EXPLANATORY NOTE

This Amendment No. 1 to Current Report on Form 8-K/A (this "Form 8-K/A") is an amendment to the Current Report on Form 8-K filed with the Securities and Exchange Commission by Cooper-Standard Holdings Inc. ("Cooper Standard," "we" or "us") on January 21, 2015 (the "Original Form 8-K"). In the Original Form 8-K, Cooper Standard reported under Items 2.05 and 9.01 information relating to the costs associated with the restructuring of its European manufacturing footprint. At the time of filing the Original Form 8-K, while we provided total estimated cost of approximately \$120-\$125 million and approximate annual savings upon completion of \$50-\$55 million, we could not reasonably estimate each major type of cost associated with the European restructuring. As required by Form 8-K, the Original 8-K is amended hereby to provide estimated costs associated with severance, retention and outplacement services and severance-related postemployment benefits (collectively, "employee separation costs"), other exit costs and charges related to the European restructuring.

Item 2.05 Costs Associated with Exit or Disposal Activities

On January 21, 2015, Cooper Standard announced its intention to further restructure its European manufacturing footprint based on then-current and anticipated market demands. The total estimated cost of this initiative, which is expected to be substantially completed by the end of 2017, is approximately \$120-\$125 million, of which approximately \$90 million has been incurred to date.

We expect to incur total employee separation costs of approximately \$70-\$75 million, other related exit costs of approximately \$49-\$54 million and non-cash asset impairments related to restructuring activities of approximately \$0.5 million. We expect that these restructuring activities will provide approximately \$50-\$55 million in annualized savings upon completion.
