MUFG Announces Early Tender Results of Debt Tender Offers

Japan, March 12, 2018 Mitsubishi UFJ Financial Group, Inc. (MUFG) announced today the early results of its previously announced partial cash tender offers for the debt securities listed below (the Notes). The tender offers are being made on the terms and subject to the conditions set forth in MUFG 's Offer to Purchase, dated February 26, 2018.

The principal amounts of the Notes listed in the table below were validly tendered and not validly withdrawn at or prior to 5:00 p.m., New York City time, on March 9, 2018 (the Early Tender Date). The Early Tender Date was not extended, and those tendered Notes may no longer be withdrawn.

Security	CUSIP Number	Outstanding Principal Amount	Aggregate Principal Amount Tendered (a)	Maximum Series Tender Cap (b)	U.S. Treasury Bloomberg Reference Security	Bloomberg Reference Page	Fixed Spread	Early Tender Payment (c)(d)	Cons
Senior					2.25% U.S. Treasury Notes

Rate Senior									
2021	606822 AB0	\$ 900,000,000	\$ 261,029,000	\$ 150,000,000				\$ 50.00	\$ 1,

(a) As reported by D.F. King & Co., Inc., the tender and information agent for the tender offers.

(b) The Maximum Series Tender Cap is the maximum aggregate principal amount of the applicable series of Notes to be purchased by MUFG.

(c) Per \$1,000 principal amount.

(d) The Total Consideration payable for each \$1,000 principal amount of the Notes validly tendered at or prior to the Early Tender Date and accepted for purchase by MUFG includes the applicable Early Tender Payment. In addition, holders whose Notes are accepted for purchase by MUFG will also receive accrued interest on such Notes.

Because the aggregate principal amount of each series of Notes that were validly tendered and not validly withdrawn at or prior to the Early Tender Date exceeded the applicable Maximum Series Tender Cap, MUFG intends to purchase such Notes on a prorated basis using a proration factor of approximately 42.5% for the 2.95% Senior Notes due March 1, 2021 (the Fixed Rate Notes) and a proration factor of approximately 58.9% for the Floating Rate Senior Notes due March 1, 2021 (the Floating Rate Notes). After proration is applied, each holder will have a fraction of the principal amount of validly tendered Notes purchased, rounded down to the nearest \$1,000 principal amount equal to or in excess of \$200,000 to avoid the purchase of Notes in a principal amount less than \$200,000 and other than in multiples of \$1,000 in excess thereof. MUFG will not accept any tender of Notes that would result in Notes in a principal amount of less than \$200,000 being returned to the holder after proration.

The tender offers will expire at 11:59 p.m., New York City time, on March 23, 2018. However, because the tender offers were fully subscribed as of the Early Tender Date, MUFG does not intend to accept for purchase any Notes tendered subsequent to the Early Tender Date. All Notes not accepted for purchase will be promptly returned or credited to the respective holders' accounts.

Holders who validly tendered their Notes at or prior to the Early Tender Date and accepted for purchase will receive the Total Consideration (which includes the Early Tender Payment) set forth in the table above. The Total Consideration to be paid per \$1,000 principal amount of Fixed Rate Notes will be determined at 11:00 a.m., New York City time, on March 12, 2018, in the manner described in the Offer to Purchase by reference to the Fixed Spread specified in the table above *plus* the applicable yield to maturity based on the bid-side price of the applicable U.S. Treasury Reference Security specified in the table above. The Total Consideration to be paid per \$1,000 principal amount of Floating Rate Notes is the amount set forth in the table above.

The holders of the Notes purchased will also receive accrued and unpaid interest from the last interest payment date applicable to the relevant series of Notes up to, but not including, the Early Settlement Date, which is expected to be March 14, 2018, when payment for the Notes that are validly tendered prior to or at the Early Tender Date and that are accepted for purchase is expected to be made.

On March 2, 2018, MUFG completed an SEC-registered offering of senior unsecured notes on terms and conditions satisfactory to MUFG. MUFG's obligation to accept for purchase and to pay for the Notes validly tendered in the tender offers is subject to the satisfaction or waiver of the remaining conditions described in the Offer to Purchase.
