NOTES TO UNAUDITED INTERIM FINANCIAL STATEMENTS

1) BASIS OF PRESENTATION

The accompanying unaudited interim financial statements as of and for the three and nine months ended September 30, 2013 and 2012 have been prepared in conformity with accounting principles generally accepted in the United States ("GAAP"). The financial information as of December 31, 2012 is derived from the audited financial statements presented in the Willamette Valley Vineyards, Inc. (the "Company") Annual Report on Form 10-K for the year ended December 31, 2012. Certain information or footnote disclosures normally included in financial statements prepared in accordance with GAAP have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, the accompanying financial statements include all adjustments necessary (which are of a normal recurring nature) for the fair statement of the results of the interim periods presented. The accompanying financial statements should be read in conjunction with the Company's audited financial statements for the year ended December 31, 2012, as presented in the Company's Annual Report on Form 10-K.

Operating results for the three and nine months ended September 30, 2013 are not necessarily indicative of the results that may be expected for the entire year ending December 31, 2013, or any portion thereof.

The Company's revenues include direct-to-consumer sales and national sales to distributors. These sales channels utilize shared resources for production, selling and distribution.

Effective June 30, 2012, the Company has discontinued its in-state distribution division, Bacchus Fine Wines. The Company had been in the process of winding down Bacchus operations since September 2011, when they entered into an agreement with Young's Market of Oregon, LLC to distribute produced wines in-state. Since then, purchased wine inventories have been liquidated, and Company in-state distribution activity has ceased. In-state distribution activities are now reported as discontinued operations.

Basic earnings per share are computed based on the weighted-average number of common shares outstanding each period. Diluted earnings per share are computed using the weighted average number of shares of common stock and potentially dilutive common shares outstanding during the period. Potentially dilutive shares from stock options and other potentially dilutive shares are excluded from the computation when their effect is anti-dilutive. At September 30, 2013 and 2012, potentially dilutive shares of 77,200 and 298,200, respectively, were excluded from the computation as their effect would be anti-dilutive. 57,253 and 6,954 potentially dilutive shares are included in the computation of dilutive earnings per share for the three month periods ended September 30, 2013 and 2012, respectively.

Restricted Cash – On September 23, 2013 Northwest Farm Credit Services advanced \$1,973,949 of cash as net proceeds, calculated as a \$2,000,000 loan less \$26,051 of associated loan costs, of a loan agreement with the Company for the Hospitality Center remodel and expansion project. These proceeds are held in an account with the lender and will be accessible to the Company, upon certifying expenditures in excess of the Company's commitment of \$2.5 million to the project, with \$450,000 being withheld until final project completion. The Company estimates that it is entitled to \$326,387 of proceeds, based upon construction expenditures through September 30, 2013, upon obtaining and submitting lien releases from construction contractors with final expenditure certification occurring by January 31, 2014.

4) DISTRIBUTION AGREEMENT RECEIVABLE AND DEFERRED REVENUE

Effective September 1, 2011, the Company entered into an agreement with Young's Market Company for distribution of Company-produced wines in Oregon and Washington. The terms of this contract include exclusive rights to distribute Willamette Valley Vineyard's wines in Oregon and Washington for seven years. In an effort to facilitate the transition with as little disruption as possible, Young's Market Company has agreed to compensate Willamette Valley Vineyards for ongoing Oregon sales and branding efforts. As a result, the Company is due to receive \$250,000 per year starting on September 2011 for each of the next four years for a total of \$1,000,000. The remaining amount to be collected was \$500,000 as of September 30, 2013 and December 31, 2012. The total amount of \$1,000,000 to be received by the Company related to this agreement is being recognized as revenue on a straight line basis over the seven year life of the agreement. For the three months ended September 30, 2013 and 2012, the Company has

recognized revenue related to this agreement in the amount of \$35,715 and \$35,715, respectively, recorded to other income. For the nine months ended September 30, 2013 and 2012, the Company has recognized revenue related to this agreement in the amount of \$107,145 and \$107,145, respectively, recorded to other income.

5) DEBT

Line of Credit Facility – In December of 2005 the Company entered into a revolving line of credit agreement with Umpqua Bank that allows borrowings of up to \$2,000,000 against eligible accounts receivables and inventories as defined in the agreement. The revolving line bears interest at prime, is payable monthly, and is subject to annual renewal. The Company renewed the credit agreement in June of 2013 for a period of 12 months. The interest rate was 3.25% at September 30, 2013 and December 31, 2012. At September 30, 2013 and at December 31, 2012 there was no balance outstanding on this revolving line of credit.

NOTES TO UNAUDITED INTERIM FINANCIAL STATEMENTS

5) DEBT (CONTINUED)

The line of credit agreement includes various covenants, which among other things, requires the Company to maintain minimum amounts of tangible net worth, debt-to-equity, and debt service coverage as defined, and limits the level of acquisitions of property and equipment. As of September 30, 2013, the Company was in compliance with these covenants.

Long Term Debt - The Company has four long term debt agreements with Farm Credit Services with an aggregate outstanding balance of \$5,865,261 and \$4,016,771 as of September 30, 2013 and December 31, 2012, respectively. These loans require monthly payments of \$47,625 principal and interest for the life of the loans, at an annual fixed interest rate ranging from 4.75% to 6.70%, with maturity dates ranging from 2024 through 2028. The general purposes of these loans are to make capital improvements to the winery and vineyard facilities.

The Company has a long term debt agreement with Kubota with a balance of \$5,207 and \$9,467 as of September 30, 2013 and December 31, 2012, respectively. This loan requires a monthly payment of \$473 principal only for the life of the loan, at an annual interest rate of 0.0%, maturing in 2014.

6) STOCK BASED COMPENSATION

The Company has a stock incentive plan, originally created in 1992, most recently amended in 2001. No additional grants may be made under the plan. All stock options have an exercise price that is equal to the fair market value of the Company's stock on the date the options were granted. Administration of the plan, including determination of the number, term, and type of options to be granted, lies with the Board of Directors or a duly authorized committee of the Board of Directors. Options were generally granted based on employee performance with vesting periods ranging from date of grant to seven years. At the date of the grant, the maximum term before expiration is ten years.

The following table presents information related to the value of outstanding stock options for the period shown:

	Three months ended September 30, 2013		Nine months ended September 30, 2013	
	Weighted Average Shares	Exercise Price	Weighted Average Shares	Exercise Price
Outstanding at beginning of period	311,200	\$ 3.76	311,200	\$ 3.76
Granted	-	-	-	-
Exercised	(28,000)	3.47	(28,000)	3.47
Forfeited	-	-	-	-
Outstanding at end of period	283,200	\$ 3.79	283,200	\$ 3.79

At September 30, 2013, the Company had 61,000 unvested stock options with associated unrecognized compensation cost of \$52,608 that will be recognized over a weighted-average period of 2.63 years. The intrinsic value of the 222,200 stock options exercisable at September 30, 2013 was \$395,908.

In accordance with the current accounting guidance for share-based payments, the Company recognizes compensation expense for options awarded under its stock incentive plans. Current accounting guidance requires the grant-date fair value of all share-based payment awards, including employee stock options, to be recognized as employee compensation expense over the requisite service period. The fair value of each stock option granted is estimated on the date of grant using the Black-Scholes stock option valuation model.

The Company expenses stock options on a straight-line basis over the options' related vesting term. Pretax compensation expense related to stock options for the three months ended September 30, 2013 and 2012 were \$4,100 and \$4,500, respectively. Pretax compensation expense related to stock options for the nine months ended September 30, 2013 and 2012 were \$12,300 and \$13,902, respectively.

NOTES TO UNAUDITED INTERIM FINANCIAL STATEMENTS

6) STOCK BASED COMPENSATION (CONTINUED)

During the nine months ended September 30, 2013, 28,000 stock options were exercised as part of this plan. During the nine months ended September 30, 2012, there were no transactions related to stock options exercise activity.

7) INTEREST AND TAXES PAID

Income taxes – The Company paid \$327,000 and \$158,000 in income taxes for the three months ended September 30, 2013 and 2012, respectively. The Company paid \$551,700 and \$238,000 in income taxes for the nine months ended September 30, 2013 and 2012, respectively.

Interest - The Company paid \$61,635 and \$86,180 for the three months ended September 30, 2013 and 2012, respectively, in interest on the long-term debt and revolving credit line. 8) DISCONTINUED OPERATIONS

On June 30, 2012, the Company completed the wind-down of Bacchus Distribution. Bacchus Distribution was the Company's Oregon distribution division, selling both Company produced wines and wines and merchandise purchased from other sources. The decision to wind-down these distribution activities was made due to the increasingly higher regulatory and overhead costs of maintaining Bacchus as an operating unit. Distribution of Company produced wines in Oregon are now performed by an independent distribution company. All sales of purchased wines, and sale of merchandise to retailers, are considered discontinued operations.

Net sales from discontinued operation by Bacchus for the three months ended September 30, 2013 and 2012 were \$0 and \$33,645, respectively. Net sales from discontinued operation by Bacchus for the nine months ended September 30, 2013 and 2012 were \$0 and \$608,887, respectively.

ITEM 2:

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

This Management's Discussion and Analysis of Financial Condition and Results of Operations and other sections of this Form 10-Q contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements involve risks and uncertainties that are based on current expectations, estimates and projections about the Company's business, and beliefs and assumptions made by management. Words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates" and variations of such words and expressions are intended to identify such forward-looking statements. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements due to numerous factors, including, but not limited to: availability of financing for growth, availability of adequate supply of high quality grapes, successful performance of internal operations, impact of competition, changes in wine broker or distributor relations or performance, impact of possible adverse weather conditions, impact of reduction in grape quality or supply due to disease, impact of governmental regulatory decisions, and other risks disclosed from time to time in the Company's Securities and Exchange Commission filings and reports. In addition, such statements could be affected by general industry and market conditions and growth rates, and general domestic economic conditions. The forward-looking statements are made as of the date hereof, and, except as otherwise required by law, the Company disclaim any intention or obligation to update or revise any forward-looking statements or to update the reasons why the actual results could differ materially from those projected in the forward-looking statements, whether as a result of new information, future events or otherwise.

Critical Accounting Policies

The foregoing discussion and analysis of the Company's financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the Company's management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to revenue recognition, collection of accounts receivable, valuation of inventories, and amortization of vineyard development costs. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. A description of the Company's critical accounting policies and related judgments and estimates that affect the preparation of the Company's financial statements is set forth in the Company's Annual Report on Form 10-K for the year ended December 31, 2012. Such policies were unchanged during the nine months ended September 30, 2013.

Overview

The Company generates revenues from the sales of wine to wholesalers and direct to consumers. Direct to consumer sales primarily include sales through the Company's Tasting Rooms and Wine Club. Direct to consumer sales are more profitable to the Company due to prices received being closer to retail than those prices paid by wholesalers. The Company continues to emphasize growth in direct to consumer sales through the Hospitality Center remodel and expansion and growth in wine club membership. Wine Club memberships increased by approximately

390 for the three months ending September 30, 2013. Periodically, the Company will sell grapes or bulk wine, due to them not meeting Company standards or being excess to production targets, however this activity is not a significant part of the Company's activities or part of the long term business plan.

The Company sold approximately 23,415 and 24,751 cases of produced wine during the three months ended September 30, 2013 and 2012, respectively, a decrease of 1,336 cases, or 5.4% in the current year period over the prior year period. The decrease in wine sales was the result of reduced sales to distributors and is believed to involve timing differences between quarters.

Cost of Sales includes grape costs, whether purchased or grown at Company vineyards, crush costs, winemaking and processing costs, bottling, packaging, warehousing and shipping and handling costs. For grapes grown at Company vineyards, costs include farming expenditures and amortization of vineyard development costs. The Company expects cost of sales to increase, over the next several years, as lower yield vintages are released.

At September 30, 2013, wine inventory includes approximately 97,300 cases of bottled wine and 40,845 gallons of bulk wine in various stages of the aging process. Case wine is expected to be sold over the next 12 to 24 months and generally before the release date of the next vintage. The winery bottled approximately 42,155 cases during the three months ended September 30, 2013.

RESULTS OF OPERATIONS

Revenue

Sales for the three months ended September 30, 2013 and 2012 were \$3,043,546 and \$3,155,762, respectively, a decrease of \$112,216, or 3.6%, in the current year period over the prior year period. This is caused by a decrease in the current year period over the prior year period in sales through distributors of \$170,255, or 7.8%, which was partially offset by an increase in retail sales of \$58,039, or 6.0%. The decrease in sales to distributors is partially attributable to timing differences between quarters. The increase in direct sales to consumers is primarily the result of increased wine club sales, partially offset by a decrease in room rental income due to the ongoing Hospitality Center remodel and expansion project.

Sales for the nine months ended September 30, 2013 and 2012 were \$9,694,364 and \$8,729,512, respectively, an increase of \$964,852, or 11.6%, in the current year period over the prior year period. This is caused by an increase in the current year period over the prior year period in sales through distributors of \$659,215, or 10.5%, and an increase in retail sales of \$305,637, or 12.5%. These increases in sales were primarily the result of increased wine sales to distributors and direct sales to consumers.

Cost of Sales

Cost of Sales for the three months ended September 30, 2013 and 2012 were \$1,284,688 and \$1,363,569, respectively, a decrease of \$78,881, or 5.8%, in the current period over the prior year period. Cost of Sales for the nine months ended September 30, 2013 and 2012 were \$4,034,950 and \$3,624,643, respectively, an increase of \$410,307, or 11.3%, in the current period over the prior year period. These changes are primarily the result of variations in wine sales.

Gross Profit

Gross profit for the three months ended September 30, 2013 and 2012 was \$1,758,858 and \$1,792,193, respectively, a decrease of \$33,335, or 1.9%, in the current year period over the prior year period. Gross profit for the nine months ended September 30, 2013 and 2012 was \$5,659,414 and \$5,104,869, respectively, an increase of \$554,545, or 10.9%, in the current year period over the prior year period. This increase is primarily the result of increased wine sales.

Gross profit margin for the three months ended September 30, 2013 and 2012 was 57.8% and 56.8%, respectively, an increase of 1.0 percentage point, in the current year period over the prior year period. Gross profit margin for the nine months ended September 30, 2013 and 2012 was 58.4% and 58.5%, respectively, a decrease of 0.1 percentage point, in the current year period over the prior year period. The changes in gross profit margin are largely the result of a shift in product sales mix and differences in the ratio of direct sales to consumers and sales through distributors.

New financing has been secured and disbursed from Farm Credit Services for \$2.0 million to partially fund the remodel and expansion, with the balance of the costs to be funded from the Company's existing cash reserves.
