Item 2.05 Costs Associated with Exit or Disposal Activities.

On April 30, 2019, Verso Corporation (Verso) announced that it will permanently shut down its paper mill in Luke, Maryland (the Luke Mill) in response to the continuing decline in customer demand for the grades of coated freesheet paper produced at the Luke Mill, along with rising input costs, a significant influx of imports, and rising compliance costs and infrastructure challenges associated with recent environmental regulation changes. Verso is expected to complete the shutdown and closure of the Luke Mill by June 30, 2019. The shutdown of the Luke Mill will reduce Verso's coated freesheet production capacity by approximately 450,000 tons, reducing total annual paper production capacity to approximately 2.7 million tons.

The permanent shutdown of the Luke Mill will result in the elimination of jobs, impacting approximately 675 employees at the Luke Mill. Verso estimates that the closure of the Luke Mill will result in pre-tax cash charges for severance, benefits and other shutdown activities of approximately \$25-35 million to be recorded in 2019. These estimated cash charges consist of approximately \$15-20 million in severance and benefit costs to be recorded in the second quarter ending June 30, 2019, and approximately \$10-15 million in other shutdown costs to be recorded in 2019. In connection with the permanent shutdown of the Luke Mill, Verso determined that a reduction in the useful lives of property, plant and equipment and related replacement parts and other supplies at the Luke Mill will be necessary and expects to recognize non-cash charges of approximately \$95-115 million for accelerated depreciation and impairment charges in the second quarter ending June 30, 2019.

Costs associated with closure activities are based on currently available information and reflect management's best estimates; accordingly, actual cash costs and non-cash charges and their timing may differ from those stated above.

The information contained in Item 2.05 is hereby incorporated by reference into this Item 2.06.
