Non-income producing security for the period ended May 31, 2008.

Variable rate security. The rate shown is the rate as of May 31, 2008.

*Fully or partially on loan.

**See Note 1 in □Notes to financial statements.□

@Illiquid security. At May 31, 2008, the aggregate amount of illiquid securities was \$582,750, which represented 0.52% of the Fund□s net assets. See Note 11 in □Notes to financial statements.□

=Security is being fair valued in accordance with the Fund□s fair valuation policy. At May 31, 2008, the aggregate amount of fair valued securities was \$386,400, which represented 0.34% of the Fund□s net assets. See Note 1 in □Notes to financial statements.□

#Security exempt from registration under Rule 144A of the Securities Act of 1933, as amended. At May 31, 2008, the aggregate amount of Rule 144A securities was \$13,993,933, which represented 12.47% of the Fund□s net assets. See Note 11 in □Notes to financial statements.□

□Restricted security. Investment in a security not registered under the Security Act of 1933, as amended. This security has certain restrictions on resale which may limit its liquidity. At May 31, 2008, the aggregate amount of the

restricted securities was \$582,750 or 0.52% of the Fund's net assets. See Note 11 in Notes to financial statements.

Senior Secured Loans generally pay interest at rates which are periodically redetermined by reference to a base lending rate plus a premium. These base lending rates are generally: (i) the prime rate offered by one or more United States banks, (ii) the lending rate offered by one or more European banks such as the London Inter-Bank Offered Rate (LIBOR), and (iii) the certificate of deposit rate. Senior Secured Loans may be subject to restrictions on resale.

10

Step coupon bond. Indicates security that has a zero coupon that remains in effect until a predetermined date at which time the stated interest rate becomes effective.

See Note 10 in Notes to financial statements.

Includes \$14,361,777 of securities loaned.

Non-income producing security. Security is currently in default.

¹ Ratios and portfolio turnover have been annualized and total return has not been annualized.

² The average shares outstanding method has been applied for per share information.

³ Total investment return is calculated assuming a purchase of common stock on the opening of the first day and a sale on the closing of the last day of each period reported. Dividends and distributions, if any, are assumed for the purposes of this calculation, to be reinvested at prices obtained under the Fund's dividend reinvestment plan. Generally, total investment return based on net asset value will be higher than total investment return based on market value in periods where there is an increase in the discount or decrease in the premium of the market value to the net asset value from the beginning to the end of such periods. Conversely, total investment return based on net asset value will be lower than total investment return based on market value in periods where there is a decrease in the discount or an increase in the premium of the market value to the net asset value from the beginning to the end of such periods.

⁴ Adjusted average net assets excludes debt outstanding.

15

Notes to financial statements

Delaware Investments Dividend and Income Fund, Inc.

May 31, 2008 (Unaudited)

Delaware Investments Dividend and Income Fund, Inc. (Fund) is organized as a Maryland corporation and is a diversified closed-end management investment company under the Investment Company Act of 1940, as amended. The Fund's shares trade on the New York Stock Exchange (NYSE) under the symbol DDF.

The investment objective of the Fund is to seek high current income. Capital appreciation is a secondary objective.

1. Significant Accounting Policies

The following accounting policies are in accordance with U.S generally accepted accounting principles and are consistently followed by the Fund.

Security Valuation □ Equity securities, except those traded on the Nasdaq Stock Market, Inc. (Nasdaq), are valued at the last quoted sales price as of the time of the regular close of the NYSE on the valuation date. Securities traded on the Nasdaq are valued in accordance with the Nasdaq Official Closing Price, which may not be the last sales price. If on a particular day an equity security does not trade, then the mean between the bid and asked prices will be used. U.S. government and agency securities are valued at the mean between the bid and asked prices. Other long-term debt securities, credit default swap (CDS) contracts and interest rate swap contracts are valued by an independent pricing service or broker and such prices are believed to reflect the fair value of such securities. Short-term debt securities having less than 60 days to maturity are valued at amortized cost, which approximates market value. Securities lending collateral, which is invested in a collective investment vehicle (Collective Trust), is valued at unit value per share. Generally, index swap contracts, spread swap contracts and other securities and assets for which market quotations are not readily available are valued at fair value as determined in good faith under the direction of the Fund's Board of Directors. In determining whether market quotations are readily available or fair valuation will be used, various factors will be taken into consideration, such as market closures, or with respect to foreign securities, aftermarket trading or significant events after local market trading (e.g., government actions or pronouncements, trading volume or volatility on markets, exchanges among dealers, or news events).

Federal Income Taxes □ The Fund intends to continue to qualify for federal income tax purposes as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended, and make the requisite distributions to shareholders. Accordingly, no provision for federal income taxes has been made in the financial statements.

Effective May 30, 2008, the Fund adopted FASB Interpretation No. 48 □Accounting for Uncertainty in Income Taxes□ (FIN 48). FIN 48 provides guidance for how uncertain tax positions should be recognized, measured, presented, and disclosed in the financial statements. FIN 48 requires the evaluation of tax positions taken or expected to be taken in the course of preparing the Fund's tax returns to determine whether the tax positions are □more-likely-than-not□ of being sustained by the applicable tax authority. Tax positions not deemed to meet the more-likely-than-not threshold are recorded as a tax benefit or expense in the current year. The adoption of FIN 48 did not result in the recording of any tax benefit or expense in the current period.

Distributions □ The Fund has a managed distribution policy. Under the policy, the Fund declares and pays monthly distributions and is managed with a goal of generating as much of the distribution as possible from ordinary income (net investment income and short-term capital gains). The balance of the distribution then comes from long-term capital gains to the extent permitted and, if necessary, a return of capital. The current annualized rate is \$0.96 per share (\$0.08 monthly). The Fund continues to evaluate its monthly distribution in light of ongoing economic and market conditions and may change the amount of the monthly distributions in the future.

Repurchase Agreements □ The Fund may invest in a pooled cash account along with members of the Delaware Investments[®] Family of Funds pursuant to an exemptive order issued by the Securities and Exchange Commission. The aggregate daily balance of the pooled cash account is invested in repurchase agreements secured by obligations of the U.S. government. The respective collateral is held by the Fund's custodian bank until the maturity of the respective repurchase agreements. Each repurchase agreement is at least 102% collateralized. However, in the event of default or bankruptcy by the counterparty to the agreement, realization of the collateral may be subject to legal proceedings.

Use of Estimates □ The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that may affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Other □ Expenses directly attributable to the Fund are charged directly to the Fund. Other expenses common to various funds within the Delaware Investments[®] Family of Funds are generally allocated amongst such funds on the basis of average net assets. Management fees and some other expenses are paid monthly. Security transactions are recorded on the date the securities are purchased or sold (trade date) for financial reporting purposes. Costs used in calculating realized gains and losses on the sale of investment securities are those of the specific securities sold. Dividend income is recorded on the ex-dividend date and interest income is recorded on the accrual basis. Discounts and premiums on non-convertible bonds are amortized to interest income over the lives of the respective securities. Distributions received from investments in Real Estate

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

Investment Trusts (REITs) are recorded as dividend income on the ex-dividend date as an estimate, subject to reclassification upon notice of the character of such distribution by the issuer.

Subject to seeking best execution, the Fund may direct certain security trades to brokers who have agreed to rebate a portion of the related brokerage commission to the Fund in cash. There were no commission rebates during the six months ended May 31, 2008. In general, best execution refers to many factors, including the price paid or received for a security, the commission charged, the promptness and reliability of execution, the confidentiality and placement accorded the order, and other factors affecting the overall benefit obtained by the Fund on the transaction. DMC, as defined below, and its affiliates have previously and may in the future act as an investment advisor to mutual funds or separate accounts affiliated with the administrator of the commission recapture program described above. In addition, affiliates of the administrator act as consultants in helping institutional clients choose investment advisors and may also participate in other types of business and provide other services in the investment management industry.

16

1. Significant Accounting Policies (continued)

The Fund receives earnings credits from its custodian when positive cash balances are maintained, which are used to offset custody fees. The expense paid under this arrangement is included in custodian fees on the statement of operations with the corresponding expense offset shown as [expense paid indirectly.]

2. Investment Management, Administration Agreements and Other Transactions with Affiliates

In accordance with the terms of its investment management agreement, the Fund pays Delaware Management Company (DMC), a series of Delaware Management Business Trust and the investment manager, an annual fee of 0.55%, which is calculated daily based on the adjusted average weekly net assets.

Delaware Service Company, Inc. (DSC), an affiliate of DMC, provides accounting and financial administration oversight services to the Fund. For these services, the Fund pays DSC fees based on the aggregate daily net assets of the Delaware Investments® Family of Funds at the following annual rate: 0.0050% of the first \$30 billion; and 0.0045% of the next \$10 billion; 0.0040% of the next \$10 billion; and 0.0025% of aggregate average daily net assets in excess of \$50 billion. The fees payable to DSC under the service agreement described above are allocated among all Funds in the Delaware Investments® Family of Funds on a relative net asset value basis. For the six months ended May 31, 2008, the Fund was charged \$3,912 for these services.

For purposes of the calculation of investment management fees and administration fees, adjusted average weekly net assets does not include the line of credit liability.

At May 31, 2008, the Fund had liabilities payable to affiliates as follows:

Investment management fee payable to DMC	\$71,815
Fees and expenses payable to DSC	3,096
Other expenses payable to DMC and affiliates*	6,034

*DMC, as part of its administrative services, pays operating expenses on behalf of the Fund and is reimbursed on a periodic basis. Such expenses include items such as printing of shareholder reports, fees for audit, legal and tax services, stock exchange fees, custodian fees and Directors' fees.

As provided in the investment management agreement, the Fund bears the cost of certain legal and tax services, including internal legal and tax services provided to the Fund by DMC and/or its affiliates' employees. For the six months ended May 31, 2008, the Fund was charged \$4,016 for internal legal and tax services provided by DMC and/or its affiliates' employees.

Directors' fees include expenses accrued by the Fund for each Director's retainer and per meeting fees. Certain officers of DMC and DSC are officers and/or directors of the Fund. These officers and directors are paid no compensation by the Fund.

During the six months ended May 31, 2008, Roger A. Early was appointed co-portfolio manager of the Fund. Mr. Early serves as co-manager with D. Tysen Nutt Jr., Anthony A. Lombardi, Robert A. Vogel Jr., Nikhil G. Lalvani, Nashira S. Wynn, Thomas H. Chow, Kevin P. Loome, Babak Zenouzi, and Damon J. Andres.

3. Investments

For the six months ended May 31, 2008, the Fund made purchases of \$51,703,555 and sales of \$58,847,999 of investment securities other than short-term investments.

At May 31, 2008, the cost of investments for federal income tax purposes has been estimated since final tax characteristics cannot be determined until fiscal year end. At May 31, 2008, the cost of investments was \$164,095,286. At May 31, 2008, net

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

unrealized appreciation was \$78,010, of which \$13,221,479 related to unrealized appreciation of investments and \$13,143,469 related to unrealized depreciation of investments.

Effective December 1, 2007, the Fund adopted Financial Accounting Standards No. 157, Fair Value Measurements (FAS 157). FAS 157 defines fair value as the price that the Fund would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. FAS 157 also establishes a framework for measuring fair value, and a three level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The Fund's investment in its entirety is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-tier hierarchy of inputs is summarized below.

Level 1 - inputs are quoted prices in active markets

Level 2 - inputs that are observable, directly or indirectly

Level 3 - inputs are unobservable and reflect assumptions on the part of the reporting entity

The following table summarizes the valuation of the Fund's investments by the above FAS 157 fair value hierarchy levels as of May 31, 2008:

Level	Securities	Derivatives
Level 1	\$ 109,030,575	\$ □
Level 2	53,277,342	16,257
Level 3	1,865,379	□
Total	\$ 164,173,296	\$ 16,257

(continues) 17

Notes to financial statements

Delaware Investments Dividend and Income Fund, Inc.

3. Investments (continued)

The following is a reconciliation of investments in which significant unobservable inputs (Level 3) were used in determining fair value:

	Securities	Derivatives
Balance as of 11/30/07	\$ 218,725	\$ □
Net change in unrealized appreciation/depreciation	(532,938)	□
Net purchases, sales and settlements	2,179,592	□
Balance as of 5/31/08	\$ 1,865,379	\$ □
Net change in unrealized appreciation/depreciation from investments still held as of 5/31/08	\$ 32	\$ □

4. Dividend and Distribution Information

Income and long-term capital gain distributions are determined in accordance with federal income tax regulations, which may differ from U.S. generally accepted accounting principles. Additionally, distributions from net short-term gains on sales of investment securities are treated as ordinary income for federal income tax purposes. The tax character of dividends and

Edgar Filing: DELAWARE INVESTMENTS DIVIDEND & INCOME FUND INC - Form N-CSR

distributions paid during the six months ended May 31, 2008 and the year ended November 30, 2007 was as follows:

	Six Months Ended 5/31/08*	Year Ended 11/30/07
	(Unaudited)	
Ordinary income	\$ 5,020,211	\$ 6,457,314
Long-term capital gains	□	9,173,698
Return of capital	□	6,965,444
Total	\$ 5,020,211	\$ 22,596,456

*Tax information for the six months ended May 31, 2008 is an estimate and the tax character of dividends and distributions may be redesignated at fiscal year end.

5. Components of Net Assets on a Tax Basis

The components of net assets are estimated since final tax characteristics cannot be determined until fiscal year end. As of May 31, 2008, the components of net assets on a tax basis were as follows:

Shares of beneficial interest	\$ 110,080,020
Undistributed long-term capital gain	2,191,586
Unrealized appreciation of investments	78,470
Other temporary differences	(146,091)
Net assets	\$ 112,203,985

The differences between book basis and tax basis components of net assets are primarily attributable to tax deferral of losses on wash sales, contingent payment debt instruments, interest accrued on bonds in default, tax treatment of CDS contracts and market discount and premium on debt instruments.

For financial reporting purposes, capital accounts are adjusted to reflect the tax character of permanent book/tax differences. Reclassifications are primarily due to tax treatment of market discount and premium on certain debt instruments and CDS contracts. Results of operations and net assets were not affected by these reclassifications. For the six months ended May 31, 2008, the Fund recorded an estimate of these differences since the final tax characteristics cannot be determined until fiscal year end.

Undistributed net investment income	\$ 2,417,907
Accumulated net realized gain	(105,293)
Paid-in capital	(2,312,614)

6. Capital Stock

Shares obtained under the Fund's dividend reinvestment plan are purchased by the Fund's transfer agent, BNY Mellon Shareowner Services, in the open market. There were no shares issued under the Fund's dividend reinvestment plan for the six months ended May 31, 2008 and year ended November 30, 2007.

On May 22, 2008, the Fund's Board of Directors approved a tender offer for shares of the Fund's common stock. The tender offer authorized the Fund to purchase up to 5% of its issued and outstanding shares at a price equal to the Fund's net asset value at the close of business on the NYSE on June 30, 2008, the first business day following the expiration of the offer. The tender offer commenced on May 30, 2008 and expired on June 27, 2008. In connection with the tender offer, the Fund purchased 522,939 shares of capital stock at a total cost of approximately \$5,004,526. The tender offer was oversubscribed, and all tenders of the shares were subject to pro-ration (at a ratio of approximately 0.74430528) in accordance with the terms of the tender offer.

On May 21, 2007, the Fund's Board of Directors approved a tender offer for shares of the Fund's common stock. The tender offer authorized the Fund to purchase up to 5% of its issued and outstanding shares at a price equal to the Fund's net asset value at the close of business on the NYSE on July 2, 2007, the first business day following the expiration of the offer. The tender offer commenced on June 1, 2007 and expired on June 29, 2007. In connection with the tender offer, the Fund purchased 550,462 shares of capital stock at a total cost of \$7,943,167. The tender offer was oversubscribed, and all tenders of the shares were subject to pro-ration (at a ratio of approximately 0.529105872) in accordance with the terms of the tender offer.

The Fund did not purchase any shares under the Share Repurchase Program during the period ended May 31, 2008 and the year ended November 30, 2007.

18

7. Commercial Paper

During the period December 1, 2007 to December 20, 2007, \$24,000,000 (par value) of commercial paper was outstanding. The average daily balance of commercial paper outstanding during the period December 1, 2007 to December 20, 2007 was \$23,974,750 at a weighted discount rate of 5.05%. The maximum amount of commercial paper outstanding at any time during period was \$24,000,000.

In conjunction with issuance of the commercial paper, the Fund entered into a Liquidity Agreement with JPMorgan Chase for \$30,000,000. Interest on borrowings was based on market rates in effect at the time of borrowing. The commitment fee was computed at the rate of 0.10% per annum on the unused balance. During the period December 1, 2007 to December 20, 2007, there were no borrowings under this arrangement.

The Fund terminated the commercial paper program and related liquidity Agreement with JPMorgan Chase on December 20, 2007.

8. Line of Credit

For the six months ended May 31, 2008, the Fund borrowed money pursuant to a \$44,000,000 Line of Credit Agreement with The Bank of New York Mellon (BNY Mellon). At May 31, 2008, the par value of loans outstanding was \$44,000,000 at the Fed Funds rate of 2.23% plus 0.25%. During the six months ended May 31, 2008, the average daily balance of loans outstanding was \$41,639,344 at a weighted average Fed Funds rate of approximately 3.27% plus 0.25%. The maximum amount of borrowings outstanding at any time during the period was \$44,000,000. Interest on borrowings is based on market rates in effect at the time of borrowing. The commitment fee is computed at a rate of 0.10% per annum on the unused balance. The loan is collateralized by the Fund's portfolio.

9. Swap Contracts

The Fund may enter into interest rate swap contracts, index swap contracts and CDS contracts in accordance with its investment objectives. The Fund may use interest rate swaps to adjust the Fund's sensitivity to interest rates or to hedge against changes in interest rates. Index swaps may be used to gain exposure to markets that the Fund invests in, such as the corporate bond market. The Fund may also use index swaps as a substitute for futures or options contracts if such contracts are not directly available to the Fund on favorable terms. The Fund may enter into CDS contracts in order to hedge against a credit event, to enhance total return or to gain exposure to certain securities or markets.

An interest rate swap involves payments received by the Fund from another party based on a variable or floating interest rate, in return for making payments based on a fixed interest rate. An interest rate swap can also work in reverse with the Fund receiving payments based on a fixed interest rate and making payments based on a variable or floating interest rate. Interest rate swaps may be used to adjust the Fund's sensitivity to interest rates or to hedge against changes in interest rates. Periodic payments on such contracts are accrued daily and recorded as unrealized appreciation/depreciation on swap contracts. Upon periodic payment/ receipt or termination of the contract, such amounts are recorded as realized gains or losses on swap contracts.

Index swaps involve commitments to pay interest in exchange for a market linked return based on a notional amount. To the extent the total return of the security, instrument or basket of instruments underlying the transaction exceeds the offsetting interest obligation, the Fund will receive a payment from the counterparty. To the extent the total return of the security, instrument or basket of instruments underlying the transaction falls short of the offsetting interest obligation, the Fund will make a payment to the counterparty. The change in value of swap contracts outstanding, if any, is recorded as unrealized appreciation or depreciation daily. A realized gain or loss is recorded on maturity or termination of the swap contract.

A CDS contract is a risk-transfer instrument through which one party (purchaser of protection) transfers to another party (seller of protection) the financial risk of a credit event (as defined in the CDS agreement), as it relates to a particular reference security or basket of securities (such as an index). In exchange for the protection offered by the seller of protection, the purchaser of protection agrees to pay the seller of protection a periodic amount at a stated rate that is applied to the notional amount of the CDS contract. In addition, an upfront payment may be made or received by the Fund in connection with an unwinding or assignment of a CDS contract. Upon the occurrence of a credit event, the seller of protection would pay the par (or other agreed-upon) value of the referenced security (or basket of securities) to the counterparty.

During the six months ended May 31, 2008, the Fund entered into CDS contracts as a purchaser and seller of protection. Periodic payments (receipts) on such contracts are accrued daily and recorded as unrealized losses (gains) on swap contracts. Upon payment (receipt), such amounts are recorded as realized losses (gains) on swap contracts. Upfront payments made or received in connection with CDS contracts are amortized over the expected life of the CDS contracts as realized losses (gains) on swap contracts. The change in value of CDS contracts is recorded as unrealized appreciation or depreciation daily. A realized gain or loss is recorded upon a credit event (as defined in the CDS agreement) or the maturity or termination of the agreement.

CDS may involve greater risks than if the Fund had invested in the referenced obligation directly. CDS are subject to general market risk, liquidity risk, counterparty risk and credit risk. If the Fund enters into a CDS contract as a purchaser of protection and no credit event occurs, its exposure is limited to the periodic payments previously made to the counterparty.

Because there is no organized market for swap contracts, the value of open swaps may differ from that which would be realized in the event the Fund terminated its position in the agreement. Risks of entering into these contracts include the potential inability of the counterparty to meet the terms of the contracts. This type of risk is generally limited to the amount of favorable movement in the value of the underlying security, instrument or basket of instruments, if any, at the day of default. Risks also arise from potential losses from adverse market movements and such losses could exceed the unrealized amounts shown on the statement of net assets.

(continues) 19

Notes to financial statements

Delaware Investments Dividend and Income Fund, Inc.

10. Securities Lending

The Fund, along with other funds in the Delaware Investments[®] Family of Funds, may lend its securities pursuant to a security lending agreement (Lending Agreement) with BNY Mellon. With respect to each loan, if the aggregate market value of the collateral held on any business day is less than the aggregate market value of the securities which are the subject of such loan, the borrower will be notified to provide additional collateral not less than the applicable collateral requirements. Cash collateral received is invested in a Collective Trust established by BNY Mellon for the purpose of investment on behalf of clients participating in its securities lending programs. The Collective Trust invests in fixed income securities, with a weighted average maturity not to exceed 90 days, rated in one of the top three tiers by Standard & Poor's Ratings Group or Moody's Investors Service, Inc. or repurchase agreements collateralized by such securities. The Fund can also accept U.S. government securities and letters of credit (non-cash collateral) in connection with securities loans. In the event of default or bankruptcy by the lending agent, realization and/or retention of the collateral may be subject to legal proceedings. In the event the borrower fails to return loaned securities and the collateral received is insufficient to cover the value of the loaned securities and provided such collateral shortfall is not the result of investment losses, the lending agent has agreed to pay the amount of the shortfall to the Fund, or at the discretion of the lending agent, replace the loaned securities. The Fund continues to record dividends or interest, as applicable, on the securities loaned and is subject to change in value of the securities loaned that may occur during the term of the loan. The Fund has the right under the Lending Agreement to recover the securities from the borrower on demand. With respect to security loans collateralized by non-cash collateral, the Fund receives loan premiums paid by the borrower. With respect to security loans collateralized by cash collateral, the earnings from the collateral investments are shared among the Fund, the security lending agent and the borrower. The Fund records securities lending income net of allocations to the security lending agent and the borrower.

At May 31, 2008, the value of the securities on loan was \$14,361,777, for which the Fund received collateral, comprised of non-cash collateral valued at \$2,657,243, and cash collateral of \$12,213,155. Investments purchased with cash collateral are presented on the statement of net assets under the caption "Securities Lending Collateral."

11. Credit and Market Risks

The Fund invests a portion of its assets in high yield fixed income securities, which carry ratings of BB or lower by Standard & Poor's Ratings Group and/or Ba or lower by Moody's Investors Service, Inc. Investments in these higher yielding securities are generally accompanied by a greater degree of credit risk than higher rated securities. Additionally, lower rated securities may be more susceptible to adverse economic and competitive industry conditions than investment grade securities.

The Fund invests in real estate investment trusts (REITs) and is subject to some of the risks associated with that industry. If the Fund holds real estate directly as a result of defaults or receives rental income directly from real estate holdings, its tax status as a regulated investment company may be jeopardized. There were no direct real estate holdings during the six months ended May 31, 2008. The Fund's REIT holdings are also affected by interest rate changes, particularly if the REITs it holds use floating rate debt to finance their ongoing operations.

The Fund may invest up to 10% of its net assets in illiquid securities, which may include securities with contractual restrictions on resale, securities exempt from registration under Rule 144A of the Securities Act of 1933, as amended, and other securities which may not be readily marketable. The relative illiquidity of these securities may impair each Fund from disposing of them in a timely manner and at a fair price when it is necessary or desirable to do so. While maintaining oversight, the Fund's Board of Trustees has delegated to DMC the day-to-day functions of determining whether individual securities are liquid for purposes of the Fund's limitation on investments in illiquid assets. Securities eligible for resale pursuant to Rule 144A, which are determined to be liquid, are not subject to the Fund's 10% limit on investments in illiquid securities. Rule 144A and illiquid securities have

been identified on the statement of net assets.

12. Contractual Obligations

The Fund enters into contracts in the normal course of business that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts. Management has reviewed the Fund's existing contracts and expects the risk of loss to be remote.

Delaware Investments Dividend and Income Fund, Inc.

Board Consideration of Delaware Investments Dividend and Income Fund, Inc. Advisory Agreement

At a meeting held on May 20-22, 2008 (the "Annual Meeting"), the Board of Directors, including a majority of disinterested or independent Directors, approved the renewal of the Investment Advisory Agreement for the Delaware Investments Dividend and Income Fund, Inc. (the "Fund"). In making its decision, the Board considered information furnished at regular quarterly Board meetings, including reports detailing Fund performance, investment strategies and expenses, as well as information prepared specifically in connection with the renewal of the investment advisory contract. Information furnished specifically in connection with the renewal of the Investment Advisory Agreement with Delaware Management Company ("DMC") included materials provided by DMC and its affiliates ("Delaware Investments") concerning, among other things, the nature, extent and quality of services provided to the Fund, the costs of such services to the Fund, economies of scale and the financial condition and profitability of Delaware Investments. In addition, in connection with the Annual Meeting, the Board separately received and reviewed in February 2008 independent historical and comparative reports prepared by Lipper Inc. ("Lipper"), an independent statistical compilation organization. The Lipper reports compared the Fund's investment performance and expenses with those of other comparable mutual funds. The independent Directors reviewed Lipper reports with Counsel to the Independent Directors at the February 2008 Board meeting and discussed such reports further with counsel earlier in the Annual Meeting. The Board requested and received certain information regarding Management's policy with respect to advisory fee levels and its philosophy with respect to breakpoints; the structure of portfolio manager compensation; the investment manager's profitability; and any constraints or limitations on the availability of securities in certain investment styles which might inhibit DMC's ability to invest fully in accordance with Fund policies.

In considering information relating to the approval of the Fund's advisory agreement, the independent Directors received assistance and advice from and met separately with independent counsel. Although the Directors gave attention to all information furnished, the following discussion identifies, under separate headings, the primary factors taken into account by the Board in its contract renewal considerations.

Nature, Extent And Quality of Service. The Board considered the services provided by Delaware Investments to the Fund and its shareholders. In reviewing the nature, extent and quality of services, the Board emphasized reports furnished to it throughout the year at regular Board meetings covering matters such as the compliance of portfolio managers with the investment policies, strategies and restrictions for the Fund, the compliance of management personnel with the Code of Ethics adopted throughout the Delaware Investments Family of Funds complex and the adherence to fair value pricing procedures as established by the Board. The Board was pleased with the current staffing of the Fund's investment advisor and the emphasis placed on research in the investment process. Favorable consideration was given to DMC's efforts to maintain expenditures and, in some instances, increase financial and human resources committed to Fund matters. During 2007 Management commenced the outsourcing of certain investment accounting functions that are expected to improve the quality and the cost of delivering investment accounting services to the Fund. The Board was satisfied with the nature, extent and quality of the overall services provided by Delaware Investments.

Investment Performance. The Board considered the investment performance of DMC and the Fund. The Board placed significant emphasis on the investment performance of the Fund in view of its importance to shareholders. Although the Board gave appropriate consideration to performance reports and discussions with portfolio managers at Board meetings throughout the year, the Board gave particular weight to the Lipper reports furnished for the Annual Meeting. The Lipper reports prepared for the Fund showed the investment performance of its shares in comparison to a group of similar funds as selected by Lipper (the "Performance Universe"). A fund with the highest performance ranked first, and a fund with the lowest ranked last. The highest/best performing 25% of funds in the Performance Universe make up the first quartile; the next 25% - the second quartile; the next 25% - the third quartile; and the lowest/worst performing 25% of funds in the Performance Universe make up the fourth quartile. Comparative annualized performance for the Fund was shown for the past one-, three-, five-, and ten-year periods ended December 31, 2007. The Board's objective is that the Fund's performance for the periods considered be at or above the median of its Performance Universe. The following paragraph summarizes the performance results for the Fund and the Board's view of such performance.

The Performance Universe for the Fund consisted of the Fund and all leveraged closed-end income and preferred stock funds as selected by Lipper. The Lipper report comparison showed that the Fund's total return for the one- and ten-year periods was in the second quartile. The report further showed that the Fund's total return for the three- and five-year periods was in the first quartile. The Board considered the perceived advantages of personnel changes that took place in 2006 and 2007, including the hiring of a new head of the equity department in 2007. The Board commended Management's efforts to enhance Fund performance and expressed confidence in the team, its philosophy and processes. The Board was satisfied that Management was taking effective action to improve Fund performance and meet the Board's performance objective.

Comparative Expenses. The Board considered expense comparison data for the Delaware Investments Family of Funds. Management provided the Board with information on pricing levels and fee structures for the Fund as of October 31, 2007 and the most recent fiscal year end for each comparative fund as of August 31, 2007 or earlier. For any fund with a fiscal year end after August 31, 2007, such fund's expense data were measured as of its fiscal year end for 2006. The Board focused particularly on the comparative analysis of the management fees and total expense ratios of the Fund and the effective management fees and expense ratios of a group of similar leveraged closed-end funds as selected by Lipper (the "Expense Group"). In reviewing comparative costs, the Fund's contractual management fee and the actual management fee incurred by the Fund were compared with the contractual management fees (assuming all funds in the Expense Group were similar in size to the Fund) and actual management fees (as reported by each fund) of other funds within the Expense Group, taking into account any applicable breakpoints and fee waivers. The Fund's total expenses were also compared with those of its Expense Group. The Board also considered fees paid to Delaware Investments for non-management services. The Board noted its objective to limit the Fund's total expense ratio to be competitive with that of the Expense Group. The following paragraph summarizes the expense results for the Fund and the Board's view of such expenses.

(continues) 21

Other Fund information (unaudited)

Delaware Investments Dividend and Income Fund, Inc.

Board Consideration of Delaware Investments Dividend and Income Fund, Inc. Advisory Agreement (continued)

The expense comparisons for the Fund showed that its actual management fee was in the quartile with the lowest expenses of its Expense Group and its total expenses were in the quartile with the second lowest expenses of its Expense Group. The Board was satisfied with the management fees and total expenses of the Fund in comparison to its Expense Group.

Management Profitability. The Board considered the level of profits, if any, realized by Delaware Investments in connection with the operation of the Fund. In this respect, the Board reviewed the Investment Management Profitability Analysis that addressed the overall profitability of Delaware Investments' business in providing management and other services to each of the individual funds and the Delaware Investments Family of Funds as a whole. Specific attention was given to the methodology followed in allocating costs for the purpose of determining profitability. Management stated that the level of profits of Delaware Investments, to a certain extent, reflected operational cost savings and efficiencies initiated by Delaware Investments. The Board considered Delaware Investments' efforts to improve services provided to fund shareholders and to meet additional regulatory and compliance requirements resulting from recent industry-wide SEC initiatives. The Board also considered the extent to which Delaware Investments might derive ancillary benefits from fund operations, including the potential for procuring additional business as a result of the prestige and visibility associated with its role as service provider to the Delaware Investments Family of Funds and the benefits from allocation of fund brokerage to improve trading efficiencies. The Board found that the level of management fees was reasonable in light of the services rendered and the profitability of Delaware Investments.

Economies of Scale. As a closed-end fund, the Fund does not issue shares on a continuous basis. Fund assets increase only to the extent that the values of the underlying securities in the Fund increase. Accordingly, the Board determined that the Fund was not likely to experience significant economies of scale due to asset growth and, therefore, a fee schedule with breakpoints to pass the benefit of economies of scale on to shareholders was not likely to provide the intended effect.

Dividend Reinvestment Plan

The Fund offers an automatic dividend reinvestment program ("Plan"). Shareholders who have shares registered in their own names are automatically considered participants in the Plan, unless they elect to withdraw from the Plan. Shareholders who hold their shares through a bank, broker or other nominee should request the bank, broker or nominee to participate in the Plan on their behalf. This can be done as long as the bank, broker or nominee provides a dividend reinvestment service for the Fund. If the bank, broker or nominee does not provide this service, such shareholders must have their shares taken out of "street" or nominee name and re-registered in their own name in order to participate in the Plan.

BNY Mellon Shareowner Services will apply all cash dividends, capital gains and other distributions (collectively, "Distributions") on the Fund's shares of common stock which become payable to each Plan participant to the purchase of outstanding shares of the Fund's common stock for such participant. These purchases may be made on a securities exchange or in the

over-the-counter market, and may be subject to such terms of price, delivery and related matters to which BNY Mellon Shareowner Services may agree. The Fund will not issue new shares in connection with the Plan.

Distributions reinvested for participants are subject to income taxes just as if they had been paid directly to the shareholder in cash. Participants will receive a year-end statement showing distributions reinvested, and any brokerage commissions paid on such participant's behalf.

Shareholders holding shares of the Fund in their own names who wish to terminate their participation in the Plan may do so by sending written instruction to BNY Mellon Shareowner Services so that BNY Mellon Shareowner Services receives such instructions at least 10 days prior to the Distribution record date. Shareholders with shares held in account by a bank, broker or other nominee should contact such bank, broker or other nominee to determine the procedure for withdrawal from the Plan.

If written instructions are not received by BNY Mellon Shareowner Services at least 10 days prior to the record date for a particular Distribution, that Distribution may be reinvested at the sole discretion of BNY Mellon Shareowner Services. After a shareholder's instructions to terminate participation in the Plan become effective, Distributions will be paid to shareholders in cash. Upon termination, a shareholder may elect to receive either stock or cash for all the full shares in the account. If cash is elected, BNY Mellon Shareowner Services will sell such shares at the then current market value and then send the net proceeds to the shareholder, after deducting brokerage commissions and related expenses. Any fractional shares at the time of termination will be paid in cash at the current market price, less brokerage commissions and related expenses, if any. Shareholders may at any time request a full or partial withdrawal of shares from the Plan, without terminating participation in the Plan. When shares outside of the Plan are liquidated, Distributions on shares held under the Plan will continue to be reinvested unless BNY Mellon Shareowner Services is notified of the shareholder's withdrawal from the Plan.

22

Dividend Reinvestment Plan (continued)

An investor holding shares that participate in the Plan in a brokerage account may not be able to transfer the shares to another broker and continue to participate in the Plan. Please contact your broker/dealer for additional details.

BNY Mellon Shareowner Services will charge participants their proportional share of brokerage commissions on market purchases. Participants may obtain a certificate or certificates for all or part of the full shares credited to their accounts at any time by making a request in writing to BNY Mellon Shareowner Services. A fee may be charged to the participant for each certificate issuance.

If you have any questions and shares are registered in your name, contact BNY Mellon Shareowner Services at 800 851-9677. If you have any questions and shares are registered in [street] name, contact the broker/dealer holding the shares or your financial advisor.

Effective August 1, 2008, the Dividend Reinvestment Plan may be amended by the Fund upon twenty days written notice to the Plan's participants.

Notice Filing with the National Futures Association

In the future, the Fund may invest in futures contracts. It should be noted that the Fund has filed with the National Futures Association a notice claiming an exclusion from the definition of the term [commodity pool operator] ([CPO]) under the Commodity Exchange Act, as amended, and the rules of the Commodity Futures Trading Commission promulgated thereunder, with respect to the Fund's operation. Accordingly, the Fund is not subject to registration or regulation as a CPO.

23

About the organization

This semiannual report is for the information of Delaware Investments Dividend and Income Fund, Inc. shareholders. The figures in this report represent past results that are not a guarantee of future results. The return and principal value of an investment in the investment company will fluctuate so that shares, when sold, may be worth more or less than their original cost.

Notice is hereby given in accordance with Section 23(c) of the Investment Company Act of 1940 that the Fund may, from time to time, purchase shares of its common stock on the open market at market prices.

Item 9. Purchases of Equity Securities by Closed-End Management Investment Companies and Affiliated Purchasers

Not applicable.

Item 10. Submission of Matters to a Vote of Security Holders

Not applicable.

Item 11. Controls and Procedures

The registrant's principal executive officer and principal financial officer have evaluated the registrant's disclosure controls and procedures within 90 days of the filing of this report and have concluded that they are effective in providing reasonable assurance that the information required to be disclosed by the registrant in its reports or statements filed under the Securities Exchange Act of 1934 is recorded, processed, summarized and reported within the time periods specified in the rules and forms of the Securities and Exchange Commission.

There were no significant changes in the registrant's internal control over financial reporting that occurred during the second fiscal quarter of the period covered by the report to stockholders included herein (i.e., the registrant's second fiscal quarter) that have materially affected, or are reasonably likely to materially affect, the registrant's internal control over financial reporting.

Item 12. Exhibits

(a) (1) Code of Ethics

Not applicable.

(2) Certifications of Principal Executive Officer and Principal Financial Officer pursuant to Rule 30a-2 under the Investment Company Act of 1940 are attached hereto as Exhibit 99.CERT.

(3) Written solicitations to purchase securities pursuant to Rule 23c-1 under the Securities Exchange Act of 1934.

Not applicable.

(b) Certifications pursuant to Section 906 of the Sarbanes-Oxley Act of 2002 are furnished herewith as Exhibit 99.906CERT.

SIGNATURES
