Report on Review of Quarterly Information

To the Board of Directors and Shareholders

Companhia de Saneamento Básico do

Estado de São Paulo – SABESP

Introduction

We have reviewed the accompanying parent company and consolidated interim accounting information of Companhia de Saneamento Básico do Estado de São Paulo - SABESP, included in the Quarterly Information (ITR) Form for the quarter ended September 30, 2011, comprising the balance sheet at that date and the statements of income, comprehensive income, changes in equity and cash flows for the nine-month period then ended, and a summary of significant accounting policies and other explanatory information.

Management is responsible for the preparation of the parent company interim accounting information in accordance with the accounting standard CPC 21, Interim Financial Reporting, of the Brazilian Accounting Pronouncements Committee (CPC), and of the consolidated interim accounting information in accordance with accounting standard CPC 21 and International Accounting Standard (IAS) 34 - Interim Financial Reporting issued by the International Accounting Standards Board (IASB), as well as the presentation of this information in accordance with the standards issued by the Brazilian Securities Commission (CVM), applicable to the preparation of the Quarterly Information (ITR). Our responsibility is to express a conclusion on this interim accounting information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and International Standards on Reviews of Interim Financial Information (NBC TR 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity and ISRE 2410 – Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Brazilian and International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the parent company

interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying parent company interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the Brazilian Securities Commission (CVM).

Companhia de Saneamento Básico do

Estado de São Paulo - SABESP

Conclusion on the consolidated

interim information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying consolidated interim accounting information included in the quarterly information referred to above has not been prepared, in all material respects, in accordance with CPC 21 and IAS 34 applicable to the preparation of the Quarterly Information, and presented in accordance with the standards issued by the Brazilian Securities Commission (CVM).

Other matters

Interim statements

of value added

We have also reviewed the parent company and consolidated interim statements of value added (DVA) for the nine-month period ended September 30, 2011, which are required to be presented in accordance with standards issued by the Brazilian Securities Commission (CVM) applicable to the preparation of Quarterly Information (ITR) and are considered supplementary information under IFRS, which does not require the presentation of the statement of value added. These statements have been submitted to the same review procedures described above and, based on our review, nothing has come to our attention that causes us to believe that they have not been properly prepared, in all material respects, in relation to the parent company and consolidated interim accounting information taken as a whole.

In 3Q11, net operating revenues totaled R\$2.6 billion, 10.1% growth related to 3Q10. Costs and expenses, in the amount of R\$1.3 billion, presented a decrease of 10.4% in relation to 3Q10. EBIT decreased 1.6%, from R\$635.6 million in 3Q10 to R\$646.0 million in 3Q11. EBITDA increased from R\$776.8 million in 3Q10 to R\$814.2 million in 3Q11, a 4.8% increase. EBITDA margin in 3Q11 reached 31.4% as compared with 33.0% in the same period previous year.

2. Gross operating revenue

Gross operating revenue related to the rendering of water supply and sewage collection services presented an increase of R\$138.8 million, or 7.2%, from R\$1.9 billion in 3Q10 to R\$2.1 billion in 3Q11. The determinant factors were: growth in invoiced volume of 3.0% in water and 4.2% in sewage and tariff adjustment of 4.05% applied in September, 2010.

The main factors that contributed to the increase in the invoiced volume were: Expansion of the number of connections, enhancement in the fight to frauds, increase in the exchange of hydrometers in the Metropolitan Region of Sao Paulo and increase of the consumption in the industrial category.

3. Volume invoiced

In the following charts are demonstrated the volumes invoiced of water and sewage, according to the category of use and region, in the 3Q10 and 3Q11.

4.1. Salaries and payroll charges

In 3Q11 there was an increase of R\$42.9 million or 11.2% in salaries and payroll charges, going from R\$384.2 million to R\$427.1 million as a result of the following factors:

- Reversal of R\$13.4 million in 2010 referring to part of the provision for Profit and Results Sharing recorded in 2009, generating a variance between the periods in the amount of R\$20.1 million;
- Adjustment, in 2010, to the actuarial calculation on defined contribution plan in the amount of R\$3.9 million;
- Increase of R\$8.5 million referring to the penalty on the Unemployment Fund – FGTS resulting from the higher number of terminations occurred in the quarter; and
- 8% salary adjustment since May 2011 with impact of approximately R\$31.6 million.

The increases above were offset by the reduction of R\$21.5 million, referring to the actuarial obligation of Plan G0. Since 2011, the appropriation of such expenses started to be made net from the collections of the uncontroversial amount (benefits of Law nr. 4819/58).

4.2. General Supplies

In 3Q11 there was an increase of R\$6.2 million or 17.1% as compared to the same quarter previous year, from R\$36.3 million to R\$42.5 million, which main expenditure is related to the maintenance of systems.

4.3. Treatment Materials

The expenditures in 3Q11 were greater than 3Q10 by R\$5.7 million, or 18.0%, going from R\$31.6 million to R\$37.3 million. This variance is related to the following factors:

- Increase of R\$2.0 million in the consumption of the product aluminum polychloride that started to be used in the Guaraú Water Treatment Station in replacement to aluminum sulfate. and
- R\$1.0 million increase resulting from the increase in the consumption of chlorine in function of the conditions of reservoirs and climate;

4.4. Services

In 3Q11, this item presented decrease of R\$23.9 million or 10.8%, from R\$221.2 million to R\$245.1 million. The main factors that contributed to such variation were:

- Public Private Contract of the Alto Tiete Producer System with increase of R\$8.4 million as forecasted for the second year of the contract and the beginning of operations in September, 2011;

- Preventive and corrective maintenance in the operating systems of water and sewage in the amount of R\$6.7 million; and
- Maintenance of networks and connections of water and sewage in the amount of R\$5.2 million, resulting from the enhancement of the executions in the fight to losses and to meet the execution terms of the works required by ARSESP.

4.5 Electric Energy

In 3Q11, this item presented increase of R\$11.6 million or 8.8%, from R\$132.3 million to R\$143.9 million.

This result is associated to the increase in the volume produced of water and average tariff increase in the free and captive market around 5.9% in the period.

4.6. General Expenses

In 3Q11 there was an increase of R\$28.1 million or 16.9%, from R\$166.1 million to R\$194.2 million, in function of the provisions for legal contingencies.

ITR - Quarterly Information 09/30/2011 - CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO**4.7 Depreciation and Amortization**

This item presented increase of R\$27.0million or 19.1%, from R\$141.2 million to R\$168.2 million, resulting from the adjustment of the amortization period to be the lower between the useful life of the item or the effectiveness of the contract, applicable for the next quarter.

4.8. Credit Write-offs

In 3Q11 the credit write-offs presented a decrease of R\$24.2 million, or 58.5%, from R\$41.4 million to R\$17.2 million, mainly due to the conclusion of the supplement to the provision on invoicing of private clients and municipal public entities.

5.1. Financial expenses

In 3Q11 occurred an increase of R\$58.6 million, or 72.6%. The main factors that influenced such result were:

- Increase of R\$68.4 million related to the judicial proceedings mainly in function of lower level of expenses observed in 3Q10 for the reversal of the provision occurred in the amount of R\$66.8 million;
- Interests related to Eurobonds, in the amount of R\$11.5 million, which funding, in the amount of US\$350 million, occurred in December, 2010; and
- Decrease of interests on internal loans and financings of R\$23.0 million mainly due to the amortization of the 8th issue of debentures occurred in June, 2011.

5.2. Financial income

The financial income presented an increase of R\$35.4 million, for gains with financial investment in view of higher cash available.

This item presented increase of R\$27.0million or 19.1%, from R\$141.2 million to R\$168.2 million, resulting from the

The income from monetary variations presented a decrease of R\$2.3 million mainly due to the higher volume of agreements made in 3Q10.

7. Operating Indicators

With regarding to the index of losses, which closed in 25.7% as compared to 26% in the same period last year, we highlight that such evolution is already result of the summary of service contracts, which passed by a slower contracting rhythm than previous periods. We recall that such index is a moving average and the impact will be gradual.

It is worth highlighting the evolution of the number of connections per employee that grew from 852 in 3Q10 to 876 in 3Q11, a 2.8% evolution in the period.

1. OPERATIONS

Companhia de Saneamento Básico do Estado de São Paulo - Sabesp (“Sabesp” or the “Company”) is a mixed-capital company headquartered in São Paulo, controlled by the São Paulo State Government. The Company is engaged in the provision of basic and environmental sanitation services, and supplies treated water on a bulk basis and provides sewage treatment services for another six municipalities of the Greater São Paulo Metropolitan Area.

In addition to providing basic sanitation services in the State of São Paulo, SABESP may perform these activities in other states and countries, and can operate in drainage, urban cleaning, solid waste handling and energy markets. The new Sabesp vision sets forth as objective to be recognized as the company that has universalized the Sanitation services in its area of operation, focused on the customer, in a sustainable and competitive way, with excellence in environmental solutions.

As at September 30, 2011, the Company operated the water and sewage services in 363 municipalities of the State of São Paulo, having temporarily ceased the operation of the municipalities of Itapira, Aracoiaba da Serra, Iperó, Cajobi and Álvares Florense due to judicial orders, which suits are in progress. In the majority of these municipalities, the operations result from concession contracts executed for 30 years. 105 concessions were expired on September 30, 2011 all of which are in negotiation phase with the respective municipalities. Between 2011 and 2033, 40 concessions will expire. The remaining of these concessions operate under a rollover basis. These concessions with indefinite term and expired concessions under renegotiation are amortized over the useful life of the underlying assets. Up to September 30, 2011, 218 program contracts were signed.

Management expects that all the expired concessions will be renewed or extended, thus there will not be a discontinuity of the water supply and sewage collection in these municipalities. On September 30, 2011 the net book value of the property, plant and equipment used in the 105 municipalities where the concessions are under negotiation totals R\$5,977 million and the net revenue for the period ended on September 30, 2011 totals R\$1,955million.

This item presented increase of R\$27.0million or 19.1%, from R\$141.2 million to R\$168.2 million, resulting from the

In the municipality of Santos, in the Baixada Santista region, which has a significant population, the Company operates supported by a public authorization deed, a similar situation in other municipalities in that region and in the Ribeira valley, where the Company started to operate after the merger of the companies that it is made up of.

2. PRESENTATION OF THE QUARTERLY FINANCIAL STATEMENTS

(i) Presentation of the Quarterly Information

The consolidated quarterly information of September 30, 2011 was prepared based on CPC 21 – Interim Financial Information (individual and consolidated) and the international standard IAS 34 – Interim Financial Reporting issued by the International Accounting Standards Board (IASB) (consolidated), applicable to the preparation of Quarterly Information – ITR. Therefore, these IFRS consider the Circular Office Memorandum CVM/SNC/SEP 003 of April 28, 2011 which allows that the entities present selected explanatory notes, in case of redundancy of information already disclosed in the Annual Financial Information. The quarterly information for the period ended on September 30, 2011, therefore, does not include the notes and disclosures required by the CPC (“Committee of Accounting Pronouncements”) for the annual consolidated financial statements and, consequently, must be read together with the consolidated financial information in CPC’s and IFRS for the year ended on December 31, 2010.

(ii) Individual and Consolidated Financial Information

The individual financial information are being disclosed together with the consolidate financial information and were prepared taking as basis the CPC 21 provisions applicable to the preparation of the Quarterly Information – ITR and presented in a way conducive to the norms issued by CVM and as well as being conducive to the disclosure in note 2 of the Annual Financial Statements.

The consolidated financial information includes the financial statements of Sabesp and its invested companies, jointly controlled: Sesamm – Serviços de Saneamento de Mogi Mirim S/A, Águas de Andradina, Saneaqua Mairinque, Aquapolo Ambiental and Attend Ambiental which were all included to the proportion of their equity interest. The Company maintains shared controlling interest, whose fiscal year is coincidental to the fiscal year of the joint controlled companies. The accounting policies of its subsidiaries are aligned Company’s policies. The consolidation process of the equity and income statements accounts aggregate balances of assets, liabilities, revenues and expenses, according to their nature, eliminating the equity interests of the holding in the capital stock and accumulated result of the consolidated company.

Although Sabesp’s equity interest in the Capital Stock of its subsidiaries is not majority, the shareholders’ agreement provides for the veto power on certain management matters, indicating participative shared control.

2.1 Accounting policies

The accounting policies used in the preparation of the quarterly information for the quarter ended on September 30, 2011 are consistent with those used to prepare the Annual Financial Statements referring to the year ended on December 31, 2010. In the Annual Financial Statements, these policies are disclosed in note 3.

2.2 New standards and changes to standards that are not yet in force

The standard and changes to the existing standards that follow were published and are mandatory for subsequent accounting periods. However, there has been no early adoption of such standards and changes to standards by the Company:

- IAS 28 – “Investments in subsidiaries and affiliates together”, IFRS 11 – “joint contractual agreement” and IFRS 12 “Disclosures on interest in other entities”, all issued in May, 2011 and CPC 19 (R1) issued in June, 2011. The main change introduced by these standards is the impossibility of proportional consolidation of entities whose control of net assets is shared through an agreement with two or more parties and that is classified as a joint venture.

The IFRS 11 classifies agreements into two types:

(i) “joint ventures”- when the parties jointly control assets and liabilities, regardless if these assets are in a separate entity (“separate vehicle”), according to the contractual provisions and essence of the operation. In these agreements, assets, liabilities, revenues and expenses are recorded in the entity that participates to the “joint operator” agreement in the proportion of its rights and obligations;

(ii) “joint ventures”- when the parties jointly control net assets of an agreement, structured through a separate entity and the respective results of these assets are divided between the participating parties. In these agreements, the participation of the entity must be recorded by the equity method of accounting and presented in the investment line.

Additionally, IFRS 12 determines qualitative disclosures that must be made by the entity regarding the participation in subsidiaries, in joint agreement or non-consolidated entities that include significant judgments and assumptions to

determine if its participations exercise control, significant influence or the classification of the joint agreements between “joint operations” and “joint ventures”, as well as other information on the nature and extent of significant restrictions and associated risks. The standard is not applicable until January 1st, 2013 but it is available for early adoption. Relevant impacts are not expected to Sabesp’s financial information.

- IFRS 7 “Financial Instruments – Disclosure”, issued on October, 2010. The change in the standard of disclosure of financial instruments seeks to promote the transparency in disclosing the transactions of transfer of financial assets, improve the understanding by the user about the exposure to risk in such transfers, and the effect of these risks on the balance sheets, particularly those involving securitization of financial assets. The standard is applicable for fiscal years starting on or after July 1st, 2011. No relevant impact to the Sabesp’s financial statements is expected.

- IFRS 9 “Financial Instruments”, issued on November, 2009. IFRS 9 is the first standard issued as part of a larger project to replace IAS 39. IFRS 9 retains, although simplified, the model of measurement and sets forth two categories of measurement for financial instruments: amortized cost and fair value. The classification basis depends on the business model of the entity and on the contractual characteristics of the cash flow from the financial assets. The direction included in IAS 39 on impairment of financial assets and recording of hedge continues to be applied. Prior periods do not need to be restated if an entity adopts the standard for periods started on or to start before January 1st, 2012. The norm is applicable as from January 1st, 2013. It is not expected that there will be relevant impact on Sabesp’s financial information.

ITR - QUARTERLY INFORMATION 09/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

- IFRS 10 “Consolidated Financial Statements”, issued on May, 2011. This standard is based on the existing principles as to the identification of the concept of control as the determinant factor when an entity must be consolidated in the financial statements. The standard provides additional direction to help in the determination of control when there is doubt as to the assessment.

The standard is applicable as of January 1st, 2013. Relevant impacts are not expected to Sabesp’s financial information.

- IFRS 13 “Fair Value Measurement”, issued on May, 2011. The standard has as its objective to improve the consistency and reduce the complexity in the disclosures required by IFRS. The requirements do not increase the use of fair value in accounting, however they direct how it must be applied when its use is required or allowed by other standard. The standard is applicable as of January 1st, 2013, and there is an exemption for application of the new requirements for comparable periods. Relevant impacts are not expected to Sabesp’s financial information.

- IAS 19 “Benefits to Employees”, issued on June, 2011. The change to the norm will affect mainly the recognition and measurement of define benefit pension plans, and disclosures of benefits to employees. The norm is applicable as of January 1st, 2013. Relevant impacts are not expected to Sabesp’s financial information.

3. FINANCIAL RISK MANAGEMENT

3.1 Financial Risk Factors

The Company’s operations are affected by the Brazilian economic scenario, exposing it to market risk, such as foreign currency risk, interest rate risk, credit risk and liquidity risk.

The Company has not used derivative financial instruments, even being able to contract forward foreign exchange contracts and financing in Reais to reduce the foreign currency risk.

(a) Market Risk

This item presented increase of R\$27.0million or 19.1%, from R\$141.2 million to R\$168.2 million, resulting from the

Foreign Currency Risk

This risk arises from the possibility that the Company may incur losses due to exchange rate fluctuations, which would increase the liability balances of foreign currency-denominated loans and financing obtained in the market and the related financial expenses. The Company does not have hedge or swap contracts to hedge against this risk, in view of the amounts, costs involved and opportunities. However, when possible, it makes advance purchases of foreign currencies and obtains funding in local currency, as a way to protect itself against exchange rate fluctuations.

A significant part of the Company's financial debt was denominated in U.S. dollar and in Yen, in the total amount of R\$2,940,785 on September 30, 2011 (R\$2,244,635 on December 31, 2010), net of borrowing costs. The Company's exposure to foreign currency risk is the following:

Interest rate risk

This risk is a result of the possibility that the Company may incur losses for fluctuations in interest rates that increase financial expenses related to loans and financings.

The Company has not entered into any derivative contract to hedge against this risk; however, it continually monitors market interest rates, in order to evaluate the possible need to replace its debt.

Another risk faced by the Company is the lack of correlation between the monetary adjustment indices of its debt and those of its receivables. Water supply and sewage treatment tariffs do not necessarily follow the increases in the interest rates affecting the Company's debt.

ITR - QUARTERLY INFORMATION 09/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

As at September 30, 2011, had the interest rates on loans kept in Reais varied around 1% by more or less, with all other variable constant, the effect on the income after taxes would have been an increase or decrease of R\$36,589(2010 – R\$39,338), mainly as a result of lower or higher interest expenses in loans with variable rates.

(b) Credit risk

The credit risk results from cash equivalents, bank deposits and financial institutions, as well as credit exposure to customers, including outstanding accounts receivable. The Company must, by law, invest its excess cash exclusively with Banco do Brasil (rating AA+(bra)). The credit risks are mitigated due sales to a widely spread out customer base.

The maximum exposure to credit risk at the date of presentation of the report is the carrying amount of securities classified as cash equivalents, deposits in Banks and financial institutions and accounts receivable from customers at the date of the balance sheet. Notes 4.3 (e), 8, 9 and 10.

(c) Liquidity Risk.

The Company's liquidity depends mainly on the cash generated by the operating activities, loans from financial institutions of the state and federal government and financings in the local and international markets. The liquidity risk management considers the assessment of liquidity requirements to ensure that the Company has enough cash to meet its operating and capital expenditures.

The table below analyzes the Company's financial liabilities, by maturity dates, including the portion of principal and interests to be paid in accordance with contractual clauses.

The Company's objectives in managing its capital are to safeguard the capacity to continue to offer return to shareholders and benefits to the other stakeholders, in addition to maintaining an ideal capital structure to reduce this cost.

The Company monitors capital based on financial leverage ratio. This ratio corresponds to the total debt divided by the total capital. The net debt, in turn, corresponds to the total loans and financings deducted from the amount of cash and cash equivalents. The total capital is calculated through the summation of net equity, as demonstrated in the CONSOLIDATED balance sheets, to net debt.

On September 30, 2011, the leverage ratio of the Company was reduced to 37.8%, as compared to 39.1% on December 31, 2010, due to the increase in the financial investments.

3.3 Fair value estimate

The Company applies CPC 40 to financial instruments measured by the fair value in the balance sheets, which requires fair value measurement in accordance with the following hierarchy of fair value measurement:

- . Quoted prices (not adjusted) in active markets for identical assets and liabilities (level 1).

- . Information in addition to prices quoted included in level 1, that are observable for assets or liabilities, whether directly (for example, like prices) or indirectly (that is, derived from prices)(level 2).

- . Insertions for asset or liability that are not based on observable market data (non observable insertions)(level 3).

The financial instruments evaluated as fair value by the Company are represented by short term investments in banking certificates of deposit (CDB), financial investment fund (FIF) classified as cash equivalent, in the amount of R\$2,167,007 and R\$1,852,588 as of September 30, 2011 and December 31, 2010, respectively. These investments are financial assets measured at fair value by the result, measured in accordance with level 2.

ITR - QUARTERLY INFORMATION 09/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

As explained in item (vi) during the validation by Gesp of the amounts due to the Company for the Benefits, there were divergences as to the calculation criteria and eligibility of the Benefit applied by the Company.

On September 30, 2011 and December 31, 2010, 2,498 and 2554 retirees, respectively, received retirement supplements, in the quarters ended on September 30, 2011 and December 31, 2010, the Company paid R\$30,789 and R\$37,102, respectively. There were 15 active employees September 30, 2011 who will be entitled to such benefits upon his retirement, as compared to 32 on December 31, 2010.

In January, 2004, the payments of retirement and pension supplement were transferred to the Secretary of Finance, and would be made in accordance with the calculation criteria defined by the PGE. By judicial order, the responsibility for the payments returned to SABESP as originally established.

(iii) Gesp Agreement

On December 11, 2001, the Company, GESP (through the State Department of Finance Affairs, currently the Department of Finance) and the Department of Waters and Electric Energy – DAEE, with the intermediation of the State Department of Sanitation and Energy (former Department of Water Resources, Sanitation and Construction Works), entered into the Term of Recognition and Consolidation of Obligations, Payment Commitment and Other Covenants (“GESP Agreement”) with the purpose to settle the existing dispute between GESP and the Company related to the water and sewage services and to the Benefits.

In view of the strategic importance of the reservoirs of Taiapuêba, Jundiá, Biritiba, Paraitinga and Ponte Nova (“Reservoirs”), for the assurance of the maintenance of volume of water of Alto Tietê, the Company agreed to receive them as part of the reimbursement referring to the Benefits. The Reservoirs would be transferred to the Company by the DAEE in return to the amounts owned by GESP. However, the Attorney General’s Office of the State of Sao Paulo questioned the legal validity of this agreement, which main argument is the absence of specific legislative authorization for the alienation of DAEE’s assets. The Company’s legal counsels assess the risk of loss of this suit as probable, in case it does not obtain the referred legislative authorization, which would prevent the transfer of the respective reservoirs as partial amortization of the balance receivable.

(iv) First Amendment to the Gesp Agreement

This item presented increase of R\$27.0million or 19.1%, from R\$141.2 million to R\$168.2 million, resulting from the

On March 22, 2004, the Company and the State Government amended the terms of the original Gesp Agreement, (1) consolidating and recognizing the amounts due by the State Government for water supply and sewage collection services provided, monetarily adjusted until February 2004; (2) formally authorizing the offset of amounts due by the State Government with interest on shareholders' equity declared by the Company and any other debit existing with the State Government as of December 31, 2003, monetarily adjusted until February 2004; and (3) defining the payment conditions of the remaining liabilities of the State Government for the receipt of the water supply and sewage collection services.

(v) Second Amendment to the Gesp Agreement

On December 28, 2007, the Company and the State of São Paulo, intermediated by the Secretary of Treasury signed the second amendment to the terms of the original GESP agreement, (1) agreeing upon the payment in installments of the remaining balance of the First Amendment, amounting R\$133,709 at November 30, 2007 to be paid in 60, monthly and consecutive installments of the same amount, beginning on January 02, 2008. The amount of the installments will be monetarily adjusted according to the variation of the IPCA-IBGE, plus interests of 0.5% per month.

ITR - QUARTERLY INFORMATION 09/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

The State and SABESP agreed to resume immediately the compliance with their mutual obligations under new assumptions: (a) implementation of an electronic account management system to facilitate and speed up the monitoring of payment processes and budget management procedures; (b) structuring of the Rational Water Use Program (PURA) to rationalize the consumption of water and the amount of the water and sewage bills under the responsibility of the State; (c) establishment, by the State, of criteria for budgeting so as to avoid the reallocation of amounts to a specific water and sewage accounts as from 2008; (d) possibility of registering state bodies and entities in a delinquency system or reference file; (e) possibility of interrupting water supply to state bodies and entities in the case of nonpayment of water and sewage bills.

(vi) Third Amendment to Gesp Agreement

On November 17, 2008, Gesp, Sabesp and DAEE, entered into the Third Amendment to the Term of Agreement of Payment Commitment, and Other Agreements, where the State recognizes to owe Sabesp the amount of R\$ 915,251, monetarily adjusted until September, 2008 by the IPCA-IBGE, corresponding to the Uncontroversial Amount, calculated by FIPECAFI. SABESP accepts temporarily the Reservoirs as part of the payment of the Uncontroversial Amount and offers to the State a temporary settlement, constituting a financial credit of R\$ 696,283, corresponding to the value of the Reservoirs. The definitive settlement will only occur with the effective transfer of property in the relevant real estate notary. The Company did not recognize the receivable amount of R\$ 696,283 related to the reservoirs, as it not virtually certain that will be transferred by the State. The remaining balance of R\$218,967 is being paid in 114 monthly and consecutive installments, in the amount of R\$1,920 each, restated annually by the IPCA/FIPE, added by interests of 0.5% p.m., the first installment became due on November 25, 2008.

SABESP and the Government of the State of São Paulo are working together in order to obtain the legislative authorization in order to make viable the transfer of the Reservoirs to SABESP, overcoming, therefore, the legal uncertainty caused by the Public Civil action is challenging the lack of specific legislation for the transfer of the ownership of the reservoirs.

The Third Amendment also provides for the regularization of the monthly flow of benefits. While SABESP is responsible for the monthly payments, the State shall reimburse the Company based on criteria identical to those applied in the calculation of the Uncontroversial Amount. With no longer an impeditive judicial decision, the State will directly assume the monthly payment flow of the portion considered uncontroversial.

(vii) Controversial Amount of Benefits

This item presented increase of R\$27.0million or 19.1%, from R\$141.2 million to R\$168.2 million, resulting from the

As mentioned before, on November 17, 2008, the Company and the State executed the Third Amendment to the GESP Agreement, in such occasion the amounts denominated as controversial and uncontroversial were quantified. In this amendment, the efforts to settle what was called the Controversial Amount is represented by the difference between the Uncontroversial Amount and the amount effectively paid by the Company as Benefits of retirement and pension supplement provided by Law 4819/58, of original responsibility of the State but paid by Sabesp by judicial decision.

By entering into the Third Amendment, it was provided for the reappreciation by the PGE the divergences that caused the controversial amount of the benefits provided by Law 4819/58. At the same time, this expectation was based on the PGE's intention to re-appreciate the question and also in the implied right of the Company to the reimbursement, inclusively based on external technical legal opinions.

ITR - QUARTERLY INFORMATION 09/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

However, new opinions issued by the PGE and received on September 4 and 22, 2009 and January 4, 2010, denied the reimbursement of the portion previously defined as controversial amount. Even though the negotiations with the State are still being maintained, it is no longer possible to ensure that the Company will recover, in a totally amicable way, the credits related to the Controversial Amount.

Even though the negotiations with the State are still being maintained, it is no longer possible to ensure that the Company will recover, in a totally amicable way, the credits related to the Controversial Amount without dispute.

As part of the actions intended to recover the receivables that Management understands as due by the Government of the State, related to the divergences about the reimbursement of the benefits of retirement and pension supplement paid by the Company, SABESP: (i) addressed, on March 24, 2010, the message to the Controlling Shareholder, forwarding the office memorandum released by the Collegiate Directors, proposing judicial action to be forwarded to the Arbitration Chamber of Bovespa (Sao Paulo Stock Exchange); (ii) in June, 2010, it forwarded to the Secretary of Finance a proposal for agreement aiming the settlement of the referred controversies. This proposal did not succeed; (iii) on November 9, 2010, it filed a judicial action against the State of Sao Paulo pleading the full reimbursement of the amounts paid as benefits provided by State Law nr. 4.819/58 to finalize the discussion between the Company and GESP. Despite the judicial action, the Company will insist in reaching an agreement during the progress of the judicial action, understanding that a reasonable agreement is better to the company and its shareholders than waiting the end of the judicial demand.

The Company's Management has elected for not recognizing such amounts, due to the uncertainty of reimbursement of the amounts. On September 30, 2011 the amounts not recorded by the Company referring to the supplement of pension and retirement paid in name of the State by the Company totaled R\$1,273,168 (Dec/10 – R\$1,230,064) including the amount of R\$696,283 referring to the transfer of the reservoirs in the Alto Tiete system. As a result, the Company also recognized the actuarial obligation referring to the supplement of the pension and retirement maintained with the employees and pensioners of Plan G0. On September 30, 2011, the amounts of the supplement of pension and retirement supplement of Plan G0 were R\$1,510,573 (Dec/10 – R\$1,316,706). For more information on the obligations of supplement to pension and retirement, see Note 15.

(b) Agreement for the use of reservoirs

In its operations, the Company uses the Guarapiranga and Billings reservoirs and part of some reservoirs of the Upper Alto, which are owned by the Water and Electric Energy Department (DAEE); should these reservoirs not be available for use to the Company, there could be the need to collect water in more distant places. The Company does not pay

any fee for the use of these reservoirs but it is responsible for their maintenance and operating costs.

(c) Agreements with reduced tariffs with State and Municipal Government Entities that joined the Rational Water Use Program (PURA).

The Company has contracts signed with public entities related to the State Government and to the municipalities operated, which are benefited with a 25% reduction to the tariff of water supply and sewage collection, when not in default. The contracts provide for the implementation of the program of rational use of water, which considers the reduction in the consumption of water.

(d) Guarantees

The State Government grants guarantees for some loans and financing of the Company and does not charge any fees with respect to such guarantees.

(e) Contract of assignment of personnel among the entities connected to GESP

The Company has employees assigned to entities connected to the Government of the State of São Paulo, where the expenses are fully transferred and monetarily reimbursed.

On September 30, 2011, the expenditures with the employees assigned by Sabesp to other state entities amounted to R\$3,076 (Sep/10 – R\$1,396).

In the same period, the Company did not have expenditures with the employees from other entities at Sabesp's disposal and in September, 2010 the amount totaled R\$72.

(f) Services contracted from entities connected to GESP.

On September 30, 2011 and December 31, 2010, SABESP had an outstanding amount payable of R\$9,893 and R\$11,395, respectively, referring to services provided by entities connected to the Government of the State of São Paulo. Among them, we highlight the services of electric energy supply by the Companhia Energetica of Sao Paulo – CESP, representing 96.9% of the amount of September 30, 2011.

(g) Non-operating Assets

The Company had, on September 30, 2011 the amount of R\$25,371 (in December 31, 2010 - R\$25,371), respectively, mainly related to land granted in free lease to Associations, Assistance Entities, Non-Governmental Organizations and to the DAEE – Department of Water and Electric Energy, among others. The land granted to the DAEE amount to

R\$2,289.

(h) Banco do Brasil

O Estado de Sao Paulo sold exclusive rights in the provision of banking services administration entities directly and indirectly in favor of Banco Nossa Caixa, on March 27, 2007, and in favor of Banco do Brazil, May 27, 2010. Through the lawsuit in question, SABESP pleads financial compensation for the sale of its exclusive rights, requiring a percentage of the values that the State of São Paulo received from each of the financial institutions.

On June 28, 2011 it was executed the Term of Settlement between the Company and the State of Sao Paulo, whereby the Company received the amount of R\$63,366 upon reduction, as compensation of credit held by the State, corresponding to interests on shareholders' equity in fiscal 2010.

(i) Sabesprev

The Company sponsors the defined contribution plan managed by Fundação Sabesp de Seguridade Social - Sabesprev. The net actuarial obligation, recorded up to September 30, 2011, is R\$526,318 (Dec/2010 - R\$487,332).

Management is making efforts towards maintaining, in permanent basis, the timely payment by the State regarding the transactions between the parties.

(j) Management Fees

The compensation policy to the executive committee is set according to the guidelines of the Government of the State of São Paulo, CODEC (Council of Defense of the Capitals of the State), and is based on performance, market competitiveness of other indicators related to the Company's business and is subject to the approval by the shareholders at the General Shareholders' Meeting.

ITR - QUARTERLY INFORMATION 09/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

The executive compensation is limited to the State Governor's compensation. The compensation of the Board of Directors corresponds to 30% of the compensation of the Officers, conditioned to a minimum attendance to one monthly meeting.

The objective of the compensation policy is to set up a model of private management, with the purpose to incentive the maintenance in its headcount and recruit professionals gifted of competence, experience and motivation, considering the effectiveness degree currently required by the Company.

In addition to the monthly compensation, the members of the Board of Directors and the Executive Committee receive:

Bonuses: for purposes of compensating the Board of Directors of the companies that the State is controlling shareholder, as an incentive policy, provided that the company effectively calculates quarterly, semi-annual and annual income and distribute mandatory dividends to the shareholders, even if under the form of interests on shareholders' equity. Annual bonus cannot exceed six times the monthly compensation of the directors and officers, nor 10% of interests on shareholders' equity paid by the company, whatever is lower.

Annual award: equivalent to one monthly fee, calculated on a prorated basis, in the month of December of each year.

The purpose of such award is to establish a similarity with the thirteenth salary of the labor regime of the Company's employees, once the relationship of the directors and officers with the Company is governed by its Bylaws and not labor code.

Benefits paid only to the Statutory Officers – meal ticket, basic basket of food, medical assistance, annual paid rest of a 30-day remunerated leave and payment of an award equivalent to one third of the monthly fees.

The compensation paid by the Company to the members of the Board of Directors and Officers was R\$838,964 and R\$ 692,358 for the periods ended on September 30, 2011 and 2010, respectively, and refers to short term benefits to employees and managers. An additional amount of R\$217 referring to the bonus program was accrued in the period from July through September, 2011 (R\$166 in 2010).

9. INDEMNIFICATIONS RECEIVABLE

Indemnifications receivable is a non-current asset representing amounts receivable from the municipalities of Diadema and Maua as indemnification for the unilateral removal of the concessions of the Company's water and sewage services in 1995. In September 30, 2011 and December 31, 2010 this asset amounted to R\$146,213 (nominal amounts).

In view of these concession contracts, the Company invested in the construction of water and sewage systems in those municipalities to meet its concession service commitments. For the unilateral termination of the concessions of Diadema and Maua, the municipalities took over the responsibility to provide water and sewage services in those areas. At that moment, the Company reclassified the fixed asset balances related to the assets used in those municipalities to non-current assets (Indemnifications receivable).

The residual amount of the items of fixed assets related to the municipality of Diadema, reclassified in December, 1996 was R\$75,231 and the balance of indemnifications receivable from the municipality was R\$60,295.

ITR - QUARTERLY INFORMATION 09/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

The residual amount of items of fixed assets related to the municipality of Maua, reclassified in December, 1999 was R\$103,763 and the balance receivable from the municipality was R\$85,918.

The Company's rights to the recovery of these amounts are being judicially discussed by the municipalities.

Sabesp started judicial lawsuits to collect amounts due by the municipalities. Regarding Diadema, it started the execution of the agreement entered with Diadema's City Hall and Companhia de Saneamento de Diadema – Saned for the payment of the indemnification, the first level judge accepted the appeals of the City Hall and extinguished the execution. Sabesp filed appeal against this decision and, in December, 2005, it was granted partial acceptance to the appeal to declare the validity of the agreement and determine that the appeals to the execution were judged again in first level. In December, 2007, it was rendered the judicial decision approving the continuation of the execution against Saned and servicing this company to pay the full amount of the debt, in 15 days, under penalty of fine. It was approved the realization of the pledge of money in Saned's bank accounts and financial investments (online pledge) up to 10% of the restated amount of the debt, being blocked and withdrawn R\$2,919 in March 3, 2009. Later, the Court of Justice determined that the pledge should be made upon weekly deposits by Saned in the amount corresponding to 20% of all it receives in its accounts and financial investments. Saned filed special and extraordinary appeals against such decision. The extraordinary appeal was refused and the special appeal was suspended, causing the filing of interlocutory appeal to the Federal Supreme Court.

Regarding Diadema's City Hall, it was rendered new sentence in the appeal against the execution, in October, 2009, recognizing the existence and maturity of the debt, and affirming that the execution against the Municipality should be made upon precatory notes (and not pledge). Sabesp and the City Hall appealed against this sentence. Sabest obtained favorable decision in September, 2011 from the Special Body of the Court of Justice, affirming being constitutional the municipal law that allowed blocking the transfers of ICMS.

On December 29, 2008, Saned and the municipality of Diadema entered into a Memorandum of Intent with the State of Sao Paulo and Sabesp with the purpose to prepare studies and carry on negotiations to instruct decisions of Diadema and Sabesp, aiming at the exclusive provision of services of water and sewage in the municipality of Diadema.

The parties agree that the search for a negotiated solution for the conflicts existing today between the companies is fundamental for the public service of water supply, collection and treatment of sewage to have their proper development in Diadema.

This item presented increase of R\$27.0million or 19.1%, from R\$141.2 million to R\$168.2 million, resulting from the

In January, 2009, the parties presented joint motion requiring the suspension of new pledges, for the period of three months, in order to try to make an agreement feasible. The suspension was approved by the Court of Public Treasury and successively renewed, the last renewal occurring in August, 2011, due to the negotiations of the agreement.

Regarding Maua, it was rendered a decision in first level determining that the Municipality pays the amount of R\$153.2 million as compensation for the investments made in the municipality by Sabesp and for loss of profits. Maua's City Hall appealed against this sentence. In August, 2008 the appeal was judged, having been fully sustained the conviction imposed in first level. Maua's City Hall filed special and extraordinary appeals against the decision. Both appeals were not accepted by the Court of Justice, causing the filing of interlocutory appeals to the Superior Court of Justice and to the Federal Supreme Court. In declaratory appeals against the decision that decreed the refusal of the special appeal, the Superior Court of Justice partially accepted the appeal only for the purpose to reduce the winner's legal fees. Afterwards, the Federal Supreme Court reaffirmed the refusal of the extraordinary appeal, in decision still subject to appeal.

ITR - QUARTERLY INFORMATION 09/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

Based on the opinion of the legal advisory, Management continues to affirm that the Company has legal right to receive the amounts corresponding to the indemnification and keeps monitoring the situation of the legal proceedings.

This item presented increase of R\$27.0million or 19.1%, from R\$141.2 million to R\$168.2 million, resulting from the

In the period from January to September, 2011, the increase occurred in the intangible is related to the Investments made in the municipalities operated by Sabesp.

(a) Intangibles arising from concession contracts

The concession contracts provide that the assets will be reversed to the conceding power at the end of the contract.

On September 30, 2011, the Company operates in 363 municipalities in the State of São Paulo. In the most part of these municipalities, the operations are based a 30-year concession period.

ITR - QUARTERLY INFORMATION 09/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

The service provided by the Company is billed at a price regulated and controlled by the Regulating Agency of Sanitation and Energy of the State of São Paulo (ARSESP).

Intangibles resulting from concession contracts include:

- (i) Concession contracts – equity amount

The contracts executed until 1998 provide that the assets will be reverted to the grantor at the end of the contract, for the residual value or market value in accordance with the terms of each one of them. The amortization is calculated using the straight line method, which considers the useful life of the assets.

- (ii) Concession agreements - economic value

In the period between 1999 and 2006, the negotiations for new concessions were conducted on the basis of the economic and financial results of the transaction, determined in a valuation report issued by independent experts.

The amount determined in the respective contract, after the transaction is closed with the municipal authorities, is recorded in this account and amortized over the period of the related concession line method or the useful life of assets, the shortest of the two. As of September 30, 2011 and December 31, 2010 there were no amounts pending related to these payments to the municipalities.

- (iii) Program Contracts – Investments performed

Refer to the renewals of the contracts previously denominated as full concession to operating concession, through the program contracts that have as objective the supply of municipal public services or sanitation sewage, where the Company has the possession and the management of the assets acquired or construction during the effectiveness of these contracts (30 years).

This item presented increase of R\$27.0million or 19.1%, from R\$141.2 million to R\$168.2 million, resulting from the

The amortization of the intangible assets is performed during the effectiveness of the concession contracts by the straight line method or by the useful life of the assets, whichever is lower.

(iv) Program contracts - Commitments

After the enactment of the regulatory framework in 2007, the renewals of concessions started to be made through of program contracts. In some of these program contracts, the Company assumed the commitment to financially participate in social and environmental actions. The assets constructed and the financial commitments assumed within the program contracts are recorded as intangible assets and are amortized by the straight line method in accordance with the duration of the program contract (mostly, 30 years) or by the useful life of the assets, whichever is lower.

In September 30, 2011, the amortization expenses related to the commitments of the program contracts were R\$9,287 (Dec/10 – R\$10,275).

In September 30, 2011, the amounts still not disbursed referring to the commitments of the program contracts were recorded in Other Obligations in current liabilities in the amount of R\$70,496 and in non current liabilities, in the amount of R\$84,971.

13. TAXES AND CONTRIBUTIONS

- a) Current assets

The item taxes recoverable of current assets is comprised by amounts of negative balance of income tax and social contribution and amounts related to income tax withheld on financial investments. The balance on September 30, 2011 was R\$70,052 (R\$108,675 on December 31, 2010), the reduction of R\$38,623 in the balance occurred as a result of the offset of amounts related to negative balance of income tax and social contribution of the year 2010 with amounts payable of the same taxes of year 2011. Such drop was partially offset by the verification of higher payment in the estimates of payment in the fiscal year 2011, resulting from the reduction in the amounts calculated of income tax and social contribution, in the period from January to September, 2011 due to the drop to current's year accumulated profit.

Transitional Tax Regime – RTT

ITR - QUARTERLY INFORMATION 09/30/2011 CIA SANEAMENTO BÁSICO ESTADO SÃO PAULO

For the purposes of calculation of income tax and social contribution on net income of the years of 2009 and 2008, the Company and its subsidiaries adopted the RTT, which allows the legal entity to eliminate the accounting effects of the Law 11.638/07 and Provisional Measure 449/08, converted into Law 11.941/09, by the registers in the fiscal books - LALUR and auxiliary controls, without any change in the accounting books.

In 2011, the Company also adopted the same tax practices adopted in 2008, 2009 and 2010, since the RTT shall be in force until the enacting of the Law that rules the tax effects of the new accounting standards, seeking the tax neutrality.

(i) Customers - Approximately 1,480 lawsuits were filed by commercial customers, which claim that their tariffs should be equal to the tariffs of another consumer category, and therefore claim the refund of the amounts collected by Sabesp. The Company was granted both favorable and unfavorable final decisions at several courts, and recognized provisions when the likelihood of loss is considered probable.

(ii) Suppliers - Suppliers' claims include lawsuits filed by some building companies alleging an underpayment of monetary adjustments, withholding of amounts related to the understatement of official inflation rates after the Real economic plan, and the economic and financial imbalance of the agreements. These lawsuits are in progress at different courts and a provision is recognized when the likelihood of loss is considered probable.

(iii) Other civil lawsuits - refer mainly to indemnity claims for property damage, pain and suffering, and loss of profits allegedly caused to third parties, filed at different court levels, duly accrued when classified as probable losses.

(iv) Tax lawsuits - the provision for tax contingencies refers mainly to issues related to tax collections challenged due to differences in the interpretation of legislation by the Company's legal counsel, duly accrued when classified as probable losses.

(v) Labor lawsuits - the Company is a party to labor lawsuits, involving issues such as overtime, health hazard premium and hazardous duty premium, prior notice, change of function, salary equalization, and other. Part of the amount involved is in provisional or final execution at various court levels, and thus is classified as a probable loss and accordingly a provision was recognized.

(vi) Environmental lawsuits - refer to several administrative proceedings and lawsuits filed by government entities, including Companhia de Tecnologia de Saneamento Ambiental - Cetesb and the São Paulo State Public Prosecution Office for the imposition of fines for environmental damages allegedly caused by the Company. The amounts recognized in provision do not always represent the final amount to be disbursed as indemnity of alleged damages, in view of the current stage in which such lawsuits are and Management's impossibility to reasonably estimate the amounts of future disbursements.
