ANNUAL REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934  
For the fiscal year ended December 31, 2013  
OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

Commission file number 001-32514

DIAMONDROCK HOSPITALITY COMPANY

(Exact Name of Registrant as Specified in Its Charter)

Maryland

20-1180098

(State of Incorporation)

(I.R.S. Employer Identification No.)

3 Bethesda Metro Center, Suite 1500, Bethesda,

20814

Maryland

(Zip Code)

(Address of Principal Executive Offices)

(240) 744-1150

(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class

Name of Exchange on Which Registered

Common Stock, \$.01 par value

New York Stock Exchange

Securities registered pursuant to Section 12(g) of the Act:

None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act.

Yes  No

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act.  Yes  No

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.  Yes  No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).  Yes  No

Table of Contents

Indicate by check mark if disclosure of delinquent filers pursuant to Item 405 of Regulation S-K is not contained herein, and will not be contained, to the best of registrant's knowledge, in definitive proxy or information statements incorporated by reference in Part III of this Form 10-K or any amendment to this Form 10-K.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer  Accelerated filer  Non-accelerated filer  Smaller reporting company   
(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).   
Yes  No

The aggregate market value of the common equity held by non-affiliates of the Registrant (assuming for these purposes, but without conceding, that all executive officers and Directors are "affiliates" of the Registrant) as of June 30, 2013, the last business day of the Registrant's most recently completed second fiscal quarter, was \$1.8 billion (based on the closing sale price of the Registrant's Common Stock on that date as reported on the New York Stock Exchange).

The registrant had 195,470,791 shares of its \$0.01 par value common stock outstanding as of February 25, 2014.

Documents Incorporated by Reference

Portions of the registrant's Proxy Statement for its 2014 Annual Meeting of Stockholders, to be filed with the Securities and Exchange Commission not later than 120 days after December 31, 2013, are incorporated by reference in Part III herein.

SPECIAL NOTE ABOUT FORWARD-LOOKING STATEMENTS

Certain statements in this Annual Report on Form 10-K, other than purely historical information, including estimates, projections, statements relating to our business plans, objectives and expected operating results, and the assumptions upon which those statements are based, are “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements generally are identified by the words “believes,” “project,” “expects,” “anticipates,” “estimates,” “intends,” “strategy,” “plan,” “may,” “will,” “would,” “will be,” “will continue,” “will likely result,” “endeavor,” “mission,” “goal,” and similar expressions. Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties which may cause actual results to differ materially from the forward-looking statements. A discussion of these and other risks and uncertainties that could cause actual results and events to differ materially from such forward-looking statements is included in Item 1A “Risk Factors” and Item 7 “Management’s Discussion and Analysis of Financial Condition and Results of Operations” of this Annual Report on Form 10-K. Except as required by law, we undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise.

References in this Annual Report on Form 10-K to “we,” “our,” “us” and “the Company” refer to DiamondRock Hospitality Company, including as the context requires, DiamondRock Hospitality Limited Partnership, as well as our other direct and indirect subsidiaries.

PART I

Item 1. Business

Overview

DiamondRock Hospitality Company is a lodging-focused Maryland corporation operating as a real estate investment trust (REIT) for federal income tax purposes. As of December 31, 2013, we owned a portfolio of 26 premium hotels and resorts that contain 11,121 guest rooms. We also hold the senior note on a mortgage loan secured by an additional hotel and have the right to acquire, upon completion, a hotel under development. As an owner, rather than an operator, of lodging properties, we receive all of the operating profits or losses generated by our hotels after the payment of fees due to hotel managers, which are calculated based on the revenues and profitability of each hotel.

Our vision is to be the premier allocator of capital in the lodging industry. Our mission is to deliver above average long-term stockholder returns through a combination of dividends and capital appreciation. Our strategy is to utilize disciplined capital allocation and focus on the acquisition, ownership and innovative asset management of high quality lodging properties in North American markets with superior growth prospects and high barriers to entry.

We differentiate ourselves from our competitors by adhering to three basic principles in executing our strategy:

- owning high-quality urban and destination resort hotels;
- implementing innovative asset management strategies; and
- maintaining a conservative capital structure.

Our portfolio is concentrated in key gateway cities and destination resort locations. Each of our hotels is managed by a third party and most are operated under a brand owned by one of the leading global lodging brand companies (Marriott International, Inc. (“Marriott”), Starwood Hotels & Resorts Worldwide, Inc. (“Starwood”) and Hilton Worldwide (“Hilton”).

We critically evaluate each of our hotels to ensure that we own a portfolio of hotels that conforms to our vision, supports our mission and corresponds with our strategy. On a regular basis, we analyze our portfolio to identify opportunities to invest capital in certain projects or market non-core assets for sale in order to increase our portfolio quality.

We are committed to a conservative capital structure with prudent leverage. We regularly assess the availability and affordability of capital in order to maximize the stockholder value and minimize enterprise risk. In addition, we are committed to following sound corporate governance practices and being open and transparent in our communications with stockholders.

## Table of Contents

### High Quality Urban and Destination Resort Hotels

As of December 31, 2013, we owned 26 premium hotels and resorts throughout North America and the U.S. Virgin Islands. Our hotels and resorts are primarily categorized as upper upscale as defined by Smith Travel Research and are generally located in high barrier-to-entry markets with multiple demand generators.

Our properties are concentrated in key gateway cities (primarily New York City, Chicago, Boston and Los Angeles) and in destination resort locations (such as the U.S. Virgin Islands and Vail, Colorado). We consider lodging properties located in gateway cities and resort destinations to be the most capable of creating dynamic cash flow growth and achieving superior long-term capital appreciation. We also believe that these locations are better insulated from new supply due to relatively high barriers-to-entry, including expensive construction costs and limited development sites.

We have been executing on our strategy to elevate and enhance our hotel portfolio by actively recycling capital early in the recovery phase of this lodging cycle. Our efforts have led to the repositioning of our portfolio through the acquisition of \$1.3 billion of urban hotels that align with our strategic goals while disposing of more than \$375 million in slower-growth, non-core hotels. These acquisitions increased our urban exposure with additional hotels in cities such as New York, San Francisco, Boston, Denver, Washington D.C. and San Diego. As a result, over 85% of our portfolio EBITDA is currently derived from core urban and resort hotels. Our capital recycling program over the past three years also achieved several other important strategic portfolio goals that include improving our portfolio's geographic and brand diversity and achieving a mix of 50 percent brand-managed and 50 percent third-party managed hotels in our portfolio.

Moreover, the primary focus of our acquisitions over the past three years was on hotels that we believe presented unique value-add opportunities, such as repositioning through a change in brand or comprehensive renovation or changing the third-party hotel manager to a more efficient operator. For example, we executed a \$140 million capital expenditure program in 2013, which included major capital investments at the Lexington Hotel New York, Courtyard Manhattan/Fifth Avenue, Courtyard Manhattan/Midtown East, Westin Washington D.C. City Center, Westin San Diego, Hilton Boston Downtown, and Hilton Minneapolis.

We leverage some of the leading global hotel brands with all but two of our hotels flagged under a brand owned by Marriott, Hilton or Starwood. We believe that premier global hotel brands create significant value as a result of each brand's ability to produce incremental revenue through their strong reservation and rewards systems and sales organizations with the result being that branded hotels are able to generate greater profits than similar unbranded hotels. We are primarily interested in owning hotels that are currently operated under, or can be converted to, a globally-recognized brand. We would also consider opportunities to acquire other non-branded hotels located in premier or unique markets where we believe that the returns on such a hotel may be higher than if the hotel were operated under a globally-recognized brand.

### Innovative Asset Management

We believe we can create significant value in our portfolio through innovative asset management strategies such as rebranding, renovating and repositioning our hotels. We engage in a process of regular evaluations of the hotels in our portfolio in order to determine if there are opportunities to employ these value-add strategies.

We realized numerous asset management achievements in 2013, including: the execution of a \$140 million capital expenditure program; the implementation of asset management strategies in order to improve hotel revenues and

contain costs; and proactively managing the third-party managers at each of our properties to maximize hotel operating performance. Our asset management team is focused on improving hotel profit margins through revenue management strategies and cost control programs. Our asset management team also focuses on identifying new and potential value creation opportunities across our portfolio, including adding new resort fees, creating incremental guest rooms, leasing out restaurants to more profitable third party operators, converting unused space to revenue-generating meeting space, and implementing programs to reduce energy usage.

Our senior management team has established a broad network of hotel industry contacts and relationships, including relationships with hotel owners, financiers, operators, project managers and contractors and other key industry participants. We use our broad network of hotel industry contacts and relationships to maximize the value of our hotels. Under the federal income tax rules governing REITs, we are required to engage a hotel manager that is an eligible independent contractor to manage each of our hotels pursuant to a management agreement with one of our subsidiaries. We strive to negotiate management agreements that give us the right to exert influence over the management of our properties, annual budgets and all capital expenditures (all, to the extent permitted under the REIT rules), and then to use those rights to continually monitor and improve the performance of our properties. We cooperatively partner with our hotel managers in an attempt to increase operating results and long-term asset values at our hotels. In addition to working directly with the personnel at our hotels, our senior management team also has long-st

Table of Contents

anding professional relationships with our hotel managers' senior executives, and we work directly with these senior executives to improve the performance of the hotels in our portfolio that they manage.

Conservative Capital Structure

We believe that a conservative capital structure maximizes investment capacity while reducing enterprise risk. We currently employ a low-risk and straight-forward capital structure with no corporate level debt, preferred equity, or convertible bonds. Moreover, we have significant balance sheet flexibility with no outstanding borrowings under our \$200 million senior unsecured credit facility as of December 31, 2013, as well as approximately half of our hotels being unencumbered by mortgage debt. We believe it is imprudent to increase the inherent risk of highly cyclical lodging fundamentals through the use of a highly leveraged capital structure.

We believe our strategically designed capital structure is a value creation tool that can be used over the entire lodging cycle. Specifically, we believe lower leverage benefits us in the following ways:

- provides capacity to fund attractive early-cycle acquisitions;
- provides optionality to fund acquisitions with the most efficient funding source;
- enhances our ability to maintain a sustainable dividend;
- enables us to opportunistically repurchase shares during periods of stock price dislocation; and
- provides capacity to fund late-cycle capital needs.

Our current debt outstanding consists primarily of fixed interest rate mortgage debt. We have no outstanding borrowings under our senior unsecured credit facility, which bears interest at what we believe is an attractive floating rate. We prefer that a significant portion of our portfolio remains unencumbered by debt in order to provide maximum balance sheet flexibility. In addition, to the extent that we incur additional debt, our preference is non-recourse secured mortgage debt. We expect that our strategy will enable us to maintain a balance sheet with an appropriate amount of debt throughout all phases of the lodging cycle.

We have mortgage debt maturities that start in late 2014, with significant maturities in 2015 (approximately \$230 million) and 2016 (approximately \$305 million). We anticipate addressing these maturities, as well as other capital needs, with a combination of the following:

- refinancing proceeds on existing encumbered hotels;
- borrowing capacity on our existing unencumbered hotels;
- proceeds from the disposition of non-core hotels;
- capacity under our \$200 million senior unsecured credit facility; and
- annual cash flow from operations.

We prefer a relatively simple but efficient capital structure. We have not invested in joint ventures and have not issued any operating partnership units or preferred stock. We structure our hotel acquisitions to be straightforward and fit within our conservative capital structure; however, we will consider a more complex transaction if we believe that the projected returns to our stockholders will significantly exceed the returns that would otherwise be available.

#### Our Company

We commenced operations in July 2004 and became a public reporting company in May 2005. We have been successful in acquiring, financing and asset managing our hotels, and complying with the complex public company accounting and legal requirements with 22 employees. Since our formation, we have sought to be forthright and transparent in our communications with investors, to actively monitor our corporate overhead and to adopt sound corporate governance practices. We believe that we have among the most transparent disclosures in the industry and we consistently go beyond the minimum legal requirements and industry practice; for example, we provide quarterly operating performance data on each of our hotels, enabling our investors to effectively evaluate our successes and challenges. Finally, we consider our corporate governance practices to be sound in that we

## Table of Contents

have a majority-independent Board of Directors elected annually by our stockholders and our officers and directors are subject to stock ownership policies designed to insure that these persons own a meaningful amount of stock in the Company.

As of December 31, 2013, we owned 26 hotels that contain 11,121 hotel rooms, located in 19 different markets in North America and the U.S. Virgin Islands. We also own a senior mortgage loan secured by a 443-room hotel located in Chicago, Illinois and have the right to acquire, upon completion, which is expected during 2014, a 282-room hotel under development in New York City.

### Our Corporate Structure

We conduct our business through a traditional umbrella partnership REIT, or UPREIT, in which our hotels are owned by subsidiaries of our operating partnership, DiamondRock Hospitality Limited Partnership. We are the sole general partner of our operating partnership and currently own, either directly or indirectly, all of the limited partnership units of our operating partnership. We have the ability to issue limited partnership units to third parties in connection with acquisitions of hotel properties. In order for the income from our hotel investments to constitute “rents from real property” for purposes of the gross income tests required for REIT qualification, we must lease each of our hotels to a wholly-owned subsidiary of our taxable REIT subsidiary, or TRS (each, a TRS lessee), or to an unrelated third party. We currently lease all of our domestic hotels to TRS lessees. In turn, our TRS lessees must engage a third-party management company to manage the hotels. However, we may structure our properties that are not subject to U.S. federal income tax differently from the structures we use for our U.S. properties. For example, Frenchman's Reef is held by a U.S. Virgin Islands corporation, which we have elected to be a TRS.

The following chart shows our corporate structure as of the date of this report:

### Environmental Matters

In connection with the ownership of hotels, the Company is subject to various federal, state and local environmental laws and regulations relating to environmental protection. Under these laws, a current or previous owner or operator (including tenants) of real estate may be liable for the costs or removal or remediation of certain hazardous or toxic substances at, on, under or in such property. These laws typically impose liability without regard to fault or whether or not the owner or operator knew of or caused the presence of the contamination and the liability under these laws may be joint and several. Because these laws also impose liability on the persons who owned the property at the time it became contaminated, it is possible we could incur cleanup costs or

## Table of Contents

other environmental liabilities even after we sell properties. The presence of contamination, or the failure to properly remediate contamination, on a property may adversely affect the ability of the owner or operator to sell that property or to borrow funds using such property as collateral. Under the environmental laws, courts and government agencies also have the authority to require that a person who sent waste to a waste disposal facility, such as a landfill or incinerator, pay for the cleanup of that facility if it becomes contaminated and threatens human health or the environment.

Our hotels are subject to various federal, state, and local environmental, health and safety laws and regulations that address a wide variety of issues, including, but not limited to, storage tanks, air emissions from emergency generators, storm water and wastewater discharges, asbestos, lead-based paint, mold and mildew and waste management. Our hotels incur costs to comply with these laws and regulations and could be subject to fines and penalties for non-compliance.

Furthermore, various court decisions have established that third parties may recover damages for injury caused by property contamination. For instance, a person exposed to asbestos while staying in a hotel may seek to recover damages if he or she suffers injury from the asbestos. Lastly, some of these environmental laws restrict the use of a property or place conditions on various activities. An example would be laws that require a business using chemicals (such as swimming pool chemicals at a hotel property) to manage them carefully and to notify local officials that the chemicals are being used.

Prior to closing any property acquisition, we obtain Phase I environmental assessments in order to attempt to identify potential environmental concerns at the properties. These assessments are carried out in accordance with an appropriate level of due diligence and generally include a physical site inspection, a review of relevant federal, state and local environmental and health agency database records, one or more interviews with appropriate site-related personnel, review of the property's chain of title and review of historic aerial photographs and other information regarding past uses of the property. These assessments generally do not include soil sampling, subsurface investigations, comprehensive asbestos surveys or mold investigations. We cannot be assured that these assessments will discover every environmental condition that may be present on a property. Material environmental condition, liabilities or compliance concerns may have arisen after the review was completed or may arise in the future; and future laws, ordinances or regulations may impose material additional environmental liability.

We believe that our hotels are in compliance, in all material respects, with all federal, state and local environmental ordinances and regulations regarding hazardous or toxic substances and other environmental matters, the violation of which could have a material adverse effect on us. We have not received written notice from any governmental authority of any material noncompliance, liability or claim relating to hazardous or toxic substances or other environmental matters in connection with any of our present properties.

During 2012, we commissioned the preparation of the Company's first bi-annual Environmental, Social and Governance Report (the "Sustainability Report") to comprehensively analyze sustainability performance indicators (including energy, water, waste, and greenhouse gas emissions) captured during 2011. The Sustainability Report highlights the Company's dedication to sustainability initiatives and stockholder returns through the implementation of programs designed to reduce energy consumption and increase profitability at our hotels. A copy of the Sustainability Report can be found on the Company's website at [www.drhc.com](http://www.drhc.com) in the Investor Relations section. We anticipate issuing our next Sustainability Report in 2014. The information included in, referenced to, or otherwise accessible through the Sustainability Report or our website, is not incorporated by reference in, or considered to be a part of, this report or any document unless expressly incorporated by reference therein.

## Competition

The hotel industry is highly competitive and our hotels are subject to competition from other hotels for guests. Competition is based on a number of factors, including convenience of location, brand affiliation, price, range of services, guest amenities, and quality of customer service. Competition is specific to the individual markets in which our properties are located and will include competition from existing and new hotels operated under brands in the full-service, select-service and extended-stay segments. We believe that properties flagged with a Marriott, Starwood or Hilton brand will enjoy the competitive advantages associated with their operations under such brand. These global brands' reservation systems and national advertising, marketing and promotional services combined with the strong management expertise they provide enable our properties to perform favorably in terms of both occupancy and room rates relative to other brands and non-branded hotels. The guest loyalty programs operated by these global brands generate repeat guest business that might otherwise go to competing hotels. Increased competition may have a material adverse effect on occupancy, Average Daily Rate (or ADR) and Revenue per Available Room (or RevPAR), or may require us to make capital improvements that we otherwise would not undertake, which may result in decreases in the profitability of our hotels.

We face competition for the acquisition of hotels from institutional pension funds, private equity funds, REITs, hotel companies and others who are engaged in hotel acquisitions and investments. Some of these competitors have substantially greater

## Table of Contents

financial and operational resources than we have and may have greater knowledge of the markets in which we seek to invest. This competition may reduce the number of suitable investment opportunities offered to us and increase the cost of acquiring our targeted hotel investments.

### Employees

As of December 31, 2013, we employed 22 full-time employees. We believe that our relations with our employees are good. None of our employees is a member of any union; however, the employees of our hotel managers at the Lexington Hotel New York, Courtyard Manhattan/Fifth Avenue, Frenchman's Reef & Morning Star Marriott Beach Resort, Westin Boston Waterfront Hotel, Hilton Boston Downtown and Hilton Minneapolis are currently represented by labor unions and are subject to collective bargaining agreements.

### ADA Regulation

Our properties must comply with Title III of the Americans with Disabilities Act of 1990, or ADA, to the extent that such properties are "public accommodations" as defined by the ADA. The ADA may require removal of architectural barriers to access by individuals with disabilities in areas of our properties. We believe that our properties are in substantial compliance with the ADA. However, noncompliance with the ADA could result in payment of civil penalties, damages, and attorneys' fees and costs. The obligation to comply with the ADA is an ongoing one, and we will continue to assess our properties and to make alterations as appropriate in this regard.

### Insurance

We carry comprehensive liability, fire, extended coverage, earthquake, business interruption and rental loss insurance covering all of the properties in our portfolio under a blanket policy. In addition, we carry earthquake and terrorism insurance on our properties in an amount and with deductibles which we believe are commercially reasonable. We do not carry insurance for generally uninsured losses such as loss from riots, war or acts of God. Certain of the properties in our portfolio are located in areas known to be seismically active or subject to hurricanes and we believe we have appropriate insurance for those risks, although they are subject to higher deductibles than ordinary property insurance.

Most of our hotel management agreements and mortgage agreements provide that we are responsible for obtaining and maintaining property insurance, business interruption insurance, flood insurance, earthquake insurance (if the hotel is located in an "earthquake prone zone" as determined by the U.S. Geological Survey) and other customary types of insurance related to hotels and the hotel manager is responsible for obtaining general liability insurance, workers' compensation and employer's liability insurance.

### Available Information

We maintain a website at the following address: [www.drhc.com](http://www.drhc.com). We make our annual reports on Form 10-K, quarterly reports on Form 10-Q, current reports on Form 8-K and amendments to those reports filed or furnished pursuant to Section 13(a) or 15(d) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), available on our website free of charge as soon as reasonably practicable after such reports and amendments are electronically filed with, or furnished to, the Securities and Exchange Commission (the "SEC"). Such reports are also available by accessing the EDGAR database on the SEC's website at [www.sec.gov](http://www.sec.gov).

Our website is also a key source of important information about us. We post to the Investor Relations section of our website important information about our business, our operating results and our financial condition and prospects,

including, for example, information about material acquisitions and dispositions, our earnings releases and certain supplemental financial information related or complimentary thereto. The website also has a Corporate Governance page that includes, among other things, copies of our charter, our bylaws, our Code of Business Conduct and Ethics and the charters for each standing committee of our Board of Directors: currently, the Audit Committee, the Compensation Committee and the Nominating and Corporate Governance Committee. We intend to disclose on our website any amendment to, or waiver of, any provisions of our Code of Business Conduct and Ethics that apply to any of our directors, executive officers or senior financial officers that would otherwise be required to be disclosed under the rules of the SEC or New York Stock Exchange (the "NYSE"). Copies of our charter, our bylaws, our Code of Business Conduct and Ethics and the Company's SEC reports are also available in print to stockholders upon request addressed to Investor Relations, DiamondRock Hospitality Company, 3 Bethesda Metro Center, Suite 1500, Bethesda, Maryland 20814 or through the "Information Request" section on the Investor Relations page of our website.

The information included in, referenced to, or otherwise accessible through our website, is not incorporated by reference in, or considered to be a part of, this report or any document unless expressly incorporated by reference therein.

Table of Contents

DiamondRock Hospitality Company is traded on the NYSE, under the symbol “DRH”.

Item 1A. Risk Factors

The following risk factors and other information included in this Annual Report on Form 10-K should be carefully considered. The risks and uncertainties described below are not the only ones that we face. Additional risks and uncertainties not presently known to us or that we may currently deem immaterial also may impair our business operations. If any of the following risks occur, our business, financial condition, operating results and cash flows could be adversely affected.

Risks Related to Our Business and Operations

Our business model, especially our concentration in premium full-service hotels, can be highly volatile.

We own hotels, a very different asset class from many other REITs. A typical office REIT, for example, has long-term leases with third party tenants, which provide a relatively stable long-term stream of revenue. Our TRS, on the other hand, does not enter into a lease with a hotel manager. Instead, our TRS engages the hotel manager pursuant to a management agreement and pays the manager a fee for managing the hotel. The TRS receives all the operating profit or losses at the hotel. Moreover, virtually all hotel guests stay at the hotel for only a few nights, so the rate and occupancy at each of our hotels changes every day. As a result, our earnings may be highly volatile.

In addition to fluctuations related to our business model, our hotels are and will continue to be subject to various long-term operating risks common to the hotel industry, many of which are beyond our control, including:

- dependence on business and commercial travelers and tourism, both of which vary with consumer and business confidence in the strength of the economy;
- competition from other hotels located in the markets in which we own properties;
- an over-supply or over-building of hotels in the markets in which we own properties which could adversely affect occupancy rates, revenues and profits at our hotels;
- increases in energy and transportation costs and other expenses affecting travel, which may affect travel patterns and reduce the number of business and commercial travelers and tourists;
- increases in operating costs due to inflation and other factors that may not be offset by increased room rates; and
- changes in governmental laws and regulations, fiscal policies and zoning ordinances and the related costs of compliance.

In addition, our hotels are mostly in the premium full-service segment of the hotel business, which, historically, tends to have the strongest operating results in a growing economy and the weakest results in a contracting or slow growth economy when many travelers might curtail travel or choose lower cost hotels. In periods of weak demand, profitability is negatively affected by the relatively high fixed costs of operating premium full-service hotels as compared to other classes of hotels.

The occurrence of any of the foregoing factors could have a material adverse effect on our business, financial condition, results of operations and our ability to make distributions to our stockholders.

Our portfolio is highly concentrated in a handful of core markets.

During 2013, approximately 64% of our income from continuing operations were derived from our hotels in five major cities (New York City, Boston, Chicago, Denver, and Los Angeles) and three destination resorts (Frenchman's Reef, Vail Marriott, and the Lodge at Sonoma). As such, the operations of these hotels - particularly the operations of our New York City properties - will have a material impact on our overall results of operations. This concentration in our portfolio exposes our business to economic conditions unique to these markets and may result in increased volatility in our results of operations. If lodging fundamentals in any of these cities are poor compared to the United States as a whole, the popularity of any of these destination resorts decreases, or a manmade or natural disaster or casualty or other damage occurs in any of these areas, our overall results of operations may be adversely affected.

Some of our hotels rely heavily on group contract business, and the loss of such business could harm our operating results.

-10-

---

Table of Contents

Certain of our hotels rely heavily on group contract business and room nights generated by large corporate clients. The existence or non-existence of such business can significantly impact the results of operations of our hotels. Group contract business fluctuates from year-to-year and across markets. The scheduling and impact of events and activities that attract this business to hotels are not always easy to predict. As a result, the operating results for certain hotels may fluctuate as a result of these factors, possibly in adverse ways, and these fluctuations can affect our overall operating results.

Economic conditions may adversely affect the lodging industry.

Our entire business is related to the lodging industry. The performance of the lodging industry has historically been linked to key macroeconomic indicators, such as U.S. gross domestic product, or GDP, growth, employment, corporate earnings and investment, and travel demand. A substantial part of our business strategy is based on the belief that the lodging markets in which we own properties will continue to experience improving economic fundamentals in the future. However, in the event conditions in the industry do not continue to improve as we expect, or deteriorate, or there is an extended period of economic weakness, our occupancy rates, revenues and profitability could be adversely affected. Furthermore, other macroeconomic factors may have a negative effect on the lodging industry and adversely impact our revenues and profitability.

Our hotels are subject to significant competition.

Currently, the markets where our hotels are located are very competitive. However, a material increase in the supply of new hotel rooms to a market can quickly destabilize that market and existing hotels can experience rapidly decreasing RevPAR and profitability. If such over-building occurs in one or more of our major markets, we may experience a material adverse effect on our business, financial condition, results of operations and our ability to make distributions to our stockholders.

In particular, over 9,000 rooms are expected to be added to the Manhattan hotel market by the end of 2015, increasing the existing supply by over 10%. Although much of the anticipated increase in supply is not expected to be located in the specific sub-markets of Manhattan where we currently own hotels, the operating performance of our Manhattan hotels may be impacted by the addition of this new supply.

Additionally, over 1,500 new hotel rooms are anticipated to open in downtown Chicago before the end of 2015, representing a supply increase of approximately 4% in the downtown Chicago market. An increase in the number of rooms available in the downtown Chicago market could negatively impact the operating performance of our downtown Chicago hotels. In addition, Marriott has signed an agreement to manage the 1,200-room Chicago Marriott Marquis, to be built next to the McCormick Place Convention Center. The hotel, which is expected to open in 2017, could have a material impact on the operations of our Chicago Marriott.

Investments in hotels are illiquid and we may not be able to respond in a timely fashion to adverse changes in the performance of our properties.

Because real estate investments are relatively illiquid, our ability to promptly sell one or more hotel properties or investments in our portfolio in response to changing economic, financial and investment conditions may be limited. The real estate market is affected by many factors that are beyond our control, including:

- adverse changes in international, national, regional and local economic and market conditions;

•changes in supply of competitive hotels;

•changes in interest rates and in the availability, cost and terms of debt financing;

•changes in governmental laws and regulations, fiscal policies and zoning ordinances and the related costs of compliance with laws and regulations, fiscal policies and ordinances;

•the ongoing need for capital improvements, particularly in older structures;

•changes in operating expenses; and

civil unrest, acts of God, including earthquakes, floods, hurricanes and other natural disasters and acts of war or terrorism, including the consequences of terrorist acts such as those that occurred on September 11, 2001, which may result in uninsured losses.

---

Table of Contents

It may be in the best interest of our stockholders to sell one or more of our hotels in the future. We cannot predict whether we will be able to sell any hotel property or investment at an acceptable price or otherwise on reasonable terms and conditions. We also cannot predict the length of time that will be necessary to find a willing purchaser and to close the sale of a hotel property or loan.

These facts and any others that would impede our ability to respond to adverse changes in the performance of our hotel properties could have a material adverse effect on our operating results and financial condition, as well as our ability to make distributions to our stockholders.

We are subject to risks associated with our ongoing need for renovations and capital improvements as well as financing for such expenditures.

In order to remain competitive, our hotels have an ongoing need for renovations and other capital improvements, including replacements, from time to time, of furniture, fixtures and equipment. These capital improvements may give rise to the following risks:

- construction cost overruns and delays;

- a possible shortage of available cash to fund capital improvements and the related possibility that financing for these capital improvements may not be available to us on affordable terms;

- the renovation investment failing to produce the returns on investment that we expect;

- disruptions in the operations of the hotel as well as in demand for the hotel while capital improvements are underway; and

- disputes with franchisors/hotel managers regarding compliance with relevant management/franchise agreements.

The costs of these capital improvements could have a material adverse effect on our business, financial condition, results of operations and our ability to make distributions to our stockholders.

In addition, we may not be able to fund capital improvements or acquisitions solely from cash provided from our operating activities because we generally must distribute at least 90% of our REIT taxable income, determined without regard to the dividends paid deduction and excluding net capital gains, each year to maintain our REIT tax status. As a result, our ability to fund capital expenditures, or investments through retained earnings, is very limited. Consequently, we rely upon the availability of debt or equity capital to fund our investments and capital improvements. These sources of funds may not be available on reasonable terms and conditions.

There are several unique risks associated with the ownership of Frenchman's Reef.

Frenchman's Reef is located on the side of a cliff facing the ocean in the United States Virgin Islands, which is in the so-called "hurricane belt" in the Caribbean. It was partially destroyed by a hurricane in the mid-1990's and since then has been damaged by subsequent hurricanes, including Hurricane Earl in 2010. While we maintain insurance against wind damage in an amount we believe is customarily obtained for or by hotel owners, Frenchman's Reef has a \$6.4 million deductible if it is damaged due to a named windstorm event; therefore, we are self-insured for losses up to \$6.4 million caused by a named windstorm event. While we cannot predict whether there will be another hurricane

that will impact this hotel, if there were, then it could have a material adverse affect on the operations of this hotel. Further, in the event of a substantial loss, our insurance coverage may not be sufficient to cover the full current market value or replacement cost of the hotel. Should a loss in excess of insured limits occur, we could lose all or a portion of the capital we have invested in Frenchman's Reef, as well as the anticipated future revenue and profits of this hotel. In that event, we might nevertheless remain obligated for mortgage debt related to Frenchman's Reef. Inflation, changes in building codes and ordinances, environmental considerations and other factors might also keep us from using insurance proceeds to replace or renovate a hotel after it has been damaged or destroyed. Under those circumstances, the insurance proceeds we receive might be inadequate to restore our economic position with regard to the damaged or destroyed property.

Part of a renovation and repositioning program completed in 2011 included a redesign to the mechanical plant to allow the hotel to generate its own electricity in order to significantly reduce both the kilowatt hour consumption and the cost per kilowatt hour; however, the hotel still depends on oil to generate electricity. If the price of oil were to increase, the cost to generate electricity would likely increase dramatically and this would have a significant impact on the results of operation at the hotel. Also, if the

Table of Contents

hotel's self-generation system fails, the hotel would be forced to utilize service from local utility providers which are prone to disruptions, including power outages from time to time. Such disruptions could adversely affect occupancy rates, revenues and profits at the hotel.

Frenchman's Reef benefits from a tax holiday, which permits us to pay income taxes at 19 percent of the statutory tax rate of 37.4 percent in the U.S. Virgin Islands, as well as reduced rates for both property and gross receipts taxes. The tax holiday expires in February 2015 and there can be no assurance that such tax exemptions or similar exemptions will be secured at the expiration of the tax holiday.

In the event of natural disasters, terrorist attacks, significant military actions, outbreaks of contagious diseases or other events for which we may not have adequate insurance, our operations may suffer.

Five of our hotels (the Los Angeles Airport Marriott, The Lodge at Sonoma, a Renaissance Resort & Spa, the Westin San Diego, the Hotel Rex, and the Renaissance Charleston Historic District) are located in areas that are seismically active and, as noted above, Frenchman's Reef is located in an area of the Caribbean that has, and will continue, to experience many hurricanes. Eleven of our hotels are located in metropolitan markets that have been, or may in the future be, targets of actual or threatened terrorist attacks, including New York City, Chicago, Boston and Los Angeles. These hotels are material to our financial results, having constituted approximately 68% of our total revenues in 2013. Additionally, even in the absence of direct physical damage to our hotels, the occurrence of any natural disasters, terrorist attacks, significant military actions, outbreaks of diseases, such as H1N1, SARS, the avian bird flu or Legionnaires disease, or other casualty events, will likely have a material adverse effect on business and commercial travelers and tourists, the economy generally and the hotel and tourism industries in particular. While we cannot predict the impact of the occurrence of any of these events, such impact could result in a material adverse effect on our business, financial condition, results of operations and our ability to make distributions to our stockholders.

We have acquired and intend to maintain comprehensive insurance on each of our hotels, including liability, terrorism, fire and extended coverage, of the type and amount we believe are customarily obtained for or by hotel owners. We cannot assure you that such coverage will continue to be available at reasonable rates or with reasonable deductibles. For example, Frenchman's Reef & Morning Star Marriott Beach Resort has a high deductible if it is damaged due to a named wind storm. Various types of catastrophic losses, like earthquakes, floods, losses from foreign terrorist activities, or losses from domestic terrorist activities may not be insurable or are generally not insured because of economic infeasibility, legal restrictions or the policies of insurers. Future lenders may require such insurance and our failure to obtain such insurance could constitute a default under loan agreements. Depending on our access to capital, liquidity and the value of the properties securing the affected loan in relation to the balance of the loan, a default could have a material adverse effect on our results of operations and ability to obtain future financing.

In the event of a substantial loss, our insurance coverage may not be sufficient to cover the full current market value or replacement cost of our lost investment. Should an uninsured loss or a loss in excess of insured limits occur, we could lose all or a portion of the capital we have invested in a hotel, as well as the anticipated future revenue from that particular hotel. In that event, we might nevertheless remain obligated for any mortgage debt or other financial obligations secured by or related to the property. Inflation, changes in building codes and ordinances, environmental considerations and other factors might also keep us from using insurance proceeds to replace or renovate a hotel after it has been damaged or destroyed. Under those circumstances, the insurance proceeds we receive might be inadequate to restore our economic position with regard to the damaged or destroyed property.

With or without insurance, damage to any of our hotels, or to the hotel industry generally, due to fire, hurricane, earthquake, terrorism, outbreaks such as H1N1, SARS, the avian bird flu or Legionnaires disease, or other man-made

or natural disasters or casualty events could materially and adversely affect our business, financial condition, results of operations and our ability to make distributions to our stockholders.

We face risks associated with investments in mortgage loans.

Our investment in a senior loan secured by the Allerton Hotel located in Chicago, Illinois, and any other similar investment in mortgage loans that we may undertake in the future, may negatively affect our financial condition if any such loans become non-performing loans. Further, if we were to exercise our rights on any such non-performing loans by commencing foreclosure proceedings, such process could be expensive and lengthy and could result in a bankruptcy filing. Foreclosure and/or bankruptcy could have a substantial negative effect on our anticipated return on a mortgage loan. Foreclosure may also create a negative public perception of the related mortgaged property, resulting in a diminution of its value.

We face risks associated with the development of a hotel by a third-party developer.

Table of Contents

We are party to a purchase and sale agreement to acquire, upon completion, a hotel property under development on West 42<sup>nd</sup> Street in Times Square, New York City. The hotel is expected to contain 282 guest rooms and be completed during the summer of 2014. We are exposed to the risk that the third-party developer will fail to substantially complete the development of the hotel in accordance with the contractual scope or that the developer defaults under another obligation set forth in the purchase and sale agreement with us. We are also exposed to the risk that the developer will default on an obligation to a lender, which may have a security interest in the property senior to us. Although we currently expect that we will have the funds available to purchase the hotel, there is a risk that at or prior to such time as our obligation to purchase the hotel comes due, we may not have sufficient funds to acquire the hotel from the seller, or debt or equity capital may not be available on reasonable terms and conditions or at all, in which case we would forfeit a substantial deposit. In any of these cases, we may lose the opportunity to acquire the hotel and may have no recourse to the developer or any other party.

Our results of operations are highly dependent on the management of our hotel properties by third-party hotel management companies.

In order to qualify as a REIT, we cannot operate our hotel properties or control the daily operations of our hotel properties. Our TRS lessees may not operate these hotel properties and, therefore, they must enter into third-party hotel management agreements with one or more eligible independent contractors. Thus, third-party hotel management companies that enter into management contracts with our TRS lessees control the daily operations of our hotel properties.

Under the terms of the hotel management agreements that we have entered into, or that we will enter into in the future, our ability to participate in operating decisions regarding our hotel properties is limited. We currently rely, and will continue to rely, on these hotel management companies to adequately operate our hotel properties under the terms of the hotel management agreements. We do not have the authority to require any hotel property to be operated in a particular manner or to govern any particular aspect of its operations (for instance, setting room rates and cost structures). Thus, even if we believe our hotel properties are being operated inefficiently or in a manner that does not result in satisfactory occupancy rates, ADRs and operating profits, we may not have sufficient rights under our hotel management agreements to enable us to force the hotel management company to change its method of operation. We can only seek redress if a hotel management company violates the terms of the applicable hotel management agreement with the TRS lessee, and then only to the extent of the remedies provided for under the terms of the hotel management agreement. Although several of our management agreements have relatively short terms, most of our current management agreements are non-terminable, subject to certain exceptions for cause or failure to achieve certain performance targets. In the event that we need to replace any of our hotel management companies pursuant to termination for cause or performance, we may experience significant disruptions at the affected properties, which may have a material adverse effect on our business, financial condition, results of operations and our ability to make distributions to our stockholders.

Several of our hotels are operated under franchise agreements and we are subject to the risks associated with the franchise brand and the costs associated with maintaining the franchise license.

Nine of our hotels operate under franchise agreements. The maintenance of the franchise licenses for branded hotel properties is subject to the franchisors' operating standards and other terms and conditions set forth in the applicable franchise agreement. Franchisors periodically inspect hotel properties to ensure that we and our lessees and management companies follow their standards. Failure by us, one of our taxable REIT subsidiary lessees or one of our third-party management companies to maintain these standards or other terms and conditions of the franchise agreement could result in us being in default and the franchise agreement being terminated. If a franchise agreement is

terminated for failure to comply with its terms, including the maintenance of brand standards, we may be liable to the franchisor for a termination payment, which could include liquidated damages. We also face the risk of termination of the franchise agreement if we do not make franchisor-required capital expenditures under the franchise agreements.

Our ownership of properties through ground leases exposes us to the risk that we may have difficulty financing such properties, be forced to sell such properties for a lower price or lose such properties upon breach or termination of the ground leases.

We hold a leasehold interest in the land underlying five of our hotels (Bethesda Marriott Suites, Courtyard Manhattan/Fifth Avenue, the Salt Lake City Marriott Downtown, the Westin Boston Waterfront Hotel, and the Hilton Minneapolis), the parking lot at another of our hotels (Renaissance Worthington) and the golf course at another of our hotels (Oak Brook Hills Resort). We may acquire additional hotels in the future subject to ground leases. In the past, from time to time, secured lenders have been unwilling to lend, or otherwise charged higher interest rates, for loans secured by a leasehold mortgage compared to loans secured by a fee simple mortgage. In addition, at any given time, investors may be disinterested in buying properties subject to a ground lease and may pay a lower price for such properties than for a comparable property in fee simple or they may not purchase such properties at any price whatsoever, so we may find that we will have a difficult time selling a property subject to a ground lease

Table of Contents

or may receive lower proceeds from a sale. Finally, as the lessee under our ground leases, we are exposed to the possibility of losing the hotel, or a portion of the hotel, upon termination, or an earlier breach by us, of the ground lease, which could result in a material adverse effect on our business, financial condition, results of operations and our ability to make distributions to our stockholders.

Due to restrictions in our hotel management agreements, franchise agreements, mortgage agreements and ground leases, we may not be able to sell our hotels at the highest possible price, or at all.

Our current hotel management agreements are long-term and contain certain restrictions on selling our hotels, which may affect the value of our hotels.

The hotel management agreements that we have entered into, and those we expect to enter into in the future, contain provisions restricting our ability to dispose of our hotels which, in turn, may have an adverse affect on the value of our hotels. Our hotel management agreements generally prohibit the sale of a hotel to:

- certain competitors of the manager;
- purchasers who are insufficiently capitalized; or
- purchasers who might jeopardize certain liquor or gaming licenses.

In addition, our current hotel management agreements contain initial terms ranging from five to forty years and certain agreements have renewal periods of five to forty-five years which are exercisable at the option of the property manager. Because our hotels would have to be sold subject to the applicable hotel management agreement, the term length of a hotel management agreement may deter some potential purchasers and could adversely impact the price realized from any such sale. To the extent we receive lower sale proceeds, we could experience a material adverse effect on our business, financial condition, results of operations and our ability to make distributions to stockholders.

Our mortgage agreements contain certain provisions that may limit our ability to sell our hotels.

In order to assign or transfer our rights and obligations under certain of our mortgage agreements, we generally must obtain the consent of the lender, pay a fee equal to a fixed percentage of the outstanding loan balance, and pay any costs incurred by the lender in connection with any such assignment or transfer.

These provisions of our mortgage agreements may limit our ability to sell our hotels which, in turn, could adversely impact the price realized from any such sale. To the extent we receive lower sale proceeds, we could experience a material adverse effect on our business, financial condition, results of operations and our ability to make distributions to stockholders.

Our ground leases contain certain provisions that may limit our ability to sell our hotels.

Our ground lease agreements with respect to Bethesda Marriott Suites, Salt Lake City Marriott Downtown, the Westin Boston Waterfront Hotel, and the Hilton Minneapolis require the consent of the lessor for assignment or transfer. These provisions of our ground leases may limit our ability to sell our hotels which, in turn, could adversely impact the price realized from any such sale. In addition, at any given time, investors may be disinterested in buying properties subject to a ground lease and may pay a lower price for such properties than for a comparable property in fee simple or they may not purchase such properties at any price. Accordingly, we may find it difficult to sell a

property subject to a ground lease or may receive lower proceeds from any such sale. To the extent we receive lower sale proceeds, we could experience a material adverse effect on our business, financial condition, results of operations and our ability to make distributions to stockholders.

The failure of tenants to make rent payments under our retail leases or to successfully negotiate with unions may adversely affect our results of operation.

On occasion, tenants at our hotel properties may fail to make rent payments as and when due. Generally, we hold security deposits in connection with each of the leases which may be applied in the event that the tenant under the lease fails or is unable to make payments; however, these security deposits do not provide us with cash flow to pay distributions or for other purposes. In the event that a tenant continually fails to make rent payments, the security deposits may be applied in full to the non-payment of rents and we face the risk of being able to recover only a portion of the rents due to us or being unable to recover any amounts whatsoever. In addition, employees of a number of our tenants are represented by labor unions. If unionized employees of our tenants were to engage in a strike, work stoppage or other slow-downs in the future, our tenants could experience a significant

## Table of Contents

disruption of their operations which could in turn disrupt business at our hotels and affect our results of operations. We also risk circumstances where our tenants fail to meet their obligations under their union contracts, which could result in increased liability to us.

We face competition for hotel acquisitions and investments and we may not be successful in identifying or completing hotel acquisitions and investments that meet our criteria, which may impede our growth.

One component of our long-term business strategy is expansion through hotel acquisitions and investments. However, we may not be successful in identifying or completing acquisitions or investments that are consistent with our strategy. We compete with institutional pension funds, private equity funds, REITs, hotel companies and others who are engaged in hotel acquisitions and investments. This competition for hotel investments may increase the price we pay for hotels and these competitors may succeed in acquiring those hotels that we seek to acquire. Furthermore, our potential acquisition targets may find our competitors to be more attractive suitors because they may have greater financial resources, may not be dependent on third-party financing or the capital markets, may be willing to pay more or may have a more compatible operating philosophy. In addition, the number of entities competing for suitable hotels may increase in the future, which would increase demand for these hotels and the prices we must pay to acquire them. If we pay higher prices for hotels, our returns on investment and profitability may be reduced. Also, future acquisitions of hotels, hotel companies or hotel investments may not yield the returns we expect, especially if we cannot obtain financing without paying higher borrowing costs, and may result in stockholder dilution.

We may fail to successfully integrate and operate newly acquired hotels.

Our ability to successfully integrate and operate newly acquired hotels is subject to the following risks:

- we may not possess the same level of familiarity with the dynamics and market conditions of any new markets that we may enter, which could result in us paying too much for hotels in new markets;

- market conditions may result in lower than expected occupancy and room rates;

- we may acquire hotels without any recourse, or with only limited recourse, for liabilities, whether known or unknown, such as clean-up of environmental contamination, claims by tenants, vendors or other persons against the former owners of the hotels and claims for indemnification by general partners, directors, officers and others indemnified by the former owners of the hotels;

- we may need to spend more than underwritten amounts to make necessary improvements or renovations to our newly acquired hotels; and

- we may be unable to quickly and efficiently integrate new acquisitions into our existing operations.

If we cannot operate acquired hotels to meet our goals or expectations, our business, financial condition, results of operations and ability to make distributions to our stockholders could be materially and adversely affected.

Actions by organized labor could have a material adverse effect on our business.

In 2013, we received “intent to organize” letters at two of our hotels from a labor union. It is probable that the third-party manager of at least one of these hotels and possible that the manager of another hotel will enter into collective bargaining agreements with the labor union. We also believe that unions are generally becoming more

aggressive about organizing workers at hotels in certain locations. Potential labor activities at these hotels could significantly increase the administrative, labor and legal expenses of the third-party management companies managing these companies and reduce the profits we receive from these hotels. If other hotels in our portfolio are organized, this could have a material adverse effect on our business, financial condition, results of operation and our ability to make distributions to our stockholders.

Our success depends on senior executive officers whose continued service is not guaranteed.

We depend on the efforts and expertise of our senior executive officers to manage our day-to-day operations and strategic business direction. The loss of any of their services could have a material adverse effect on our business, financial condition, results of operations and our ability to make distributions to our stockholders.

We and our hotel managers rely on information technology in our operations and any material failures, inadequacies, interruptions or security failures could harm our business.

-16-

---

## Table of Contents

We and our hotel managers rely on information technologies and systems, including the Internet, to access, store, transmit, deliver and manage information and processes. Although we and our hotel managers believe we have taken commercially reasonable steps to protect the security of these systems, there can be no assurance that such security measures will prevent failures, inadequacies or interruptions in system services, or that system security will not be breached through physical or electronic break-ins, computer viruses, and attacks by hackers. Disruptions in service, system shutdowns and security breaches in either the information technologies and systems of our hotel managers or our own information technologies and systems, including unauthorized disclosure of confidential information, could have a material adverse effect on our business operations and results, our financial and compliance reporting, and our reputation.

We may be adversely affected by increased use of business related technology which may reduce the need for business related travel.

The increased use of teleconference and video-conference technology by businesses could result in decreased business travel as companies increase the use of technologies that allow multiple parties from different locations to participate in meetings without traveling to a centralized meeting location. To the extent that such technologies play an increased role in day-to-day business and the necessity for business related travel decreases, hotel room demand may decrease and our financial condition, results of operations, the market price of our common stock and our ability to make distributions to our stockholders may be adversely affected.

From time to time we may be subject to litigation, which could have a material adverse effect on our financial condition, results of operations, cash flow and trading price of our common stock.

From time to time we may be subject to litigation. Some of these claims may result in defense costs, settlements, fines or judgments against us, some of which are not, or cannot be, covered by insurance. Payment of any such costs, settlements, fines or judgments that are not insured could have a material adverse impact on our financial position and results of operations. In addition, certain litigation or the resolution of certain litigation may affect the availability or cost of some of our insurance coverage, which could adversely impact our results of operations and cash flows, expose us to increased risks that would be uninsured, and/or adversely impact our ability to attract officers and directors.

### Risks Related to the Economy and Credit Markets

The lack of availability and terms of financing could adversely impact the amounts, sources and costs of capital available to us.

The ownership of hotels is very capital intensive. We finance the acquisition of our hotels with a mixture of equity and long-term debt while we traditionally finance renovations and operating needs with cash provided from operations or with borrowings from our corporate credit facility. Typically, when we acquire a hotel, we seek a five to ten year loan secured by a mortgage on the hotel. These loans have a large balloon payment due at their maturity. Generally, we find it more efficient to place a significant amount of debt on a small number of our hotels and we try to maintain a significant number of our hotels unencumbered.

During periods of economic recession, it could be difficult for us to borrow money. Over the last ten years, a significant percentage of hotel loans were made by lenders who sold such loans to securitized lending vehicles, such as commercial mortgage backed security (CMBS) pools. If the market for new CMBS issuances results in CMBS lenders making fewer loans, there is a risk that the debt capital available to hotel owners could be reduced.

An uncertain environment in the lodging industry and the economy generally could result in declines in our average daily room rates, occupancy and RevPAR, and thereby have a material adverse effect on our results of operations.

The performance of the lodging industry has traditionally been closely linked with the general economy. A stall in economic growth or an economic recession would have a material adverse effect on our results of operations. If a property's occupancy or room rates drop to the point where its revenues are less than its operating expenses, then we would be required to spend additional funds in order to cover that property's operating expenses.

In addition, if the operating results decline at our hotels secured by mortgage debt there may not be sufficient operating profit from the hotel to fund the debt service on the mortgage. In such a case, we may be forced to choose from a number of unfavorable options, including using corporate cash, drawing on our corporate credit facility, selling a hotel on disadvantageous terms, including an unattractive price, or defaulting on the mortgage debt and permitting the lender to foreclose. Any one of these options could

-17-

---

## Table of Contents

have a material adverse effect on our business, results of operations, financial condition and ability to pay distributions to our stockholders.

The market price of our common stock could be volatile and could decline, resulting in a substantial or complete loss on our common stockholders' investment.

The market price of our common stock has been highly volatile in the past, and investors in our common stock may experience a decrease in the value of their shares, including decreases unrelated to our operating performance or prospects. In the past, securities class action litigation has often been instituted against companies following periods of volatility in their stock price. This type of litigation could result in substantial costs and divert our management's attention and resources.

### Risks Related to Our Debt and Financing

Our existing indebtedness contains financial covenants that could limit our operations and our ability to make distributions to our stockholders.

Our existing property-level debt instruments contain restrictions (including cash management provisions) that may under circumstances specified in the loan agreements prohibit our subsidiaries that own our hotels from making distributions or paying dividends, repaying loans to us or other subsidiaries or transferring any of their assets to us or another subsidiary. Failure to meet our financial covenants could result from, among other things, changes in our results of operations, the incurrence of additional debt or changes in general economic conditions. In addition, this could cause one or more of our lenders to accelerate the timing of payments and could have a material adverse effect on our business, financial condition, results of operations and our ability to make distributions to our stockholders. The terms of our debt may restrict our ability to engage in transactions that we believe would otherwise be in the best interests of our stockholders.

Our credit facility contains financial covenants that may constrain our ability to sell assets and make distributions to our stockholders.

Our corporate credit facility contains several financial covenants, the most constraining of which limits the amount of debt we may incur compared to the value of our hotels (our leverage covenant) and the amount of debt service we pay compared to our cash flow (our debt service coverage covenant). If we were to default under either of these covenants, the lenders may require us to repay all amounts then outstanding under our credit facility and may terminate our credit facility. These two financial covenants constrain us from incurring material amounts of additional debt or from selling properties that generate a material amount of income. In addition our credit facility requires that we maintain a minimum number of our hotels as unencumbered assets.

Many of our existing mortgage debt agreements contain "cash trap" provisions that could limit our ability to make distributions to our stockholders.

Certain of our loan agreements contain cash trap provisions that may be triggered if the performance of the affected hotel or hotels declines. If the provisions in one or more of these loan agreements are triggered, substantially all of the profit generated by the hotel or hotels affected is deposited directly into lockbox accounts and then swept into cash management accounts for the benefit of the lenders. Cash is distributed to us only after certain items are paid, including deposits into leasing and maintenance reserves and the payment of debt service, insurance, taxes, operating expenses, and extraordinary capital expenditures and leasing expenses. This could affect our liquidity and our ability

to make distributions to our stockholders.

There is refinancing risk associated with our debt.

Our typical debt contains limited principal amortization; therefore the vast majority of the principal must be repaid at the maturity of the loan in a so-called “balloon payment.” We have significant debt maturities in 2015 and 2016. In the event that we do not have sufficient funds to repay the debt at the maturity of these loans, we will need to refinance this debt. If the credit environment is constrained at the time of our debt maturities, we would have a very difficult time refinancing debt. In addition, we locked in our fixed-rate debt at a point in time when we were able to obtain favorable interest rate, principal amortization and other terms. When we refinance our debt, prevailing interest rates and other factors may result in paying a greater amount of debt service, which will adversely affect our cash flow, and, consequently, our cash available for distribution to our stockholders. If we are unable to refinance our debt on acceptable terms, we may be forced to choose from a number of unfavorable options. These options include agreeing to otherwise unfavorable financing terms on one or more of our unencumbered assets, selling one or more hotels at disadvantageous terms, including unattractive prices, or defaulting on the mortgage and permitting the lender to foreclose. Any one of these options could have a material adverse effect on our business, financial condition, results of operations and our ability to make distributions to our stockholders.

-18-

---

Table of Contents

If we default on our secured debt in the future, the lenders may foreclose on our hotels.

All of our indebtedness, except our credit facility, is secured by single property first mortgages on the applicable property. If we default on any of the secured loans, the lender will be able to foreclose on the property pledged to the relevant lender under that loan. While we have maintained certain of our hotels unencumbered by mortgage debt, we have a relatively high loan-to-value on a number of our hotels which are subject to mortgage loans and, as a result, those mortgaged hotels may be at an increased risk of default and foreclosure. In addition, to the extent we cannot meet any future debt service obligations, we will risk losing some or all of our hotels that are pledged to secure our obligation to foreclosure. This could affect our ability to make distributions to our stockholders.

In addition to losing the property, a foreclosure may result in recognition of taxable income. Under the Internal Revenue Code of 1986, as amended (the "Code"), a foreclosure of property securing nonrecourse debt would be treated as a sale of the property for a purchase price equal to the outstanding balance of the debt secured by the mortgage. If the outstanding balance of the debt secured by the mortgage exceeds our tax basis in the property, we would recognize taxable income on foreclosure even though we did not receive any cash proceeds. As a result, we may be required to identify and utilize other sources of cash for distributions to our stockholders. If this occurs, our financial condition, cash flow and ability to satisfy our other debt obligations or ability to pay distributions may be adversely affected.

Future debt service obligations may adversely affect our operating results, require us to liquidate our properties, jeopardize our ability to make cash distributions necessary to maintain our tax status as a REIT and limit our ability to make distributions to our stockholders.

In the future, we and our subsidiaries may be able to incur substantial additional debt, including secured debt. While borrowing costs are currently low, borrowing costs on new and refinanced debt may be more expensive. Our existing debt, and any additional debt borrowed in the future could subject us to many risks, including the risks that:

- our cash flow from operations will be insufficient to make required payments of principal and interest or to make cash distributions necessary to maintain our tax status as a REIT;

- we may be vulnerable to adverse economic and industry conditions;

- we may be required to dedicate a substantial portion of our cash flow from operations to the repayment of our debt, thereby reducing the cash available for distribution to our stockholders, funds available for operations and capital expenditures, future investment opportunities or other purposes;

- the terms of any refinancing is likely not as favorable as the terms of the debt being refinanced; and

- the use of leverage could adversely affect our stock price and the ability to make distributions to our stockholders.

If we violate covenants in our future indebtedness agreements, we could be required to repay all or a portion of our indebtedness before maturity at a time when we might be unable to arrange financing for such repayment on favorable terms, if at all.

Higher interest rates could increase debt service requirements on our floating rate debt, if any, and refinanced debt and could reduce the amounts available for distribution to our stockholders, as well as reduce funds available for our operations, future investment opportunities or other purposes. We may obtain in the future one or more forms of

interest rate protection - in the form of swap agreements, interest rate cap contracts or similar agreements - to “hedge” against the possible negative effects of interest rate fluctuations. However, hedging is expensive, there is no perfect hedge, and we cannot assure you that any hedging will adequately mitigate the adverse effects of interest rate increases or that counterparties under these agreements will honor their obligations. In addition, we may be subject to risks of default by hedging counter-parties.

#### Risks Related to Regulation, Taxes and the Environment

Noncompliance with governmental regulations could adversely affect our operating results.

Environmental matters and climate change.

Our hotels are, and the hotels we acquire in the future will be, subject to various federal, state and local environmental laws. Under these laws, courts and government agencies may have the authority to require us, as owner of a contaminated property, to

-19-

---

## Table of Contents

clean up the property, even if we did not know of or were not responsible for the contamination. These laws also apply to persons who owned a property at the time it became contaminated. In addition to the costs of cleanup, environmental contamination can affect the value of a property and, therefore, an owner's ability to borrow funds using the property as collateral or to sell the property. Under the environmental laws, courts and government agencies also have the authority to require that a person who sent waste to a waste disposal facility, such as a landfill or an incinerator, pay for the clean-up of that facility if it becomes contaminated and threatens human health or the environment. A person who arranges for the disposal or treatment, or transports for disposal or treatment, a hazardous substance at a property owned by another person may be liable for the costs of removal or remediation of hazardous substances released into the environment at that property.

Furthermore, various court decisions have established that third parties may recover damages for injury caused by property contamination. For instance, a person exposed to asbestos while staying in a hotel may seek to recover damages if he or she suffers injury from the asbestos. Lastly, some of these environmental laws restrict the use of a property or place conditions on various activities. For example, certain laws require a business using chemicals (such as swimming pool chemicals at a hotel) to manage them carefully and to notify local officials that the chemicals are being used.

We could be responsible for the costs associated with a contaminated property. The costs to clean up a contaminated property, to defend against a claim, or to comply with environmental laws could be material and could adversely affect the funds available for distribution to our stockholders. We cannot assure you that future laws or regulations will not impose material environmental liabilities or that the current environmental condition of our hotels will not be affected by the condition of the properties in the vicinity of our hotels (such as the presence of leaking underground storage tanks) or by third parties unrelated to us.

We may face liability regardless of our knowledge of the contamination, the timing of the contamination, the cause of the contamination, or the party responsible for the contamination of the property.

Although we have taken and will take commercially reasonable steps to assess the condition of our properties, there may be unknown environmental problems associated with our properties. If environmental contamination exists on our properties, we could become subject to strict, joint and several liability for the contamination by virtue of our ownership interest. In addition, we are obligated to indemnify our lenders for any liability they may incur in connection with a contaminated property.

The presence of hazardous substances or petroleum contamination on a property may adversely affect our ability to sell the property and could cause us to incur substantial remediation costs. The discovery of environmental liabilities attached to our properties could have a material adverse effect on our results of operations and financial condition and our ability to pay dividends to our stockholders.

Numerous treaties, laws and regulations have been enacted to regulate or limit carbon emissions. Changes in the regulations and legislation relating to climate change, and complying with such laws and regulations, may require us to make significant investments in our hotels and could result in increased energy costs at our properties which could have a material adverse effect on our results of operations and our ability to pay dividends to our stockholders.

Americans with Disabilities Act and other changes in governmental rules and regulations.

Under the Americans with Disabilities Act of 1990 (ADA) all public accommodations must meet various federal non-discrimination requirements related to access and use by individuals with disabilities. Compliance with the ADA's

requirements could require removal of architectural barriers to access and non-compliance could result in the payment of civil penalties, damages, and attorneys' fees and costs. If we are required to make substantial modifications to our hotels, whether to comply with the ADA or other changes in governmental rules and regulations, our financial condition, results of operations and ability to make distributions to our stockholders could be adversely affected.

Our hotel properties may contain or develop harmful mold, which could lead to liability for adverse health effects and costs of remediating the problem.

When excessive moisture accumulates in buildings or on building materials, mold growth may occur, particularly if the moisture problem remains undiscovered or is not addressed over a period of time. Some molds may produce airborne toxins or irritants. Concern about indoor exposure to mold has been increasing, as exposure to mold may cause a variety of adverse health effects and symptoms, including allergic reactions. As a result, the presence of mold to which our hotel guests or employees could be exposed at any of our properties could require us to undertake a costly remediation program to contain or remove the mold from the affected property, which would reduce our cash available for distribution. In addition, exposure to mold by our guests or employees, management company employees or others could expose us to liability if property damage or adverse health concerns arise.

---

Table of Contents

Risks Related to Our Status as a REIT

We cannot assure you that we will remain qualified as a REIT.

We believe we are qualified to be taxed as a REIT for our taxable year ended December 31, 2013, and we expect to continue to qualify as a REIT for future taxable years, but we cannot assure you that we have qualified, or will remain qualified, as a REIT.

The REIT qualification requirements are extremely complex and official interpretations of the federal income tax laws governing qualification as a REIT are limited. Certain aspects of our REIT qualification are beyond our control. Accordingly, we cannot be certain that we will be successful in operating so that we can remain qualified as a REIT. At any time, new laws, interpretations, or court decisions may change the federal tax laws or the federal income tax consequences of our qualification as a REIT.

Moreover, our charter provides that our board of directors may revoke or otherwise terminate our REIT election, without the approval of our stockholders, if it determines that it is no longer in our best interest to continue to qualify as a REIT.

If we fail to qualify as a REIT and do not qualify for certain statutory relief provisions, or otherwise cease to be a REIT, we will be subject to federal income tax on our taxable income at corporate rates. We might need to borrow money or sell assets in order to pay any such tax. Also, we would not be allowed a deduction for dividends paid to our stockholders in computing our taxable income and we would no longer be compelled to make distributions under the Code. Unless we were entitled to relief under certain federal income tax laws, we could not re-elect REIT status until the fifth calendar year after the year in which we failed to qualify as a REIT. If we fail to qualify as a REIT but are eligible for certain relief provisions, then we may retain our status as a REIT but we may be required to pay a penalty tax, which could be substantial.

Maintaining our REIT qualification contains certain restrictions and drawbacks.

Complying with REIT requirements may cause us to forgo otherwise attractive opportunities.

To remain qualified as a REIT for federal income tax purposes, we must continually satisfy tests concerning, among other things, the sources of our income, the nature and diversification of our assets, the amounts we distribute to our stockholders and the ownership of our stock. In order to meet these tests, we may be required to forgo attractive business or investment opportunities. For example, we may not lease to our TRS any hotel which contains gaming. Thus, compliance with the REIT requirements may hinder our ability to operate solely to maximize profits.

To qualify as a REIT we must meet annual distribution requirements.

In order to remain qualified as a REIT, we generally are required to distribute at least 90% of our REIT taxable income, determined without regard to the dividends paid deduction and excluding net capital gains, each year to our stockholders. To the extent that we satisfy this distribution requirement, but distribute less than 100% of our taxable income, we will be subject to federal corporate income tax on our undistributed taxable income. In addition, we will be subject to a 4% nondeductible excise tax if the actual amount that we pay out to our stockholders in a calendar year is less than a minimum amount specified under federal tax laws. As a result of differences between cash flow and the accrual of income and expenses for tax purposes, or nondeductible expenditures, for example, our REIT taxable

income in any given year could exceed our cash available for distribution. Accordingly, we may be required to borrow money or sell assets to make distributions sufficient to enable us to pay out enough of our taxable income to satisfy the distribution requirement and to avoid federal corporate income tax and the 4% nondeductible excise tax in a particular year.

The formation of our TRSs and TRS lessees increases our overall tax liability.

Our domestic TRSs are subject to federal and state income tax on their taxable income. The taxable income of our TRS lessees currently consists and generally will continue to consist of revenues from the hotels leased by our TRS lessees plus, in certain cases, key money payments (amounts paid to us by a hotel management company in exchange for the right to manage a hotel we acquire) and yield support payments, net of the operating expenses for such properties and rent payments to us. Such taxes could be substantial. Our non-U.S. TRSs also may be subject to tax in jurisdictions where they operate.

We will be subject to a 100% excise tax to the extent that transactions with our TRSs are not conducted on an arm's-length basis. For example, to the extent that the rent paid by one of our TRS lessees exceeds an arm's-length rental amount, such excess

## Table of Contents

is potentially subject to this excise tax. While we believe we structure all of our leases on an arm's-length basis, upon an audit, the IRS might disagree with our conclusion.

You may be restricted from transferring our common stock.

In order to maintain our REIT qualification, among other requirements, no more than 50% in value of our outstanding stock may be owned, directly or indirectly, by five or fewer individuals (as defined in the federal income tax laws to include certain entities) during the last half of any taxable year. In addition, the REIT rules generally prohibit a manager of one of our hotels from owning, directly or indirectly, more than 35% of our stock and a person who holds 35% or more of our stock from also holding, directly or indirectly, more than 35% of any such hotel management company. To qualify for and preserve REIT status, our charter contains an aggregate share ownership limit and a common share ownership limit. Generally, any shares of our stock owned by affiliated owners will be added together for purposes of the aggregate share ownership limit, and any shares of common stock owned by affiliated owners will be added together for purposes of the common share ownership limit.

If anyone transfers or owns shares in a way that would violate the aggregate share ownership limit or the common share ownership limit (unless such ownership limits have been waived by our board of directors), or would prevent us from continuing to qualify as a REIT under the federal income tax laws, those shares instead will be transferred to a trust for the benefit of a charitable beneficiary and will be either redeemed by us or sold to a person whose ownership of the shares will not violate the aggregate share ownership limit or the common share ownership limit. If this transfer to a trust would not be effective to prevent a violation of the ownership restrictions in our charter, then the initial intended transfer or ownership will be null and void from the outset. The intended transferee or owner of those shares will be deemed never to have owned the shares. Anyone who acquires or owns shares in violation of the aggregate share ownership limit, the common share ownership limit (unless such ownership limits have been waived by our board of directors) or the other restrictions on transfer or ownership in our charter bears the risk of a financial loss when the shares are redeemed or sold if the market price of our stock falls between the date of purchase and the date of redemption or sale.

Even if we qualify as a REIT, in certain circumstances, we may be subject to federal and state income taxes, which would reduce our cash available for distribution to our stockholders.

Even if we qualify and maintain our status as a REIT, we may be subject to federal income taxes or state taxes in various circumstances. For example, net income from a "prohibited transaction" will be subject to a 100% tax. In addition, we may not be able to distribute all of our income in any given year, which would result in corporate level taxes, and we may not make sufficient distributions to avoid excise taxes. We may also decide to retain certain gains from the sale or other disposition of our property and pay income tax directly on such gains. In that event, our stockholders would be required to include such gains in income and would receive a corresponding credit for their share of taxes paid by us. We may also be subject to U.S. state and local and non-U.S. taxes on our income or property, either directly or at the level of our operating partnership or the other companies through which we indirectly own our assets. In addition, we may be subject to federal, state local or non-U.S. taxes in other various circumstances. Any federal or state taxes we pay will reduce our cash available for distribution to our stockholders.

Dividends payable by REITs generally do not qualify for reduced tax rates.

A maximum 20% tax rate applies to "qualified" dividends payable to individual U.S. stockholders. Dividends payable by REITs, however, are generally not qualified dividends eligible for the reduced rates and are taxed at normal ordinary income tax rates. However, to the extent such dividends are attributable to certain dividends that we receive

from a taxable REIT subsidiary, such dividends generally will be eligible for the reduced rates that apply to qualified dividends. The more favorable rates applicable to regular corporate dividends could cause investors who are individuals to perceive investments in REITs to be relatively less attractive than investments in the stocks of non-REIT corporations that pay dividends, which could adversely affect the value of the stock of REITs, including our common stock.

Legislative or regulatory action could adversely affect our stockholders.

In recent years, numerous legislative, judicial and administrative changes have been made to the federal income tax laws applicable to investments in REITs and similar entities. Additional changes to applicable tax laws are likely to continue to occur in the future, and we cannot assure our stockholders that any such changes will not adversely affect the taxation of a stockholder. Any such changes could have an adverse effect on an investment in our common stock. All stockholders are urged to consult with their tax advisors with respect to the status of legislative, regulatory or administrative developments and proposals and their potential effect on an investment in our common stock.

Risks Related to Our Organization and Structure

-22-

---

Table of Contents

Provisions of our charter may limit the ability of a third party to acquire control of our company.

Our charter provides that no person may beneficially own more than 9.8% of the aggregate outstanding shares of our common stock or more than 9.8% of the value of the aggregate outstanding shares of our capital stock, except certain “look-through entities,” such as mutual funds, which may beneficially own up to 15% of the aggregate outstanding shares of our common stock or up to 15% of the value of the aggregate outstanding shares of our capital stock. Our board of directors has waived this ownership limitation for certain investors in the past. Our bylaws waive this ownership limitation for certain other classes of investors. These ownership limitations may prevent an acquisition of control of our company by a third party without our board of directors' approval, even if our stockholders believe the change of control is in their best interests.

Our charter also authorizes our board of directors to issue up to 400,000,000 shares of common stock and up to 10,000,000 shares of preferred stock, to classify or reclassify any unissued shares of common stock or preferred stock and to set the preferences, rights and other terms of the classified or reclassified shares. Furthermore, our board of directors may, without any action by the stockholders, amend our charter from time to time to increase or decrease the aggregate number of shares of stock of any class or series that we have authority to issue. Issuances of additional shares of stock may have the effect of delaying, deferring or preventing a transaction or a change in control of our company that might involve a premium to the market price of our common stock or otherwise be in our stockholders' best interests.

Certain advance notice provisions of our bylaws may limit the ability of a third party to acquire control of our company.

Our bylaws provide that (a) with respect to an annual meeting of stockholders, nominations of individuals for election to our board of directors and the proposal of other business to be considered by stockholders may be made only (i) pursuant to our notice of the meeting, (ii) by the board of directors or (iii) by a stockholder who is entitled to vote at the meeting and has complied with the advance notice procedures set forth in the bylaws and (b) with respect to special meetings of stockholders, only the business specified in our notice of meeting may be brought before the meeting of stockholders and nominations of individuals for election to the board of directors may be made only (A) by the board of directors or (B) provided that the board of directors has determined that directors shall be elected at such meeting, by a stockholder who is entitled to vote at the meeting and has complied with the advance notice provisions set forth in the bylaws. These advance notice provisions may have the effect of delaying, deferring or preventing a transaction or a change in control of our company that might involve a premium to the market price of our common stock or otherwise be in our stockholders' best interests.

Provisions of Maryland law may limit the ability of a third party to acquire control of our company.

The Maryland General Corporation Law, or the MGCL, has certain restrictions on a “business combination” and “control share acquisition” which we have opted out of. If an affirmative majority of votes cast by a majority of stockholders entitled to vote approve it, our board of directors may opt in to such provisions of the MGCL. If we opt in, and the stockholders approve it, these provisions may have the effect of delaying, deferring or preventing a transaction or a change in control of our company that might involve a premium price for holders of our common stock or otherwise be in their best interests.

Additionally, Title 3, Subtitle 8 of the MGCL permits our board of directors, without stockholder approval and regardless of what is currently provided in our charter or bylaws, to take certain actions that may have the effect of

delaying, deferring or preventing a transaction or a change in control of our company that might involve a premium to the market price of our common stock or otherwise be in our stockholders' best interests.

We have entered into an agreement with each of our senior executive officers that provides each of them benefits in the event his employment is terminated by us without cause, by him for good reason, or under certain circumstances following a change of control of our company.

We have entered into an agreement with each of our senior executive officers that provides each of them with severance benefits if his employment is terminated under certain circumstances following a change of control of our company. Certain of these benefits and the related tax indemnity could prevent or deter a change of control of our company that might involve a premium price for our common stock or otherwise be in the best interests of our stockholders.

You have limited control as a stockholder regarding any changes we make to our policies.

Our board of directors determines our major policies, including policies related to our investment objectives, leverage, financing, growth and distributions to our stockholders. Our board of directors may amend or revise these policies without a vote of our stockholders. This means that our stockholders will have limited control over changes in our policies and those changes

Table of Contents

could adversely affect our business, financial condition, results of operations and our ability to make distributions to our stockholders.

We may be unable to generate sufficient cash flows from our operations to make distributions to our stockholders at expected levels, and we cannot assure you of our ability to make distributions in the future.

We intend to pay a quarterly dividend that represents at least 90% of cash available for distribution. Our ability to make this intended distribution may be adversely affected by the risk factors described in this Annual Report on Form 10-K and other reports that we file from time to time with the SEC. In addition, our board of directors has the sole discretion to determine the timing, form and amount of any distributions to our stockholders. Our board of directors will make determinations regarding distributions based upon many facts, including our financial performance, our debt service obligations, any debt covenants, our capital expenditure requirements, the requirements for qualification as a REIT and other factors that our board of directors may deem relevant from time to time.

As a result, no assurance can be given that we will be able to make distributions to our stockholders at expected levels, or at all, or that distributions will increase or even be maintained over time, any of which could materially and adversely affect the market price of our common stock.

Changes in market conditions could adversely affect the market price of our common stock.

As with other publicly traded equity securities, the value of our common stock depends on various market conditions that may change from time to time. Among the market conditions that may affect the value of our common stock are the following:

• the extent of investor interest in our securities;

- the general reputation of REITs and the attractiveness of our equity securities in comparison to other equity securities, including securities issued by other real estate-based companies;

• the underlying asset value of our hotels;

• investor confidence in the stock and bond markets, generally;

• national and local economic conditions;

• changes in tax laws;

• our financial performance; and

• general stock and bond market conditions.

The market value of our common stock is based primarily upon the market's perception of our growth potential and our current and potential future earnings and cash distributions. Consequently, our common stock may trade at prices that are greater or less than our net asset value per share of common stock. If our future earnings or cash distributions are less than expected, it is likely that the market price of our common stock will diminish.

Future issuances or sales of our common stock may depress the market price of our common stock and have a dilutive effect on our existing stockholders.

We cannot predict whether future issuances of our common stock or the availability of shares for resale in the open market may depress the market price of our common stock. Future issuances or sales of a substantial number of shares of our common stock in the public market, or the issuance of our common stock in connection with future property, portfolio or business acquisitions, or the perception that such issuances or sales might occur, may cause the market price of our shares to decline. In addition, future issuances or sales of our common stock may be dilutive to existing stockholders.

Future offerings of debt securities or preferred stock, which would be senior to our common stock upon liquidation and for the purpose of distributions, may cause the market price of our common stock to decline.

In the future, we may increase our capital resources by making additional offerings of debt or equity securities, which may include senior or subordinated notes, classes of preferred stock and/or common stock. We will be able to issue additional shares

Table of Contents

of common stock or preferred stock without stockholder approval, unless stockholder approval is required by applicable law or the rules of any stock exchange or automated quotation system on which our securities may be listed or traded. Upon liquidation, holders of our debt securities and shares of preferred stock and lenders with respect to other borrowings will receive a distribution of our available assets prior to the holders of our common stock. Additional equity offerings could significantly dilute the holdings of our existing stockholders or reduce the market price of our common stock, or both. Holders of our common stock are not entitled to preemptive rights or other protections against dilution. Preferred stock and debt, if issued, could have a preference on liquidating distributions or a preference on dividend or interest payments that could limit our ability to make a distribution to the holders of our common stock. Because our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, we cannot predict or estimate the amount, timing or nature of our future offerings. Thus, our stockholders bear the risk of our future offerings reducing the market price of our common stock and diluting their interest.

Item 1B. Unresolved Staff Comments

None.

Hilton Garden Inn Chelsea/New York City	New York, New York	169	69,684	412,331
Renaissance Charleston	Charleston, South Carolina	166	39,000	234,939
Hotel Rex	San Francisco, California	94	29,553	314,394
Total		11,121	\$ 2,976,168	\$267,617

(1) Total investment represents our initial investment in the hotel plus any owner-funded capital expenditures since acquisition.

(2) The hotel is subject to a mortgage loan.

(3) The hotel is subject to a long-term ground lease.

(4) A portion of the parking garage at the hotel is subject to three ground leases that cover, contiguously with each other, approximately one-fourth of the land on which the parking garage is constructed.

(5) The golf course at the resort is subject to a ground lease covering approximately 110 acres.

We are party to hotel management agreements for each of our hotels and franchise agreements for nine of our hotels. Additional information regarding our hotel management and franchise agreements can be found in Note 13 to the accompanying consolidated financial statements.

Five of our hotels are subject to ground lease agreements. Additional information regarding our hotels that are subject to ground leases can be found in Note 14 to the accompanying consolidated financial statements.

Item 3. Legal Proceedings

We are subject to various claims, lawsuits and legal proceedings, including routine litigation arising in the ordinary course of business, regarding the operation of our hotels and company matters. While it is not possible to ascertain the ultimate outcome of such matters, management believes that the aggregate amount of such liabilities, if any, in excess of amounts covered by

Table of Contents

insurance will not have a material adverse impact on our financial condition or results of operations. The outcome of claims, lawsuits and legal proceedings brought against the Company, however, is subject to significant uncertainties.

Item 4. Mine Safety Disclosures

Not applicable.

## Part II

## Item 5. Market for Registrant's Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities

## Market Information

Our common stock trades on the NYSE under the symbol "DRH". The following table sets forth, for the indicated period, the high and low closing prices for the common stock, as reported on the NYSE:

	Price Range	
	High	Low
Year Ended December 31, 2012:		
First Quarter	\$ 10.98	\$ 9.55
Second Quarter	10.82	9.30
Third Quarter	10.45	9.19
Fourth Quarter	10.43	8.16
Year Ended December 31, 2013:		
First Quarter	9.53	8.71
Second Quarter	10.31	8.81
Third Quarter	10.89	9.27
Fourth Quarter	11.78	10.56

The closing price of our common stock on the NYSE on December 31, 2013 was \$11.55 per share.

The following graph compares the five-year cumulative total stockholder return on our common stock against the cumulative total returns of the Standard & Poor's 500 Index (the "S&P 500 Total Return") and Morgan Stanley REIT Index (the "RMZ Total Return"). The graph assumes an initial investment of \$100 in our common stock in each of the indexes and also assumes the reinvestment of dividends. The total return values do not include dividends declared, but not paid, during the period.

Table of Contents

	2008	2009	2010	2011	2012	2013
DiamondRock Hospitality Company Total Return	\$100.00	\$172.80	\$244.82	\$203.52	\$196.33	\$260.66
RMZ Total Return	\$100.00	\$128.61	\$165.23	\$179.60	\$211.50	\$216.73
S&P 500 Total Return	\$100.00	\$126.46	\$145.51	\$148.59	\$172.37	\$228.19

This performance graph shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended, or incorporated by reference into any filing by us under the Securities Act of 1933, as amended, except as shall be expressly set forth by specific reference in such filing.

In order to maintain our qualification as a REIT, we must make distributions to our stockholders each year in an amount equal to at least:

90% of our REIT taxable income, determined without regard to the dividends paid deduction and excluding net capital gains, plus

90% of the excess of our net income from foreclosure property over the tax imposed on such income by the Code, minus

any excess non-cash income.

We generally pay quarterly cash dividends to common stockholders at the discretion of our board of directors. The following table sets forth the dividends on our common shares for the years ended December 31, 2013 and 2012.

Payment Date	Record Date	Dividend per Share
April 4, 2012	March 23, 2012	\$0.080
May 29, 2012	May 15, 2012	\$0.080

As of February 21, 2014, there were 11 record holders of our common stock and we believe we have more than one thousand beneficial holders. In order to comply with certain requirements related to our qualification as a REIT, our charter, subject to certain exceptions, limits the number of common shares that may be owned by any single person or affiliated group to 9.8% of the outstanding common shares.

Equity compensation plan information. The following table sets forth information regarding securities authorized for issuance under our equity compensation plan, the 2004 Stock Option and Incentive Plan, as amended, as of December 31, 2013. See Note 7 to the accompanying consolidated financial statements for additional information regarding our 2004 Stock Option and Incentive Plan, as amended.

Repurchases of equity securities. During the year ended December 31, 2013, certain of our employees surrendered 163,496 shares of common stock to the Company as payment for taxes in connection with the vesting of restricted stock. On August 5, 2013, our board of directors voted to authorize us to purchase up to \$100 million in shares of our common stock. We have not repurchased any shares of our common stock under the program.

## Item 6. Selected Financial Data

The selected historical financial information as of and for the years ended December 31, 2013, 2012, 2011, 2010, and 2009 has been derived from our audited historical financial statements. The selected historical financial data should be read in conjunction with “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” the consolidated financial statements as of December 31, 2013 and 2012 and for the years ended December 31, 2013, 2012 and 2011, and the related notes contained elsewhere in this Annual Report on Form 10-K.

Item 7. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion should be read in conjunction with the consolidated financial statements and related notes thereto included elsewhere in this report. This discussion contains forward-looking statements about our business. These statements are based on current expectations and assumptions that are subject to risks and uncertainties. Actual results could differ materially because of factors discussed in "Special Note About Forward-Looking Statements" and "Risk Factors" contained in this Annual Report on Form 10-K and in our other reports that we file from time to time with the SEC.

Overview

DiamondRock Hospitality Company is a lodging-focused Maryland corporation operating as a real estate investment trust (REIT) for federal income tax purposes. As of December 31, 2013, we owned a portfolio of 26 premium hotels and resorts that contain 11,121 guest rooms. We also hold the senior note on a mortgage loan secured by an additional hotel and have the right to acquire, upon completion, a hotel under development. As an owner, rather than an operator, of lodging properties, we receive all of the operating profits or losses generated by our hotels after the payment of fees due to hotel managers, which are calculated based on the revenues and profitability of each hotel.

Our vision is to be the premier allocator of capital in the lodging industry. Our mission is to deliver long-term stockholder returns through a combination of dividends and enduring capital appreciation. Our strategy is to utilize disciplined capital allocation and focus on the acquisition, ownership and innovative asset management of high quality lodging properties in North American markets with superior growth prospects and high barriers to entry.

We differentiate ourselves from our competitors by adhering to three basic principles in executing our strategy:

- owning high-quality urban and destination resort hotels;
- implementing innovative asset management strategies; and
- maintaining a conservative capital structure.

Our portfolio is concentrated in key gateway cities and destination resort locations. Each of our hotels is managed by a third party and most are operated under a brand owned by one of the leading global lodging brand companies (Marriott International, Inc. ("Marriott"), Starwood Hotels & Resorts Worldwide, Inc. ("Starwood") and Hilton Worldwide ("Hilton")).

We critically evaluate each of our hotels to ensure that we own a portfolio of hotels that conforms to our vision, supports our mission and corresponds with our strategy. On a regular basis, we analyze our portfolio to identify opportunities to invest capital in certain projects or market non-core assets for sale in order to increase our portfolio quality.

We are committed to a conservative capital structure with prudent leverage. We regularly assess the availability and affordability of capital in order to maximize the stockholder value and minimize enterprise risk. In addition, we are committed to following sound corporate governance practices and being open and transparent in our communications with stockholders.

High Quality Urban- and Destination Resort-Focused Branded Hotel Real Estate

As of December 31, 2013, we owned 26 premium hotels and resorts throughout North America and the U.S. Virgin Islands. Our hotels and resorts are primarily categorized as upper upscale as defined by Smith Travel Research and are generally located in high barrier-to-entry markets with multiple demand generators.

Our properties are concentrated in key gateway cities (primarily New York City, Chicago, Boston and Los Angeles) and in destination resort locations (such as the U.S. Virgin Islands and Vail, Colorado). We consider lodging properties located in gateway cities and resort destinations to be the most capable of creating dynamic cash flow growth and achieving superior long-term capital appreciation. We also believe that these locations are better insulated from new supply due to relatively high barriers-to-entry, including expensive construction costs and limited development sites.

We have been executing on our strategy to elevate and enhance our hotel portfolio by actively recycling capital early in the recovery phase of this lodging cycle. Our efforts have led to the repositioning of our portfolio through the acquisition of \$1.3 billion of urban hotels that align with our strategic goals while disposing of more than \$375 million in slower-growth, non-core hotels. These acquisitions increased our urban exposure with additional hotels in cities such as New York, San Francisco, Boston,

## Table of Contents

Denver, Washington D.C. and San Diego. Over 85% of our portfolio EBITDA is currently derived from core urban and resort hotels. Our capital recycling program over the past three years also achieved several other important strategic portfolio goals that include improving our portfolio's geographic and brand diversity and achieving a mix of 50 percent brand-managed and 50 percent third-party managed hotels in our portfolio.

Moreover, the primary focus of our acquisitions over the past three years was on hotels that we believe presented unique value-add opportunities, such as repositioning through a change in brand or comprehensive renovation or changing the third-party hotel manager to a more efficient operator. For example, we executed a \$140 million capital expenditure program in 2013, which included major capital investments at the Lexington Hotel New York, Courtyard Manhattan/Fifth Avenue, Courtyard Manhattan/Midtown East, Westin Washington D.C. City Center, Westin San Diego, Hilton Boston Downtown and Hilton Minneapolis.

We leverage some of the leading global hotel brands with all but two of our hotels flagged under a brand owned by Marriott, Hilton or Starwood. We believe that premier global hotel brands create significant value as a result of each brand's ability to produce incremental revenue through their strong reservation and rewards systems and sales organizations with the result being that branded hotels are able to generate greater profits than similar unbranded hotels. We are primarily interested in owning hotels that are currently operated under, or can be converted to, a globally-recognized brand. We would also consider opportunities to acquire other non-branded hotels located in premier or unique markets where we believe that the returns on such a hotel may be higher than if the hotel were operated under a globally-recognized brand.

### Innovative Asset Management

We believe we can create significant value in our portfolio through innovative asset management strategies such as rebranding, renovating and repositioning and we engage in a process of regular evaluations of our portfolio in order to determine if there are opportunities to employ these value-add strategies.

We realized numerous asset management achievements in 2013, including: the execution of a \$140 million capital expenditure program; the implementation of asset management strategies in order to improve hotel revenues and contain costs; and proactively managing the third-party at each of our properties to maximize hotel operating performance. Our asset management team is focused on improving hotel profit margins through revenue management strategies and cost control programs. Our asset management team also focuses on identifying new and potential value creation opportunities across our portfolio, including adding new resort fees, creating incremental guest rooms, leasing out restaurants to more profitable third party operators, converting unused space to revenue-generating meeting space, and implementing programs to reduce energy usage.

Our senior management team has established a broad network of hotel industry contacts and relationships, including relationships with hotel owners, financiers, operators, project managers and contractors and other key industry participants. We use our broad network of hotel industry contacts and relationships to maximize the value of our hotels. Under the federal income tax rules governing REITs, we are required to engage a hotel manager that is an eligible independent contractor to manage each of our hotels pursuant to a management agreement with one of our subsidiaries. We strive to negotiate management agreements that give us the right to exert influence over the management of our properties, annual budgets and all capital expenditures (all, to the extent permitted under the REIT rules), and then to use those rights to continually monitor and improve the performance of our properties. We cooperatively partner with our hotel managers in an attempt to increase operating results and long-term asset values at our hotels. In addition to working directly with the personnel at our hotels, our senior management team also has long-standing professional relationships with our hotel managers' senior executives, and we work directly with these

senior executives to improve the performance of the hotels in our portfolio that they manage.

#### Conservative Capital Structure

We believe that a conservative capital structure maximizes investment capacity while reducing enterprise risk. We currently employ a low-risk and straight-forward capital structure with no corporate level debt, preferred equity, or convertible bonds. Moreover, we have significant balance sheet flexibility with no outstanding borrowings under our \$200 million senior unsecured credit facility as of December 31, 2013, as well as approximately half of our hotels being unencumbered by mortgage debt. We believe it is imprudent to increase the inherent risk of highly cyclical lodging fundamentals through the use of a highly leveraged capital structure.

We believe our strategically designed capital structure is a value creation tool that can be used over the entire lodging cycle. Specifically, we believe lower leverage benefits us in the following ways:

• provides capacity to fund attractive early-cycle acquisitions;

## Table of Contents

- provides optionality to fund acquisitions with the most efficient funding source;
- enhances our ability to maintain a sustainable dividend;
- enables us to opportunistically repurchase shares during periods of stock price dislocation; and
- provides capacity to fund late-cycle capital needs.

Our current debt outstanding consists primarily of fixed interest rate mortgage debt. We have no outstanding borrowings under our senior unsecured credit facility, which bears interest at what we believe is an attractive floating rate. We prefer that a significant portion of our portfolio remains unencumbered by debt in order to provide maximum balance sheet flexibility. In addition, to the extent that we incur additional debt, our preference is non-recourse secured mortgage debt. We expect that our strategy will enable us to maintain a balance sheet with an appropriate amount of debt throughout all phases of the lodging cycle.

We have mortgage debt maturities that start in late 2014, with significant maturities in 2015 (approximately \$230 million) and 2016 (approximately \$305 million). We anticipate addressing these maturities, as well as other capital needs, with a combination of the following:

- refinancing proceeds on existing encumbered hotels;
- borrowing capacity on our existing unencumbered hotels;
- proceeds from the disposition of non-core hotels;
- capacity on our \$200 million senior unsecured credit facility; and
- annual cash flow from operations.

We prefer a relatively simple but efficient capital structure. We have not invested in joint ventures and have not issued any operating partnership units or preferred stock. We structure our hotel acquisitions to be straightforward and fit within our conservative capital structure; however, we will consider a more complex transaction if we believe that the projected returns to our stockholders will significantly exceed the returns that would otherwise be available.

## Key Indicators of Financial Condition and Operating Performance

We use a variety of operating and other information to evaluate the financial condition and operating performance of our business. These key indicators include financial information that is prepared in accordance with U.S. GAAP, as well as other financial information that is not prepared in accordance with U.S. GAAP. In addition, we use other information that may not be financial in nature, including statistical information and comparative data. We use this information to measure the performance of individual hotels, groups of hotels and/or our business as a whole. We periodically compare historical information to our internal budgets as well as industry-wide information. These key indicators include:

- Occupancy percentage;
- Average Daily Rate (or ADR);

Revenue per Available Room (or RevPAR);

Earnings Before Interest, Income Taxes, Depreciation and Amortization (or EBITDA) and Adjusted EBITDA; and

Funds From Operations (or FFO) and Adjusted FFO.

Occupancy, ADR and RevPAR are commonly used measures within the hotel industry to evaluate operating performance. RevPAR, which is calculated as the product of ADR and occupancy percentage, is an important statistic for monitoring operating performance at the individual hotel level and across our business as a whole. We evaluate individual hotel RevPAR performance on an absolute basis with comparisons to budget and prior periods, as well as on a company-wide and regional basis. ADR and RevPAR include only room revenue. Room revenue comprised approximately 70% of total revenues for the year ended December 31, 2013 and is dictated by demand, as measured by occupancy percentage, pricing, as measured by ADR, and our available supply of hotel rooms.

-36-

---

## Table of Contents

Our ADR, occupancy percentage and RevPAR performance may be impacted by macroeconomic factors such as U.S. economic conditions generally, regional and local employment growth, personal income and corporate earnings, office vacancy rates and business relocation decisions, airport and other business and leisure travel, new hotel construction and the pricing strategies of competitors. In addition, our ADR, occupancy percentage and RevPAR performance is dependent on the continued success of our hotels' global brands.

We also use EBITDA, Adjusted EBITDA, FFO and Adjusted FFO as measures of the financial performance of our business. See "Non-GAAP Financial Measures."

### Overview of 2013

The recovery in the lodging industry continued during 2013 with demand increasing 2.2% and many markets returning to prior peak occupancy levels. Importantly, new hotel supply remained constrained, increasing only 0.7%, which is less than half the historical average. This positive supply/demand imbalance powered industry RevPAR growth of 5.4%.

Key highlights for 2013 include the following:

**Hotel Financings.** We raised \$165 million through three separate secured financings during 2013. The financings include (i) a \$31 million mortgage loan secured by The Lodge at Sonoma Renaissance Resort & Spa with a term of ten years and a fixed interest rate of 3.96% (ii) a \$71 million mortgage loan secured by the Westin San Diego with a term of ten years and a fixed interest rate of 3.94% and (iii) a \$63 million mortgage loan secured by the Salt Lake City Marriott Downtown with a term of seven years and a fixed interest rate of 4.25%. The loans are property-specific and non-recourse to the Company subject to standard exceptions. As part of the financing of the Salt Lake City Marriott Downtown, we prepaid the \$27.3 million mortgage loan previously secured by the hotel through defeasance, which had a maturity date of January 2015. The cost to defease the loan was approximately \$1.5 million.

**Allerton Loan.** We closed on the settlement of the bankruptcy and related litigation involving our senior mortgage loan secured by the Allerton Hotel, receiving a \$5.0 million principal payment and a new \$66.0 million mortgage loan. We received an additional principal payment of \$1.5 million in May 2013.

**Non-Core Hotel Disposition.** We sold the 487-room Torrance Marriott South Bay to an unaffiliated third party for a contractual sales price of \$74 million on November 21, 2013. We recognized a gain on the sale of \$22.7 million, which is reported in discontinued operations.

**Chief Operating Officer.** John L. Williams departed from his position as President and Chief Operating Officer of the Company effective May 1, 2013. In connection with his departure from the Company, we recorded a severance cost of approximately \$3.1 million, which is reflected in corporate expenses on the accompanying consolidated statement of operations. On April 1, 2013, Robert D. Tanenbaum joined the Company as Executive Vice President, Asset Management and was appointed Chief Operating Officer effective May 1, 2013.

### Outlook for 2014

We believe we are in the middle of a multi-year lodging recovery cycle. Hotel supply growth has flattened in most markets. In 2013, we experienced increased travel demand, leading to RevPAR gains due more from increases in room rates than from growth in occupancy and we expect this trend to continue in 2014. Further, we expect our newly

renovated hotels to outperform the market in 2014 due both to an enhanced product and limited disruption.

#### Results of Operations

The following table sets forth certain operating information for each of the hotels we owned as of December 31, 2013.

-37-

(1) The percentage change from 2012 RevPAR reflects the comparable period in 2012 to our 2013 ownership period.

(2) The hotel was acquired during 2012.

Edgar Filing: DiamondRock Hospitality Co - Form 10-K

Comparison of the Year Ended December 31, 2013 to the Year Ended December 31, 2012

Revenue. Revenue consists primarily of the room, food and beverage and other operating revenues from our hotels, as follows (in millions):

	Year Ended December 31,			% Change
	2013	2012		
Rooms	\$558.8	\$509.9	9.6	%
Food and beverage	193.0	175.0	10.3	
Other	47.9	42.0	14.0	
Total revenues	\$799.7	\$726.9	10.0	%

Our total revenues from continuing operations increased \$72.8 million from \$726.9 million for the year ended December 31, 2012 to \$799.7 million for the year ended December 31, 2013, which includes \$55.7 million of revenues contributed by the five hotels we acquired in 2012. Excluding the impact of our 2012 acquisitions, our total revenues increased \$17.1 million, or 2.4%.

The following pro forma key hotel operating statistics for our hotels reported in continuing operations for the years ended December 31, 2013 and 2012 include the prior year operating statistics for the comparable period to our 2013 ownership period.

Table of Contents

	Year Ended December 31,			% Change
	2013		2012	
Occupancy %	75.1	%	76.3	% (1.2) percentage points
ADR	\$183.85		\$178.50	3.0 %
RevPAR	\$138.11		\$136.27	1.4 %

The increase in RevPAR was driven by a 3.0% growth in ADR, partially offset by a 1.2 percentage point decrease in occupancy. The decrease in occupancy is primarily due to disruption at our hotels under renovation during 2013, most notably the Lexington Hotel New York. The renovations displaced over 95,000 room nights during 2013. Despite the decrease in occupancy, our hotels generated total ADR growth of 3.0%. The ADR growth was experienced in all customer segments, particularly business transient.

Food and beverage revenues increased \$18.0 million from 2012, which includes \$7.6 million of food and beverage revenues contributed by the five hotels acquired in 2012. The remaining increase of \$10.4 million at our comparable hotels was primarily driven by higher banquet revenue from both group business and local catering. Other revenues, which primarily represent spa, golf, parking and attrition and cancellation fees, increased \$5.9 million, which includes \$3.2 million of other revenues contributed by the five hotels we acquired during 2012. The remaining increase of \$2.7 million at our comparable hotels was primarily driven by the implementation of resort fees at three of our hotels, as well as attrition and cancellation fees.

Hotel operating expenses. Our operating expenses from continuing operations for the years ended December 31, 2013 and 2012, respectively, consist of the following (in millions):

	Year Ended December 31,			
	2013		2012	% Change
Rooms departmental expenses	\$151.0		\$135.4	11.5 %
Food and beverage departmental expenses	136.5		124.9	9.3
Other departmental expenses	21.9		19.4	12.9
General and administrative	64.2		59.1	8.6
Utilities	28.2		26.1	8.0
Repairs and maintenance	36.8		32.4	13.6
Sales and marketing	67.6		58.6	15.4
Base management fees	19.3		18.8	2.7
Incentive management fees	6.2		5.5	12.7
Property taxes	40.0		33.2	20.5
Other fixed charges	10.9		10.9	—
Ground rent—Contractual	8.5		8.2	3.7
Ground rent—Non-cash	6.5		6.4	1.6
Total hotel operating expenses	\$597.6		\$538.9	10.9 %

Our hotel operating expenses increased \$58.7 million, or 10.9%, from \$538.9 million for the year ended December 31, 2012 to \$597.6 million for the year ended December 31, 2013, which includes \$37.5 million of hotel operating expenses contributed by the five hotels we acquired in 2012. The remaining increase of \$21.2 million is primarily due to higher food and beverage costs and support costs, specifically repairs and maintenance and sales and marketing. Property taxes at our comparable hotels increased approximately \$3.0 million, which is primarily due to significant

increases in the county property tax rates at the Chicago Marriott and Conrad Chicago and a reassessment of the Vail Marriott Mountain Resort & Spa. Incentive management fees increased as a result of higher profits, as well as three additional hotels that earned incentive management fees in 2013.

Depreciation and amortization. Depreciation and amortization is recorded on our hotel buildings over 40 years for the periods subsequent to acquisition. Depreciable lives of hotel furniture, fixtures and equipment are estimated as the time period between the acquisition date and the date that the hotel furniture, fixtures and equipment will be replaced. Our depreciation and amortization expense increased \$6.9 million from the year ended December 31, 2012 to the year ended December 31, 2013 due to our 2012 acquisitions and the significant renovations completed under our 2013 capital expenditure program.

Table of Contents

Impairment losses. During the year ended December 31, 2012, we recorded an impairment loss of \$30.4 million related to the Oak Brook Hills Resort. We also recorded an impairment loss of \$0.5 million on the favorable leasehold asset related to our option to develop a hotel on an undeveloped parcel of land adjacent to the Westin Boston Waterfront Hotel. No impairment losses were recorded during the year ended December 31, 2013.

Corporate expenses. Corporate expenses principally consist of employee-related costs, including base payroll, bonus and restricted stock. Corporate expenses also include corporate operating costs, professional fees and directors' fees. Our corporate expenses increased \$2.0 million, from \$21.1 million for the year December 31, 2012 to \$23.1 million for the year ended December 31, 2013. The increase in corporate expenses is due primarily to \$3.1 million in severance costs incurred in connection with the departure of our President and Chief Operating Officer in 2013, partially offset by lower legal fees as a result of the settlement of the Allerton bankruptcy proceedings and related litigation in January 2013.

Hotel acquisition costs. Hotel acquisition costs incurred during the year ended December 31, 2012 were related to the five hotels we acquired during 2012.

Interest expense. Our interest expense was \$57.3 million and \$53.8 million for the years ended December 31, 2013 and December 31, 2012, respectively. The increase in interest expense is primarily due to the new mortgage loans we entered into in late 2012 and 2013. The increase is partially offset by lower interest expense on our credit facility due to lower borrowings in 2013 and interest rate cap fair value adjustments.

The interest expense for the years ended December 31, 2013 and December 31, 2012 is comprised of the following (in millions):

	Year Ended December 31,	
	2013	2012
Mortgage debt interest	\$ 54.9	\$ 48.7
Credit facility interest and unused fees	1.0	2.7
Amortization of deferred financing costs and debt premium	2.7	2.7
Capitalized interest	(1.4	) (1.2
Interest rate cap fair value adjustment	0.1	0.9
	\$ 57.3	\$ 53.8

Interest income. Interest income increased \$6.0 million from \$0.3 million for the year ended December 31, 2012 to \$6.3 million for the year ended December 31, 2013. The increase is substantially due to the restructuring of the Allerton Loan for which we started to recognize interest income beginning in January 2013. We recorded \$6.1 million of interest income on the Allerton Loan for the year ended December 31, 2013, of which \$2.6 million is the amortization of the discount and the remainder is contractual interest income earned.

Discontinued operations. Income from discontinued operations represent the operating results of the Torrance Marriott South Bay, which was sold in 2013, and the Renaissance Waverly, Renaissance Austin, Marriott Griffin Gate Resort, and Atlanta Westin North at Perimeter, which were sold in 2012. The following table summarizes the income from discontinued operations for the years ended December 31, 2013 and 2012 (in thousands):

	Year Ended December 31,	
	2013	2012
Hotel revenues	\$ 21,336	\$ 55,654
Hotel operating expenses	(15,977	) (41,424

---

Table of Contents

Income taxes. We recorded an income tax benefit on continuing operations of \$1.1 million in 2013 and income tax benefit on continuing operations of \$6.8 million in 2012. The 2013 income tax benefit includes \$1.5 million of income tax benefit incurred on the \$4.6 million pre-tax loss from continuing operations of our taxable REIT subsidiary, or TRS, and offset by foreign income tax expense of \$0.4 million incurred on the \$2.8 million pre-tax income of the TRS that owns Frenchman's Reef. The 2012 income tax benefit from continuing operations includes a \$6.5 million income tax benefit incurred on the \$16.6 million pre-tax loss from continuing operations of our TRS and foreign income tax benefit of \$0.3 million related to the taxable REIT subsidiary that owns Frenchman's Reef.

Comparison of the Year Ended December 31, 2012 to the Year Ended December 31, 2011.

Revenue. Revenue consists primarily of room, food and beverage and other operating revenues from our hotels. Our revenues from continuing operations increased \$126.8 million from \$600.1 million for the year ended December 31, 2011 to \$726.9 million for the year ended December 31, 2012, which includes \$75.9 million of revenues contributed by the five hotels we acquired in 2012. Excluding the impact of our 2012 acquisitions, our total revenues increased \$50.9 million, or 8.5%.

Food and beverage revenues increased \$21.0 million from the comparable period in 2011 driven by a \$8.2 million increase in revenues from our 2011 and 2012 acquisitions and an increase of \$12.8 million at our comparable hotels. The increase at our comparable hotels was driven by a \$6.5 million increase at Frenchman's Reef due to the partial closure during 2011 for the renovation project and an increase in both outlet and banquet revenues at our other hotels. Other revenues, which primarily represent spa, golf, and parking revenues, as well as tenant retail lease income and attrition and cancellation fees, increased \$12.0 million driven by a \$4.3 million increase in revenues from our 2011 and 2012 acquisitions and a \$7.7 million increase from 2011 at our comparable hotels. The increase in other revenues from our comparable hotels was driven by a \$5.8 million increase at Frenchman's Reef due to the partial closure during 2011, as well as the implementation of a resort fee at the hotel following the renovation. The remaining increase is primarily due to an increase in attrition and cancellation fees.

The following pro forma key hotel operating statistics for the years ended December 31, 2012 and 2011, respectively, for the hotels reported in continuing operations include the prior year operating statistics for the comparable year period to our 2012 ownership period.

	Year Ended December 31,		
	2012	2011	% Change
Occupancy %	76.4	% 75.5	% 0.9 percentage points
ADR	\$178.35	\$171.69	3.9 %
RevPAR	\$136.22	\$129.57	5.1 %

Hotel operating expenses. Our operating expenses from continuing operations for the years ended December 31, 2012 and 2011 consisted of the following (in millions):

	Year Ended December 31,		
	2012	2011	% Change
Rooms departmental expenses	\$135.4	\$111.4	21.5 %
Food and beverage departmental expenses	124.9	110.0	13.5
Other departmental expenses	19.4	15.7	23.6
General and administrative	59.1	51.6	14.5

Edgar Filing: DiamondRock Hospitality Co - Form 10-K

Utilities	26.1	23.1	13.0

Total hotel operating expenses	\$538.9	\$456.3	18.1 %

-41-

---

Table of Contents

Our hotel operating expenses increased \$82.6 million, or 18.1%, from \$456.3 million for the year ended December 31, 2011 to \$538.9 million for the year ended December 31, 2012. The increase in hotel operating expenses includes amounts that are not comparable year-over-year as follows:

- \$4.9 million increase from the JW Marriott Denver, which was purchased on May 19, 2011.
- \$14.4 million increase from the Lexington Hotel New York, which was purchased on June 1, 2011.
- \$2.8 million increase from the Courtyard Denver Downtown, which was purchased on July 22, 2011.
- \$7.8 million increase from the Hilton Boston Downtown, which was purchased on July 12, 2012.
- \$8.0 million increase from the Westin Washington, D.C. City Center, which was purchased on July 12, 2012.
- \$8.8 million increase from the Westin San Diego, which was purchased on July 12, 2012.
- \$4.5 million increase from the Hilton Burlington, which was purchased on July 12, 2012.
- \$0.5 million increase from the Hotel Rex, which was purchased on November 13, 2012.

The remaining increase in hotel operating expenses of \$30.9 million is primarily due to higher rooms and other departmental costs, driven by higher wages and benefits, and increased support costs, specifically sales and marketing and repairs and maintenance expenses. Property taxes at our comparable hotels increased by \$2.2 million, or 8.4%, primarily as a result of the expiration of the Boston Westin PILOT program in the middle of 2011 and an estimated increase in the assessed value of the Chicago Marriott Downtown.

Depreciation and amortization. Our depreciation and amortization expense increased \$14.8 million from the year ended December 31, 2011 to the year ended December 31, 2012 due primarily to our 2011 and 2012 acquisitions, as well as the extensive renovation which was completed at Frenchman's Reef during 2011.

Corporate expenses. Corporate expenses principally consist of employee-related costs, including base payroll, bonus and restricted stock. Corporate expenses also include corporate operating costs, professional fees and directors' fees. Our corporate expenses decreased \$0.1 million, from \$21.2 million for the year ended December 31, 2011 to \$21.1 million for the year ended December 31, 2012. The decrease in corporate expenses is due primarily to the \$1.7 million litigation settlement which was accrued in 2011, partially offset by higher legal fees related to the bankruptcy proceedings of the Allerton Hotel in 2012 and a \$0.7 million write-off of costs related to a ballroom construction project at the Chicago Marriott Downtown, which we determined was not probable to be completed.

Hotel acquisition costs. We incurred \$10.6 million of hotel acquisition costs during the year ended December 31, 2012 associated with the acquisitions of the Hilton Boston Downtown, Westin Washington D.C. City Center, Westin San Diego, Hilton Burlington and Hotel Rex. We incurred \$2.5 million of hotel acquisition costs during the year ended December 31, 2011 related to the acquisitions of the Times Square development hotel, JW Marriott Denver at Cherry Creek, Lexington Hotel New York, and Courtyard Denver Downtown.

Interest expense. Our interest expense was \$53.8 million and \$45.4 million for the years ended December 31, 2012 and December 31, 2011, respectively. The increase in interest expense is primarily attributable to the mortgage financings on the Hilton Minneapolis and the Lexington Hotel New York and the mortgage loan assumed in our acquisition of the JW Marriott Denver at Cherry Creek, as well as the fair value adjustment on our interest rate cap.

The interest expense for the years ended December 31, 2012 and December 31, 2011 is comprised of the following (in millions):

Year Ended December 31,	
2012	2011

Edgar Filing: DiamondRock Hospitality Co - Form 10-K

Mortgage debt interest	\$48.7	\$42.6
Credit facility interest and unused fees	2.7	2.9
Amortization of deferred financing costs and debt premium	2.7	1.4
Capitalized interest	(1.2	) (1.5
Interest rate cap fair value adjustment	0.9	\$—
	53.8	\$45.4

Interest income. Interest income decreased \$0.3 million from \$0.6 million for the year ended December 31, 2011 to \$0.3 million for the year ended December 31, 2012. The decrease is primarily due to lower corporate cash balances in 2012.

---

Table of Contents

Discontinued operations. Income from discontinued operations represents the operating results of the Torrance Marriott South Bay, which was sold in 2013, and the Renaissance Waverly, Renaissance Austin, Marriott Griffin Gate Resort, and Atlanta Westin North at Perimeter, which were sold in 2012. The following table summarizes the income from discontinued operations for the years ended December 31, 2012 and 2011 (in thousands):

	Year Ended December 31,	
	2012	2011
Hotel revenues	\$ 55,654	\$ 119,564
Hotel operating expenses	(41,424 )	(90,577 )
Operating income	14,230	28,987
Depreciation and amortization	(4,495 )	(17,037 )
Interest income	3	13
Interest expense	(2,297 )	(10,101 )
Impairment charge	(14,690 )	—
Gain on sale of hotel properties, net	9,479	—
Income tax expense	(747 )	(102 )
Income from discontinued operations	\$ 1,483	\$ 1,760

Income taxes. We recorded an income tax benefit on continuing operations of \$6.8 million for the year ended December 31, 2012 and income tax expense on continuing operations of \$2.5 million in 2011. The 2012 income tax benefit from continuing operations includes a \$6.5 million income tax benefit incurred on the \$16.6 million pre-tax loss from continuing operations of our TRS and foreign income tax benefit of \$0.3 million related to the taxable REIT subsidiary that owns Frenchman's Reef. The 2011 income tax expense from continuing operations includes a \$3.8 million income tax expense incurred on the \$8.9 million pre-tax income from continuing operations of our TRS and foreign income tax benefit of \$1.3 million related to the taxable REIT subsidiary that owns Frenchman's Reef.

### Liquidity and Capital Resources

Our short-term liquidity requirements consist primarily of funds necessary to fund distributions to our stockholders to maintain our REIT status as well as to pay for operating expenses and other expenditures directly associated with our hotels, including the funding of our \$140 million capital expenditure program, which continues into early 2014, funding of share repurchases, if any, under our share repurchase program and scheduled debt payments of interest and principal. In addition, we are under contract to purchase a hotel under development during 2014 for approximately \$128 million, of which \$27 million we have funded into escrow as a deposit. We currently expect that our available cash flows, which are generally provided through net cash provided by hotel operations, existing cash balances and, if necessary, short-term borrowings under our credit facility, will be sufficient to meet our short-term liquidity requirements.

Some of our mortgage debt agreements contain "cash trap" provisions that are triggered when the hotel's operating results fall below a certain debt service coverage ratio. When these provisions are triggered, all of the excess cash flow generated by the hotel is deposited directly into cash management accounts for the benefit of our lenders until a specified debt service coverage ratio is reached and maintained for a certain period of time. Such provisions do not allow the lender the right to accelerate repayment of the underlying debt.

The Lexington Hotel New York mortgage loan contains a quarterly financial covenant requiring a minimum debt service coverage ratio ("DSCR"), as defined in the loan agreement, of 1.1 times. As a result of the ongoing renovation of the hotel during most of 2013, the DSCR fell below the minimum requirement for the quarters ended September 30,

2013 and December 31, 2013. Under the loan agreement, we have the ability to cure the default by depositing the amount of the DSCR shortfall into a reserve with the lender. If we do not fund the DSCR shortfall and cure the default, the loan becomes due and payable. We funded the DSCR shortfall of \$2.0 million as of September 30, 2013 during the fourth quarter of 2013 and funded an additional \$2.2 million during the first quarter of 2014. The reserve will be released back to us when the DSCR is above 1.1 times, which we expect to occur in the second quarter of 2014. In addition, the cash trap provision was triggered on the loan during 2013.

Our long-term liquidity requirements consist primarily of funds necessary to pay for the costs of acquiring additional hotels, renovations, expansions and other capital expenditures that need to be made periodically to our hotels, scheduled debt payments, debt maturities and making distributions to our stockholders. We expect to meet our long-term liquidity requirements through various sources of capital, including cash provided by operations, borrowings, issuances of additional equity or debt securities

## Table of Contents

and proceeds from property dispositions. Our ability to incur additional debt is dependent upon a number of factors, including the state of the credit markets, our degree of leverage, the value of our unencumbered assets and borrowing restrictions imposed by existing lenders. Our ability to raise capital through the issuance of additional equity and/or debt securities is also dependent on a number of factors including the current state of the capital markets, investor sentiment and intended use of proceeds. We may need to raise additional capital if we identify acquisition opportunities that meet our investment objectives.

### Our Financing Strategy

Since our formation in 2004, we have been committed to a conservative capital structure with prudent leverage. The majority of our outstanding debt is fixed interest rate mortgage debt. We currently have no outstanding borrowings under our \$200 million senior unsecured credit facility. We have a preference to maintain a significant portion of our portfolio as unencumbered assets in order to provide balance sheet flexibility. In addition, to the extent that we incur additional debt, our preference is non-recourse secured mortgage debt. We expect that our strategy will enable us to maintain a balance sheet with an appropriate amount of debt throughout all phases of the lodging cycle. We believe that it is not prudent to increase the inherent risk of highly cyclical lodging fundamentals through the use of a highly leveraged capital structure.

We have mortgage debt maturities that start in late 2014, with significant maturities in 2015 (approximately \$230 million) and 2016 (approximately \$305 million). We have the ability to address these maturities, as well as other capital needs, with a combination of the following:

- refinancing proceeds on existing encumbered hotels;
- borrowing capacity on our existing unencumbered hotels;
- proceeds from the disposition of non-core hotels;
- capacity on our \$200 million senior unsecured credit facility; and
- annual free cash flow from operations.

We prefer a relatively simple but efficient capital structure. We have not invested in joint ventures and have not issued any operating partnership units or preferred stock. We endeavor to structure our hotel acquisitions so that they will not overly complicate our capital structure; however, we will consider a more complex transaction if we believe that the projected returns to our stockholders will significantly exceed the returns that would otherwise be available.

We believe that we maintain a reasonable amount of debt. As of December 31, 2013, we had \$1.1 billion of debt outstanding with a weighted average interest rate of 5.17% and a weighted average maturity date of approximately 3.7 years. We maintain one of the most durable and lowest levered balance sheets among our lodging REIT peers. We maintain balance sheet flexibility with limited near term debt maturities, full capacity on our senior unsecured credit facility and 12 of our 26 hotels unencumbered by mortgage debt. We remain committed to our core strategy of maintaining a simple capital structure with conservative leverage.

### Short-Term Borrowings

Other than borrowings under our senior unsecured credit facility, we do not utilize short-term borrowings to meet liquidity requirements. As of December 31, 2013, we had no borrowings outstanding under our senior unsecured credit facility.

#### Senior Unsecured Credit Facility

We are party to a five-year, \$200 million unsecured credit facility expiring in January 2017. The maturity date of the facility may be extended for an additional year upon the payment of applicable fees and the satisfaction of certain other customary conditions. We also have the right to increase the amount of the facility up to \$400 million with lender approval. Interest is paid on the periodic advances under the facility at varying rates, based upon LIBOR, plus an agreed upon additional margin amount. The applicable margin is based upon the Company's ratio of net indebtedness to EBITDA, as follows:

-44-

---

Table of Contents

Ratio of Net Indebtedness to EBITDA	Applicable Margin	
Less than 4.00 to 1.00	1.75	%
Greater than or equal to 4.00 to 1.00 but less than 5.00 to 1.00	1.90	%
Greater than or equal to 5.00 to 1.00 but less than 5.50 to 1.00	2.10	%
Greater than or equal to 5.50 to 1.00 but less than 6.00 to 1.00	2.20	%
Greater than or equal to 6.00 to 1.00 but less than 6.50 to 1.00	2.50	%
Greater than or equal to 6.50 to 1.00	2.75	%

In addition to the interest payable on amounts outstanding under the facility, we are required to pay an amount equal to 0.35% of the unused portion of the facility if the unused portion of the facility is greater than 50% or 0.25% if the unused portion of the facility is less than or equal to 50%.

The facility contains various corporate financial covenants. A summary of the most restrictive covenants is as follows:

	Covenant	Actual at December 31, 2013
Maximum leverage ratio(1)	60%	42.9%
Minimum fixed charge coverage ratio(2)	1.50x	2.43x
Minimum tangible net worth(3)	\$1.857 billion	\$2.282 billion
Secured recourse indebtedness(4)	Less than 50% of Total Asset Value	39%

(1) Leverage ratio is total indebtedness, as defined in the credit agreement and which includes our commitment on the Times Square development hotel, divided by total asset value, which is defined in the credit agreement as (a) total cash and cash equivalents plus (b) the value of our owned hotels based on hotel net operating income divided by a defined capitalization rate, and (c) the book value of the Allerton Loan.

(2) Fixed charge coverage ratio is Adjusted EBITDA, which is defined in the credit agreement as EBITDA less FF&E reserves, for the most recently ending 12 fiscal months, to fixed charges, which is defined in the credit agreement as interest expense, all regularly scheduled principal payments and payments on capitalized lease obligations, for the same most recently ending 12-month period.

(3) Tangible net worth, as defined in the credit agreement, is (i) total gross book value of all assets, exclusive of depreciation and amortization, less intangible assets, total indebtedness, and all other liabilities, plus (ii) 75% of net proceeds from future equity issuances.

(4) After December 31, 2013, the secured recourse indebtedness covenant threshold will decrease to 45% of Total Asset Value, as defined in the credit agreement.

The facility requires us to maintain a specific pool of unencumbered borrowing base properties. The unencumbered borrowing base must include a minimum of five properties with an unencumbered borrowing base value, as defined in the credit agreement, of not less than \$250 million. As of December 31, 2013, the unencumbered borrowing base included 5 properties with a borrowing base value of over \$319 million.

As of December 31, 2013, we had no borrowings outstanding under the facility and the Company's ratio of net indebtedness to EBITDA was 4.3x. Accordingly, interest on our borrowings under the facility will continue to be based on LIBOR plus 190 basis points for the next fiscal quarter. We incurred interest and unused credit facility fees on the facility of \$0.9 million, \$2.7 million and \$2.9 million for the years ended December 31, 2013, 2012 and 2011, respectively.

### Sources and Uses of Cash

Our principal sources of cash are net cash flow from hotel operations, borrowings under mortgage debt and our credit facility. Our principal uses of cash are acquisitions of hotel properties, debt service, capital expenditures, operating costs, corporate expenses and dividends. As of December 31, 2013, we had \$144.6 million of unrestricted corporate cash, \$89.1 million of restricted cash, and \$200.0 million of borrowing capacity under our credit facility.

Our net cash provided by operations was \$143.7 million for the year ended December 31, 2013. Our cash from operations generally consists of the net cash flow from hotel operations offset by cash paid for corporate expenses, cash paid for interest, funding of lender escrow reserves and other working capital changes.

Table of Contents

Our net cash used in investing activities was \$42.0 million for the year ended December 31, 2013 primarily as a result of capital expenditures at our hotels of \$107.3 million, funding of a lender-held property improvement plan reserve for the Westin San Diego of \$11.7 million, and an additional \$5.0 million deposit on the hotel in development in Times Square, offset by \$76.4 million of proceeds from the sale of the Torrance Marriott South Bay, \$6.6 million of principal payments on the Allerton Loan, and \$4.6 million received as key money.

Our net cash provided by financing activities was \$33.2 million for the year ended December 31, 2013 and consisted primarily of \$102.0 million of loan proceeds from the financings of The Lodge at Sonoma and the Westin San Diego, \$34.2 million of net proceeds resulting from the new financing of the Salt Lake City Marriott Downtown and offsetting defeasance costs, offset by net repayments on our senior unsecured credit facility of \$20 million, \$65.7 million of dividend payments, \$2.0 million paid to repurchase shares upon the vesting of restricted stock for the payment of tax withholding obligations, as well as \$14.2 million of scheduled mortgage debt principal payments.

We currently anticipate our significant sources of cash for the year ending December 31, 2014 will be the net cash flow from hotel operations and existing corporate cash balances. We expect our estimated uses of cash for the year ending December 31, 2014 will be comprised of the acquisition of the hotel under development in New York City, capital expenditures, as more fully described below, regularly scheduled debt service payments, dividends and corporate expenses.

Dividend Policy

We intend to distribute to our stockholders dividends at least equal to our REIT taxable income so as to avoid paying corporate income tax and excise tax on our earnings (other than the earnings of our TRS and TRS lessees, which are all subject to tax at regular corporate rates) and to qualify for the tax benefits afforded to REITs under the Code. In order to qualify as a REIT under the Code, we generally must make distributions to our stockholders each year in an amount equal to at least:

- 90% of our REIT taxable income determined without regard to the dividends paid deduction and excluding net capital gains, plus

- 90% of the excess of our net income from foreclosure property over the tax imposed on such income by the Code, minus

- any excess non-cash income.

The timing and frequency of distributions will be authorized by our board of directors and declared by us based upon a variety of factors, including our financial performance, restrictions under applicable law and our current and future loan agreements, our debt service requirements, our capital expenditure requirements, the requirements for qualification as a REIT under the Code and other factors that our board of directors may deem relevant from time to time.

The following table sets forth the dividends on our common shares for the years ended December 31, 2013 and 2012:

Payment Date	Record Date	Dividend per Share
April 4, 2012	March 23, 2012	\$0.080
May 29, 2012	May 15, 2012	\$0.080

Edgar Filing: DiamondRock Hospitality Co - Form 10-K

September 19, 2012	September 7, 2012	\$0.080
January 10, 2013	December 31, 2012	\$0.080
April 12, 2013	March 28, 2013	\$0.085
July 11, 2013	June 28, 2013	\$0.085
October 10, 2013	September 30, 2013	\$0.085
January 10, 2014	December 31, 2013	\$0.085

Capital Expenditures

The management and franchise agreements for each of our hotels provide for the establishment of separate property improvement funds to cover, among other things, the cost of replacing and repairing furniture, fixtures and equipment at our hotels. Contributions to the property improvement fund are calculated as a percentage of hotel revenues. In addition, we may be required to pay for the cost of certain additional improvements that are not permitted to be funded from the property improvement fund

-46-

---

Table of Contents

under the applicable management or franchise agreement. As of December 31, 2013, we have set aside \$49.0 million for capital projects in property improvement funds, which are included in restricted cash.

During 2013, we commenced approximately \$140 million of capital improvements, which were funded from existing corporate cash and cash flows from hotel operations, as well as from existing reserves. We spent approximately \$107.3 million on capital improvements during the year ended December 31, 2013. Our significant projects in the capital expenditure program included the following:

- Lexington Hotel New York: We completed our comprehensive renovation of the Lexington Hotel New York in October 2013. The hotel joined Marriott's Autograph Collection in August 2013.
- Manhattan Courtyards: We completed the renovation of the guestrooms, corridors and guest bathrooms at the Courtyard Manhattan/Midtown East and Courtyard Manhattan/Fifth Avenue during the second quarter of 2013. The renovation scope at the Courtyard Midtown East also included the public space and the addition of five new guest rooms.
- Westin Washington D.C.: We commenced a comprehensive \$17 million renovation in October 2013, which was substantially completed in February 2014.
- Westin San Diego: We commenced a comprehensive \$14.5 million renovation in October 2013, which was substantially completed in January 2014.
- Hilton Minneapolis: We commenced a \$13 million renovation of the guest rooms, guest bathrooms and corridors in November 2013, which will be substantially completed by the end of the first quarter of 2014.
- Hilton Boston Downtown: We commenced a \$7 million renovation of the guest rooms, corridors, public areas, and meeting space in October 2013, which was substantially completed at the end of 2013.
- Hilton Burlington: We commenced a \$6 million renovation of the lobby, corridors, guest rooms and outdoor space in November 2013, which was substantially completed at the end of 2013.

## Contractual Obligations

The following table outlines the timing of payment requirements related to our debt and other commitments of our operating partnership as of December 31, 2013.

	Payments Due by Period				
	Total	Less Than 1 Year	1 to 3 Years	4 to 5 Years	After 5 Years
	(In thousands)				
Long-Term Debt Obligations Including Interest	\$1,285,205	\$112,286	\$627,555	\$215,267	\$330,097
Operating Lease Obligations - Ground Leases and Office Space	668,352	10,135	20,746	21,939	615,532
Total	\$1,953,557	\$122,421	\$648,301	\$237,206	\$945,629

In 2011, we entered into a purchase and sale agreement to acquire, upon completion, a hotel property under development on West 42nd Street in Times Square, New York City. Upon completion by the third-party developer, the hotel will have 282 guest rooms. The contractual purchase price is approximately \$128 million, or approximately \$450,000 per guest room. The purchase and sale agreement is for a fixed-price and we are not assuming any construction risk (including not assuming the risk of construction cost overruns). We expect that the hotel will open during 2014.

Upon entering into the purchase and sale agreement, we deposited \$20.0 million with a third-party escrow agent. During the years ended December 31, 2013 and 2012, we made additional deposits of \$5.0 million and \$1.9 million,

respectively. All deposits are interest bearing. We will forfeit our deposits if we do not close on the acquisition of the hotel upon substantial completion of construction, unless the seller fails to meet certain conditions, including substantial completion of the hotel within a specified time frame and construction of the hotel within the contractual scope.

-47-

---

## Table of Contents

### Off-Balance Sheet Arrangements

We have no off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that is material to investors.

### Non-GAAP Financial Measures

We use the following non-GAAP financial measures that we believe are useful to investors as key measures of our operating performance: EBITDA, Adjusted EBITDA, FFO and Adjusted FFO. These measures should not be considered in isolation or as a substitute for measures of performance in accordance with GAAP. EBITDA, Adjusted EBITDA, FFO and Adjusted FFO, as calculated by us, may not be comparable to other companies that do not define such terms exactly as the Company.

### EBITDA and FFO

EBITDA represents net income excluding: (1) interest expense; (2) provision for income taxes, including income taxes applicable to sale of assets; and (3) depreciation and amortization. We believe EBITDA is useful to an investor in evaluating our operating performance because it helps investors evaluate and compare the results of our operations from period to period by removing the impact of our capital structure (primarily interest expense) and our asset base (primarily depreciation and amortization) from our operating results. In addition, covenants included in our indebtedness use EBITDA as a measure of financial compliance. We also use EBITDA as one measure in determining the value of hotel acquisitions and dispositions.

The Company computes FFO in accordance with standards established by the National Association of Real Estate Investment Trusts (NAREIT), which defines FFO as net income determined in accordance with GAAP, excluding gains or losses from sales of properties and impairment losses, plus depreciation and amortization. The Company believes that the presentation of FFO provides useful information to investors regarding its operating performance because it is a measure of the Company's operations without regard to specified non-cash items, such as real estate depreciation and amortization and gain or loss on sale of assets. The Company also uses FFO as one measure in assessing its results.

### Adjustments to EBITDA and FFO

We adjust EBITDA and FFO when evaluating our performance because we believe that the exclusion of certain additional recurring and non-recurring items described below provides useful supplemental information to investors regarding our ongoing operating performance and that the presentation of Adjusted EBITDA and Adjusted FFO, when combined with GAAP net income, EBITDA and FFO, is beneficial to an investor's complete understanding of our operating performance. We adjust EBITDA and FFO for the following items:

• **Non-Cash Ground Rent:** We exclude the non-cash expense incurred from the straight line recognition of rent from our ground lease obligations and the non-cash amortization of our favorable lease assets.

• **Non-Cash Amortization of Favorable and Unfavorable Contracts:** We exclude the non-cash amortization of the favorable management contract assets recorded in conjunction with our acquisitions of the Westin Washington D.C. City Center, Westin San Diego, and Hilton Burlington and the non-cash amortization of the unfavorable contract liabilities recorded in conjunction with our acquisitions of the Bethesda Marriott Suites, the Chicago Marriott Downtown, the Renaissance Charleston and the Lexington Hotel New York. The amortization of the favorable and

unfavorable contracts does not reflect the underlying operating performance of our hotels.

**Cumulative Effect of a Change in Accounting Principle:** Infrequently, the Financial Accounting Standards Board (FASB) promulgates new accounting standards that require the consolidated statement of operations to reflect the cumulative effect of a change in accounting principle. We exclude the effect of these one-time adjustments because they do not reflect its actual performance for that period.

**Gains or Losses from Early Extinguishment of Debt:** We exclude the effect of gains or losses recorded on the early extinguishment of debt because we believe they do not accurately reflect the underlying performance of the Company.

**Acquisition Costs:** We exclude acquisition transaction costs expensed during the period because we believe they do not reflect the underlying performance of the Company.

**Allerton Loan:** In 2012, due to the uncertainty of the timing of the bankruptcy resolution, we excluded both cash interest payments received and the legal costs incurred as a result of the bankruptcy proceedings from our calculation of Adjusted EBITDA and Adjusted FFO. Due to the settlement of the bankruptcy proceedings and amended and restated loan, we commenced recognizing interest income in 2013, which includes the amortization of the difference between the carrying basis of the old loan and face value of the new loan. Cash payments received during 2010 and 2011 that were included

Table of Contents

in Adjusted EBITDA and Adjusted FFO and reduced the carrying basis of the loan are now deducted from Adjusted EBITDA and Adjusted FFO on a straight-line basis over the anticipated five-year term of the new loan.

Other Non-Cash and /or Unusual Items: From time to time we incur costs or realize gains that we do not believe reflect the underlying performance of the Company. Such items include, but are not limited to, pre-opening costs, contract termination fees and severance costs. In 2012, we excluded the franchise termination fee paid to Radisson Hotels International Inc. for the Lexington Hotel. In 2013, we excluded the severance costs associated with the departure of our former President and Chief Operating Officer, as well as the write off of unamortized key money, net of a termination payment, related to the termination of the Oak Brook Hills Resort management agreement.

In addition, to derive Adjusted EBITDA we exclude gains or losses on dispositions and impairment losses because we believe that including them in EBITDA does not reflect the ongoing performance of our hotels. Additionally, the gain or loss on dispositions and impairment losses represent either accelerated depreciation or excess depreciation in previous periods, and depreciation is excluded from EBITDA.

In addition, to derive Adjusted FFO we exclude any fair value adjustments to debt instruments. Specifically, we exclude the impact of the non-cash amortization of the debt premium recorded in conjunction with the acquisition of the JW Marriott Denver at Cherry Creek and fair market value adjustments to the Company's interest rate cap agreement.

The following table is a reconciliation of our U.S. GAAP net income (loss) to EBITDA and Adjusted EBITDA (in thousands):

	Year Ended December 31,		
	2013	2012	2011
	(in thousands)		
Net income (loss)	\$ 49,065	\$ (16,592 )	\$ (7,678 )
Interest expense (1)	57,279	56,068	55,507
Income tax expense (benefit) (2)	(16 )	(6,046 )	2,623
Real estate related depreciation (3)	105,655	101,498	99,224
EBITDA	211,983	134,928	149,676
Non-cash ground rent	6,787	6,694	6,996
Non-cash amortization of favorable and unfavorable contracts, net	(1,487 )	(1,653 )	(1,860 )
Gain on sale of hotel properties, net	(22,733 )	(9,479 )	—
Loss (gain) on early extinguishment of debt	1,492	(144 )	—
Acquisition costs	—	10,591	2,521
Reversal of previously recognized Allerton income	(1,163 )	—	—
Allerton loan interest payments	—	—	3,163
Allerton loan legal fees	—	2,493	—
Severance costs	3,065	—	—
Write-off of key money	(1,082 )	—	—
Franchise termination fee	—	750	—
Litigation settlement	—	—	1,650
Impairment losses (4)	—	45,534	—
Adjusted EBITDA	\$ 196,862	\$ 189,714	\$ 162,146

(1) Amounts include interest expense reported in discontinued operations as follows: \$2.3 million in 2012 and \$10.1 million in 2011.

- (2) Amounts include income tax expense (benefit) reported in discontinued operations as follows: \$1.1 million in 2013, \$0.7 million in 2012, and \$0.1 million in 2011.
- (3) Amounts include depreciation expense reported in discontinued operations as follows: \$1.8 million in 2013, \$4.5 million in 2012, and \$17.0 million in 2011.
- (4) Amounts include impairment losses reported in discontinued operations as follows: \$14.7 million in 2012.

Fair value adjustments to debt instruments	(298)	471	(373)
Adjusted FFO	\$139,301	\$140,163	\$103,643

(1) Amounts include depreciation expense reported in discontinued operations as follows: \$1.8 million in 2013, \$4.5 million in 2012, and \$17.0 million in 2011.

(2) Amounts include impairment losses reported in discontinued operations of \$14.7 million in 2012.

#### Use and Limitations of Non-GAAP Financial Measures

Our management and Board of Directors use EBITDA, Adjusted EBITDA, FFO and Adjusted FFO to evaluate the performance of our hotels and to facilitate comparisons between us and other lodging REITs, hotel owners who are not REITs and other capital intensive companies. The use of these non-GAAP financial measures has certain limitations. These non-GAAP financial measures as presented by us, may not be comparable to non-GAAP financial measures as calculated by other real estate companies. These measures do not reflect certain expenses or expenditures that we incurred and will incur, such as depreciation, interest and capital expenditures. We compensate for these limitations by separately considering the impact of these excluded items to the extent they are material to operating decisions or assessments of our operating performance. Our reconciliations to the most comparable GAAP financial measures, and our consolidated statements of operations and cash flows, include interest expense, capital expenditures, and other excluded items, all of which should be considered when evaluating our performance, as well as the usefulness of our non-GAAP financial measures.

These non-GAAP financial measures are used in addition to and in conjunction with results presented in accordance with GAAP. They should not be considered as alternatives to operating profit, cash flow from operations, or any other operating performance measure prescribed by GAAP. These non-GAAP financial measures reflect additional ways of viewing our operations that we believe, when viewed with our GAAP results and the reconciliations to the corresponding GAAP financial measures, provide a more complete understanding of factors and trends affecting our business than could be obtained absent this disclosure. We strongly encourage investors to review our financial

information in its entirety and not to rely on a single financial measure.

#### Critical Accounting Policies

Our consolidated financial statements include the accounts of DiamondRock Hospitality Company and all consolidated subsidiaries. The preparation of financial statements in conformity with U.S. generally accepted accounting principles, or GAAP, requires management to make estimates and assumptions that affect the reported amount of assets and liabilities at the date of our

-50-

---

## Table of Contents

financial statements and the reported amounts of revenues and expenses during the reporting period. While we do not believe the reported amounts would be materially different, application of these policies involves the exercise of judgment and the use of assumptions as to future uncertainties and, as a result, actual results could differ materially from these estimates. We evaluate our estimates and judgments, including those related to the impairment of long-lived assets, on an ongoing basis. We base our estimates on experience and on various other assumptions that are believed to be reasonable under the circumstances. All of our significant accounting policies are disclosed in the notes to our consolidated financial statements. The following represent certain critical accounting policies that require us to exercise our business judgment or make significant estimates:

**Investment in Hotels.** Acquired hotels, land improvements, building and furniture, fixtures and equipment and identifiable intangible assets are initially recorded at fair value. Additions to property and equipment, including current buildings, improvements, furniture, fixtures and equipment are recorded at cost. Property and equipment are depreciated using the straight-line method over an estimated useful life of 15 to 40 years for buildings and land improvements and one to ten years for furniture and equipment. Identifiable intangible assets are typically related to contracts, including ground lease agreements and hotel management agreements, which are recorded at fair value. Above-market and below-market contract values are based on the present value of the difference between contractual amounts to be paid pursuant to the contracts acquired and our estimate of the fair market contract rates for corresponding contracts. Contracts acquired that are at market do not have significant value. We typically enter into a new hotel management agreement based on market terms at the time of acquisition. Intangible assets are amortized using the straight-line method over the remaining non-cancelable term of the related agreements. In making estimates of fair values for purposes of allocating purchase price, we may utilize a number of sources that may be obtained in connection with the acquisition or financing of a property and other market data. Management also considers information obtained about each property as a result of its pre-acquisition due diligence in estimating the fair value of the tangible and intangible assets acquired.

We review our investments in hotels for impairment whenever events or changes in circumstances indicate that the carrying value of the investments in hotels may not be recoverable. Events or circumstances that may cause us to perform a review include, but are not limited to, adverse changes in the demand for lodging at our properties due to declining national or local economic conditions and/or new hotel construction in markets where our hotels are located. When such conditions exist, management performs an analysis to determine if the estimated undiscounted future cash flows from operations and the proceeds from the ultimate disposition of an investment in a hotel exceed the hotel's carrying value. If the estimated undiscounted future cash flows are less than the carrying amount of the asset, an adjustment to reduce the carrying value to the estimated fair market value is recorded and an impairment loss recognized. Fair market value is estimated based on market data, estimated cash flows discounted at an appropriate rate, comparable sales information and other considerations requiring management to use its judgment in determining the assumptions used.

While our hotels have experienced improvement in certain key operating measures as the general economic conditions improve, the operating performance at certain of our hotels has not achieved our expected levels. As part of our overall capital allocation strategy, we assess underperforming hotels for possible disposition, which could result in a reduction in the carrying values of these properties.

**Revenue Recognition.** Hotel revenues, including room, golf, food and beverage, and other hotel revenues, are recognized as the related services are provided. Additionally, our operators collect sales, use, occupancy and similar taxes at our hotels which are excluded from revenue in our consolidated statements of operations (revenue is recorded net of such taxes).

**Stock-based Compensation.** We account for stock-based employee compensation using the fair value based method of accounting. We record the cost of stock-based awards based on the grant-date fair value of the award. For awards based on market conditions, the grant-date fair value is derived using an open form valuation model. The cost of the award is recognized over the period during which an employee is required to provide service in exchange for the award. No compensation cost is recognized for equity instruments for which employees do not render the requisite service.

**Income Taxes.** Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities from a change in tax rates is recognized in earnings in the period when the new rate is enacted.

We have elected to be treated as a REIT under the provisions of the Code and, as such, are not subject to federal income tax, provided we distribute all of our taxable income annually to our stockholders and comply with certain other requirements. In addition to paying federal and state income tax on any retained income, we are subject to taxes on “built-in-gains” on sales of certain assets. Additionally, our taxable REIT subsidiaries are subject to federal, state and foreign income tax.

## Table of Contents

**Notes Receivable.** We initially record acquired notes receivable at cost. Notes receivable are evaluated for collectability and if collectability of the original amounts due is in doubt, the value is adjusted for impairment. If collectability is in doubt, the note is placed in non-accrual status. No interest is recorded on such notes until the timing and amounts of cash receipts can be reasonably estimated. We record cash payments received on non-accrual notes receivable as a reduction in basis. We continually assess the current facts and circumstances to determine whether we can reasonably estimate cash flows. If we can reasonably estimate the timing and amount of cash flows to be collected, then income recognition becomes possible.

### Inflation

Operators of hotels, in general, possess the ability to adjust room rates daily to reflect the effects of inflation. However, competitive pressures may limit the ability of our management companies to raise room rates.

### Seasonality

The operations of hotels historically have been seasonal depending on location, and accordingly, we expect some seasonality in our business.

### New Accounting Pronouncements Not Yet Implemented

There are no new unimplemented accounting pronouncements that are expected to have a material impact on our results of operations, financial position or cash flows.

### Item 7A. Quantitative and Qualitative Disclosures about Market Risk

Market risk includes risks that arise from changes in interest rates, foreign currency exchange rates, commodity prices, equity prices and other market changes that affect market sensitive instruments. In pursuing our business strategies, the primary market risk to which we are currently exposed, and, to which we expect to be exposed in the future, is interest rate risk. The face amount of our outstanding debt as of December 31, 2013 was \$1.1 billion, of which \$170.4 million was variable rate. If market rates of interest on our variable rate debt fluctuate by 25 basis points, interest expense would increase or decrease, depending on rate movement, future earnings and cash flows, by approximately \$0.4 million annually.

### Item 8. Financial Statements and Supplementary Data

See Index to the Financial Statements on page F-1.

### Item 9. Changes in and Disagreements with Accountants on Accounting and Financial Disclosure

None.

### Item 9A. Controls and Procedures

#### Evaluation of Disclosure Controls and Procedures

The Company's management has evaluated, under the supervision and with the participation of the Company's Chief Executive Officer and Chief Financial Officer, the effectiveness of the disclosure controls and procedures (as defined

in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”), as required by paragraph (b) of Rules 13a-15 and 15d-15 under the Exchange Act, and has concluded that as of the end of the period covered by this report, the Company’s disclosure controls and procedures were effective to give reasonable assurances that information we disclose in reports filed with the Securities and Exchange Commission (i) is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission’s rules and forms and (ii) is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding disclosure.

#### Changes in Internal Control over Financial Reporting

There was no change in the Company’s internal control over financial reporting identified in connection with the evaluation required by paragraph (d) of Rules 13a-15 and 15d-15 under the Exchange Act during the Company’s most recent fiscal quarter that materially affected, or is reasonably likely to materially affect, the Company’s internal control over financial reporting.

Management's Report on Internal Control Over Financial Reporting

Management is responsible for establishing and maintaining adequate internal control over financial reporting for the company. Internal control over financial reporting refers to the process designed by, or under the supervision of, our Chief Executive Officer and Chief Financial Officer, and effected by our board of directors, management and other personnel, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles, and includes those policies and procedures that:

- (1) Pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
- (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the company's assets that could have a material effect on the financial statements.

Internal control over financial reporting cannot provide absolute assurance of achieving financial reporting objectives because of its inherent limitations. Internal control over financial reporting is a process that involves human diligence and compliance and is subject to lapses in judgment and breakdowns resulting from human failures. Internal control over financial reporting also can be circumvented by collusion or improper management override. Because of such limitations, there is a risk that material misstatements may not be prevented or detected on a timely basis by internal control over financial reporting. However, these inherent limitations are known features of the financial reporting process. Therefore, it is possible to design into the process safeguards to reduce, though not eliminate, this risk.

Management has used the framework set forth in the report entitled Internal Control - Integrated Framework (1992) published by the Committee of Sponsoring Organizations of the Treadway Commission to evaluate the effectiveness of the Company's internal control over financial reporting. Management has concluded that the Company's internal control over financial reporting was effective as of December 31, 2013. KPMG LLP, an independent registered public accounting firm, has audited the Company's financial statements and issued an attestation report on the Company's internal control over financial reporting as of December 31, 2013.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders  
DiamondRock Hospitality Company:

We have audited the consolidated financial statements of DiamondRock Hospitality Company and subsidiaries (the “Company”) as listed in the accompanying index. In connection with our audits of the consolidated financial statements, we also have audited the financial statement schedule as listed in the accompanying index. These consolidated financial statements and financial statement schedule are the responsibility of the Company's management. Our responsibility is to express an opinion on these consolidated financial statements and financial statement schedule based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of DiamondRock Hospitality Company and subsidiaries as of December 31, 2013 and 2012, and the results of their operations and their cash flows for each of the years in the three-year period ended December 31, 2013, in conformity with U.S. generally accepted accounting principles. Also, in our opinion, the related financial statement schedule referred to above, when considered in relation to the basic consolidated financial statements taken as a whole, presents fairly, in all material respects, the information set forth therein.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), DiamondRock Hospitality Company's internal control over financial reporting as of December 31, 2013, based on criteria established in Internal Control - Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission, and our report dated February 25, 2014, expressed an unqualified opinion on the effectiveness of the Company's internal control over financial reporting.

Report of Independent Registered Public Accounting Firm

The Board of Directors and Stockholders  
DiamondRock Hospitality Company:

We have audited DiamondRock Hospitality Company's (the Company) internal control over financial reporting as of December 31, 2013, based on criteria established in Internal Control - Integrated Framework (1992) issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO). The Company's management is responsible for maintaining effective internal control over financial reporting and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Report on Internal Control Over Financial Reporting. Our responsibility is to express an opinion on the Company's internal control over financial reporting based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether effective internal control over financial reporting was maintained in all material respects. Our audit included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audit also included performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion.

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

In our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 31, 2013, based on criteria established in Internal Control - Integrated Framework (1992) issued by the COSO.

We also have audited, in accordance with the standards of the Public Company Accounting Oversight Board (United States), the consolidated balance sheets of the Company as of December 31, 2013 and 2012 and the related consolidated statements of operations, stockholders' equity and cash flows for each of the years in the three-year period ended December 31, 2013, and our report dated February 25, 2014, expressed an unqualified opinion on those consolidated financial statements.

## Table of Contents

### DIAMONDROCK HOSPITALITY COMPANY

#### Notes to the Consolidated Financial Statements

##### 1. Organization

DiamondRock Hospitality Company (the “Company” or “we”) is a lodging-focused real estate company that owns a portfolio of premium hotels and resorts. Our hotels are concentrated in key gateway cities and in destination resort locations and most are operated under a brand owned by one of the leading global lodging brand companies (Marriott International, Inc. (“Marriott”), Starwood Hotels & Resorts Worldwide, Inc. (“Starwood”), or Hilton Worldwide (“Hilton”)). We are an owner, as opposed to an operator, of the hotels in our portfolio. As an owner, we receive all of the operating profits or losses generated by our hotels after we pay fees to the hotel managers, which are based on the revenues and profitability of the hotels.

As of December 31, 2013, we owned 26 hotels with 11,121 rooms, located in the following markets: Atlanta, Georgia; Boston, Massachusetts (2); Burlington, Vermont; Charleston, South Carolina; Chicago, Illinois (2); Denver, Colorado (2); Fort Worth, Texas; Los Angeles, California; Minneapolis, Minnesota; New York, New York (4); Oak Brook, Illinois; Orlando, Florida; Salt Lake City, Utah; San Diego, California; San Francisco, California; Sonoma, California; Washington D.C. (2); St. Thomas, U.S. Virgin Islands; and Vail, Colorado. We also own a senior mortgage loan secured by a 443-room hotel located in Chicago, Illinois and have the right to acquire, upon completion in 2014, a 282-room hotel under development in New York City.

We conduct our business through a traditional umbrella partnership REIT, or UPREIT, in which our hotel properties are owned by our operating partnership, DiamondRock Hospitality Limited Partnership, or subsidiaries of our operating partnership. The Company is the sole general partner of the operating partnership and currently owns, either directly or indirectly, all of the limited partnership units of the operating partnership.

##### 2. Summary of Significant Accounting Policies

###### Basis of Presentation

Our financial statements include all of the accounts of the Company and its subsidiaries in accordance with U.S. GAAP. All intercompany accounts and transactions have been eliminated in consolidation. If the Company determines that it has an interest in a variable interest entity within the meaning of the FASB ASC 810, Consolidation, the Company will consolidate the entity when it is determined to be the primary beneficiary of the entity.

###### Use of Estimates

The preparation of the financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

###### Risks and Uncertainties

The state of the overall economy can significantly impact hotel operational performance and thus, impact our financial position. Should any of our hotels experience a significant decline in operational performance, it may affect our ability

to make distributions to our stockholders and service debt or meet other financial obligations.

#### Fair Value Measurements

In evaluating fair value, U.S. GAAP outlines a valuation framework and creates a fair value hierarchy that distinguishes between market assumptions based on market data (observable inputs) and a reporting entity's own assumptions about market data (unobservable inputs). The hierarchy ranks the quality and reliability of inputs used to determine fair value, which are then classified and disclosed in one of the three categories. The three levels are as follows:

- Level 1 - Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2 - Inputs include quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar assets in markets that are not active and model-derived valuations whose inputs are observable
- Level 3 - Model-derived valuations with unobservable inputs

F-10

---

## Table of Contents

### Property and Equipment

Investments in hotel properties, land, land improvements, building and furniture, fixtures and equipment and identifiable intangible assets are recorded at fair value upon acquisition. Property and equipment purchased after the hotel acquisition date is recorded at cost. Replacements and improvements are capitalized, while repairs and maintenance are expensed as incurred. Upon the sale or retirement of a fixed asset, the cost and related accumulated depreciation is removed from the Company's accounts and any resulting gain or loss is included in the statements of operations.

Depreciation is computed using the straight-line method over the estimated useful lives of the assets, generally 15 to 40 years for buildings, land improvements, and building improvements and 1 to 10 years for furniture, fixtures and equipment. Leasehold improvements are amortized over the shorter of the lease term or the useful lives of the related assets.

We review our investments in hotel properties for impairment whenever events or changes in circumstances indicate that the carrying value of the hotel properties may not be recoverable. Events or circumstances that may cause a review include, but are not limited to, adverse changes in the demand for lodging at the properties due to declining national or local economic conditions and/or new hotel construction in markets where the hotels are located. When such conditions exist, management performs an analysis to determine if the estimated undiscounted future cash flows from operations and the proceeds from the ultimate disposition of a hotel exceed its carrying value. If the estimated undiscounted future cash flows are less than the carrying amount of the asset, an adjustment to reduce the carrying amount to the related hotel's estimated fair market value is recorded and an impairment loss is recognized.

We will classify a hotel as held for sale in the period that we have made the decision to dispose of the hotel, a binding agreement to purchase the property has been signed under which the buyer has committed a significant amount of nonrefundable cash and no significant financing or other contingencies exist which could cause the transaction to not be completed in a timely manner. If these criteria are met, we will record an impairment loss if the fair value less costs to sell is lower than the carrying amount of the hotel and related assets and will cease recording depreciation expense. We will classify the loss, together with the related operating results, as discontinued operations on the statements of operations and classify the assets and related liabilities as held for sale on the balance sheet.

### Goodwill

Goodwill represents the excess of our cost to acquire a business over the net amounts assigned to assets acquired and liabilities assumed. Goodwill is not amortized, but is evaluated for impairment annually or more frequently if events or changes in circumstances indicate that the carrying amount may not be recoverable. Our goodwill is classified within other assets in the accompanying consolidated balance sheets.

### Cash and Cash Equivalents

We consider all highly liquid investments with an original maturity of three months or less to be cash equivalents.

### Note Receivable

Notes receivable are carried at cost, net of any premiums or discounts which are recognized as an adjustment of yield over the remaining life of the note using the effective interest rate method. Notes receivable are evaluated for collectability and if collectability of the original amounts due is in doubt, the value is adjusted for impairment. Our

impairment analysis considers the anticipated cash receipts as well as the underlying value of the collateral. If collectability is in doubt, the note is placed in non-accrual status. No interest is recorded on such notes until the timing and amounts of cash receipts can be reasonably estimated. We record cash payments received on non-accrual notes receivable as a reduction in basis. We continually assess the current facts and circumstances to determine whether we can reasonably estimate cash flows. If we can reasonably estimate the timing and amount of cash flows to be collected, then income recognition becomes possible.

#### Revenue Recognition

Revenues from operations of the hotels are recognized when the services are provided. Revenues consist of room sales, golf sales, food and beverage sales, and other hotel department revenues, such as telephone, parking, gift shop sales and resort fees.

#### Income Taxes

F-11

---

## Table of Contents

We account for income taxes using the asset and liability method. Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to the differences between the financial statement carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates in effect for the year in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities from a change in tax rates is recognized in earnings in the period when the new rate is enacted.

We have elected to be treated as a REIT under the provisions of the Internal Revenue Code, which requires that we distribute at least 90% of our taxable income annually to our stockholders and comply with certain other requirements. In addition to paying federal and state taxes on any retained income, we may be subject to taxes on “built in gains” on sales of certain assets. Our taxable REIT subsidiaries will generally be subject to federal, state, local, and/or foreign income taxes.

In order for the income from our hotel property investments to constitute “rents from real properties” for purposes of the gross income tests required for REIT qualification, the income we earn cannot be derived from the operation of any of our hotels. Therefore, we lease each of our hotel properties to a wholly-owned subsidiary of Bloodstone TRS, Inc., our existing taxable REIT subsidiary, or TRS, except for the Frenchman’s Reef & Morning Star Marriott Beach Resort, which is owned by a Virgin Islands corporation, which we have elected to be treated as a TRS.

We had no accruals for tax uncertainties as of December 31, 2013 and 2012.

### Intangible Assets and Liabilities

Intangible assets or liabilities are recorded on non-market contracts assumed as part of the acquisition of certain hotels. We review the terms of agreements assumed in conjunction with the purchase of a hotel to determine if the terms are favorable or unfavorable compared to an estimated market agreement at the acquisition date. Favorable lease assets or unfavorable contract liabilities are recorded at the acquisition date and amortized using the straight-line method over the term of the agreement. We do not amortize intangible assets with indefinite useful lives, but we review these assets for impairment annually or at interim periods if events or circumstances indicate that the asset may be impaired.

### Earnings (Loss) Per Share

Basic earnings (loss) per share is calculated by dividing net income (loss) by the weighted-average number of common shares outstanding during the period. Diluted earnings (loss) per share is calculated by dividing net income (loss) by the weighted-average number of common shares outstanding during the period plus other potentially dilutive securities such as stock grants or shares issuable in the event of conversion of operating partnership units. No adjustment is made for shares that are anti-dilutive during a period.

### Stock-based Compensation

We account for stock-based employee compensation using the fair value based method of accounting. We record the cost of awards with service or market conditions based on the grant-date fair value of the award. That cost is recognized over the period during which an employee is required to provide service in exchange for the award. No compensation cost is recognized for equity instruments for which employees do not render the requisite service.

### Comprehensive Income (Loss)

We do not have any items of comprehensive income (loss) other than net income (loss). If we do incur any additional items of comprehensive income (loss), such that a statement of comprehensive income would be necessary, such statement will be reported as one statement with the consolidated statement of operations.

#### Restricted Cash

Restricted cash primarily consists of reserves for replacement of furniture and fixtures held by our hotel managers and cash held in escrow pursuant to lender requirements.

#### Deferred Financing Costs

Financing costs are recorded at cost and consist of loan fees and other costs incurred in connection with the issuance of debt. Amortization of deferred financing costs is computed using a method, which approximates the effective interest method over the remaining life of the debt, and is included in interest expense in the accompanying consolidated statements of operations.

F-12

---

Table of Contents

## Hotel Working Capital

The due from hotel managers consists of hotel level accounts receivable, periodic hotel operating distributions due to owner and prepaid and other assets held by the hotel managers on our behalf. The due to hotel managers represents liabilities incurred by the hotel on behalf of us in conjunction with the operation of our hotels which are legal obligations of the Company.

## Key Money

Key money received in conjunction with entering into hotel management or franchise agreements or completing specific capital projects is deferred and amortized over the term of the hotel management agreement. Deferred key money is classified as deferred income in the accompanying consolidated balance sheets and amortized as an offset to base management fees or franchise fees.

## Straight-Line Rental Income and Expense

We record rental income and expense on leases that provide for minimum rental payments that increase in pre-established amounts over the remaining term of the lease on a straight-line basis.

## Concentration of Credit Risk

Financial instruments that potentially subject the Company to significant concentrations of credit risk consist principally of our note receivable and cash and cash equivalents. We perform periodic evaluations of the underlying hotel property securing the note receivable. See further discussion in Note 5. We maintain cash and cash equivalents with various financial institutions. We perform periodic evaluations of the relative credit standing of these financial institutions and limit the amount of credit exposure with any one institution.

## 3. Property and Equipment

Property and equipment as of December 31, 2013 and 2012 consists of the following (in thousands):

	2013	2012
Land	\$394,957	\$402,198
Land improvements	7,994	7,994
Buildings	2,321,666	2,360,648
Furniture, fixtures and equipment	420,367	340,462
CIP and corporate office equipment	23,104	19,873
	3,168,088	3,131,175
Less: accumulated depreciation	(600,555)	(519,721)
	\$2,567,533	\$2,611,454

As of December 31, 2013 and 2012 we had accrued capital expenditures of \$8.6 million and \$3.0 million, respectively.

During the year ended December 31, 2012, we recorded an impairment loss of \$30.4 million related to the Oak Brook Hills Resort. We evaluated the recoverability of the hotel's carrying value given deteriorating operating forecasts. Based on our estimated undiscounted net cash flow, we concluded that the previous carrying value of the hotel was

not recoverable. We estimated the fair value of the hotel using a discounted cash flow analysis and comparable sales information. In our analysis, we estimated the future net cash flows from the hotel based on historical operations and our projected future operating results. The expected useful life and holding period was based on the age of the property and our plan for the property as well as experience with similar properties. The capitalization rate was estimated using rates from recent comparable market transactions, and the discount rate was estimated using a risk adjusted rate of return. The fair value measurement of the property is a Level 3 measurement under the fair value hierarchy (see Note 2). The impairment loss includes the impairment related to the hotel's favorable ground lease asset. See Note 4 for further discussion.

#### 4. Favorable Lease Assets

F-13

---

Table of Contents

In connection with the acquisition of certain hotels, we have recognized intangible assets for favorable ground leases and tenant leases. Our favorable lease assets, net of accumulated amortization, as of December 31, 2013 and 2012 consist of the following (in thousands):

	2013	2012
Westin Boston Waterfront Hotel Ground Lease	\$18,510	\$18,726
Westin Boston Waterfront Hotel Lease Right	9,045	9,045
Hilton Minneapolis Ground Lease	5,835	5,910
Oak Brook Hills Resort Ground Lease	5,058	5,489
Lexington Hotel New York Tenant Leases	1,176	1,323
Hilton Boston Downtown Tenant Leases	312	479
	\$39,936	\$40,972

The favorable lease assets are recorded at the acquisition date and are generally amortized using the straight-line method over the remaining non-cancelable term of the lease agreement. Amortization expense was \$1.0 million for the year ended December 31, 2013, \$1.0 million for the year ended December 31, 2012 and \$0.9 million for the year ended December 31, 2011. Amortization expense is expected to total \$1.0 million annually for 2014 and 2015 and \$0.9 million annually for 2016 through 2018.

We own a favorable lease asset related to the right to acquire a leasehold interest in a parcel of land adjacent to the Westin Boston Waterfront Hotel for the development of a 320 to 350 room hotel (the "lease right"). The option expires in 2016. We do not amortize the lease right but review the asset for impairment annually or at interim periods if events or circumstances indicate that the asset may be impaired. An impairment loss of \$0.5 million was recorded during the year ended December 31, 2012 due to lower comparable market rents in the City of Boston. No impairment loss was recorded in 2013.

We evaluated the Oak Brook Hills Resort favorable ground lease asset for recoverability of the carrying value during the year ended December 31, 2012. We concluded that the fair value of the ground lease was \$5.6 million, resulting in an impairment loss of \$1.4 million for the year ended December 31, 2012.

The fair value of both the lease right and favorable ground lease asset are Level 3 measurements under the fair value hierarchy (see Note 2) and are derived from a discounted cash flow model using the favorable difference between the estimated participating rents or actual rents in accordance with the lease terms and the estimated market rents. For the lease right, the discount rate was estimated using a risk adjusted rate of return, the estimated participating rents were estimated based on a hypothetical hotel comparable to our Westin Boston Waterfront Hotel, and market rents were based on comparable long-term ground leases in the City of Boston. For the Oak Brook Hills Resort favorable ground lease asset, the discount rate was estimated using a risk adjusted rate of return and market rents were based on comparable golf course leases across the United States.

## 5. Note Receivable

We own a senior mortgage loan secured by the 443-room Allerton Hotel in Chicago, Illinois (the "Allerton Loan"), which we acquired in 2010. On January 18, 2013, we closed on a settlement of the bankruptcy and related litigation involving the Allerton Loan. As a result of the settlement, we received a \$5.0 million cash principal payment and entered into a new \$66.0 million mortgage loan with a four-year term (plus a one-year extension option), bearing annual interest at a fixed rate of 5.5%. Principal payments are based on a 30-year amortization schedule, but are only due to the extent there is available cash flow from operations. Based on the settlement, we changed the classification of the Allerton Loan from non-accrual to accrual status. The settlement is considered a restructuring of the original

loan. Therefore, the carrying basis of the previous note receivable remains the carrying basis of the new note receivable. The discount resulting from the difference between our carrying basis and the \$66.0 million new Allerton Loan is recorded as interest income based on a level yield imputed interest rate of 12.9% over the anticipated term of the loan, which includes the one-year extension option.

We received an additional \$1.5 million principal payment on the new loan during 2013. We recorded \$6.1 million of interest income on the Allerton Loan for the year ended December 31, 2013, of which \$2.6 million is the amortization of the discount and the remainder is contractual interest income earned. We recorded no interest income in 2012 and 2011 due to the non-accrual status of the Allerton Loan.

## 6. Capital Stock

F-14

---

Table of Contents

## Common Shares

We are authorized to issue up to 400 million shares of common stock, \$0.01 par value per share. Each outstanding share of common stock entitles the holder to one vote on all matters submitted to a vote of stockholders. Holders of our common stock are entitled to receive dividends out of assets legally available for the payment of dividends when authorized by our board of directors.

We have paid the following dividends to holders of our common stock for the years ended December 31, 2013 and 2012:

Payment Date	Record Date	Dividend per Share
April 4, 2012	March 23, 2012	\$0.080
May 29, 2012	May 15, 2012	\$0.080
September 19, 2012	September 7, 2012	\$0.080
January 10, 2013	December 31, 2012	\$0.080
April 12, 2013	March 28, 2013	\$0.085
July 11, 2013	June 28, 2013	\$0.085
October 10, 2013	September 30, 2013	\$0.085
January 10, 2014	December 31, 2013	\$0.085

On August 5, 2013, our board of directors voted to authorize us to purchase up to \$100 million in shares of our common stock. Repurchases under this program will be made in open market or privately negotiated transactions. This authority may be exercised from time to time and in such amounts as market conditions warrant, and subject to regulatory considerations. The timing and actual number of shares repurchased will depend on a variety of factors including price, corporate and regulatory requirements, market conditions, and other corporate liquidity requirements and priorities. The share repurchase program may be suspended or terminated at any time without prior notice. We have not repurchased any shares of our common stock since the program started.

## Preferred Shares

We are authorized to issue up to 10,000,000 shares of preferred stock, \$0.01 par value per share. Our board of directors is required to set for each class or series of preferred stock the terms, preferences, conversion or other rights, voting powers, restrictions, limitations as to dividends or other distributions, qualifications, and terms or conditions of redemption. As of December 31, 2013 and 2012, there were no shares of preferred stock outstanding.

## Operating Partnership Units

Holders of operating partnership units have certain redemption rights, which enable them to cause our operating partnership to redeem their units in exchange for cash per unit equal to the market price of our common stock, at the time of redemption, or, at our option for shares of our common stock on a one-for-one basis. The number of shares issuable upon exercise of the redemption rights will be adjusted upon the occurrence of stock splits, mergers, consolidations or similar pro-rata share transactions, which otherwise would have the effect of diluting the ownership interests of the limited partners or our stockholders. As of December 31, 2013 and 2012, there were no operating partnership units held by unaffiliated third parties.

## 7. Stock Incentive Plans

We are authorized to issue up to 8,000,000 shares of our common stock under our 2004 Stock Option and Incentive Plan, as amended (the "Incentive Plan"), of which we have issued or committed to issue 3,480,779 shares as of December 31, 2013. In addition to these shares, additional shares of common stock could be issued in connection with the market stock unit awards and performance stock unit awards as further described below.

#### Restricted Stock Awards

Restricted stock awards issued to our officers and employees vest over a 3-year period from the date of the grant based on continued employment. We measure compensation expense for the restricted stock awards based upon the fair market value of our common stock at the date of grant. Compensation expense is recognized on a straight-line basis over the vesting period and is included in corporate expenses in the accompanying consolidated statements of operations. A summary of our restricted stock awards from January 1, 2011 to December 31, 2013 is as follows:

F-15

---

Table of Contents

	Number of Shares	Weighted- Average Grant Date Fair Value
Unvested balance at January 1, 2011	1,548,698	\$5.49
Granted	308,486	11.54
Additional shares from dividends	18,302	9.23
Forfeited	(17,560)	) 7.02
Vested	(847,799)	) 6.01
Unvested balance at December 31, 2011	1,010,127	6.97
Granted	365,599	9.84
Additional shares from dividends	8,507	10.07
Forfeited	(11,563)	) 10.05
Vested	(696,559)	) 5.39
Unvested balance at December 31, 2012	676,111	10.10
Granted	323,526	9.33
Additional shares from dividends	1,040	9.30
Forfeited	(16,934)	) 9.65
Vested	(400,722)	) 9.94
Unvested balance at December 31, 2013	583,021	\$9.80

The remaining share awards are expected to vest as follows: 270,440 during 2014, 200,440 during 2015, 104,901 during 2016, and 7,240 during 2017. As of December 31, 2013, the unrecognized compensation cost related to restricted stock awards was \$3.4 million and the weighted-average period over which the unrecognized compensation expense will be recorded is approximately 22 months. For the years ended December 31, 2013, 2012, and 2011 we recorded \$3.4 million, \$3.3 million and \$3.6 million, respectively, of compensation expense related to restricted stock awards. The compensation expense for the year ended December 31, 2013 includes \$0.7 million related to the accelerated vesting of awards in connection with the departure of our former President and Chief Operating Officer on May 1, 2013.

## Market Stock Units

We have awarded our executive officers market stock units (“MSUs”). MSUs are restricted stock units that vest three years from the date of grant. Each executive officer is granted a target number of MSUs (the “Target Award”). The actual number of shares of common stock issued to each executive officer at the vesting date is equal to the Target Award plus an additional number of shares of common stock to reflect dividends that would have been paid during the Performance Period on the Target Award multiplied by the percentage of total stockholder return over the Performance Period. The total stockholder return is based on the 30-trading day average closing price of our common stock calculated on the vesting date plus dividends paid and the 30-trading day average closing price of our common stock on the date of grant. There will be no payout of shares of our common stock if the total stockholder return percentage on the vesting date is less than 50% of the target return. The maximum payout to an executive officer under an MSU award is equal to 150% of the Target Award. The fair values of the MSU awards are determined using a Monte Carlo simulation performed by a third-party valuation firm. The determination of the grant-date fair values of the awards included the following assumptions:

	Volatility	Risk-Free Rate	Fair Value at Grant Date
March 2011 Award	64.0	% 1.20	% \$13.43

March 2012 Award	62.0	% 0.43	% \$11.14
------------------	------	--------	-----------

A summary of our MSUs from January 1, 2011 to December 31, 2013 is shown in the following table. We have not issued MSU awards since 2012.

F-16

---

Table of Contents

	Number of Units	Weighted- Average Grant Date Fair Value
Unvested balance at January 1, 2011	84,854	\$9.87
Granted	72,599	13.43
Additional units from dividends	4,122	9.23
Unvested balance at December 31, 2011	161,575	11.45
Granted	89,990	11.14
Additional units from dividends	7,277	10.18
Unvested balance at December 31, 2012	258,842	11.31
Additional units from dividends	6,452	10.00
Vested	(90,620)	) 9.86
Unvested balance at December 31, 2013	174,674	\$12.01

As of December 31, 2013, the unrecognized compensation cost related to the MSUs was \$0.3 million and is expected to be recognized on a straight-line basis over a weighted average period of 13 months. For the years ended December 31, 2013, 2012 and 2011 we recorded \$0.8 million, \$0.9 million and \$0.6 million, respectively, of compensation expense related to MSUs. The compensation expense for the year ended December 31, 2013 includes \$0.2 million related to the accelerated vesting of awards in connection with the departure of our former President and Chief Operating Officer on May 1, 2013.

## Performance Stock Units

Beginning in 2013, we awarded our executive officers performance stock units (“PSUs”). PSUs are restricted stock units that vest three years from the date of grant. Each executive officer is granted a target number of PSUs (the “PSU Target Award”). The actual number of shares of common stock issued to each executive officer is subject to the achievement of certain levels of total stockholder return relative to the total stockholder return of a peer group of publicly-traded lodging REITs over a three-year performance period. There will be no payout of shares of our common stock if our total stockholder return falls below the 30th percentile of the total stockholder returns of the peer group. The maximum number of shares of common stock issued to an executive officer is equal to 150% of the PSU Target Award and is earned if our total stockholder return is equal to or greater than the 75th percentile of the total stockholder returns of the peer group.

The fair values of the PSU awards are determined using a Monte Carlo simulation performed by a third-party valuation firm. The determination of the grant-date fair values of the awards included the following assumptions:

	Volatility	Risk-Free Rate	Fair Value at Grant Date
March 2013 Award	39.2	% 0.36	% \$9.55
May 2013 Award	37.9	% 0.40	% \$10.41

The simulations also considered the share performance of the Company and the peer group. A summary of our PSUs from January 1, 2013 to December 31, 2013 is as follows:

	Number of Units	Weighted- Average Grant Date Fair Value
--	--------------------	--

Edgar Filing: DiamondRock Hospitality Co - Form 10-K

Unvested balance at January 1, 2013	—	\$—
Granted	217,949	9.64
Additional units from dividends	5,227	10.37
Vested	—	—
Unvested balance at December 31, 2013	223,176	\$9.66

F-17

---

Table of Contents

As of December 31, 2013, the unrecognized compensation cost related to the PSUs was \$1.5 million and is expected to be recognized on a straight-line basis over a period of 26 months. For the year ended December 31, 2013, we recorded approximately \$0.6 million of compensation expense related to the PSUs.

## 8. Earnings (Loss) Per Share

Basic earnings (loss) per share is calculated by dividing net income (loss) available to common stockholders by the weighted-average number of common shares outstanding. Diluted earnings (loss) per share is calculated by dividing net income (loss) available to common stockholders that has been adjusted for dilutive securities, by the weighted-average number of common shares outstanding including dilutive securities.

The following is a reconciliation of the calculation of basic and diluted earnings (loss) per share (in thousands, except share and per-share data):

	Years Ended December 31,		
	2013	2012	2011
Numerator:			
Income (loss) from continuing operations	\$23,828	\$(18,075)	\$(9,438)
Income from discontinued operations	25,237	1,483	1,760
Net income (loss)	\$49,065	\$(16,592)	\$(7,678)
Denominator:			
Weighted-average number of common shares outstanding—basic	195,478,353	180,826,124	166,667,459
Effect of dilutive securities:			
Unvested restricted common stock	177,314	—	—
Shares related to unvested MSUs and PSUs	206,839	—	—
Weighted-average number of common shares outstanding—diluted	195,862,506	180,826,124	166,667,459
Basic earnings (loss) per share:			
Continuing operations	\$0.12	\$(0.10)	\$(0.06)
Discontinued operations	0.13	0.01	0.01
Total	\$0.25	\$(0.09)	\$(0.05)
Diluted earnings (loss) earnings per share:			
Continuing operations	\$0.12	\$(0.10)	\$(0.06)
Discontinued operations	0.13	0.01	0.01
Total	\$0.25	\$(0.09)	\$(0.05)

We did not include the following shares in our calculation of diluted loss per share as they would be anti-dilutive:

	Years Ended December 31,		
	2013	2012	2011
Unvested restricted common stock	—	161,266	513,657
Unexercised stock appreciation rights	262,461	262,461	262,461
Shares related to unvested MSUs	—	237,956	152,675
Total	262,461	661,683	928,793

## 9. Debt

The following table sets forth information regarding the Company's debt as of December 31, 2013:

Table of Contents

Property	Principal Balance (In thousands)	Interest Rate	Maturity Date	Amortization Provisions
Courtyard Manhattan / Midtown East	\$41,530	8.81	% October 2014	30 years
Salt Lake City Marriott Downtown	62,771	4.25	% November 2020	25 years
Courtyard Manhattan / Fifth Avenue	49,591	6.48	% June 2016	30 years
Renaissance Worthington	53,804	5.40	% July 2015	30 years
Frenchman's Reef & Morning Star Marriott Beach Resort	57,671	5.44	% August 2015	30 Years
Los Angeles Airport Marriott	82,600	5.30	% July 2015	Interest Only
Orlando Airport Marriott	56,778	5.68	% January 2016	30 years
Chicago Marriott Downtown Magnificent Mile	208,417	5.975	% April 2016	30 years
Hilton Minneapolis	94,874	5.464	% May 2021	25 years
JW Marriott Denver at Cherry Creek	39,692	6.47	% July 2015	25 years
		LIBOR + 3.00%		
Lexington Hotel New York	170,368	(3.165% at December 31, 2013)	March 2015 (1)	Interest Only
The Lodge at Sonoma, a Renaissance Resort & Spa	30,607	3.96	% April 2023	30 years
Westin San Diego	70,194	3.94	% April 2023	30 years
Westin Washington D.C. City Center	72,421	3.99	% January 2023	25 years
Debt premium (2)	543			
Total mortgage debt	1,091,861			
		LIBOR + 1.90%		
Senior unsecured credit facility	—	(2.09% at December 31, 2013)	January 2017 (3)	Interest Only
Total debt	\$1,091,861			
Weighted-Average Interest Rate		5.17%		

(1) The loan may be extended for two additional one-year terms subject to the satisfaction of certain conditions and the payment of an extension fee.

(2) Recorded upon our assumption of the JW Marriott Denver at Cherry Creek mortgage debt in 2011.

(3) The credit facility may be extended for an additional year upon the payment of applicable fees and the satisfaction of certain standard conditions.

The aggregate debt maturities as of December 31, 2013 are as follows (in thousands):

2014	\$56,726
2015	243,832
2016	312,866
2017	178,681
2018	8,697
Thereafter	291,059
	\$1,091,861

---

(1) Assumes the Lexington Hotel New York mortgage loan is extended under the terms discussed above.

Mortgage Debt

We have incurred limited recourse, property specific mortgage debt secured by certain of our hotels. In the event of default, the lender may only foreclose on the pledged assets; however, in the event of fraud, misapplication of funds or other customary recourse provisions, the lender may seek payment from us. As of December 31, 2013, 14 of our 26 hotel properties were secured

F-19

---

Table of Contents

by mortgage debt. Our mortgage debt contains certain property specific covenants and restrictions, including minimum debt service coverage ratios that trigger “cash trap” provisions as well as restrictions on incurring additional debt without lender consent.

The Lexington Hotel New York mortgage loan contains a quarterly financial covenant requiring a minimum debt service coverage ratio ("DSCR"), as defined in the loan agreement, of 1.1 times. As a result of the ongoing renovation of the hotel during most of 2013, the DSCR fell below the minimum requirement as of the quarters ended September 30, 2013 and December 31, 2013. Under the loan agreement, we have the ability to cure the default by depositing the amount of the DSCR shortfall into a reserve with the lender. If we do not fund the DSCR shortfall and cure the default, the loan becomes due and payable. We funded the DSCR shortfall of \$2.0 million as of September 30, 2013 during the fourth quarter of 2013 and funded an additional \$2.2 million during the first quarter of 2014. The reserve will be released back to us when the DSCR is above 1.1 times, which we expect to occur in the second quarter of 2014. In addition, the cash trap provision was triggered on the loan during 2013.

As of December 31, 2013, we were in compliance with the other financial covenants of our mortgage debt.

We raised \$165 million through three separate secured financings during 2013. On March 21, 2013, we closed on a \$31 million loan secured by The Lodge at Sonoma, a Renaissance Resort & Spa. The loan has a 10-year term, bears interest at an annual fixed interest rate of 3.96% and amortizes on a 30-year schedule. On March 29, 2013, we closed on a \$71 million loan secured by the Westin San Diego. The loan has 10-year term, bears interest at an annual fixed interest rate of 3.94% and amortizes on a 30-year schedule. On October 24, 2013, we entered into a new \$63 million mortgage loan secured by the Salt Lake City Marriott Downtown. The new loan has a term of seven years and bears interest at a fixed rate of 4.25%. As part of the financing, we prepaid the \$27.3 million mortgage loan previously secured by the hotel through defeasance, which had a maturity date of January 2015. The cost to defease the loan was approximately \$1.5 million.

#### Senior Unsecured Credit Facility

We are party to a five-year, \$200 million unsecured credit facility expiring in January 2017. The maturity date of the facility may be extended for an additional year upon the payment of applicable fees and the satisfaction of certain other customary conditions. We also have the right to increase the amount of the facility up to \$400 million with lender approval. Interest is paid on the periodic advances under the facility at varying rates, based upon LIBOR, plus an agreed upon additional margin amount. The applicable margin is based upon the Company's ratio of net indebtedness to EBITDA, as follows:

Ratio of Net Indebtedness to EBITDA	Applicable Margin	
Less than 4.00 to 1.00	1.75	%
Greater than or equal to 4.00 to 1.00 but less than 5.00 to 1.00	1.90	%
Greater than or equal to 5.00 to 1.00 but less than 5.50 to 1.00	2.10	%
Greater than or equal to 5.50 to 1.00 but less than 6.00 to 1.00	2.20	%
Greater than or equal to 6.00 to 1.00 but less than 6.50 to 1.00	2.50	%
Greater than or equal to 6.50 to 1.00	2.75	%

In addition to the interest payable on amounts outstanding under the facility, we are required to pay an amount equal to 0.35% of the unused portion of the facility if the unused portion of the facility is greater than 50% or 0.25% if the unused portion of the facility is less than or equal to 50%.

Edgar Filing: DiamondRock Hospitality Co - Form 10-K

The facility contains various corporate financial covenants. A summary of the most restrictive covenants is as follows:

	Covenant	Actual at December 31, 2013
Maximum leverage ratio(1)	60%	42.9%
Minimum fixed charge coverage ratio(2)	1.50x	2.43x
Minimum tangible net worth(3)	\$1.857 billion	\$2.282 billion
Secured recourse indebtedness(4)	Less than 50% of Total Asset Value	39%

---

F-20

---

Table of Contents

Leverage ratio is total indebtedness, as defined in the credit agreement and which includes our commitment on the Times Square development hotel, divided by total asset value, which is defined in the credit agreement as (a) total cash and cash equivalents plus (b) the value of our owned hotels based on hotel net operating income divided by a defined capitalization rate, and (c) the book value of the Allerton Loan.

Fixed charge coverage ratio is Adjusted EBITDA, which is defined in the credit agreement as EBITDA less FF&E reserves, for the most recently ending 12 fiscal months, to fixed charges, which is defined in the credit agreement as interest expense, all regularly scheduled principal payments and payments on capitalized lease obligations, for the same most recently ending 12-month period.

Tangible net worth, as defined in the credit agreement, is (i) total gross book value of all assets, exclusive of depreciation and amortization, less intangible assets, total indebtedness, and all other liabilities, plus (ii) 75% of net proceeds from future equity issuances.

After December 31, 2013, the secured recourse indebtedness covenant threshold will decrease to 45% of Total Asset Value, as defined in the credit agreement.

The facility requires us to maintain a specific pool of unencumbered borrowing base properties. The unencumbered borrowing base assets must include a minimum of 5 properties with an unencumbered borrowing base value, as defined in the credit agreement, of not less than \$250 million. As of December 31, 2013, the unencumbered borrowing base included 5 properties with a borrowing base value of over \$319 million.

As of December 31, 2013, we had no borrowings outstanding under the facility and the Company's ratio of net indebtedness to EBITDA was 4.3x. Accordingly, interest on our borrowings under the facility will continue to be based on LIBOR plus 190 basis points for the next fiscal quarter. We incurred interest and unused credit facility fees on the facility of \$0.9 million, \$2.7 million and \$2.9 million for the years ended December 31, 2013, 2012 and 2011, respectively.

## 10. Discontinued Operations

On November 21, 2013, we sold the 487-room Torrance Marriott South Bay to an unaffiliated third party for a contractual sales price of \$74 million, recognizing a gain of \$22.7 million on the sale. The operating results, as well as the gain on sale, are reported in discontinued operations on the accompanying consolidated statements of operations.

We sold four hotels during 2012 in two separate transactions. In March 2012, we sold a three-hotel portfolio, which consisted of the Griffin Gate Marriott Resort and Spa, the Renaissance Waverly, and the Renaissance Austin. In October 2012, we sold the Atlanta Westin North at Perimeter. The operating results of these hotels and the net gain on the sales are reported in discontinued operations on the accompanying consolidated statements of operations.

The following is a summary of the results of income from discontinued operations for the years ended December 31, 2013, 2012 and 2011 (in thousands, except per-share data):

	Years Ended December 31,		
	2013	2012	2011
Hotel revenues	\$21,336	\$55,654	\$119,564
Hotel operating expenses	(15,977)	(41,424)	(90,577)
Operating income	5,359	14,230	28,987
Depreciation and amortization	(1,759)	(4,495)	(17,037)
Interest income	1	3	13
Interest expense	—	(2,297)	(10,101)

Edgar Filing: DiamondRock Hospitality Co - Form 10-K

Impairment charge	—	(14,690	) —
Gain on sale of hotel properties, net	22,733	9,479	—
Income tax expense	(1,097	) (747	) (102 )
Income from discontinued operations	\$25,237	\$1,483	\$1,760
Basic and diluted income from discontinued operations per share	\$0.13	\$0.01	\$0.01

11. Acquisitions

2012 Acquisitions

On July 12, 2012, we acquired a portfolio of four hotels for a contractual purchase price of \$495 million from affiliates of Blackstone Real Estate Partners VI (the "Sellers"). The portfolio consists of the Hilton Boston Downtown, Westin Washington D.C. City Center, Westin San Diego and Hilton Burlington. We funded the acquisition with a combination of approximately \$120 million in borrowings under our senior unsecured credit facility, \$100 million of corporate cash, net proceeds from a secondary

F-21

---

Table of Contents

public offering of our common stock and the issuance of 7,211,538 shares of common stock to an affiliate of the Sellers in a private placement. We recorded the acquisition at fair value using an independent valuation analysis, with the purchase price allocation to property and equipment, hotel working capital, favorable management contract assets and the Company's common stock.

On November 9, 2012, we acquired the Hotel Rex, a 94-room full-service boutique hotel located in the Union Square district of San Francisco, California, for a purchase price of approximately \$29.5 million. We funded the acquisition with borrowings under our credit facility.

The following table summarizes the estimated fair value of the assets acquired and liabilities assumed in our 2012 acquisitions (in thousands):

	Hilton Boston Downtown	Westin Washington D.C. City Center	Westin San Diego	Hilton Burlington	Hotel Rex
Land	\$23,262	\$24,579	\$22,902	\$9,197	\$7,856
Building	128,628	122,229	95,617	40,644	21,085
Furnitures, fixtures and equipment	3,675	3,499	2,734	3,469	601
Total fixed assets	155,565	150,307	121,253	53,310	29,542
Net other assets and liabilities	270	207	657	142	(21 )
Total	\$155,835	\$150,514	\$121,910	\$53,452	\$29,521

The acquired properties are included in our results of operations based on their date of acquisition. The following unaudited pro forma results of operations (in thousands, except per share data) reflect these transactions as if each had occurred on January 1, 2011. The pro forma information is not necessarily indicative of the results that actually would have occurred nor does it indicate future operating results.

	Year Ended December 31, 2012
Revenues	\$779,248
Loss from continuing operations	(7,176 )
Net loss	(5,693 )
Loss per share - Basic and Diluted	\$(0.04 )

For the years ended December 31, 2013 and December 31, 2012, our consolidated statements of operations include \$101 million and \$44 million of revenues, respectively, and \$6.3 million and \$6.8 million of net income, respectively, related to the operations of the hotels acquired in 2012.

Table of Contents

## 12. Income Taxes

We have elected to be treated as a REIT under the provisions of the Internal Revenue Code, which requires that we distribute at least 90% of our taxable income annually to our stockholders and comply with certain other requirements. In addition to paying federal and state taxes on any retained income, we may be subject to taxes on “built in gains” on sales of certain assets. Our taxable REIT subsidiaries are subject to federal, state, local and/or foreign income taxes.

Our provision (benefit) for income taxes consists of the following (in thousands):

	Year Ended December 31,			
	2013	2012	2011	
Current - Federal	\$—	\$—	\$—	
State	257	348	846	
Foreign	70	—	—	
	327	348	846	
Deferred - Federal	(1,626	) (5,374	) 2,862	
State	(167	) (1,456	) 78	
Foreign	353	(311	) (1,265	)
	(1,440	) (7,141	) 1,675	
Income tax (benefit) provision from continuing operations	\$(1,113	) \$(6,793	) \$2,521	
Income tax provision from discontinued operations	\$1,097	\$747	\$102	

A reconciliation of the statutory federal tax provision to our income tax (benefit) provision is as follows (in thousands):

	Year Ended December 31,			
	2013	2012	2011	
Statutory federal tax provision (35)%	\$7,950	\$(8,703	) \$(2,421	)
Tax impact of REIT election	(8,641	) 3,290	2,710	
State income tax (benefit) provision, net of federal tax benefit	58	(720	) 601	
Foreign income tax (benefit) provision	(552	) (694	) 1,550	
Foreign tax rate adjustment	—	—	—	
Other	72	34	81	
Income tax (benefit) provision from continuing operations	\$(1,113	) \$(6,793	) \$2,521	

We are required to pay franchise taxes in certain jurisdictions. We recorded approximately \$0.4 million, \$0.4 million and \$0.3 million of franchise taxes during the years ended December 31, 2013, 2012 and 2011, respectively, which are classified as corporate expenses in the accompanying consolidated statements of operations.

Deferred income taxes are recognized for temporary differences between the financial reporting bases of assets and liabilities and their respective tax bases and for operating loss and tax credit carryforwards based on enacted tax rates expected to be in effect when such amounts are paid. However, deferred tax assets are recognized only to the extent that it is more likely than not that they will be realizable based on consideration of available evidence, including future reversals of existing taxable temporary differences, projected future taxable income and tax planning strategies. Deferred tax assets are included in prepaid and other assets and deferred tax liabilities are included in accounts payable and accrued expenses on the accompanying consolidated balance sheets. The total deferred tax assets and liabilities are as follows (in thousands):

Table of Contents

	2013	2012	
Deferred income related to key money	\$9,406	\$9,669	
Net operating loss carryforwards	28,663	28,654	
Alternative minimum tax credit carryforwards	129	50	
Other	1,228	1,034	
Deferred tax assets	39,426	39,407	
Land basis difference recorded in purchase accounting	(4,260	) (4,260	)
Depreciation and amortization	(6,738	) (7,098	)
Deferred tax liabilities	(10,998	) (11,358	)
Deferred tax asset, net	\$28,428	\$28,049	

We believe that we will have sufficient future taxable income, including future reversals of existing taxable temporary differences, projected future taxable income and tax planning strategies to realize existing deferred tax assets. Deferred tax assets of \$10.8 million are expected to be recovered against reversing existing taxable temporary differences. The remaining deferred tax assets of \$28.7 million, primarily consisting of net operating loss carryforwards, are dependent upon future taxable earnings of the TRS. The net operating loss carryforwards expire in 2028, 2029 and 2033.

The Frenchman's Reef & Morning Star Marriott Beach Resort is owned by a subsidiary that has elected to be treated as a TRS, and is subject to U.S. Virgin Islands (USVI) income taxes. We were party to a tax agreement with the USVI that reduced the income tax rate to approximately 7%. This agreement expires in February 2015. If the agreement is not extended, the TRS will be subject to an income tax rate of 37.4%.

### 13. Relationships with Managers

We are party to hotel management agreements for each of our hotels owned. The following table sets forth the agreement date, initial term and number of renewal terms under the respective hotel management agreements for each of our hotels. Generally, the term of the hotel management agreements renew automatically for a negotiated number of consecutive periods upon the expiration of the initial term unless the property manager gives notice to us of its election not to renew the hotel management agreement.

Table of Contents

Property	Manager	Date of Agreement	Initial Term	Number of Renewal Terms
Atlanta Alpharetta Marriott	Marriott	9/2000	30 years	Two ten-year periods
Bethesda Marriott Suites	Marriott	12/2004	21 years	Two ten-year periods
Boston Westin Waterfront	Starwood	5/2004	20 years	Four ten-year periods
Chicago Marriott Downtown	Marriott	3/2006	32 years	Two ten-year periods
Conrad Chicago	Hilton	11/2005	10 years	Two five-year periods
Courtyard Denver Downtown	Sage Hospitality	7/2011	5 years	One five-year period

Under our hotel management agreements, the hotel manager receives a base management fee and, if certain financial thresholds are met or exceeded, an incentive management fee. The base management fee is generally payable as a percentage of gross hotel revenues for each fiscal year. The incentive management fee is generally based on hotel operating profits, but the fee only applies to that portion of hotel operating profits above a negotiated return on our invested capital, which we refer to as the owner's priority. We refer to this excess of operating profits over the owner's priority as "available cash flow."

In November 2013, we terminated the management agreement with Marriott to operate the Oak Brook Hills Resort. We entered into a five-year management agreement with Destination Hotels & Resorts to operate the hotel as an

independent hotel and conference facility. In connection with the termination, we paid Marriott a termination fee of approximately \$0.7 million and wrote off \$1.1 million of unamortized key money, which is included within other hotel expenses on the accompanying consolidated statement of operations.

The following table sets forth the base management fee, incentive management fee and FF&E reserve contribution, generally due and payable each fiscal year, for each of our properties:

F-25

(1) As a percentage of gross revenues.

(2) Based on a percentage of hotel operating profits above a specified return on our invested capital or specified operating profit thresholds.

(3) The owner's priority expires in 2027.

(4) The contribution is reduced to 1% until operating profits exceed an owner's priority of \$3.8 million.

(5) Calculated as 20% of net operating income before base management fees. There is no owner's priority.

(6) The base management fee is reduced by the amount in which operating profits do not meet the performance guarantee. The performance guarantee was \$8.6 million in 2013 and base management fees were reduced to zero. The base management fee is 2.5% of gross revenues if the hotel achieves operating results in excess of 7% of our

(7) invested capital and 3% of gross revenues if the hotel achieves operating profits in excess of 8% of our invested capital.

The base management fee increases to 6% beginning in fiscal year 2015 for the remainder of the agreement. Prior (8) to 2015, the base management fee may increase to 6.0% at the beginning of the fiscal year following the achievement of operating profits equal to or above \$5.0 million.

(9) The base management fee will increase to 1.5% of gross revenues beginning on July 12, 2014. Total management fees are capped at 2.5% of gross revenues.

(10) During 2013, we amended the management agreement to reduce the annual base management fee from 2.5% to 2% effective March 1, 2013.

The base management fee is 2.75% of gross revenues if the hotel achieves operating profits in excess of 7% of our invested capital and 3.25% of gross revenues if the hotel achieves operating profits in excess of 8% of our invested capital.

(12) We terminated the management agreement with Marriott effective November 2013 and entered into a new management agreement with Destination Hotels & Resorts. Under the new management agreement, the base management fee was reduced from 3% to 2% and the FF&E reserve contribution requirement was eliminated.

(13) Pursuant to the loan agreement, dated March 29, 2013, beginning April 2013, the hotel is required to make a FF&E reserve contribution of 4% of gross revenues.

Table of Contents

The following is a summary of management fees from continuing operations for the years ended December 31, 2013, 2012 and 2011 (in thousands):

	Year Ended December 31,		
	2013	2012	2011
Base management fees	\$19,324	\$18,757	\$15,817
Incentive management fees	6,222	5,550	5,226
Total management fees	\$25,546	\$24,307	\$21,043

Eight of our hotels earned incentive management fees for the year ended December 31, 2013. Five of our hotels earned incentive management fees for the year ended December 31, 2012. Three of our hotels earned incentive management fees for the year ended December 31, 2011.

#### Performance Termination Provisions

Our management agreements provide us with termination rights upon a manager's failure to meet certain financial performance criteria and decision not to cure the failure by making a cure payment. The Oak Brook Hills Resort, Orlando Airport Marriott, and the Hilton Garden Inn Chelsea/New York City each failed its performance test at the end of 2012. The following are the actions we have taken as a result of these performance test failures:

**Oak Brook Hills Resort:** We terminated the management agreement effective in November 2013. We entered into a 5-year management agreement with Destination Hotels & Resorts to operate the hotel as an independent hotel.

**Hilton Garden Inn Chelsea/New York City:** We amended the management agreement to reduce the base management fee to 2% of gross revenues for the remainder of the term.

**Orlando Airport Marriott:** We determined that no action would be taken.

#### Key Money

Our managers have contributed to us certain amounts in exchange for the right to manage or franchise hotels we have acquired and in connection with the completion of certain brand enhancing capital projects. We refer to these amounts as "key money." Key money is classified as deferred income in the accompanying consolidated balance sheets and amortized against management fees or franchise fees on the accompanying consolidated statements of operations.

During 2013, Marriott provided us \$4.2 million of key money in connection with the rebranding of the Lexington Hotel New York as an Autograph Collection Hotel in accordance with the franchise agreement. Marriott also provided us \$0.3 million in 2013 for additional renovations at Frenchman's Reef and Morning Star Marriott Beach Resort.

We amortized \$2.2 million of key money during the year ended December 31, 2013, \$1.0 million during the year ended December 31, 2012, and \$0.7 million during the year ended December 31, 2011. The amortization for the year ended December 31, 2013 includes \$1.1 million of key money written off as a result of the change of hotel manager of the Oak Brook Hills Resort during 2013. This key money write-off is included within other hotel expenses on the accompanying consolidated statement of operations.

#### Franchise Agreements

The following table sets forth the terms of the hotel franchise agreements for our nine franchised hotels:

Table of Contents

	Date of Agreement	Term	Franchise Fee
Vail Marriott Mountain Resort & Spa	6/2005	16 years	6% of gross room sales plus 3% of gross food and beverage sales
Hilton Garden Inn Chelsea/New York City	9/2010	17 years	Royalty fee of 5% of gross room sales and program fee of 4.3% of gross room sales
JW Marriott Denver at Cherry Creek	5/2011	15 years	6% of gross room sales and 3% of gross food and beverage sales
Lexington Hotel New York (1)	3/2012	20 years	3% of gross room sales (2)
Courtyard Denver Downtown	7/2011	16 years	5.5% of gross room sales
Hilton Boston Downtown	7/2012	10 years	5% of gross room sales and 3% of gross food and beverage sales; program fee of 4% of gross room sales
Westin Washington D.C. City Center	12/2010	20 years	7% of gross room sales and 3% of gross food and beverage sales
Westin San Diego	12/2010	20 years	7% of gross room sales and 3% of gross food and beverage sales
Hilton Burlington	7/2012	10 years	5% of gross room sales and 3% of gross food and beverage sales; program fee of 4% of gross room sales

(1) The agreement began on the date the hotel opened as a Autograph Collection hotel, which was August 19, 2013.

(2) Increases to 4% on the first anniversary of the agreement and 5% on the second anniversary of the agreement.

We recorded \$11.4 million, \$8.4 million and \$5.7 million of franchise fees during the fiscal years ended December 31, 2013, 2012, and 2011, respectively, which are included in other hotel expenses on the accompanying consolidated statement of operations.

#### 14. Commitments and Contingencies

##### Litigation

We are subject to various claims, lawsuits and legal proceedings, including routine litigation arising in the ordinary course of business, regarding the operation of our hotels and company matters. While it is not possible to ascertain the ultimate outcome of such matters, management believes that the aggregate amount of such liabilities, if any, in excess of amounts covered by insurance will not have a material adverse impact on our financial condition or results of operations. The outcome of claims, lawsuits and legal proceedings brought against the Company, however, is subject to significant uncertainties.

##### Ground Leases

Five of our hotels are subject to ground lease agreements that cover all of the land underlying the respective hotel:

• The Bethesda Marriott Suites hotel is subject to a ground lease that runs until 2087. There are no renewal options.

• The Courtyard Manhattan/Fifth Avenue is subject to a ground lease that runs until 2085, inclusive of one 49-year renewal option.

The Salt Lake City Marriott Downtown is subject to two ground leases: one ground lease covers the land under the hotel and the other ground lease covers the portion of the hotel that extends into the City Creek Project. The term of the ground lease covering the land under the hotel runs through 2056, inclusive of our renewal options, and the term of the ground lease covering the extension runs through 2017. We own a 21% interest in the land under the hotel.

•The Westin Boston Waterfront is subject to a ground lease that runs until 2099. There are no renewal options.

•The Hilton Minneapolis is subject to a ground lease that runs until 2091. There are no renewal options.

In addition, the golf course that is part of the Oak Brook Hills Resort is subject to a ground lease covering approximately 110 acres. The ground lease runs through 2045 including renewal options.

Finally, a portion of the parking garage relating to the Renaissance Worthington is subject to three ground leases that cover, contiguously with each other, approximately one-fourth of the land on which the parking garage is constructed. Each of the ground leases has a term that runs through July 2067, inclusive of the three 15-year renewal options. The remainder of the land on which the parking garage is constructed is owned by us in fee simple.

F-28

---

Table of Contents

These ground leases generally require us to make rental payments (including a percentage of gross receipts as percentage rent with respect to the Courtyard Manhattan/Fifth Avenue ground lease) and payments for all, or in the case of the ground lease covering the Salt Lake City Marriott Downtown extension, our tenant's share of, charges, costs, expenses, assessments and liabilities, including real property taxes and utilities. Furthermore, these ground leases generally require us to obtain and maintain insurance covering the subject property.

Ground rent expense from continuing operations was \$15.0 million, \$14.6 million and \$14.2 million for the years ended December 31, 2013, 2012 and 2011, respectively. Cash paid for ground rent from continuing operations was \$8.5 million, \$8.2 million and \$7.3 million for the years ended December 31, 2013, 2012 and 2011, respectively.

The following table reflects the current and future annual rents under our ground leases:

F-29

		10/2047 - 9/2057	\$2,212,524	
		10/2057 - 9/2067	\$2,765,655	
		10/2067 - 9/2077	\$3,457,069	
		10/2077 - 9/2085	\$4,321,336	
	Salt Lake City Marriott Downtown (Ground lease for hotel) (5)	Through 12/2056	Greater of \$132,000 or 2.6% of annual gross room sales	
		(Ground lease for extension)	1/2013 - 12/2017	\$11,305
	Westin Boston Waterfront Hotel (6) (Base rent)	1/2013 - 12/2015	\$500,000	
		1/2016 - 12/2020	\$750,000	
		1/2021 - 12/2025	\$1,000,000	
		1/2026 - 12/2030	\$1,500,000	
		1/2031 - 12/2035	\$1,750,000	
		1/2036 - 5/2099	No base rent	
		(Percentage rent)	Through 12/2015	0% of annual gross revenue
			1/2016 - 12/2025	1.0% of annual gross revenue
1/2026 - 12/2035			1.5% of annual gross revenue	
1/2036 - 12/2045			2.75% of annual gross revenue	
Hilton Minneapolis (7)	1/2046 - 12/2055	3.0% of annual gross revenue		
	1/2056 - 12/2065	3.25% of annual gross revenue		
	1/2066 - 5/2099	3.5% of annual gross revenue		
	1/2013 - 12/2013	\$6,012,000		
	1/2014 - 12/2014	\$6,313,000		
	1/2015 - 12/2015	\$6,629,000		
	1/2016 - 12/2016	\$6,960,000		
	1/2017 - 12/2017	\$7,308,000		
1/2018 - 12/2018	\$7,673,000			
Ground leases under parking garage:	Renaissance Worthington	1/2019 - 10/2091	Annual real estate taxes	
		8/2013 - 7/2022	\$40,400	
		8/2022 - 7/2037	\$46,081	
		8/2037 - 7/2052	\$51,763	
		8/2052 - 7/2067	\$57,444	
Ground lease under golf course:	Oak Brook Hills Resort Chicago	10/1985 - 9/2025	\$1 (8)	

(1) These terms assume our exercise of all renewal options.

- (2) Represents rent for the year ended December 31, 2013. Rent will increase annually by 5.5%.
- (3) The ground lease term is 49 years. We have the right to renew the ground lease for an additional 49 year term on the same terms then applicable to the ground lease.

The total annual rent includes the fixed rent noted in the table plus a percentage rent equal to 5% of gross receipts

- (4) for each lease year, but only to the extent that 5% of gross receipts exceeds the minimum fixed rent in such lease year. There was no such percentage rent earned during the year ended December 31, 2013.

- (5) We own a 21% interest in the land underlying the hotel and, as a result, 21% of the annual rent under the ground lease is paid to us by the hotel.

F-30

---

Table of Contents

- (6) Total annual rent under the ground lease is capped at 2.5% of hotel gross revenues during the initial 30 years of the ground lease.

- (7) The ground lease payment and related property tax liability were negotiated as a single payment in lieu of taxes. The single payments increase at a rate of 5% per year through 2018. Beginning in 2019, there will no longer be a stipulated single payment and the hotel will pay only the real property tax portion of the initial single payment based on the then assessed valuation and applicable tax rate.

- (8) We have the right to extend the term of this lease for two consecutive renewal terms of ten years each with rent at then market value.

Future minimum annual rental commitments under all non-cancelable operating leases as of December 31, 2013 are as follows (in thousands):

2014	\$10,135
2015	10,237
2016	10,509
2017	10,815
2018	11,124
Thereafter	615,532
	\$668,352

#### Hotel under Development

On January 18, 2011, we entered into a purchase and sale agreement to acquire, upon completion, a hotel property under development on West 42nd Street in Times Square, New York City. Upon completion by the third-party developer, the hotel will have 282 guest rooms. The contractual purchase price is approximately \$128 million, or approximately \$450,000 per guest room. The purchase and sale agreement is for a fixed-price and we are not assuming any construction risk (including not assuming the risk of construction cost overruns). We expect that the hotel will open during 2014. Upon entering into the purchase and sale agreement, we deposited \$20.0 million with a third-party escrow agent. During the years ended December 31, 2013 and 2012, we made \$5.0 million and \$1.9 million, respectively, of additional deposits. All deposits are interest bearing. We will forfeit our deposits if we do not close on the acquisition of the hotel upon substantial completion of construction, unless the seller fails to meet certain conditions, including substantial completion of the hotel within a specified time frame and construction of the hotel within the contractual scope.

Table of Contents

## 15. Fair Value of Financial Instruments

The fair value of certain financial assets and liabilities and other financial instruments as of December 31, 2013 and 2012, in thousands, are as follows:

	December 31, 2013		December 31, 2012	
	Carrying Amount	Fair Value	Carrying Amount	Fair Value
Note receivable	\$50,084	\$64,500	\$53,792	\$57,000
Debt	\$1,091,861	\$1,087,516	\$988,731	\$1,035,450

The fair value of our mortgage debt is a Level 2 measurement under the fair value hierarchy (see Note 2). We estimate the fair value of our mortgage debt by discounting the future cash flows of each instrument at estimated market rates. The fair value of our note receivable is a Level 2 measurement under the fair value hierarchy. We estimate the fair value of our note receivable by discounting the future cash flows related to the note at estimated market rates. The underlying collateral of the note receivable has a fair value greater than the carrying value of the note receivable. The carrying value of our other financial instruments approximate fair value due to the short-term nature of these financial instruments.

## 16. Segment Information

We aggregate our operating segments using the criteria established by GAAP, including the similarities of our product offering, types of customers and method of providing service.

The following table sets forth revenues from continuing operations and investment in hotel assets owned as of December 31, 2013 represented by the following geographical areas as of and for the years ended December 31, 2013, 2012 and 2011:

	Revenues			Investment (1)		
	2013	2012	2011	2013	2012	2011
	(In thousands)			(In thousands)		
Chicago	\$149,498	\$144,260	\$136,287	\$537,512	\$536,651	\$532,098
Los Angeles	58,608	56,727	52,726	126,898	126,833	126,158
Boston	102,482	84,512	66,564	511,502	507,820	349,447
US Virgin Islands	62,439	55,753	34,367	140,257	133,230	126,907
New York	95,798	112,279	88,586	574,134	532,873	524,308
Minneapolis	50,097	49,075	50,769	157,928	155,703	155,703
Denver	31,909	29,469	17,152	121,289	120,369	120,316
Other	248,857	194,812	153,632	806,648	803,268	442,814
Total	\$799,688	\$726,887	\$600,083	\$2,976,168	\$2,916,747	\$2,377,751

(1) Total investment represents our initial investment in the hotel plus any owner-funded capital expenditures since acquisition.
