Item 2.05 Costs Associated with Exit or Disposal Activities.

In August 2006, the Company announced a reorganization of its operational structure and a workforce reduction designed to reduce operating expenses. See the Company's Current Report on Form 8-K filed on August 16, 2006. As the Company implemented its new organizational structure and continued to formulate its long-term plans, management realized that there were additional opportunities for increasing operating efficiencies in the Company's workforce. Accordingly, management decided to make an additional workforce reduction, which was communicated to affected employees on January 15 and 16, 2007. Approximately 5% of the Company's employees were terminated in connection with this plan.

The Company believes that this action will help to further reduce the Company's overhead expenses over the long term. In the near term, the Company expects to take a charge to earnings of approximately \$2.5 million as a result of the terminations. Of the total charge, approximately \$2.4 million is expected to be incurred in the first quarter of 2007. The charges incurred will be primarily one-time cash termination benefits to employees.

Additional information on the organizational changes described herein is set forth in the Company's press release dated January 16, 2007, a copy of which is filed as Exhibit 99.1 hereto and is incorporated by reference herein.

Item 9.01 Financial Statements and Exhibits.
