ITEM 2.03. CREATION OF A DIRECT FINANCIAL OBLIGATION OR AN OBLIGATION UNDER AN OFF-BALANCE SHEET ARRANGEMENT OF A REGISTRANT.

On October 30, 2008, Integra LifeSciences Holdings Corporation, a Delaware corporation (the “Company”), borrowed \$60 million under its senior secured revolving credit facility for general corporate purposes. As a result of this borrowing, the Company has \$260 million of outstanding borrowings under its credit facility as of the date of this filing.

The outstanding borrowings have one-month interest periods. The weighted average interest rate of the outstanding borrowings is approximately 4.0%.

The credit facility requires the Company to maintain various financial covenants, including leverage ratios, a minimum fixed charge coverage ratio and a minimum liquidity ratio. The credit facility also contains customary affirmative and negative covenants, including those that limit the Company’s and its subsidiaries’ ability to incur additional debt, incur liens, make investments, enter into mergers and acquisitions, liquidate or dissolve, sell or dispose of assets, repurchase stock and pay dividends, engage in transactions with affiliates, engage in certain lines of business and enter into sale and leaseback transactions. In addition, as previously disclosed, the Company obtained waivers from the lenders under the credit facility relating to: (i) representations regarding the Company’s disclosed material weaknesses; and (ii) the calculation of the consolidated fixed charge ratio under the credit agreement as it relates to tax recapture payments made by the Company in connection with the repayment of certain indebtedness.
