## NOTES TO UNAUDITED INTERIM FINANCIAL STATEMENTS

## 1) BASIS OF PRESENTATION

The accompanying unaudited interim financial statements as of September 30, 2015 and for the three and nine months ended September 30, 2015 and 2014 have been prepared in conformity with accounting principles generally accepted in the United States (“GAAP”) for interim financial statements. The financial information as of December 31, 2014 is derived from the audited financial statements presented in the Willamette Valley Vineyards, Inc. (the “Company”) Annual Report on Form 10-K for the year ended December 31, 2014. Certain information or footnote disclosures normally included in financial statements prepared in accordance with U.S. GAAP have been condensed or omitted pursuant to the rules and regulations of the Securities and Exchange Commission. In the opinion of management, the accompanying financial statements include all adjustments necessary (which are of a normal recurring nature) for the fair statement of the results of the interim periods presented. The accompanying financial statements should be read in conjunction with the Company’s audited financial statements for the year ended December 31, 2014, as presented in the Company’s Annual Report on Form 10-K.

Operating results for the three and nine months ended September 30, 2015 are not necessarily indicative of the results that may be expected for the entire year ending December 31, 2015, or any portion thereof.

The Company’s revenues include direct-to-consumer sales and national sales to distributors. These sales channels utilize shared resources for production, selling and distribution.

Basic earnings per share are computed based on the weighted-average number of common shares outstanding each period. Diluted earnings per share are computed using the weighted average number of shares of common stock and dilutive common shares outstanding during the period. Dilutive shares from stock options and other instruments are excluded from the computation when their effect is anti-dilutive. At September 30, 2015 and 2014, dilutive shares of 0 and 0, respectively, were excluded from the computation as their effect would be anti-dilutive.

Restricted Cash - In August 2015, the Company commenced a public offering of our Series A Redeemable Preferred Stock pursuant to a registration statement filed with the Securities and Exchange Commission. The Company also registered this transaction with the securities authorities of the States of Oregon and Washington. As of September 30, 2015, the Company held restricted cash of \$1,180,115 associated with funds for subscription agreements that had not yet been processed through the transfer agent. Additionally, the Company held restricted cash of \$1,180,115 in escrow with the transfer agent for a total restricted cash of \$3,038,278. The Company established a corresponding liability for this preferred stock funding.

## 4) DISTRIBUTION AGREEMENT RECEIVABLE AND DEFERRED REVENUE

Effective September 1, 2011, the Company entered into an agreement with Young's Market Company for distribution of Company-produced wines in Oregon and Washington. The terms of this contract include exclusive rights to distribute Willamette Valley Vineyard's wines in Oregon and Washington for seven years. In an effort to facilitate the transition with as little disruption as possible, Young's Market Company agreed to compensate Willamette Valley Vineyards for ongoing Oregon sales and branding efforts. As a result, the Company was due to receive \$250,000 per year starting on September 2011 for each of the next four years for a total of \$1,000,000. In October of 2014, the Company received payment of the final \$250,000 under this agreement. The total amount of \$1,000,000 received by the Company related to this agreement is being recognized as revenue on a straight line basis over the seven year life of the agreement. ## 9) SEGMENT REPORTING

The Company has identified two operating segments, Direct Sales and Distributor Sales, based upon their different distribution channels, margins and selling strategies. Direct Sales includes retail sales in the tasting room and remote sites, Wine Club sales, on-site events, kitchen and catering sales and other sales made directly to the consumer without the use of an intermediary, including sales of bulk wine or grapes. Distributor Sales include all sales through a third party where prices are given at a wholesale rate.

The two segments reflect how the Company's operations are evaluated by senior management and the structure of its internal financial reporting. The Company evaluates performance based on the gross profit of the respective business segments. Selling expenses that can be directly attributable to the segment, including depreciation of segment specific assets, are included, however, centralized selling expenses and general and administrative expenses are not allocated between operating segments. Therefore, net income information for the respective segments is not available. Discrete financial information related to segment assets, other than segment specific depreciation associated with selling, is not available and that information continues to be aggregated.

The following table outlines the sales, cost of sales, gross margin, directly attributable selling expenses, and contribution margin of the segments for the three and nine month periods ending September 30, 2015 and 2014. Sales figures are net of related excise taxes.

Subsequent events are events or transactions that occur after the balance sheet date but before financial statements are issued. The Company recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the balance sheet, including the estimates inherent in the process of preparing the financial statements. The Company's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the balance sheet but arose after the balance sheet date and before financial statements are issued.

In October of 2015, the Company applied to the NASDAQ stock exchange to list its newly issued preferred stock. That application was approved and the preferred stock began listing, under the trading symbol of WVVIP, on November 2, 2015.

In November of 2015 the Board of Directors approved a program to repurchase common stock of the Company. Under previous board actions the Company had maintained stock repurchase programs which resulted in 149,899 shares of common stock repurchased for \$675,127. Under the November 2015 board action, the Company funded a plan to repurchase up to \$250,000 of common stock through the open market. This plan is intended to remain in place until all funding for the plan is depleted or the plan is expanded or terminated by the Board of Directors.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

Forward Looking Statements

This Management's Discussion and Analysis of Financial Condition and Results of Operations and other sections of this Form 10-Q contain forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements involve risks and uncertainties that are based on current expectations, estimates and projections about the Company's business, and beliefs and assumptions made by management. Words such as "expects," "anticipates," "intends," "plans," "believes," "seeks," "estimates" and variations of such words and expressions are intended to identify such forward-looking statements. Therefore, actual outcomes and results may differ materially from what is expressed or forecasted in such forward-looking statements due to numerous factors, including, but not limited to: availability of financing for growth, availability of adequate supply of high quality grapes, successful performance of internal operations, impact of competition, changes in wine broker or distributor relations or performance, impact of possible adverse weather conditions, impact of reduction in grape quality or supply due to disease, impact of governmental regulatory decisions, and other risks disclosed from time to time in the Company's Securities and Exchange Commission filings and reports. In addition, such statements could be affected by general industry and market conditions and growth rates, and general domestic economic conditions. The forward-looking statements are made as of the date hereof, and, except as otherwise required by law, the Company disclaims any intention or obligation to update or revise any forward-looking statements or to update the reasons why the actual results could differ materially from those projected in the forward-looking statements, whether as a result of new information, future events or otherwise.

Critical Accounting Policies

The foregoing discussion and analysis of the Company's financial condition and results of operations are based upon our financial statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America. The preparation of these financial statements requires the Company's management to make estimates and judgments that affect the reported amounts of assets, liabilities, revenues and expenses, and related disclosure of contingent assets and liabilities. On an on-going basis, the Company evaluates its estimates, including those related to revenue recognition, collection of accounts receivable, valuation of inventories, and amortization of vineyard development costs. The Company bases its estimates on historical experience and on various other assumptions that are believed to be reasonable under the circumstances. Actual results may differ from these estimates under different assumptions or conditions. A description of the Company's critical accounting policies and related judgments and estimates that affect the preparation of the Company's financial statements is set forth in the Company's Annual Report on Form 10-K for the year ended December 31, 2014. Such policies were unchanged during the nine months ended September 30, 2015.

Overview

The Company generates revenues from the sales of wine to wholesalers and direct to consumers. Direct to consumer sales primarily include sales through the Company's Tasting Rooms and Wine Club. Direct to consumer sales are more profitable to the Company due to prices received being closer to retail than those prices paid by wholesalers. The Company continues to emphasize growth in direct to consumer sales through the Hospitality Center remodel and expansion and growth in wine club membership. Wine Club membership increased by approximately 679 net new members, or 11.9%, to a total of 6,394 members for the nine months ending September 30, 2015. Periodically, the Company will sell grapes or bulk wine, due to them not meeting Company standards or being

excess to production targets, however this activity is not a significant part of the Company's activities.

The Company sold approximately 87,765 and 76,624 cases of produced wine during the nine months ended September 30, 2015 and 2014, respectively, an increase of 11,141 cases, or 14.5% in the current year period over the prior year period. The increase in wine sales was the result of increased direct to consumer sales as well as increased sales through distributors.

Cases sold in 2015 include approximately 43 cases of unfulfilled "futures", where a customer prepays for a wine not yet released. Cases sold in 2014 include approximately 67 cases of unfulfilled "futures", where a customer prepays for a wine not yet released. Proceeds from these sales are not recognized as revenue until shipped and are reflected as unearned revenue. Selling expenses for these sales are recognized in the period in which the expense is incurred.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS - continued

Cost of sales includes grape costs, whether purchased or grown at Company vineyards, winemaking and processing costs, bottling, packaging, warehousing and shipping and handling costs. For grapes grown at Company vineyards, costs include farming expenditures and amortization of vineyard development costs.

At September 30, 2015, wine inventory includes approximately 98,000 cases of bottled wine and 170,000 gallons of bulk wine in various stages of the aging process. Case wine is expected to be sold over the next 12 to 24 months and generally before the release date of the next vintage. The winery bottled approximately 121,000 cases during the nine months ended September 30, 2015.

Net income for the three months ended September 30, 2015 and 2014 was \$454,256 and \$573,946, respectively, a decrease of \$119,690, or 20.9%, in the current year period over the prior year period. ## RESULTS OF OPERATIONS

### Revenue

Sales for the three months ended September 30, 2015 and 2014 were \$4,244,519 and \$4,046,201, respectively, an increase of \$198,318, or 4.9%, in the current year period over the prior year period. This is caused by an increase in direct sales of \$372,474, including bulk wine sales increase of \$6,690, partially offset by a decrease in sales through distributors of \$174,156 in the current year three month period over the prior year period. Sales for the nine months ended September 30, 2015 and 2014 were \$12,878,174 and \$10,711,492, respectively, an increase of \$2,166,682 or 20.2%, in the current year period over the prior year period. This is caused by an increase in direct sales of \$1,436,289, including bulk wine sales increase of \$447,893, and an increase in sales through distributors of \$730,393 in the current year nine month period over the prior year period. The increase in direct sales to consumers is primarily the result of increased wine club, tasting room and kitchen sales in addition to an increase in bulk wine sales in 2015 when compared to 2014. Management believes that the increase in sales through distributors was due to increased sales made to several large chain retailers in the nine months ended September 30, 2015.

### Cost of Sales

Cost of Sales for the three months ended September 30, 2015 and 2014 were \$1,608,568 and \$1,546,588, respectively, an increase of \$61,980, or 4.0%, in the current period over the prior year period. Cost of Sales for the nine months ended September 30, 2015 and 2014 were \$5,178,536 and \$4,249,126, respectively, an increase of \$929,410, or 21.9%, in the current period over the prior year period. This change was primarily the result of an overall increase in sales of wine, in addition to a write down of inventory of \$142,972 in the three months ended September 30, 2015, partially offset by a shift to more direct sales to consumers which achieve a higher profit margin.

### Gross Profit

Gross profit for the three months ended September 30, 2015 and 2014 was \$2,635,951 and \$2,499,613, respectively, an increase of \$136,338, or 5.5%, in the current year period over the prior year period. Gross profit for the nine months ended September 30, 2015 and 2014 was \$7,699,638 and \$6,462,366, respectively, an increase of \$1,237,272, or 19.1%, in the current year period over the prior year period. This increase is primarily the result of an overall increase in sales including a shift to more direct sales to consumers which achieve a higher profit margin.

This increase is primarily the result of increased selling expenses, including depreciation and staffing, associated with an increased focus on retail sales and operating the remodeled Hospitality Center, and an increased emphasis on promoting sales through distributors including product demonstrations.

Interest Expense

Interest expense for the three months ended September 30, 2015 and 2014 was \$76,535 and \$81,242, respectively, a decrease of \$4,707 or 5.8%, in the current year period over the prior year period. The reduction in interest expense was the result of reduced debt in the current year when compared to the prior year. The Company's estimated federal and state combined income tax rate was 35.8% and 38.4% for the three months ended September 30, 2015 and 2014, respectively. This decrease is primarily the result of decreased sales through distributors in the current period when compared to the prior year period in addition to a write down of inventory that occurred in the current year period that did not occur in the prior year. Net income for the nine months ended September 30, 2015 and 2014 was \$1,278,725 and \$1,295,396, respectively, a decrease of \$16,671, or 1.3%, in the current year period over the prior year period. This decrease is primarily the result of an increase in income from operations partially offset by a decrease in other income which was the result of the Company receiving insurance proceeds in 2014 that did not occur in 2015.

CONTROLS AND PROCEDURES

Disclosure Controls and Procedures – The Company carried out an evaluation as of the end of the period covered by this Quarterly Report on Form 10-Q, under the supervision and with the participation of the Company’s management, including the Company’s Chief Executive Officer and the Company’s Chief Financial Officer, of the effectiveness of the Company’s disclosure controls and procedures pursuant to paragraph (b) of Rule 13a-15 and 15d-5 under the Exchange Act. Based on that review, the Chief Executive Officer and the Chief Financial Officer have concluded that the Company’s disclosure controls and procedures are effective, as of the end of the period covered by this report, to ensure that information required to be disclosed by the Company in the reports the Company files or submit under the Exchange Act (1) is recorded, processed, summarized, and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms, and (2) is accumulated and communicated to the Company’s management, including the Company’s principal executive officer and principle financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting – There have been no changes in our internal control over financial reporting during the quarter ended September 30, 2015 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II: OTHER INFORMATION

Item 1 - Legal Proceedings.

From time to time, the Company is a party to various judicial and administrative proceedings arising in the ordinary course of business. The Company’s management and legal counsel have reviewed the probable outcome of any proceedings that were pending during the period covered by this report, the costs and expenses reasonably expected to be incurred, the availability and limits of the Company’s insurance coverage, and the Company’s established liabilities. While the outcome of legal proceedings cannot be predicted with certainty, based on the Company’s review, the Company believes that any unrecorded liability that may result as a result of any legal proceedings is not likely to have a material effect on the Company’s liquidity, financial condition or results from operations.

Item 1A - Risk Factors.

In addition to the other information set forth in this Report, you should carefully consider the factors discussed in Part I, “Item 1A. Risk Factors” in our 2014 Report, which could materially affect our business, results of operations or financial condition. The risks described in our 2014 Report are not the only risks facing us. Additional risks and uncertainties not currently known to us or that we currently deem to be immaterial also may eventually prove to materially adversely affect our business, results of operations or financial condition.

The Company may face liabilities associated with the offer and sale of our preferred stock. In August 2015, the Company commenced a public offering of our Series A Redeemable Preferred Stock pursuant to a registration statement filed with the Securities and Exchange Commission. The Company has registered this transaction with the securities authorities of the States of Oregon and Washington. The terms of our Series A Redeemable Preferred Stock are unusual for a company of our size, and we believe the structure of these securities and of the offering are not commonplace among issuers of any type. Federal and state securities laws impose significant liabilities on issuers of securities if the related offering documents contain material misstatements of fact, or if the documents omit to state facts necessary, in light of the circumstances as a whole, to prevent the documents from being misleading. These

liabilities can include rescission liability to the purchasers of the securities, as well as potential enforcement liability that could give rise to civil money penalties. Securities litigation can be extraordinarily expensive and protracted, and if we are accused of misstatements or omissions in our offering documents, we may face economic harms and management distractions regardless of the ultimate outcome of any such litigation. Further, if we ultimately are adjudged to have actually made a material misstatement or omission, the Company may be liable for the repayment of the purchase price of the related securities, plus interest from the date of purchase. Any one or more of these events or circumstances would have a material adverse impact upon our business, financial condition or results of operations, and may make it more difficult or more expensive to undertake capital-raising efforts in the future.
