**Forward-Looking Information**

The information included in this Form 10-Q contains certain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements may relate to Popular, Inc.'s (the Corporation, Popular, we, us, our) financial condition, results of operations, plans, objectives, future performance of our business, including, but not limited to, statements with respect to the adequacy of the allowance for loan losses, delinquency trends, market risk and the impact of interest rate changes, capital markets conditions, capital adequacy and liquidity, and the effect of legal proceedings and new accounting standards on the Corporation's financial condition and results of operations. All statements contained herein that are not clearly historical in nature are forward-looking, and the words anticipate, believe, continues, expect, estimate, intend, project and similar and future or conditional verbs such as will, would, should, could, might, can, may or similar expressions generally intended to identify forward-looking statements.

These statements are not guarantees of future performance and involve certain risks, uncertainties, estimates and assumptions by management that are difficult to predict.

Various factors, some of which are beyond Popular's control, could cause actual results to differ materially from those expressed in, or implied by, such forward-looking statements. Factors that might cause such a difference include, but are not limited to:

the rate of growth in the economy and employment levels, as well as general business and economic conditions in the geographic areas we serve;

the impact of the current fiscal and economic crisis of the Commonwealth of Puerto Rico (the Commonwealth or Puerto Rico) and the measures taken and to be taken by the Puerto Rico Government and the Federally-appointed oversight board on the economy, our customers and our business;

the impact of the pending debt restructuring proceedings under Title III of the Puerto Rico Oversight, Management and Economic Stability Act ( PROMESA ) and of other actions taken or to be taken to address Puerto Rico's fiscal crisis on the value of our portfolio of Puerto Rico government securities and loans to governmental entities, and the possibility that these actions may result in credit losses that are higher than currently expected;

changes in interest rates and market liquidity, which may reduce interest margins, impact funding sources and affect our ability to originate and distribute financial products in the primary and secondary markets;

the fiscal and monetary policies of the federal government and its agencies;

changes in federal bank regulatory and supervisory policies, including required levels of capital and the impact of proposed capital standards on our capital ratios;

Edgar Filing: POPULAR INC - Form 10-Q

the impact of the Dodd-Frank Wall Street Reform and Consumer Protection Act (the Dodd-Frank Act ) on our businesses, business practices and cost of operations;

regulatory approvals that may be necessary to undertake certain actions or consummate strategic transactions such as acquisitions and dispositions;

the relative strength or weakness of the consumer and commercial credit sectors and of the real estate markets in Puerto Rico and the other markets in which borrowers are located;

the performance of the stock and bond markets;

competition in the financial services industry;

additional Federal Deposit Insurance Corporation ( FDIC ) assessments;

possible legislative, tax or regulatory changes; and

a failure in or breach of our operational or security systems or infrastructure or those of EVERTEC, Inc., our provider of core financial transaction processing and information technology services, as a result of cyberattacks, including e-fraud, denial-of-services and computer intrusion, that might result in loss or breach of customer data, disruption of services, reputational damage or additional costs to Popular.

Other possible events or factors that could cause results or performance to differ materially from those expressed in these forward-looking statements include the following:

**Table of Contents**

negative economic conditions that adversely affect housing prices, the job market, consumer confidence and spending habits which may affect, among other things, the level of non-performing assets, charge-offs and provision expense;

changes in market rates and prices which may adversely impact the value of financial assets and liabilities;

liabilities resulting from litigation and regulatory investigations;

changes in accounting standards, rules and interpretations;

our ability to grow our core businesses;

decisions to downsize, sell or close units or otherwise change our business mix; and

management's ability to identify and manage these and other risks.

Moreover, the outcome of legal proceedings, as discussed in Part II, Item I. Legal Proceedings, is inherently uncertain and depends on judicial interpretations of law and the findings of regulators, judges and juries. Investors should refer to the Corporation's Annual Report on Form 10-K for the year ended December 31, 2016 as well as Part II, Item 1A of this Form 10-Q for a discussion of such factors and certain risks and uncertainties to which the Corporation is subject.

All forward-looking statements included in this Form 10-Q are based upon information available to Popular as of the date of this Form 10-Q, and other than as required by law, including the requirements of applicable securities laws, we assume no obligation to update or revise any such forward-looking statements to reflect occurrences or unanticipated events or circumstances after the date of such statements.

**Note 1 Nature of operations**

Popular, Inc. (the Corporation ) is a diversified, publicly-owned financial holding company subject to the supervision and regulation of the Board of Governors of the Federal Reserve System. The Corporation has operations in Puerto Rico, the United States and the Caribbean. In Puerto Rico, the Corporation provides retail, mortgage, and commercial banking services through its principal banking subsidiary, Banco Popular de Puerto Rico ( BPPR ), as well as investment banking, broker-dealer, auto and equipment leasing and financing, and insurance services through specialized subsidiaries. In the U.S. mainland, the Corporation operates Banco Popular North America ( BPNA ). BPNA focuses efforts and resources on the core community banking business. BPNA operates branches in New York, New Jersey and South Florida under the name of Popular Community Bank.

**Table of Contents**

**Note 2 Basis of Presentation and Summary of Significant Accounting Policies**

***Principles of Consolidation and Basis of Presentation***

The consolidated interim financial statements have been prepared without audit. The consolidated statement of financial condition data at December 31, 2016 was derived from audited financial statements. The unaudited interim financial statements are, in the opinion of management, a fair statement of the results for the periods reported and include all necessary adjustments, all of a normal recurring nature, for a fair statement of such results.

Certain information and note disclosures normally included in financial statements prepared in accordance with accounting principles generally accepted in the United States of America have been condensed or omitted from the unaudited financial statements pursuant to the rules and regulations of the Securities and Exchange Commission. Accordingly, these financial statements should be read in conjunction with the audited Consolidated Financial Statements of the Corporation for the year ended December 31, 2016, included in the Corporation's 2016 Form 10-K. Operating results for the interim periods disclosed herein are not necessarily indicative of the results that may be expected for a full year or any future period.

***Use of Estimates in the Preparation of Financial Statements***

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Note 3 New accounting pronouncements**

*Recently Issued Accounting Standards Updates*

*FASB Accounting Standards Update ( ASU ) 2017-11, Earnings per Share (Topic 260); Distinguishing Liabilities from Equity (Topic 480); Derivatives and Hedging (Topic 815): Part I: Accounting for Certain Financial Instruments with Down Round Features; Part II: Replacement of the Indefinite Deferral for Mandatorily Redeemable Financial Instruments of Certain Nonpublic Entities and Certain Mandatorily Redeemable Noncontrolling Interests with a Scope Exception*

The FASB issued ASU 2017-11 in July 2017, which changes the classification analysis of certain equity-linked financial instruments with down round features. When determining whether these instruments should be classified as liabilities or equity, a down round feature no longer precludes equity classification when assessing whether the instrument is indexed to an entity's own stock. For EPS purposes, the effect of the down round feature should be recognized as a dividend when triggered.

The amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted. The amendments in this Update may be applied using either a modified retrospective approach or a full retrospective approach.

The Corporation does not anticipate that the adoption of this accounting pronouncement will have a material effect on its consolidated statements of financial condition and results of operations since it does not have any outstanding equity-linked financial instruments with a down round feature.

*FASB Accounting Standards Update ( ASU ) 2017-09, Compensation - Stock Compensation (Topic 718): Scope of Modification Accounting*

The FASB issued ASU 2017-09 in May 2017, which clarifies that modification accounting is required only if the fair value, the vesting conditions, or the classification of the award (as equity or liability) changes as a result of the change in terms or conditions.

The amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017. Early adoption is permitted. The amendments in this Update should be applied prospectively to an award modified on or after the adoption date.

The Corporation does not anticipate that the adoption of this accounting pronouncement will have a material effect on its consolidated statements of financial condition and results of operations since it is not customary for the Corporation to modify the terms or conditions of its share-based payment awards.

*FASB Accounting Standards Update ( ASU ) 2017-08, Receivables - Nonrefundable Fees and Other Costs (Subtopic 310-20): Premium Amortization on Purchased Callable Debt Securities*

The FASB issued ASU 2017-08 in March 2017, which amends the amortization period for certain callable debt securities held at a premium by shortening such period to the earliest call date. The amendments do not require an accounting change for securities held at a discount; the discount continues to be amortized to maturity.

The amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted. The amendments in this Update should be applied on a

modified retrospective basis with a cumulative-effect adjustment to retained earnings as of the beginning of the period of adoption.

The Corporation does not anticipate that the adoption of this accounting pronouncement will have a material effect on its consolidated statements of financial condition and results of operations since the premium of purchased callable debt securities is not significant.

*FASB Accounting Standards Update ( ASU ) 2017-07, Compensation – Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost*

The FASB issued ASU 2017-07 in March 2017, which requires that an employer disaggregate the service cost component from the other components of net benefit cost. The amendments also provide guidance on how to present the service cost component and the other components of net benefit cost in the income statement and allow only the service cost component of net benefit cost to be eligible for capitalization.

## **Table of Contents**

The amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2017. The amendments in this Update should be applied retrospectively for the presentation of the service cost component and other components of net benefit cost and prospectively for the capitalization of the service cost component.

The Corporation does not expect that the limitation to capitalize only the service cost component of the net periodic benefit cost will have a material impact on its consolidated statement of operations. Upon adoption, the Corporation will segregate the presentation of the service cost from the other components of net periodic benefit costs, all which are currently reported within personnel costs in its accompanying consolidated statement of operations.

*FASB Accounting Standards Update ( ASU ) 2016-13, Financial Instruments – Credit Losses (Topic 326):  
Measurement of Credit Losses on Financial Instruments*

The Corporation has continued its evaluation and implementation efforts for ASU 2016-13, Financial Instruments Credit Losses, and has established a cross-discipline governance structure. A Current Expected Credit Losses ( CECL ) Working Group, with members from different areas within the organization, has been created and assigned the responsibility of assessing the impact of the standard, evaluating interpretative issues, evaluating the current credit loss models against the new guidance to determine any changes necessary and other related implementation activities. The Working Group provides periodic updates to the CECL Steering Committee, which has oversight responsibilities for the implementation efforts.

The Corporation plans to adopt ASU 2016-13 on January 1, 2020 using a modified retrospective approach. Although early adoption is permitted beginning in the first quarter of 2019, the Corporation does not expect to make that election. The Corporation expects an increase in its allowance for loan and lease losses due to the consideration of lifetime credit losses as part of the calculation. For additional information on ASU 2016-13 and other recently issued Accounting Standards Updates not yet effective, refer to Note 3 to the Consolidated Financial Statements included in the 2016 Form 10-K.

*FASB Accounting Standards Updates ( ASUs ), Revenue from Contracts with Customers (Topic 606)*

The Corporation's implementation efforts regarding ASU 2014-09, Revenue from Contracts with Customers, have included a scoping analysis of revenue streams and related costs, reviewing the associated contracts, evaluating the timing of when revenues are currently being recognized in light of when the performance obligations are fulfilled and assessing principal vs. agent considerations. The Corporation does not expect material changes in the timing of when revenues are recognized upon the adoption of this standard. Nonetheless, the Corporation continues to evaluate certain costs, including card interchange fees and certain broker-dealer activities, to determine if these would require changes from a net presentation within revenues to a gross basis. The Corporation plans to adopt this guidance on January 1, 2018 using the modified retrospective approach.

**Table of Contents**

**Note 4 - Restrictions on cash and due from banks and certain securities**

The Corporation's banking subsidiaries, BPPR and BPNA, are required by federal and state regulatory agencies to maintain average reserve balances with the Federal Reserve Bank of New York (the Fed) or other banks. Those required average reserve balances amounted to \$ 1.2 billion at June 30, 2017 (December 31, 2016 - \$ 1.2 billion). Cash and due from banks, as well as other highly liquid securities, are used to cover the required average reserve balances.

At June 30, 2017, the Corporation held \$90 million in restricted assets in the form of funds deposited in money market accounts, trading account securities and investment securities available for sale (December 31, 2016 - \$31 million). The amounts held in trading account securities and investment securities available for sale consist primarily of restricted assets held for the Corporation's non-qualified retirement plans and fund deposits guaranteeing possible liens or encumbrances over the title of insured properties.

**Table of Contents****Note 5 Investment securities available-for-sale**

Edgar Filing: POPULAR INC - Form 10-Q

Within 1 year	8,539	11	8,550	1.78	
After 5 to 10 years	1,004	31	1,035	3.62	
Total other	9,543	42	9,585	1.97	
Total investment securities available-for-sale <sup>[1]</sup>	\$ 8,279,363	\$ 43,379	\$ 112,936	\$ 8,209,806	1.94%

[1] Includes \$4.1 billion pledged to secure public and trust deposits, assets sold under agreements to repurchase, credit facilities and loan servicing agreements that the secured parties are not permitted to sell or repledge the collateral, of which \$3.4 billion serve as collateral for public funds.

The weighted average yield on investment securities available-for-sale is based on amortized cost; therefore, it does not give effect to changes in fair value.

Securities not due on a single contractual maturity date, such as mortgage-backed securities and collateralized mortgage obligations, are classified in the period of final contractual maturity. The expected maturities of collateralized mortgage obligations, mortgage-backed securities and certain other securities may differ from their contractual maturities because they may be subject to prepayments or may be called by the issuer.

During the six months ended June 30, 2017, the Corporation sold equity securities with a realized gain of \$181 thousand. The proceeds from these sales were \$ 423 thousand. There were no securities sold during the six months ended June 30, 2016.

The following tables present the Corporation's fair value and gross unrealized losses of investment securities available-for-sale, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position at June 30, 2017 and December 31, 2016.

Total investment securities available-for-sale in an unrealized loss position	\$ 5,641,750	\$ 90,451	\$ 373,987	\$ 22,485	\$ 6,015,737	\$ 112,936

As of June 30, 2017, the available-for-sale investment portfolio reflects gross unrealized losses of approximately \$94 million, driven by Mortgage backed securities and Collateralized mortgage obligations.

Management evaluates investment securities for other-than-temporary ( OTTI ) declines in fair value on a quarterly basis. Once a decline in value is determined to be other-than-temporary, the value of a debt security is reduced and a corresponding charge to earnings is recognized for anticipated credit losses. Also, for equity securities that are considered other-than-temporarily impaired, the excess of the security's carrying value over its fair value at the evaluation date is accounted for as a loss in the results of operations. The OTTI analysis requires management to consider various factors, which include, but are not limited to: (1) the length of time and the extent to which fair value has been less than the amortized cost basis, (2) the financial condition of the issuer or issuers, (3) actual collateral

attributes, (4) the payment structure of the debt security and the likelihood of the issuer being able to make payments, (5) any rating changes by a rating agency, (6) adverse conditions specifically related to the security, industry, or a geographic area, and (7) management's intent to sell the debt security or whether it is more likely than not that the Corporation would be required to sell the debt security before a forecasted recovery occurs.

During the second quarter of 2017, the Corporation recognized an other-than-temporary impairment charge of \$8.3 million on senior Puerto Rico Sales Tax Financing Corporation ( COFINA ) bonds classified as available-for-sale. On May 5, 2017, the federally-appointed Puerto Rico Management and Oversight Board filed, at the request of the Commonwealth, a petition pursuant to the Title III of PROMESA with respect to COFINA. On May 30, 2017, the U.S. District Court directed that funds held by the Bank of New York Mellon ( BONY ), as trustee for the COFINA bonds, be escrowed pending resolution of certain legal disputes. The withholding of COFINA funds ordered by the Court during June 2017 resulted in the first missed interest payment on COFINA bonds. As such, the Corporation determined the entire unrealized loss on these securities to be other-than-temporary.

At June 30, 2017, the Corporation did not have the intent to sell debt securities in an unrealized loss position and it was not more likely than not that the Corporation would have to sell the investments securities prior to recovery of their amortized cost basis. Notwithstanding the above, the Corporation sold all senior COFINA bonds held as available-for-sale in July 2017.

**Table of Contents**

During the second quarter of 2016, the Corporation recognized an other-than-temporary impairment charge of \$209 thousand on an investment security available-for-sale classified as obligations from the Puerto Rico government and its political subdivisions. The Corporation determined that the entire balance of the unrealized loss carried by this security was attributed to estimated credit losses. Accordingly, an other-than-temporary impairment was recognized in its entirety in the consolidated statement of operations and no amount remained recognized in the statement of other comprehensive income related to this specific security. The security, for which an other-than-temporary impairment was recorded, was sold during the fourth quarter of 2016.

The following table states the name of issuers, and the aggregate amortized cost and fair value of the securities of such issuer (includes available-for-sale and held-to-maturity securities), in which the aggregate amortized cost of such securities exceeds 10% of stockholders' equity. This information excludes securities backed by the full faith and credit of the U.S. Government. Investments in obligations issued by a state of the U.S. and its political subdivisions and agencies, which are payable and secured by the same source of revenue or taxing authority, other than the U.S. Government, are considered securities of a single issuer.

(In thousands)	June 30, 2017		December 31, 2016

Total other	2,000		42	1,958	2.05
Total investment securities held-to-maturity <sup>[1]</sup>	\$ 98,101	\$ 1,372	\$ 23,897	\$ 75,576	3.46%

[1] Includes \$53.1 million pledged to secure public and trust deposits that the secured parties are not permitted to sell or repledge the collateral.

Securities not due on a single contractual maturity date, such as collateralized mortgage obligations, are classified in the period of final contractual maturity. The expected maturities of collateralized mortgage obligations and certain other securities may differ from their contractual maturities because they may be subject to prepayments or may be called by the issuer.

The following tables present the Corporation's fair value and gross unrealized losses of investment securities held-to-maturity, aggregated by investment category and length of time that individual securities have been in a continuous unrealized loss position, at June 30, 2017 and December 31, 2016.

As indicated in Note 5 to these Consolidated Financial Statements, management evaluates investment securities for OTTI declines in fair value on a quarterly basis.

The Obligations of Puerto Rico, States and political subdivisions classified as held-to-maturity at June 30, 2017 are primarily associated with securities issued by municipalities of Puerto Rico and are generally not rated by a credit rating agency. This includes \$51 million of general and special obligation bonds issued by three municipalities of Puerto Rico, which are payable primarily from, and have a lien on, certain property taxes imposed by the issuing municipality. In the case of general obligations, they also benefit from a pledge of the full faith, credit and unlimited taxing power of the issuing municipality and issuing municipalities are required by law to levy property taxes in an amount sufficient for the payment of debt service on such general obligations bonds.

The portfolio also includes approximately \$43 million in securities for which the underlying source of payment is not the central government, but in which a government instrumentality provides a guarantee in the event of default. The Corporation performs periodic credit quality reviews on these issuers. Based on the quarterly analysis performed, management concluded that no individual debt security held-to-maturity was other-than-temporarily impaired at June 30, 2017. Further deterioration of the fiscal crisis of the Government of Puerto Rico could further affect the value of these securities, resulting in losses to the Corporation. The Corporation does not have the intent to sell securities held-to-maturity and it is more likely than not that the Corporation will not have to sell these investment securities prior to recovery of their amortized cost basis.

Refer to Note 21 for additional information on the Corporation's exposure to the Puerto Rico Government.

---

**Table of Contents****Note 7 Loans**

Loans acquired in the Westernbank FDIC-assisted transaction, except for lines of credit with revolving privileges, are accounted for by the Corporation in accordance with ASC Subtopic 310-30. Under ASC Subtopic 310-30, the acquired loans were aggregated into pools based on similar characteristics. Each loan pool is accounted for as a single asset with a single composite interest rate and an aggregate expectation of cash flows. The loans which are accounted for under ASC Subtopic 310-30 by the Corporation are not considered non-performing and will continue to have an accretable yield as long as there is a reasonable expectation about the timing and amount of cash flows expected to be collected. The Corporation measures additional losses for this portfolio when it is probable the Corporation will be unable to collect all cash flows expected at acquisition plus additional cash flows expected to be collected arising from changes in estimates after acquisition. Lines of credit with revolving privileges that were acquired as part of the Westernbank FDIC-assisted transaction are accounted for under the guidance of ASC Subtopic 310-20, which requires that any differences between the contractually required loan payment receivable in excess of the Corporation's initial investment in the loans be accreted into interest income. Loans accounted for under ASC Subtopic 310-20 are placed in non-accrual status when past due in accordance with the Corporation's non-accruing policy and any accretion of discount is discontinued.

The risks on loans acquired in the FDIC-assisted transaction are significantly different from the risks on loans not covered under the FDIC loss sharing agreements because of the loss protection provided by the FDIC. Accordingly, the Corporation presents loans subject to the loss sharing agreements as covered loans in the information below and loans that are not subject to the FDIC loss sharing agreements as non-covered loans. The FDIC loss sharing agreements expired on June 30, 2015 for commercial (including construction) and consumer loans, and expires on June 30, 2020 for single-family residential mortgage loans, as explained in Note 9.

For a summary of the accounting policies related to loans, interest recognition and allowance for loan losses refer to Note 2 Summary of significant accounting policies of the 2016 Form 10-K.

During the quarter and six months ended June 30, 2017, the Corporation recorded purchases (including repurchases) of mortgage loans amounting to \$124 million and \$260 million, respectively; consumer loans of \$108 million and \$150 million, respectively; and leases of \$2 million, for the six months ended June 30, 2017. During the quarter and six months ended June 30, 2016, the Corporation recorded purchases (including repurchases) of mortgage loans amounting to \$118 million and \$240 million, respectively; consumer loans of \$58 million and \$164 million, respectively; and commercial loans of \$51 million during the six months ended June 30, 2016.

The Corporation performed whole-loan sales involving approximately \$26 million and \$54 million of residential mortgage loans during the quarter and six months ended June 30, 2017, respectively (June 30, 2016 \$19 million and \$40 million, respectively). Excluding the bulk sale of Westernbank loans with a carrying value of approximately \$100 million, the Corporation sold commercial and construction loans with a carrying value of approximately \$1 million during the six months ended June 30, 2016. Also, the Corporation securitized approximately \$136 million and \$283 million of mortgage loans into Government National Mortgage Association (GNMA) mortgage-backed securities during the quarter and six months ended June 30, 2017, respectively (June 30, 2016 \$170 million and \$304 million, respectively). Furthermore, the Corporation securitized approximately \$37 million and \$65 million of mortgage loans into Federal National Mortgage Association (FNMA) mortgage-backed securities during the quarter and six months ended June 30, 2017, respectively (June 30, 2016 - \$43 million and \$79 million, respectively).

*Non-covered loans*

The following table presents the composition of non-covered loans held-in-portfolio ( HIP ), net of unearned income, by past due status at June 30, 2017 and December 31, 2016, including loans previously covered by the commercial FDIC loss sharing agreements.

- [1] Non-covered loans held-in-portfolio are net of \$121 million in unearned income and exclude \$89 million in loans held-for-sale.
- [2] Includes \$7.3 billion pledged to secure credit facilities and public funds that the secured parties are not permitted to sell or repledge the collateral, of which \$4.5 billion were pledged at the FHLB as collateral for borrowings, \$2.3 billion at the FRB for discount window borrowings and \$0.5 billion serve as collateral for public funds.
- [3] The legacy portfolio is comprised of commercial loans, construction loans and lease financings related to certain lending products exited by the Corporation as part of restructuring efforts carried out in prior years at the BPNA segment.

The following tables present non-covered loans held-in-portfolio by loan class that are in non-performing status or are accruing interest but are past due 90 days or more at June 30, 2017 and December 31, 2016. Accruing loans past due 90 days or more consist primarily of credit cards, Federal Housing Administration ( FHA ) / U.S. Department of Veterans Affairs ( VA ) and other insured mortgage loans, and delinquent mortgage loans which are included in the Corporation's financial statements pursuant to GNMA's buy-back option program. Servicers of loans underlying GNMA mortgage-backed securities must report as their own assets the defaulted loans that they have the option (but not the obligation) to repurchase, even when they elect not to exercise that option.

[1] Non-covered loans of \$179 million accounted for under ASC Subtopic 310-30 are excluded from the above table as they are considered to be performing due to the application of the accretion method, in which these loans will accrete interest income over the remaining life of the loans using estimated cash flow analysis.

[2] For purposes of this table non-performing loans exclude non-performing loans held-for-sale.

[3] It is the Corporation's policy to report delinquent residential mortgage loans insured by FHA or guaranteed by the VA as accruing loans past due 90 days or more as opposed to non-performing since the principal repayment is insured. These balances include \$160 million of residential mortgage loans in Puerto Rico insured by FHA or guaranteed by the VA that are no longer accruing interest as of June 30, 2017. Furthermore, the Corporation has approximately \$57 million in reverse mortgage loans in Puerto Rico which are guaranteed by FHA, but which are currently not accruing interest. Due to the guaranteed nature of the loans, it is the Corporation's policy to exclude these balances from non-performing assets.

[1] Covered loans accounted for under ASC Subtopic 310-30 are excluded from the above table as they are considered to be performing due to the application of the accretion method, in which these loans will accrete interest income over the remaining life of the loans using estimated cash flow analyses.

The Corporation accounts for lines of credit with revolving privileges under the accounting guidance of ASC Subtopic 310-20, which requires that any differences between the contractually required loans payment receivable in excess of the initial investment in the loans be accreted into interest income over the life of the loans, if the loan is accruing interest. Covered loans accounted for under ASC Subtopic 310-20 amounted to \$10 million at June 30, 2017 (December 31, 2016 \$10 million).

*Loans acquired with deteriorated credit quality accounted for under ASC 310-30*

The following provides information of loans acquired with evidence of credit deterioration as of the acquisition date, accounted for under the guidance of ASC 310-30.

*Loans acquired from Westernbank as part of an FDIC-assisted transaction*

The carrying amount of the Westernbank loans consisted of loans determined to be impaired at the time of acquisition, which are accounted for in accordance with ASC Subtopic 310-30 ( credit impaired loans ), and loans that were considered to be performing at the acquisition date, accounted for by analogy to ASC Subtopic 310-30 ( non-credit impaired loans ), as detailed in the following table.

**Table of Contents**

(In thousands)	June 30, 2017 Carrying amount			December 31, 2016 Carrying amount		
	Non-credit impaired loans	Credit impaired loans	Total	Non-credit impaired loans	Credit impaired loans	Total

Mortgage	555,771	22,822	578,593	587,949	25,781	613,730
Consumer	17,707	835	18,542	18,775	1,059	19,834
Carrying amount [1]	1,579,196	38,591	1,617,787	1,695,381	42,948	1,738,329
Allowance for loan losses	(59,165)	(6,509)	(65,674)	(61,855)	(7,022)	(68,877)
Carrying amount, net of allowance	\$ 1,520,031	\$ 32,082	\$ 1,552,113	\$ 1,633,526	\$ 35,926	\$ 1,669,452

[1] The carrying amount of loans acquired from Westernbank and accounted for under ASC 310-30 which remains subject to the loss sharing agreement with the FDIC amounted to approximately \$526 million as of June 30, 2017 and \$563 million as of December 31, 2016.

The outstanding principal balance of Westernbank loans accounted pursuant to ASC Subtopic 310-30, amounted to \$2.0 billion at June 30, 2017 (December 31, 2016 - \$2.1 billion). At June 30, 2017, none of the acquired loans from the Westernbank FDIC-assisted transaction accounted for under ASC Subtopic 310-30 were considered non-performing loans. Therefore, interest income, through accretion of the difference between the carrying amount of the loans and the expected cash flows, was recognized on all acquired loans.

Changes in the carrying amount and the accretable yield for the Westernbank loans accounted pursuant to the ASC Subtopic 310-30, for the quarters and six months ended June 30, 2017 and 2016, were as follows:

**Table of Contents**

**Note 8 Allowance for loan losses**

The Corporation follows a systematic methodology to establish and evaluate the adequacy of the allowance for loan losses to provide for inherent losses in the loan portfolio. This methodology includes the consideration of factors such as current economic conditions, portfolio risk characteristics, prior loss experience and results of periodic credit reviews of individual loans. The provision for loan losses charged to current operations is based on this methodology. Loan losses are charged and recoveries are credited to the allowance for loan losses.

The Corporation's assessment of the allowance for loan losses is determined in accordance with the guidance of loss contingencies in ASC Subtopic 450-20 and loan impairment guidance in ASC Section 310-10-35. Also, the Corporation determines the allowance for loan losses on purchased impaired loans and purchased loans accounted for under ASC Subtopic 310-30, by evaluating decreases in expected cash flows after the acquisition date.

The accounting guidance provides for the recognition of a loss allowance for groups of homogeneous loans. The determination for general reserves of the allowance for loan losses includes the following principal factors:

Base net loss rates, which are based on the moving average of annualized net loss rates computed over a 5-year historical loss period for the commercial and construction loan portfolios, and an 18-month period for the consumer and mortgage loan portfolios. The base net loss rates are applied by loan type and by legal entity.

Recent loss trend adjustment, which replaces the base loss rate with a 12-month average loss rate, when these trends are higher than the respective base loss rates. The objective of this adjustment is to allow for a more recent loss trend to be captured and reflected in the ALLL estimation process.

For the period ended June 30, 2017, 39% (June 30, 2016 51%) of the ALLL for non-covered BPPR segment loan portfolios utilized the recent loss trend adjustment instead of the base loss. The effect of replacing the base loss with the recent loss trend adjustment was mainly concentrated in the personal, other consumer and commercial and industrial portfolios for 2017 and in the other consumer, mortgage, commercial multi-family and commercial and industrial loan portfolios for 2016.

For the period ended June 30, 2017, 2% (June 30, 2016 1%) of our BPNA segment loan portfolios utilized the recent loss trend adjustment instead of the base loss. The effect of replacing the base loss with the recent loss trend adjustment was concentrated in the commercial multifamily loan and legacy portfolios for 2017 and in the consumer loan portfolio for 2016.

Environmental factors, which include credit and macroeconomic indicators such as unemployment rate, economic activity index and delinquency rates, adopted to account for current market conditions that are likely to cause estimated credit losses to differ from historical losses. The Corporation reflects the effect of these environmental factors on each loan group as an adjustment that, as appropriate, increases the historical loss rate applied to each group. Environmental factors provide updated perspective on credit and economic conditions. Regression analysis is used to select these indicators and quantify the effect on the general reserve of the allowance for loan losses.

The following tables present the changes in the allowance for loan losses, loan ending balances and whether such loans and the allowance pertain to loans individually or collectively evaluated for impairment for the quarters and six months ended June 30, 2017 and 2016.

## Modifications

Troubled debt restructurings related to non-covered loan portfolios amounted to \$ 1.3 billion at June 30, 2017 (December 31, 2016 - \$ 1.2 billion). The amount of outstanding commitments to lend additional funds to debtors owing receivables whose terms have been modified in troubled debt restructurings amounted \$9 million related to the commercial loan portfolio at June 30, 2017 (December 31, 2016 - \$8 million).

## Edgar Filing: POPULAR INC - Form 10-Q

At June 30, 2017, the mortgage loan TDRs include \$430 million guaranteed by U.S. sponsored entities at BPPR, compared to \$407 million at December 31, 2016.

A modification of a loan constitutes a troubled debt restructuring ( TDR ) when a borrower is experiencing financial difficulty and the modification constitutes a concession. For a summary of the accounting policy related to TDRs, refer to the summary of significant accounting policies included in Note 2 of the 2016 Form 10-K.

The following tables present the non-covered and covered loans classified as TDRs according to their accruing status and the related allowance at June 30, 2017 and December 31, 2016.

During the six months ended June 30, 2017, two loans with an aggregate unpaid principal balance of \$766 thousand, were restructured into multiple notes ( Note A / B split ). The Corporation recorded \$239 thousand charge-offs as part of those loan restructurings during the quarter ended June 30, 2017. The restructuring of those loans was made after analyzing the borrowers' capacity to repay the debt, collateral and ability to perform under the modified terms. The recorded investment on those commercial TDRs amounted to approximately \$527 thousand at June 30, 2017 with a related allowance for loan losses amounting to approximately \$96 thousand.

The following tables present by class, TDRs that were subject to payment default and that had been modified as a TDR during the twelve months preceding the default date. Payment default is defined as a restructured loan becoming 90 days past due after being modified, foreclosed or charged-off, whichever occurs first. The recorded investment at June 30, 2017 is inclusive of all partial paydowns and charge-offs since the modification date. Loans modified as a TDR that were fully paid down, charged-off or foreclosed upon by period end are not reported.

Commercial, consumer and mortgage loans modified in a TDR are closely monitored for delinquency as an early indicator of possible future default. If loans modified in a TDR subsequently default, the Corporation evaluates the loan for possible further impairment. The allowance for loan losses may be increased or partial charge-offs may be taken to further write-down the carrying value of the loan.

*Credit Quality*

Edgar Filing: POPULAR INC - Form 10-Q

The following table presents the outstanding balance, net of unearned income, of non-covered loans held-in-portfolio based on the Corporation's assignment of obligor risk ratings as defined at June 30, 2017 and December 31, 2016.

[1] Excludes covered loans acquired in the Westernbank FDIC-assisted transaction.

**Table of Contents****Note 9 FDIC loss-share asset and true-up payment obligation**

In connection with the Westernbank FDIC-assisted transaction, BPPR entered into loss-share arrangements with the FDIC with respect to the covered loans and other real estate owned. Pursuant to the terms of the loss-share arrangements, the FDIC's obligation to reimburse BPPR for losses with respect to covered assets begins with the first dollar of loss incurred. The FDIC reimburses BPPR for 80% of losses with respect to covered assets, and BPPR reimburses the FDIC for 80% of recoveries with respect to losses for which the FDIC paid reimbursement under loss-share arrangements. The loss-share agreement applicable to single-family residential mortgage loans provides for FDIC loss and recoveries sharing for ten years expiring at the end of the quarter ending June 30, 2020.

The following table sets forth the activity in the FDIC loss-share asset for the periods presented.

(In thousands)	Quarters ended June 30,		Six months ended June 30,	
	2017	2016	2017	2016
Balance at beginning of period	\$ 64,077	\$ 219,448	\$ 69,334	\$ 310,221
Accretion (amortization)	147	(4,036)	(629)	(8,078)
Credit impairment losses (reversal) to be covered under loss-sharing agreements	2,126	475	2,274	(1,618)
Reimbursable expenses	723	2,235	1,644	6,185
Net payments from FDIC under loss-sharing agreements	(14,003)		(14,003)	(88,588)
Other adjustments attributable to FDIC loss-sharing agreements			(5,550)	
Balance at end of period	\$ 53,070	\$ 218,122	\$ 53,070	\$ 218,122
Balance due to the FDIC for recoveries on covered assets [1]	(487)	(4,093)	(487)	(4,093)
Balance at end of period	\$ 52,583	\$ 214,029	\$ 52,583	\$ 214,029

[1] Balance due to the FDIC for recoveries on covered assets for the quarter and six months ended June 30, 2016 amounting to \$ 4.1 million was included in other liabilities in the accompanying Consolidated Statement of Condition (December 31, 2016 - \$27.6 million).

The loss-share component of the arrangements applicable to commercial (including construction) and consumer loans expired during the quarter ended June 30, 2015. The agreement provides for reimbursement of recoveries to the FDIC to continue through the quarter ending June 30, 2018, and for the single family mortgage loss-share component of such agreement to expire on April 30, 2020.

The weighted average life of the single family loan portfolio accounted for under ASC 310-30 subject to the FDIC loss-sharing agreement at June 30, 2017 is 7.3 years.

As part of the loss-share agreements, BPPR has agreed to make a true-up payment to the FDIC on the date that is 45 days following the last day (such day, the true-up measurement date ) of the final shared-loss month, or upon the final disposition of all covered assets under the loss-share agreements, in the event losses on the loss-share agreements fail to reach expected levels. The estimated fair value of such true-up payment obligation is recorded as contingent consideration, which is included in the caption of other liabilities in the consolidated statements of financial condition. Under the loss sharing agreements, BPPR will pay to the FDIC 50% of the excess, if any, of: (i) 20% of the intrinsic loss estimate of \$4.6 billion (or \$925 million) (as determined by the FDIC) less (ii) the sum of: (A) 25% of the asset discount (per bid) (or (\$1.1 billion)); plus (B) 25% of the cumulative shared-loss payments (defined as the aggregate of all of the payments made or payable to BPPR minus the aggregate of all of the payments made or payable to the FDIC); plus (C) the sum of the period servicing amounts for every consecutive twelve-month period prior to and ending on the true-up measurement date in respect of each of the loss-sharing agreements during which the loss-sharing provisions of the applicable loss-sharing agreement is in effect (defined as the product of the simple average of the principal amount of shared- loss loans and shared-loss assets at the beginning and end of such period times 1%).

Of the four components used to estimate the true-up payment obligation (intrinsic loss estimate, asset discount, cumulative shared-loss payments, and period servicing amounts) only the cumulative shared-loss payments and the period servicing amounts will change on a quarterly basis. These two variables are the main drivers of changes in the undiscounted true-up payment obligation. In order to estimate the true-up obligation, actual and expected portfolio performance for loans under both the commercial and residential loss sharing agreement are contemplated. The cumulative shared loss payments and cumulative servicing amounts are derived from our quarterly loss reassessment process for covered loans accounted for under ASC 310-30.

**Table of Contents**

Once the undiscounted true-up payment obligation is determined, the fair value is estimated based on the contractual remaining term to settle the obligation and a discount rate that is composed of the sum of the interpolated U.S. Treasury Note ( T Note ), defined by the remaining term of the true-up payment obligation, and a risk premium determined by the spread of the Corporation's outstanding senior unsecured debt over the equivalent T Note.

The following table provides the fair value and the undiscounted amount of the true-up payment obligation at June 30, 2017 and December 31, 2016.

(In thousands)	June 30, 2017	December 31, 2016
Carrying amount (fair value)	\$ 163,668	\$ 153,158
Undiscounted amount	\$ 188,512	\$ 188,258

The increase in the fair value of the true-up payment obligation was principally driven by a decrease in the discount rate from 5.97% in 2016 to 4.72% in 2017 due to a lower risk premium. The estimated fair value of the true-up payment obligation corresponds to the difference between the initial estimated losses to be reimbursed by the FDIC and the revised estimate of reimbursable losses. As the amount of estimated reimbursable losses decreases, the value of the true-up payment obligation increases.

As described above, the estimate of the true-up payment obligation is determined by applying the provisions of the loss sharing agreements and will change on a quarterly basis. The amount of the estimate of the true-up payment obligation is expected to change in future periods and may be subject to the interpretation of provisions of the loss sharing agreements.

The loss-share agreements contain specific terms and conditions regarding the management of the covered assets that BPPR must follow in order to receive reimbursement on losses from the FDIC. Under the loss-share agreements, BPPR must:

manage and administer the covered assets and collect and effect charge-offs and recoveries with respect to such covered assets in a manner consistent with its usual and prudent business and banking practices and, with respect to single family shared-loss loans, the procedures (including collection procedures) customarily employed by BPPR in servicing and administering mortgage loans for its own account and the servicing procedures established by FNMA or the Federal Home Loan Mortgage Corporation ( FHLMC ), as in effect from time to time, and in accordance with accepted mortgage servicing practices of prudent lending institutions;

exercise its best judgment in managing, administering and collecting amounts on covered assets and effecting charge-offs with respect to the covered assets;

use commercially reasonable efforts to maximize recoveries with respect to losses on single family shared-loss assets and best efforts to maximize collections with respect to commercial shared-loss assets;

retain sufficient staff to perform the duties under the loss-share agreements;

adopt and implement accounting, reporting, record-keeping and similar systems with respect to the commercial shared-loss assets;

comply with the terms of the modification guidelines approved by the FDIC or another federal agency for any single-family shared-loss loan;

provide notice with respect to proposed transactions pursuant to which a third party or affiliate will manage, administer or collect any commercial shared-loss assets;

file monthly and quarterly certificates with the FDIC specifying the amount of losses, charge-offs and recoveries; and

maintain books and records sufficient to ensure and document compliance with the terms of the loss-share agreements.

**Table of Contents****Note 10 Mortgage banking activities**

Income from mortgage banking activities includes mortgage servicing fees earned in connection with administering residential mortgage loans and valuation adjustments on mortgage servicing rights. It also includes gain on sales and securitizations of residential mortgage loans and trading gains and losses on derivative contracts used to hedge the Corporation's securitization activities. In addition, lower-of-cost-or-market valuation adjustments to residential mortgage loans held for sale, if any, are recorded as part of the mortgage banking activities.

The following table presents the components of mortgage banking activities:

(In thousands)	Quarters ended		Six months ended	
	June 30, 2017	June 30, 2016	June 30, 2017	June 30, 2016
Mortgage servicing fees, net of fair value adjustments:				
Mortgage servicing fees	\$ 13,021	\$ 14,675	\$ 26,473	\$ 29,477
Mortgage servicing rights fair value adjustments	(8,046)	(4,340)	(14,000)	(12,817)
Total mortgage servicing fees, net of fair value adjustments	4,975	10,335	12,473	16,660
Net gain on sale of loans, including valuation on loans held-for-sale	7,250	8,474	12,631	15,584
Trading account loss:				
Unrealized gains (losses) on outstanding derivative positions	83	(59)	43	(139)
Realized losses on closed derivative positions	(1,567)	(2,523)	(3,037)	(5,327)
Total trading account loss	(1,484)	(2,582)	(2,994)	(5,466)
Total mortgage banking activities	\$ 10,741	\$ 16,227	\$ 22,110	\$ 26,778

**Table of Contents****Note 11 Transfers of financial assets and mortgage servicing assets**

The Corporation typically transfers conforming residential mortgage loans in conjunction with GNMA and FNMA securitization transactions whereby the loans are exchanged for cash or securities and servicing rights. As seller, the Corporation has made certain representations and warranties with respect to the originally transferred loans and, in the past, has sold certain loans with credit recourse to a government-sponsored entity, namely FNMA. Refer to Note 20 to the consolidated financial statements for a description of such arrangements.

No liabilities were incurred as a result of these securitizations during the quarters and six months ended June 30, 2017 and 2016 because they did not contain any credit recourse arrangements. During the quarter ended June 30, 2017, the Corporation recorded a net gain of \$6.1 million (June 30, 2016 \$7.8 million) related to the residential mortgage loans securitized. During the six months ended June 30, 2017, the Corporation recorded a net gain of \$11.1 million (June 30, 2016 \$14.2 million) related to the residential mortgage loans securitized.

The following tables present the initial fair value of the assets obtained as proceeds from residential mortgage loans securitized during the quarters and six months ended June 30, 2017 and 2016:

During the six months ended June 30, 2017, the Corporation retained servicing rights on whole loan sales involving approximately \$42 million in principal balance outstanding (June 30, 2016 \$34 million), with realized gains of approximately \$1.5 million (June 30, 2016 gains of \$1.4 million). All loan sales performed during the six months ended June 30, 2017 and 2016 were without credit recourse agreements.

The Corporation recognizes as assets the rights to service loans for others, whether these rights are purchased or result from asset transfers such as sales and securitizations. These mortgage servicing rights (MSRs) are measured at fair value.

The Corporation uses a discounted cash flow model to estimate the fair value of MSRs. The discounted cash flow model incorporates assumptions that market participants would use in estimating future net servicing income, including estimates of prepayment speeds, discount rate, cost to service, escrow account earnings, contractual servicing fee income, prepayment and late fees, among other considerations. Prepayment speeds are adjusted for the

Corporation's loan characteristics and portfolio behavior.

The following table presents the changes in MSRs measured using the fair value method for the six months ended June 30, 2017 and 2016.

	Residential MSRs	
(In thousands)	June 30, 2017	June 30, 2016
Fair value at beginning of period	\$ 196,889	\$ 211,405
Additions	5,839	4,989
Changes due to payments on loans <sup>[1]</sup>	(9,276)	(8,850)
Reduction due to loan repurchases	(1,102)	(734)
Changes in fair value due to changes in valuation model inputs or assumptions	(3,622)	(3,233)
Fair value at end of period	\$ 188,728	\$ 203,577

[1] Represents the change due to collection / realization of expected cash flow over time.

Residential mortgage loans serviced for others were \$17.4 billion at June 30, 2017 (December 31, 2016 - \$18.0 billion).

**Table of Contents**

Net mortgage servicing fees, a component of mortgage banking activities in the consolidated statements of operations, include the changes from period to period in the fair value of the MSR's, including changes due to collection / realization of expected cash flows. The banking subsidiaries receive servicing fees based on a percentage of the outstanding loan balance. At June 30, 2017, those weighted average mortgage servicing fees were 0.30% (June 30, 2016 0.29%). Under these servicing agreements, the banking subsidiaries do not generally earn significant prepayment penalty fees on the underlying loans serviced.

The section below includes information on assumptions used in the valuation model of the MSR's, originated and purchased.

Key economic assumptions used in measuring the servicing rights derived from loans securitized or sold by the Corporation during the quarters and six months ended June 30, 2017 and 2016 were as follows:

	Quarters ended		Six months ended	
	June 30, 2017	June 30, 2016	June 30, 2017	June 30, 2016
Prepayment speed	4.4%	5.7%	4.0%	5.5%
Weighted average life	10.9 years	9.7 years	11.1 years	9.9 years
Discount rate (annual rate)	11.0%	11.0%	11.0%	11.0%

Key economic assumptions used to estimate the fair value of MSR's derived from sales and securitizations of mortgage loans performed by the banking subsidiaries and servicing rights purchased from other financial institutions, and the sensitivity to immediate changes in those assumptions, were as follows as of the end of the periods reported:

(In thousands)	Originated MSR's		Purchased MSR's	
	June 30, 2017	December 31, 2016	June 30, 2017	December 31, 2016
Fair value of servicing rights	\$ 82,334	\$ 88,056	\$ 106,394	\$ 108,833
Weighted average life (in years)	7.5	7.8	6.6	6.9
Weighted average prepayment speed (annual rate)	5.0%	4.6%	5.6%	4.8%
Impact on fair value of 10% adverse change	\$ (1,626)	\$ (1,668)	\$ (2,186)	\$ (2,051)
Impact on fair value of 20% adverse change	\$ (3,448)	\$ (3,590)	\$ (4,605)	\$ (4,400)
Weighted average discount rate (annual rate)	11.5%	11.5%	11.0%	11.0%
Impact on fair value of 10% adverse change	\$ (3,557)	\$ (3,851)	\$ (4,301)	\$ (4,369)
Impact on fair value of 20% adverse change	\$ (7,085)	\$ (7,699)	\$ (8,585)	\$ (8,778)

The sensitivity analyses presented in the tables above for servicing rights are hypothetical and should be used with caution. As the figures indicate, changes in fair value based on a 10 and 20 percent variation in assumptions generally cannot be extrapolated because the relationship of the change in assumption to the change in fair value may not be linear. Also, in the sensitivity tables included herein, the effect of a variation in a particular assumption on the fair

value of the retained interest is calculated without changing any other assumption. In reality, changes in one factor may result in changes in another (for example, increases in market interest rates may result in lower prepayments and increased credit losses), which might magnify or counteract the sensitivities.

At June 30, 2017, the Corporation serviced \$1.5 billion (December 31, 2016 \$1.7 billion) in residential mortgage loans with credit recourse to the Corporation.

Under the GNMA securitizations, the Corporation, as servicer, has the right to repurchase (but not the obligation), at its option and without GNMA's prior authorization, any loan that is collateral for a GNMA guaranteed mortgage-backed security when certain delinquency criteria are met. At the time that individual loans meet GNMA's specified delinquency criteria and are eligible for repurchase, the Corporation is deemed to have regained effective control over these loans if the Corporation was the pool issuer. At June 30, 2017, the Corporation had recorded \$48 million in mortgage loans on its Consolidated Statements of Financial Condition related to this buy-back option program (December 31, 2016 \$49 million). As long as the Corporation continues to service the loans that continue to be collateral in a GNMA guaranteed mortgage-backed security, the MSR is recognized by the Corporation. During the six months ended June 30, 2017, the Corporation repurchased approximately \$77 million (June 30, 2016 \$39 million) of mortgage loans under the GNMA buy-back option program. The determination to repurchase these loans was based on the economic benefits of the transaction, which results in a reduction of the servicing costs for these severely delinquent loans, mostly related to principal and interest advances. Furthermore, due to their guaranteed nature, the risk associated with the loans is minimal. The Corporation places these loans under its loss mitigation programs and once brought back to current status, these may be either retained in portfolio or re-sold in the secondary market.

**Table of Contents****Note 12 Other real estate owned**

The following tables present the activity related to Other Real Estate Owned ( OREO ), for the quarters and six months ended June 30, 2017 and 2016.

Other Intangible Assets

At June 30, 2017 and December 31, 2016, the Corporation had \$ 6.1 million of identifiable intangible assets, with indefinite useful lives, mostly associated with the E-LOAN trademark.

**Table of Contents**

The following table reflects the components of other intangible assets subject to amortization:

(In thousands)	Gross Carrying Amount	Accumulated Amortization	Net Carrying Value
<b>June 30, 2017</b>			
Core deposits	\$ 37,224	\$ 20,485	\$ 16,739
Other customer relationships	36,449	18,990	17,459
<b>Total other intangible assets</b>	<b>\$ 73,673</b>	<b>\$ 39,475</b>	<b>\$ 34,198</b>
<b>December 31, 2016</b>			
Core deposits	\$ 37,274	\$ 18,624	\$ 18,650
Other customer relationships	36,449	16,162	20,287
<b>Total other intangible assets</b>	<b>\$ 73,723</b>	<b>\$ 34,786</b>	<b>\$ 38,937</b>

During the quarter ended June 30, 2017, the Corporation recognized \$ 2.3 million in amortization expense related to other intangible assets with definite useful lives (June 30, 2016 - \$ 3.1 million). During the six months ended June 30, 2017, the Corporation recognized \$ 4.7 million in amortization related to other intangible assets with definite useful lives (June 30, 2016 - \$ 6.2 million).

The following table presents the estimated amortization of the intangible assets with definite useful lives for each of the following periods:

(In thousands)	
Remaining 2017	\$ 4,689
Year 2018	9,286
Year 2019	9,042
Year 2020	4,967
Year 2021	2,157
Year 2022	1,281
Later years	2,776

**Table of Contents****Note 15 Deposits**

Total interest bearing deposits as of the end of the periods presented consisted of:

(In thousands)	June 30, 2017	December 31, 2016
Savings accounts	\$ 7,946,021	\$ 7,793,533
NOW, money market and other interest bearing demand deposits	10,138,090	8,012,706
<b>Total savings, NOW, money market and other interest bearing demand deposits</b>	<b>18,084,111</b>	<b>15,806,239</b>
Certificates of deposit:		
Under \$100,000	3,542,057	3,570,956
\$100,000 and over	4,014,133	4,138,586
<b>Total certificates of deposit</b>	<b>7,556,190</b>	<b>7,709,542</b>
<b>Total interest bearing deposits</b>	<b>\$ 25,640,301</b>	<b>\$ 23,515,781</b>

A summary of certificates of deposit by maturity at June 30, 2017 follows:

(In thousands)	
2017	\$ 2,502,313
2018	1,890,798
2019	927,541
2020	1,073,764
2021	745,287
2022 and thereafter	416,487
<b>Total certificates of deposit</b>	<b>\$ 7,556,190</b>

At June 30, 2017, the Corporation had brokered deposits amounting to \$ 0.6 billion (December 31, 2016 - \$ 0.6 billion).

The aggregate amount of overdrafts in demand deposit accounts that were reclassified to loans was \$8 million at June 30, 2017 (December 31, 2016 - \$6 million).

**Table of Contents****Note 16 Borrowings**

The following table presents the composition of assets sold under agreements to repurchase at June 30, 2017 and December 31, 2016.

(In thousands)	June 30, 2017	December 31, 2016
Assets sold under agreements to repurchase	\$ 406,385	\$ 479,425
Total assets sold under agreements to repurchase	\$ 406,385	\$ 479,425

The following table presents information related to the Corporation's repurchase transactions accounted for as secured borrowings that are collateralized with investment securities available-for-sale, other assets held-for-trading purposes or which have been obtained under agreements to resell. It is the Corporation's policy to maintain effective control over assets sold under agreements to repurchase; accordingly, such securities continue to be carried on the consolidated statements of financial condition.

Total	\$ 406,385	\$ 479,425

Repurchase agreements in portfolio are generally short-term, often overnight. As such our risk is very limited. We manage the liquidity risks arising from secured funding by sourcing funding globally from a diverse group of counterparties, providing a range of securities collateral and pursuing longer durations, when appropriate.

The following table presents information related to the Corporation's other short-term borrowings for the periods ended June 30, 2017 and December 31, 2016.

(In thousands)	June 30, 2017	December 31, 2016
Others	\$ 1,200	\$ 1,200
Total other short-term borrowings	\$ 1,200	\$ 1,200

Note: Refer to the Corporation's 2016 Form 10-K for rates information at December 31, 2016.

**Table of Contents**

The following table presents the composition of notes payable at June 30, 2017 and December 31, 2016.

(In thousands)	June 30, 2017	December 31, 2016
Advances with the FHLB with maturities ranging from 2017 through 2029 paying interest at monthly fixed rates ranging from 0.81% to 4.19 %	\$ 598,930	\$ 608,193
Advances with the FHLB with maturities ranging from 2018 through 2019 paying interest monthly at a floating rate ranging from 0.22% to 0.34% over the 1 month LIBOR	34,164	34,164
Advances with the FHLB with maturities ranging from 2018 through 2019 paying interest quarterly at a floating rate from 0.09% to 0.24% over the 3 month LIBOR	25,019	30,313
Unsecured senior debt securities maturing on 2019 paying interest semiannually at a fixed rate of 7.00%, net of debt issuance costs of \$4,169 (2016 - \$5,212)	445,831	444,788
Junior subordinated deferrable interest debentures (related to trust preferred securities) with maturities ranging from 2027 to 2034 with fixed interest rates ranging from 6.125% to 8.327%, net of debt issuance costs of \$463 (2016 - \$476)	439,337	439,323
Others	17,553	18,071
<b>Total notes payable</b>	<b>\$ 1,560,834</b>	<b>\$ 1,574,852</b>

Note: Refer to the Corporation's 2016 Form 10-K for rates information at December 31, 2016.

A breakdown of borrowings by contractual maturities at June 30, 2017 is included in the table below.

(In thousands)	Assets sold under agreements to repurchase	Short-term borrowings	Notes payable	Total
<b>Year</b>				
2017	\$ 406,385	\$ 1,200	\$ 61,510	\$ 469,095
2018			220,183	220,183
2019			608,163	608,163
2020			112,163	112,163
2021			21,694	21,694
Later years			537,121	537,121

Edgar Filing: POPULAR INC - Form 10-Q

Total borrowings	\$	406,385	\$	1,200	\$	1,560,834	\$	1,968,419
------------------	----	---------	----	-------	----	-----------	----	-----------

At June 30, 2017 and December 31, 2016, the Corporation had FHLB borrowing facilities whereby the Corporation could borrow up to \$3.8 billion, of which \$658 million and \$673 million, respectively, were used. In addition, at June 30, 2017 and December 31, 2016, the Corporation had placed \$200 million of the available FHLB credit facility as collateral for a municipal letter of credit to secure deposits. The FHLB borrowing facilities are collateralized with loans held-in-portfolio, and do not have restrictive covenants or callable features.

Also, at June 30, 2017, the Corporation has a borrowing facility at the discount window of the Federal Reserve Bank of New York amounting to \$1.3 billion (2016 - \$1.2 billion), which remained unused at June 30, 2017 and December 31, 2016. The facility is a collateralized source of credit that is highly reliable even under difficult market conditions.

**Table of Contents****Note 17 Offsetting of financial assets and liabilities**
