-

## Section 2 Financial Information

### Item 2.02 Results of Operations and Financial Condition.

On October 26, 2006, the Company issued a press release announcing its financial results for the quarter ended September 30, 2006. A copy of the press release is filed as Exhibit 99.1 to this report and is incorporated herein by reference.

The Company provides in the press release certain non-GAAP financial measures, including: (1) earnings before interest, taxes, depreciation and amortization ( EBITDA ) and (2) EBITDA as adjusted for special items. GAAP refers to accounting principles generally accepted in the United States. The press release contains a reconciliation table of the items above to the most directly comparable GAAP measures. The Company believes the non-GAAP measure in item 1 above is useful to investors because it is a basis upon which the Company assesses its financial performance, it provides useful information regarding the Company's ability to service its debt and it is a commonly used financial analysis tool for measuring and comparing companies in several areas of liquidity, operating performance and leverage. The Company believes the non-GAAP measure in item 2 is useful to investors when comparing prior periods because it believes the excluded items are nonrecurring. The Company's management uses these non-GAAP financial measures along with the most directly comparable GAAP financial measures in evaluating the Company's operating performance.

Non-GAAP financial measures should not be considered in isolation from, or as a substitute for, financial information presented in compliance with GAAP, and non-GAAP financial measures as reported by the Company may not be comparable to similarly titled items reported by other companies or the definition used in any of our debt agreements.

## Section 9 Financial Statements and Exhibits

### Item 9.01 Financial Statements and Exhibits

(d) Exhibits
