(unaudited)

1. Background and Basis of Presentation

Description of Business

Discover Financial Services (“DFS” or the “Company”) is a direct banking and payment services company. The Company is a bank holding company under the Bank Holding Company Act of 1956 as well as a financial holding company under the Gramm-Leach-Bliley Act and therefore is subject to oversight, regulation and examination by the Board of Governors of the Federal Reserve System (the “Federal Reserve”). The Company provides direct banking products and services and payment services through its subsidiaries. The Company offers its customers credit card loans, private student loans, personal loans, home equity loans and deposit products. The Company also operates the Discover Network, the PULSE network (“PULSE”) and Diners Club International (“Diners Club”). The Discover Network processes transactions for Discover-branded credit cards and also provides payment transaction processing and settlement services. PULSE operates an electronic funds transfer network, providing financial institutions issuing debit cards on the PULSE network with access to ATMs domestically and internationally, as well as point-of-sale terminals at retail locations throughout the U.S. for debit card transactions. Diners Club is a global payments network of licensees, which are generally financial institutions, that issue Diners Club branded charge cards and/or provide card acceptance services.

The Company’s business segments are Direct Banking and Payment Services. The Direct Banking segment includes consumer banking and lending products, specifically Discover-branded credit cards issued to individuals on the Discover Network and other consumer products and services, including private student loans, personal loans, home equity loans, prepaid cards, other consumer lending and deposit products, and home loans until the closing of the mortgage origination business as described in Note 2: Business Dispositions. The majority of Direct Banking revenues relate to interest income earned on the segment’s loan products. Additionally, the Company’s credit card products generate substantially all revenues related to discount and interchange, protection products and loan fee income. The Payment Services segment includes PULSE, Diners Club and the Company’s Network Partners business, which provides payment transaction processing and settlement services on the Discover Network. This segment also includes the business operations of Diners Club Italy, which primarily consist of issuing Diners Club charge cards. The majority of Payment Services revenues relate to transaction processing revenue from PULSE and royalty and licensee revenue (included in other income) from Diners Club.

Basis of Presentation

The accompanying condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States (“GAAP”) for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete consolidated financial statements. In the opinion of management, the financial statements reflect all adjustments which are necessary for a fair presentation of the results for the interim period. All such adjustments are of a normal, recurring nature. The preparation of financial statements in conformity with GAAP requires the Company to make estimates and assumptions that affect the amounts reported in the condensed consolidated financial statements and related disclosures. These estimates are based on information available as of the date of the condensed consolidated financial statements. The Company believes that the estimates used in the preparation of the condensed consolidated financial statements are reasonable. Actual results could differ from these estimates. These interim condensed consolidated financial statements should be read in conjunction with the Company’s 2014 audited consolidated financial statements filed with the Company’s annual report on Form 10-K for the calendar year ended December 31, 2014.

Recently Issued Accounting Pronouncements

In April 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2015-05, Intangibles-Goodwill and Other-Internal-Use Software (Subtopic 350-40): Customer’s Accounting for Fees Paid in a Cloud Computing Arrangement. This ASU addresses whether a cloud computing arrangement contains a software license. Under the new guidance, a cloud computing arrangement contains a software license if the customer has the contractual right to take possession of the software at any time during the hosting period without significant

penalty and provided it is feasible for the customer to either host the software internally or with an external party unrelated to the original vendor. Upon meeting both of these criteria, a customer should account for the software license within a cloud computing arrangement in a manner consistent with the acquisition of other software licenses. If a cloud computing arrangement does not meet both criteria, a

6

Table of Contents

customer will account for the arrangement entirely as a service contract. The new guidance will become effective for the Company on January 1, 2016. Management is in the process of evaluating existing contractual arrangements to determine whether any will be impacted by the ASU.

In April 2015, the FASB issued ASU No. 2015-03, Interest-Imputation of Interest (Subtopic 835-30): Simplifying the Presentation of Debt Issuance Costs. The guidance in this update makes the presentation of debt issuance costs consistent with that of debt discounts and premiums. The ASU requires that debt issuance costs related to a recognized debt liability be presented in the balance sheet as a direct deduction from the carrying amount of that debt liability. The new guidance will become effective for the Company on January 1, 2016 and is not expected to have a material impact to the financial statements.

In February 2015, the FASB issued ASU No. 2015-02, Consolidation (Topic 810): Amendments to the Consolidation Analysis. The guidance in this update was issued to improve targeted areas of the accounting rules for consolidation. The ASU changes the analysis companies will use to determine if certain types of legal entities should be consolidated. In addition, it modifies the determination of whether a limited partnership ("LP") should be evaluated as a variable interest entity ("VIE") or a voting interest entity and eliminates the presumption that a general partner should consolidate a LP. The amendments will primarily trigger a review of the Company's tax credit investments, which typically utilize limited liability entities. Management is in the process of reviewing those and all other involvements with potential VIEs to determine if its prior conclusions about consolidation or non-consolidation of those entities continue to be appropriate in light of the amended guidance. The new guidance will become effective for the Company on January 1, 2016.

In May 2014, the FASB issued ASU No. 2014-09, Revenue from Contracts with Customers (Topic 606). The guidance in this update supersedes existing revenue recognition requirements in Topic 605, Revenue Recognition, including an assortment of transaction-specific and industry-specific rules. The ASU establishes a principles-based model under which revenue from a contract is allocated to the distinct performance obligations within the contract and recognized in income as each performance obligation is satisfied. ASU Topic 606 does not apply to rights or obligations associated with financial instruments (for example, interest income from loans or investments, or interest expense on debt), and therefore the Company's net interest income should not be affected. The Company's revenue from discount and interchange, protection products, transaction processing and certain fees are within the scope of these rules. Management has not yet completed its evaluation of the impact, if any, of the new guidance on these revenues. As issued, the new revenue recognition rules were to become effective January 1, 2017. In August 2015, the FASB issued ASU No. 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date, which deferred the effective date of ASU No. 2014-09 to January 1, 2018. Upon adoption in 2018, the Company will record any necessary adjustment to retained earnings as of the beginning of the year of initial application, which can be either the earliest comparative period presented, with all periods presented under the new rules, or January 1, 2018, without restating prior periods presented. Management has not yet determined which transition reporting option it will apply.

2. Business Dispositions

On June 16, 2015, the Company announced that it is closing the mortgage origination business it acquired in 2012, which is part of its Direct Banking segment. The disposition represents the exiting of an ancillary business that will not have a major impact on the Company's operations. As part of the restructuring, the Company incurred approximately \$3 million and \$26 million of exit expenses for the three and nine months ended September 30, 2015, respectively, recorded in other expense within the condensed consolidated statements of income, and expects to incur exit expenses of approximately \$5 million through the end of the wind-down period of the business over the remainder of 2015.

Other Investments

As a part of the Company's community reinvestment initiatives, the Company has made equity investments in certain limited partnerships and limited liability companies that finance the construction and rehabilitation of affordable rental housing, as well as stimulate economic development in low to moderate income communities. These investments are accounted for using the equity method of accounting and are recorded within other assets. The related commitment for future investments is recorded in accrued expenses and other liabilities within the condensed consolidated statements of financial condition. The portion of each investment's operating results allocable to the Company is recorded in other expense within the condensed consolidated statements of income. The Company earns a return primarily through the receipt of tax credits allocated to the affordable housing projects and the community revitalization projects. These investments are not consolidated as the Company does not have a controlling financial interest in the entities. As of September 30, 2015 and December 31, 2014, the Company had outstanding investments in these entities of \$294 million and \$325 million, respectively, and related contingent liabilities of \$28 million and \$51 million, respectively. Of the above outstanding equity investments, the Company had \$196 million and \$201 million,

respectively, of investments related to affordable housing projects, which had \$28 million and \$38 million related contingent liabilities as of September 30, 2015 and December 31, 2014, respectively.

See Note 5: Credit Card and Student Loan Securitization Activities for further information.

On June 16, 2015, the Company announced that it is closing the mortgage origination business, as disclosed in (2) Note 2: Business Dispositions. Pursuant to that announcement, the Company has sold substantially all mortgage loans held for sale in its portfolio and ceased originating new mortgages.

(3) Other includes home equity loans.

Amounts include \$1.7 billion and \$2.0 billion of loans pledged as collateral against the notes issued from the (4) Student Loan Corporation ("SLC") securitization trusts at September 30, 2015 and December 31, 2014, respectively. See Note 5: Credit Card and Student Loan Securitization Activities.

Credit Quality Indicators

The Company regularly reviews its collection experience (including delinquencies and net charge-offs) in determining its allowance for loan losses.
