ITEM 1.01. ENTRY INTO A MATERIAL DEFINITIVE AGREEMENT.

On October 27, 2005, the Board of Directors of LogicVision, Inc. (the "Company") approved accelerating the vesting of all currently unvested stock options awarded to employees, officers and directors under its stock option plans that had exercise prices greater than \$2.20. The closing price of the

Company's common stock on October 27, 2005, the last trading day before acceleration, was \$1.93. The unvested options to purchase up to approximately 1.5 million additional shares became immediately exercisable as a result of the vesting acceleration. Typically, stock options granted by the Company vest over a four year period. The number of shares and exercise prices of the options subject to the acceleration remain unchanged.

The purpose of the accelerated vesting was to enable the Company to avoid recognizing in its statement of operations non-cash compensation expense associated with these options in future periods, upon the expected implementation of FASB Statement of Financial Accounting Standards No. 123 (Revised 2004), "Share-Based Payment" in January 2006. As a result of the acceleration, the Company expects to avoid recognition of up to approximately \$1.5 million of compensation expense over the course of the original vesting periods. Up to approximately \$0.9 million of such compensation expense is expected to be avoided in 2006.

Restrictions will be imposed upon the sale of any shares received through the exercise of accelerated options held by officers and directors. Those restrictions will prevent the sale of any shares received from the exercise of an accelerated option prior to the earlier of the original vesting date of the option and the individual's termination of employment.
