shorter period that the registrant was required to file such report(s) been filed? If the answer is no, identify report(s). x Yes    No

- (3) Is it anticipated that any significant change in results of operations from the corresponding period for the last fiscal year will be reflected by the earnings statements to be included in the subject report or

portion thereof? x Yes    No

If so, attach an explanation of the anticipated change, both narratively and quantitatively, and, if appropriate, state the reasons why a reasonable estimate of the results cannot be made.

As previously reported, we are no longer focusing on growing our wireline telephone business and we are using the cash generated by this mature customer base to help fund the growth of our newly-developed digital telephone service that routes telephone calls over the Internet. Although the number of digital telephone numbers we have in service continues to grow and exceeds 5,300 numbers, our revenue per line for digital phone services is less than our revenue per line for wireline service. The decrease in the number of wirelines and the overall decrease in our average revenue per line caused our revenue for the three-month period ended August 31, 2006 to decrease by approximately \$2,198,000, or approximately 53%, to approximately \$1,949,000 as compared to approximately \$4,147,000 reported for the three-month period ended August 31, 2005.

Our gross profit for the three-month period ended August 31, 2006 decreased by approximately \$1,173,000 to approximately \$734,000 from approximately \$1,907,000 reported in the three-month period ended August 31, 2005. During the three-month period ended August 31, 2006, our gross profit percentage decreased to 37.7% from 46.0% during the comparable 2005 period. The decrease in our gross profit resulted primarily from the decrease in the size of our customer base in the third quarter of fiscal 2006 relative to the third quarter in fiscal 2005, and the higher cost of services we are now incurring under our wholesale services agreement with Verizon.

Selling, general and administrative expenses decreased by approximately \$137,000, or approximately 11%, to approximately \$1,166,000 for the three-month period ended August 31, 2006 from approximately \$1,303,000 reported in prior year fiscal period.

Our bad debt expense, net of recoveries, decreased by approximately \$940,000, or approximately 100%, to approximately \$3,000 for the three months ended August 31, 2006 from approximately \$943,000 reported in the prior fiscal period. This decrease was related to the reduction in the number of wireline customers we had during the 2006 period and the fact that the remaining wireline customers represent a mature base that has consistently paid their bills. Further, because we require credit card payment from our retail digital telephone service customers, our new customers have not been generating bad debt expense.

The change in warrant valuation for the three-month period ended August 31, 2006 amounted to income of approximately \$406,000 compared to income of approximately \$35,000 for the same period in fiscal 2005. The increase was due to the change in the value of our common stock.

For the three-month period ended August 31, 2005, we reported a gain on sales of investment securities of approximately \$323,000. There were no security transactions in 2006.
