Financial highlights

Delaware Investments Dividend and Income Fund, Inc.

Selected data for each share of the Fund outstanding throughout each period were as follows:

	Six Months Ended 5/31/06(1)		
	(Unaudited)	11/30/05	11/30/04
Net asset value, beginning of period	\$ 12.650	\$ 12.960	\$ 11.700
Income (loss) from investment operations:			
Net investment income(3)	0.215	0.623	0.625
Net realized and unrealized gain (loss) on investments and foreign currencies	0.485	0.027	1.595
Total from investment operations	0.700	0.650	2.220
Less dividends and distributions from:			
Net investment income	(0.453)	(0.722)	(0.663)
Net realized gain on investments	(0.137)	(0.238)	(0.297)
Return of capital	-	-	-
Total dividends and distributions	(0.590)	(0.960)	(0.960)
Net asset value, end of period	\$ 12.760	\$ 12.650	\$ 12.960
Market value, end of period	\$ 12.160	\$ 12.550	\$ 11.760
Total return based on:(4)			
Market value	1.71%	15.38%	7.78%
Net asset value	5.89%	5.44%	20.29%
Ratios and supplemental data:			
Net assets, end of period (000 omitted)	\$147,823	\$146,638	\$166,929
Ratio of expenses to average net assets	2.56%	2.20%	1.51%
Ratio of expenses to adjusted average net assets (before interest expense) (5)	0.80%	0.91%	0.76%
Ratio of interest expense to adjusted average net assets(5)	1.14%	0.78%	0.36%
Ratio of net investment income to average net assets	3.35%	4.81%	5.10%
Ratio of net investment income to adjusted average net assets(5)	2.54%	3.70%	3.78%
Portfolio turnover	60%	94%	89%

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

Leverage Analysis:

Debt outstanding at end of period at par (000 omitted)	\$48,000	\$48,000	\$55,000
Average daily balance of debt outstanding (000 omitted)	\$47,722	\$51,697	\$54,893
Average daily balance of shares outstanding (000 omitted)	11,589	12,361	12,876
Average debt per share	\$ 4.120	\$ 4.180	\$ 4.260
Asset coverage per \$1,000 of debt outstanding at end of period	\$ 4,101	\$ 4,073	\$ 4,044

- (1) Ratios and portfolio turnover have been annualized and total return has not been annualized.
- (2) As required, effective December 1, 2001, the Fund adopted the provisions of the AICPA Audit Companies that requires amortization of all premiums and discounts on debt securities. The ended November 30, 2002 was a decrease in net investment income per share of \$0.025, an increase in net gain (loss) per share of \$0.025, a decrease in the ratio of net investment income to average net assets of 0.16%. Per share data for the periods ended to December 1, 2001 have not been restated to reflect this change in accounting.
- (3) The average shares outstanding method has been applied for per share information.
- (4) Total investment return is calculated assuming a purchase of common stock on the opening of the period and the closing of the last day of each period reported. Dividends and distributions, if any, are assumed to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or decrease in the premium of the market value to the net asset value. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value from the beginning to the end of such periods.
- (5) Adjusted average net assets excludes debt outstanding.

Notes to financial statements

Delaware Investments Dividend and Income Fund, Inc.

May 31, 2006 (Unaudited)

Delaware Investments Dividend and Income Fund, Inc. (the "Fund") is organized as a Maryland corporation and is a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The Fund's shares trade on the New York Stock Exchange under the symbol DDF.

The investment objective of the Fund is to seek high current income. Capital appreciation is a secondary objective.

1. Significant Accounting Policies

The following accounting policies are in accordance with U.S generally accepted accounting principles and are consistently followed by the Fund.

Security Valuation - Equity securities, except those traded on the Nasdaq Stock

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

Market, Inc. (Nasdaq), are valued at the last quoted sales price as of the time of the regular close of the New York Stock Exchange (NYSE) on the valuation date. Securities traded on the Nasdaq are valued in accordance with the Nasdaq Official Closing Price, which may not be the last sales price. If on a particular day an equity security does not trade, then the mean between the bid and the asked prices will be used. U.S. Government and agency securities are valued at the mean between the bid and asked prices. Long-term debt securities are valued by an independent pricing service and such prices are believed to reflect the fair value of such securities. Short-term debt securities having less than 60 days to maturity are valued at amortized cost, which approximates market value. Securities lending collateral is valued at amortized cost, which approximates market value. Other securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith under the direction of the Fund's Board of Directors. In determining whether market quotations are readily available or fair valuation will be used, various factors will be taken into consideration, such as market closures, or with respect to foreign securities, aftermarket trading or significant events after local market trading (e.g., government actions or pronouncements, trading volume or volatility on markets, exchanges among dealers, or news events).

Federal Income Taxes - The Fund intends to continue to qualify for federal income tax purposes as a regulated investment company and make the requisite distributions to shareholders. Accordingly, no provision for federal income taxes has been made in the financial statements.

Repurchase Agreements - The Fund may invest in a pooled cash account along with other members of the Delaware Investments(R) Family of Funds pursuant to an exemptive order issued by the Securities and Exchange Commission. The aggregate daily balance of the pooled cash account is invested in repurchase agreements secured by obligations of the U.S government. The respective collateral is held by the Fund's custodian bank until the maturity of the respective repurchase agreements. Each repurchase agreement is 102% collateralized. However, in the event of default or bankruptcy by the counterparty to the agreement, realization of the collateral may be subject to legal proceedings.

Distributions - The Fund has a managed distribution policy. Under the policy, the Fund declares and pays monthly distributions and is managed with a goal of generating as much of the distribution as possible from ordinary income (net investment income and short-term capital gains). The balance of the distribution then comes from long-term capital gains and if necessary, a return of capital. The current annualized rate is \$0.96 per share. The Fund continues to evaluate its monthly distribution in light of ongoing economic and market conditions and may change the amount of the monthly distributions in the future.

Borrowings - The Fund issues short-term commercial paper at a discount from par. The discount is amortized as interest expense over the life of the commercial paper using the straight-line method (See Note 6).

Use of Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Other - Expenses common to all funds within the Delaware Investments Family of Funds are allocated amongst the funds on the basis of average net assets. Management fees and some other expenses are paid monthly. Security transactions are recorded on the date the securities are purchased or sold (trade date) for financial reporting purposes. Costs used in calculating realized gains and losses on the sale of investment securities are those of the specific securities sold. Dividend income is recorded on the ex-dividend date and interest income is

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

recorded on the accrual basis. Discounts and premiums on non-convertible debt securities are amortized to interest income over the lives of the respective securities. Distributions received from investments in Real Estate Investment Trusts (REITs) are recorded as dividend income on the ex-dividend date, subject to reclassification upon notice of the character of such distributions by the issuer.

Subject to seeking best execution, the Fund may direct certain security trades to brokers who have agreed to rebate a portion of the related brokerage commission to the Fund in cash. Such commission rebates are included in realized gain on investments in the accompanying financial statements and totaled \$1,218 for the six months ended May 31, 2006. In general, best execution refers to many factors, including the price paid or received for a security, the commission charged, the promptness and reliability of execution, the confidentiality and placement accorded the order, and other factors affecting the overall benefit obtained by the Fund on the transaction. DMC, as defined below, and its affiliates have previously and may in the future act as an investment advisor to mutual funds or separate accounts affiliated with the administrator of the commission recapture program described above. In addition, affiliates of the administrator act as consultants in helping institutional clients choose investment advisors and may also participate in other types of businesses and provide other services in the investment management industry.

The Fund may receive earnings credits from its custodian when positive cash balances are maintained, which are used to offset custody fees. There were no earnings credits for the six months ended May 31, 2006.

14

2. Investment Management, Administration Agreements and Other Transactions with Affiliates

In accordance with the terms of its investment management agreement, the Fund pays Delaware Management Company (DMC), a series of Delaware Management Business Trust and the investment manager, an annual fee of 0.55%, which is calculated daily based on the adjusted average weekly net assets.

Delaware Service Company, Inc. (DSC), an affiliate of DMC, provides accounting and administration services. The Fund pays DSC a monthly fee computed at an annual rate of 0.04% of the Fund's adjusted average weekly net assets for accounting and administration services.

For purposes of the calculation of investment management fees and administration fees, adjusted average weekly net assets does not include the commercial paper liability.

At May 31, 2006, the Fund had liabilities payable to affiliates as follows:

Investment management fee payable to DMC	\$90,476
Accounting and administration fees and other expenses payable to DSC	14,222
Other expenses payable to DMC and affiliates*	13,256

* DMC, as part of its administration services, pays operating expenses on behalf of the Fund and is reimbursed on a periodic basis. Such expenses include items such as printing of shareholder reports, fees for audit, legal and tax services, stock exchange fees, custodian fees and directors fees.

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

As provided in the investment management agreement, the Fund bears the cost of certain legal services, including internal legal services provided to the Fund by DMC employees. For the six months ended May 31, 2006, the Fund was charged \$9,987 for internal legal services provided by DMC.

Certain officers of DMC and DSC are officers and/or directors the Fund. These officers and directors are paid no compensation by the Fund.

During the six months ended May 31, 2006, Babak Zenouzi was appointed co-portfolio manager of the Fund. Mr. Zenouzi assumed primary responsibility for managing the REIT and convertible securities holdings for the Fund, and consults regularly with Damon J. Andres in this capacity. Mr. Zenouzi works with Mr. Andres, D. Tysen Nutt, Jr., Jordan L. Irving, Anthony A. Lombardi, Robert A. Vogel, Jr., Philip R. Perkins and Timothy L. Rabe in making day-to-day decisions for the Fund.

3. Investments

For the six months ended May 31, 2006, the Fund made purchases of \$55,543,545 and sales of \$65,477,354 of long-term investment securities other than long-term U.S. government securities and short-term investments.

At May 31, 2006, the cost of investments for federal income tax purposes has been estimated since the final tax characteristics cannot be determined until fiscal year end. At May 31, 2006, the cost of investments was \$212,523,134. At May 31, 2006, the net unrealized appreciation was \$8,693,037, of which \$16,031,448 related to unrealized appreciation of investments and \$7,338,411 related to unrealized depreciation of investments.

4. Dividend and Distribution Information

Income and long-term capital gain distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles. Additionally, gains (losses) on net foreign currency transactions and net short-term gains on sales of investment securities are treated as ordinary income for federal income tax purposes. The tax character of dividends and distributions paid during the six months ended May 31, 2006 and the year ended November 30, 2005 was as follows:

	Six Months Ended 5/31/06*	Year Ended 11/30/05
Ordinary income	\$2,553,931	\$ 8,898,947
Long- term capital gains	4,283,384	2,947,249
Total	\$6,837,315	\$11,846,196

* Tax information for the six months ended May 31, 2006 is an estimate and the tax character of dividends and distributions may be redesignated at fiscal year end.

The components of net assets are estimated since final tax characteristics cannot be determined until fiscal year end. As of May 31, 2006, the estimated components of net assets on a tax basis were as follows:

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

Shares of beneficial interest	\$134,704,945
Undistributed ordinary income	1,040,644
Undistributed long-term capital gains	3,384,087
Unrealized appreciation of investments	8,693,037
	<hr/>
Net assets	\$147,822,713
	<hr/>

The differences between book basis and tax basis components of net assets are primarily attributable to tax deferral of losses on wash sales, tax treatment of market discount and premium on debt instruments and treatment of contingent payment debt instruments.

For financial reporting purposes, capital accounts are adjusted to reflect the tax character of permanent book/tax differences. Reclassifications are primarily due to tax treatment of market discounts and premiums on certain debt instruments and treatment of contingent payment debt instruments. Results of operations and net assets were not affected by these reclassifications. For the six months ended May 31, 2006, the Fund recorded an estimate of these differences since the final tax characteristics cannot be determined until fiscal year end.

Paid-in capital	\$ (59,410)
Undistributed net investment income	2,819,436
Accumulated net realized gain (loss)	(2,760,026)

5. Capital Stock

Shares issuable under the Fund's dividend investment plan are purchased by the Fund's transfer agent, Mellon Investor Services, LLC, in the open market. There were no shares issued under the dividend reinvestment plan for the six months ended May 31, 2006.

The Fund did not purchase any shares under the Share Repurchase Program or have any transactions in common shares during the six months ended May 31, 2006.

(continues) 15

Notes to financial statements

Delaware Investments Dividend and Income Fund, Inc.

May 31, 2006 (Unaudited)

5. Capital Stock (continued)

On May 18, 2006, the Fund's Board of Directors approved a tender offer for shares of the Fund's common stock. The tender offer authorized the Fund to purchase up to 5% of its issued and outstanding shares at a price equal to the Fund's net asset value at the close of business on the New York Stock Exchange on July 3, 2006, the first business day following expiration of the offer. The tender offer commenced on June 2, 2006 and expired on June 30, 2006. In

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

connection with the tender offer, the Fund purchased 579,434 shares of its common stock at a total cost of \$7,463,110. The tender offer was oversubscribed, and all tenders of shares were subject to proration (at a ratio of approximately 0.775731221) in accordance with the terms of the tender offer.

6. Commercial Paper

As of May 31, 2006, \$48,000,000 (par value) of commercial paper was outstanding with an amortized cost of \$47,664,550. The weighted average discount rate of commercial paper outstanding at May 31, 2006 was 5.03%. The average daily balance of commercial paper outstanding during the six months ended May 31, 2006 was \$47,722,118 at a weighted discount rate of 4.61%. The maximum amount of commercial paper outstanding at any time during the year was \$48,000,000. On June 22, 2006, the Fund reduced the commercial paper outstanding to \$44 million in conjunction with the tender offer. In conjunction with the issuance of the commercial paper, the Fund entered into a line of credit arrangement with J.P. Morgan Chase for \$30,000,000. Interest on borrowings is based on market rates in effect at the time of borrowing. The commitment fee is computed at the rate of 0.12% per annum on the unused balance. For the six months ended May 31, 2006, the Fund was charged fees of \$19,243 which is included in "commercial paper fees" on the Statement of Operations. During the six months ended May 31, 2006, there were no borrowings under this arrangement.

7. Securities Lending

The Fund, along with other funds in the Delaware Investments(R) Family of Funds, may lend its securities pursuant to a security lending agreement (Lending Agreement) with J.P. Morgan Chase. Initial security loans made pursuant to the Lending Agreement are required to be secured by U.S. Treasury obligations and/or cash collateral not less than 102% of the market value of the securities issued in the United States. With respect to each loan, if the aggregate market value of the collateral held on any business day is less than the aggregate market value of the securities which are the subject of such loan, the borrower will be notified to provide additional collateral not less than the applicable collateral requirements. Cash collateral received is invested in fixed income securities, with a weighted average maturity not to exceed 90 days, rated in one of the top two tiers by Standard & Poor's Ratings Group or Moody's Investors Service, Inc. or repurchase agreements collateralized by such securities. However, in the event of default or bankruptcy by the lending agent, realization and/or retention of the collateral may be subject to legal proceedings. In the event the borrower fails to return loaned securities and the collateral received is insufficient to cover the value of the loaned securities and provided such collateral shortfall is not the result of investment losses, the lending agent has agreed to pay the amount of the shortfall to the Fund, or at the discretion of the lending agent, replace the loaned securities. The Fund continues to record dividends on the securities loaned and is subject to change in value of the securities loaned that may occur during the term of the loan. The Fund has the right under the Lending Agreement to recover the securities from the borrower on demand. The security lending agent and the borrower retain a portion of the earnings from the collateral investments. The Fund records security lending income net of such allocation.

At May 31, 2006, the market value of securities on loan was \$25,302,817, for which cash collateral was received and invested in accordance with the Lending Agreement. Such investments are presented on the Statement of Net Assets under the caption "Securities Lending Collateral."

8. Credit and Market Risks

The Fund invests in high yield fixed income securities, which carry ratings of BB or lower by Standard & Poor's Ratings Group and/or Ba or lower by Moody's Investors Service, Inc. Investments in these higher yielding securities are

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

generally accompanied by a greater degree of credit risk than higher rated securities. Additionally, lower rated securities may be more susceptible to adverse economic and competitive industry conditions than investment grade securities.

The Fund may invest up to 10% of its total assets in illiquid securities, which may include securities with contractual restrictions on resale, securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended, and other securities which may not be readily marketable. The relative illiquidity of these securities may impair the Fund from disposing of them in a timely manner and at a fair price when it is necessary or desirable to do so. While maintaining oversight, the Board of Directors has delegated to DMC the day-to-day functions of determining whether individual securities are liquid for purposes of the Fund's limitation on investments in illiquid assets. Rule 144A and illiquid securities have been identified on the Statement of Net Assets.

The Fund invests in REITs and is subject to some of the risks associated with that industry. If the Fund holds real estate directly as a result of defaults or receives rental income directly from real estate holdings, its tax status as a regulated investment company may be jeopardized. There were no direct holdings during the six months ended May 31, 2006. The Fund's REIT holdings are also affected by interest rate changes, particularly if the REITs it holds use floating rate debt to finance their ongoing operations.

9. Contractual Obligations

The Fund enters into contracts in the normal course of business that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts. Management has reviewed the Fund's existing contracts and expects the risk of loss to be remote.

Other Fund information

Delaware Investments Dividend and Income Fund, Inc.

Board Consideration of Delaware Investments Dividend and Income Fund, Inc.
Investment Advisory Agreement

At a meeting held on May 17-18, 2006 (the "Annual Meeting"), the Board of Trustees, including a majority of disinterested or independent Trustees, approved the renewal of the Investment Advisory Agreement for the Delaware Investments Dividend and Income Fund (the "Fund"). In making its decision, the Board considered information furnished throughout the year at regular Board meetings, as well as information prepared specifically in connection with the Annual Meeting. Information furnished and discussed throughout the year included reports detailing Fund performance, investment strategies, expenses, compliance matters and other services provided by Delaware Management Company ("DMC"), the investment advisor. Information furnished specifically in connection with the Annual Meeting included materials provided by DMC and its affiliates ("Delaware Investments") concerning, among other things, the level of services provided to the Fund, the costs of such services to the Fund, economies of scale and the financial condition and profitability of Delaware Investments. In addition, in connection with the Annual Meeting, the Board considered independent historical and comparative reports prepared by Lipper Inc. ("Lipper"), an independent statistical compilation organization. The Board also considered industry comparative information presented by representatives from Lipper. The Lipper

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

reports compared the Fund's investment performance and expenses with those of other comparable mutual funds. The Board also received certain supplemental information regarding management's policy with respect to advisory fee levels and its philosophy with respect to breakpoints; the structure of portfolio manager compensation; and any constraints or limitations on the availability of securities in certain investment styles which might inhibit DMC's ability to fully invest in accordance with Fund policies.

In considering such materials, the independent Trustees received assistance and advice from and met separately with independent counsel and representatives from Lipper. At the meeting with representatives from Lipper, Mr. Driscoll, Chairman of the Delaware Investments(R) Family of Funds, and Chairman and Chief Executive Officer of the investment advisor, was present to respond to questions by Lipper and the independent Trustees. While the Board considered the Investment Advisory Agreements for all of the funds in the Delaware Investments Family of Funds at the same Board meeting, information was provided and considered by the Board for each fund individually. In approving the continuance of the Investment Advisory Agreement for the Fund, the Board, including a majority of independent Trustees, determined that the existing advisory fee structure was fair and reasonable and that the continuance of the Investment Advisory Agreement was in the best interests of the Fund and its shareholders. While attention was given to all information furnished, the following discusses the primary factors relevant to the Board's deliberations and determination, including those relating to the selection of the investment advisor and the approval of the advisory fee.

Nature, Extent And Quality of Service. Consideration was given to the services provided by Delaware Investments to the Fund and its shareholders. In reviewing the nature, extent and quality of services, the Board emphasized reports furnished to it throughout the year at regular Board meetings covering matters such as the relative performance of the Fund, compliance of portfolio managers with the investment policies, strategies and restrictions for the Fund, the compliance of management personnel with the Code of Ethics adopted throughout the Delaware Investments Family of Funds complex, the adherence to fair value pricing procedures as established by the Board, and the accuracy of net asset value calculations. The Board noted that it was pleased with the current staffing of the Fund's investment advisor and management's efforts to strengthen and deepen portfolio management teams during the past year, the emphasis on research and the compensation system for advisory personnel. Favorable consideration was given to DMC's efforts to maintain, and in some instances increase, financial and human resources committed to fund matters. Other factors taken into account by the Board were Delaware Investments' preparedness for, and response to, legal and regulatory matters. The Board also considered the transfer agent and shareholder services provided to Fund shareholders by Delaware Investments' affiliate, Delaware Service Company, Inc., noting DSC's commitment to maintain a high level of service in keeping with its past receipt of the DALBAR Pyramid Award, and the continuing expenditures by Delaware Investments to improve the delivery of shareholder services. Additionally, the Board noted the extent of benefits provided to Fund shareholders for being part of the Delaware Investments Family of Funds, including the privilege to exchange investments between the same class of shares of funds without a sales charge, the ability to reinvest Fund dividends into other funds and the privilege to combine holdings in other funds to obtain a reduced sales charge. The Board was satisfied with the nature, extent and quality of the overall services provided by Delaware Investments.

Investment Performance. The Board considered the investment performance of DMC and the Fund. The Board was pleased with DMC's investment performance. The Board placed significant emphasis on the investment performance of the Fund in view of its importance to shareholders. While consideration was given to performance reports and discussions with portfolio managers at Board meetings throughout the year, particular weight was given to the Lipper reports furnished for the Annual

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

Meeting. The Lipper reports prepared for the Fund showed the investment performance of its Class A shares in comparison to a group of similar funds as selected by Lipper (the "Performance Universe"). A fund with the best performance is ranked first, and a fund with the poorest performance is ranked last. The highest/best performing 25% of funds in the Performance Universe make up the first quartile; the next 25% - the second quartile; the next 25% - the third quartile; and the poorest/worst performing 25% of funds in the Performance Universe make up the fourth quartile. Comparative annualized performance for the Fund was shown for the past one, three and five year periods ended January 31, 2006. The Board noted its objective that the Fund's performance be at or above the median of its Performance Universe. The following paragraph summarizes the performance results for the Fund and the Board's view of such performance.

The Performance Universe for the Fund consisted of the Fund and all retail and institutional income funds as selected by Lipper. The Lipper report comparison showed that the Fund's total return for the one and five year periods was in the first quartile of such Performance Universe. The report further showed that the Fund's total return for the three year period was in the second quartile. The Board was satisfied with such performance.

Investment Advisory Agreement (continued)

Comparative Expenses. The Board considered expense data for the Delaware Investments Family of Funds. Management provided the Board with information on pricing levels and fee structures for the Funds. The Board focused particularly on the comparative analysis of the management fees and total expense ratios of the Fund and the management fees and expense ratios of a group of similar funds as selected by Lipper (the "Expense Group"). In reviewing comparative costs, the Fund's contractual management fee and the actual management fee incurred by the Fund were compared with the contractual management fees (assuming all funds in the Expense Group were similar in size to the Fund) and actual management fees (as reported by each fund) of other funds within the Expense Group, taking into effect any applicable breakpoints and fee waivers. The Fund's total expenses were also compared with those of its Expense Group. The Lipper total expenses, for comparative consistency, were shown by Lipper for Class A shares and compared total expenses including 12b-1 and non-12b-1 service fees. The Board also considered fees paid to Delaware Investments for non-management services. The Board noted its objective to limit the Fund's total expense ratio to an acceptable range as compared to the median of the Expense Group. The following paragraph summarizes the expense results for the Fund and the Board's view of such expenses.

The expense comparisons for the Fund showed that its actual management fee and total expenses were in the quartile with the lowest expenses of its Expense Group. The Board was satisfied with the management fees and total expenses of the Fund in comparison to its Expense Group as shown in the Lipper report.

Management Profitability. The Board considered the level of profits, if any, realized by Delaware Investments in connection with the operation of the Fund.

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

In this respect, the Board reviewed the Investment Management Profitability Analysis that addressed the overall profitability of Delaware Investments' business in providing management and other services to each of the individual funds and the Delaware Investments(R) Family of Funds as a whole. Specific attention was given to the methodology followed in allocating costs for the purpose of determining profitability. Management stated that the level of profits of Delaware Investments, to a certain extent, reflected operational cost savings and efficiencies initiated by Delaware Investments. The Board considered Delaware Investments' expenditures to improve services provided to fund shareholders and to meet additional regulatory and compliance requirements resulting from recent SEC initiatives. The Board also considered the extent to which Delaware Investments might derive ancillary benefits from fund operations, including the potential for procuring additional business as a result of the prestige and visibility associated with its role as service provider to the Delaware Investments Family of Funds, the benefits from allocation of fund brokerage to improve trading efficiencies and the use of "soft" commission dollars to pay for proprietary and non-proprietary research. The Board did not find that the level of profits realized by Delaware Investments from the relationships with the Fund and the Delaware Investments Family of Funds required negotiation of reduction of fees.

Economies of Scale. The Trustees considered whether economies of scale are realized by Delaware Investments as the Fund's assets increase and the extent to which any economies of scale are reflected in the level of management fees charged. The Trustees took into account the standardized advisory fee pricing and structure approved by the Board and shareholders as part of a complex-wide shareholder meeting conducted in 1998/1999. At that time, Delaware Investments introduced breakpoints to account for management economies of scale. The Board noted that the fee under the Fund's management contract fell within the standard structure. The Board also noted that the Fund's assets exceeded the first breakpoint level. The Board believed that, given the extent to which economies of scale might be realized by the advisor and its affiliates, the schedule of fees under the Investment Advisory Agreement provides a sharing of benefits with the Fund and its shareholders.
