UMH PROPERTIES, INC. AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

JUNE 30, 2015 (UNAUDITED)

NOTE 1 – ORGANIZATION AND ACCOUNTING POLICIES

UMH Properties, Inc. (“we”, “our”, “us” or “the Company”) owns and operates ninety-two manufactured home communities containing approximately 15,700 developed homesites. The communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana and Michigan. The Company, through its wholly-owned taxable subsidiary, UMH Sales and Finance, Inc. (“S&F”), conducts manufactured home sales in its communities. S&F was established to enhance the occupancy of the communities. The consolidated financial statements of the Company include S&F and all of its other wholly-owned subsidiaries. All intercompany transactions and balances have been eliminated in consolidation. The Company also invests in securities of other Real Estate Investment Trusts (“REITs”) which the Company generally limits to no more than approximately 15% of its undepreciated assets.

The Company has elected to be taxed as a REIT under Sections 856-860 of the Internal Revenue Code (the Code), and intends to maintain its qualification as a REIT in the future. As a qualified REIT, with limited exceptions, the Company will not be taxed under federal and certain state income tax laws at the corporate level on taxable income that it distributes to its shareholders. For special tax provisions applicable to REITs, refer to Sections 856-860 of the Code. The Company is subject to franchise taxes in some of the states in which the Company owns property.

The interim Consolidated Financial Statements furnished herein have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) applicable to interim financial information, the instructions to Form 10-Q, and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by U.S. GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2015 are not necessarily indicative of the results that may be expected for the year ending December 31, 2015. For further information, refer to the Consolidated Financial Statements and footnotes thereto included in the Company’s annual report on Form 10-K for the year ended December 31, 2014.

Use of Estimates

Edgar Filing: UMH PROPERTIES, INC. - Form 10-Q

In preparing the Consolidated Financial Statements in accordance with U.S. GAAP, management is required to make estimates and assumptions that affect the reported amounts of Assets and Liabilities, as well as contingent Assets and Liabilities as of the dates of the Consolidated Balance Sheets and Revenue and Expenses for the years then ended. Actual results could differ significantly from these estimates and assumptions.

Table of ContentsStock Based Compensation

The Company accounts for awards of stock options and restricted stock in accordance with ASC 718-10, Compensation-Stock Compensation. ASC 718-10 requires that compensation cost for all stock awards be calculated and amortized over the service period (generally equal to the vesting period). The compensation cost for stock option grants is determined using option pricing models, intended to estimate the fair value of the awards at the grant date less estimated forfeitures. The compensation expense for restricted stock is recognized based on the fair value of the restricted stock awards less estimated forfeitures. The fair value of restricted stock awards is equal to the fair value of the Company's stock on the grant date. Compensation costs of \$275,877 and \$453,678 have been recognized for the three and six months ended June 30, 2015, respectively and \$339,099 and \$562,896 for the three and six months ended June 30, 2014, respectively.

On February 2, 2015, the Company awarded to Samuel A. Landy a restricted stock award of 25,000 shares in accordance with his employment agreement. The grant date fair value of this restricted stock grant was \$243,250. This grant vests ratably over 5 years.

On June 24, 2015, the Company granted options to purchase 425,000 shares of common stock to twenty-four participants in the Plan, including an option to purchase 100,000 shares to Eugene W. Landy. The exercise price is \$9.82 and the expiration date is June 24, 2023. The grant date fair value of these options amounted to \$393,265. These grants vest over 1 year. Compensation costs for grants issued to a participant who is of retirement age were recognized at the time of the grant.

The fair value of each option grant is estimated on the date of grant using the Black-Scholes option pricing model with the following weighted-average assumptions used for grants during the six months ended June 30, 2015 and 2014:

	2015	2014
Dividend yield	7.37%	7.14%
Expected volatility	27.17%	27.12%
Risk-free interest rate	2.12%	2.23%
Expected lives	8	8
Estimated forfeitures	-0-	-0-

The weighted-average fair value of options granted during the six months ended June 30, 2015 and 2014 was \$0.93 and \$0.98, respectively.

Edgar Filing: UMH PROPERTIES, INC. - Form 10-Q

As of June 30, 2015, there were options outstanding to purchase 1,620,000 shares. There were 1,832,000 shares available for grant under the 2013 Stock Option and Stock Award Plan. During the six months ended June 30, 2015, options to five participants to purchase a total of 20,000 shares were exercised. During the six months ended June 30, 2015, options to two participants to purchase a total of 86,000 shares expired or forfeited. The aggregate intrinsic value of options outstanding as of June 30, 2015 was \$394,443. As of June 30, 2014, there were options

Table of Contents

outstanding to purchase 1,355,000 shares and 2,254,000 shares were available for grant under the Company's 2013 Stock Option and Stock Award Plan.

Derivative Instruments and Hedging Activities

In the normal course of business, the Company is exposed to financial market risks, including interest rate risk on its variable rate debt. The Company attempts to limit these risks by following established risk management policies, procedures and strategies, including the use of derivative financial instruments. The Company's primary strategy in entering into derivative contracts is to minimize the variability that changes in interest rates could have on its future cash flows. The Company generally employs derivative instruments that effectively convert a portion of its variable rate debt to fixed rate debt. The Company does not enter into derivative instruments for speculative purposes. The Company had entered into various interest rate swap agreements that had the effect of fixing interest rates relative to specific mortgage loans.

During 2012, the Company entered into two interest rate swap agreements that have the effect of fixing interest rates relative to specific mortgage loans as follows:

Mortgage	Due Date	Mortgage	Effective	Balance 6/30/15
		Interest Rate	Fixed Rate	
Allentown/Clinton	2/1/2017	LIBOR + 3.25%	4.39%	\$10,329,367
Various – 11 properties	8/1/2017	LIBOR + 3.00%	3.89%	\$11,797,017

The Company's interest rate swap agreements are based upon 30-day LIBOR. The re-pricing and scheduled maturity dates, payment dates, index and the notional amounts of the interest rate swap agreements coincide with those of the underlying mortgage. The interest rate swap agreements are net settled monthly. The Company has designated these derivatives as cash flow hedges and has recorded the fair value on the balance sheet in accordance with ASC 815, Derivatives and Hedging (See Note 7 for information on the determination of fair value). The effective portion of the gain or loss on these hedges will be reported as a component of Accumulated Other Comprehensive Income (Loss) in the Company's Consolidated Balance Sheets. To the extent that the hedging relationships are not effective or do not qualify as cash flow hedges, the ineffective portion is recorded in Interest Expense. Hedges that received designated hedge accounting treatment are evaluated for effectiveness at the time that they are designated as well as through the hedging period. As of June 30, 2015 and December 31, 2014, the Company has determined that these interest rate swap agreements are highly effective as cash flow hedges. As a result, the fair value of these derivatives of \$(111,805) and \$(39,685), respectively, was recorded as a component of Accumulated Other Comprehensive Income, with the corresponding liability included in Accrued Liabilities and Deposits.

Recent Accounting Pronouncements

In May 2014, the FASB issued ASU No. 2014-09, "Revenue from Contracts with Customers" as a new Topic, Accounting Standards Codification ("ASC") Topic 606. The objective of ASU 2014-09 is to establish a single comprehensive model for entities to use in

accounting for revenue arising from contracts with customers and will supersede most of the existing revenue recognition guidance, including industry-specific guidance. The core principle is that a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In applying the new standard, companies will perform a five-step analysis of transactions to determine when and how revenue is recognized. ASU 2014-09 applies to all contracts with customers except those that are within the scope of other topics in the FASB ASC. In July 2015, the FASB deferred the effective date for annual reporting periods beginning after December 15, 2017 (including interim reporting periods within those periods). Early adoption is permitted to the original effective date of December 15, 2016 (including interim reporting periods within those periods). The amendments may be applied retrospectively to each prior period presented or retrospectively with the cumulative effect recognized as of the date of initial application. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements and the method of adoption.

In April 2015, the FASB issued ASU No. 2015-03, "Simplifying the Presentation of Debt Issuance Costs," ("ASU 2015-03"). ASU 2015-03 requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability, consistent with debt discounts. The standard is effective for annual reporting periods beginning after December 15, 2015, and interim periods within those years, with early adoption permitted. The Company is currently evaluating the potential impact this standard may have on the consolidated financial statements.

In July 2015, the FASB issued ASU No. 2015-11, Simplifying the Measurement of Inventory. ASU 2015-11 applies to inventory that is measured using first-in, first-out (FIFO) or average cost. An entity should measure inventory within the scope of ASU 2015-11 at the lower of cost and net realizable value. Net realizable value is the estimated selling prices in the ordinary course of business, less reasonable predictable costs of completion, disposal and transportation. The amendments in ASU 2015-11 more closely align the measurement of inventory in US GAAP with the measurement of inventory in International Financial Reporting Standards (IFRS). ASU 2015-11 is effective for fiscal years beginning after December 15, 2016. The Company is currently evaluating the potential impact of impact this standard may have on the consolidated financial statements.

Management does not believe that any other recently issued, but not yet effective accounting pronouncements, if adopted, would have a material effect on the accompanying Consolidated Financial Statements.

In addition to the Company's investments in securities available for sale and interest rate swaps, the Company is required to disclose certain information about the fair values of its other financial instruments, as defined in ASC 825-10, Financial Instruments. Estimates of fair value are made at a specific point in time, based upon, where available, relevant market prices and information about the financial instrument. Such estimates do not include any premium or discount that could result from offering for sale at one time the Company's entire holdings of a particular financial instrument. All of the Company's Securities Available for Sale have quoted market prices and are therefore classified in Level 1 of the fair value hierarchy. A quoted market price is indirectly available for our interest rate swap. This price is determined using widely accepted valuation techniques, including discounted cash flow analysis on the expected cash flows, and reflects the contractual terms of the derivative, including the period to maturity, and uses observable market-based inputs. As such, we have determined that the valuation of this interest rate swap is classified in Level 2 of the fair value hierarchy. The fair value of Cash and Cash Equivalents and Notes Receivable approximates their current carrying amounts since all such items are short-term in nature. The fair value of Variable Rate Mortgages Payable and Loans Payable approximate their current carrying amounts since such amounts payable are at approximately a weighted-average current market rate of interest. As of June 30, 2015, the fair and carrying

value of Fixed Rate Mortgages Payable amounted to \$201,885,074 and \$201,349,570, respectively. The fair value of Mortgages Payable is estimated based upon discounted cash flows at current market rates for instruments with similar remaining terms.

NOTE 8 – CONTINGENCIES, COMMITMENTS AND OTHER MATTERS

From time to time, the Company may be subject to claims and litigation in the ordinary course of business. Management does not believe that any such claims or litigation have a material adverse effect on the financial position or results of operations.

In 2010, a rainstorm bringing 13 inches of rain in a two-hour period caused flooding at Memphis Mobile City. A lawsuit was filed by a purported class of individuals alleging various claims based on federal and state discrimination and consumer protection laws, seeking monetary damages and injunctive relief. This case has been settled. In conjunction with the settlement, the Company paid \$125,000 to its insurance company for the Company's share of the settlement and the Company will have no further liability. This amount has been included in the Company's Community Operating Expenses for the six months ended June 30, 2015. The Company is in the process of constructing a new manufactured home community at the former Memphis Mobile City location, which is expected to cost approximately \$5.4 million.

The Company has entered into a definitive agreement to purchase six manufactured home communities with a total of approximately 2,200 developed home sites. These communities are located in Indiana, Ohio and Michigan. The aggregate purchase price of these communities totals approximately \$68.6 million. Subject to satisfactory due diligence and other customary closing conditions, we anticipate completion of these acquisitions during the third and fourth quarters of 2015.

The Company has an agreement with 21st Mortgage Corporation (21st Mortgage) under which 21st Mortgage can provide financing for home purchasers in the Company's communities. The Company does not receive referral fees or other cash compensation under the agreement. If 21st Mortgage makes loans to purchasers and those purchasers default on their loans and 21st Mortgage repossesses the homes securing such loans, the Company has agreed to purchase from 21st Mortgage each such repossessed home for a price equal to 80% to 95% of the amount under each such loan, subject to certain adjustments. This agreement may be terminated by either party with 30 days written notice. As of June 30, 2015, there were 102 transactions under this agreement with a total original loan amount of approximately \$4.9 million. Additionally, 21st Mortgage previously made loans to purchasers in certain communities the Company acquired. In conjunction with these acquisitions, the Company has agreed to purchase from 21st Mortgage each repossessed home, if those purchasers default on their loans. The purchase price ranges from 55% to 100% of the amount under each such loan, subject to certain adjustments. As of June 30, 2015, the total loan balance was approximately \$2.6 million.

ITEM 2 - MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**Overview**

The following discussion and analysis of the consolidated financial condition and results of operations should be read in conjunction with the Consolidated Financial Statements and footnotes thereto included elsewhere herein and in the Company's annual report on Form 10-K for the year ended December 31, 2014.

The Company is a self-administered, self-managed, REIT with headquarters in Freehold, New Jersey. The Company's primary business is the ownership and operation of manufactured home communities which includes leasing manufactured home spaces on a month-to-month or annual basis to manufactured home owners. The Company also leases homes to residents and, through its taxable REIT subsidiary, UMH Sales and Finance, Inc. (S&F), sells and finances homes to qualified residents and prospective residents of the Company's communities. As of June 30, 2015, the Company owned ninety-two manufactured home communities containing approximately 15,700 developed home sites. These communities are located in New Jersey, New York, Ohio, Pennsylvania, Tennessee, Indiana and Michigan. The Company also invests in securities of other REITs which it limits to 15% of its undepreciated assets.

The Company's income primarily consists of Rental and Related Income from the operation of its manufactured home communities. Income also includes sales of manufactured homes as well as sales finance operations. Community Net Operating Income (Community NOI, defined as Rental and Related Income less Community Operating Expenses) increased 18% for the three months ended June 30, 2015 as compared to the three months ended June 30, 2014. Overall occupancy has increased from 81.7% as of June 30, 2014 to 82.0% currently. Same property occupancy, which includes communities owned and operated since January 1, 2014, has increased from 82.5% as of June 30,

2014 to 83.4% currently. We continue to see increased demand for rental homes. We have added an additional 300 rental homes during the first and second quarter of 2015, bringing the total to approximately 2,900 rental homes. Occupied rental homes represent approximately 21.8% of total occupied sites at quarter end. Occupancy in rental

homes continues to be strong and is currently at 95.0%. We intend to add more rental homes throughout 2015, as demand dictates.

The Company also holds a portfolio of securities of other REITs with a fair value of \$63,347,985 at June 30, 2015, which earns Dividend and Interest Income. The Company generally limits its investment in other REITs to no more than approximately 15% of its undepreciated assets. The dividends received from our securities investments were at a weighted-average yield of approximately 6.96% during the six months ended June 30, 2015. During the six months ended June 30, 2015, the Company recognized Gains on Sales of Securities of \$79,748. At June 30, 2015, the Company had Net Unrealized Losses of (\$1,724,773) in its REIT securities portfolio. The Company invests in REIT securities on margin from time to time when the Company can achieve an adequate yield spread. The REIT securities portfolio provides the Company with liquidity and additional income and serves as a proxy for real property investments.

The Company continues to increase its manufactured home community investments. In 2013 and 2014, we added thirty-one manufactured home communities, encompassing approximately 4,300 developed homesites, to the Company's portfolio. The following is a summary of the communities acquired in 2015 to date:

Total 2015 to Date			623	\$ 12,617,000	224	71%

We have also entered into a definitive agreement to purchase six manufactured home communities with a total of approximately 2,200 developed homesites located in Indiana, Ohio and Michigan for a purchase price of approximately \$68.6 million. Subject to satisfactory due diligence and other customary closing conditions, we anticipate completion of these acquisitions during the third and fourth quarters of 2015. We have been positioning ourselves for future growth and will continue to seek opportunistic investments. We currently have the potential to fill 2,800 vacancies. Housing demand in the energy-rich Marcellus and Utica shale regions, where a substantial amount of the Company's communities are located, is expected to be particularly strong in the years to come and the Company intend to focus its acquisitions in those regions.

See PART I, Item 1 – Business in the Company's 2014 annual report on Form 10-K for a more complete discussion of the economic and industry-wide factors relevant to the Company and the opportunities and challenges, and risks on which the Company is focused.

Significant Accounting Policies and Estimates

The discussion and analysis of the Company's financial condition and results of operations are based upon the Company's Consolidated Financial Statements, which have been prepared in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP). The preparation of these Consolidated Financial Statements requires management to make estimates and judgments that affect the reported amounts of Assets and Liabilities, Revenues and Expenses, and related disclosure of contingent Assets and Liabilities at the date of the Company's Consolidated Financial Statements. Actual results may differ from these estimates under different assumptions or conditions.

On a regular basis, management evaluates our assumptions, judgments and estimates. Management believes there have been no material changes to the items that we disclosed as our significant accounting policies and estimates under Item 7, "Management's Discussion and Analysis of Financial Condition and Results of Operations," in our Annual Report on Form 10-K for the year ended December 31, 2014.

Loss from the Sales Operations (defined as Sales of Manufactured Homes less Cost of Sales of Manufactured homes less Selling Expenses) amounted to \$280,781 or 17% of total sales and \$316,545 or 13% of total sales for the quarters ended June 30, 2015 and 2014, respectively. Loss from the Sales Operations amounted to \$718,590 or 26% of total sales and \$801,198 or 24% of total sales for the six months ended June 30, 2015 and 2014, respectively. The U.S. homeownership rate fell to 63.4% in the second quarter of 2015, according to the U.S. Census. This is down from 69.2% at its peak at the end of 2004. The macro-economic environment and current housing fundamentals continue to favor home rentals, and we have concentrated on increasing this aspect of our business. Nevertheless, the Company believes that the sale of new homes produces new rental revenue and is an investment in the upgrading of the communities.

General and Administrative Expenses remained relatively stable for the quarter and six months ended June 30, 2015 as compared to the quarter and six months ended June 30, 2014.

Acquisition Costs increased 100% from \$-0- for the quarter ended June 30, 2014 to \$188,248 for the quarter ended June 30, 2015. Acquisition Costs increased 3% from \$285,179 for the six months ended June 30, 2014 to \$294,379 for the six months ended June 30, 2015. Depreciation Expense increased 21% from \$3,672,454 for the quarter ended June 30, 2014 to \$4,451,195 for the quarter ended June 30, 2015. Depreciation Expense increased 22% from \$7,110,126 for the six months ended June 30, 2014 to \$8,679,469 for the six months ended June 30, 2015. This increase was primarily due to the acquisitions and increase in rental homes during 2014 and 2015.

Interest Income decreased 13% from \$537,771 for the quarter ended June 30, 2014 to \$466,129 for the quarter ended June 30, 2015. Interest Income decreased 13% from \$1,085,014 for the six months ended June 30, 2014 to \$944,462 for the six months ended June 30, 2015. This decrease was primarily due to a decrease in the average balance of notes receivable. The average balance for the quarters ended June 30, 2015 and 2014 was approximately \$20.0 million and \$22.9 million, respectively.

Dividend Income remained relatively stable from the quarter ended June 30, 2014 to the quarter ended June 30, 2015. Dividend Income increased 2% from \$2,064,075 for the six months ended June 30, 2014 to \$2,101,654 for the six

months ended June 30, 2015. This increase was primarily due to the increase in the average balance of Securities Available for Sale

from \$61.0 million at June 30, 2014 to \$63.5 million at June 30, 2015. The dividends received from our securities investments continue to meet our expectations. It is the Company's intent to hold these securities long-term.

Gain on Sales of Securities Transactions, net amounted to \$21,548 and \$707,054 for the quarters ended June 30, 2015 and 2014, respectively. Gain on Sales of Securities Transactions, net amounted to \$79,748 and \$1,215,457 for the six months ended June 30, 2015 and 2014, respectively.

Interest Expense increased 28% from \$2,530,528 for the quarter ended June 30, 2014 to \$3,238,109 for the quarter ended June 30, 2015. Interest Expense increased 28% from \$4,738,653 for the six months ended June 30, 2014 to \$6,049,720 for the six months ended June 30, 2015. This increase is primarily due to an increase in the average balance of mortgages and loans payable due to the new community acquisitions in 2014 and 2015. The average balance for the six months ended June 30, 2015 and 2014 was approximately \$274.7 million and \$224.6 million, respectively. The weighted average interest rate was 4.6% and 4.8% at June 30, 2015 and 2014, respectively.

Changes in Financial Condition

Total Investment Property and Equipment increased 7% or \$32,385,461 during the six months ended June 30, 2015. This increase was primarily due to the acquisitions of 4 communities with an aggregate purchase price of \$12,617,000. The Company also added approximately 300 rental units to its existing communities.

Inventory of Manufactured Homes increased 15% or \$1,810,611 during the six months ended June 30, 2015. With the increase in communities and the expansion of our rental program, the Company is purchasing new homes for sales or rent.

Mortgages Payable increased 23% or \$41,640,752 during the six months ended June 30, 2015. This increase was due to the assumption of a mortgage of approximately \$2.3 million and the new Freddie Mac mortgages totaling approximately \$57.7 million, partially offset by principal repayments of approximately \$18.4 million, including the payoff of the D&R Village and Waterfalls Village mortgage of approximately \$6.8 million and the payoff of the Cedarcrest mortgage of approximately \$8.9 million.

Loans Payable decreased 16% or \$12,502,890 during the six months June 30, 2015. This decrease was mainly due to the decrease of approximately \$6.0 million on our margin loan, a decrease of \$6.0 million on our revolving line of credit and a decrease of \$5.0 million on our unsecured credit facility, partially offset by an increase of \$5.0 million on our revolving credit facility for the purchase of inventory. We utilized a portion of the proceeds of the Freddie Mac

mortgages to reduce loans payable.

Liquidity and Capital Resources

The Company's principal liquidity demands have historically been, and are expected to continue to be, distributions to the Company's stockholders, acquisitions, capital improvements, development and expansions of properties, debt service, purchases of manufactured home inventory and rental homes, investment in securities of other REITs and payments of expenses relating to real estate operations. We anticipate that the liquidity demands of the recent properties acquired will be met by the operations of these acquisitions. The Company's ability to generate cash adequate to meet these demands is dependent primarily on income from its real estate investments and securities portfolio, the sale of real estate investments and securities, refinancing of mortgage debt, leveraging of real estate investments, availability of bank borrowings, lines of credit, proceeds from the DRIP, and access to the capital markets.

In addition to cash generated through operations, the Company uses a variety of sources to fund its cash needs, including acquisitions. The Company may sell marketable securities, borrow on its lines of credit, finance and refinance its properties, and/or raise capital through the DRIP and capital markets.

The Company raised \$14,961,647 from the issuance of common stock in the DRIP during the six months ended June 30, 2015, which included Dividend Reinvestments of \$987,999. Dividends paid on the common stock for the six months ended June 30, 2015 were \$9,115,626, of which \$987,999 were reinvested. Dividends paid on the preferred stock for the six months ended June 30, 2015 were \$3,778,294.

Net Cash provided by Operating Activities amounted to \$10,246,793 and \$7,946,692 for the six months ended June 30, 2015 and 2014, respectively. As of June 30, 2015, the Company had Cash and Cash Equivalents of \$9.0 million, Securities Available for Sale of \$63.3 million, \$5.0 million available on its unsecured credit facility, with an additional \$15 million potentially available pursuant to an accordion feature, \$6.0 million available on its revolving lines of credit for the financing of home sales and approximately \$10.4 million available on its revolving credit facility for the financing of inventory purchases. The Company owns 92 communities, of which 24 are unencumbered. These marketable securities, non-mortgaged properties, and lines of credit provide the Company with additional liquidity. The Company has been raising capital through its DRIP and through public offerings of its preferred stock.

The Company believes that funds generated will be adequate to meet its obligations over the next several years.

Off-Balance Sheet Arrangements

The Company does not have any off-balance sheet arrangements.

Funds From Operations

We assess and measure our overall operating results based upon an industry performance measure referred to as Funds From Operations (FFO), which management believes is a useful indicator of our operating performance. FFO is used by industry analysts and investors as a supplemental operating performance measure of a REIT. FFO, as defined by The National Association of Real Estate Investment Trusts (NAREIT), represents net income (loss) attributable to common shareholders, as defined by accounting principles generally accepted in the United States of America (U.S. GAAP), excluding extraordinary items, as defined under U.S. GAAP, gains or losses from sales of previously depreciated real estate assets, impairment charges related to depreciable real estate assets, plus certain non-cash items such as real estate asset depreciation and amortization. NAREIT created FFO as a non-U.S. GAAP supplemental measure of REIT operating performance. We define Core Funds From Operations (Core FFO), as FFO plus acquisition costs and cost of early extinguishment of debt. We define Normalized Funds From Operations (Normalized FFO), as Core FFO excluding gains and losses realized on securities investments and certain one-time charges. FFO, Core FFO and Normalized FFO should be considered as supplemental measures of operating performance used by REITs. FFO, Core FFO and Normalized FFO exclude historical cost depreciation as an expense and may facilitate the comparison of REITs which have a different cost basis. The items excluded from FFO, Core FFO and Normalized FFO are significant components in understanding the Company's financial performance.

FFO, Core FFO and Normalized FFO (i) do not represent Cash Flow from Operations as defined by U.S. GAAP; (ii) should not be considered as an alternative to net income (loss) as a measure of operating performance or to cash flows from operating, investing and financing activities; and (iii) are not alternatives to cash flow as a measure of liquidity. FFO, Core FFO and Normalized FFO, as calculated by the Company, may not be comparable to similarly titled measures reported by other REITs.
