Gross sales grow 3.4% in October

São Paulo, Brazil, November 13, 2007. Grupo Pão de Açúcar [NYSE: CBD; BOVESPA: PCAR4 (PN)] is announcing the sales performance of October 2007 (un-audited preliminary documents). The information presented below was calculated with a basis on consolidated numbers and in Reais, pursuant to the Corporation Law in force.

Grupo Pão de Açúcar recorded gross sales of R\$ 1,400.6 million in the month of October, up 3.4% over the same prior-year period. Net sales totaled R\$ 1,183.5 in this period, an increase of 3.8% in relation to October 2006.

One of the factors that influenced the performance of the month was the special offer review policy being deployed at Sendas Distribuidora in the last few months. This initiative was created with the objective of recovering the profitability of operations from Rio de Janeiro by means of a greater balance between special offers and regular prices, which attract consumers that add a higher return to the Company. In 3Q07, the positive results of this policy could already be measured at Sendas Distribuidora and, in October, this performance continues positive.

Without including the sales performance in Rio de Janeiro, the growth of the Group's gross sales would have been 5.5% and performance in the same stores concept, -0.8% .

It is important to emphasize that total sales have been exhibiting constant growth for 12 months, which indicates that the expansion plan put into practice by the Company (opening of 41 stores in the period with 13 Extra Fácil stores) has been yielding good results.

In the same stores concept, gross sales slid 1.9% and net sales 1.5% . Sales of food products dropped 1.0%, with positive emphasis on the growth of 1.4% of the category of perishable goods. Non-food products recorded a downslide of 4.7% in sales. This performance was affected by the category of electronic products, which is facing high price deflation, and by the strong basis of comparison (growth of 8.7% in Oct/06).

N.B.: Sales in the 'same stores' concept include stores in operation for at least 12 months

* Average growth Mar/Apr of 4.5%.

Statements contained in this release relating to the business outlook of the Company, projections of operating and financial results and relating to the growth potential of the Company, constitute mere forecasts and were based on the expectations of Management in relation to the future of the Company. These expectations are highly dependent on changes in the market, on Brazil's general economic performance, on the industry and on international markets, and are therefore subject to change.
