Receivables and Other Assets Net of Liabilities (See Notes) - 0.98%

Net Assets Applicable to 11,009,236 Shares Outstanding - 100.00%

= Security is being fair valued in accordance with the Fund's fair valuation policy. At August 31, 2006, fair valued securities equaled \$5,107, which represented 0.00% of the Fund's net assets. See Note 5 in "Notes."

@ Illiquid security. At August 31, 2006, the aggregate amount of illiquid securities equaled \$1,300,000, which represented 0.01% of the Fund's net assets. See Note 5 in "Notes."

II Restricted Security. Investment in a security not registered under the Securities Act of 1933, certain restrictions on resale which may limit its liquidity. At August 31, 2006, the aggregate amount of restricted securities equaled \$998,354 or 0.68% of the Fund's net assets. See Note 5 in "Notes."

~ Variable rate security. The interest rate shown is the rate as of August 31, 2006.

^ Zero coupon security. The interest rate shown is the yield at the time of purchase.

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-Q

; Step coupon bond. Coupon increases/decreases periodically based on a predetermined schedule. St August 31, 2006.

{ Step coupon bond. Indicates security that has a zero coupon that remains in effect until a pred stated interest rate becomes effective.

+ Non-income producing security for the period ended August 31, 2006.

++ Non-income producing security. Security is currently in default.

} Security is currently in default. The issue has missed the maturity date. Bankruptcy proceeding distribution of assets. The date listed is the estimate of when proceedings will be finalized.

Security exempt from registration under Rule 144A of the Securities Act of 1933, as amended. At amount of Rule 144A securities equaled \$17,620,932, which represented 12.06% of the Fund's net as

* Fully or partially on loan.

** See Note 4 in "Notes."

! Includes \$22,041,998 of securities loaned.

Summary of Abbreviations

ADR - American Depositary Receipts
REIT - Real Estate Investment Trust
PIK - Pay-in-kind

Notes

1. Significant Accounting Policies

The following accounting policies are in accordance with U.S. generally accepted accounting principals and are consistently followed by Delaware Investments Dividend and Income Fund, Inc. (the "Fund").

Security Valuation - Equity securities, except those traded on the Nasdaq Stock Market, Inc. (Nasdaq), are valued at the last quoted sales price as of the time of the regular close of the New York Stock Exchange (NYSE) on the valuation date. Securities traded on the Nasdaq are valued in accordance with the Nasdaq Official Closing Price, which may not be the last sales price. If on a particular day an equity security does not trade, then the mean between the bid and the asked prices will be used. U.S. Government and agency securities are valued at the mean between the bid and asked prices. Long-term debt securities are valued by an independent pricing service and such prices are believed to reflect the fair value of such securities. Short-term debt securities having less than 60 days to maturity are valued at amortized cost, which approximates market value. Securities lending collateral is valued at amortized cost, which approximates market value. Other securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith under the direction of the Fund's Board of Directors. In determining whether market quotations are readily available or fair valuation will be used,

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-Q

various factors will be taken into consideration, such as market closures, or with respect to foreign securities, aftermarket trading or significant events after local market trading (e.g., government actions or pronouncements, trading volume or volatility on markets, exchanges among dealers, or news events).

Federal Income Taxes - The Fund intends to continue to qualify for federal income tax purposes as a regulated investment company and make the requisite distributions to shareholders. Accordingly, no provision for federal income taxes has been made in the financial statements.

On July 13, 2006, the Financial Accounting Standards Board (FASB) released FASB Interpretation No. 48 "Accounting for Uncertainty in Income Taxes" (FIN 48). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented, and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are "more-likely-than-not" of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold would be recorded as a tax benefit or expense in the current year. Adoption of FIN 48 is required for fiscal years beginning after December 15, 2006 and is to be applied to all open tax years as of the effective date. Although the Fund's tax positions are currently being evaluated, management does not expect the adoption of FIN 48 to have a material impact on the Fund's financial statements.

Repurchase Agreements - The Fund may invest in a pooled cash account along with other members of the Delaware Investments(R) Family of Funds pursuant to an exemptive order issued by the Securities and Exchange Commission. The aggregate daily balance of the pooled cash account is invested in repurchase agreements secured by obligations of the U.S. government. The respective collateral is held by the Fund's custodian bank until the maturity of the respective repurchase agreements. Each repurchase agreement is 102% collateralized. However, in the event of default or bankruptcy by the counterparty to the agreement, realization of the collateral may be subject to legal proceedings.

Distributions - The Fund has a managed distribution policy. Under the policy, the Fund declares and pays monthly distributions and is managed with a goal of generating as much of the distribution as possible from ordinary income (net investment income and short-term capital gains). The balance of the distribution then comes from long-term capital gains and if necessary, a return of capital. The current annualized rate is \$0.96 per share. The Fund continues to evaluate its monthly distribution in light of ongoing economic and market conditions and may change the amount of the monthly distributions in the future.

Borrowings - The Fund issues short-term commercial paper at a discount from par. The discount is amortized as interest expense over the life of the commercial paper using the straight-line method (See Note 3).

Use of Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Other - Expenses common to all funds within the Delaware Investments(R) Family of Funds are allocated amongst the funds on the basis of average net assets. Management fees and some other expenses are paid monthly. Security transactions are recorded on the date the securities are purchased or sold (trade date) for financial reporting purposes. Costs used in calculating realized gains and losses on the sale of investment securities are those of the specific securities sold. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis. Discounts and premiums on non-convertible debt

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-Q

securities are amortized to interest income over the lives of the respective securities. Distributions received from investments in Real Estate Investment Trusts (REITs) are recorded as dividend income on ex-dividend date, subject to reclassification upon notice of the character of such distributions by the issuer.

2. Investments

At August 31, 2006, the cost of investments for federal income tax purposes has been estimated since the final tax characteristics cannot be determined until fiscal year end. At August 31, 2006, the cost of investments and unrealized appreciation (depreciation) for the Fund was as follows:

Cost of investments	\$194,803,312
	<hr/>
Aggregate unrealized appreciation	20,424,932
Aggregate unrealized depreciation	(3,759,895)
	<hr/>
Net unrealized appreciation	\$ 16,665,037
	<hr/>

3. Commercial Paper

As of August 31, 2006, \$44,000,000 (par value) of commercial paper was outstanding with an amortized cost of \$43,768,727. The weighted average discount rate of commercial paper outstanding at August 31, 2006, was 5.26%. The average daily balance of commercial paper outstanding during the period ended August 31, 2006 was \$46,690,701 at a weighted discount rate of 4.59%. The maximum amount of commercial paper outstanding at any time during the period was \$48,000,000. On June 22, 2006, the Fund reduced the commercial paper outstanding to \$44,000,000 in conjunction with the tender offer. In conjunction with the issuance of the commercial paper, the Fund entered into a line of credit arrangement with J.P. Morgan Chase for \$30,000,000. Interest on borrowings is based on market rates in effect at the time of borrowing. The commitment fee is computed at the rate of 0.12% per annum on the unused balance. During the period ended August 31, 2006, there were no borrowings under this arrangement.

4. Securities Lending

The Fund, along with other funds in the Delaware Investments(R)Family of Funds, may lend its securities pursuant to a security lending agreement (Lending Agreement) with J.P. Morgan Chase. Initial security loans made pursuant to the Lending Agreement are required to be secured by U.S. government obligations and/or cash collateral not less than 102% of the market value of the securities issued in the United States. With respect to each loan, if the aggregate market value of the collateral held on any business day is less than the aggregate market value of the securities which are the subject of such loan, the borrower will be notified to provide additional collateral not less than the applicable collateral requirements. Cash collateral received is invested in fixed income securities, with a weighted average maturity not to exceed 90 days, rated in one of the top two tiers by Standard & Poor's Ratings Group or Moody's Investors Service, Inc. or repurchase agreements collateralized by such securities. However, in the event of default or bankruptcy by the lending agent, realization and/or retention of the collateral may be subject to legal proceedings. In the

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-Q

event the borrower fails to return loaned securities and the collateral received is insufficient to cover the value of the loaned securities and provided such collateral shortfall is not the result of investment losses, the lending agent has agreed to pay the amount of the shortfall to the Fund, or at the discretion of the lending agent, replace the loaned securities. The Fund continues to record dividends on the securities loaned and is subject to change in value of the securities loaned that may occur during the term of the loan. The Fund has the right under the Lending Agreement to recover the securities from the borrower on demand. The security lending agent and the borrower retain a portion of the earnings from the collateral investments. The Fund records security lending income net of such allocation.

At August 31, 2006, the market value of the securities on loan was \$22,041,998, for which cash collateral was received and invested in accordance with the Lending Agreement. Such investments are presented on the Schedule of Investments under the caption "Securities Lending Collateral."

5. Credit and Market Risks

The Fund invests in high-yield fixed income securities, which carry ratings of BB or lower by Standard & Poor's Ratings Group and/or Ba or lower by Moody's Investors Service, Inc. Investments in these higher yielding securities are generally accompanied by a greater degree of credit risk than higher rated securities. Additionally, lower rated securities may be more susceptible to adverse economic and competitive industry conditions than investment grade securities.

The Fund may invest up to 10% of its total assets in illiquid securities, which may include securities with contractual restrictions on resale, securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended, and other securities which may not be readily marketable. The relative illiquidity of these securities may impair the Fund from disposing of them in a timely manner and at a fair price when it is necessary or desirable to do so. While maintaining oversight, the Fund's Board of Directors has delegated to Delaware Management Company the day-to-day functions of determining whether individual securities are liquid for purposes of the Fund's limitation on investments in illiquid assets. Rule 144A and illiquid securities have been identified on the Schedule of Investments.

The Fund invests in REITs and is subject to some of the risks associated with that industry. If the Fund holds real estate directly as a result of defaults or receives rental income directly from real estate holdings, its tax status as a regulated investment company may be jeopardized. There were no direct holdings during the period ended August 31, 2006. The Fund's REIT holdings are also affected by interest rate changes, particularly if the REITs it holds use floating rate debt to finance their ongoing operations.

Item 2. Controls and Procedures.

The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures within 90 days of the filing of this report and have concluded that they are effective in providing reasonable assurance that the information required to be disclosed by the registrant in its reports or statements filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission.

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-Q

There were no significant changes in the registrant's internal control over financial reporting that occurred during the registrant's last fiscal quarter (the registrant's second fiscal half-year in the case of an annual report) that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 3. Exhibits.

File as exhibits as part of this Form a separate certification for each principal executive officer and principal financial officer of the registrant as required by Rule 30a-2(a) under the Act (17 CFR 270.30a-2(a)), exactly as set forth below:
