Q: How do I vote?

A: You may vote by any of the following methods:

In Person. Stockholders of record and beneficial stockholders with shares held in street name may vote in person at the 2018 Annual Meeting. If you hold shares in street name, you must obtain a proxy from the stockholder of record authorizing you to vote your shares and bring it to the meeting along with proof of beneficial ownership of your shares. A photo ID is required to vote in person.

By mail. If you elected to receive printed proxy materials by mail, you may vote by signing and returning the proxy card provided. Please allow sufficient time for mailing if you decide to vote by mail.

By internet or telephone. You may also vote over the internet at www.proxyvote.com or vote by telephone at 1-(800) 690-6903. Please see proxy card for voting instructions.

Q: How can I change or revoke my vote?

A: You may change your vote as follows:

Stockholders of record. You may change or revoke your vote by submitting a written notice of revocation to NeoGenomics, Inc., 12701 Commonwealth Drive, Suite 9, Fort Myers, Florida 33913, Attention: Denise Pedulla, Corporate Secretary, or by submitting another proxy card before the conclusion of the 2018 Annual Meeting. Beneficial owners of shares held in street name. You may change or revoke your voting instructions by following the specific directions provided to you by your bank or broker or other nominee.

Q: What if I do not specify a choice for a matter when returning a proxy?

A: Your proxy will be treated as follows:

Stockholders of record. If you are a stockholder of record and you sign and return a proxy card without giving specific voting instructions, then the proxy holders will vote your shares in the manner recommended by the Board on all matters presented in this proxy statement and as the proxy holders may determine in their discretion for any other matters properly presented for a vote at the meeting.

Beneficial owners of shares held in street name. If you are a beneficial owner of shares held in street name and do not provide the organization that holds your shares with specific voting instructions, the organization that holds your shares may generally vote on routine matters but cannot vote on non-routine matters. If the organization that holds your shares does not receive instructions from you on how to vote your shares on a non-routine matter, the organization that holds your shares will inform the inspector of election that it does not have the authority to vote on this matter with respect to your shares. This is referred to as a broker non-vote.

Q: Which ballot measures are considered routine or non-routine?

A: The Ratification of Appointment of Independent Registered Public Accounting Firm (Proposal 3) is considered to be a routine matter under applicable rules. Abstentions, if any, will have no effect on the outcome of the vote on this proposal because they are not considered to be present or entitled to vote on the proposal, and broker non-votes are not expected to occur on this proposal. The election of directors (Proposal 1), and the approval of the amendment of our Employee Stock Purchase Plan (Proposal 2) are considered to be non-routine matters under applicable rules. A broker or other nominee cannot vote without instructions on non-routine matters, and therefore there may be broker non-votes on Proposals 1 and 2.

In addition to solicitation by mail, our directors, officers and employees may solicit proxies from stockholders by telephone, letter, electronic mail, facsimile or in person. Corporate Governance

Director Independence. Under the NASDAQ Stock Market Rules, the Board has a responsibility to make an affirmative determination that those members of its Board that serve as independent directors do not have any relationships with the Company and its businesses that would impair their independence. In connection with these determinations, the Board reviews information regarding transactions, relationships and arrangements involving the Company and its businesses and each director that it deems relevant to independence, including those required by the NASDAQ Stock Market Rules.

The Board has determined that each of Mr. Johnson, Mr. Hipp, Mr. Crowther, Mrs. Tetrault, Dr. Hannah, and Mr. Kanovsky are independent. The Audit Committee and the Compensation Committee are each composed entirely of directors who are independent under the NASDAQ Stock Market Rules and the applicable rules of the United States Securities and Exchange Commission (the SEC).

Director Nominations. Our Board has a standing Nominating and Corporate Governance Committee (the Nominating Committee). The Nominating Committee considers and recommends candidates for election to the Board and nominees for committee memberships and committee chairs.

Director candidates are considered based upon a variety of criteria, including demonstrated business and professional skills and experiences relevant to our business and strategic direction, concern for long-term stockholder interests, personal integrity and sound business judgment. The Nominating Committee seeks men and women from diverse professional backgrounds who combine a broad spectrum of relevant industry and strategic experience and expertise that, in concert, offer us and our stockholders diversity of opinion and insight in the areas most important to us and our corporate mission. However, we do not have a formal policy concerning the diversity of the Board. All director candidates must have time available to devote to the activities of the Board. We also consider the independence of director candidates, including the appearance of any conflict in serving as a director. A director who does not meet all of these criteria may still be considered for nomination to the Board if our independent directors believe that the candidate will make an exceptional contribution to us and our stockholders.

Generally, when evaluating and recommending candidates for election to the Board, the Nominating Committee will conduct candidate interviews, evaluate biographical information and background material and assess the skills and experience of candidates in the context of the then current needs of the Company. In identifying potential director candidates, the Board may also seek input from the executive officers and may also consider recommendations by employees, community leaders, business contacts, third-party search firms and any other sources deemed appropriate by the Nominating Committee. The Nominating Committee will also consider director candidates recommended by stockholders to stand for election at the annual meeting of stockholders so long as such recommendations are submitted in accordance with the procedures described below under *Stockholder Recommendations for Board Candidates* .

Board Leadership Structure. Our Board does not have a policy on whether the offices of Chairman of the Board and Chief Executive Officer should be separate and, if they are to be separate, whether the Chairman of the Board should be selected from among the independent directors. Our Board believes that it should have the flexibility to make these determinations at any given time in the way that it believes best to provide appropriate leadership for the Company at that time. Our Board has reviewed our current Board leadership structure in light of the composition of the Board, the Company's size, the nature of the Company's business, the regulatory framework under which the Company operates, and other relevant factors. Considering these factors, the Company has determined to have the same individual, Douglas VanOort, serve as Chief Executive Officer and Chairman of the Board. The Board does not have nor have they appointed a lead independent director.

Board Role in Risk Oversight. The Board administers its risk oversight function directly and through the Audit Committee. Board Recommendation

The Board unanimously recommends a vote FOR each nominee.

The eight nominees receiving the majority of votes cast FOR by stockholders in person or by proxy will be elected. This Proposal 1 is a non-discretionary or non-routine item, meaning that brokerage firms cannot vote shares in their discretion on behalf of a client if the client has not given voting instructions. Accordingly, if you hold your shares in street name and fail to instruct your broker to vote your shares, your shares will not be counted as votes cast and will have no effect on the outcome of this Proposal 1.

PROPOSAL 2 APPROVAL OF AMENDMENT OF EMPLOYEE STOCK PURCHASE PLAN

The Company currently maintains the NeoGenomics, Inc. Amended and Restated Employee Stock Purchase Plan, as most recently amended on April 20, 2017 and effective on May 25, 2017 (the ESPP).

The ESPP provides employees of the Company and its subsidiaries the opportunity to acquire an ownership interest in the Company through the purchase of Company common stock at a price below current market prices. Other than the increase in reserved shares described below, the amended ESPP continues to provide essentially the same substantive terms and provisions as the existing ESPP.

The Board of Directors approved, and is recommending that the Company's stockholders approve, the Second Amendment of the ESPP (the ESPP Amendment) to increase the number of shares of common stock reserved for issuance under the ESPP by 500,000 shares to 1,500,000 shares. There are currently 1,000,000 shares of the company's common stock reserved under the ESPP, of which approximately 96,000 are available for future purchases. Accordingly, if the ESPP Amendment is approved, approximately 596,000 would be available for future purchases.

The material features of the ESPP, as amended by the ESPP Amendment, are summarized below. The summary is qualified in its entirety by reference to the specific provisions of the ESPP, the full text of which was filed as Appendix A to the Company's proxy statement for the 2013 Annual Meeting of Stockholders as filed with the SEC on May 8, 2013 as amended by the First amendment of the ESPP, the full text of which is set forth as Annex B to the Company's proxy statement for the 2017 Annual Meeting of Stockholders as filed with the SEC on April 25, 2017 and the Second Amendment of the ESPP, the full text of which is set forth as Annex A to this proxy statement.

Description of the Plan

Administration of the ESPP. Our Board has authority to administer, interpret and implement the terms of the ESPP. The Board may delegate its powers under the ESPP to a committee of the Board composed of at least two members, each of whom may qualify as a non-employee director for purposes of Rule 16b-3 under the Exchange Act, and outside director in accordance with Section 162(m) of the Code. References to the Board herein will mean the committee as well. The Board will have the discretion to set the terms of each offering in accordance with the provisions of the ESPP, to designate any subsidiaries of the Company to participate in the ESPP, to make all determinations regarding the ESPP, including eligibility, and otherwise administer the ESPP.

Number of Authorized Shares. If the ESPP Amendment is approved, a total of 1,500,000 shares of our common stock will be reserved under the amended ESPP, of which approximately 596,000 shares would be available for future purchases under the ESPP, subject to adjustment in the event of any significant change in our capitalization, such as a stock split, a combination or exchange of shares, or a stock dividend or other distribution.

Table of Contents

Eligibility and Participation. All of our employees generally are eligible to participate in the ESPP. However, the Board may provide with respect to any offering that employees will not be eligible to participate in the offering if they are customarily employed by us or any participating subsidiary for less than 20 hours per week or less than five months in any calendar year. As of the date of filing of this proxy statement, approximately 980 employees are eligible to participate in the ESPP. The Board also may exclude from an offering period highly-compensated employees or employees who have not satisfied a minimum period of employment with us which may not exceed a period of two years. In addition, an employee may not be granted rights to purchase stock under our ESPP if such employee would:

immediately after any grant of purchase rights, own stock possessing five or more of the total combined voting power or value of all classes of our capital stock; or

hold rights to purchase stock under all of our employee stock purchase plans that would accrue at a rate that exceeds \$25,000 worth of our stock for each calendar year.

Offering Periods. The ESPP provides for offering periods as short as one month or as long as 27 months. The Board may specify a maximum number of shares of common stock that any participant may purchase during an offering period. During each offering period, participants authorize payroll deductions on an after-tax basis from the participant's base pay, subject to certain limits.

Exercise of Purchase Rights. Amounts deducted and accumulated by the participant are used to purchase shares of our common stock at the end of each offering period. The purchase price of the shares will not be less than 85% of the fair market value of our common stock on the first trading day of the offering period or on the last day of the offering period, whichever is lower. The fair market value of our common stock as of April 13, 2018, the closest practical date preceding the mailing of this proxy statement, was \$8.49 per share. Participants may withdraw from participation in the ESPP at any time during an offering period, and will be paid their accrued payroll deductions that have not yet been used to purchase shares of common stock. Participation ends automatically upon termination of employment with us.

Amendment and Termination. The Board in its discretion may amend, suspend or terminate the ESPP at any time. Unless sooner terminated, the Plan will terminate at the earlier of the time that all of the shares reserved under the ESPP have been issued under the terms of the ESPP or March 1, 2023, the 10th anniversary of the effective date of the 2013 amendment and restatement of the ESPP. Notwithstanding the foregoing, no amendment or termination may adversely affect any outstanding rights to purchase stock under our ESPP.

Benefits Under ESPP. Benefits to be received by participants under the ESPP, including our executive officers, are not currently determinable because participation in the ESPP is voluntary and the benefits are subject to the market price of the common stock at future dates.

Federal Income Tax Considerations

THE FOLLOWING DISCUSSION ADDRESSES ONLY THE GENERAL FEDERAL INCOME TAX CONSEQUENCES UNDER THE PLAN. IT DOES NOT ADDRESS THE IMPACT OF STATE AND LOCAL TAXES, THE FEDERAL ALTERNATIVE MINIMUM TAX OR SECURITIES LAWS RESTRICTIONS, AND IS INTENDED FOR GENERAL INFORMATION PURPOSES ONLY. IT IS NOT INTENDED AS A TAX ADVICE TO PARTICIPANTS IN THE PLAN, WHO SHOULD CONSULT THEIR OWN TAX ADVISORS.

It is the intention of the Company to have the ESPP qualify as an Employee Stock Purchase Plan under Section 423 of the Code. The provisions of the ESPP, accordingly, shall be construed so as to extend and limit participation in a manner consistent with the requirements of that Section of the Code. The Company believes that the following federal income consequences normally will apply with respect to the ESPP.

Table of Contents

The payroll deductions withheld from a participant's pay under the ESPP will be taxable income to the participant and must be included in the participant's gross income for federal income tax purposes in the year which such amounts otherwise would have been received.

A participant will not be required to recognize any income for federal income tax purposes either at the time the participant is granted an option (which will be on the first day of the offering period) or by virtue of the exercise of the option (which will take place on the last day of such offering period). The federal income tax consequences of a sale or disposition of shares acquired under the ESPP depend in part on the length of time the shares are held by a participant before such sale or disposition. If a participant sells or otherwise disposes of shares acquired under the ESPP (other than any transfer resulting from death) within two years after the first day of the applicable offering period or one year after the shares are acquired (the Holding Period), the participant must recognize ordinary compensation income in the year of such disposition in an amount equal to the excess of (i) the fair market value of the shares on the date such shares were acquired over (ii) the price paid for the shares by the participant. The amount of ordinary compensation income recognized by the participant will be added to the participant's basis in such shares for purposes of determining any additional gain or loss realized by the participant on the sale of the shares. Any such additional gain or loss will be taxed as capital gain or loss, long or short, depending on how long the participant held the shares.

If a participant sells shares acquired under the ESPP after the Holding Period or if the participant dies, the participant or the participant's estate must include as ordinary compensation income in the year of sale (or the taxable year ending upon death) an amount equal to the lesser of (i) the excess of the fair market value of the shares on the first day of the offering period over the option price (determined as if the option had been exercised on the first day of the offering period), or (ii) the excess of the fair market value of the shares at the time of sale of the shares or on the date of death over the price paid for the shares by the participant. Except in the case of a transfer as a result of death, the amount of ordinary income recognized by the participant will be added to the participant's basis in such shares. Any gain realized upon the sale in excess of such basis will be taxed as a long-term capital gain. Any loss realized will be treated as long-term capital loss.

The Company will not receive any income tax deduction as a result of issuing shares pursuant to the ESPP, except to the extent that a participant is required to include as ordinary income amounts arising upon the sale or disposition of such shares as discussed above.

Effective Date

The Amendment will be effective as of the date approved by our stockholders.

Vote Required for Approval

The ESPP Amendment will be approved if a majority of the votes cast by stockholders in person or via proxy with respect to this matter are cast in favor of the proposal. If the stockholders do not approve the ESPP Amendment, it will not be implemented, but the Company reserves the right to adopt such other compensation plans and programs as it deems appropriate and in the best interests of the Company and our stockholders. The proposal to approve the ESPP Amendment is a non-discretionary or non-routine item, meaning that brokerage firms cannot vote shares in their discretion on behalf of a client if the client has not given voting instructions. Accordingly, if you hold your shares in street name and fail to instruct your broker to vote your shares for the proposal, your shares will not be counted as votes cast for the proposal and will have no effect on the outcome of this Proposal 2.

OUR BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS THAT OUR STOCKHOLDERS VOTE FOR THE ESPP AMENDMENT.

Table of Contents**Employment Agreements and Potential Payments Upon Termination or Change in Control**

The Company is a party to employment contracts that contain provisions for payment upon termination as well as stock option agreements that contain provisions providing for benefits upon change in control. Each of these agreements is described below.

Chief Executive Officer & Chairman of the Board

On March 16, 2009, the Company entered into an employment agreement with Douglas M. VanOort our Chief Executive Officer and Chairman of the Board (as amended, the "Employment Agreement"). The Employment Agreement had an initial term from March 16, 2009 through March 16, 2013, which subsequent to the initial term automatically renews for one year periods. Pursuant to the Employment Agreement, Mr. VanOort received a base salary of \$325,000 per year which is subject to adjustments, and was last adjusted to \$625,000 per year in 2017. In addition, he is eligible to receive an annual cash bonus for any given fiscal year in an amount equal to 60% of his base salary, which was last adjusted to 80% of his base salary in 2017, if he met certain goals established for him by the Compensation Committee of the Board. Such bonus is eligible to be increased to up to 200% of the target bonus in any fiscal year in which he meets certain performance objectives established by the Compensation Committee. Mr. VanOort is also entitled to participate in all of the Company's employee benefit plans and any other benefit programs established for officers of the Company.

In the event that Mr. VanOort is terminated without cause by the Company, the Company has agreed to pay Mr. VanOort's base salary and maintain his benefits for a period of twelve months. The following table shows the assumed impact if Mr. VanOort had been terminated without cause at December 31, 2017:

CEO Pay Ratio

The Compensation Committee reviewed a comparison of our CEO's total annual compensation to the total annual compensation of our median employee for the fiscal year ended December 31, 2017. The total annual compensation for our CEO for this period was \$3,483,508, compared to the total annual compensation for the median employee which was \$69,825. The resulting ratio of our CEO's pay to the pay of our median employee for the fiscal year ended December 31, 2017 was 50:1. Total annual compensation for our CEO for this period includes the grant date fair value of a discretionary restricted stock award. The total annual compensation excluding this award was \$2,051,013 which would have resulted in a ratio of 29:1. The pay ratio is a reasonable estimate calculated in a manner consistent with Item 402(u) of Regulation S-K.

In determining the median employee, the Company used a consistently applied compensation measure. The compensation measure included salary received in fiscal year 2017 including commissions and bonuses (if applicable). The compensation measure excluded the following pay elements: grant date fair value of stock option granted in fiscal year 2017, company-paid 401(k) match made during fiscal year 2017 and company-paid insurance premiums during fiscal year 2017. For purposes of determining the median employee, the Company used the employee population as of December 31, 2017 including all active full-time, part-time and per diem employees.

The median employee was selected by (i) calculating the compensation for each of our employees (excluding the CEO) using the consistently applied compensation measure as defined above, (ii) ranking the employees based on that compensation from lowest to highest, and (iii) selecting the employee that falls in the middle of that population.

Compensation Discussion and Analysis

Executive Compensation Philosophy

Our compensation philosophy is to offer our executive officers compensation and benefits that are competitive and meet our goals of attracting, retaining and motivating highly skilled management, which is necessary to achieve our financial and strategic objectives and create long-term value for our stockholders. We believe the levels of compensation we provide should be competitive, reasonable and appropriate for our business needs and circumstances.

Advisory Vote on Executive Compensation

The Company provides its stockholders with the opportunity to vote on executive compensation every three years. At the 2016 Annual Meeting of Stockholders held on June 7, 2016, we sought an advisory vote from our stockholders regarding our executive compensation program and 94.2% of the votes cast were in favor of our Named Executive Officers (NEOs) compensation as described in the proxy statement for that meeting. The Compensation Committee considers these results in making future compensation decisions.

Based at least in part on the positive feedback received from shareholders, the Compensation Committee determined that, the executive compensation program remains appropriate and no changes to the overall program design were necessary. However, the Compensation Committee continues to review the alignment of our executive compensation program with the compensation goals set forth herein and will continue to consider the outcome of the advisory stockholder votes on executive compensation when making future decisions regarding the compensation of our executive officers.

Company Performance Highlights

The Compensation Committee considers the financial performance of the Company in making compensation decisions. The Compensation Committee believes that compensation should be tied to the performance of the Company as well as the return to stockholders. During 2017, our revenues increased by approximately \$15 million (6%) and we were able to grow our business while reducing our cost per test by 11%. In addition, we completed many of our strategic initiatives including consolidating our California laboratories and thus completing the integration of Clariant.

We have presented below the cumulative total return to our stockholders of \$100 during the period from December 31, 2012 through December 31, 2017 in comparison to the cumulative return of the S&P 500 Index and a customized comparator group of seven publicly traded companies, with whom we compare our business performance, during that same time period. The comparator group is made up of Cancer Genetics, Inc., Enzo Biochem, Inc., Genomic Health, Inc., Foundation Medicine, Laboratory Corporation of America Holdings, Myriad Genetics, Inc.,

and Quest Diagnostics, Inc.

Process for Determining Executive Compensation

Our Compensation Committee reviews and approves the annual base compensation and other compensation of our Named Executive Officers. Our Compensation Committee also establishes and reviews the achievement of performance goals and other matters relating to the Annual Bonus Plans.

Role of Independent Compensation Consultant

As outlined in its Charter, the Compensation Committee has the authority to select, retain and/or replace, as needed, compensation and benefits consultants and other outside consultants to provide independent advice to the Committee. During 2017, the Committee retained Willis Towers Watson as an independent outside compensation consultant. Willis Towers Watson advised the Compensation Committee on CEO and Executive team compensation benchmarks and recommendations, Board of Directors compensation benchmarks and recommendations, review of Compensation Committee Charter and recommendations, review and update of regulatory and legislative compensation trends as well as policy development, and recommendations regarding the option plan, change in control and clawback provisions and CEO Pay Ratio review and recommendations.

The Compensation Committee considered the six factors specified by the Securities and Exchange Commission (SEC) to monitor the independence of their compensation advisors, and determined that Willis Towers Watson's services during 2017 did not raise a conflict of interest.

Use of a Peer Group

In evaluating executive compensation, the Compensation Committee considers performance of the Company, performance relative to an established peer group, the pay practices of that peer group, as well as the views of our shareholders. With input from Willis Towers Watson, the Committee reviews the previous year's peer group to ensure it remains valid for benchmarking purposes and makes adjustments as needed to reflect changes in business strategy and circumstances. Our comparator group for compensation purposes is different from the group of companies with which our business competes because many of our direct competitors for business are either much larger or smaller than us in terms of size and scope. In developing an appropriate pay benchmarking peer group, the Compensation Committee considered scoping factors such as market capitalization, revenue and employee headcount.

Table of Contents

The peer group used for purposes of 2017 executive compensation was as follows:

AMAG Pharmaceuticals, Inc.	Harvard Bioscience Inc.
AngioDynamics, Inc.	Luminex Corp.
AtriCure, Inc.	Medpace Holdings, Inc.
Cambrex Corporation	Myriad Genetics, Inc.
CTI BioPharma Corp.	Natera Inc.
Enzo Biochem Inc.	New Link Genetics Corp.
Fluidigm Corp.	OraSure Technologies Inc.
Foundation Medicine Inc.	Pacific Biosciences of California Inc.
Genomic Health	Quidel Corporation

Each year, the Compensation Committee assesses the total compensation of our CEO in relation to the total compensation of the CEO of our peers. The peer group used for this purpose is our compensation peer group as defined above.

The following graph shows the relationship of our CEO's total compensation as set forth in the 2016 Summary Compensation Table and the change in stock price for the three years ended December 31, 2014, 2015 and 2016 (annualized). These amounts are compared to the CEOs of the companies included in our peer group as defined above. 2016 data is used in this graph as 2017 peer group data is not available.

Base Compensation

Our base compensation philosophy is to offer our executive officers compensation and benefits that are competitive and meet our goals of attracting, retaining and motivating highly skilled management, which is necessary to achieve our financial and strategic objectives and create long-term value for our stockholders. We believe the levels of base compensation we provide should be competitive, reasonable and appropriate for our business needs and circumstances.

The base compensation of our Named Executive Officers is reviewed annually and changes to base salary are made pursuant to a review process and salary increase recommendations are made by the Chief Executive Officer and subsequently reviewed and approved by the Compensation Committee. Any changes to the Chief Executive Officer base salary are discussed and approved by the Compensation Committee. The Chief Executive Officer is not included in any discussions regarding changes to his own compensation.

Short Term Incentive Program

The Compensation Committee adopts an Annual Bonus Plan which it believes incentivizes senior management to achieve operating results that the Compensation Committee believes will benefit stockholders as well as management. The Annual Bonus Plan provides goals which the Compensation Committee believes requires the senior management team to deliver excellent individual and team performance and that are designed to incentivize senior management to operate the Company in the most efficient manner possible.

The Annual Bonus Plan is comprised of Company measures and individual measures, Company performance measures are tied to achieving our revenue and Adjusted EBITDA goals in addition to the successful completion of Company determined critical success factors. Individual performance measures are specific and may vary by executive. These measures are developed by the Chief Executive Officer (for every Named Executive Officer other than himself), approved by the Compensation Committee, and communicated to each of our Named Executive Officers.

The Annual Bonus Plan includes incentives for both individual and company performance, the ranges for 2017 are shown below:

	CEO	Chief Medical Officer	All Other NEO s
Individual Performance	20%	75%	20-50
Company Performance	80%	25%	50-80

Benefits

Our policy is to provide health benefits as well as access to our 401(k) Plan to which we match any employees including our Named Executive Officers' contributions at the rate of 100% of every dollar contributed up to 3% of the respective employee's compensation and an additional 50% of every dollar contributed on the next 2% of compensation (4% maximum Company match).

Compensation Mix

In 2017, approximately 82% of the CEO's total compensation and approximately 62% of other NEO's total compensation was variable and impacted by individual, operating or stock price performance as shown below:

Tax Compliance Policy

Section 162(m) of the Code limits the deductibility of compensation in excess of \$1 million paid to any one named executive officer in any calendar year. Under the tax rules in effect before 2018, compensation that qualified as performance-based under Section 162(m) was deductible without regard to this \$1 million limit. However, the Tax Cuts and Jobs Act, which was signed into law December 22, 2017, eliminated this performance-based compensation exception effective January 1, 2018, subject to a special rule that grandfathers certain awards and arrangements that were in effect on or before November 2, 2017. As a result, compensation that is paid on or after January 1, 2018 may not be fully deductible, depending on the application of the special grandfather rules. Moreover, from and after January 1, 2018, compensation awarded in excess of \$1 million to our Named Executive Officers generally will not be deductible. While the Tax Cuts and Jobs Act will limit the deductibility of compensation paid to the Named Executive Officers, the Compensation Committee will-consistent with its past practice-design compensation programs that are intended to be in the best long-term interests of the Company and our stockholders, with deductibility of compensation being one of a variety of considerations taken into account.

This amount was paid to Aspen Capital Advisors, LLC (Aspen) for which Mr. Jones is a managing director, pursuant to a consulting agreement entered into between Aspen and the Company on November 11, 2015. The remaining \$78,900 was earned as part of a management incentive plan.
