(*) Adjusted EBITDA is net income before: (i) depreciation and amortization; (ii) income tax and social contribution (income federal taxes); (iii) financial result and (iv) other operating expenses, net.

In 3Q13, net operating revenue reached R\$ 2.8 billion, a 2.3% growth compared to 3Q12.

Costs and expenses, including construction costs, dropped 2.4%, from R\$ 2.0 billion in 3Q12 to R\$ 1.9 billion in 3Q13.

EBIT grew 15.5%, from R\$ 721.8 million in 3Q12 to R\$ 833.6 million in 3Q13.

Adjusted EBITDA increased 15.5%, from R\$ 902.0 million in 3Q12 to R\$ 1,042.0 million in 3Q13.

The adjusted EBITDA margin moved from 33.3% in 3Q12 to 37.6% in 3Q13. Excluding construction revenues and construction costs, the adjusted EBITDA margin was 46.4% in 3Q13 (42.4% in 3Q12).

Net income grew 31.3%, from R\$ 361.8 million in 3Q12 to R\$ 475.0 million in 3Q13.

2. Gross operating revenue

Gross operating revenue from water supply and sewage collection grew from R\$ 2.3 billion in 3Q12 to R\$ 2.4 billion in 3Q13, an increase of R\$ 130.3 million or 5.8%.

The main factors that led to this variation were:

- Tariff adjustment of 5.15% since September 2012;
- The tariff repositioning index of 2.35% applied since April 2013; and
- Increase of 2.0% in the Company's total billed volume (1.9% in water and 2.1% in sewage).

1****Comments on the Company's Performance**

The less-than-expected growth was due to the conclusion of the implementation of TACE¹ services in municipalities in the interior region in 2Q12, which led to a decline in the number of days of unbilled water, decreasing the revenue estimated for June 2012. This reduced estimate caused a smaller reversal in July 2012, significantly affecting the variations presented in the periods analyzed.

Disregarding the non-recurring facts mentioned above, operating revenue increased approximately 10.0%.

3. Construction revenue

Construction revenue decreased R\$ 60.9 million or 9.9%, when compared to 3Q12. Despite the decrease recorded in the quarter over quarter comparison, year to date comparison recorded a slight 2.1% drop.

4. Billed volume

The following tables show the water and sewage billed volume per customer category and region in 3Q12, 3Q13, 9M12 and 9M13.

5.1. Payroll and benefits

In 3Q13 payroll and benefits grew R\$ 62.4 million or 14.6%, from R\$ 426.7 million to R\$ 489.1 million, due to the following:

- 8.0% increase in wages since May 2013 and the implementation of the Company's new career and wage plan, with an impact of approximately R\$ 27.8 million;
- Provision referring to TAC (Conduct Adjustment Term) of retirees increased by R\$ 9.8 million, mainly due to the 8.0% wage adjustments since May 2013, and changes in the period;
- R\$ 9.7 million upturn in the provision for the Defined Benefit Plan, arising from changes in actuarial assumptions;
- R\$ 3.2 million increase in meal expenses, mainly due to the 13.6% adjustment on meal voucher in May 2013, settled in the collective bargaining agreement; and
- R\$ 2.4 million increase referring to the Profit Sharing Program, chiefly due to salary adjustment in May 2013, settled in the collective bargaining agreement, connected with the implementation of the Company's new job and salary plan.

5.2. Supplies

In 3Q13, expenses with supplies increased by R\$ 2.7 million or 5.9%, when compared to the previous year, from R\$ 46.1 million to R\$ 48.8 million, mostly due to preventive maintenance in several water and sewage systems, in the amount of R\$ 2.6 million.

5.3. Treatment supplies

Treatment supplies expenses in 3Q13 were R\$ 24.5 million or 62.7% higher than in 3Q12, from R\$ 39.1 million to R\$ 63.6 million. The main factors for this variation were:

- Increase of R\$ 6.9 million due to the higher consumption of activated carbon in the Taiaçupeba Water Treatment Station - WTS, due to the proliferation of algae in the system's reservoirs;

Comments on the Company's Performance

- Increase of R\$ 6.2 million in expenses with aluminum polychloride and ammonium nitrate, mainly due to price adjustments;
- Increase of R\$ 2.0 million in the consumption of iron sulfate, especially at the Rio Grande WTS, due to higher turbidity seen in raw water;
- Higher consumption of hydrogen peroxide, increasing R\$ 1.7 million, as a result of the increase in consumption at the Taiaçupeba and Jundiaí WTS due to the proliferation of algae; and
- Higher chlorine consumption, with R\$ 1.5 million increase, mainly due to a greater need of disinfecting raw water in Baixo Cotia and Rodolfo WTSs, combined with adjustment made in the product price.

5.4. Services

In 3Q13 this item grew R\$ 23.5 million or 9.0%, from R\$ 261.5 million to R\$ 285.0 million. The main factors were:

- Increase of R\$ 12.5 million due to the reversion of provision with expenses in 3Q12, regarding the conclusion of the agreement settled with the Municipal Government of São Paulo; and
- Maintenance in the water and sewage network connections, in the amount of R\$ 6.6 million, due to the intensification of services in several areas of operation of the Company.

5.5. Electric power

This item decreased R\$ 11.7 million, or 8.1%, from R\$ 144.8 million in 3Q12 to R\$ 133.1 million in 3Q13, mainly due to the average decrease of 22.7% in the Tariff for the Use of Distribution System (TUSD), as a consequence of Provisional Presidential Decree 579/12 and Law 12,783/13.

5.6. General expenses

R\$ 75.7 million or 36.1% decrease, from R\$ 209.7 million in 3Q12 to R\$ 134.0 million in 3Q13 chiefly due to the additional provision for labor risks in 3Q12, totaling R\$ 27.9 million referring to reversals made in 3Q13, provisions for environmental risks totaling R\$ 19.7 million and provision for civil risks totaling R\$ 14.8 million.

5.7. Depreciation and Amortization

Depreciation and amortization increased R\$ 28.2 million or 15.6%, from R\$ 180.2 million in 3Q12 to R\$ 208.4 million in 3Q13, due to the transfer of works to the operating intangible asset, with a net increase of R\$ 2.1 billion.

5.8. Credit write-offs

Credit write-offs decreased R\$ 42.9 million or 60.8%, from R\$ 70.6 million in 3Q12 to R\$ 27.7 million in 3Q13, chiefly due to the additional provision held in 3Q12, in the amount of R\$ 41.2 million.

Other operating revenues/expenses recorded a positive variation of R\$ 71.2 million, chiefly due to:

R\$ 69.3 million decrease in other operating expenses, chiefly due to: (i) indication of intangible assets recoverable value losses in 3Q12, totaling R\$ 35.1 million; and (ii) provision for intangible asset inventory losses in 3Q12, totaling R\$ 35.1 million.

7.1.1. Financial expenses

In 3Q13 financial expenses dropped R\$ 34.1 million, or 24.6%. The main reasons for this result were:

- Other financial expenses: decrease of R\$ 18.3 million due to the reversion of interest over provisions for lawsuits; and
- Decrease in R\$ 12.0 million in interest and charges on domestic loans and financing, due to the change in debt (issue of the 17th debenture in February 2013 and anticipation of the amortization of the 11th debenture balance).

Comments on the Company's Performance

7.2.1. Monetary variation on liabilities

The effect on the monetary variation on liabilities in 3Q13 was R\$ 51.6 million higher than in 3Q12, specially:

- Increase of R\$ 63.6 million in exchange rate variation over loans and financing, mainly deriving from lower capitalization of these expenses in the intangible assets in 2013; and
- Decrease in other monetary/exchange variation in the amount of R\$ 12.0 million due to a higher provision for lawsuits in 3Q12, resulting in a decrease of R\$ 13.2 million in the period.

7.2.2. Monetary variation on assets

Monetary variation on assets increased by R\$ 1.7 million in 3Q13, chiefly due to updates on installments agreements.

8. Income tax and social contribution

Income tax and social contribution expenses increased by R\$ 59.2 million, due to increase in the tax basis in the period.

9. Operating indicators

The water loss ratio continues dropping and ended 3Q13 at 25%. It is worth mentioning that out of funds raised with JICA in early 2012, totaling approximately R\$ 1.5 billion, nearly R\$ 1 billion referring to the execution of services and Program management are in the final phase of contract. The remaining R\$ 500 million referring to the works will be used as of 2015.

1. OPERATIONS

Companhia de Saneamento Básico do Estado de São Paulo ("SABESP" or the "Company") is a mixed-capital company headquartered in São Paulo, at Rua Costa Carvalho, 300, CEP 05429-900, controlled by the São Paulo State Government. The Company is engaged in the provision of basic and environmental sanitation services in the State of São Paulo, as well as it supplies treated water on a wholesale basis.

In addition to providing basic sanitation services in the State of São Paulo, SABESP may perform these activities in other states and countries, and can operate in drainage, urban cleaning, solid waste handling and energy markets. The objective set in the new vision of SABESP is to be recognized as the company that ensured universal access to water and sewage services in its marketplace, in a sustainable and competitive manner, with excellence in customer service.

On September 30, 2013, the Company operated water and sewage services in 364 municipalities of the State of São Paulo. The municipality of Mogi das Cruzes has two partial concession agreements, one agreement was renewed and the other one will expire. Most of these municipalities operations are based on 30-year concession agreements.

SABESP is not temporarily operating in some municipalities due to judicial orders under ongoing lawsuits: Iperó, Cajobi, Álvares Florense, Macatuba and Embaúba, whose carrying amount of these municipalities' intangible assets was R\$11,352 on September 30, 2013.

On September 30, 2013, a total of 62 concessions had expired and are being negotiated. From 2013 to 2034, 38 concessions will expire. Management believes that all concessions expired and not yet renewed will result in new contracts, disregarding the risk of discontinuity in the provision of municipal water supply and sewage services. By September 30, 2013, a total of 265 program and metropolitan contracts were signed (258 contracts on December 31, 2012).

On September 30, 2013, the carrying amount of intangible assets used in the 62 concessions of the municipalities under negotiation totaled R\$5,893,872, accounting for 25.32% of total, and the related gross revenue totaled R\$1,394,501 in the nine-month period ended September 30, 2013, accounting for 15.99% of total.

The Company's operations are concentrated in the municipality of São Paulo, which represents 51.56% of the gross revenue on September 30, 2013 (51.39% in September 2012) and 42.56% of intangible assets (43.51% in December 2012).

On June 23, 2010, the State of São Paulo through its Governor, the Municipality of São Paulo represented by its mayor, the Company and the regulatory agency "Sanitation and Energy Regulatory Agency – ARSESP" as intervening and consenting parties signed an agreement to share the responsibility for water supply and sewage services to the Municipality of São Paulo based on a 30-year concession agreement. This agreement is extendable for another 30 years, pursuant to the law. This agreement sets forth SABESP as the exclusive service provider and designates ARSESP as regulator, establishing prices, controlling and monitoring services.

Notes to the financial statements

Also, on June 23, 2010, the State of São Paulo, the municipality of São Paulo and SABESP signed the “Public utility services agreement for water supply and sewage”, a 30-year term which is extendable for another 30 years. This agreement involves the following activities:

- i. protection of the sources of water in collaboration with other agencies of the State and the municipality;
- ii. capture, transport and treat of water;
- iii. collect, transport, treatment and final dispose of sanitary sewage; and
- iv. adoption of other actions of basic and environmental sanitation actions.

In the municipality of Santos, in the Santos coast region, which has a significant population, the Company operates under an authorization by public deed, a situation similar to other municipalities in that region and in the Ribeira valley, where the Company started to operate after the merger of companies composing it. As of September 30, 2013 the carrying amount of the municipality of Santos’ intangible assets was R\$335,469 (R\$328,693 in December 2012) and gross revenue for the nine-month period ended September 30, 2013 was R\$182,983 (R\$165,512 in September 2012).

Article 58 of Law 11,445/07 determines that precarious and overdue concessions, as well as those effective for an undetermined period of time, including those that do not have an instrument formalizing them, will be valid until December 31, 2010. However, Article 2 of Law 12,693 of July 24, 2012 allows program agreements to be executed until December 31, 2016.

The Company’s Management understands that the concession agreements not yet renewed are valid and will be governed by Laws 8,987/95 and 11,445/07, including those municipalities served without an agreement.

Public deeds are valid and governed by the Brazilian Civil Code.

The Company's shares have been listed in the *Novo Mercado* (New Market) segment of BM&FBovespa (the São Paulo Stock Exchange) under the ticker symbol SBSP3 since April 2002 and on the New York Stock Exchange (NYSE) as American Depositary Receipts ("ADRs") Level III, under the ticker symbol SBS since May 2002. In 2007, SABESP joined the BM&FBovespa's Corporate Sustainability Index (ISE), which evidences its high level of commitment to the sustainable development and the social practices.

Since 2008, the Company has been setting up partnerships with other companies, which resulted in the following companies: Sesamm, Águas de Andradina, Saneaqua Mairinque, Aquapolo Ambiental, Águas de Castilho and Attend Ambiental. Although SABESP has no majority interest in the capital stock of these companies, the shareholders' agreements provide for the power of veto and casting vote in certain issues jointly with associates, indicating the shared control in the management of investees.

This quarterly financial information was approved by the Board of Directors on November 14, 2013.

Notes to the financial statements

2. BASIS OF PREPARATION AND PRESENTATION OF QUARTERLY FINANCIAL INFORMATION

(i) Presentation of Quarterly Financial Information

The quarterly financial information as of September 30, 2013 was prepared based on CPC 21 – Interim Financial Reporting and the international standard IAS 34 – Interim Financial Reporting issued by the International Accounting Standards Board (IASB), applicable to the preparation of the Quarterly Information Form– ITR, which are consistently presented with the standards issued by CVM. Therefore, this ITR considers the Circular Official Letter CVM/SNC/SEP 003 of April 28, 2011 which allows that entities report selected notes to the financial statements, in cases of redundant information already disclosed in the Annual Financial Statements. The quarterly financial information for the period ended September 30, 2013, therefore, does not include all the notes and reporting required by the CPC (“Brazilian Accounting Pronouncements Committee”) for the annual financial statements and, accordingly, must be read together with the financial statements under CPC and IFRS for the year ended December 31, 2012.

2.1 Accounting policies

The accounting policies used in the preparation of the quarterly financial information for the quarter ended September 30, 2013 are consistent with those used to prepare the Annual Financial Statements for the year ended December 31, 2012, except for the effects of new accounting practices adopted as of January 1, 2013, described hereinbelow. These policies are disclosed in Note 3 to the Annual Financial Statements.

As of January 1, 2013, new standards, amendments and interpretations of accounting standards became effective. This quarterly financial information already includes the adoption of these amendments and shows their effects on a retrospective basis.

The adoption of CPCs 19(R2) and 33(R1) for the year ended December 31, 2012 resulted in the following adjustments:

Notes to the financial statements

The adoption of CPC 19(R2) resulted in changes in the consolidation of the Company's investments in Sesamm – Serviços de Saneamento de Mogi Mirim S/A, Águas de Andradina S.A., Águas de Castilho, Saneaqua Mairinque S.A., Aquapolo Ambiental S.A. and Attend Ambiental S/A.

(b) Adoption of CPC 33 (R1)

The Company's accounting practice up to December 31, 2012 consisted of recording actuarial gains and losses using the corridor method, in which gains and losses from changes in actuarial assumptions were only recognized in profit or loss as they surpass the corridor value and amortized during the estimated average remaining working life of population with the benefits. Therefore, actuarial gains and losses measured in a certain period were not immediately recognized. With this method, the value recognized in liabilities differs from the estimated present value of obligations through unrecognized actuarial gains and losses.

With the adoption of the new accounting standard, SABESP now recognizes in the statement of financial position the total effect from actuarial losses net of income tax and social contribution, with a corresponding entry to the statement of other comprehensive income, not being recorded in income statement. Such accounting method was applied in the quarterly financial information for 2013, with a retrospective effect in the Company's financial statements for the year ended December 31, 2012 and the opening balance of January 1, 2012.

Deferred income tax and social contribution were recorded only for the G1 plan, because G0 plan expenses are deemed undeductible.

Below, the reconciliation of the new asset and liability balances of the actuarial obligations for the year ended December 31, 2012 and the opening balance of January 1, 2012, affected by the change in the

3. FINANCIAL RISK MANAGEMENT**3.1 Financial risk factors**

The Company's activities are affected by Brazilian economic scenario, making it exposed to market risks, such as exchange rate, interest rate, credit risk and liquidity risk. The Company's financial risk management is focused on the unpredictability of financial markets and seeks to minimize potential any adverse effects on the Company's financial performance.

The Company has not utilized derivative instruments in any of the reported periods.

(a) Market risk

Foreign exchange risk

SABESP's foreign exchange exposure implies market risks associated with Brazilian Real currency fluctuations against the US dollar and Yen. SABESP's foreign currency-denominated liabilities include US dollar and Yen-denominated loans.

In case of Brazilian Real depreciation in relation to foreign currency in which the debt is denominated, SABESP will incur in monetary loss in relation to such debt.

SABESP's specific foreign exchange risks are related to exposures caused by its current and non-current debts denominated in foreign currency.

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)ITR — Quarterly Information Form — September 30, 2013 — CIA SANEAMENTO BÁSICO
ESTADO SÃO PAULO**Version:
1****Notes to the financial statements**

The management of SABESP's foreign exchange exposure considers several current and projected economic factors, besides market conditions.

This risk arises from the possibility that the Company may incur losses due to exchange rate fluctuations that would impact liability balances of foreign currency-denominated loans and financing raised in the market and related financial expenses. The Company does not maintain hedge or swap contracts neither any derivative financial instrument to hedge against this risk, but conducts an active management of debt, taking advantage of opportunities to change expensive debts with "cheaper" debts, reducing the cost through early maturity.

A significant amount of the Company's financial debt is denominated in U.S. dollar and Yen, in the total amount of R\$3,567,740 on September 30, 2013 (R\$3,231,183 million in December 2012). Below, the Company's exposure to foreign exchange risk:

	December 31, 2012			
	September 30, 2013		(Restated)	
	Foreign currency	R\$	Foreign currency	R\$
Loans and financing – US\$	1,161,032	2,589,101	1,136,274	2,321,976
Loans and financing – Yen	41,468,167	940,498	37,535,650	890,346
Interest and charges from loans and financing – US\$		35,605		12,487
Interest and charges from loans and financing – Yen		2,536		6,374
Total exposure		3,567,740		3,231,183
Financing cost		(17,455)		(15,422)
Total loans in foreign currency		3,550,285		3,215,761

As at September 30, 2013, if the Brazilian Real had depreciated or appreciated by 10% against the US dollar and Yen with all other variables held constant, effects on results before taxes on September 30, 2013 would have been R\$356,774 (R\$323,118 in the year ended December 31, 2012) lower or higher, mainly as a result of foreign exchange losses or gains on the translation of foreign currency-denominated loans.

Scenario I below presents the effect in the income statements for the next 12 months, considering the projected rates of the U.S. dollar and the Yen. Considering the other variables as remaining constant, the impacts for the next 12 months are shown in scenarios II and III with possible depreciations of 25% and 50%, respectively, in the Brazilian Real.

	Scenario I (Probable) (*)	Scenario II (25%)	Scenario III (50%)

Interest rate risk

This risk arises from the possibility that the Company could incur losses due to fluctuations in interest rates, increasing the financial expenses related to loans and financing.

The Company has not entered into any derivative contract to protect against this risk; however continually monitors market interest rates, in order to evaluate the need of replacing its debts.

The table below provides the Company's loans and financing subject to variable interest rate:

Notes to the financial statements

Another risk to which the Company is exposed, is the mismatch of the monetary restatement indices of its debts with those of its service revenues. Water supply and sewage services tariff adjustments do not necessarily follow the increases in adjustment indexes for loans, financing and interest rates affecting the Company's debt.

As at September 30, 2013, if interest rates on loans denominated in Brazilian *reais* had been 100 basis points higher or lower with all other variables held constant, the effects on profit for the nine-month period ended September 30, 2013 before taxes would have been R\$65,796 (R\$67,015 for the year ended December 31, 2012) lower or higher, mainly as a result of a lower or higher interest expense on floating rate loans.

(b) Credit risk

The credit risk arises from cash and cash equivalents, deposits in banks and financial institutions, as well as credit exposures to customers, including outstanding accounts receivable, restricted cash, accounts receivable from related parties and indemnities. The Company is required by law to invest its funds with Banco do Brasil. Credit risk exposure is mitigated by sales to a dispersed customer base.

The maximum exposure to credit risk at the reporting date is the carrying amount of instruments classified as cash equivalents, deposits in banks and financial institutions, restricted cash, trade accounts receivable and accounts receivable from related parties. (See notes 5, 6, 7 and 8).

Regarding the financial assets held with financial institutions, the credit quality that is not past due or subject to provision for impairment can be assessed by reference to external credit ratings (if available) or

to historical information about counterparty default rates. The credit quality of counterparties which are banks, such as deposits and financial investments, the Company considers the lower rating of the counterparty published by three main international rating agencies (Moody's, Fitch and S&P), according to the internal market risk management policy:

	September 30, 2013	December 31, 2012 (Restated)

AAA(bra)	1,826,850	1,913,893
Others (*)	1,920	2,081
	1,828,770	1,915,974

(*)This category includes current accounts and investment funds in banks which have no credit rating information available.

The available credit rating information of the banks in which the Company made transactions during the period is as follows:

Notes to the financial statements

(c) Liquidity risk

The Company's liquidity is primarily reliant upon cash provided by operating activities, loans from Brazilian Federal and State governmental financial institutions, and financing in the domestic and international capital markets. The liquidity risk management considers the assessment of its liquidity requirements to ensure it has sufficient cash to meet its investment and capital expenditures needs, as well as the payment of debts.

The funds held by the Company are invested in interest-bearing current accounts, time deposits, short-term deposits and securities, selecting instruments with appropriate maturity or liquidity sufficient to provide margin as determined by projections mentioned above.

The table below analyzes the Company's financial liabilities, by relevant maturities, including the installment of principal and interest to be paid according to the agreement.

Notes to the financial statements

Future interest

Future interest was calculated based on the contractual clauses for all agreements. For agreements with floating interest rate, the interest rates used correspond to the reference dates above.

Cross-default clause

The Company has loan agreements including the cross-default clause, which sets forth that the early maturity of any Company's debt will cause the anticipated debt of the corresponding agreement. Indicators are constantly monitored to avoid the execution of this clause.

(d) Sensitivity analysis on interest rate risk

The table below shows the sensitivity analysis of the financial instruments, prepared in accordance with CVM Rule 475/2008 in order to evidence the balances of main financial assets and liabilities, calculated at a rate projected until the final settlement of each contract, considering a probable scenario (scenario I), appreciation of 25% (scenario II) and 50% (scenario III).

The purpose of the sensitivity analysis is measure the impact of changes in the market variables over the financial instruments of the Company, considering constant all other variables. Upon settlement the amounts can be different from those presented above, due to the estimates used in the measurement.

(i) It refers to the scenario of interest rates to be incurred for the 12 months as of September 30, 2013 or until the maturity of the contracts, whichever is shorter.

3.2 Capital management

The Company's objectives when managing capital are ensure its ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders, and to maintain an optimal capital structure to reduce the cost of capital.

The Company monitors capital based on the financial leverage ratios. This ratio corresponds to net debt divided by total capital. Net debt corresponds to total loans and financial less cash and cash equivalents. Total capital is calculated as total equity as shown in the statement of financial position plus net debt.

	September 30, 2013	December 31, 2012 (Restated)
Total loans and borrowings	9,085,183	8,875,255
Less: cash and cash equivalents	(1,828,770)	(1,915,974)

Total equity	12,509,395	11,256,762
Total capital	19,765,808	18,216,043
Leverage ratio	37%	38%

On September 30, 2013, the leverage ratio decreased from 38% to 37% when compared with December 31, 2012, which is mainly due to capital increase deriving from the profit in the period.

1****Notes to the financial statements****3.3 Fair value estimates**

We assume that balances of trade accounts receivable (current) and trade accounts payable by carrying amount approximate their fair values, considering the short maturity. Long-term trade accounts receivable also approximate their fair values, as they will be adjusted by inflation and/or will bear contractual interest rates over time.

3.4 Financial instruments

On September 30, 2013 and December 31, 2012, the Company did not have financial assets classified in categories of fair value through profit or loss, held to maturity and held for sale. The Company's financial instruments included in the loans and receivables category comprise cash and cash equivalents, receivables from customers, receivables from related parties, other accounts receivable, receivables from Water National Agency - ANA, contractors and suppliers, loans and financing, interest on equity payable, accounts payable from public-private partnership - PPP and program contract commitments, which are non-derivative financial assets and liabilities with fixed or determinable payments, not quoted in an active market.

The estimated fair values of financial instruments are as follows:

Public-Private Partnership - PPP	346,063	346,063	356,317	356,317

To obtain fair value of loans and financing, the following criteria have been adopted:

(i) Agreements with Banco do Brasil and CEF (Brazilian Federal Savings Bank) were projected until final maturity, at contractual rates (projected TR + spread) and discounted at present value by TR x DI, both rates were obtained from BM&F.

(CONVENIENCE TRANSLATION INTO ENGLISH FROM THE ORIGINAL PREVIOUSLY ISSUED IN PORTUGUESE)

Notes to the financial statements

(ii) Debentures were projected until the final maturity date according to contractual rates (IPCA, DI, TJLP or TR), and discounted at present value considering the future interest rate published by ANBIMA in the secondary market, or equivalent market rates, or the Company securities traded in the Brazilian market.

(iii) BNDES (Brazilian Development Bank) loans are financial instruments measured by face value and restated until maturity date and are indexed by long term interest rate – TJLP.

These loans have specific characteristics and the conditions defined in the loan agreements with BNDES between independent parties, and reflect the conditions for those types of loan. In Brazil, a consolidated market of long-term debts does not exist with the same characteristics of BNDES loans, the offering of credit to the entities in general, with this long-term characteristic, usually is restricted to BNDES.

(iv) Other financing in local currency are considered by carrying amount till maturity date, discounted to present value at futures interest rate published by BM&FBovespa.

(v) Agreements with IDB, IBRD, were projected until final maturity in origin currency, applying interest rates contracted, discounted at present value at Libor futures rate, obtained from Bloomberg. Eurobonds were priced at market value through quotes published by Bloomberg. All the amounts obtained were translated into Brazilian *reais* at the exchange rate as of September 30, 2013.

(vi) Agreements with JICA were projected until final maturity in origin currency, using interest rates contracted and discounted at present value, at Tibor futures rate obtained from Bloomberg. The amounts obtained were translated into Brazilian reais at the exchange rate as of September 30, 2013.

(vii) Leasing is an instrument measured by face value restated until maturity date, whose characteristic is the indexation by fixed contractual rate, which is a specific type, not compared to any other market rate. Thus, the Company discloses as market capitalization, the amount recorded on September 30, 2013.

Considering the nature of the Company's other financial instruments, assets and liabilities, the balances recognized in the statements of financial position are close to the fair values, taking into consideration the maturity terms close to the reporting date, a comparison between contractual interest rate and market interest in similar operations at the end of the reporting period, and its nature and maturity terms.

4. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGMENTS

Estimates and judgments are continually evaluated and are based on historical experience and on other factors, including expectations of future events that are believed to be reasonable under the circumstances. There were no changes when compared to the Annual Financial Statements for the year ended December 31, 2012, according to Note 5.

Cash and cash equivalents include cash, bank deposits and high-liquidity short-term investments, mainly represented by purchase commitments (bearing CDI rate), deposited in Banco do Brasil, with maturities lower than three months, which are promptly convertible into a known cash amount and subject to an insignificant risk of change in value.

The average yield of financial investments corresponds to 100.72% of CDI in September 2013 (100.01% in December 2012).

6. RESTRICTED CASH

As of September 30, 2013, the restricted cash, in current assets, totaled R\$10,473, referring mainly to the agreement in the municipality of São Paulo, where the Company transfers 7.5% of the Municipality's revenue to the Municipal Fund (R\$64,977 in December 2012).

The variation occurred in the period from January to September 2013, when compared to the Financial Statements as at December 31, 2012, mainly refers to the removal of restriction on use of funds by the Municipal Government of São Paulo.

Notes to the financial statements

From January to September 2013, there were no relevant changes in operations reported in the financial statements as at December 31, 2012.

(i) General customers - residential and small and mid-sized companies.

(ii) Special customers - large consumers, commercial, industries, condominiums and special billing consumers (industrial waste, wells, etc.).

(iii) Agreements - installment payments of past-due receivables, plus monetary restatement and interest.

(iv) Wholesale basis customers - municipal governments - This balance refers to the sale of treated water to municipalities, which are responsible for distributing to, billing and charging final customers. Some of these municipalities are challenging in court the tariffs charged by SABESP, which have full allowance for doubtful accounts. Additionally, the overdue amounts are included in the allowance for doubtful account and are classified in noncurrent assets.

Changes are as follows:

From January to September 2013, there were no significant changes in the operations reported in the financial statements as at December 31, 2012. Further details and explanations on the nature of related-party transactions are included in Note 9 of the Financial Statements as at December 31, 2012.

(b) Contingent assets – GESP (not recorded)

On September 30, 2013 and December 31, 2012, SABESP had off-balance contingent assets with GESP relating to the supplementary retirement and pension paid (Law 4,819/58), as follows:

	September 30, 2013	December 31, 2012 Restated
Amounts in controversy receivable	698,018	654,927
Undisputed amount relating to the transfer to SABESP of Alto Tietê system reservoirs	696,283	696,283
Total	1,394,301	1,351,210

From January to September 2013, there were no relevant changes in the progress of lawsuits. Further details and explanations on the nature of these contingent assets are included in Note 9 (vii) of the Financial Statements as at December 31, 2012.

(c) Agreements for the use of reservoirs

EMAE – Empresa Metropolitana de Águas e Energia S.A. claims the credit and financial compensation for the use of water from Guarapiranga and Billings reservoirs, used by SABESP in its operations, as well as the reimbursement of damages related to the failure to pay appropriately.

The Company understands that no amounts are due for the use of these reservoirs, but already participates in its maintenance costs of the Guarapiranga reservoir. Should these reservoirs not be available for use to the Company, maybe it would be necessary to collect water in more distant places, having the risk of being unfeasible to properly rendering services in the region, besides increasing borrowing cost.

Notes to the financial statements

Three proceedings were filed by EMAE, two of them are writs of prevention to toll statute of limitation and another one to file arbitration commitment, by force of an arbitration clause in the agreement entered into between the São Paulo State Government and former Light, in 1958.

The plaintiff understands that diverging opinions between EMAE and SABESP should be resolved at the Court of Arbitration, which was disputed by SABESP, which in turn claims it is not bound to an agreement in which it is not party.

In February 2013, the arbitration commitment was established, decision of which was challenged by appeal which is pending judgment.

As such appeal has no suspensive effect, EMAE filed a request for arbitration proceeding with Amcham Arbitration Center. In July, SABESP through an interlocutory appeal, obtained suspension of the award effects, which sentenced the filing of arbitration proceeding, but it was judged on October 23, 2013 and the court rejected the suspensive effect, reason that EMAE requested the immediate prosecution of the arbitration proceeding.

Simultaneously, in September 2013, EMAE filed another lawsuit, also pleading a financial compensation due to water collection from Billings reservoir by SABESP for public supply, alleging that such action has been causing permanent and growing losses in the capacity of generating electricity at Henry Borden PCH, with financial losses.

In a defense filed on October 9, 2013, among several arguments, SABESP alleged that it has the non-onerous grant of right to use surface water resources for public supply in the metropolitan region of São Paulo, granted by DAEE (Water and Electricity Department), which sustains the legality of its operations. SABESP also affirms that EMAE does not own the right to use Billings reservoir's waters,

reason that it is not entitled to claim any indemnification from third parties, any compensation or remuneration for the use of water and finally, that the restrictions to utilize all the potential of Billings reservoir waters to generate electricity do not solely refer to SABESP's utilization of these resources, but also the legal restriction preventing the pumping of wastewater to this reservoir.

SABESP understands that the expectation for all lawsuits is of possible losses, and, at this present moment, it is not feasible to estimate the amount involved.

(d) Agreements with reduced tariffs with State and Municipal Government Entities which adhered to the Water Rational Use Program (PURA)

The Company has signed agreements with government entities related to the State Government and municipalities where it operates that benefit from a reduction of 25% in the tariff of water supply and sewage services when they are in performance. These agreements provide for the implementation of the rational water use program, which takes into consideration the reduction in water consumption.

(e) Guarantees

The State Government provides guarantees for some loans and financing of the Company and does not charge any fee with respect to such guarantees.

Notes to the financial statements

On September 30, 2013 and December 31, 2012, the balances were R\$121,020 and R\$2,646, respectively.

(f) Disposal of concession intangible underlying assets

The Company wrote off intangible underlying assets items totaling R\$2,595 and R\$67 from July to September 2013 and 2012, respectively, and R\$7,497 and R\$1,822 from January to September 2013 and 2012, respectively, due to obsolescence, theft, misplacements, unproductive wells and projects considered economically unfeasible.

(g) Capitalization of interest and other financial charges

In the nine-month period of 2013, the Company capitalized interest and inflation adjustment, including related foreign currency exchange effects on concession intangible assets totaling R\$163,975 with an average rate of 3.55%. On September 30, 2013, the Company capitalized the amount of R\$225,270 with an average rate of 4.20% during the period assets were recorded as work in progress.

(h) Construction margin

The Company acts as a primary responsible to construct and install the infrastructure related to the concession, using own efforts or hiring outsourcing services, receiving the risks and benefits.

As a consequence, the Company recognizes revenue from construction service corresponding to the cost of construction increased by margin. Generally, the constructions related to the concessions are performed by third parties, in such case, the Company's implicit margin is lower, normally, to cover administration costs and the assumption of primary risk. On September 30, 2013 and 2012 the margin was 2.3%.

Construction margins for the periods between July and September 2013 and 2012 were R\$11,909 and R\$13,056, respectively, and for the periods between January and September 2013 and 2012, R\$35,170 and R\$36,919, respectively.

(i) Expropriations

As a result of the construction of priority projects related to water and sewage systems, the Company was required to expropriate or establish rights of way in third-parties' properties, and the owners of these properties will be compensated either amicably or through courts.

The assets received as a result of expropriations are recorded as concession intangible assets after the transaction is completed. In the third trimester of 2013, the total amount related to expropriations was R\$22,630 and R\$43,401 (R\$3,089 from July to September 2012 and R\$11,179 from January to September 2012) in the period between January to September 2013.

(j) Assets pledged as collateral

On September 30, 2013 and December 31, 2012, the Company had underlying physical assets totaling R\$249,034 pledged as collateral to the request for the PAES (tax installment payment program) (Note 14). The debt related to PAES was paid-off in 120 months, the last installment was paid on June 28, 2013.

(v) Financial Commitments – “Covenants”

Some loans and financing contracts have clauses related to the compliance with certain financial ratios with quarterly or annual substantiations.

17th Issue of Debentures

Ratios are calculated quarterly, upon disclosure of interim or annual financial statements:

Adjusted Total Debt/Ebitda: lower than or equal to 3.65; and

Ebitda/Financial Expenses Paid: equal to or higher than 1.5.

The Issuer's failure to comply with ratios shall trigger the early maturity of the agreement.

The agreement has a cross-default clause, i.e., the early maturity of any debt which sets forth that in the event of agreement default which may hamper the Issuer to meet its debts relating to the issue, the early maturity of any of the Issuer's debts shall apply, in the individual or total amount equal to or higher than ninety million reais (R\$90,000).

Notes to the Financial Statements

Other covenants are similar to those reported in Note 13 to the Annual Financial Statements as at December 31, 2012.

On September 30, 2013, the Company had met all the requirements set forth by its loan and financing agreements.

(vi) Loans and financing contracted but not yet used

In order to implement its investment plan, SABESP has a financing plan.

Funds from financing have specific purposes, which are released for their related investments.

14. TAXES AND CONTRIBUTIONS

a) Current assets

	September 30, 2013	December 31, 2012
		(Restated)
Recoverable taxes		
Income tax and social contribution	-	100,225
IRRF (withholding income tax) on financial investments	5,950	14,302
Other federal taxes	9,094	3,238
Other municipal taxes	656	656
Total taxes recoverable	15,700	118,421

The decrease in "Recoverable taxes" is mainly due to the fact that the 2012 income tax and social contribution balance was used to settle the amounts of these taxes calculated in 2013.

b) Liabilities

	Current	December 31, 2012
	September 30, 2013	(Restated)
Income tax and social contribution	137,749	-
Cofins and Pasesp	40,985	46,576
Paes (Special Installment Payment)	-	19,011
INSS (Social Security contribution)	29,791	29,401
IRRF (withholding income tax)	1,479	41,588
Other	21,163	16,134
Total	231,167	152,710

The increase in taxes payable of current liabilities arises mainly from the calculation of income tax and social contribution payable in September 2013, partially reduced by the payment of withholding income tax (IRRF) of interest on equity declared in December 2012 and payment of Paes in the period.

The Company requested for Special Installment Payment (PAES) on July 15, 2003, in accordance with Law 10,684 of May 30, 2003, and included in such request the debts related to COFINS and PASEP involved in a legal proceeding against the application of Law 9,718/98, and consolidated the remaining balance under the Tax Recovery Program (REFIS). The original amount included in PAES was R\$316,953, as follows:

Tax	Principal	Fine	Interest	Total
Cofins	132,499	13,250	50,994	196,743
Pasesp	5,001	509	2,061	7,571

Refis	112,639	-	-	112,639
Total	250,139	13,759	53,055	316,953

The loan related to Paes was paid-off in 120 months, the last installment was paid on June 28, 2013. The amounts paid from January to June 2013 and in 2012 were R\$19,164 and R\$37,421, respectively, and financial expenses of R\$153 and R\$1,147 in the nine-month period ended September 30, 2013 and 2012, respectively, were recorded. There is no outstanding balance on September 30, 2013. There are no restrictions in the assets pledged as collateral in previous REFIS Program, totaling R\$249,034, which are still collateralizing the amounts in the PAES program, pursuant to Law 9,532 of December 10, 1997, since tax assets included in said program were extinguished with the payment of the final installment.

Transition Tax Regime (RTT)

For the purposes of calculating the income tax and the social contribution on net income for 2009 and 2008, the Company opted to adopt the Transition Tax Regime (RTT), which allow it to eliminate the accounting effects of the Law 11,638/07 and the Provisional Measure 449/08, converted into Law 11,941/2009, through the taxable income journal (LALUR) and auxiliary controls, without any change in the bookkeeping.

The Company has been adopted the same tax practices since 2008, as the RTT became mandatory and shall be effective until the enactment of Law that rules the tax effects of the new accounting methods, seeking the tax neutrality.

(b) Lawsuits deemed as possible loss

The Company is party to lawsuits and administrative proceedings relating to environmental, tax, civil and labor matters, which are assessed by Management whose chances of loss are possible and are not recorded. Contingencies, classified as possible loss, represent approximately R\$3,124,600 on September 30, 2013 (R\$2,796,500 in December 2012).

(c) Explanation on the nature of main classes of lawsuits

(i) Customer claims

Approximately 1,490 lawsuits were filed by commercial customers, which claim that their tariffs should correspond to other consumer categories, and 720 lawsuits which claim a reduction in the sewage tariff due to losses in the system, consequently requesting the refund of amounts charged by the Company. The Company was granted both favorable and unfavorable final decisions at several court levels and recognized provisions when the chances of losses are probable. The R\$4,804 increase in the lawsuits classified as probable loss (net of escrow deposits) relates to the filing of new lawsuits and interest, fees and inflation adjustments on amounts involving lawsuits in progress, partially offset by payments made in the year and revisions of expectations caused by favorable decisions to the Company in 2013.

Notes to the Financial Statements

(ii) Supplier claims

Suppliers' claims include lawsuits filed by some suppliers alleging underpayment of inflation adjustment, withholding of amounts related to the understated inflation rates deriving from the Brazilian Real economic plan, and the economic and financial imbalance of the agreements. These lawsuits are in progress at different courts and a provision is recognized when the chances of losses are probable. The R\$8,111 increase in the lawsuits classified as probable loss (net of escrow deposits) mainly relates to interest rates, fees, and adjustments of amounts involving lawsuits in progress.

(iii) Other civil claims

These refer mainly to indemnities for property damage, pain and suffering, and loss of profits allegedly caused to third parties, filed at different court levels, duly accrued when classified as probable losses. The R\$37,228 decrease, for lawsuits with probable chances of loss (net of escrow deposits), was mainly due to the dismissal of several lawsuits and expectation reviews caused by favorable decisions to the Company, during 2013.

(iv) Tax claims

Tax contingencies refers mainly to issues related to tax collections challenged due to differences in the interpretation of legislation by the Company's Management, accrued when classified as probable loss. The R\$3,657 decrease, for lawsuits with probable chances of loss (net of escrow deposits), was mainly due to favorable decisions to the Company.

(v) Labor claims

The Company is a party to several labor lawsuits, involving issues such as overtime, shift schedule, health hazard premium and hazardous duty premium, prior notice, job deviation, salary parity, and others. Part of the amount involved is in provisional or final execution at various court levels, and thus is classified as probable loss and accordingly, accrued. The R\$23,072 decrease in lawsuits with probable chances of loss (net of escrow deposits) mainly refers to payments made in the year, partially offset by the addition in the estimates and adjustments of amounts involving lawsuits in progress.

(vi) Environmental claims

Environmental claims refer to several administrative proceedings and lawsuits filed by government entities, including Companhia de Tecnologia de Saneamento Ambiental – Cetesb, Public Prosecution Office of the State of São Paulo and others, that aim affirmative and negative covenants and penalty is estimated due to failure to comply, besides the imposition of indemnity due to environmental damages allegedly caused by the Company. The amounts accrued represent the best estimate of the Company at this moment, however, may differ from the amount to be disbursed as indemnity to alleged damages, in view of the current stage of referred proceedings. The R\$32,380 increase in the lawsuits with probable chances of loss (net of escrow deposits) mainly refers to the addition in the estimates of lawsuits and agreements in progress.

Other information is presented in Note 16 to the Annual Financial Statements as at December 31, 2012.

Other operating income (expenses), net	11,739	22,082	(59,533)	(32,674)

Other operating income is comprised of sale of property, plant and equipment, sale of contracts awarded in public bids, and indemnities and reimbursement of expenses, fines and collaterals, property leases.

Other operating expenses consist mainly of write-off of property, plant and equipment due to obsolescence, discontinued construction works, unproductive wells, projects considered economically unfeasible, and losses on property, plant and equipment.

The decrease in other operating expenses derives from the recording of provision for intangible assets inventory losses and provision for intangible assets impairment in September 2012, totaling R\$70,214.

25. COMMITMENTS

The Company has agreements to manage and maintain its activities, as well as agreements to build new projects aiming at achieving the objectives proposed in its target plan. REPORT ON REVIEW OF INTERIM FINANCIAL INFORMATION

To the Shareholders, Board of Directors and Management of

Companhia de Saneamento Básico do Estado de São Paulo - SABESP

São Paulo - SP

Introduction

We have reviewed the accompanying interim financial information of Companhia de Saneamento Básico do Estado de São Paulo - SABESP (the “Company”) included in the Interim Financial Information Form (ITR), for the quarter ended September 30, 2013, which comprises the balance sheet as of September 30, 2013 and the related statements of income and other comprehensive income for the three and nine-month periods then ended and changes in equity and of cash flows for the nine-month period then ended, including the explanatory notes.

The Company’s Management is responsible for the preparation of the interim financial information in accordance with technical pronouncement CPC 21 (R1) - Interim Financial Information and with international standard IAS 34 - Interim Financial Reporting, issued by the International Accounting Standards Board - IASB, as well as for the presentation of such information in accordance with the standards issued by the Brazilian Securities and Exchange Commission (CVM), applicable to the preparation of Interim Financial Information (ITR). Our responsibility is to express a conclusion on this interim financial information based on our review.

Scope of review

We conducted our review in accordance with Brazilian and international standards on review of interim financial information (NBC TR 2410 and ISRE 2410 - Review of Interim Financial Information Performed by the Independent Auditor of the Entity, respectively). A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with standards on auditing and,

consequently, does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion on the interim financial information

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial information included in the ITR referred to above was not prepared, in all material respects, in accordance with technical pronouncement CPC 21 (R1) and international standard IAS 34, applicable to the preparation of Interim Financial Information (ITR), and presented in accordance with the standards issued by the CVM.

Reports and Statements / Unqualified Report on Special Review

Emphasis of matter

Restatement of corresponding amounts

As mentioned in Note 2, as a result of the change in the accounting policy relating to employee benefits, in compliance with CPC 33 (R1) and IAS 19(R) – Employee Benefits, and the change in the accounting policy relating to the recording of jointly-owned businesses, in accordance with CPC 19 (R2) and IFRS 11 - Joint Arrangements, the corresponding amounts recorded in the statement of financial position for the year ended December 31, 2012 and the corresponding interim accounting information recorded in the statements of income and comprehensive income for the three and nine-month periods ended September 30, 2012 and changes in equity, cash flows and value added (supplemental information) for the nine-month period ended September 30, 2012, presented for comparison purposes, were adjusted and are being restated as set forth in CPC 23 and IAS 8 - Accounting Policies, Changes in Estimates and Correction of Error and CPC 26 (R1) and IAS 1 - Presentation of Financial Statements. Our opinion is not modified with respect to this matter.

Other matters

Statements of value added

We have also reviewed the statements of value added (DVA) for the nine-month period ended September 30, 2013, prepared under the responsibility of the Company's Management, the presentation of which is required by the standards issued by the CVM applicable to the preparation of Interim Financial Information (ITR) and considered as supplemental information for International Financial Reporting Standards - IFRS, which does not require the presentation of DVA. These statements were subject to the same review procedures described above, and, based on our review, nothing has come to our attention that causes us to believe that they were not prepared, in all material respects, consistently with the individual and consolidated interim financial information taken as a whole.

The accompanying interim financial information has been translated into English for the convenience of readers outside Brazil.
