annual reports under cover Form 20-F or Form 40-F.

Form 20-F Form 40-F

Indicate by check mark whether the registrant by furnishing the
information contained in this Form is also thereby furnishing the
information to the Commission pursuant to Rule 12g3-2(b) under
the Securities Exchange Act of 1934.

Yes No

If "Yes" is marked, indicated below the file number assigned to the
registrant in connection with Rule 12g3-2(b):

Press Release

GOL Introduces New Routes From Santos Dumont Airport

São Paulo, April 30, 2009 GOL Linhas Aéreas Inteligentes S.A. (Bovespa: GOLL4 and NYSE: GOL), Brazil's low-cost airline, announces that it has received approval from Anac, the Brazilian civil aviation authority, to operate regular flights from Santos Dumont airport (Rio de Janeiro) to Belo Horizonte (Confins airport), Brasília and Vitória.

In addition to satisfying increasing demand from business travelers, these new routes will provide a wide variety of connections, especially in Confins and Brasília, to other Brazilian destinations in GOL's network. This will allow for better distribution of schedules and more convenience, flexibility and comfort for our passengers, says Wilson Maciel Ramos, vice president of planning and IT.

Flights to Vitória have begun with five daily frequencies, three of which operate Monday through Saturday, two other frequencies operate daily. One of the daily flights connects Santos Dumont airport and Manaus, after stopovers in Vitória and Brasília. This is the only daytime, nonstop flight between Vitória and Manaus. The second daily flight connects Santos Dumont and Manaus via Brasília, bringing the total connections between Rio de Janeiro and the Amazonas state capital to two in addition to existing daily connections between the Rio de Janeiro's Galeão airport and Manaus.

Additionally, with these new flights, GOL offers the highest number of daily frequencies (four) between Brasília and Manaus, and is the only airline offering morning flights from Manaus to the midwest region.

Beginning May 4, 2009, GOL will launch direct flights from Santos Dumont airport to Belo Horizonte (Confins) and Brasília, two of the Company's principal distribution hubs in Brazil, which will permit quick connections to cities across the country, including Salvador, Cuiabá, Goiânia, Palmas, Belém, Recife, Macapá, Boa Vista, São Luis and Marabá.

Galeão

In addition to the new flights from Santos Dumont, GOL also offers several flight options between Galeão and Belo Horizonte, Brasília and Vitória. The Company offers six daily flights to Brasília, four daily flights to Confins (Belo Horizonte) and two daily flights to Vitória, though a third frequency will be available beginning May 15, 2009.

We are committed to maintaining and improving the number of flights and options offered through Rio de Janeiro and are always working to provide additional connections to other domestic and international destinations through Galeão, adds Ramos. In fact, beginning in May, we will offer more than 140 daily nonstop flights to more than 20 destinations.

FORWARD-LOOKING STATEMENTS

This press release may contain forward-looking statements. These statements are statements that are not historical facts, and are based on management's current view and estimates of future economic circumstances, industry conditions, company performance and financial results. The words "anticipates", "believes", "estimates", "expects", "plans" and similar expressions, as they relate to the company, are intended to identify forward-looking statements. Statements regarding the declaration or payment of dividends, the implementation of principal operating and financing strategies and capital expenditure plans, the direction of future operations and the factors or trends affecting financial condition, liquidity or results of operations are examples of forward-looking statements. Such statements reflect the current views of management and are subject to a number of risks and uncertainties. There is no guarantee that the expected events, trends or results will actually occur. The statements are based on many assumptions and factors, including general economic and market conditions, industry conditions, and operating factors. Any changes in such assumptions or factors could cause actual results to differ materially from current expectations.
