Natarajan Chandrasekaran, Chairman commented In FY 18, JLR delivered profitable growth despite challenging market conditions. We invested for growth, launched exciting new products and established landmark partnerships. In the near term, the challenges of market, technology and geo-political uncertainties are likely to persist. This is the 10th year of Tata's acquisition of JLR. In this period, we grew 5 times, strengthened our differentiated premium brands, built leading edge technical capabilities and improved profitability by 1300bps. Looking ahead, we will draw inspiration from this proven legacy to create value over the long term and drive each of these further. We will also focus on cost efficiencies, drive operating leverage and manage capital spends prudently.

In the domestic business, the Turnaround results are clearly visible. We gained market share in both CV and PV with strong improvement in profitability and positive cash flows. With Turnaround 2.0 we will accelerate our efforts to Win Decisively in CV, Win Sustainably in PV and embed the turnaround culture in the company.

With these focused efforts, I am confident that Tata Motors Group shall deliver Competitive, Consistent and Cash Accretive Growth in the coming years

JAGUAR LAND ROVER

BUSINESS HIGHLIGHTS

Strong demand for Range Rover Velar, new Discovery and Jaguar F-PACE

Exciting range of new cars introduced: Jaguar I-PACE, the world's first fully electric premium SUV is now available to order, placing the company at the forefront of the electric revolution; the compact E-PACE, which combines sports car looks with SUV practicality; Jaguar XF Sportbrake and the first plug-in hybrid models of the Range Rover and Range Rover Sport.

Opening of an engine plant at the company's joint venture in China and construction of a manufacturing facility in Nitra, Slovakia, where production is due to begin in 2018

Will continue to invest circa £4.5 billion in the 2018-19 financial year for in new models and technologies

FINANCIALS

For the Fiscal year 2018, Retail sales grew 1.7% year-on-year to 614,309 cars, with demand up in China (19.9%), North America (4.7%) and in Overseas Markets (3.4%). These regional increases offset lower figures in the UK (-12.8%) and Europe (-5.3%), where sales were impacted by consumer uncertainty surrounding diesel models. The increase in sales was driven by new models, including the latest Land Rover Discovery, the award-winning Range Rover Velar (World Car Design of the Year), the long-wheelbase Jaguar XFL in China and continued solid demand for the Jaguar F-PACE.

Revenues increased 6.0% to £25.8B. Pre-tax profits were £1.5B including a one-off £437m pension credit reported in the first quarter partially offset by one-off engineering charges (Fit for Future) in Q4 18. The EBIT margin before these Fit for Future charges was 4.2%, compared to 5.9% a year ago. The lower margin mainly reflected higher depreciation and amortisation as a result of the significant investment in the business and slower sales growth than in recent past. For the fourth quarter, pre-tax profits were £364m on revenues of £7.6B. During the financial year, the company invested a record £4.2B, over half of which was in new vehicles and technologies.

Dr. Ralf Speth, Jaguar Land Rover CEO, said: Despite external headwinds, these results reflect the underlying strengths of Jaguar Land Rover. Sales have reached a new high, as strong demand in our key overseas markets offset the challenging conditions in the UK and other parts of Europe. Our sustained growth and business resilience reflects the support we have received over the past 10 years from Tata. As we mark this important milestone and as we shape our future, we will continue with over-proportional investment in new vehicles, manufacturing facilities and next generation automotive technologies in line with our Autonomous, Connected, Electric and Shared strategy to provide our customers with the next generation of Jaguars and Land Rovers. We are confident of our plans to drive robust growth and efficiencies to ensure that we continue to deliver solid results and generate sustainable profitable growth to support continued investment with positive free cash flows in the medium to long term.

We are one team with pioneering spirit, delivering outstanding new cars, with the best of British design and engineering integrity, leading in customer desirability.

As we step into Turnaround 2.0, we would like to embed Turnaround thinking within TML and our business plan will continue to remain robust in terms of sales, market share and financial performance. We want to structurally improve the business with reinforced & focused actions in PV, and continuing the momentum in CV from last year. FINANCE COSTS AND TAX

Finance costs increased by 14Cr to 1,178Cr during Q4 FY 18 vs prior year. In FY 18, they increased by 444Cr to 4,682Cr. The increase is due to higher borrowings in both TML (S) and JLR.

JOINT VENTURES, ASSOCIATES AND OTHER INCOME

In the quarter, Net profit from joint ventures and associates contributed 845Cr compared with 411Cr in prior year. Other income was 364Cr versus 234Cr in the same quarter prior year. The increase is coming from mainly the additional interest incomes earned during the year.

FCF of automobile business was + 8930 Cr for the quarter and - 7330Cr for the year.

NET DEBT

Closing net debt was 39,977Cr compared to 27,485Cr as at 31st March 2017, reflecting negative free cash flow at JLR with continued high investments and lower sales growth. Net Automotive debt stood at 13,889Cr vs 7,401Cr as at 31st March 2017.

Auditor s Responsibility

Our responsibility is to express an opinion on these standalone financial results based on our audit of the annual financial statements.

We have taken into account the relevant provisions of the Listing Regulations and the accounting and auditing standards.

We conducted our audit of the standalone financial results in accordance with the Standards on Auditing specified under section 143(10) of the Companies Act, 2013. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the standalone financial results are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the standalone financial results. The procedures selected depend on the auditor s judgment, including the assessment of the risks of material misstatement of the standalone financial results, whether due to fraud or error. In making those risk assessments, the auditor considers internal financial control relevant to the Company s preparation of the standalone financial results that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company s Directors, as well as evaluating the overall presentation of the standalone financial results.

We are also responsible to conclude on the appropriateness of management s use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the entity s ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in the auditor s report to the related disclosures in the standalone financial results or, if such disclosures are inadequate, to modify the opinion. Our conclusions are based on the audit evidence obtained up to the date of the auditor s report. However, future events or conditions may cause an entity to cease to continue as a going concern.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial results.
