ITEM 1.01 ENTRY INTO A MATERIAL DEFINITIVE AGREEMENT

The information set forth in Item 2.01 of this Current Report on Form 8-K is incorporated herein by reference in its entirety.

ITEM 2.01 COMPLETION OF ACQUISITION OR DISPOSITION OF ASSETS

On April 17, 2009, Taizhou Taide Valve Co., Ltd., a Chinese corporation (the “Subsidiary”), a wholly-owned subsidiary of China Valves Technology, Inc., acquired 100% tangible assets of Taizhou Wote Valve Co., Ltd. (“Taizhou Wote”), for a total cash consideration of U.S. \$3 million pursuant to an Asset Purchase Agreement, dated February 15, 2009, between the Subsidiary and Taizhou Wote (the “Asset Purchase Agreement”).

Taizhou Wote is a corporation established under the laws of the People’s Republic of China and is principally engaged in the business of manufacturing, marketing and selling of butterfly valves and valve products for use in water supply and sewage systems. Located in Taizhou, Jiangsu Province, China, Taizhou Wote has an established annual production capacity of 3,200 metric tons of valves. It is currently operating at approximately 70% of its capacity.

The Subsidiary will spend approximately \$1 million to upgrade Taizhou Wote’s production technology and equipment, which we expect will increase Taizhou Wote’s existing production capacity by 50% and enable it to produce higher-end valve products.

Other than in connection with the Asset Purchase Agreement, no material relationship exists between us or any of our affiliates, or our officers, directors or their associates and Taizhou Wote or its equity owners or any of its other affiliates.

The description of the Asset Purchase Agreements in this current report is a summary only and is qualified in its entirety by the terms of the Asset Purchase Agreement, which is attached hereto as exhibit 10.1 and is hereby incorporated by reference.
