Unless the context indicates otherwise, as used in this Proxy Statement, the terms “we,” “us” “our” and “our company” refer to Soligenix, Inc.

This Proxy Statement and the accompanying form of proxy will be distributed to shareholders, and will be made available for viewing, downloading and printing by shareholders at www.proxyvote.com, on or about May 4, 2016. Our Annual Report on Form 10-K for the year ended December 31, 2015 (which does not form a part of the proxy solicitation materials) is being distributed and made available concurrently herewith to stockholders.

Voting Securities; Proxies; Required Vote

Voting Securities

At the Annual Meeting, each holder of record of our common stock, par value \$0.001 per share (“Common Stock”), at the close of business on April 18, 2016 will be entitled to one vote for each share of Common Stock owned on that date as to each matter presented at the Annual Meeting. On April 18, 2016, 31,369,522 shares of Common Stock were outstanding.

Proxies

You cannot vote your shares at the meeting unless you are present in person or represented by proxy. All properly executed and unrevoked proxies that are received in time for the meeting will be voted at the meeting or any adjournment or postponement thereof in accordance with instructions thereon, or if no instructions are given, will be voted as follows:

1. “FOR ALL” in the election of all of the named nominees as directors;
2. “FOR” the approval of the amendment to our Second Amended and Restated Certificate of Incorporation (“Certificate of Incorporation”), which increases the number of authorized shares of our common stock from 50,000,000 to 100,000,000;
3. “FOR” the approval of the grant of discretionary authority to the Board of Directors for up to a three year period (a) to amend the Certificate of Incorporation to effect a reverse stock split of the Common Stock at a ratio within the range from one-for-two to one-for-ten and to proportionately reduce the number of shares of our Common Stock authorized for issuance or (b) to determine not to proceed with the reverse stock split and proportionate reduction in the number of shares of Common Stock authorized for issuance;
4. “FOR” the approval of the compensation of our executive officers;
5. “FOR” the ratification of EisnerAmper LLP as our independent registered public accountants for the year ending December 31, 2016; and

6. In accordance with the judgment of the persons appointed as proxies with respect to other matters which properly come before the Annual Meeting.

You may revoke a proxy by written notice to us at any time prior to exercise of the proxy. In addition, although mere attendance at the Annual Meeting will not revoke a proxy, you may withdraw your proxy by doing so in person.

Voting Your Proxy

Whether or not you plan to attend the Annual Meeting, you may vote your shares via Internet, telephone or mail as more fully described below:

By Internet: Go to www.proxyvote.com and follow the instructions (have your proxy card available);

By Telephone: Call 1-800-690-6903 and follow the voice prompts (have your proxy card available); and

By Mail: If you have received a proxy card, mark your vote, sign your name exactly as it appears on your proxy card, date your card and return it in the envelope provided.

Required Vote

1. The affirmative vote of the holders of a plurality of the shares of Common Stock represented at the Annual Meeting in person or by proxy is required for each nominee to be elected as a director in the election of directors.

2. The affirmative vote of the holders of a majority of the shares of Common Stock issued and outstanding is required to approve the amendment to our Second Amended and Restated Certificate of Incorporation (“Certificate of Incorporation”), which increases the number of authorized shares of our common stock from 50,000,000 to 100,000,000.

3. The affirmative vote of the holders of a majority of the shares of Common Stock issued and outstanding is required to approve the grant of discretionary authority to the Board of Directors for up to a three year period (a) to amend the Certificate of Incorporation to effect a reverse stock split of the Common Stock at a ratio within the range from one-for-two to one-for-ten and to proportionately reduce the number of shares of Common Stock authorized for issuance or (b) to determine not to proceed with the reverse stock split and proportionate reduction in the number of shares of Common Stock authorized for issuance.

4. The affirmative vote of the holders of a majority of the shares of Common Stock represented in person or by proxy at the meeting is required to approve the compensation of our executive officers.

5. The affirmative vote of the holders of a majority of the shares of Common Stock represented in person or by proxy at the meeting is required for the ratification of the appointment of EisnerAmper LLP as the independent registered public accountants for the fiscal year ending December 31, 2016.

NRM VII Holdings I, LLC and Intrexon Corporation, which are affiliates of Randal J. Kirk that beneficially own an aggregate of 13.92% of the outstanding shares of our common stock, have indicated that they intend to vote in favor of the proposals identified in the Proxy Statement. In addition, Paolo Cavazza and certain of his affiliates that beneficially own an aggregate of 9.36% of the outstanding shares of our common stock also have indicated that they intend to vote in favor of the proposals identified in this Proxy Statement.

Stockholders are not allowed to cumulate their votes in the election of directors. In voting on the election of directors, abstentions and broker non-votes (which occur when a broker holding shares for a beneficial owner does not vote on a particular proposal because the broker does not have discretionary voting power with respect to that item and has not received voting instructions from the beneficial owner) will be disregarded and not treated as votes cast and, therefore, will not affect the outcome of the election. Abstentions will have the same effect as votes against the proposals (1) the advisory vote on executive compensation, and (2) to ratify the appointment of EisnerAmper LLP, but broker non-votes will not be counted as votes against such proposals or as shares present or represented at the meeting for these proposals. Abstentions and broker non-votes will have the same effect as votes against the proposals (1) to approve an amendment to our Certificate of Incorporation, which increases the number of authorized shares of our common stock from 50,000,000 to 100,000,000 and (2) to approve the grant of discretionary authority to the Board of Directors (a) to amend the Certificate of Incorporation to effect a reverse stock split of the Common Stock at a ratio within the range from one-for-two to one-for-ten and proportionately reduce the number of shares of Common Stock authorized for issuance or (b) to determine not to proceed with the reverse stock split and proportionate reduction in the number of shares of Common Stock authorized for issuance.

Quorum

The required quorum for the transaction of business at the Annual Meeting is a majority of the voting power of shares of Common Stock issued and outstanding on the record date. Shares represented in person or by proxy (including shares which abstain or do not vote with respect to one or more of the matters presented for stockholder approval) will be counted for purposes of determining whether a quorum exists at the meeting.

Board Leadership Structure

Our Board of Directors believes that Dr. Schaber's service as both the Chairman of our Board of Directors and our Chief Executive Officer is in the best interest of our Company and our stockholders. Dr. Schaber possesses detailed and in-depth knowledge of the issues, opportunities and challenges facing our Company and our business and, therefore, is best positioned to develop agendas that ensure that the Board of Directors' time and attention are focused on the most important matters. His combined role enables decisive leadership, ensures clear accountability, and enhances our ability to communicate our message and strategy clearly and consistently to our stockholders, employees, and collaborative partners.

Messrs. Brownlie and Lapointe, Dr. Brughera, Dr. Rubin, and Dr. Zeldis are independent and the Board of Directors believes that the independent directors provide effective oversight of management. Moreover, in addition to feedback provided during the course of meetings of the Board of Directors, the independent directors hold executive sessions. Following an executive session of independent directors, the independent directors' report back to the full Board of Directors regarding any specific feedback or issues, provide the Chairman with input regarding agenda items for Board of Directors and Committee meetings, and coordinate with the Chairman regarding information to be provided to the independent directors in performing their duties. The Board of Directors believes that this approach appropriately and effectively complements the combined Chairman/Chief Executive Officer structure.

Although the Company believes that the combination of the Chairman and Chief Executive Officer roles is appropriate under the current circumstances, our corporate governance guidelines do not establish this approach as a policy, and the Board of Directors may determine that it is more appropriate to separate the roles in the future.

Director Independence

The Board of Directors has determined that Keith Brownlie, Marco Brughera, Gregg Lapointe, Robert Rubin and Jerome Zeldis are “independent” as such term is defined by the applicable listing standards of The NASDAQ Stock Market LLC (“Nasdaq”). Our Board of Directors based this determination primarily on a review of the responses of the Directors to questionnaires regarding their employment, affiliations and family and other relationships.

Corporate Governance

Pursuant to our Certificate of Incorporation and Bylaws, our business and affairs are managed under the direction of the Board of Directors. Members of the Board of Directors are kept informed of our business through discussions with senior management, by reviewing materials provided to them and by participating in meetings of the Board of Directors and its committees.

The Board of Directors held four meetings in 2015, and each current director who served as a director during 2015, attended at least 75% of the meetings of the Board of Directors and each of the committees on which he served.

We typically schedule a meeting of the Board of Directors in conjunction with our Annual Meeting and expect that all directors will attend, absent a valid reason, such as a scheduled conflict. Last year, all of the individuals then serving as directors, with the exception of Marco Brughera, attended the Annual Meeting in person.

Code of Ethics

We have adopted a code of ethics that applies to all of our executive officers and senior financial officers (including our chief executive officer, chief financial officer, chief accounting officer and any person performing similar functions). A copy of our code of ethics is publicly available on our website at <http://www.soligenix.com> under the “Investors” section. If we make any substantive amendments to our code of ethics or grant any waiver, including any implicit waiver, from a provision of the code to our chief executive officer, chief financial officer or chief accounting officer, we will disclose the nature of such amendment or waiver in a Current Report on Form 8-K.

Committees of the Board of Directors

The Board of Directors has the following three committees: (1) Compensation, (2) Audit and (3) Nominating and Corporate Governance. The Board of Directors has adopted a written charter for each of these committees, which are available on our website at www.soligenix.com under the “Investors” section.

Jerome B. Zeldis, MD, PhD

Committee Chair
Member

Compensation Committee

Our Board of Directors has a Compensation Committee, which is comprised of Dr. Rubin (Chair), Dr. Brughera and Dr. Zeldis. The Compensation Committee is responsible for reviewing and approving the executive compensation program, assessing executive performance, setting salary, making grants of annual incentive compensation and approving certain employment agreements. Our Board of Directors has determined that Dr. Rubin, Dr. Brughera and Dr. Zeldis are “independent” directors within the meaning of applicable listing standards of Nasdaq and the Securities Exchange Act of 1934, as amended (the “Exchange Act”) and the rules and regulations thereunder. The Compensation Committee met one time during the fiscal year ended December 31, 2015.

Nominating and Corporate Governance Committee

Our Board of Directors has a Nominating and Corporate Governance Committee (“Nominating Committee”), which is comprised of Dr. Zeldis (Chair), Mr. Brownlie and Mr. Lapointe. The Nominating Committee makes recommendations to the Board of Directors regarding the size and composition of our Board of Directors, establishes procedures for the nomination process, identifies and recommends candidates for election to our Board of Directors. Our Board of Directors has determined that Dr. Zeldis, Mr. Brownlie and Mr. Lapointe are “independent” directors, as such term is defined by the applicable Nasdaq listing standards. The Nominating Committee met one time during the fiscal year ended December 31, 2015.

In considering candidates for the Board of Directors, the Nominating Committee considers the entirety of each candidate’s credentials and does not have any specific minimum qualifications that must be met by a nominee. However, the Nominating Committee believes that all members of the Board of Directors should have the highest character and integrity, a reputation for working constructively with others, sufficient time to devote to Board of Directors matters, and no conflict of interest that would interfere with performance as a director. In the case of current directors being considered for nomination, the Nominating Committee also takes into account the director’s history of attendance at meetings of the Board of Directors or its committees, the director’s tenure as a member of the Board of Directors, and the director’s preparation for and participation in such meetings.

Stockholders who wish to suggest qualified candidates should write to the Office of the Secretary, Soligenix, Inc., 29 Emmons Drive, Suite C-10, Princeton, New Jersey 08540, specifying the name of the candidates and stating in detail the qualifications of such persons for consideration by the Nominating Committee. A written statement from the candidate consenting to be named as a candidate and, if nominated and elected, to serve as a director should accompany any such recommendation. Stockholders who wish to nominate a candidate for election at an Annual Meeting of Stockholders must otherwise comply with our Bylaws regarding stockholder proposals and nominations. See “Deadline for Stockholder Proposals” contained herein.

Diversity Considerations in Identifying Director Nominees

We do not have a formal diversity policy or set of guidelines in selecting and appointing directors that comprise our Board of Directors. However, when making recommendations to our Board of Directors regarding the size and composition of our Board of Directors, our Nominating Committee does consider each individual director’s qualifications, skills, business experience and capacity to serve as a director and the diversity of these attributes for the Board of Directors as a whole.

Audit Committee

Our Board of Directors has an Audit Committee, which is comprised of Mr. Brownlie (Chair), Mr. Lapointe and Dr. Rubin. The Audit Committee assists our Board of Directors in monitoring the financial reporting process, the internal control structure and the independent registered public accountants. Its primary duties are to serve as an independent and objective party to monitor the financial reporting process and internal control system, to review and appraise the audit effort of the independent registered public accountants and to provide an open avenue of communication among the independent registered public accountants, financial and senior management, and our Board of Directors. Our Board of Directors has determined that Mr. Brownlie, Mr. Lapointe and Dr. Rubin are “independent” directors, within the meaning of applicable listing standards of the Nasdaq and the Exchange Act and the rules and regulations thereunder. Our Board of Directors has also determined that the members of the Audit Committee are qualified to serve on the committee and have the experience and knowledge to perform the duties required of the committee and that Mr. Brownlie qualifies as an “audit committee financial expert” as that term is defined in the applicable regulations of the Exchange Act. The Audit Committee met four times during the fiscal year ended December 31, 2015.

Report of the Audit Committee of the Board of Directors

The Audit Committee submits the following report for the year ended December 31, 2015:

The Audit Committee has reviewed and discussed with both management and the independent registered public accountants the audited consolidated financial statements as of and for the year ended December 31, 2015. The Audit Committee’s review included discussion with the auditors of matters required to be discussed by Public Company Accounting Oversight Board Auditing Standard No. 16, Communications with Audit Committees.

The Audit Committee has received the written disclosures and the letter from the independent auditors required by Public Company Accounting Oversight Board Ethics and Independence Rule 3526, Communication with Audit Committees Concerning Independence, and has discussed with the independent auditors matters relating to the auditors' independence.

Based on the reviews and discussions referred to above, the Audit Committee recommended to the Board of Directors that the audited consolidated financial statements referred to above be included in our Annual Report on Form 10-K for the fiscal year ended December 31, 2015 for filing with the United States Securities and Exchange Commission (the "SEC").

PROPOSAL 2

AMENDMENT TO OUR CERTIFICATE OF INCORPORATION TO INCREASE THE NUMBER OF AUTHORIZED SHARES

General

Our Certificate of Incorporation currently provides for 50,000,000 shares of authorized Common Stock. Our Board of Directors has adopted a resolution to amend our Certificate of Incorporation to increase the authorized number of shares of Common Stock to 100,000,000, subject to stockholder approval of the amendment. No changes will be made to the number of authorized shares of our preferred stock.

The proposed amendment to our Certificate of Incorporation will be effected by amending the introductory paragraphs of Article IV thereof to read in full as follows:

"The total number of shares of capital stock of all classes which the Corporation shall have authority to issue is one hundred million three hundred fifty thousand (100,350,000) shares, of which (a) one hundred million (100,000,000) shares, of par value of \$.001 per share, shall be of a class designated "Common Stock," (b) two hundred thirty thousand (230,000) shares, of a par value of \$.001 per share, shall be of a class designated "Preferred Stock," (c) ten thousand (10,000) shares, of a par value of \$.05 per share, shall be of a class designated "Series B Convertible Preferred Stock," ten thousand (10,000) shares, of a par value of \$.05 per share, shall be of a class designated "Series C Convertible Preferred Stock," and (d) one hundred thousand (100,000) shares, of a par value of \$.001 per share, shall be designated "Series A Junior Participating Preferred Stock."

The designations, powers, preferences, privileges, and relative, participating, option, or other special rights and qualifications, limitations, or restrictions of the above classes of capital stock shall be as follows:"

A copy of the proposed amendment to our Certificate of Incorporation is set forth in **Annex A** attached hereto.

Purpose of Amendment

Our Board of Directors believes that the proposed increase in the number of shares available for issuance under our Certificate of Incorporation is required to continue to operate our business efficiently. When practical, we may attempt to fund our late-stage clinical trials and other business development activities through the issuance of shares, which we believe may be less dilutive to stockholders than funding these activities from the proceeds of typical financings.

As of April 18, 2016, we had 31,369,522 shares of Common Stock outstanding. In addition, as of such date, 4,926,119 shares were reserved for issuance upon exercise of outstanding warrants and 2,824,737 shares were reserved for issuance upon exercise of presently outstanding options under our 2005 Equity Incentive Plan and options granted under our 2015 Equity Incentive Plan. Based upon the foregoing number of outstanding and reserved shares of Common Stock, we have 10,879,622 shares remaining available for other purposes. We also have 2,453,000 shares available for future option grants under the 2015 Equity Incentive Plan and zero shares available for future option grants under the 2005 Equity Incentive Plan.

The proposed increase in the number of shares available for issuance under our Certificate of Incorporation is intended to provide the Board of Directors with authority, without further action of the stockholders, to issue the additional shares of Common Stock, from time to time in such amounts as the Board of Directors deems necessary. Without limitation of the foregoing, the additional shares may be issued in connection with (1) the achievement of clinical development milestones, (2) strategic partnering and/or acquisition transactions involving the issuance of our securities as well as to meet long-term corporate objectives, and (3) capital raising transactions through the sale of Common Stock and/or securities convertible into or exercisable for Common Stock in the private and/or public equity markets to support a higher level of growth, respond to competitive pressures, develop new products and services and support new strategic partnership expenditures.

The need to increase the authorized is primarily driven by our desire to have sufficient shares available for possible merger and acquisition activities, and other corporate development objectives that may occur over the coming years. However, we have no present plans to engage in such activities.

In the absence of a proportionate increase in our earnings and book value, an increase in the aggregate number of outstanding shares of Common Stock caused by the issuance of the additional shares would dilute the earnings per share (including projected future earnings per share) and book value per share of all outstanding shares of our Common Stock. If such factors were reflected in the price per share of the Common Stock, the potential realizable value of a stockholder's investment could be adversely affected. An issuance of additional shares of Common Stock could therefore have an adverse effect on the potential realizable value of a stockholder's investment. The holders of outstanding shares of Common Stock have no preemptive rights to purchase additional shares.

The proposed increase in the authorized number of shares of Common Stock could have other effects on our stockholders. The increase could deter takeovers, in that additional shares could be issued (within the limits imposed by applicable law) in one or more transactions that could make a change in control or takeover of us more difficult. For example, additional shares could be issued by us so as to dilute the stock ownership or voting rights of persons seeking to obtain control. Similarly, the issuance of additional shares to certain persons allied with our management could have the effect of making it more difficult to remove our current management by diluting the stock ownership or voting rights of persons seeking to cause such removal.

Recommendation of the Board of Directors

The Board of Directors recommends that you vote "**FOR**" the approval of the amendment to our Second Amended and Restated Certificate of Incorporation.

PROPOSAL 3

REVERSE STOCK SPLIT

General

As of April 18, 2016, the Company's aggregate market capitalization was approximately \$22.6 million; there were 31,369,522 shares of Common Stock issued and outstanding and the closing price of the Common Stock on that date was \$0.72. In order to reduce the number of shares of Common Stock issued and outstanding and in an effort to proportionately raise the share price, the Board of Directors has unanimously adopted a resolution seeking stockholder approval to grant the Board of Directors discretionary authority to implement a reverse stock split within the next three (3) years by filing the amendment to the Certificate of Incorporation. The ratio of the reverse stock split that the Board of Directors approved and deemed advisable and for which it is seeking stockholder approval is in the range from one-for-two to one-for-ten. The Board of Directors has approved by separate resolution every whole-number ratio within this range, with the exact ratio to be established within this range by the Board of Directors in its sole discretion at the time it elects to effect a reverse stock split. Approval of this reverse stock split proposal would give the Board of Directors authority to determine the date of the reverse stock split to take place at any time during a period of up to three (3) years commencing on the date the Company's stockholders approve this proposal or to determine not to proceed with the reverse stock split.

If the stockholders approve the reverse stock split proposal and the Board of Directors decides to implement the reverse stock split within such three (3) year period, the Company will file an amendment to its then current Certificate of Incorporation with the Secretary of State of the State of Delaware (as described below), which will effect a reverse split of the shares of the Common Stock then issued and outstanding at the specific ratio determined by the Board of Directors. The reverse stock split, if implemented, also would decrease the number of authorized shares of our Common Stock proportionately based on the reverse stock split ratio selected by the Board of Directors, but the \$.001 par value per share of the Common Stock would not change. Except for any changes as a result of the treatment of fractional shares, each stockholder will hold the same percentage of Common Stock, on a fully diluted basis with respect to shares of Common Stock underlying options, warrants and other derivative securities, outstanding immediately after the reverse stock split as such stockholder held immediately prior to the split.

Purpose

The Board of Directors is seeking stockholder approval of the authority to implement a reverse stock split because it believes that a higher stock price has the potential to facilitate a listing on a major stock exchange such as the NYSE MKT or The Nasdaq Capital Market, which may help generate and enable greater institutional investor interest in the

Company. The Board of Directors believes that institutional investors and investment funds are generally reluctant to invest in lower priced over-the-counter traded stocks. The Board of Directors also believes that a higher stock price on a major stock exchange such as the NYSE MKT or The Nasdaq Capital Market may help the Company better attract and retain employees and other service providers as it advances its late-stage development programs in anticipation for potential commercialization of its rare disease product candidates. Accordingly, the Board of Directors concluded that reducing the number of outstanding shares of Common Stock might be desirable in order to attempt to support a higher stock price per share based on our current market capitalization. In addition, the Board of Directors considered that our Common Stock might not appeal to brokerage firms that are reluctant to recommend lower priced securities to their clients. Investors may also be dissuaded from purchasing lower priced stocks because the brokerage commissions, as a percentage of the total transaction, tend to be higher for such stocks. Moreover, the analysts at many brokerage firms do not monitor the trading activity or otherwise provide research coverage of lower priced stocks. The combination of lower transaction costs and increased interest from institutional investors and bank analysts can ultimately improve the trading liquidity of Common Stock. In order to reduce the number of shares of Common Stock outstanding and thereby attempt to proportionally raise the per share price of Common Stock, the Board of Directors believes that it is in the best interests of our Company's stockholders for the Board of Directors to obtain the authority to implement a reverse stock split.

The Board of Directors believes that stockholder approval of a number of ratios within a range (rather than an exact exchange ratio) provides the Board of Directors with maximum flexibility to achieve the purposes of the reverse stock split. If the stockholders approve the reverse stock split proposal, the reverse stock split will be effected, if at all, only upon a determination by the Board of Directors that the reverse stock split is in the best interests of the Company and our stockholders at the time it is implemented over the next three years. In connection with any determination to effect a reverse stock split, the Board of Directors will set the timing for such a split and select the specific ratio within the range. These determinations will be made by the Board of Directors in its effort to create the greatest marketability of the Common Stock based on prevailing market conditions at that time. If the Board of Directors implements a reverse stock split, its choice of a ratio will depend largely on the current market prices of the Common Stock during the period leading up to that date. It is not possible at this point to specify an exact ratio or even a likely ratio that the Board of Directors would consider to be in our best interest. No further action on the part of stockholders will be required either to implement or abandon the reverse stock split. If the Board of Directors determines not to proceed with a reverse stock split within three years after receiving stockholder approval of the reverse stock split, the authority granted in this proposal to implement a reverse stock split on these terms will terminate. The Board of Directors reserves its right to elect not to proceed with the reverse stock split if it determines, in its sole discretion, that the split is no longer in the best interests of the Company and our stockholders.

Certain Risks Associated with the Reverse Stock Split

There can be no assurance that the total market capitalization of the Common Stock after the proposed reverse stock split will be equal to or greater than the total market capitalization before the proposed reverse stock split or that the per share market price of the Common Stock following the reverse stock split will either exceed or remain higher than the current per share market price.

There can be no assurance that the market price per new share of Common Stock (the “New Shares”) after the reverse stock split will rise or remain constant in proportion to the reduction in the number of old shares of Common Stock (the “Old Shares”) outstanding before the reverse stock split. For example, based on a market price of the Common Stock of \$0.72 per share (which was the closing price on April 18, 2016), if the Board of Directors decided to implement the reverse stock split and selects a reverse stock split ratio of one-for-two, there can be no assurance that the post-split market price of the Common Stock would be \$1.44 per share or greater. Alternatively, based on the same market price of the Common Stock of \$0.72 per share, if the Board of Directors decided to implement the reverse stock split and selects a reverse stock split ratio of one-for-ten, there can be no assurance that the post-split market price of the Common Stock would be \$7.20 per share or greater.

Accordingly, the total market capitalization of the Common Stock after the proposed reverse stock split may be lower than the total market capitalization before the proposed reverse stock split and, in the future, the market price of Common Stock following the reverse stock split may not exceed or remain higher than the market price prior to the proposed reverse stock split.

There can be no assurance that the reverse stock split will result in a per-share price that will attract institutional investors and brokers.

While the Board of Directors believes that a higher stock price may help generate investor interest, there can be no assurance that the reverse stock split will result in a per share price that will attract institutional investors and brokers or that, if attained, such price will be maintained.

There can be no assurance that the reverse stock split will result in a per-share price that will increase the Company's ability to attract and retain employees and other service providers.

While the Board of Directors believes that a higher stock price may help us attract and retain employees and other service providers who are less likely to work for a company with a low stock price, there can be no assurance that the reverse stock split will result in a per share price that will increase our ability to attract and retain employees and other service providers or that, if attained, such price will be maintained.

A decline in the market price for the Common Stock after the reverse stock split may result in a greater percentage decline than would occur in the absence of a reverse stock split, and the liquidity of the Common Stock could be adversely affected following a reverse stock split.

The market price of the Common Stock will also be based on our performance and other factors, some of which are unrelated to the number of shares outstanding. If the reverse stock split is effected and the market price of the Common Stock declines, the percentage decline as an absolute number and as a percentage of our overall market capitalization may be greater than would occur in the absence of a reverse stock split. In many cases, both the total market capitalization of a company and the market price of a share of such company's common stock following a reverse stock split are lower than they were before the reverse stock split. Furthermore, the reduced number of shares that would be outstanding after the reverse stock split could adversely affect the liquidity of the Common Stock.

Principal Effects of the Reverse Stock Split

Corporate Matters.

If approved and effected, the reverse stock split would have the following effects:

Depending on the exact reverse stock split ratio selected by the Board of Directors, between two and ten Old Shares owned by a stockholder would be exchanged for one New Share. To illustrate, a shareholder who currently holds 200 shares of Common Stock would exchange those 200 Old Shares for 100 New Shares if a one-for-two reverse split were implemented, or 20 New Shares if a one-for-ten reverse split were implemented. If a one-for-three reverse split were implemented, a holder of 200 Old Shares would exchange those shares for 67 New Shares, rounded up for the fractional share interest of the remaining 2 Old Shares;

The number of shares of Common Stock issued and outstanding will be reduced proportionately based on the reverse stock split ratio selected by the Board of Directors;

The number of shares of Common Stock authorized to be issued will be reduced proportionately based on the reverse stock split ratio selected by the Board of Directors;

Based on the reverse stock split ratio selected by the Board of Directors, proportionate adjustments will be made to the per-share exercise price and the number of shares issuable upon the exercise of all outstanding options and warrants entitling the holders thereof to purchase shares of Common Stock, which will result in approximately the same aggregate price being required to be paid for such options or warrants upon exercise of such options or warrants immediately preceding the reverse stock split; and

The number of shares reserved for issuance under the 2015 Plan will be reduced proportionately based on the reverse stock split ratio selected by the Board of Directors.

If approved and effected, the reverse stock split will be effected simultaneously for all of the Common Stock and the ratio will be the same for all of the Common Stock. The reverse stock split will affect all of our stockholders uniformly and will not affect any stockholder's percentage ownership interests in the Company, subject to being rounded up to the next whole number in the case of fractional shares, as described below. Common Stock issued pursuant to the reverse stock split will remain fully paid and non-assessable. We will continue to be subject to the periodic reporting requirements of the Exchange Act.

Fractional Shares. No scrip or fractional certificates will be issued in connection with the reverse stock split. Stockholders who otherwise would be entitled to receive fractional shares because they hold a number of Old Shares not evenly divisible by the number selected by the Board of Directors for the reverse stock split ratio will be rounded up to the nearest whole share amount.

If approved and effected, the reverse stock split will result in some stockholders owning “odd lots” of less than 100 shares of Common Stock. Brokerage commissions and other costs of transactions in odd lots are generally somewhat higher than the costs of transactions in “round lots” of even multiples of 100 shares.

Authorized Shares. Upon the effectiveness of the reverse stock split, the number of authorized shares of Common Stock would proportionately decrease based on the reverse stock split ratio selected by the Board of Directors. Under the Certificate of Incorporation, we currently have the authority to issue 50,350,000 shares of capital stock, of which 50,000,000 shares are designated as Common Stock, 230,000 shares are designated as "Preferred Stock," 10,000 shares are designated as "Series B Convertible Preferred Stock," 10,000 shares are designated as "Series C Convertible Preferred Stock," and 100,000 shares are designated as “Series A Junior Participating Preferred Stock” As of April 18, 2016, we had 31,369,522 shares of Common Stock issued and outstanding, and did not have any other class of stock outstanding. Authorized but unissued shares will be available for issuance, and we may issue such shares in financings or otherwise. If we issue additional shares, the ownership interest of holders of Common Stock may also be diluted. Also, the issued shares may have rights, preferences or privileges senior to those of the Common Stock.

The Board of Directors believes, based on the number of shares of Common Stock currently outstanding, the number of shares reserved for issuance under stock option plans and warrants, and the number of shares the Company reasonably expects to issue in future transactions, that, after giving effect to the reverse split at any of the proposed ratios, 50,000,000 is an excessive number of shares of Common Stock for the Company to be authorized to issue without stockholder approval. In addition, one method that the State of Delaware uses to impose franchise taxes upon domestic corporations is based upon a corporation’s authorized capital. Accordingly, the Board of Directors believes that a decrease in the number of authorized shares of Common Stock would reduce the amount of franchise taxes that the Company is required to pay annually and would be in the best interests of the Company. The Board of Directors believes that a reduction in the number of shares of Common Stock authorized for issuance at the same ratio determined by the Board of Directors with regard to the reverse split will leave a sufficient number of authorized shares of Common Stock to maintain the requisite amount of flexibility required by the Company’s ongoing activities.

Effects at Illustrative Ratios. The following table illustrates the aggregate effect of a reverse split, at illustrative levels of one-for-two, one-for-three, one-for-five and one-for-ten on the numbers of shares of Common Stock outstanding, on the numbers of shares of Common Stock issuable on exercise or conversion of exercisable or convertible securities, and on the number of authorized but unissued and unreserved shares that would be available for issuance.

	Effect of	Effect of	Effect of	Effect of
	1-for-2	1-for-5	1-for-8	1-for-10
Before	reverse	reverse	reverse	reverse
reverse	reverse	reverse	reverse	reverse

Edgar Filing: SOLIGENIX, INC. - Form DEF 14A

Issued and outstanding shares	31,369,522	15,684,761	6,273,905	3,921,191	3,136,953
Shares issuable upon exercise or conversion of all outstanding exercisable and convertible securities	7,750,856	3,875,428	1,550,172	968,857	775,086
Authorized shares of Common Stock	50,000,000	25,000,000	10,000,000	6,250,000	5,000,000
Authorized, but unissued shares available for issuance	10,849,622	5,439,811	2,175,923	1,359,952	1,084,963

Accounting Matters. The reverse stock split will not affect the par value of the Common Stock. As a result, as of the effective time of the reverse stock split, the stated capital on our balance sheet attributable to the Common Stock will be reduced proportionately based on the reverse stock split ratio selected by the Board of Directors, and the additional paid-in capital account will be credited with the amount by which the stated capital is reduced. The per-share net income or loss and net book value of the Common Stock will be restated because there will be fewer shares of Common Stock outstanding.

Procedure for Effecting Reverse Stock Split and Exchange of Stock Certificates

If the stockholders approve the proposal to authorize the Board of Directors to implement the reverse stock split and reduction of the number of authorized shares of Common Stock and the Board of Directors decides to implement the reverse stock split and reduction of the number of shares of authorized Common Stock within the next three years at a time that the Board of Directors deems appropriate, we will file an amendment to the Certificate of Incorporation (“Amendment to Certificate of Incorporation”) with the Secretary of State of the State of Delaware to amend our existing Certificate of Incorporation. The reverse stock split and reduction of the number of shares of authorized Common Stock will become effective at the time specified in the Amendment to Certificate of Incorporation, which is referred to below as the “effective time.” Beginning at the effective time, each certificate representing Old Shares will be deemed for all corporate purposes to evidence ownership of New Shares. The text of the Amendment to Certificate of Incorporation to effect the reverse stock split, if implemented by the Board of Directors, would be in substantially the form attached hereto as Annex B; provided, however, that the text of the form of Amendment to Certificate of Incorporation attached hereto is subject to modification to include such changes as may be required by the office of the Secretary of State of the State of Delaware and as the Board of Directors deems necessary and advisable to effect the reverse stock split, including the insertion of the effective time and the applicable reverse stock split ratio determined by the Board of Directors.

As soon as practicable after the effective time, stockholders will be notified that the reverse stock split has been effected. The Company expects that its transfer agent, American Stock Transfer & Trust Company, will act as exchange agent for purposes of implementing the exchange of stock certificates. Holders of Old Shares will be asked to surrender to the exchange agent certificates representing Old Shares in exchange for certificates representing New Shares in accordance with the procedures to be set forth in the letter of transmittal the Company sends to its stockholders. No new certificates will be issued to a stockholder until such stockholder has surrendered such stockholder’s outstanding certificate(s), together with the properly completed and executed letter of transmittal, to the exchange agent. Any Old Shares submitted for transfer, whether pursuant to a sale, other disposition or otherwise, will automatically be exchanged for New Shares. **STOCKHOLDERS SHOULD NOT DESTROY ANY STOCK CERTIFICATE(S) AND SHOULD NOT SUBMIT ANY CERTIFICATE(S) UNTIL REQUESTED TO DO SO.**

No Dissenters’ Rights

Under the Delaware General Corporation Law, our stockholders are not entitled to dissenters’ rights with respect to the reverse stock split, and we will not independently provide stockholders with any such right.

Federal Income Tax Consequences of the Reverse Stock Split

The following is a summary of certain material federal income tax consequences of a reverse stock split and does not purport to be a complete discussion of all of the possible federal income tax consequences of a reverse stock split and is included for general information only and is not intended as tax advice to any person or entity. Further, it does not address any state, local or foreign income or other tax consequences. For example, the state and local tax consequences of the reverse stock split may vary significantly as to each stockholder, depending upon the state in which such stockholder resides. Also, it does not address the tax consequences to holders in light of their individual circumstances or to the holders that are subject to special tax rules, such as banks, insurance companies, regulated investment companies, personal holding companies, foreign entities, nonresident alien individuals, partnerships, limited liability companies and other tax-transparent entities, broker-dealers, holders subject to the alternative minimum tax provisions of the Internal Revenue Code, holders who hold their stock as part of a hedge, wash sale, appreciated financial position, straddle, conversion transaction, synthetic security or other risk reduction transaction or integrated investment, holders who have acquired their stock upon exercise of employee options or otherwise as compensation and tax-exempt entities. The discussion is based on the provisions of the United States federal income tax law as of the date hereof, which is subject to change retroactively as well as prospectively. This summary also assumes that the Old Shares were, and the New Shares will be, held as a "capital asset," as defined in the Internal Revenue Code (generally, property held for investment). The tax treatment of a stockholder may vary depending upon the particular facts and circumstances of such stockholder. Each stockholder is urged to consult with such stockholder's own tax advisor with respect to the tax consequences of the reverse stock split.

Subject to the discussion below concerning the treatment of fractional shares, no gain or loss should be recognized by a stockholder upon such stockholder's exchange of Old Shares for New Shares pursuant to the reverse stock split and the aggregate tax basis of the New Shares received in the reverse stock split, including any fraction of a New Share deemed to have been received, will be the same as the stockholder's aggregate tax basis in the Old Shares that are exchanged. Subject to the discussion below concerning the treatment of fractional shares, each stockholder's holding period for the New Shares will include the period during which each stockholder held its Old Shares surrendered in the reverse stock split. The Company itself would not realize any taxable gain or loss as a result of a reverse stock split.

The Internal Revenue Service, however, may take the position that the receipt of an additional portion of a share in lieu of fractional shares is a distribution and the discussion in this paragraph assumes such treatment. Such distribution is taxable as a dividend to the extent that we have earnings or profits as determined for federal income tax purposes, in which case a stockholder would recognize dividend income equal to the fair market value of the additional fraction of a share received. To the extent that the fair market value of the additional fraction of a share received by each of the stockholders is greater than the Company's earnings and profits, such excess would be treated first as a return of each stockholder's basis in such stockholder's Old Shares and the amount in excess of basis would be taxable capital gain. To the extent Old Shares have been held by a stockholder for more than one year, such gain should be long-term capital gain. In general, each stockholder would have a basis in such additional fraction of a share equal to its fair market value and a holding period that begins on the day after the additional fraction of a share is received. Stockholders should consult their own tax advisors regarding the tax consequences to them of the receipt of additional shares including the calculation of basis and holding period.

Our view regarding the tax consequence of the reverse stock split is not binding on the Internal Revenue Service or the courts. ACCORDINGLY, EACH STOCKHOLDER SHOULD CONSULT WITH SUCH STOCKHOLDER'S OWN TAX ADVISOR WITH RESPECT TO ALL OF THE POTENTIAL TAX CONSEQUENCES TO SUCH STOCKHOLDER OF A REVERSE STOCK SPLIT.

Recommendation of Board of Directors

The Board of Directors recommends that you vote "**FOR**" the approval of the grant of discretionary authority to the Board of Directors to effect a reverse stock split and proportionately decrease the number of shares of authorized Common Stock available for issuance at a time that the Board of Directors deems appropriate over the next three years.

PROPOSAL 4

ADVISORY VOTE ON EXECUTIVE COMPENSATION

The Dodd-Frank Wall Street Reform and Consumer Protection Act of 2010 (the “Dodd-Frank Act”) requires companies that are subject to the SEC’s proxy rules and regulations to hold a stockholder vote to approve, on an advisory (non-binding) basis, the compensation of their named executive officers as disclosed in their proxy statements in accordance with the SEC’s rules.

As described under the heading “Executive Compensation,” our executive compensation programs are designed to attract, motivate, and retain our executive officers, who are critical to our success. Under these programs, our executive officers are rewarded for the achievement of annual, long-term and strategic goals, and corporate goals. Please read the “Executive Compensation” section beginning on page 26 for additional details about our executive compensation programs, including information about the fiscal year 2015 compensation of our Chief Executive Officer and each of the two other most highly compensated executive officers during 2015 (collectively, the “Named Executive Officers”).

The Compensation Committee continually reviews the compensation programs for our Named Executive Officers to ensure they achieve the desired goals of aligning our executive compensation structure with our stockholders’ interests and current market practices. The Compensation Committee believes the Company’s executive compensation programs have been effective at incentivizing the achievement of financial performance and returns to stockholders.

We are asking our stockholders to indicate their support for our Named Executive Officers’ compensation as described in this Proxy Statement. This proposal, commonly known as a “say-on-pay” proposal, gives our stockholders the opportunity to express their views on our Named Executive Officers’ compensation. This vote is not intended to address any specific item of compensation, but rather the overall compensation of our Named Executive Officers and the philosophy, policies and practices described in this Proxy Statement. Accordingly, we will ask our stockholders to vote “FOR” the following resolution at the 2016 Annual Meeting:

“RESOLVED, that the Company’s stockholders approve, on an advisory basis, the compensation of the Named Executive Officers, as disclosed in the Company’s Proxy Statement for the 2016 Annual Meeting of Stockholders pursuant to the compensation disclosure rules of the Securities and Exchange Commission.”

The say-on-pay vote is advisory, and therefore not binding on the Company, the Compensation Committee or our Board of Directors. Our Board of Directors and our Compensation Committee value the opinions of our stockholders and to the extent there is any significant vote against the Named Executive Officers' compensation as disclosed in this Proxy Statement, we will consider our stockholders' concerns and the Compensation Committee will evaluate whether any actions are necessary to address those concerns.

Recommendation of the Board of Directors

The Board of Directors recommends that you vote “**FOR**” the executive compensation as described in this Proxy Statement.

Consideration and Determination of Executive and Director Compensation

The Compensation Committee of the Board of Directors is comprised of Dr. Rubin, Dr. Brughera and Dr. Zeldis. The Board of Directors has determined that Dr. Rubin, Dr. Brughera and Dr. Zeldis are "independent" directors within the meaning of applicable listing standards of Nasdaq and the Securities Exchange Act of 1934, as amended, (the "Exchange Act") and the rules and regulations thereunder.

The Compensation Committee provides overall guidance on compensation and benefits policy. In addition, the Compensation Committee approves and monitors:

- executive compensation and benefits programs;
- executive employment agreements; and
- our equity incentive plans.

The primary objectives of the Compensation Committee are to ensure that our executive compensation and benefits programs:

- are competitive with other growing companies of similar size and business;
- are effective in driving performance to achieve financial goals and create stockholder value;
- are cost-efficient and fair to employees, management and stockholders; and
- are designed to attract, motivate, reward, and retain the competent and talented executives needed.

To achieve these objectives, the Compensation Committee meets at least once and usually several times during each fiscal year to review the existing compensation and benefits programs and to consider modifications that seek to provide a direct relationship between executive compensation and sustained corporate performance.

The Compensation Committee makes executive compensation decisions on the basis of total remuneration and seeks to create an integrated total remuneration program structured to balance short and long-term financial goals. A significant amount of total compensation is comprised of bonus provisions which are specified in employment contracts and which are intended to align executive interest with stockholder interest.

The Compensation Committee recommends to the Board of Directors a salary within a designated range for the respective executives, which is based on merit, performance and length of service. Bonus provisions for all executives are based on increase (if any) of net incremental profit over prior year highest net profit.

Non-executive employees are granted stock options from time to time under our equity incentive plans, approved by the stockholders, also in order to motivate, reward, and retain them while meeting goals and allowing them to share in the growth.

Stock Ownership Policy

In April 2012, our Board of Directors adopted a stock ownership policy applicable to our non-employee directors to strengthen the link between director and stockholder interests. Pursuant to the stock ownership policy, each non-employee director is required to hold a minimum ownership position in the common stock equal to the annual cash compensation paid for service on the Board of Directors, exclusive of cash compensation paid for service as a chair or member of any committees of the Board of Directors.

Stock counted toward the ownership requirement includes common stock held by the director, unvested and vested restricted stock, and all shares of common stock beneficially owned by the director held in a trust and by a spouse and/or minor children of the director. The policy provides that the ownership requirement must be attained within three years after the later of June 21, 2012 and the date a director is first elected or appointed to the Board of Directors. To monitor progress toward meeting the requirement, the Nominating Committee will review director ownership levels at the end of March of each year. Non-employee directors are prohibited from selling any shares of common stock unless such director is in compliance with the stock ownership policy. A copy of our director compensation and stock ownership policy is publicly available on our website at www.soligenix.com under the "Investors" section.

Compensation Committee Interlocks and Insider Participation in Compensation Decisions

The Compensation Committee of the Board of Directors consists of Robert J. Rubin, MD (Chair), Marco M. Brughera, DVM and Jerome B. Zeldis, MD, PhD. No member of the Compensation Committee is, or at any time in the past has been, an officer or employee of our company or any of our subsidiaries.

Section 16(a) Beneficial Ownership Reporting Compliance

We are required to identify each person who was an officer, director or beneficial owner of more than 10% of our registered equity securities during our most recent fiscal year and who failed to file on a timely basis reports required by Section 16(a) of the Exchange Act.

To our knowledge, based solely on review of these filings and written representations from the certain reporting persons, we believe that during the year ended December 31, 2015, our officers, directors and significant stockholders have timely filed the appropriate form under Section 16(a) of the Exchange Act.

Transactions With Related Persons

Our Audit Committee has established policies and procedures providing for review and approval of all “related party transactions” for potential conflicts of interest. A “related person transaction” for these purposes is a transaction between us and one of our directors or nominees for director, executive officers, 5% shareholders, or a member of one of these person’s immediate family, in which such person has a direct or indirect material interest and involves more than \$120,000. Under these policies and procedures, related person transactions are prohibited unless the Audit Committee has determined in advance that the transaction is in our best interests.

Other than the employment agreements and compensation paid to our directors, we have not engaged in any transactions with related parties since January 1, 2015. For a discussion of our employment agreements and compensation paid to our directors, see “Executive Compensation – Employment and Severance Agreements” and “Executive Compensation – Compensation of Directors.”

Deadline for Stockholder Proposals

Under SEC Rule 14a-8, stockholder proposals for the Annual Meeting of Stockholders to be held in 2016 will not be included in the proxy statement for that meeting unless the proposal is proper for inclusion in the proxy statement and for consideration at the next Annual Meeting of Stockholders, and is received by our Secretary at our executive offices, no later than January 5, 2017. Stockholders must also follow the other procedures prescribed in SEC Rule 14a-8 under the Exchange Act, as well as our Bylaws, which contain requirements that are separate and apart from the SEC requirements of Rule 14a-8. Our Bylaws provide that stockholders desiring to bring business before the 2016 Annual Meeting, including nomination of a person for election to our Board of Directors, must provide written notice to our Secretary at our executive offices no earlier than 75 days, and no later than 45 days, before the one year anniversary of the mailing of this Proxy Statement. The written notice must include the information required by Section 2.4 of the Bylaws: (a) as to each person whom the stockholder proposes to nominate for election or reelection as a director, all information relating to such person as would be required to be disclosed in solicitations of proxies for the election of such nominee as a director pursuant to Regulation 14A under the Exchange Act, and such person's written consent to serve as a director if elected; (b) as to any other business that the stockholder proposes to bring before the meeting, a brief description of such business, the reasons for conducting such business at the meeting and any material interest in such business of such stockholder and the beneficial owner, if any, on whose behalf the proposal is made; and (c) as to the stockholder giving the notice and the beneficial owner, if any, on whose behalf the nomination or proposal is made (i) the name and address of such stockholder, as they appear on our books, and of such beneficial owner, (ii) the class and number of our shares that are owned beneficially and of record by such stockholder and such beneficial owner, and (iii) whether either such stockholder or such beneficial owner intends to deliver a proxy statement and form of proxy to holders of, in the case of a proposal, at least the percentage of our voting shares required under applicable law to carry the proposal or, in the case of a nomination or nominations, a sufficient number of holders of our voting shares to elect such nominee or nominees.

Householding of Annual Meeting Materials

Some banks, brokers and other nominee record holders may be participating in the practice of “householding” proxy statements and annual reports. This means that only one copy of our proxy statement or annual report may have been sent to multiple stockholders in your household. We will promptly deliver a separate copy of either document to you if you notify our Secretary at our executive offices. If you wish to receive separate copies of the annual report and proxy statement in the future, or if you are receiving multiple copies and would like to receive only one copy for your household, you should contact your bank, broker, or other nominee record holder, or you may contact us at our executive offices.

Financial Statements and Exhibits to Form 10-K

Our financial statements are contained in our Annual Report on Form 10-K for our fiscal year ended December 31, 2015 that was filed with the SEC, a copy of which is made available with this Proxy Statement. Such report and the financial statements contained therein are not to be considered as a part of this soliciting material.

The Form 10-K made available with this Proxy Statement does not include copies of the exhibits to that filing. We will furnish any such exhibit upon payment of a reasonable fee by request sent to us, c/o Office of the Secretary, Soligenix, Inc., 29 Emmons Drive, Suite C-10, Princeton, New Jersey 08540.

Other Matters

Management knows of no matters that are to be presented for action at the meeting other than those set forth above. If any other matters properly come before the meeting, the persons named in the form of proxy will vote the shares represented by proxies in accordance with their judgment on such matters.

The cost of this proxy solicitation will be borne by us. In addition to the solicitation of proxies by mail, our directors, officers and employees may also solicit proxies by telephone, facsimile, e-mail or other forms of communication, without special compensation for such activities. We may engage the services of a professional proxy solicitation firm to aid in the solicitation of proxies. If we do, our costs for such services will be within the range of what is customary for companies with similar operations and a similar number of shareholders and are not expected to be material. We will also request banks, brokers, fiduciaries, custodians, nominees and certain other record holders to send proxies, proxy statements and other materials to their principals at our expense. We will reimburse such banks, brokers, fiduciaries, custodians, nominees and other record holders for their reasonable out-of-pocket expenses of solicitation.
