PART I

Item 1. Description of Business

Toro Ventures Inc. is in the acquisition and exploration of oil and gas properties. Toro Ventures Inc. was incorporated in the state of Nevada on April 11, 2005. Our principal office is located at 1100 Dexter Ave. N., Suite 100, Seattle, WA 98109. Our telephone number is (206) 273-7850.

Business

Our business strategy is to acquire interest in the properties of, and working interests in the production owned by, established oil and gas production companies, whether public or private, in the United States oil producing areas. We believe such opportunities exist in the United States. We also believe that these opportunities have considerable future potential for the development of additional oil reserves. Such new reserves might come from the development of existing but as yet undeveloped reserves as well as from future success in exploration.

When and if funding becomes available, we plan to acquire high-quality oil and gas properties, primarily properties which have "proven producing and proven undeveloped reserves." We will also explore low-risk development drilling and work-over opportunities with experienced, well-established operators.

Competition

Toro Ventures Inc. operates in a highly competitive environment. We compete with major and independent oil and natural gas companies, many of whom have financial and other resources substantially in excess of those available to us. These competitors may be better positioned to take advantage of industry opportunities and to withstand changes affecting the industry, such as fluctuations in oil and natural gas prices and production, the availability of alternative energy sources and the application of government regulation.

Compliance with Government Regulation

The availability of a market for future oil and gas production from possible U.S. assets will depend upon numerous factors beyond our control. These factors may include, amongst others, regulation of oil and natural gas production, regulations governing environmental quality and pollution control, and the effects of regulation on the amount of oil and natural gas available for sale, the availability of adequate pipeline and other transportation and processing facilities and the marketing of competitive fuels. These regulations generally are intended to prevent waste of oil and natural gas and control contamination of the environment.

We expect that our sales of crude oil and other hydrocarbon liquids from our future U.S.-based production will not be regulated and will be made at market prices. However, the price we would receive from the sale of these products may be affected by the cost of transporting the products to market via pipeline and marine transport.

Environmental Regulations

Our U.S. assets could be subject to numerous laws and regulations governing the discharge of materials into the environment or otherwise relating to environmental protection. These laws and regulations may require the acquisition of a permit before drilling commences, restrict the types, quantities and concentration of various substances that can be released into the environment in connection with drilling and production activities, limit or prohibit drilling activities on certain lands within wilderness, wetlands and other protected areas, require remedial measures to mitigate pollution from former operations, such as pit closure and plugging abandoned wells, and impose substantial liabilities for pollution resulting from production and drilling operations. Public interest in the protection of the environment has increased dramatically in recent years. The worldwide trend of more expansive and stricter environmental legislation and regulations applied to the oil and natural gas industry could continue, resulting in increased costs of doing business and consequently affecting profitability. To the extent laws are enacted or other governmental action is taken that restricts drilling or imposes more stringent and costly waste handling, disposal and cleanup requirements, our business and prospects could be adversely affected.

Operating Hazards and Insurance

The oil and natural gas business involves a variety of operating hazards and risks such as well blowouts, craterings, pipe failures, casing collapse, explosions, uncontrollable flows of oil, natural gas or well fluids, fires, formations with abnormal pressures, pipeline ruptures or spills, pollution, releases of toxic gas and other environmental hazards and risks. These hazards and risks could result in substantial losses to us from, among other things, injury or loss of life, severe damage to or destruction of property, natural resources and equipment, pollution or other environmental damage, clean-up responsibilities, regulatory investigation and penalties and suspension of operations.

In accordance with customary industry practices, we expect to maintain insurance against some, but not all, of such risks and losses. There can be no assurance that any insurance we obtain would be adequate to cover any losses or liabilities. We cannot predict the continued availability of insurance or the availability of insurance at premium levels that justify its purchase. The occurrence of a significant event not fully insured or indemnified against could materially and adversely affect our financial condition and operations.

Pollution and environmental risks generally are not fully insurable. The occurrence of an event not fully covered by insurance could have a material adverse effect on our future financial condition. If we were unable to obtain adequate insurance, we could be forced to participate in all of our activities on a non-operated basis, which would limit our ability to control the risks associated with oil and natural gas operations.

Employees

We currently do not have any other employees other than the Toro's sole officer and director.

Item 2: Description of Property

Corporate Office

The Company's headquarters and executive offices are located at 1100 Dexter Ave. N., Suite 100, Seattle, Washington. Our telephone number is (206) 273-7850. Our office space is currently rented on a month to month basis.

Oil and Gas Interests

By a letter of intent dated March 26, 2008, the Company acquired a 15% working interest in the Quinlan #3 Oil and Gas lease in Pottowatomie County, Oklahoma in consideration for the payments totaling \$67,500. The funding for this acquisition was derived from a private placement of 33,750 shares of our common stock.

By a turnkey agreement effectively dated March 29, 2008, the Company acquired a 60% working interest in an oil and gas leases known as the Crown Oil and Gas Lease in Pottowatomie County, Oklahoma for \$250,000. The funding for this acquisition was derived from a private placement of 250,000 shares of our common stock.

Item 3: Legal Proceedings

There are no existing, pending or threatened legal proceedings involving Toro Ventures Inc., or against any of our officers or directors as a result of their involvement with the Company.

Item 4: Submission of Matters to a Vote of Security Holders

There were no matters submitted to a vote of security holders during the quarter ended June 30, 2008.

PART II

Item 5: Market for Common Equity, Related Stockholder Matters and Small Business Issuer Purchases of Equity Securities

Market for the Common Stock

Our common stock is traded on the OTC Bulletin Board and is quoted under the symbol "TORO.OB." The following quotations were obtained from Yahoo Finance and reflect interdealer prices, without retail markup, markdown, or commission, and may not represent actual transactions. There have been no reported transactions in our stock for certain of the trading days during the periods reported below. The following table sets forth the high and low bid prices for our common stock on the OTC Bulletin Board for the periods indicated (as adjusted for stock splits):

Period	Bid Prices	
	High	Low
Quarter Ending June 30, 2008	\$2.35	\$1.56
Quarter Ending March 31, 2008	\$2.40	1.50

As of June 30, 2008, there were approximately 14 stockholders of record of the Company's Common Stock.

Dividends

Our dividend policy for holders of common stock is to retain earnings to support the expansion of operations through organic growth or by strategic acquisitions. We have not previously paid any cash dividends, and we do not intend to

pay cash dividends in the near future. Any future cash dividends will depend on our future earnings, capital requirements, financial condition and other factors deemed relevant by the Board of Directors.

Recent Issuances of Unregistered Securities

From February through March 2008 pursuant to a \$500,000 equity private placement, the Company issued a total of 250,000 shares to a group of accredited investors of restricted Common Stock at an average value of \$2.00 per share. The funds raised were used to acquire Toro's 60% interest of the Crown Oil & Gas Lease in Pottowatomie County, Oklahoma. The Company is relying on exemption from registration pursuant to Regulation S of the Securities Act of 1933.

In May 2008 pursuant to a \$67,500 equity private placement, the Company issued a total of 33,750 shares to a group of accredited investors of restricted Common Stock at an average value of \$2.00 per share. The funds raised were used to acquire Toro's 15% interest of the Quinlan #3 Oil & Gas Lease in Pottowatomie County, Oklahoma. The Company is relying on exemption from registration pursuant to Regulation S of the Securities Act of 1933.

The common stock issued by the Company was not registered under the Securities Act of 1933, and cannot be resold or distributed absent registration unless an exemption from the registration requirement is applicable, such as Rule 144. Under Rule 144, the restricted stock may be sold in the public market if the requirements of the Rule are satisfied.

Item 6: Management's Discussion and Analysis or Plan of Operation

The following discussion and analysis provides information which management of Toro Ventures Inc. (the "Company") believes to be relevant to an assessment and understanding of the Company's results of operations and financial condition. This discussion should be read together with the Company's financial statements and the notes to financial statements, which are included in this report.

Overview

We intend to continue to acquire high quality oil and gas properties, primarily "proved producing and proved undeveloped reserves" in the United States. We see significant opportunities in acquiring properties with proven producing reserves and undeveloped acreage in fields that have a long history of production. We will also explore low-risk development drilling and work-over opportunities with experienced, strong operators. We will attempt to finance oil and gas operations through a combination of privately placed debt and/or equity. There can be no assurance that we will be successful in finding financing, or even if financing is found, that we will be successful in acquiring oil and/or gas assets that result in profitable operations.

We are continuing our efforts to identify and assess investment opportunities in oil and natural gas properties, utilizing free labor of its directors and stockholders until such time as funding is sourced from the capital markets. It is anticipated that we will require funding over the next twelve months to continue our operation. Attempts are ongoing

to raise funds through private placements and said attempts will continue throughout 2008.

Our operating expenses will increase as we undertake our plan of operations. The increase will be attributable to the continuing geological exploration and acquisition programs and continued professional fees that will be incurred.

Results of Operations

Revenues

We did not earn any revenues during the fiscal period end June 30, 2008, nor has the Company earned any revenues since its inception date of April 11, 2005.

General & Administrative Expenses

General and administrative expenses totaled \$189,551 for the fiscal period ended June 30, 2008, compared to general and administrative expenses of \$23,754 for the fiscal period ended June 30, 2007. General and administrative expenses incurred during the fiscal period ended June 30, 2008 is largely attributed to professional fees incurred in identifying and assessing potential oil and natural gas properties.

We experienced a net loss of \$189,551 for the fiscal period ended June 30, 2008, compared to a net loss of \$23,754 for the fiscal period ended June 30, 2007.

Liquidity and Capital Resources

As of June 30, 2008, the Company had cash of \$21,809. Management does not expect that the current level of cash on hand will be sufficient to fund our operation for the next twelve month period. In the event that additional funds are required to maintain operations, our officers and directors have agreed to advance us sufficient capital to allow us to continue operations. We may also be able to obtain loans from our shareholders, but there are no agreements or understandings in place currently.

We believe that we will require additional funding to expand our business and ensure its future profitability. We anticipate that any additional funding will be in the form of equity financing from the sale of our common stock. However, we do not have any agreements in place for any future equity financing. In the event we are not successful in selling our common stock, we may also seek to obtain short-term loans from our director.

Item 7: Financial Statements

The consolidated financial statements required to be filed pursuant to this Item 7 begin on page F-1 of this report.

Item 8: Changes In Disagreements With Accountants on Accounting and Financial Disclosure

The Financial Statements of the Company have been audited by Fazaari + Partners, Chartered Accountants, LLP for the fiscal period ended June 30, 2008 and for the fiscal year ended 2007. There have been no changes in or disagreements with Fazzari + Partners, Chartered Accountants, LLP on accounting and financial disclosure matters at

any time.

Item 8A: Controls and Procedures

Our Chief Executive Officer, President, and Chief Financial Officer (the "Certifying Officers") is responsible for establishing and maintaining disclosure controls and procedures for the Company. The Certifying Officers have designed such disclosure controls and procedures to ensure that material information is made known to them, particularly during the period in which this report was prepared. The Certifying Officers have evaluated the effectiveness of the Company's disclosure controls and procedures within 90 days of the date of this report and believe that the Company's disclosure controls and procedures are effective based on the required evaluation. There have been no significant changes in internal controls or in other factors that could significantly affect internal controls subsequent to the date of their evaluation, including any corrective actions with regard to significant deficiencies and material weaknesses.

Item 8B: Other Information

None

Item 9: Directors, Executive Officers, Promoters and Control Persons; Compliance with Section 16(a) of the Exchange Act

Officers and Directors

Each of our directors serves until his or her successor is elected and qualified. Each of our officers is elected by the board of directors to a term of one (1) year and serves until his or her successor is duly elected and qualified, or until he or she is removed from office. The board of directors has no nominating, auditing or compensation committees.

7

The name, age, and position of our present officers and directors are set forth below:

Name	Age	Position Held
Frederick Graham Jr.	53	President, Principal Executive Officer, Principal Financial Officer,, Secretary Treasurer, Secretary, and Director

Each director serves until our next annual meeting of the stockholders or unless they resign earlier. The Board of Directors elects officers and their terms of office are at the discretion of the Board of Directors.

Background of officers and directors

Mr. Graham has a strong track record of guiding startup companies through angel financing to mezzanine levels. He has over 25 years of experience working in a management role in early stage companies. Some of his experiences include co-founding and leading a junior Paper Recycling Company in downtown Chicago to be a supplier for Waste Management, Inc and negotiated a 55-ton per day contract with Bergstrom papers. Mr. Graham also successfully led a turnaround of a \$50 million Washington Real Estate group out of Chapter 11 securing investment through Hong Kong.

Audit Committee Financial Expert

We do not have an audit committee financial expert. We do not have an audit committee financial expert because we believe the cost related to retaining a financial expert at this time is prohibitive. Further, because we are only beginning our commercial operations, at the present time, we believe the services of a financial expert are not warranted.

Conflicts of Interest

The only conflict that we foresee is that our officers and directors devote time to projects that do not involve us.

8

SECTION 16(A) BENEFICIAL OWNER REPORTING COMPLIANCE

Section 16(a) of the Securities and Exchange Act of 1934 requires that the Company's directors, executive officers, and persons who own more than 10% of registered class of the Company's equity securities, or file with the Securities and Exchange Commission (SEC), initial reports of ownership and report of changes in ownership of common stock and other equity securities of the Company. Officers, directors, and greater than 10% beneficial owners are required by SEC regulation to furnish the Company with copies of all Section 16(a) reports they file. As of the fiscal year ending June 30, 2008, Form 3 reports were not timely filed by Mr. Yan Liu, a 10% beneficial owner.

Code of Ethics

The Company has adopted code of ethics for all of the employees, directors and officers which is attached to this Annual Report as Exhibit 14.1.

Item 10: Executive Compensation

The following table sets forth information with respect to compensation paid by us to our officers and directors during the four most recent fiscal years. This information includes the dollar value of base salaries, bonus awards and number of stock options granted, and certain other compensation, if any.

There are no stock option, retirement, pension, or profit sharing plans for the benefit of our officers and directors.

Long-Term Incentive Plan Awards

We do not have any long-term incentive plans.

9

Compensation of Directors

We do not have any plans to pay our directors any money.

Indemnification

Under our Articles of Incorporation and Bylaws of the corporation, we may indemnify an officer or director who is made a party to any proceeding, including a law suit, because of his position, if he acted in good faith and in a manner he reasonably believed to be in our best interest. We may advance expenses incurred in defending a proceeding. To the extent that the officer or director is successful on the merits in a proceeding as to which he is to be indemnified, we must indemnify him against all expenses incurred, including attorney's fees. With respect to a derivative action, indemnity may be made only for expenses actually and reasonably incurred in defending the proceeding, and if the officer or director is judged liable, only by a court order. The indemnification is intended to be to the fullest extent permitted by the laws of the State of Nevada.

Regarding indemnification for liabilities arising under the Securities Act of 1933, which may be permitted to directors or officers under Nevada law, we are informed that, in the opinion of the Securities and Exchange Commission, indemnification is against public policy, as expressed in the Act and is, therefore, unenforceable.

Item 11: Security Ownership of Certain Beneficial Owners and Management and Related Stockholder Matters

The following table sets forth certain information known to us with respect to the beneficial ownership of our Common Stock as of June 30, 2008, by (1) all persons who are beneficial owners of 5% or more of our voting securities, (2) each director, (3) each executive officer, and (4) all directors and executive officers as a group. The information regarding beneficial ownership of our common stock has been presented in accordance with the rules of the Securities and Exchange Commission. Under these rules, a person may be deemed to beneficially own any shares of capital stock as to which such person, directly or indirectly, has or shares voting power or investment power, and to beneficially own any shares of our capital stock as to which such person has the right to acquire voting or investment power within 60 days through the exercise of any stock option or other right. The percentage of beneficial ownership as to any person as of a particular date is calculated by dividing (a) (i) the number of shares beneficially owned by such person plus (ii) the number of shares as to which such person has the right to acquire voting or investment power within 60 days by (b) the total number of shares outstanding as of such date, plus any shares that such person has the right to acquire from us within 60 days. Including those shares in the tables does not, however, constitute an

admission that the named stockholder is a direct or indirect beneficial owner of those shares. Unless otherwise indicated, each person or entity named in the table has sole voting power and investment power (or shares that power with that person's spouse) with respect to all shares of capital stock listed as owned by that person or entity.

Except as otherwise indicated, all Shares are owned directly and the percentage shown is based on 6,128,750 Shares of Common Stock issued and outstanding as of June 30, 2008. Addresses for all of the individuals listed in the table below are c/o Toro Ventures, Inc., 1100 Dexter Ave. N., Suite 100, Seattle, WA, 98109..

Name of Beneficial Owner	Title of Class	Direct Amount of Beneficial Owner	Percent of Class
Yan Liu	Common Stock	3,000,000	48.9%

As of June 30, 2008, none of our directors or named executive officers owned any shares of our common stock.

Securities authorized for issuance under equity compensation plans.

We have no equity compensation plans.

Item 12: Certain Relationships and Related Transactions

We issued 3,000,000 shares of common stock to Yan Liu, the Company's former president and a former member of the board of directors, in consideration of \$3,000.

We issued 275,000 shares of common stock to Big On Burgers Restaurant in May 2005, in consideration for the rights to the Big On Burgers franchise.

Report of Independent Registered Public Accounting Firm

To the Board of Directors and Shareholders of: Toro Ventures Inc.

We have audited the accompanying balance sheet of **Toro Ventures Inc.** as at **June 30, 2008** and the statements of stockholders' equity, operations and cash flows for the year then ended. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principals used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Company as at June 30, 2008 and the results of its operations and cash flows for the year then ended, in conformity with the accounting principals generally accepted in the United States of America.

The accompanying financial statements have been prepared assuming the Company will continue as a going concern. As discussed in Note 3 to the financial statements, the Company incurred losses from operations since inception, has not attained profitable operations and is dependent upon obtaining adequate financing to fund its operations. These factors raise substantial doubt about the Company's ability to continue as a going concern. Management's plan in regards to this matter is also discussed in Note 3. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

The comparative figures were reported on by another accounting firm.

Toro Ventures Inc.

(A Nevada Corporation)

Notes to Financial Statements

Fiscal Year Ended June 30, 2008

(Expressed in U.S. Dollars)

1. INCORPORATION AND OPERATING ACTIVITIES

Toro Ventures Inc. was incorporated on 11 April 2005, under the laws of the State of Nevada,

U.S.A. Operations, as a development stage company started on that date, i.e., 11 April 2005.

The Company is in the

development stage and through joint ventures is in the process of exploring its oil and gas properties located in the U.S.A. The recoverability of amounts shown for oil and gas properties are dependent upon the discovery of economically recoverable reserves, confirmation of the Company's interest in the properties, the ability of the Company to obtain necessary finances to complete the development and upon future profitable production or proceeds from the disposition thereof.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Foreign Currency Translation

Monetary assets and liabilities denominated in foreign currencies are translated into USA dollars at the period end exchange rate, non-monetary assets are translated at historical exchange rates and all income and expenses are translated at average exchange rates prevailing during the period. Foreign currency translation adjustments are included in income.

Loss Per Share

Loss per share has been calculated based on the weighted average number of shares outstanding.

Fair Value of Financial Instruments

The respective carrying value of certain on-balance sheet financial instruments approximate their fair values. These financial statements include cash, investment in franchise, oil and gas properties, accounts payable and accrued liabilities and a loan from shareholder. Unless otherwise noted, it is management's opinion that the Company is not exposed to significant interest, currency or credit risks arising from these financial instruments. Unless otherwise noted, fair values were assumed to approximate carrying values for these financial instruments since they are short term in nature and their carrying amounts approximate fair values or they are receivable or payable on demand.

Use of Estimates

The preparation of financial statements in accordance with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could materially differ from these estimates.

Reporting on the costs of start-up activities

Statement of Position 98-5 (SOP 98-5)

, "Reporting on the Costs of Start-Up Activities," which provides guidance on the financial reporting of start-up costs and organizational costs, to be expensed as incurred. SOP 98-5 is effective for fiscal years beginning after 15 December 1998. With the adoption of SOP 98-5, there has been little or no effect on the Company's financial statements.

Investment in franchise

The investment in a franchise is considered as an intangible asset with a finite life of ten years. In accordance to FAS-142, the intangible asset has been evaluated for impairment by using discounted expected cash flows. No impairment of the intangible asset existed and as a result there is no amortization provided in the current period. The impairment, if any, will be tested and evaluated at least on an annual basis for impairment.

The investment in a franchise is stated at cost less accumulated amortization. Amortization is recorded on straight-line basis over the period of benefit which is considered to be the asset's finite life of ten years.

Future Income Taxes

The company recognizes income taxes using an asset and liability approach. Future income tax assets and liabilities are computed annually for differences between the financial statements and bases using enacted tax laws and rates applicable to the periods in which the differences are expressed to affect taxable income.

Year end and Comparative Figures

The Company has adopted June 30 as its fiscal year end. The unaudited financial statements should read in conjunction with the Company's audited financial statements for the year ended June 30, 2008

3. GOING CONCERN

The Company's financial statements are prepared using the generally accepted accounting principles applicable to a going concern, which contemplates the realization of assets and liquidation of liabilities in the normal course of business. However, the Company has not commenced its planned principal operations and has generated no revenues. In order to obtain the necessary capital, the Company is in the process of raising funds from private placement subscriptions. The Company is dependent upon its ability to secure equity and/or debt financing and there are no assurances that the Company will be successful, without sufficient financing it would be unlikely for the Company to continue as a going concern.

The sole officer and director is involved in other business activities and may, in the future, become involved in other business opportunities. If a specific business opportunity becomes available, such persons may face a conflict in selecting between the Company and their other business interests. The Company has not formulated a policy for the resolution of such conflicts.

4. INTEREST IN OIL AND GAS PROPERTIES

a) By a letter of intent dated March 26, 2008, the Company acquired a 15% working interest in the Quinlan #3 Oil and Gas lease in Pottowatomie County, Oklahoma in consideration for the payments totaling \$67,500.

b) By a turnkey agreement effectively dated March 29, 2008, the Company acquired a 60% working interest in an oil and gas lease known as the Crown Oil and Gas Lease in Pottowatomie County, Oklahoma for \$250,000.

5. INVESTMENT IN FRANCHISE

On May 15, 2005, the company entered into an agreement with a Canadian company to acquire the right to establish franchise outlets in parts of the People's Republic of China. The agreement is for 10 years with an option to renew for an additional 10 years after the termination of the initial term. The consideration given for the Right is 275,000 common shares. In addition a 5% royalty is to be paid on all outlet gross sales to the franchisors along with 3% advertising royalty on all outlet gross sales.

At the period end, management believes that there is no impairment of value in the investment, because, the franchise agreement was signed just before the fiscal period end and management performed a calculation using discounted cash flow analysis, to support the lack of impairment. Furthermore, the Company is actively seeking a location for the first franchisee in the Provinces of Hubei or Beijing.
