and any interest or premium, if any, on all of the outstanding securities issued under the Indenture in accordance with their terms; and

delivered to the Trustee for cancellation all of the outstanding securities issued under the Indenture.

Modification of Indenture

Modification without Consent of Holders. We and the Trustee may enter into supplemental indentures without the consent of the holders of securities, including the Exchange Notes, issued under the Indenture to:

give effect to any variation to the terms of the securities as a result of any exercise of any Resolution Measure;

evidence the assumption by a successor corporation of our obligations;

add covenants for the protection of the holders of securities;

cure any ambiguity or correct any inconsistency or manifest error;

establish the forms or terms of securities of any series; or

evidence the acceptance of appointment by a successor trustee,

Edgar Filing: DEUTSCHE BANK AKTIENGESELLSCHAFT - Form F-4

in each case, as permitted by relevant laws and regulations and subject to approval by the competent supervisory or resolution authority, as applicable.

Modification Requiring Consent of Each Holder. Neither we nor the Trustee may make any of the following changes to any outstanding security, including any Exchange Note, without the consent of each holder that would be affected by such change:

change the final maturity of such security;

reduce the principal amount;

reduce the rate or change the time of payment of interest;

reduce any amount payable on redemption;

change the currency in which the principal, including any amount of original issue discount, premium, or interest thereon is payable;

Table of Contents

modify or amend the provisions for conversion of any currency into another currency;

reduce the amount of any original issue discount security provable in bankruptcy;

alter certain provisions of the applicable indenture relating to securities not denominated in U.S. dollars;

impair the right of any holder to institute suit for the enforcement of any payment on any security when due; or

reduce the percentage of securities the consent of whose holders is required for modification of the Indenture.

However, no such change shall be entered into, unless it is permitted by relevant laws and regulations and, if applicable, approved by the competent supervisory or resolution authority

Modification with Consent of Holders of a Majority. We and the Trustee may make any other change to the Indenture and to the rights of the holders of the securities issued thereunder, including the Exchange Notes, if we obtain the consent of the holders of not less than a majority in aggregate principal amount of all affected series of outstanding securities issued thereunder, voting as one class.

Concerning Our Relationship with the Trustee

We and our subsidiaries maintain ordinary banking relationships and custodial facilities with the Trustee and affiliates of the Trustee.

Notices

Notices to be given to holders of Exchange Notes represented by a global note will be given only to the Depositary, as the registered holder, in accordance with its applicable policies as in effect from time to time. We expect that any such notices will be passed on by the Depositary to the beneficial owners of interests in the Exchange Notes in accordance with the standard rules and procedures of the Depositary and its direct and indirect participants, including Clearstream, Luxembourg and the Euroclear operator. Notices to be given in respect of Exchange Notes held in street name will be given only to the bank, broker or other financial institution in whose name the Exchange Notes are registered, and not the owner of any beneficial interests. Notices to be given to holders of certificated (i.e., definitive) Exchange Notes will be sent by mail to the respective addresses of the holders as they appear in the note register, and will be deemed given when mailed.

Governing Law

The Exchange Notes and the Indenture will be governed by and construed in accordance with the laws of the State of New York, except as may be otherwise required by mandatory provisions of law and except with respect to the provisions relating to the ranking of the securities issued under the Indenture (including the Exchange Notes) and their status under Section 46f(6) sentence 1 of the German Banking Act (*Kreditwesengesetz*), which shall be governed by and construed in accordance with the laws of the Federal Republic of Germany.

Listing

The Exchange Notes are not expected to be listed on any securities exchange.

RESOLUTION MEASURES

References to you in this Resolution Measures section means the holders of the Exchange Notes (including the beneficial owners). Beneficial owner means (i) if the Exchange Notes are in global form, the beneficial owners of the Exchange Notes (and any interest therein) and (ii) if the Exchange Notes are in definitive form, the holders in whose name the Exchange Notes are registered in the security register and any beneficial owners holding an interest in the Exchange Notes in definitive form.

Under the relevant resolution laws and regulations as applicable to us from time to time, the Exchange Notes may be subject to the powers exercised by the competent resolution authority to:

write down, including write down to zero, the claims for payment of the principal amount, the interest amount or any other amount in respect of the Exchange Notes;

convert the Exchange Notes into ordinary shares of (i) the Issuer or (ii) any group entity or (iii) any bridge bank or other instruments of ownership of such entities qualifying as common equity tier 1 capital (and the issue to or conferral on the holders (including the beneficial owners) of such ordinary shares or instruments); and/or

apply any other resolution measure, including, but not limited to, (i) any transfer of the Exchange Notes to another entity, (ii) the amendment, modification or variation of the terms and conditions of the Exchange Notes or (iii) the cancellation of the Exchange Notes. We refer to each of these measures as a Resolution Measure. When we refer to a group entity, we mean an entity that is included in the corporate group subject to a Resolution Measure, and when we refer to a bridge bank, we mean a newly chartered German bank that would receive some or all of our equity securities, assets, liabilities and material contracts, including those attributable to our branches and subsidiaries, in the event of the imposition of Resolution Measures. Resolution Measures include, among others, the measures generally referred to within the meaning of the bail-in tool under the Bank Recovery and Resolution Directive.

In connection with the application of the order of priority introduced by the Resolution Mechanism Act, the competent regulatory authority or court would determine whether the Exchange Notes are Structured Debt Securities or Non-Structured Debt Securities. In a German insolvency proceeding or in the event of the imposition of Resolution Measures with respect to the Issuer, Structured Debt Securities and warrants are expected to be among the unsecured unsubordinated obligations that would bear losses after the Non-Structured Debt Securities. For more information on the Resolution Mechanism Act, please see *Description of the Exchange Notes*.

For the avoidance of doubt, any non-payment by us arising out of any such Resolution Measure will not constitute a failure by us under the terms of the Exchange Notes, or under the Indenture, to make a payment of principal of, interest on or other amounts owing under the Exchange Notes.

Pursuant to the Indenture, the holders of Exchange Notes will be bound by and will be deemed to consent to the imposition of any Resolution Measure by the competent resolution authority.

Deemed Agreement to Resolution Measures

By your acquisition of the Exchange Notes, you will be deemed irrevocably to have agreed, and you will agree:

to be bound by, to acknowledge and to accept any Resolution Measure and any amendment, modification or variation of the terms and conditions of the Exchange Notes to give effect to any Resolution Measure;

that you will have no claim or other right against us arising out of any Resolution Measure; and

Edgar Filing: DEUTSCHE BANK AKTIENGESELLSCHAFT - Form F-4

that the imposition of any Resolution Measure will not constitute a default or an event of default (i) under the Exchange Notes, (ii) under the Indenture or (iii) for the purpose of, but only to the fullest extent permitted by, the Trust Indenture Act (including, without limitation, Section 315(b) (Notice of Default) and Section 315(c) (Duties of the Trustee in Case of Default) of the Trust Indenture Act) and applicable law.

By your acquisition of the Exchange Notes, you will be deemed irrevocably to have (i) consented to the imposition of any Resolution Measure as it may be imposed without any prior notice by the competent resolution authority of its decision to exercise such power with respect to the Exchange

Notes, (ii) authorized, directed and requested DTC (in its capacity as the depository, the Depository) and any direct participant in the Depository or other intermediary through which you hold the Exchange Notes to take any and all necessary action, if required, to implement the imposition of any Resolution Measure with respect to the Exchange Notes as it may be imposed, without any further action or direction on your part or on the part of the Trustee or the Exchange Note Agents, and (iii) acknowledged and accepted that the Resolution Measure provisions described in this *Resolution Measures* section are exhaustive on the matters described herein to the exclusion of any other agreements, arrangements or understandings between you and the Issuer relating to the terms and conditions of the Exchange Notes.

Resolution Measures Applicable to the Exchange Notes

By acquiring the Exchange Notes, you will be bound by and will be deemed irrevocably to consent to the imposition of any Resolution Measure by the competent resolution authority.

The terms and conditions of the Exchange Notes will continue to apply in relation to the residual principal amount of, or outstanding amount payable in respect of, the Exchange Notes, subject to any modification of the amount of interest payable, if any, to reflect the reduction of the principal amount, and any further amendment, modification or variation of the terms and conditions of the Exchange Notes that the competent resolution authority may decide in accordance with applicable laws and regulations relating to the resolution of banks, banking group companies, credit institutions and/or investment firms incorporated in Germany.

No repayment of any then-current principal amount of the Exchange Notes or payment of interest or any other amount thereon (to the extent of the portion thereof affected by the imposition of a Resolution Measure) will become due and payable after the imposition of any Resolution Measure by the competent resolution authority, unless such repayment or payment would be permitted to be made by us under the laws and regulations of Germany then applicable to us.

By your acquisition of the Exchange Notes, you waive, to the fullest extent permitted by the Trust Indenture Act and applicable law, any and all claims against the Trustee and the Exchange Note Agents for, agree not to initiate a suit against the Trustee or the Exchange Note Agents in respect of, and agree that the Trustee and Exchange Note Agents will not be liable for, any action that the Trustee or the Exchange Note Agents take, or abstain from taking, in either case in accordance with the imposition of a Resolution Measure by the competent resolution authority with respect to the Exchange Notes.

Upon the imposition of a Resolution Measure by the competent resolution authority with respect to the Exchange Notes, we will provide a written notice directly to the holders in accordance with the Indenture as soon as practicable regarding such imposition of a Resolution Measure by the competent resolution authority for purposes of notifying holders of such occurrence. We will also deliver a copy of such notice to the Trustee and the Exchange Note Agents for information purposes, and the Trustee and the Exchange Note Agents will be entitled to rely, and will not be liable for relying, on the competent resolution authority and the Resolution Measure identified in such notice. Any delay or failure by us to give notice will not affect the validity or enforceability of any Resolution Measure nor the effects thereof on the Exchange Notes.

Upon the imposition of any Resolution Measure by the competent resolution authority, the Trustee will not be required to take any further directions from holders of the Exchange Notes under Section 5.09 of the Indenture, which section authorizes holders of a majority in aggregate principal amount of the Exchange Notes at the time outstanding to direct certain actions relating to the Exchange Notes, and if any such direction was previously given under Section 5.09 of the Indenture to the Trustee by the holders, it will automatically cease to be effective, be null and void and have no further effect.

The Indenture imposes no duties, obligations or liabilities upon the Trustee or the Exchange Note Agents whatsoever with respect to the imposition of any Resolution Measure by the competent resolution authority and the Trustee and the Exchange Note Agents will be fully protected in acting or refraining from acting in accordance with a Resolution Measure. Notwithstanding the foregoing, if, following the completion of the imposition of a Resolution Measure by the competent resolution authority, the Exchange Notes remain outstanding (for example, if the imposition of a Resolution Measure results in only a partial write-down of the principal of the Exchange Notes), then the Trustee's and the Exchange Note Agents' duties under the Indenture will remain applicable with

respect to the Exchange Notes following such completion to the extent that we, the Trustee and the Exchange Note Agents agree pursuant to a supplemental indenture, unless we, the Trustee and the Exchange Note Agents agree that a supplemental indenture is not necessary.

If the competent resolution authority imposes a Resolution Measure with respect to less than the total outstanding principal amount of the Exchange Notes, unless the Trustee or the Exchange Note Agents are otherwise instructed by us or the competent resolution authority, any cancellation, write-off or conversion into equity made in respect of the Exchange Notes pursuant to the Resolution Measure will be made on a substantially pro rata basis among the Exchange Notes.

BOOK-ENTRY, DELIVERY AND FORM OF SECURITIES

Form of Securities

Each Exchange Note will be represented either by:

one or more global securities representing the entire issuance of securities, or

a certificate issued in definitive form to a particular investor.

Both global securities and certificated securities in definitive form will be issued in registered form, where our obligation runs to the holder of the security named on the face of the security.

The Exchange Notes will initially be issued in fully registered, global (i.e., book-entry) form. Except in the limited circumstances set forth under *Global Securities Discontinuance of Any Depositary* below, registered global securities or interests in registered global securities will not be exchanged for certificates in definitive form.

Legal Ownership

Global Securities. Global securities will name the Depositary or its nominee as the owner of the Exchange Notes represented by these global securities. Investors in global securities can own only beneficial interests in such securities. The Depositary maintains a computerized system that will reflect each investor's beneficial ownership of the securities through an account maintained by the investor with its broker/dealer, bank, trust company or other representative, as we explain more fully below under *Global Securities*.

Definitive Securities. Definitive securities will name you or your nominee as the owner of the Exchange Note. In order to transfer or exchange these securities or to receive payments other than interest or other interim payments, you or your nominee must physically deliver the securities to the Trustee, registrar, paying agent or other agent, as applicable.

Our Obligations Are to Legal Owners Only. Our obligations, as well as the obligations of the Trustee under the Indenture, and the obligations, if any, of any agents of ours or any agents of the Trustee run only to the persons or entities named as holders of the Exchange Notes in the relevant security register.

Neither we nor the Trustee, any agent of ours or any agent of the Trustee has obligations to investors who hold beneficial interests in global securities, in street name or by any other indirect means.

Upon making a payment or giving a notice to the holder as required by the terms of the Exchange Note, we will have no further responsibility for that payment or notice even if that holder is required, under agreements with depositary participants or customers or by law, to pass it along to the indirect owners of beneficial interests in that security but does not do so. Similarly, if we want to obtain the approval or consent of the holders of any Exchange Notes for any purpose, we would seek the approval only from the holders, and not the indirect owners, of the Exchange Notes. Whether and how the holders contact the indirect owners would be governed by the agreements between such holders and the indirect owners.

Global Securities

Registered Global Securities. We plan to issue the Exchange Notes in the form of one or more fully registered global securities that will be deposited with the Depositary or its nominee and registered in the name of the Depositary or its nominee. One or more registered global securities will be issued in a denomination or aggregate denominations equal to the portion of the aggregate principal amount of the Exchange Notes to be represented by registered global securities. Unless and until it is exchanged in whole for securities in definitive registered form, a registered global security may not be transferred except as a whole by and among the Depositary for the registered global security, the nominees of the Depositary or any successors of the Depositary or those nominees.

Edgar Filing: DEUTSCHE BANK AKTIENGESELLSCHAFT - Form F-4

Ownership of beneficial interests in a registered global security will be limited to persons, called participants, who have accounts with the Depository or persons who may hold interests through participants. Upon the issuance of a registered global security, the Depository will credit, on its book-entry registration and transfer system, the participants' accounts with the respective principal amounts of the securities beneficially owned by the participants. Any dealers, underwriters or selling

Table of Contents

agents participating in the distribution of the securities will designate the accounts to be credited. Ownership of beneficial interests in a registered global security will be shown on, and the transfer of ownership interests will be effected only through, records maintained by the Depository, with respect to interests of participants, and on the records of participants, with respect to interests of persons holding through participants. The laws of some states may require that some purchasers of securities take physical delivery of these securities in definitive form. These laws may impair your ability to own, transfer or pledge beneficial interests in registered global securities.

So long as the Depository, or its nominee, is the registered owner of a registered global security, the Depository or its nominee, as the case may be, will be considered the sole owner or holder of the Exchange Notes represented by the registered global security for all purposes under the Indenture. Except as described below, owners of beneficial interests in a registered global security will not be entitled to have the Exchange Notes represented by the registered global security registered in their names, will not receive or be entitled to receive physical delivery of the securities in definitive form and will not be considered the owners or holders of the securities under the Indenture. Accordingly, each person owning a beneficial interest in a registered global security must rely on the procedures of the Depository for that registered global security and, if that person is not a participant, on the procedures of the participant through which the person owns its interest, to exercise any rights of a holder under the Indenture. We understand that under existing industry practices, if we request any action of holders or if an owner of a beneficial interest in a registered global security desires to give or take any action that a holder is entitled to give or take under the Indenture, the Depository for the registered global security would authorize the participants holding the relevant beneficial interests to give or take that action, and the participants would authorize beneficial owners owning through them to give or take that action or would otherwise act upon the instructions of beneficial owners holding through them.

Payments of principal of, and premium (if any) and interest (if any) on, the Exchange Notes represented by a registered global security registered in the name of the Depository or its nominee, will be made to the Depository or its nominee, as the case may be, as the registered owner of the registered global security. Neither we, nor the Trustee, nor any agent of ours or agent of the Trustee will have any responsibility or liability for any aspect of the records relating to payments made on account of beneficial ownership interests in the registered global security or for maintaining, supervising or reviewing any records relating to those beneficial ownership interests.

We expect that the Depository for any of the securities represented by a registered global security, upon receipt of any payment of interest, principal or other payment to holders on that registered global security, will immediately credit participants' accounts in amounts proportionate to their respective beneficial interests in that registered global security as shown on the records of the Depository. We also expect that payments by participants to owners of beneficial interests in a registered global security held through participants will be governed by standing customer instructions and customary practices, as is now the case with the securities held for the accounts of customers registered in street name, and will be the responsibility of those participants, not us.

Discontinuance of Any Depository. If the Depository for the Exchange Notes represented by a registered global security is at any time unwilling or unable to continue as depository or ceases to be a clearing agency registered under the Exchange Act, and a successor depository registered as a clearing agency under the Exchange Act is not appointed by us within 90 days, we will issue Exchange Notes in definitive form in exchange for the registered global security that had been held by the Depository. In addition, we may at any time request the withdrawal from the Depository of any of the Exchange Notes represented by one or more registered global securities. Upon receipt of such request, the Depository will issue a notice to its participants of our request, and will process any withdrawal requests submitted by those participants in accordance with its procedures. If participants request withdrawal following our request, we will issue Exchange Notes in definitive form in exchange for that portion of the registered global security or securities representing the Exchange Notes held by participants requesting such withdrawal. Any securities issued in definitive form in exchange for a registered global security will be registered in the name or names that the Depository gives to the Trustee or other relevant agent of ours or the Trustee. It is expected that the Depository's instructions will be based upon directions received by the Depository from participants with respect to ownership of beneficial interests in the registered global security that had been held by the Depository.

Table of Contents**Delivery, Clearing and Settlement**

The Exchange Notes will be issued in the form of one or more fully registered global notes which will be deposited with, or on behalf of, the Depository and registered in the name of Cede & Co., the Depository's nominee. Beneficial interests in the registered global notes will be represented through book-entry accounts of financial institutions acting on behalf of beneficial owners as direct and indirect participants in the Depository. Investors may elect to hold interests in the registered global notes held by the Depository through Clearstream, Luxembourg or the Euroclear operator if they are participants in those systems, or indirectly through organizations which are participants in those systems. Clearstream, Luxembourg and the Euroclear operator will hold interests on behalf of their participants through customers' securities accounts in Clearstream, Luxembourg's and the Euroclear operator's names on the books of their respective U.S. depositories, which in turn will hold such interests in the registered global notes in customers' securities accounts in the U.S. depositories' names on the books of the Depository. Citibank N.A. will act as depository for Clearstream, Luxembourg and JPMorgan Chase Bank, N.A. will act as depository for the Euroclear operator. We refer to each of Citibank, N.A. and JPMorgan Chase Bank, N.A., acting in this depository capacity, as the U.S. depository for the relevant clearing system. Except as set forth below, the registered global notes may be transferred, in whole but not in part, only to the Depository, another nominee of the Depository or to a successor of the Depository or its nominee.

The Depository

The Depository Trust Company, New York, New York will be designated as the depository for any registered global note. Each registered global note will be registered in the name of Cede & Co., the Depository's nominee.

What Is the Depository? The Depository is a limited-purpose trust company organized under the New York Banking Law, a banking organization within the meaning of the New York Banking Law, a member of the Federal Reserve System, a clearing corporation within the meaning of the New York Uniform Commercial Code, and a clearing agency registered pursuant to the provisions of Section 17A of the Exchange Act. The Depository holds and provides asset servicing for securities deposited with it by its direct participants. The Depository also facilitates the post-trade settlement of transactions among its direct participants in those securities through electronic computerized book-entry changes in participants' accounts, eliminating the need for physical movement of securities certificates. The Depository's direct participants include both U.S. and non-U.S. securities brokers and dealers, including the agents, banks, trust companies, clearing corporations and other organizations, some of whom and/or their representatives own the Depository. Access to the Depository's book-entry system is also available to others, including both U.S. and non-U.S. brokers and dealers, banks, trust companies and clearing corporations that clear through or maintain a custodial relationship with a participant, either directly or indirectly. The rules applicable to the Depository and its participants are on file with the SEC.

Beneficial Ownership Interests and the Depository's Book-Entry System. Purchases of the Exchange Notes under the Depository's system must be made by or through its direct participants, which will receive a credit for the Exchange Notes on the Depository's records. The ownership interest of each actual purchaser of each Exchange Note (the beneficial owner) is in turn to be recorded on the records of direct and indirect participants. Beneficial owners will not receive written confirmation from the Depository of their purchase, but beneficial owners are expected to receive written confirmations providing details of the transaction, as well as periodic statements of their holdings, from the direct or indirect participants through which the beneficial owner entered into the transaction. Transfers of ownership interests in the Exchange Notes are to be made by entries on the books of direct and indirect participants acting on behalf of beneficial owners. Beneficial owners will not receive certificates representing their ownership interests in Exchange Notes, except in the event that use of the book-entry system for the Exchange Notes is discontinued.

To facilitate subsequent transfers, all Exchange Notes deposited with the Depository are registered in the name of Cede & Co., or such other name as may be requested by the Depository. The deposit of Exchange Notes with the Depository and their registration in the name of Cede & Co. or such other nominee of the Depository do not effect any change in beneficial ownership. The Depository has no knowledge of the actual beneficial owners of the Exchange Notes; the Depository's records reflect only the identity of the direct participants to whose accounts the Exchange Notes are credited, which may or may not be the beneficial owners. The participants will remain responsible for keeping account of their holdings on behalf of their customers.

Table of Contents

Notices and Communications. Conveyance of notices and other communications by the Depository to direct participants, by direct participants to indirect participants and by direct participants and indirect participants to beneficial owners will be governed by arrangements among them, subject to any statutory or regulatory requirements as may be in effect from time to time.

Voting. Neither the Depository nor Cede & Co. (nor such other nominee of the Depository) will consent or vote with respect to the Exchange Notes unless authorized by a direct participant in accordance with the Depository's procedures. Under its usual procedures, the Depository mails an omnibus proxy to us as soon as possible after the applicable record date. The omnibus proxy assigns Cede & Co.'s consenting or voting rights to those direct participants identified in a listing attached to the omnibus proxy to whose accounts the Exchange Notes are credited on the record date.

Payments. Redemption proceeds, distributions and other payments on the Exchange Notes will be made to Cede & Co. or such other nominee as may be requested by the Depository. The Depository's practice is to credit direct participants' accounts upon the Depository's receipt of funds or other property and corresponding detail information from us or any agent of ours, on the date payable in accordance with their respective holdings shown on the Depository's records. Payments by participants to beneficial owners will be governed by standing instructions and customary practices and will be the responsibility of such participant and not of the Depository or its nominee, the Trustee, any agent of ours, or us, subject to any statutory or regulatory requirements that may be in effect from time to time. Payments of redemption proceeds, distributions and other payments to Cede & Co. or such other nominee as may be requested by the Depository are our responsibility or the responsibility of any paying agent of ours, disbursement of such payments to direct participants will be the responsibility of the Depository and disbursement of such payments to the beneficial owners will be the responsibility of direct and indirect participants.

Discontinuance of the Depository. The Depository may discontinue providing its services as depository with respect to the Exchange Notes at any time by giving reasonable notice to us or our agent. Under such circumstances, in the event that a successor depository is not obtained by us within 90 days, security certificates are required to be printed and delivered. See *Form of Securities Global Securities Discontinuance of Any Depository* above.

We may decide to discontinue use of the system of book-entry transfers through the Depository or any successor depository. In that event, security certificates will be printed and delivered. See *Form of Securities Global Securities* above.

According to the Depository, the foregoing information relating to the Depository has been provided to the financial community for informational purposes only and is not intended to serve as a representation, warranty or contract modification of any kind. The information in this section concerning the Depository and its book-entry system has been obtained from sources we believe to be reliable, but we have not independently verified the accuracy thereof. The Depository may change or discontinue the foregoing procedures at any time. See Book-Entry, Delivery and Form of Securities Form of Securities in this prospectus for additional information about the form of notes.

Clearstream, Luxembourg and Euroclear

Clearstream, Luxembourg has advised us that it is incorporated under the laws of Luxembourg as a société anonyme and is subject to regulation by the Luxembourg Commission for the Supervision of the Financial Sector (Commission de Surveillance du Secteur Financier). Clearstream, Luxembourg is owned by Deutsche Börse AG, a publicly traded company. Clearstream, Luxembourg holds securities for its participating customers, Clearstream, Luxembourg customers, and facilitates the clearance and settlement of securities transactions between Clearstream, Luxembourg customers through electronic book-entry transfers between their accounts, thereby eliminating the need for physical movement of securities. Clearstream, Luxembourg provides other services to Clearstream, Luxembourg customers, including safekeeping, administration, clearance and settlement of internationally traded securities and securities lending and borrowing. Clearstream, Luxembourg interfaces with domestic securities markets in many countries through established depository and custodial relationships. Clearstream, Luxembourg customers include worldwide securities brokers and dealers, banks, trust companies and clearing corporations and may include professional financial intermediaries. Clearstream, Luxembourg's U.S. participating customers are limited to securities brokers, dealers and banks. Indirect access to Clearstream, Luxembourg is also available to other institutions such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Clearstream, Luxembourg customer. Clearstream, Luxembourg is an

indirect participant in the Depository. Clearstream, Luxembourg has established an electronic bridge with the Euroclear operator to facilitate settlement of trades between Clearstream, Luxembourg and the Euroclear operator.

Distributions with respect to the Exchange Notes held through Clearstream, Luxembourg will be credited to cash accounts of Clearstream, Luxembourg customers in accordance with its rules and procedures, to the extent received by the U.S. depository for Clearstream, Luxembourg.

The Euroclear operator has advised us that the Euroclear System was created in 1968 to hold securities for its participants, Euroclear participants, and to clear and settle transactions between Euroclear participants through simultaneous electronic book-entry delivery against payment, thereby eliminating the need for physical movement of securities. The Euroclear System is operated by Euroclear Bank SA/NV (the Euroclear operator), under contract with Euroclear plc, a U.K. corporation. The Euroclear operator conducts all operations, and all Euroclear securities clearance accounts and Euroclear cash accounts are accounts with the Euroclear operator, not Euroclear plc. Euroclear plc establishes policies for the Euroclear operator on behalf of Euroclear participants. The Euroclear operator is a bank incorporated under the laws of the Kingdom of Belgium. The Euroclear operator is regulated and examined by the Belgian Banking and Finance Commission and the National Bank of Belgium.

The Euroclear operator holds securities and book-entry interests in securities for participating organizations and facilitates the clearance and settlement of securities transactions between Euroclear participants and between Euroclear participants and participants of certain other securities intermediaries through electronic book-entry changes in accounts of such participants or other securities intermediaries. Euroclear participants include securities brokers and dealers, banks (including central banks), trust companies and clearing corporations and other professional financial intermediaries. Indirect access to Euroclear is also available to other institutions such as banks, brokers, dealers and trust companies that clear through or maintain a custodial relationship with a Euroclear participant. Euroclear is an indirect participant in the Depository.

The Euroclear operator provides Euroclear participants with, among other things, safekeeping, administration, clearance and settlement, securities lending and borrowing and related services.

Non-participants of Euroclear may acquire, hold and transfer book-entry interests in notes through accounts with a direct participant of Euroclear or any other securities intermediary that holds a book-entry interest in the notes through one or more securities intermediaries standing between such other securities intermediary and the Euroclear operator.

Securities clearance accounts and cash accounts with the Euroclear operator are governed by the Terms and Conditions Governing Use of Euroclear and the related Operating Procedures of the Euroclear System, and applicable Belgian law, collectively, the terms and conditions. The terms and conditions govern transfers of securities and cash within the Euroclear System, withdrawals of securities and cash from the Euroclear System and receipts of payments with respect to securities in the Euroclear System. All securities in the Euroclear System are held on a fungible basis without attribution of specific certificates to specific securities clearance accounts. The Euroclear operator acts under the terms and conditions only on behalf of Euroclear participants and has no record of or relationship with persons holding through Euroclear participants.

Distributions with respect to the Exchange Notes held beneficially through the Euroclear System will be credited to the cash accounts of Euroclear participants in accordance with the terms and conditions, to the extent received by the U.S. depository for the Euroclear operator.

Although the Euroclear operator has agreed to the procedures provided below in order to facilitate transfers of securities among Euroclear participants and between Euroclear participants and participants of other intermediaries, it is under no obligation to perform or continue to perform in accordance with such procedures, and such procedures may be modified or discontinued at any time.

Investors electing to acquire securities through an account with the Euroclear operator or some other securities intermediary must follow the settlement procedures of such an intermediary with respect to the settlement of new issues of securities. Investors electing to acquire, hold or transfer securities through an account with the Euroclear operator or some other securities intermediary must follow the settlement procedures of such an intermediary with respect to the settlement of secondary market transactions of such securities.

Investors who are Euroclear participants may acquire, hold or transfer interests in securities by book-entry to accounts with the Euroclear operator. Investors who are not Euroclear participants may

Table of Contents

acquire, hold or transfer interests in securities by book-entry to accounts with a securities intermediary who holds a book-entry interest in these securities through accounts with Euroclear.

The Euroclear operator further advises that investors that acquire, hold and transfer interests in securities by book-entry through accounts with the Euroclear operator or any other securities intermediary are subject to the laws and contractual provisions governing their relationship with their intermediary, as well as the laws and contractual provisions governing the relationship between their intermediary and each other intermediary, if any, standing between themselves and the securities.

The Euroclear operator further advises that, under Belgian law, investors that are credited with securities on the records of the Euroclear operator have a co-property right in the fungible pool of interests in securities on deposit with the Euroclear operator in an amount equal to the amount of interests in securities credited to their accounts. In the event of the insolvency of the Euroclear operator, Euroclear participants would have a right under Belgian law to the return of the amount and type of interests in securities credited to their accounts with the Euroclear operator. If the Euroclear operator does not have a sufficient amount of interests in securities on deposit of a particular type to cover the claims of all participants credited with interests in securities of that type on the Euroclear operator's records, all participants having an amount of interests in securities of that type credited to their accounts with the Euroclear operator will have the right under Belgian law to the return of their pro rata share of the amount of interests in securities actually on deposit.

Under Belgian law, the Euroclear operator is required to pass on the benefits of ownership in any interests in securities on deposit with it (such as dividends, voting rights and other entitlements) to any person credited with those interests in securities on its records.

Individual certificates in respect of the Exchange Notes will not be issued in exchange for the registered global notes, except in very limited circumstances. If the Depositary notifies us that it is unwilling or unable to continue as a clearing system in connection with the registered global notes or ceases to be a clearing agency registered under the Exchange Act, and a successor clearing system is not appointed by us within 90 days after receiving that notice from the Depositary or upon becoming aware that the Depositary is no longer so registered, we will issue or cause to be issued individual certificates in registered form on registration of transfer of, or in exchange for, book-entry interests in the Exchange Notes represented by registered global notes upon delivery of those registered global notes for cancellation.

Title to book-entry interests in the Exchange Notes will pass by book-entry registration of the transfer within the records of Clearstream, Luxembourg, the Euroclear operator or the Depositary, as the case may be, in accordance with their respective procedures. Book-entry interests in the Exchange Notes may be transferred within Clearstream, Luxembourg and within the Euroclear System and between Clearstream, Luxembourg and the Euroclear System in accordance with procedures established for these purposes by Clearstream, Luxembourg and the Euroclear operator. Book-entry interests in the Exchange Notes may be transferred within the Depositary in accordance with procedures established for this purpose by the Depositary. Transfers of book-entry interests in the Exchange Notes among Clearstream, Luxembourg and the Euroclear operator and the Depositary may be effected in accordance with procedures established for this purpose by Clearstream, Luxembourg, the Euroclear operator and the Depositary.

A further description of the Depositary's procedures with respect to the registered global notes is set forth above under *The Depositary*. The Depositary has confirmed to us, Deutsche Bank Securities Inc., Deutsche Bank Trust Company Americas and the Trustee that it intends to follow those procedures.

Global Clearance and Settlement Procedures

Initial settlement for the Exchange Notes offered on a global basis will be made in exchange for the Original Notes. Secondary market trading between the Depositary's participants will occur in the ordinary way in accordance with the Depositary's rules and will be settled in immediately available funds using the Depositary's Same-Day Funds Settlement System. Secondary market trading between Clearstream, Luxembourg customers and/or Euroclear participants will occur in the ordinary way in accordance with the applicable rules and operating procedures of Clearstream, Luxembourg and the Euroclear System and will be settled using the procedures applicable to conventional Eurobonds in immediately available funds.

Cross-market transfers between persons holding directly or indirectly through the Depositary on the one hand, and directly or indirectly through Clearstream, Luxembourg customers or Euroclear

participants, on the other, will be effected through the Depositary in accordance with the Depositary's rules on behalf of the relevant European international clearing system by its U.S. depositary; however, these cross-market transactions will require delivery of instructions to the relevant European international clearing system by the counterparty in the clearing system in accordance with its rules and procedures and within its established deadlines (European time). The relevant European international clearing system will, if the transaction meets its settlement requirements, deliver instructions to its U.S. depositary to take action to effect final settlement on its behalf by delivering interests in the Exchange Notes to or receiving interests in the Exchange Notes from the Depositary, and making or receiving payment in accordance with normal procedures for same-day funds settlement applicable to the Depositary. Clearstream, Luxembourg customers and Euroclear participants may not deliver instructions directly to their respective U.S. depositaries.

Because of time-zone differences, credits of interests in the Exchange Notes received in Clearstream, Luxembourg or the Euroclear System as a result of a transaction with a Depositary participant will be made during subsequent securities settlement processing and dated the business day following the Depositary settlement date. Credits of interests or any transactions involving interests in the Exchange Notes received in Clearstream, Luxembourg or the Euroclear System as a result of a transaction with a Depositary participant and settled during subsequent securities settlement processing will be reported to the relevant Clearstream, Luxembourg customers or Euroclear participants on the business day following the Depositary settlement date. Cash received in Clearstream, Luxembourg or the Euroclear System as a result of sales of interests in the Exchange Notes by or through a Clearstream, Luxembourg customer or a Euroclear participant to a Depositary participant will be received with value on the Depositary settlement date but will be available in the relevant Clearstream, Luxembourg or Euroclear cash account only as of the business day following settlement in the Depositary.

Although the Depositary, Clearstream, Luxembourg and the Euroclear operator have agreed to the foregoing procedures in order to facilitate transfers of interests in the Exchange Notes among participants of the Depositary, Clearstream, Luxembourg and Euroclear, they are under no obligation to perform or continue to perform the foregoing procedures and these procedures may be changed or discontinued at any time.

We have obtained the information in this section concerning Clearstream, Luxembourg and the Euroclear operator, and the book-entry system and procedures from sources that we believe to be reliable, but we have not independently verified the accuracy of this information.

Table of Contents**TAXATION****Certain U.S. Federal Income Tax Considerations**

The following is a summary of certain U.S. federal income tax consequences of the Exchange Offer that may be relevant to a beneficial owner of Exchange Notes that is a citizen or resident of the United States or a domestic corporation or otherwise subject to U.S. federal income tax on a net income basis in respect of the Exchange Notes (a U.S. Holder). A Non-U.S. Holder means a beneficial owner of Exchange Notes that is not a U.S. Holder. The summary is based on laws, regulations, rulings and decisions now in effect, all of which are subject to change. The discussion does not deal with special classes of U.S. Holders, such as dealers in securities or currencies, banks, financial institutions, insurance companies, tax-exempt organizations, entities classified as partnerships and the partners therein, persons holding Exchange Notes as a position in a straddle or conversion transaction, or as part of a synthetic security or other integrated financial transaction or persons that have a functional currency other than the U.S. dollar. This discussion assumes that the Exchange Notes are held as capital assets within the meaning of Section 1221 of the Internal Revenue Code of 1986, as amended (the Code). The discussion does not address the alternative minimum tax, the Medicare tax on net investment income or other aspects of U.S. federal income or state and local taxation that may be relevant to a U.S. Holder in light of the U.S. Holder's particular circumstances.

Tax Consequences to U.S. Holders who Participate in the Exchange Offer

The exchange of Original Notes for Exchange Notes pursuant to the Exchange Offer will not be a taxable event for U.S. federal income tax purposes. Accordingly, U.S. Holders will recognize no gain or loss upon receipt of an Exchange Note, the holding period of the Exchange Note will include the holding period of the Original Note exchanged therefor, and the U.S. Holder's tax basis in the Exchange Note will be the same as the tax basis in the Original Note exchanged at the time of the exchange.

Payments of Interest on Exchange Notes

Interest payments on an Exchange Note (including any Additional Amounts paid in respect thereto) generally will be taxable to a U.S. Holder as ordinary income at the time that such payments are accrued or are received in accordance with the U.S. Holder's method of tax accounting. Interest payments will be treated as foreign source income for purposes of calculating a U.S. Holder's foreign tax credit limitation. The limitation on foreign taxes eligible for the U.S. foreign tax credit is calculated separately with respect to each specific class of income. The rules relating to foreign tax credits and the timing thereof are complex. U.S. Holders should consult their own tax advisors regarding the availability of a foreign tax credit in their particular situation.

Sale or Other Disposition of Exchange Notes

Upon the sale or other disposition of an Exchange Note, a U.S. Holder generally will recognize gain or loss equal to the difference between the amount realized on the sale or other disposition and the U.S. Holder's tax basis in such Exchange Note. A U.S. Holder's tax basis in an Exchange Note generally will initially equal the cost of such Exchange Note to such holder and will be the same as its tax basis in the Original Note immediately prior to the Exchange Offer. A U.S. Holder's tax basis will increase by any amounts that are included in income under the rules governing market discount, and will decrease by the amount of any amortized premium. Gain or loss recognized by a U.S. Holder generally will be long-term capital gain or loss if the U.S. Holder has held the Exchange Note for more than one year (including the holding period of the Original Note exchanged therefor) at the time of disposition. Long-term capital gains recognized by a non-corporate U.S. Holder generally are subject to tax at a lower rate than short-term capital gains or ordinary income. Capital gain or loss, if any, recognized by a U.S. Holder generally will be treated as U.S.-source income or loss for U.S. foreign tax credit purposes. The deductibility of capital losses is subject to significant limitations.

Market Discount

If a U.S. Holder acquired an Original Note at a cost that was less than its adjusted issue price on the acquisition date, then the amount of the difference is treated as market discount for U.S. federal income tax purposes, unless the difference is de minimis. A U.S. Holder will be required to treat any gain on the sale, exchange, retirement or other taxable disposition of an Exchange Note as ordinary income to the extent of any accrued market discount on the Exchange Note at the time of the

Table of Contents

disposition, unless the U.S. Holder has previously included such market discount in income pursuant to an election by the U.S. Holder to include the market discount in income as it accrues. If a U.S. Holder disposes of an Exchange Note in certain nontaxable transactions, any accrued market discount will be includible as ordinary income as if the U.S. Holder had sold the Exchange Note in a taxable transaction at its fair market value at the time of such disposition.

Amortizable Bond Premium

If a U.S. Holder's tax basis in an Exchange Note exceeds the Exchange Note's stated redemption price at maturity, the Exchange Note has bond premium to the extent of that excess. It is generally possible to elect to amortize bond premium on a constant yield to maturity method, as a reduction of interest income from a note. Such election, once made, generally applies to all bonds held or subsequently acquired by the U.S. Holder on or after the first taxable year to which the election applies and may not be revoked without the consent of the IRS. A U.S. Holder who elects to amortize bond premium must reduce its tax basis in the Exchange Note by the amount of bond premium used to offset stated interest income.

Foreign Account Tax Compliance

Pursuant to FATCA, an investor may be required to provide a financial institution in the chain of payments on the Exchange Notes information regarding the investor's identity and in the case of an investor that is an entity, the investor's direct and indirect owners, and this information may be reported to applicable tax authorities (including to the IRS). In addition, starting at the earliest on January 1, 2019, and subject to grandfathering rules, the issuer and other non U.S. financial institutions through which payments are made (including the paying agents) may be required pursuant to FATCA to withhold U.S. tax on payments in respect of the Exchange Notes if such payments are foreign passthru payments (a term not yet defined) made to an investor who does not provide information sufficient for a non U.S. financial institution through which payments are made to determine whether the investor is a U.S. person or should otherwise be treated as holding a United States account of such institution, or to an investor that is, or holds the Exchange Notes directly or indirectly through, a non U.S. financial institution that is not in compliance with FATCA. However, the withholding tax described above will not apply prior to January 1, 2019, and assuming that the Exchange Notes are treated as debt instruments for U.S. federal income tax purposes, would not apply to the Exchange Notes unless they are issued or materially modified on or after the date that is six months after the date on which final regulations defining the term foreign passthru payment are published in the U.S. Federal Register. If an amount of, or in respect of, such withholding taxes were to be deducted or withheld from any payments in respect of the Exchange Notes as a result of an investor or intermediary's failure to comply with these rules, no Additional Amounts will be paid on the Exchange Notes held by such investor as a result of the deduction or withholding of such tax. Holders should consult their own tax advisors on how the FATCA rules may apply to payments they receive in respect of Exchange Notes.

Information Reporting and Backup Withholding

Information returns will be filed with the IRS in connection with payments on the Exchange Notes made to, and the proceeds of dispositions of Exchange Notes effected by, certain U.S. Holders. In addition, payments on the Exchange Notes made to a U.S. Holder may be subject to backup withholding unless the U.S. Holder (i) is a corporation or comes within certain other exempt categories and demonstrates this fact, or (ii) provides a correct taxpayer identification number, certifies as to no loss of exemption from backup withholding and otherwise complies with applicable requirements of the backup withholding rules. The amount of any backup withholding from a payment to a U.S. Holder will be allowed as a credit against the U.S. Holder's federal income tax liability and may entitle the U.S. Holder to a refund, provided that the required information is furnished to the IRS.

Specified Foreign Financial Assets

Certain U.S. Holders that own specified foreign financial assets with an aggregate value in excess of \$50,000 are generally required to file an information statement along with their tax returns, currently on Form 8938, with respect to such assets. Specified foreign financial assets include any financial accounts held at a non-U.S. financial institution, as well as securities issued by a non-U.S. issuer (which would include the Exchange Notes) that are not held in accounts maintained by financial institutions. Higher reporting thresholds apply to certain individuals living abroad and to certain married

Table of Contents

individuals. Regulations extend this reporting requirement to certain entities that are treated as formed or availed of to hold direct or indirect interests in specified foreign financial assets based on certain objective criteria. U.S. Holders who fail to report the required information could be subject to substantial penalties. Prospective investors should consult their own tax advisors concerning the application of these rules to their investment in the Exchange Notes, including the application of the rules to their particular circumstances.

Certain German Tax Considerations

The following is a summary of certain German tax consequences of the Exchange Offer that may be relevant to a beneficial owner of the Exchange Notes that is not a resident of Germany, for whom the Exchange Notes do not constitute property of a German permanent establishment and for whom the income from the Exchange Offer or the Exchange Notes does not otherwise constitute income from German sources (a Non-German Holder).

Tax Consequences to Non-German Holders who Participate in the Exchange Offer

Non-German Holders will not be taxable in Germany with respect to the gain or loss upon receipt of an Exchange Note.

Payments of Interest on Exchange Notes

Interest payments on an Exchange Note (including any Additional Amounts paid in respect thereto) will not be taxable in Germany to a Non-German Holder.

Sale or Other Disposition of Exchange Notes

A Non-German Holder will not be taxable in Germany with respect to the gain or loss realized upon the sale or the disposition of an Exchange Note.

U.S.-Germany Intergovernmental Agreement

Germany signed an intergovernmental agreement with the United States (the U.S.-Germany IGA) regarding the implementation of FATCA, under which certain disclosure requirements will be imposed in respect of certain investors in the Exchange Notes who are, or are entities that are controlled by one or more individuals who are, residents or citizens of the United States, unless an exemption applies. Certain due diligence obligations will also be imposed. Where applicable, information that will need to be disclosed will include certain information about investors in the Exchange Notes, the ultimate beneficial owners and/or controllers, and their investment in and return from the Exchange Notes.

Under the terms of the U.S.-Germany IGA, German resident financial institutions that comply with the due diligence and reporting requirements of Germany 's domestic legislation will be treated as compliant with FATCA and, as a result, should not be subject to FATCA withholding on payments they receive and should not be required to withhold under FATCA on payments they make.

Common Reporting Standard

The Organisation for Economic Co-Operation and Development released the Common Reporting Standard (CRS) designed to create a global standard for the automatic exchange of financial account information, similar to the information to be reported under FATCA. On October 29, 2014, 51 jurisdictions signed the Multilateral Competent Authority Agreement (the Multilateral Agreement) that activates this automatic exchange of FATCA-like information in line with the CRS. Since then, further jurisdictions have signed the Multilateral Agreement and in total over 100 jurisdictions have committed to adopting the CRS.

Under the CRS and legislation enacted in Germany to implement the CRS, certain disclosure requirements will be imposed in respect of certain investors in the Exchange Notes who are, or are entities that are controlled by one or more individuals who are, residents of any of the jurisdictions that have adopted the CRS, unless a relevant exemption applies. Where applicable, information that would need to be disclosed will include certain information about investors in the Exchange Notes, the ultimate beneficial owners and/or controllers, and their investment in and returns from the Exchange Notes.

All prospective investors should consult with their own tax advisors regarding the possible implication of FATCA, CRS and other similar legislation and/or regulations on their investment in the Exchange Notes.

Table of Contents**BENEFIT PLAN INVESTOR CONSIDERATIONS**

A fiduciary of a pension, profit-sharing or other employee benefit plan subject to the Employee Retirement Income Security Act of 1974, as amended (ERISA), including entities such as collective investment funds, partnerships and separate accounts whose underlying assets include the assets of such plans (collectively, ERISA Plans) should consider the fiduciary standards of ERISA in the context of the ERISA Plan s particular circumstances before authorizing participation in the Exchange Offer and an investment in the Exchange Notes. Among other factors, the fiduciary should consider whether the transaction and investment would satisfy the prudence and diversification requirements of ERISA and would be consistent with the documents and instruments governing the ERISA Plan.

In addition to ERISA s general fiduciary standards, Section 406 of ERISA and Section 4975 of the Code prohibit ERISA Plans, as well as plans (including individual retirement accounts and Keogh plans) subject to Section 4975 of the Code (together with ERISA Plans, Plans), from engaging in certain transactions involving the plan assets of such Plans with persons who are parties in interest under ERISA or disqualified persons under Section 4975 of the Code (in either case, Parties in Interest) with respect to such Plans unless exemptive relief is available under a statutory or administrative exemption. We and our affiliates may be Parties in Interest to many Plans. Parties in Interest that engage in a nonexempt prohibited transaction may be subject to excise taxes and other penalties and liabilities under ERISA and Section 4975 of the Code. Thus, a plan fiduciary considering participation in the Exchange Offer and an investment in the Exchange Notes should also consider whether such actions might constitute or give rise to a prohibited transaction under Section 406 of ERISA or Section 4975 of the Code. For example, such actions could be viewed as a direct or indirect sale of property and/or extension of credit between a Party in Interest and a participating Plan which would be prohibited unless exemptive relief were available under an applicable exemption.

Certain prohibited transaction class exemptions (PTCEs) issued by the U.S. Department of Labor may provide exemptive relief for direct or indirect prohibited transactions resulting from participation in the Exchange Offer and investment in the Exchange Notes. Those class exemptions are PTCE 96-23 (for certain transactions determined by in-house asset managers), PTCE 95-60 (for certain transactions involving insurance company general accounts), PTCE 91-38 (for certain transactions involving bank collective investment funds), PTCE 90-1 (for certain transactions involving insurance company separate accounts) and PTCE 84-14 (for certain transactions determined by independent qualified professional asset managers). In addition, Section 408(b)(17) of ERISA and Section 4975(d)(20) of the Code may provide a limited exemption for the purchase and sale of the Notes and related lending transactions, provided that neither the Party in Interest nor any of its affiliates has or exercises any discretionary authority or control or renders any investment advice with respect to the assets of the Plan involved in the transaction, and provided further that the Plan pays no more, and receives no less, than adequate consideration in connection with the transaction (known as the service provider exemption). There can be no assurance that any of these statutory or class exemptions will be available with respect to transactions involving the Exchange Offer or the Exchange Notes.

Accordingly, any Plan, any entity whose underlying assets include plan assets by reason of any Plan s investment in the entity (a Plan Asset Entity) or any person investing plan assets of any Plan may not participate in the Exchange Offer or invest in the Exchange Notes, unless such transactions are eligible for exemptive relief, including relief available under PTCE 96-23, 95-60, 91- 38, 90-1 or 84-14 or the service provider exemption.

The considerations under ERISA and Section 4975 of the Code summarized above generally do not apply to governmental plans (as defined in Section 3(32) of ERISA), certain church plans (as defined in Section 3(33) of ERISA) and non-U.S. plans (as described in Section 4(b)(4) of ERISA) (collectively, Non-ERISA Arrangements). However, these Non-ERISA Arrangements may be subject to similar provisions under applicable federal, state, local, non-U.S. or other regulations, rules or laws (Similar Laws). The fiduciaries of plans subject to Similar Laws should also consider the foregoing issues in general terms as well as any further issues arising under any applicable Similar Laws.

Each acquirer of the Exchange Notes (or any interest therein) shall be deemed to have represented and warranted, on each day from the date of the acquisition of the Exchange Notes until the date of its disposition of the Exchange Notes, that either (a) it is not a Plan or a Non-ERISA Arrangement and it is not acquiring or holding such Exchange Notes on behalf of or with plan assets of any Plan or Non-ERISA Arrangement or (b) its participation in the Exchange Offer and its acquisition, holding and disposition of such Exchange Notes are eligible for exemptive relief under Section 406 of ERISA and Section 4975 of the Code and will not result in a violation of any Similar Law.

Table of Contents

Due to the complexity of the applicable rules, it is particularly important that fiduciaries or other persons considering participating in the Exchange Offer and acquiring the Exchange Notes on behalf of any Plan or Non-ERISA Arrangement consult with their counsel prior to taking such actions.

Each acquirer and holder of the Exchange Notes has exclusive responsibility for ensuring that its purchase, holding and disposition of such Exchange Notes does not violate the fiduciary or prohibited transaction rules of ERISA or Section 4975 of the Code or any applicable Similar Laws. The acceptance for exchange of any Original Note that is properly tendered in the Exchange Offer from, and the delivery of any corresponding Exchange Note to, a Plan or Non-ERISA Arrangement is in no respect a representation by us or any of our affiliates or representatives that such transactions meet all relevant legal requirements with respect to Plans or Non-ERISA Arrangements generally or any particular Plan or Non-ERISA Arrangement, or that such transactions are appropriate for Plans or Non-ERISA Arrangements generally or any particular Plan or Non-ERISA Arrangement.

Item 20. Indemnification of Directors and Officers

Deutsche Bank Aktiengesellschaft

Under German law, a corporation may indemnify its officers, and, under certain circumstances, German labor law requires a stock corporation to do so. However, a corporation may not, as a general matter, indemnify members of the management board or the supervisory board. A German stock corporation may, however, purchase directors' and officers' liability insurance. The insurance may be subject to any mandatory restrictions imposed by German law, including a deductible. In addition, German law permits a corporation to indemnify a member of the management board or the supervisory board for attorneys' fees incurred if such member is the successful party in a suit in a country, like the United States, where winning parties are required to bear their own costs, if German law would have required the losing party to pay the member's attorneys' fees had the suit been brought in Germany and for attorneys' fees incurred in connection with other proceedings.

Members of the Registrant's (defined below) supervisory board and management board and officers of the Registrant are covered by customary liability insurance, including insurance against liabilities under the Securities Act.

Item 22. Undertakings

The undersigned registrant (the Registrant) hereby undertakes:

- 1) To file, during any period in which offers or sales are being made, a post-effective amendment to this registration statement:
 - i. To include any prospectus required by Section 10(a)(3) of the Securities Act;
 - ii. To reflect in the prospectus any facts or events arising after the effective date of the registration statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in this registration statement; and
 - iii. To include any material information with respect to the plan of distribution not previously disclosed in this registration statement or any material change to such information in this registration statement.
- 2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.
- 3) To remove from registration by means of a post-effective amendment any of the securities being registered which remain unsold at the termination of the offering.
- 4) To file a post-effective amendment to this registration statement to include any financial statements required by Item 8.A. of Form 20-F at the start of any delayed offering or throughout a continuous offering.
- 5) That, for the purpose of determining liability under the Securities Act to any purchaser:
 - i. Each prospectus filed by the Registrant pursuant to Rule 424(b)(3) shall be deemed to be part of the registration statement as of the date the filed prospectus was deemed part of and included in the registration statement; and
 - ii. Each prospectus required to be filed pursuant to Rule 424(b)(2), (b)(5) or (b)(7) as part of the registration statement in reliance on Rule 430B relating to an offering made pursuant to Rule 415(a)(1)(i), (vii) or (x) for the purpose of providing the information required by Section 10(a) of the Securities Act shall be deemed to be part of and included in this registration statement as of the earlier of the date such form of prospectus is first used after effectiveness or the date of the first contract of sale of securities in the offering described in the prospectus. As provided in Rule 430B, for liability purposes of the issuer and any person that is at that date an underwriter, such date shall be deemed to be a new effective date of the registration statement relating to the securities in the registration statement to which that prospectus relates, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof. *Provided, however,* that no statement made in a registration statement or prospectus that is part of the registration statement or made in a document incorporated or deemed incorporated by reference into the registration statement or prospectus that is part of the registration statement will, as to a purchaser with a time of contract of sale prior to such effective date, supersede or modify any statement that was made in the registration statement or prospectus that was part of the registration statement or made in any such document immediately prior to such effective date.

- 6) That, for the purpose of determining liability of the Registrant under the Securities Act to any purchaser in the initial distribution of the securities:

The undersigned Registrant undertakes that in a primary offering of securities of the undersigned Registrant pursuant to this registration statement, regardless of the underwriting method used to sell the securities to the purchaser, if the securities are offered or sold to such purchaser by means of any of the following communications, the undersigned Registrant will be a seller to the purchaser and will be considered to offer or sell such securities to such purchaser:

- i. Any preliminary prospectus or prospectus of the undersigned Registrant relating to the offering required to be filed pursuant to Rule 424;
- ii. Any free writing prospectus relating to the offering prepared by or on behalf of the undersigned Registrant or used or referred to by the undersigned Registrant;
- iii. The portion of any other free writing prospectus relating to the offering containing material information about the undersigned Registrant or its securities provided by or on behalf of the undersigned Registrant; and

- iv. Any other communication that is an offer in the offering made by the undersigned Registrant to the purchaser.

- 7) That, for purposes of determining any liability under the Securities Act, each filing of the Registrant's annual report pursuant to Section 13(a) or 15(d) of the Exchange Act (and, where applicable, each filing of an employee benefit plan's annual report pursuant to Section 15(d) of the Exchange Act) that is incorporated by reference in the registration statement shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial *bona fide* offering thereof.

- 8) Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions or otherwise, the Registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the Registrant will, unless in the opinion of their counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by them is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

- 9) (i) To respond to requests for information that is incorporated by reference into this prospectus pursuant to Items 4, 10(b), 11 or 13 of Form F-4, within one Business Day of receipt of such request, and to send the incorporated documents by first class mail or other equally prompt means, and (ii) to arrange or provide for a facility in the United States for the purpose of responding to such requests. The undertaking in subparagraph (i) above include information contained in documents filed subsequent to the effective date of the registration statement through the date of responding to the request.
