**Item 2.06 Material Impairments.**

On September 7, 2008 the United States Department of the Treasury and the Federal Housing Finance Agency announced that the Federal Housing Finance Agency was placing Fannie Mae and Freddie Mac under conservatorship. The announced plan included, among other things, the following changes at Fannie Mae and Freddie Mac:

\*\* The Federal Finance Housing Agency would have management control;

\*\* The dividends on common and preferred stock were suspended;

\*\* Reductions in mortgage portfolios will be required over time; and

\*\* The U.S. Government will provide equity capital to cover mortgage defaults in return for \$1 billion of senior preferred stock and warrants for the purchase of 79.9% of the common stock of each entity.

On September 10, 2008, Farmers National Banc Corp. received additional information from Federal Banking Regulatory Agencies regarding the accounting issues arising from placing Fannie Mae and Freddie Mac into conservatorship.

Farmers National Banc Corp. owns Fannie Mae preferred stock with a book value and market value of \$2.17 million at June 30, 2008. The market value of these securities has declined significantly since June 30, 2008. At the close of business on September 12, 2008 the market value of these securities was \$302 thousand, a decline of \$1.87 million since June 30, 2008. This represents a \$1.22 million loss of market value net of income tax. It is unclear at this time when or if the market value of these securities will improve in the future. Based on these events, management expects to record an other-than-temporary impairment of these investments during the quarter ending September 30, 2008. Any charge recorded for other-than-temporary impairment as of September 30, 2008 could be different than the impairment that existed as of September 12, 2008. Management anticipates that the Corporation will continue to be well capitalized at September 30, 2008.

---
