Sabra Health Care REIT Comments on ISS Report

*Reiterates Board's Unanimous Recommendation that Sabra Health Care REIT Shareholders Vote FOR
the Proposed Merger with Care Capital Properties*

IRVINE, Calif., August 2, 2017 Sabra Health Care REIT, Inc. (Nasdaq:SBRA) (Nasdaq:SBRAP) (Sabra or the Company) today reiterated the unanimous recommendation of its Board of Directors that Sabra shareholders vote FOR the Company's proposed merger with Care Capital Properties, Inc. (NYSE:CCP) (CCP) and common stock issuance proposal at the Company's Special Meeting of Stockholders on August 15, 2017. Sabra also issued the following statement in response to the report recently issued by proxy advisory firm, Institutional Shareholder Services Inc. (ISS) regarding the merger:

We strongly believe that ISS reached the wrong conclusion in failing to recommend that Sabra shareholders vote FOR the proposed merger. The Sabra Board of Directors and management team have a proven track record of value creation, substantial operating experience and are better positioned to evaluate the compelling merits of the transaction than ISS and either Hudson Bay Capital or Eminence Capital, which Sabra believes became shareholders only after the transaction with CCP was announced.

There are many reasons why the Sabra Board and management team believe the combination with CCP is compelling, including the fact that it diversifies Sabra's tenant base to decrease concentration from its top five tenants, delivering significant value creation and dividend growth, increasing scale, and helping to achieve investment grade credit ratings and balance sheet strength. The merger is expected to generate annual cost savings of approximately \$20 million and creates immediate and significant cash flow accretion that provides the potential for a meaningful near-term dividend increase and value creation.

In addition, ISS cites valuation as part of its rationale for not supporting the transaction despite the implied premium for CCP's unaffected stock price being 11.8%, which is lower than average control premiums paid in precedent public company Healthcare REIT transactions. We believe we paid an attractive price for a portfolio of CCP's scale, diversification and quality, which is not reflected in the private market cap rate that is quoted for a small portfolio or asset deals.

In its report, ISS fails to demonstrate an understanding of the SNF industry. Skilled nursing remains an integral component of the U.S. continuum of care that provides attractive risk adjusted returns for sophisticated and experienced healthcare investors that are able to partner with successful operators on the right assets. In the SNF industry, it is the operator that matters and CCP's tenants are good operators with quality assets. Sabra has strong relationships with many of the CCP operators through existing or previous investments in the space and this transaction creates enhanced growth opportunities to strategically partner with top operators.

The Sabra management team is confident it can maximize the performance of CCP's assets. This is evidenced by the Sabra management team's track record of improving the performance of its portfolio, delivering quarterly SNF coverage growth from 1.25x to 1.54x since the first quarter of 2015, a 23% increase.

ISS speculates that stabilizing CCP's portfolio would require further rent concessions beyond the potential repositioning plan the Company has outlined. Sabra has noted that this is a one-time repositioning of CCP's leases that will be focused on optimizing rent for reinvestment, improving operations with tenants the Sabra management team knows well and restructuring with a handful of tenants that can execute a successful facility turnaround. ISS recognizes Sabra's ability to execute, stating that management has proven operational experience, which could assist them in working with tenants to stabilize the CCP portfolio.

Sabra encourages shareholders to review the Company's previously disclosed press release and presentation on July 28, 2017 regarding the merits of the transaction, which are available on the Investor Relations section of the Company's website.
