

WisdomTree Trust
Form N-Q
August 28, 2017

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM N-Q

QUARTERLY SCHEDULE OF PORTFOLIO HOLDINGS OF REGISTERED

MANAGEMENT INVESTMENT COMPANY

Investment Company Act file number 811-21864

WisdomTree Trust

(Exact name of registrant as specified in charter)

245 Park Avenue, 35th Floor

New York, NY 10167

(Address of principal executive offices) (Zip code)

The Corporation Trust Company

1209 Orange Street

Wilmington, DE 19801

(Name and address of agent for service)

Registrant's telephone number, including area code: (866) 909-9473

Date of fiscal year end: March 31

Date of reporting period: June 30, 2017

Form N-Q is to be used by management investment companies, other than small business investment companies registered on Form N-5 (§§ 239.24 and 274.5 of this chapter), to file reports with the Commission, not later than 60 days after the close of the first and third fiscal quarters, pursuant to rule 30b1-5 under the Investment Company Act of 1940 (17 CFR 270.30b1-5). The Commission may use the information provided on Form N-Q in its regulatory, disclosure review, inspection, and policymaking roles.

A registrant is required to disclose the information specified by Form N-Q, and the Commission will make this information public. A registrant is not required to respond to the collection of information contained in Form N-Q unless the Form displays a currently valid Office of Management and Budget (OMB) control number. Please direct comments concerning the accuracy of the information collection burden estimate and any suggestions for reducing the burden to the Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549. The OMB has reviewed this collection of information under the clearance requirements of 44 U.S.C. § 3507.

Item 1. Schedule of Investments.

The Schedule(s) of Investments is attached herewith.

		\$ 5,371,034

* Non-income producing security.

Security is being fair valued by a valuation committee under the direction of the Board of Trustees. The aggregate value of fair valued securities is \$3,133, which represents 0.06% of net assets.

(a) Security, or portion thereof, was on loan at June 30, 2017 (See Note 2).

(b) This security is exempt from registration under rule 144A of the Securities Act of 1933. This security may be sold in transactions that are exempt from registration, normally to qualified institutional buyers.

(c) Rate shown represents annualized 7-day yield as of June 30, 2017.

(d) At June 30, 2017, the total market value of the Fund's securities on loan was \$5,876 and the total market value of the collateral held by the Fund was \$6,144. The total market value of the collateral includes non-cash U.S. Government securities collateral having a value of \$405.

ADR - American Depositary Receipt

GDR - Global Depositary Receipt

NVDR - Non-Voting Depositary Receipt

Reg S - Regulation S provides an exclusion from the registration requirements of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.

* Non-income producing security.

(a) Security, or portion thereof, was on loan at June 30, 2017 (See Note 2).

(b) This security is exempt from registration under rule 144A of the Securities Act of 1933. This security may be sold in transactions that are exempt from registration, normally to qualified institutional buyers.

(c) Rate shown represents annualized 7-day yield as of June 30, 2017.

(d) At June 30, 2017, the total market value of the Fund's securities on loan was \$1,194,869 and the total market value of the collateral held by the Fund was \$1,425,612. The total market value of the collateral includes non-cash U.S. Government securities collateral having a value of \$173,542. Total securities on loan may not correspond with the amounts identified in the Schedule of Investments because pending sales of securities on loan may be in the process of recall from the borrower.

ADR - American Depositary Receipt

GDR - Global Depositary Receipt

NVDR - Non-Voting Depositary Receipt

Reg S - Regulation S provides an exclusion from the registration requirements of the Securities Act of 1933. These securities may be resold in transactions exempt from registration, normally to qualified institutional buyers.

Notes to Schedule of Investments (unaudited)

1. ORGANIZATION

WisdomTree Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as an open-end management investment company. The Trust was established as a Delaware statutory trust on December 15, 2005. As of June 30, 2017, the Trust consisted of 89 operational investment funds (each a "Fund", collectively, the "Funds"). In accordance with Accounting Standards Update ("ASU") 2013-08, Financial Services-Investment Companies, each Fund listed below qualifies as an investment company and is applying the accounting and reporting guidance for investment companies. These notes relate only to the Funds listed in the table below:

Fund	Commencement of Operations

In the normal course of business, the Funds may enter into contracts that contain a variety of representations or that provide indemnification for certain liabilities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Funds have not had prior claims or losses pursuant to these contracts and believes such exposure to be remote.

2. SIGNIFICANT ACCOUNTING POLICIES

The Financial Accounting Standards Board (FASB) Accounting Standards Codification (the Codification) is the exclusive reference of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal laws are also sources of authoritative GAAP for SEC registrants.

The following is a summary of significant accounting policies followed by the Funds:

Basis of Consolidation - The consolidated schedule of investments of the India Earnings Fund includes investments of a wholly-owned and controlled subsidiary in the Republic of Mauritius. All intercompany transactions have been eliminated in consolidation.

Investment Valuation - The net asset value (NAV) of each Fund's shares is calculated each day a Fund is open for business as of the regularly scheduled close of regular trading on the New York Stock Exchange, normally 4:00 p.m. Eastern time (the NAV Calculation Time). NAV per share is calculated by dividing a Fund's net assets by the number of Fund shares outstanding. Each Fund issues and redeems shares at NAV only in large blocks of shares known as creation units, which only certain institutions or large investors may purchase or redeem. Shares of each Fund are listed on a national securities exchange and trade at market prices. Most investors will buy and sell shares in the secondary market through brokers. Because Fund shares trade at market prices rather than NAV, shares may trade at a price greater than NAV or less than NAV. In calculating each Fund's NAV, investments are valued under policies approved by the Board of Trustees of the Trust (the Board of Trustees). Equity securities (including preferred stock) traded on any recognized U.S. or non-U.S. exchange are valued at the last sale price or official closing price on the exchange or system on which they are principally traded. Unlisted equity securities (including preferred stock) are valued at the last quoted sale price or, if no sale price is available, at the mean between the highest bid and lowest ask price. Each Fund may invest in money market funds which are valued at their NAV per share and exchange-traded funds (ETFs or ETF) or exchange-traded notes (ETNs or ETN) which are valued at their last sale or official closing price on the exchange on which they are principally traded or at their NAV per share in instances where the ETF or ETN has not traded on its principal exchange. Foreign currency contracts are valued daily using WM/Reuters closing spot and forward rates as of 4:00 p.m. London time, except for the Global ex-U.S. Hedged Dividend Growth Fund and Global ex-U.S. Hedged Real Estate Fund, which values foreign currency contracts daily using WM/Reuters closing spot and forward rates as of 2:00 p.m. Singapore time. Fixed income securities (including short-term debt securities with remaining maturities of 60 days or less), if any, generally are valued at current market quotations or mean prices obtained from broker-dealers or independent pricing service providers. Broker-dealers or independent pricing service providers, in determining the value of securities may consider such factors as recent transactions, indications from broker-dealers yields and quoted prices on similar securities, and market sentiment for the type of security. Futures contracts generally are valued at the settlement price, the price at which a futures contract settles once a given trading day has ended, on the primary exchange on which they trade.

Edgar Filing: WisdomTree Trust - Form N-Q

In certain instances, such as when reliable market valuations are not readily available or are not deemed to reflect current market values, a Fund's investments, which include derivatives, will be fair valued in accordance with the Fund's pricing policy. The Board of Trustees has established a pricing committee (the Pricing Committee) which is comprised of senior representatives of WisdomTree Asset Management, Inc. (WTAM) and which reports to the Board of Trustees on a quarterly basis. In the event that a financial instrument cannot be valued based upon a price from a national securities exchange, independent pricing service provider or broker-dealer quotation, or such prices are deemed to not reflect current market value, the Pricing Committee may value the financial instrument in good faith under the policies and procedures approved by the Board of Trustees based on current facts and circumstances. Securities that may be valued using fair value pricing may include, but are not limited to, securities for which there are no current

Notes to Schedule of Investments (unaudited)(continued)

market quotations, securities whose issuer is in default or bankruptcy, securities subject to corporate actions (such as mergers or reorganizations), securities subject to non-U.S. investment limits or currency controls, and securities affected by significant events. An example of a significant event is an event occurring after the close of the market in which a security trades but before a Fund's next NAV Calculation Time that may materially affect the value of a Fund's investment (e.g., government action, natural disaster, or significant market fluctuation). When fair value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities.

Fair Value Measurement - In accordance with Codification Topic 820 (ASC 820), Fair Value Measurements and Disclosures, fair value is defined as the price that each Fund would receive upon selling an investment in an orderly transaction to an independent buyer in the principal or most advantageous market of the investment. ASC 820 established a three-tier hierarchy of inputs to be used when determining fair value measurements for disclosure purposes. Inputs refer broadly to the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk—for example, the risk inherent in a particular valuation technique used to measure fair value (such as a pricing model) and/or the risk inherent in the inputs to the valuation technique. Inputs may be observable or unobservable. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability. Observable inputs are based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions market participants would use in pricing the asset or liability. Unobservable inputs are based on the best information available in the circumstances. The three-tier hierarchy of inputs is summarized in the three broad levels listed below:

Level 1 quoted prices in active markets for identical securities

Level 2 other significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.)

Level 3 significant unobservable inputs (including each Fund's assumptions in determining the fair value of investments)

The inputs or methodology used for valuation are not necessarily an indication of the risk associated with investing in those investments.

Investments that use Level 2 or Level 3 inputs may include, but are not limited to: (i) an unlisted security related to corporate actions; (ii) a restricted security (e.g., one that may not be publicly sold without registration under the Securities Act of 1933, as amended); (iii) a security whose trading has been suspended or which has been de-listed from its primary trading exchange; (iv) a security that is thinly traded; (v) a security in default or bankruptcy proceedings for which there is no current market quotation or market activity; (vi) a security affected by currency controls or restrictions; and (vii) a security affected by a significant event (e.g., an event that occurs after the close of the markets on which the security is traded but before the time as of which a Fund's NAV is computed and that may materially affect the value of the Fund's investments).

The valuation techniques and significant inputs used in determining the fair market value measurements for Level 2 and Level 3 positions are as follows:

Financial instruments are generally valued by independent pricing service providers that use broker-dealer quotations, reported trades or valuation estimates from their internal pricing models. Depending on the type of financial instrument, the independent pricing service providers' internal pricing models may use inputs that are observable such as issuer details, interest rates, yield curves, prepayment speeds, credit risks/spreads, default rates and quoted prices for similar assets. Financial instruments that use similar valuation techniques and observable inputs as described above and have an appropriate level of market activity are categorized as Level 2 of the fair value hierarchy, otherwise a Level 3 fair value classification is appropriate. Over-the-counter financial derivative instruments derive their value from underlying asset prices, indices, reference rates, and other inputs or a combination of these factors. These instruments are normally valued on the basis of broker-dealer quotations or prices obtained from independent pricing service providers. Depending on the product and the terms of the transaction, the value of the financial derivative instruments can be estimated by an independent pricing service provider using a series of techniques including simulation pricing models. The pricing models use inputs that are observed from actively quoted markets such as issuer details, indices, credit risks/spreads, interest rates, yield curves, default and exchange rates. Derivative contracts that use valuation techniques and observable inputs as

Edgar Filing: WisdomTree Trust - Form N-Q

described above and have an appropriate level of market activity are categorized as Level 2 of the fair value hierarchy, otherwise a Level 3 fair value classification is appropriate.

Determination of a fair value by the Pricing Committee may include significant unobservable inputs and therefore would be reflected as a Level 3 of the fair value hierarchy. The Pricing Committee may employ a market-based valuation approach which may use, among other potential considerations, related or comparable securities, recent transactions, market multiples, and other relevant information to determine fair value. The Pricing Committee may also use an income-based valuation approach in which anticipated future cash flows of the financial instrument are discounted to calculate fair value. The Pricing Committee meets at least on a monthly basis to review and discuss the appropriateness of such fair values using more current information such as, recent security news, recent market transactions, updated corporate action information and/or other macro or security specific events. Also, when observable inputs become available, the Pricing Committee conducts back testing of the methodologies used to value Level 3 financial instruments to substantiate the unobservable inputs used to value those investments. Such back testing includes comparing Level 3 investment values to observable inputs such as exchange-traded prices, transaction prices, and/or vendor prices.

Edgar Filing: WisdomTree Trust - Form N-Q

Notes to Schedule of Investments (unaudited)(continued)

The following is a summary of the fair valuations according to the inputs used as of June 30, 2017 in valuing each Fund's assets:

* Please refer to Schedule of Investments for a breakdown of the valuation by industry type and/or country.

** Security is being fair valued by the Pricing Committee.

The Funds have elected to use the beginning of period method for transfers between fair value measurement levels.

During the period ended June 30, 2017, Emerging Markets ex-State-Owned Enterprises Fund transferred securities with a fair value of \$4,574 from Level 2 to Level 1 primarily due to the availability of a quoted price in an active market for identical investments.

During the period ended June 30, 2017, there were no significant transfers into or out of Level 3 of the fair value hierarchy.

Derivatives and Hedging Disclosure - Codification Topic 815 (ASC 815), Derivatives and Hedging, requires qualitative disclosures about objectives and strategies for using derivatives, quantitative disclosures about fair value amounts of gains and losses on derivative instruments, and disclosures about credit-risk-related contingent features in derivative agreements. The Funds have invested in derivatives, specifically foreign currency contracts during the period ended June 30, 2017 which are detailed in each Fund's Schedule of Investments. All of the derivative instruments disclosed and described herein are subject to risk. Risks may arise upon entering into foreign currency contracts from potential inability of a counterparty to meet the terms of their contracts and from unanticipated movements in the value of the foreign currencies relative to the U.S. dollar or each other. The Funds' derivative agreements contain credit-risk related contingent features which include, but are not limited to, a percentage decline in the Funds' NAV over a specified time period. If an event occurred at June 30, 2017 that triggered a contingent feature, the counterparty to the agreement may require the Funds to post additional collateral or terminate the derivative positions and demand payment. Any collateral posted with respect to the derivative positions would be used to offset or reduce the payment. The maximum exposure to derivatives agreements with credit-risk related contingent features would be the total value of derivatives in net liability positions for each Fund. At June 30, 2017, the Funds did not receive or post collateral with any counterparty for derivatives and no event occurred that triggered a credit-risk-related contingent feature.

During the period ended June 30, 2017, the volume of derivative activity (based on the average of month-end balances, except where footnoted) for each Fund was as follows:

Investment Transactions and Investment Income - Investment transactions are recorded as of the date that the securities are purchased or sold (trade date). Realized gains and losses on sales of portfolio securities are calculated using the identified-cost method. Dividend income is recognized on the ex-dividend date. Foreign dividend income, net of any foreign taxes withheld, is recorded on the ex-dividend date or as soon as practicable after the existence of a dividend declaration has been determined. Interest income including amortization of premiums and discounts, is accrued daily.

Foreign Currency Translation - The accounting records of the Funds are maintained in U.S. dollars. Foreign currencies, as well as investment securities and other assets and liabilities denominated in foreign currencies, are translated into U.S. dollars using exchange rates prevailing on the respective dates of such transactions that are deemed appropriate by WTAM.

Edgar Filing: WisdomTree Trust - Form N-Q

Currency Transactions - The Funds may enter into foreign currency forward and foreign currency futures contracts to facilitate local securities settlements or to protect against currency exposure. The Funds, other than the Currency Hedged Equity Funds, do not expect to engage in currency transactions for the purpose of hedging against declines in the value of a Fund's assets that are denominated in one or more foreign currencies. The Funds may not enter into such contracts for speculative purposes.

Forward Foreign Currency Contracts - A forward foreign currency contract ("Forward Contract") involves an obligation to purchase or sell a specific currency at a future date, which may be any fixed number of days from the date of the contract agreed upon by the parties, at a price set at the time of the contract. These contracts are principally traded in the inter-bank market conducted directly between currency traders (usually large, commercial banks) and their customers. A Forward Contract generally does not require an initial margin deposit and no commissions are charged at any stage for trades. However, if a Fund is in an unrealized loss position on a Forward Contract, it may be required to pledge collateral (or additional collateral) to the counterparty. If a Fund is in an unrealized gain position on a Forward Contract, it may receive collateral from the counterparty.

Risks may arise upon entering into Forward Contracts from the potential inability of counterparties to meet the terms of their contracts and from unanticipated movements in the value of foreign currencies relative to the U.S. dollar or each other.

Fluctuations in the value of open Forward Contracts are recorded for book purposes as unrealized gains or losses on Forward Contracts by the Funds. Realized gains and losses on Forward Contracts include net gains or losses recognized by the Funds on contracts which have matured or were sold.

Notes to Schedule of Investments (unaudited)(continued)

Securities Lending - Each Fund may lend portfolio securities to certain creditworthy borrowers, including the Funds' securities lending agent. It is the Funds' policy that, at origination, all loans are secured by collateral of at least 102% of the value of U.S. securities loaned and 105% of the value of foreign securities loaned. Collateral in the form of cash and/or high-grade debt obligations, equivalent to at least 100% of the market value of securities, is maintained at all times. The cash collateral can be invested in certain money market mutual funds which also have exposure to the fluctuations of the market. Each Fund receives compensation for lending its securities from interest or dividends earned on the cash or U.S. government securities held as collateral, net of fee rebates paid to the borrower plus reasonable administrative and custody fees. The dividend and interest income earned on the securities loaned is accounted for in the same manner as other dividend and interest income. The borrower pays to the Funds an amount equal to any dividends or interest received on loaned securities. Dividends received while a security is out on loan are not considered Qualified Dividend Income (QDI) under the specific criteria issued by the Internal Revenue Service and are subject to taxation at the shareholder's ordinary income tax rate instead of the lower long-term capital gains tax rate. Lending portfolio securities could result in a loss or delay in recovering each Fund's securities if the borrower defaults.

Short-Term Investments - Each Fund may invest a portion of its assets in high-quality money market instruments on an ongoing basis to provide liquidity or for other reasons. The instruments include short-term obligations issued by the U.S. government, its agencies, non-U.S. government agencies, negotiable certificates of deposit (CDs), fixed time deposits and bankers' acceptances of U.S. and foreign banks and similar institutions, commercial papers, repurchase agreements and money market funds. CDs are short-term negotiable obligations of commercial banks. Time deposits are non-negotiable deposits maintained in banking institutions for specified periods of time at stated interest rates. Banker's acceptances are time drafts drawn on commercial banks by borrowers, usually in connection with international transactions.

3. FEDERAL INCOME TAXES

At June 30, 2017, the cost of investments (including securities on loan) for Federal income tax purposes was as follows:

Fund	Tax Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation/ (Depreciation)
Asia Pacific ex-Japan Fund	\$ 39,866,119	\$ 6,352,206	\$ (3,719,463)	\$ 2,632,743

* No shares were held in this Fund by WTAM at the end of the period.

At June 30, 2017, approximately 18% of the International Quality Dividend Growth Fund's outstanding shares was held by an affiliated fund.

Item 2. Controls and Procedures.

- (a) The registrant's principal executive and principal financial officers, or persons performing similar functions, have concluded that the registrant's disclosure controls and procedures (as defined in Rule 30a-3(c) under the Investment Company Act of 1940, as amended (the "1940 Act") (17 CFR 270.30a-3(c))) are effective, as of a date within 90 days of the filing date of the report that includes the disclosure required by this paragraph, based on their evaluation of these controls and procedures required by Rule 30a-3(b) under the 1940 Act (17 CFR 270.30a-3(b)) and Rules 13a-15(b) or 15d-15(b) under the Securities Exchange Act of 1934, as amended (17 CFR 240.13a-15(b) or 240.15d-15(b)).

- (b) There were no changes in the registrant's internal control over financial reporting (as defined in Rule 30a-3(d) under the 1940 Act (17 CFR 270.30a-3(d))) that occurred during the registrant's last fiscal quarter that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 3. Exhibits.

Certifications pursuant to Rule 30a-2(a) under the 1940 Act and Section 302 of the Sarbanes-Oxley Act of 2002 are attached hereto.
