We make forward -looking statements that are subject to risks and uncertainties. These statements are based on the beliefs and assumptions of our management, and on information currently available to us. Forward -looking statements include statements regarding our intent, belief or current expectations or that of our directors or executive officers.

Forward -looking statements also include information concerning our possible or assumed future results of operations, as well as statements preceded by, followed by, or that include the words "believes," "may," "will," "continues," "expects," "anticipates," "intends," "plans," "estimates" or similar expressions. Forward -looking statements are not guarantees of performance. They involve risks, uncertainties and assumptions because they relate to future events and therefore depend on circumstances that may or may not occur. Our future results and shareholder values may differ materially from those expressed in or suggested by these forward -looking statements. Many of the factors that will determine these results and values are beyond our ability to control or predict.

The Company continued to evaluate the potential separation of the Gafisa and Tenda business units during the quarter.

As previously reported, a separation would be the next step in a comprehensive plan initiated by management to enhance value creation for both business units and its shareholders.

Since the beginning of the year the Company has been moving toward the effective separation of Gafisa and Tenda's administrative structures, so that they can operate independently in the future.

In recent months the actual division of various departments such as Services, Personnel and Management Center, Legal, among others has been implemented. The Company is currently working on the completion of this process, defining guidelines for the separation

At the same time, the Company continues to evaluate separation alternatives for the two companies. Among the initiatives and studies being undertaken, we highlight:

- Review of relationship with agents potentially linked to the separation process in order to align contractual, operational and financial issues related to the possible separation;
- Amendment with the Brazilian Securities and Exchange Commission (CVM), related to the category of Tenda as an issuer. Since late July 2014, Tenda became registered under Category A;
- Continuity of studies the most appropriate capital structure for the business cycle of each company, as well as liquidity, and fiscal, tax, legal, corporate aspects, among others.

The Company will keep its shareholders and the market informed as to the progress and development of this process.
