## **English Translation of Excerpts from Quarterly Securities Report Filed in Japan**

This document is an English translation of selected information included in the Quarterly Securities Report for the quarter ended December 31, 2017 filed by Mitsubishi UFJ Financial Group, Inc. ( MUFG or we ) with the Kanto Local Financial Bureau, the Ministry of Finance of Japan, on February 14, 2018 (the Quarterly Securities Report ). An English translation of certain information included in the Quarterly Securities Report was previously submitted in a report on Form 6-K dated February 2, 2018. Accordingly, this document should be read together with the previously submitted report.

The Quarterly Securities Report has been prepared and filed in Japan in accordance with applicable Japanese disclosure requirements as well as generally accepted accounting principles in Japan ( J-GAAP ). There are significant differences between J-GAAP and generally accepted accounting principles in the United States. In addition, the Quarterly Securities Report is intended to update prior disclosures filed by MUFG in Japan and discusses selected recent developments in the context of those prior disclosures. Accordingly, the Quarterly Securities Report may not contain all of the information that is important to you. For a more complete discussion of the background to information provided in the Quarterly Securities Report disclosure, please see our annual report on Form 20-F for the fiscal year ended March 31, 2017 and the other reports filed with or submitted to the U.S. Securities and Exchange Commission by MUFG.

### **Risks Relating to Our Business**

We describe below some major developments and changes to update our risk factor disclosure previously included in our annual securities report for the fiscal year ended March 31, 2017 filed in Japan on June 29, 2017. The updates below are not a complete update of the prior disclosure, but instead intended to explain only the significant developments and changes that we believe may have a material impact on the risks to our business and other risks. The discussion below contains forward-looking statements, which, unless specifically described otherwise, reflect our understanding as of the date of filing of the Quarterly Securities Report.

The numbering of the subheading of the risk disclosure below corresponds to the numbering of the subheading of the same risk disclosure in Risks Relating to Our Business in our most recent annual securities report filed in Japan.

#### **19. Risks of receiving potential claims or sanctions regarding inappropriate or illegal practices or other conduct from our customers or regulatory authorities**

We conduct our business subject to ongoing regulations and associated compliance risks (including the effects of changes in laws, regulations, policies and voluntary codes of practice in Japan and other markets where we operate). In the current regulatory environment, we are subject to various regulatory inquiries or investigations from time to time in connection with various aspects of our business and operations. Our compliance risk management systems and programs may not be fully effective in preventing all violations of laws, regulations and rules.

Our failure to comply with all applicable laws and regulations, including those relating to money laundering, financial crimes, and other inappropriate or illegal transactions, may lead to penalties, fines, public reprimands, damage to reputation, issuance of business improvement and other administrative orders, enforced suspension of operations or, in extreme cases, withdrawal of authorization to operate. These consequences may harm our reputation resulting in loss of customer or market confidence in us or otherwise in deterioration of our business environment, and may adversely affect our business and results of operations. Our ability to obtain regulatory approvals for future strategic initiatives may also be adversely affected.

In December 2012, BTMU agreed to make a payment to the Office of Foreign Assets Control of the U.S. Department of the Treasury, or OFAC, to settle potential civil liability for apparent violations of certain U.S. sanctions regulations from 2006 to 2007. In addition, in June 2013, BTMU entered into a consent agreement with the New York State Department of Financial Services, or NYDFS, to resolve issues relating to certain U.S. dollar payments that were routed through New York from 2002 to 2007. Under the terms of the agreement with NYDFS, BTMU agreed to make a civil monetary payment to NYDFS and retain an independent consultant to conduct a compliance review of the relevant controls and related matters in BTMU's current operations. In addition, in November 2014, BTMU entered into a consent agreement with NYDFS to resolve issues relating to instructions given to PricewaterhouseCoopers LLP, or PwC, and the disclosures made to NYDFS in connection with BTMU's 2007 and 2008 voluntary investigation of BTMU's U.S. dollar clearing activity toward countries under U.S. economic sanctions. BTMU had hired PwC to conduct a historical transaction review report in connection with that investigation. Under the terms of the agreement with NYDFS, BTMU made a payment of the stipulated amount to NYDFS, and agreed to take actions on persons involved in the matter at that time, relocate its U.S. BSA/AML and OFAC sanctions compliance programs to New York, and extend, if regarded as necessary by NYDFS, the period during which an independent consultant is responsible for assessing BTMU's internal controls regarding compliance with applicable laws and regulations related to U.S. economic sanctions. On November 9, 2017, BTMU entered into a Stipulation and Consent to the Issuance of a Consent Order with the U.S. Office of the Comptroller of the Currency, or OCC, under which BTMU agreed to the entry by the OCC of a Consent Order that includes remedial terms and conditions that are substantively the same as those included in the consent agreements that BTMU had reached with NYDFS in June 2013 and November 2014. This Consent Order, which the OCC executed, enables the OCC to supervise BTMU's plans to enhance its internal controls and compliance program relating to OFAC sanctions requirements. The Stipulation and Consent with the OCC followed MUFG's conversion of its U.S. Branches and Agencies of BTMU and MUTB, including its BTMU New York Branch, from state-licensed branches and agencies under the supervision of state regulatory agencies, including NYDFS, to federally licensed branches and agencies under the supervision of the OCC. BTMU is having continuing discussions on these and related issues with relevant regulators, and is undertaking necessary actions relating to these matters. In addition, BTMU is currently engaged in litigation with NYDFS with regard to the conversion of its New York Branch license. These developments or other similar events may result in additional regulatory actions against us or agreements to make significant settlement payments.

We have received requests and subpoenas for information from government agencies in some jurisdictions that are conducting investigations into past submissions made by panel members, including us, to the bodies that set various interbank benchmark rates as well as investigations into foreign exchange related practices of global financial institutions. We are cooperating with these investigations and have been conducting an internal investigation among other things. In connection with these matters, we and other panel members and global financial institutions have been named as defendants in a number of civil lawsuits, including putative class actions, in the United States. These developments or other similar events may expose us to significant adverse financial and other consequences.

**Additional Japanese GAAP Financial Information for the nine months ended December 31, 2017**

## 2. Additional Information

### I. Strategic investment in Danamon

The Bank of Tokyo-Mitsubishi UFJ, Ltd. ( BTMU ), a consolidated subsidiary of MUFG, entered into conditional share purchase agreements with Asia Financial (Indonesia) Pte. Ltd. ( AFI ) and other entities (together with AFI, the Sellers ) on December 26, 2017, to acquire their 73.8% equity interests in Indonesian bank PT Bank Danamon Indonesia, Tbk. ( Danamon ), subject to applicable regulatory approvals.

### II. Objectives of the transaction

BTMU intends to establish an integrated and comprehensive services platform that serves as a gateway for clients wishing to make inroads into Indonesia's burgeoning economy as well as local companies keen on expanding into the region. This investment is also expected to strategically allow BTMU to benefit from Danamon's foothold in the developing local retail and small and medium enterprises (SME) segments to deepen its banking franchise in Indonesia.

### III. Outline of proposed transaction

This strategic investment by BTMU will be executed through three steps (the Proposed Transaction ), and the completion of the Proposed Transaction will result in BTMU becoming the largest shareholder in Danamon and Danamon becoming a consolidated subsidiary of BTMU.

Step 1: On December 29, 2017, BTMU acquired an initial 19.9% equity interest in Danamon from the Sellers based on a price of IDR 8,323 (approximately ¥70) per share and at an investment amount of IDR 15,875 billion (approximately ¥133 billion). The price was based on a price book-value ratio of 2.0 calculated on the basis of Danamon's net assets as of September 30, 2017, with certain adjustments applied. AFI remained the majority shareholder in Danamon upon closing of Step 1. BTMU classifies the shares it holds in Danamon as available-for-sale securities.

Step 2: BTMU intends to seek regulatory approvals and other relevant approvals to acquire an additional 20.1% to increase its equity interest in Danamon to 40%. This step is expected to close between April and September of 2018, subject to receiving these approvals. The price for Danamon's shares in Step 2 will be based on a similar approach as Step 1.

Step 3: Upon completion of Step 2, BTMU intends to seek the necessary approvals to increase its equity interest in Danamon above 40%, and this will provide an opportunity for all other existing Danamon shareholders to either remain as shareholders or receive cash from BTMU. With the closing of Step 3, BTMU's final equity interest in Danamon is expected to be over 73.8%. The price for Danamon's shares in Step 3 will be based on a similar approach as Step 1.

**IV. Contingent liabilities  
(Litigation)**

In the ordinary course of business, MUFG is subject to various litigation and regulatory matters. In accordance with applicable accounting guidance, MUFG establishes a Reserve for Contingent Losses arising from litigation and regulatory matters when they are determined to be probable in their occurrences and the probable loss amount can be reasonably estimated. Based upon current knowledge and consultation with counsel, management believes the eventual outcome of such litigation and regulatory matters, where losses are probable and the probable loss amounts can be reasonably estimated, would not have a material adverse effect on the MUFG's financial position, results of operations or cash flows.

Management also believes the amount of loss that is reasonably possible, but not probable, from various litigation and regulatory matters is not material to MUFG's financial position, results of operations or cash flows.

Total	¥ 52,406,710	¥ 56,487,464	¥ 4,080,754

(Note 1) Available-for-sale securities (excluding certain securities whose fair value cannot be reliably determined) are subject to write-downs when their fair value significantly declines and it is determined as of the end of the reporting period that it is not probable that the value will recover to the acquisition cost. In such case, the fair value is recorded on the consolidated balance sheet and the difference between the fair value and the acquisition cost is recognized as losses for the reporting period.

Whether there is any significant decline in the fair value is determined for each category of issuers in accordance with the internal standards for self-assessment of asset quality as provided below:

(a) Bankrupt issuers, virtually bankrupt issuers and likely to become bankrupt issuers:

Fair value is lower than acquisition cost.

(b) Issuers requiring close watch:

Fair value has declined by 30% or more from acquisition cost.

(c) Normal issuers:

Fair value has declined by 50% or more from acquisition cost.

Bankrupt issuers means issuers who have entered into bankruptcy, special liquidation proceedings or similar legal proceedings or whose notes have been dishonored and suspended from processing through clearing houses. Virtually bankrupt issuers means issuers who are not legally or formally bankrupt but are regarded as substantially in a similar condition. Likely to become bankrupt issuers means issuers who are not yet legally or formally bankrupt but deemed to have a high possibility of becoming bankrupt. Issuers requiring close watch means issuers who are financially weak and are under close monitoring by our subsidiaries. Normal issuers means issuers other than those who are classified in the four categories mentioned above.

(Note 2) The total difference amount shown in the table above includes ¥142,157 million of revaluation gains on securities by application of the fair value hedge accounting method.
