EARTHSHELL CORPORATION

**PROXY STATEMENT
FOR
ANNUAL MEETING OF STOCKHOLDERS
JUNE 28, 2004**

This Proxy Statement is furnished to the stockholders of EarthShell Corporation, a Delaware corporation (the "Company"), in connection with the solicitation of proxies by the Board of Directors of the Company for use at the 2004 Annual Meeting of Stockholders (the "Annual Meeting") to be held at the Radisson Hotel, 1111 East Cabrillo Boulevard, Santa Barbara, California 93101, at 10:00 a.m. Pacific Daylight Time, on June 28, 2004, and at any and all adjournments or postponements thereof. This Proxy Statement and the form of proxy will be mailed on or about June __, 2004 to all stockholders entitled to vote at the Annual Meeting.

The cost of the solicitation of proxies will be borne by the Company. In addition to solicitation by mail, directors and officers of the Company, without receiving any additional compensation, may solicit proxies personally or by telephone or telegraph. The Company will request brokerage houses, banks, and other custodians or nominees holding stock in their names for others to forward proxy materials to their customers or principals who are the beneficial owners of shares and will reimburse them for their expenses in doing so. The Company has retained the services of U.S. Stock Transfer Corporation to assist in the solicitation of proxies from brokerage houses, banks and other custodians or nominees holding stock in their names for others.

Record Date and Voting

On May 10, 2004, the record date for the determination of stockholders entitled to notice of, and to vote at, the Annual Meeting, the Company had 14,128,966 shares of common stock, par value \$.01 per share (the "Common Stock"), outstanding. Each such share of Common Stock is entitled to one vote on all matters properly brought before the meeting. The vote of a plurality of the shares cast in person or by proxy is required to elect a nominee for director. With respect to the election of each director at the Annual Meeting, each holder of Common Stock is entitled to vote the number of shares owned by such stockholder. The nominees who receive the greatest number of votes, up to the number of directors then to be elected, shall be the persons then elected. Stockholders are not permitted to cumulate their shares of Common Stock for the purpose of electing directors or otherwise.

Presence at the Annual Meeting, in person or by proxy, of a majority of the outstanding shares of Common Stock will constitute a quorum for the transaction of business at the Annual Meeting or any adjournment thereof. Abstentions or broker non-votes are counted for purposes of determining the presence of a quorum for transaction of business. With regard to the election of directors, votes may be cast in favor or withheld; votes that are withheld will be excluded entirely from the vote and will have no effect. Broker non-votes are shares which are represented at the Annual Meeting which a broker or nominee has indicated it does not have discretionary authority to vote. A broker non-vote will generally have

the effect of a negative vote.

Simon K. Hodson and D. Scott Houston, the persons named as proxy holders on the proxy card accompanying this Proxy Statement, were selected by the Board of Directors to serve in that capacity. Mr. Hodson is a director of the Company.

Unless contrary instructions are indicated on the proxy, all shares of Common Stock represented by valid proxies received pursuant to this solicitation (and not revoked in writing before they are voted) will be voted at the Annual Meeting FOR the nominees named below for election as directors. With respect to any other business, which may properly come before the Annual Meeting and be submitted to a vote of stockholders, proxies received by the Board of Directors will be voted in accordance with the best judgment of the designated proxy holders. Under the Company's Bylaws, stockholder proposals may be made at the Annual Meeting only pursuant to a timely notice in writing delivered or mailed to the Secretary of the Company at the Company's offices at 6740 Cortona Drive, Santa Barbara, California 93117 not later than the tenth day following the first public announcement of the Annual Meeting. A stockholder may revoke his or her proxy at any time before exercise by delivering to the Secretary of the Company a written notice of such revocation, by filing with the Secretary of the Company a duly executed proxy bearing a later date, or by voting in person at the Annual Meeting, provided that, in accordance

1

with the Company's Bylaws, the stockholder has delivered to the Secretary a written notice of the stockholder's intention to revoke the proxy and vote in person prior to the voting of the proxy.

Committees of the Board of Directors

The Board maintains five standing committees: the Executive Committee of the Board of Directors, the Audit Committee, the Compensation Committee, the Stock Option Committee and the Conflicts Committee. The Company does not have a standing Nominating Committee, as the Board believes that the process is best conducted by the entire Board of Directors. Therefore, the Board performs the functions of the nominating

Edgar Filing: EARTHSHELL CORP - Form PRE 14A

committee and the Company does not have a written charter for such a committee.

The Board utilizes a variety of methods for identifying and evaluating nominees for director. The Board's policy is to assess the appropriate size of the Board, and whether any vacancies are expected due to retirement or otherwise. In the event that vacancies are anticipated, or otherwise arise, the Board considers various potential candidates for director. Candidates may come to the attention of the Board through its current members, stockholders or other persons. These candidates are evaluated at regular or special meetings, and may be considered at any point during the year. The Board considers properly submitted stockholder nominations for candidacy for director.

In evaluating such nominations, like all nominations, the Board considers a variety of criteria, including business experience and skills, independence, judgment, integrity, the ability to commit sufficient time and attention to Board activities and the absence of potential conflicts with the Company's interests.

3

Any stockholder nominations proposed for consideration by the Board should include the nominee's name and qualifications for Board membership and should be addressed to EarthShell Corporation, 6740 Cortona Drive, Santa Barbara, California 93117, Attention: Board of Directors. Following verification of the stockholder status of persons recommending candidates to the Board, recommendations are aggregated and considered by the Board at a regularly scheduled meeting. If any materials are provided by a stockholder in connection with the nomination of a director candidate, such materials are forwarded to the Board.

The committees are presently comprised of the following directors:

The Audit Committee also received from the independent auditors the written disclosures required by Independence Standards Board Standard No. 1 (Independence Discussions with Audit Committees), and discussed with them their independence from the Company and its management. The Audit Committee has further considered whether, and determined that, the independent auditors provision of non-audit services to the Company is compatible with the firm's independence.

Edgar Filing: EARTHSHELL CORP - Form PRE 14A

In reliance on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited financial statements be included in the Company's Annual Report on Form 10-K for the year ended December 31, 2003 for filing with the Securities and Exchange Commission.

Mr. Walker Rast

The above report of the Audit Committee shall not be deemed incorporated by reference by any general statement incorporating by reference this Proxy Statement into any filing under the Securities Act of 1933 or under the Securities Exchange Act of 1934, except to the extent that the Company specifically incorporates this information by reference, and shall not be deemed filed under such Acts.

Compensation of Directors

Under a compensation plan based on a study conducted by SCA Consulting LLC, the Board pays to each non-employee director an annual retainer fee of \$20,000, payable quarterly, plus a fee of \$1,000 for each regular meeting attended in person. Committee chairpersons receive an additional \$1,000 per year. All of the directors, except for Mr. Hodson, are currently considered to be non-employee directors of the Company.

The 1995 Stock Incentive Plan, as amended, provides that each non-employee director automatically be granted options to purchase 2,083 shares of the Company's Common Stock, effective at the conclusion of each annual meeting. All such stock options (i) vest ratably at 25% at the end of each calendar quarter following the grant, provided the director holding the options continues to serve as a director at the end of each such quarter, and (ii) have an exercise price equal to the fair market value of the underlying shares, which is defined in the 1995 Stock Incentive Plan as the closing trading price on the day before such annual meeting.

In April 2004, based on the financial condition of the Company, the Board of Directors unanimously agreed to defer the payment of the Director fees discussed above until such time as the financial condition of the Company improves.

PROPOSAL NO. 2

AMENDMENT OF THE COMPANY'S CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES

The Board of Directors has approved and is hereby soliciting stockholder approval of an amendment to the Certificate of Incorporation to (i) increase the number of shares of Common Stock the Company is authorized to issue from 25,000,000 to 40,000,000 and in connection therewith (ii) to increase the total number of shares of all classes of stock that the Company is authorized to issue from 35,000,000 to 50,000,000. The full text of the proposed amendment to the Certificate of Incorporation is set forth below. The Company is currently authorized to issued 25,000,000 shares of Common Stock and 10,000,000 shares of preferred stock, par value \$0.01 per share (Preferred Stock). If the stockholders approve this proposal, the Board of Directors will have the authority, in its sole discretion, to file such an amendment at any time after the Annual Meeting.

Purposes and Effects of the Proposed Amendments

The proposed amendment would increase the number of shares of Common Stock the Company is authorized to issue from 25,000,000 to 40,000,000. The additional 15,000,000 shares would become a part of the existing class of Common Stock and, if and when issued, would have the same rights, privileges and preferences as the shares of Common Stock presently issued and outstanding. On May 10, 2004, 14,128,966 shares of Common Stock were issued and outstanding and held of record by 1,175 registered stockholders. The Board of Directors believes it is desirable to increase the number of shares of Common Stock the Company is authorized to issue to provide the Company with adequate authorized share capital for possible future issuances.

The issuance of additional shares of Common Stock might dilute, under certain circumstances, the ownership and voting rights of the stockholders. The proposed increase in the number of shares of Common Stock that the Company is authorized to issue is not intended to inhibit a change in control of the Company. The availability for issuance of additional shares of Common Stock could, however, discourage, or make

Edgar Filing: EARTHSHELL CORP - Form PRE 14A

more difficult, efforts to obtain control of the Company. For example, the issuance of shares of Common Stock in a public or private sale, merger or similar transaction would increase the number of outstanding shares, thereby possibly diluting the interest of a party attempting to obtain control of the Company. The Company is not aware of any pending or threatened efforts to acquire control of the Company. The Company has no present commitments, agreements or intent to issue additional shares of Common Stock other than with respect to currently reserved shares, in connection with transactions in the ordinary course of the Company's business or shares which may be issued under the Company's 1995 Stock Incentive Plan. Other than increasing the number of authorized shares of the Company's Common Stock, the proposal to increase the authorized shares of Common Stock will not affect the rights, preferences or privileges of the Company's stockholders.

Amendments to Certificate of Incorporation

If approved, Article V, Section 1 of the Certificate of Incorporation would be amended and restated substantially as follows:

Number of Authorized Shares. The Corporation shall be authorized to issue two classes of shares of stock to be designated, respectively, Common Stock and Preferred Stock. The total number of shares of all classes of stock that the Corporation shall have the authority to issue is Fifty Million (50,000,000) shares, consisting of Forty Million (40,000,000) shares of Common Stock, par value \$0.01 per share and Ten Million (10,000,000) shares of Preferred Stock, par value \$0.01 per share.

Vote Required

Approval of Proposal No. 2 requires the affirmative vote of a majority of the shares of the Company's Common Stock entitled to notice of, and to vote at, the Annual Meeting. Abstentions and broker non-votes will be counted as a vote against this proposal.

The Board of Directors believes that approval of Proposal No. 2 is in the best interests of the Company for the reasons stated above. THEREFORE, THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE FOR APPROVAL OF PROPOSAL NO. 2.

Section 16(a) Beneficial Ownership Reporting Compliance

Edgar Filing: EARTHSHELL CORP - Form PRE 14A

Compensation Committee Interlocks and Insider Participation

All decisions relating to executive compensation during 2003 were made by the Company's Compensation Committee, which was comprised of Mr. Khashoggi, Mrs. Khashoggi and Mr. Moyer through July 2003 (at which time Mr. Moyer resigned from the Board), and Mr. Khashoggi, Mrs. Khashoggi and Dr. Roland from July 2003 through December 31, 2003. None of the members were officers of the Company in 2003. Mr. Khashoggi is the controlling stockholder of EKI, the Company's principal stockholder with whom the Company has certain relationships and related transactions described below. Mr. Khashoggi is the beneficial owner of 35.91% of the Common Stock of the Company.

The Company has an exclusive, worldwide, royalty-free license to use and license EKI technology to manufacture and sell disposable, single-use containers for packaging or serving food and beverages intended for consumption within a short period of time (less than 24 hours).

Edgar Filing: EARTHSHELL CORP - Form PRE 14A

On July 29, 2002, the Company entered into an amendment to its Amended and Restated License Agreement with EKI (the License Agreement) expanding the field of use for the EarthShell technology to include noodle bowls used for packaging instant noodles. Because the noodle bowl development was made at no cost to EarthShell and is an incremental field of use, EarthShell will pay to EKI 50% of any royalty or other consideration it receives in connection with the sale of products within this field of use.

In addition, on July 29, 2002 the Company entered into a License & Information Transfer Agreement with Biotec (the Biotec Agreement), a wholly owned subsidiary of EKI, to utilize Biotec technology for foodservice applications, including food wraps and cutlery used in foodservice applications. EKI had previously granted to the Company priority rights to license certain product applications on an exclusive basis from Biotec in consideration for the Company's payment of a \$100,000 monthly licensing fee to Biotec. In addition, in consideration of the monthly payment, Biotec agreed to render technical services to the Company at Biotec's cost plus 5%. The licensing fee and services arrangements were continued in the Biotec Agreement. Under the terms of the Biotec Agreement, Biotec is entitled to receive 25% of any royalties or other consideration that the Company receives in connection with the sale of products utilizing Biotec technology.

During 2002, and January 2003, EKI made a series of loans to the Company totaling approximately \$5.8 million. These loans were used to pay operating costs, and accrued interest at 7% or 10% per annum. In connection with the issuance and sale in March 2003 of the Company's 2% secured convertible debentures due in 2006 (the 2006 Debentures) to a group of institutional investors, EKI agreed to subordinate the repayment of these loans to the payment in full of the Company's obligations under the 2006 Debentures. In addition, EKI and Biotec agreed to subordinate certain payments to which they were otherwise entitled under the License Agreement and the Biotec Agreement referenced above (other than their respective percentages of any royalties received by the Company) to the satisfaction in full of the Company's obligations under the 2006 Debentures. They further agreed to not assert any claims against the Company for breaches of the License Agreement or the Biotec Agreement (other than the assertion of certain equitable remedies to enjoin the Company from, for example, selling products outside its field of use) until such time as the Company's obligations under the 2006 Debentures are satisfied in full. EKI and Biotec also agreed to allow the Company to pledge its interest in the License Agreement to secure its obligations under the 2006 Debentures, and certain additional concessions were made by EKI and Biotec to permit the Company greater flexibility in selling its rights under the License Agreement and the Biotec Agreement to third parties in an insolvency context. These rights terminate upon the satisfaction in full of the obligations under the 2006 Debentures. In consideration for its willingness to subordinate the payments and advances that are owed to it, the Company issued to EKI in March 2003 an immediately vested warrant to acquire 83,333 shares of the Company's common stock at a price of \$6.00 per share with a ten year term.

Under the terms of the License Agreement and the Amended and Restated Patent Agreement for the Allocation of Patent Costs between the Company and EKI, any patents granted in connection with the EarthShell technology are the property of EKI, and EKI may obtain a benefit therefrom, including the utilization and/or licensing of the patents and related technology in a manner or for uses unrelated to the license granted to the Company in the foodservice disposables field of use. Effective January 1, 2001, EarthShell assumed direct responsibility to manage and maintain the patent portfolio underlying the License Agreement with EKI and to pay directly all related costs.

In connection with the issuance and sale of the 2006 Debentures, Mr. Essam Khashoggi, who controls EKI and is the beneficial owner of 35.91% of the Company's Common Stock, agreed for himself and on behalf of EKI,

15

not to sell any of the Company's shares for an 18 month period ending in August 2004 (excluding shares issuable to former EKI employees under existing option grants and shares pledged under an existing security agreement with a third party lender).

During 1998, EKI entered into certain agreements with an equipment manufacturer providing for the purchase by EKI of certain technology applicable to starch-based disposable packaging. EKI licenses such technology to the Company on a royalty-free basis pursuant to the License Agreement. In connection with this purchase, and pursuant to the terms of a letter agreement with EKI, the Company agreed to pay the seller of the technology \$3.5 million on or about December 31, 2003. In the fourth quarter of 2003, the Company negotiated a reduction of the obligation to \$1.6 million, which was then paid in the fourth quarter of 2003. In addition, the Company is required to pay the seller \$3.0 million over the five-year period commencing January 1, 2004 if EKI, the Company or their licensees make active use of the technology and have not purchased, by December 31, 2003, at least \$35.0 million of equipment from the seller. As of December 31, 2003, the Company and its licensees have neither actively used the technology nor purchased equipment from the seller. The Company does not plan to make active use of the technology during the year ending December 31, 2004. EKI has agreed to indemnify the Company to the extent the Company is required to pay any portion of this \$3.0 million obligation solely as a result of EKI's or its licensees' active use of such patents and related technology (other than use by the Company or its sublicensees).

In July 2002, the Company extended a loan in the amount of \$55,000 to Mr. Vincent Truant, President and Chief Operating Officer. The loan, which bears interest at 7% per annum and is evidenced by a promissory note in favor of the Company, is due upon demand by the Company.

Edgar Filing: EARTHSHELL CORP - Form PRE 14A

In 2003, the Company paid Mr. Rast, a Director, a \$4,000 consulting fee for doing a detailed evaluation of its demonstration equipment in Europe.

Compensation Components

The Company's executive compensation program consists of a mixture of base salary, cash bonuses and stock options. In determining the mix and total amount of compensation for each executive officer, the Compensation Committee subjectively considers each executive's overall value to the Company including past and expected contributions by the executive to the Company's goals. In addition, the Compensation Committee strives to balance short-term and long-term incentive compensation to achieve desired results.

Shortly following the Company's initial public offering in March 1998, anticipating that it would be hiring several new executives as part of its next stage of development, the Company commissioned SCA Consulting LLC (SCA), a Los Angeles based executive compensation consulting firm, to update its executive compensation strategy and total pay structure. As part of its assignment, SCA developed a study of the

Edgar Filing: EARTHSHELL CORP - Form PRE 14A

compensation practices of newly public, development stage companies. The Compensation Committee references this study as it administers each of the three components of its executive compensation program to ensure that its compensation practices are competitive and that the overall compensation package appropriately attracts, motivates, rewards, and retains key employees with outstanding abilities.

Base Salary. The Company has historically determined base salary for its executives based on qualifications, job requirements and competitive market salaries that such qualifications and job requirements command. As the Company grows, it will continue to rely on peer group competitive compensation practices to remain consistent and competitive in its compensation practices.

The Company paid base compensation to Mr. Vincent Truant, President and Chief Operating Officer, in the amount of \$350,000 for his services to the Company during 2003. Pursuant to an employment agreement effective October 15, 1993, Mr. D. Scott Houston, Chief Financial Officer and Secretary received base compensation during 2003 of \$327,200, reflecting various adjustments since 1993. In addition, the Company paid a base salary to Dr. Per J. Andersen, Chief Science Officer in the amount of \$287,200 for his services to the Company during 2003. The base salary figures for Mr. Houston and Dr. Andersen reflect a \$7,200 car allowance.

Salaries for executives are reviewed by the Compensation Committee on an annual basis and may be adjusted based upon their assessment of the individual's contribution to and financial growth of the Company as well as competitive pay levels. The Compensation Committee made no executive salary adjustments in 2003. In order to conserve cash until the Company is able to establish its royalty revenue stream, Mr. Hodson and Mr. Houston agreed to a 40% and 75% reduction in base salary, respectively, effective April 16, 2004.

Bonus. Bonuses may be granted for a fiscal year after the financial results for that fiscal year become available. The Compensation Committee meets to consider annual bonuses for each executive based on individual performance as well as overall financial results of the Company for the year. There is no plan requiring that bonuses be paid. However, pursuant to their employment agreements, certain executive officers may be entitled to receive an annual bonus, the actual amount of which is determined in the sole discretion of the Compensation Committee.

The Compensation Committee also may consider bonus compensation in light of the accomplishment of specific milestones developed by management in support of the annual strategic plan.

On March 24, 2004, the Compensation Committee met to review and consider the performance of senior management. In determining whether to grant management bonuses for 2003, the Compensation Committee considered both individual performance as well as the Company's overall performance. Although the Compensation Committee noted several significant individual and Company achievements during the year, in light of the delays the Company has experienced in commercializing the Company's technology as well as the financial condition of the Company, the Compensation Committee determined that no bonuses for 2003 would be granted.

Stock Options. The Compensation Committee believes that significant equity interests in the Company in the form of stock options held by the Company's management serve to align the interests of the executive management team with those of stockholders. The Stock Option Committee may grant stock options and restricted stock to executives and other key employees of the Company pursuant to the 1995 Stock Incentive Plan. In September of 2003, the Stock Option Committee granted to individual members of management fully vested stock options issued

under the 1995 Stock Incentive Plan at the then-current market price exercisable only upon successful completion of certain milestones that are critical to the long-term success of the Company. The option grants were as follows:

	<u>Stock Options</u>
Simon K. Hodson	41,667
Vincent Truant	20,833
D. Scott Houston	20,833
Per J. Andersen	20,833

The stock options granted are reflected in the Stock Options Grant table.

The Stock Option Committee will continue to consider various methods to provide additional incentives to management and employees of the Company, including granting additional stock options and/or restricted stock. In determining the grants of stock options and restricted stock, the

Stock Option Committee will take into account, among other things, the respective scope of responsibility and the anticipated performance requirements and contributions to the Company of each proposed award recipient as well as the amounts of prior grants.

Compensation to Chief Executive Officer in 2003

The Compensation Committee meets annually to evaluate the Chief Executive Officer's performance and to review the Chief Executive Officer's compensation. A founder of the Company and co-innovator of the technology, Mr. Simon K. Hodson has been a driving force in making the Company a corporation and as a new packaging concept a reality. His concern for the environment, coupled with his visionary leadership and commitment, has helped the Company achieve its current state of development.

In reviewing Mr. Simon Hodson's compensation, the Compensation Committee considers his principal responsibilities, which include providing overall vision and strategic direction for EarthShell, attracting and retaining highly qualified employees and developing and maintaining key customer and capital relationships.

Mr. Hodson received a base compensation of \$500,000 during 2003. This amount was based on the Compensation Committee's assessment that Mr. Hodson is uniquely qualified to lead the Company through its early development stages to initial commercialization. The Board determined that his vision for the Company, both from a technical and business viewpoint, continues to be pivotal in bringing the Company to the point of commercializing its first product lines. Based in part on the foregoing, the Compensation Committee concluded that the \$500,000 base salary compensation was appropriate for 2003.

In order to conserve cash until the Company is able to establish its royalty revenue stream, Mr. Hodson agreed to a 40% reduction in base salary effective April 16, 2004.

In determining Mr. Hodson's 2003 annual bonus, the Compensation Committee considered both Mr. Hodson's individual performance as well as that of the Company overall. Although the Compensation Committee noted several significant achievements during the year, in light of the delays the Company has experienced in commercializing the Company's technology as well as the financial condition of the Company, the Compensation Committee determined that no bonus for 2003 would be granted.

On September 19, 2003, Mr. Hodson was granted 10-year, fully vested options to purchase 41,667 shares of Common Stock at the then-current market value, exercisable only after the completion of certain milestones that are critical to the long-term success of the Company.

Mr. Hodson owns a minority profits interest in EKI, the Company's majority stockholder.

Deductibility of Executive Compensation

Section 162(m) of the Internal Revenue Code of 1986, as amended (the Code), limits the deductibility of compensation over \$1 million to certain executive officers unless, in general, the compensation is paid pursuant to a plan which is performance related, non-discretionary and has been approved by the Company's stockholders. The Company did not pay any compensation in 2003 that would be subject to Code Section 162(m). The Compensation Committee intends to establish policies regarding qualification of compensation under Section 162(m) of the Code to the extent it considers such policies appropriate.
