The Herzfeld Caribbean Basin Fund Inc.'s investment objective is long-term capital appreciation. To achieve its objective, the Fund invests in issuers that are likely, in the Advisor's view, to benefit from economic, political, structural and technological developments in the countries in the Caribbean Basin, which include, among others, Cuba, Jamaica, Trinidad and Tobago, the Bahamas, the Dominican Republic, Barbados, Aruba, Haiti, the Netherlands Antilles, the Commonwealth of Puerto Rico, Mexico, Honduras, Guatemala, Belize, Costa Rica, Panama, Colombia, the United States and Venezuela ("Caribbean Basin Countries"). The Fund invests at least 80% of its total assets in equity and equity-linked securities of issuers, including U.S.-based companies which engage in substantial trade with, and derive substantial revenue from, operations in Caribbean Basin Countries.

Letter to Stockholders (Unaudited)

July 30, 2018

Dear Fellow Stockholders:

We are pleased to present our Annual Report for the period ended June 30, 2018. On that date, the net asset value (“NAV”) of The Herzfeld Caribbean Basin Fund, Inc. (NASDAQ: CUBA), (the “Fund”) was \$8.00 per share. For the fiscal year ended June 30, 2018, the total investment return of the Fund was -6.82%, based on market value per share, and -2.26% based on net asset value per share.*

Thomas J. Herzfeld

Chairman and

Portfolio Manager

The Fund seeks long-term capital appreciation through investment in companies that the Advisor believes are poised to benefit from economic, political, structural and technological developments in countries in the Caribbean Basin. An important part of that investment strategy continues to be focused on Caribbean Basin companies that we believe would benefit from the resumption of US trade with Cuba. Since it is impossible to predict the future path of the US embargo, we have concentrated on investments which we believe can do well even if there is no political or economic change with respect to Cuba.

Caribbean Update

Much of the Caribbean Basin that was affected by the devastating 2017 Atlantic hurricane season has not fully recovered as we enter the 2018 hurricane season. Puerto Rico is still struggling in the aftermath of Hurricanes Maria and Irma as powering the island remains a struggle. As many as 300,000 Puerto Ricans are reported to have left the island following Maria. Migration to the mainland US compounds Puerto Rico’s ability to manage its debt as fewer taxpayers means reduced revenues to pay down debt. In similarly storm-impacted islands like Anguilla, Barbuda, Dominica, St. Barts, St. Martin, and the Virgin Islands, only approximately half of the Caribbean Hotel and Tourism

Associations' member hotels have reopened to date. However, tourism in the Caribbean remained resilient in the wake of the storms as other islands picked up the slack and cruise lines adjusted their itineraries while staying within the region. International Monetary Fund (IMF) published expectations show Caribbean economies rebounding in 2018 with estimated real gross domestic product (GDP) projecting growth of 3.9%, versus the 2.1% growth that was achieved in 2017.

*The calculation of the total investment return assumes reinvestment of dividends and distributions at prices obtained by the Fund's Dividend Reinvestment Plan.

Erik M. Herzfeld

President and

Portfolio Manager

In Cuba, Raul Castro stepped down as President in 2017, marking the first time in 60 years a Castro is not President of Cuba; Miguel Diaz-Canel succeeds him. Unfortunately, the relationship between Cuba and the US cooled last year, after the Trump administration held Cuba accountable for “acoustic attacks,” which caused hearing loss injuries to staff at the US embassy in Cuba. Although the cause of the injuries is still not entirely clear, the incident provoked the removal of US government staff in Havana and a resulting expulsion of Cuban diplomats from the US; and most likely delayed progress with regards to any imminent lifting of the US embargo with Cuba. Cuba, reportedly, has imposed more restrictions internally, including new taxes on private businesses and freezing the issuance of new business licenses, apparently in an effort to prevent tax evasion and limit wealth accumulation. These actions indicate a retreat by the Cuban government from its earlier signals to open up its economy and transition from its mutually-dependent relationship with Venezuela.

Portfolio

The Fund had a difficult fiscal year as losses from larger positions in Mexican and Panamanian equities more than offset the large gains in our Puerto Rican holdings and certain smaller gains in domestic equities. The weakness in Mexican equities was a result of several factors, including a weakening peso, commentary from the Trump administration over US trade policy and the future of the North American Free Trade Agreement (NAFTA), and the election of leftist President Andrés Manuel López Obrador, a major change from the Peña Nieto administration. Cemex SAB de CV (CX) was the biggest detractor to the Fund’s performance over the fiscal year, dropping 30.36% as revenue growth stalled and sharp moves in the peso negatively impacted its earnings. Weakness in the Caribbean Basin and Latin America markets for CX has been a headwind but recent guidance suggests signs of improvement in these regions. Additionally, a positive outcome to ongoing NAFTA negotiations could be a major driver from growth as CX has a large footprint in the US.

The biggest performance contributor to the portfolio was our largest position, Mas-Tec Inc. (MTZ), which gained 12.40% during the Fund’s fiscal year. MTZ continues to benefit from multiple tailwinds as the new tax laws and deregulation efforts of the Trump administration work their way through the economy. MTZ’s two major lines of

business, oil/gas and communications, generated more than 80% of the company's revenues and demand for its services due to deregulation and the new tax bill has increased. We believe this is quantified by MTZ's increasing backlog in oil/gas, communications, and its growing power and transmission/distribution lines of business. MTZ was awarded a \$500 million power restoration contract with the Puerto Rico Electric Power Authority in June 2018, to complete the restoration of critical electrical transmission and distribution system components damaged as a result of Hurricane Maria and to support the initial phase of modernization of Puerto Rico's ailing electrical power system.

Letter to Stockholders (Unaudited) (continued)

Rising fuel prices and a rising US dollar negatively affected our travel and leisure holdings as investors repriced investments in cruise lines and airline stocks. Solid revenue growth, earnings per share growth, and forward guidance for the travel industry were not enough to overcome the shift in investor sentiment for this sector, which impacted fiscal year returns for our sizeable positions in Royal Caribbean Cruises Ltd. (RCL), Copa Holdings SA (CPA), and Norwegian Cruise Line Holdings (NCLH). Both CPA and NCLH dropped by double digits during the Fund's fiscal year as their price to earnings ratios declined from 16.76 to 10.44 and 17.23 to 10.66, respectively. At current valuations, we believe that the worst has already been priced into cruise line and airline stocks. Fuel costs appear to be peaking and the effects of the Trump tax cuts are starting to filter through the US economy, which we expect should lead to increased consumer discretionary spending in the form of travel.

Our allocations to Puerto Rico financials gained between 11.03% and 32.12% during the Fund's fiscal year as First BanCorp (FBP), Banco Popular (BPOP), and EVERTEC Inc. (EVTC) each rebounded significantly after the devastating 2017 Atlantic hurricane season. Rising interest rates in the US are generally credited by banking industry analysts to have helped increase net interest margins at such non-US banks; net interest margins are currently at their highest levels since 2000 for both FBP and BPOP. Both banks report good capitalization with tier 1 capital ratios at 16.80% and 19.66%, respectively, and both continue to trade below book value. In comparison, the KBW Regional Banking Index, a benchmark stock index of US companies that do business as regional banks or thrifts, is at a price to book ratio of 1.58.

Letter to Stockholders (Unaudited) (continued)

Outlook

The effects of the Tax Cuts and Jobs Act are starting to filter through the US economy and we are seeing indications of positive results, including increased consumer spending, better corporate earnings, stock buybacks and capital expenditures. If this continues, we expect the Fund should profit from an uptick in consumer discretionary spending as people increase leisure and travel-related activities. The Fund's portfolio is currently overweight tourism stocks through investments in the cruise lines, airlines, resorts, and airports to capitalize on this as a developing trend. Holdings in financials continue to look undervalued in our view, and should benefit from rising interest rates in the US. We also look for our Mexican holdings to rebound after a difficult past fiscal year. The worries of a US trade war with Mexico appear to have moderated for the time being. The Trump administration has tried to employ imposing tariffs on multiple countries as a negotiating tactic in an attempt to lower trade barriers. With mid-term elections around the corner, we expect new tariffs to be largely negotiated away or at least softened as the domestic political consequences become apparent. We do not anticipate any significant developments in the US's relationship with Cuba based on President Trump's "America First" policy. On the other hand, with Venezuela now a "failed state" with extreme hyperinflation, we continue to consider whether Venezuela's continuing crisis and diminishing support of the Cuban economy will edge Cuba closer to the bargaining table.

The Fund’s investment objective is fundamental and may not be changed without the approval of a majority of the Fund’s outstanding voting securities.

Under the Fund’s organizational documents, its Officers and Directors are indemnified against certain liabilities arising out of the performance of their duties to the Fund. In addition, in the normal course of business, the Fund enters into contracts with its vendors and others that provide for general indemnifications. The Fund’s maximum exposure under these arrangements is unknown as this would involve any future potential claims that may be made against the Fund. However, based on experience, management expects the risk of loss to be remote.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Security Valuation

In accordance with accounting principles generally accepted in the United States of America (“GAAP”), fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (i.e., the “exit price”) in an

orderly transaction between market participants at the measurement date.

In determining fair value, the Fund uses various valuation approaches. In accordance with GAAP, a fair value hierarchy for inputs is used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that observable inputs be used when available.

- 16 -

Notes to Financial Statements

Observable inputs are those that market participants would use in pricing the asset or liability based on market data obtained from sources independent of the Fund. Unobservable inputs reflect the Fund's assumptions about the inputs market participants would use in pricing the asset or liability developed based on the best information available in the circumstances. The fair value hierarchy is categorized into three levels based on the inputs as follows:

- Level 1: Unadjusted quoted prices in active markets for identical assets or liabilities that the Fund has the ability to access.
- Level 2: Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability either directly or indirectly. These inputs may include quoted prices for the identical instrument on an active market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates, and similar data.
- Level 3: Unobservable inputs for the asset or liability to the extent that relevant observable inputs are not available, representing the Fund's own assumptions about the assumptions that a market participant would use in valuing the asset or liability, and that would be based on the best information available.

The availability of valuation techniques and observable inputs can vary from security to security and is affected by a wide variety of factors including, the type of security, whether the security is new and not yet established in the marketplace, and other characteristics particular to the transaction. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Those estimated values do not necessarily represent the amounts that may be ultimately realized due to the occurrence of future circumstances that cannot be reasonably determined. Because of the inherent uncertainty of valuation, those estimated values may be materially higher or lower than the values that would have been used had a ready market for the securities existed. Accordingly, the degree of judgment exercised by the Fund in determining fair value is greatest for securities categorized in Level 3. In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement in its entirety falls, is determined based on the lowest level input that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure. Therefore, even when market assumptions are not readily available, the Fund's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. The Fund uses prices and inputs that are current as of the measurement date, including periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many securities. This condition could cause a security to be reclassified to a lower level within the fair value hierarchy.

Investments in securities traded on a national securities exchange (or reported on the NASDAQ National Market or Capital Market) are stated at the last reported sales price on the day of valuation (or at the NASDAQ official closing price); other securities traded in the over-the-counter market and listed securities for which no sale was reported on that date are stated at the last quoted bid price. Restricted securities and other securities for which quotations are not readily available are valued at fair value as determined, in good faith, by the Board of Directors.

Additional quantitative disclosures for assets in which Level 3 inputs are used in determining fair value are presented when there are significant Level 3 investments at the end of the period.

All transfers are recognized by the Fund at the end of each reporting period. Transfers from Level 2 to Level 1 were \$156,000. Transfers from Level 1 to Level 2 were \$284,376. Transfers between Levels related to the availability of trade information near the valuation date.

Under procedures approved by the Directors, the Advisor provides administration and oversight of the Fund's valuation policies and procedures, which are reviewed at least annually by the Directors. Among other things, these procedures allow the Fund to utilize independent pricing services, quotations from securities and financial instrument dealers and other market sources to determine fair value.

- 18 -

Notes to Financial Statements

The Fund has procedures to determine the fair value of securities and other financial instruments for which market prices are not readily available. Under these procedures, the Advisor convenes on a regular and ad hoc basis to review such securities and considers a number of factors, including valuation methodologies and significant unobservable valuation inputs, when recommending a fair value. The Advisor may employ a market-based approach which may use related or comparable assets or liabilities, recent transactions, market multiples, book values and other relevant information for the investment to determine the fair value of the investment. An income-based valuation approach may also be used in which the anticipated future cash flows of the investment are discounted to calculate fair value. Discount may be applied due to the nature or duration of any restrictions on the disposition of investments. Due to the inherent uncertainty of valuations of such investments, the fair values may differ significantly from the values that would have been used had an active market existed. The Advisor employs various methods for calibrating these valuation approaches including a regular view of valuation methodologies, key inputs and assumptions, transactional back-testing or disposition analysis and reviews of any related market activity.

Income Recognition

Security transactions are recorded on the trade date. Gains and losses on securities sold are determined on the basis of identified cost. Dividend income is recognized on the ex-dividend date or in the case of certain foreign securities, as soon as the Fund is notified, and interest income is recognized on an accrual basis. Discounts and premiums on debt securities purchased are amortized over the life of the respective securities. It is the Fund's practice to include the portion of realized and unrealized gains and losses on investments denominated in foreign currencies as components of realized and unrealized gains and losses on investments and foreign currency. Withholding on foreign taxes have been provided for in accordance with the Fund's understanding of the applicable country's tax rules and rates. Pursuant to a custodian agreement, State Street Bank and Trust ("SSBT") receives a fee reduced by credits which are determined based on the average daily cash balance the Fund maintains with SSBT. Credit balances used to reduce the Fund's custodian fees for the year ended June 30, 2018 were \$0.

Foreign Currency

The accounting records of the Fund are maintained in U.S. dollars. Foreign currency amounts and investments denominated in a foreign currency, if any, are translated into U.S. dollar amounts at current exchange rates on the valuation date. Purchases and sales of investments denominated in foreign currencies are translated into U.S. dollar amounts at the exchange rate on the respective dates of such transactions.

Deposits with Financial Institutions

The Fund may, during the course of its operations, maintain account balances with financial institutions in excess of federally insured limits.

- 19 -

Notes to Financial Statements

Counterparty Brokers

In the normal course of business, substantially all of the Fund's money balances and security positions are custodied with the Fund's custodial broker, SSBT. The Fund also transacts with other brokers. The Fund is subject to credit risk to the extent any broker with which it conducts business is unable to fulfill contractual obligations on its behalf. The Fund's management monitors the financial condition of such brokers and does not anticipate any losses from these counterparties.

Use of Estimates in the Preparation of Financial Statements

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes

The Fund's policy is to continue to comply with the provisions of the Internal Revenue Code of 1986, as amended, that are applicable to regulated investment companies and to distribute substantially all of its taxable income to its stockholders. Under these provisions, the Fund is not subject to federal income tax on its taxable income and no federal income or excise tax provision is required.

The Fund has adopted a June 30 year-end for federal income tax purposes.

Distributions to Stockholders

Distributions to stockholders are recorded on the ex-dividend date. Income and capital gain distributions are determined in accordance with income tax regulations which may differ from GAAP. For the year ended June 30, 2018, a distribution from long-term capital gains of \$0.118 per share was declared on November 22, 2017.

Due to the timing of dividend distributions and the differences in accounting for income and realized gains and losses for financial statement and federal income tax purposes, the fiscal year in which the amounts are distributed may differ from the year in which the income and realized gains and losses are recorded by the Fund.

The bonds were listed on the New York Stock Exchange (“NYSE”) and had been trading in default since 1960. A “regulatory halt” on trading was imposed by the NYSE in July 1995 and trading in the bonds was suspended as of December 28, 2006. The NYSE has stated that following the suspension of trading, application will be made to the Securities and Exchange Commission to delist the issue. Investments in securities also include 700 shares of Cuban Electric Company, 482 shares purchased for \$4,005 on September 30, 2005 and 218 shares purchased for \$1,812 on September 30, 2005, which are currently segregated and restricted from transfer. NOTE 4. TRANSACTIONS WITH AFFILIATES

HERZFELD / CUBA (the “Advisor”), a division of Thomas J. Herzfeld Advisors, Inc., is the Fund’s investment advisor and charges a monthly fee at the annual rate of 1.45% of the Fund’s average daily net assets. Total fees for the year ended June 30, 2018 amounted to \$748,415 of which \$60,378 is payable as of June 30, 2018.

Mr. Thomas J. Herzfeld is the owner of the Advisor.

The Advisor provides a Chief Compliance Officer (“CCO”) to the Fund. The Advisor was compensated in the amount of \$26,913 for the CCO services provided to the Fund.

NOTE 5. INVESTMENT TRANSACTIONS

During the year ended June 30, 2018, purchases and sales of investment securities were \$9,874,047 and \$9,525,483, respectively.

NOTE 6. INCOME TAX INFORMATION

The cost basis of securities owned for financial statement purposes is lower than the cost basis for income tax purposes by \$92,304 due to wash sale adjustments and book-to-tax adjustments to partnership investment. As of June 30, 2018, gross unrealized gains were \$11,184,035 and gross unrealized losses were \$3,824,450 for income tax purposes.

- 21 -

Notes to Financial Statements

Permanent differences accounted for during the year ended June 30, 2018 result from differences between book and tax accounting for the characterization of foreign currency losses, partnership adjustments, and the reclassification of the Fund's net investment loss for tax purposes. Such amounts have been reclassified as follows:

	Accumulated Net Investment Income/(Loss)	Realized Gain on Investments	Additional Paid in Capital
Year ended June 30, 2018	\$ 586,069	\$ (30,724) \$(555,345)

At June 30, 2018, the Fund had undistributed capital gains of \$1,448,350.

At June 30, 2018, the Fund had a long-term capital loss carryover of \$0. To the extent that a fund may realize future net capital gains, those gains will be offset by any of its unused capital loss carry forward. Future capital loss carryover utilization in any given year may be subject to Internal Revenue Code limitation.

As of June 30, 2018, the Fund had \$0 of post-October losses which are deferred until fiscal year 2019 for tax purposes. Capital losses incurred after October 31 ("post-October losses") within that taxable year are deemed to arise on the first day of the Fund's next taxable year.

As of June 30, 2018, the Fund had \$380,840 of qualified late-year ordinary losses, which are deferred until fiscal year 2019 for tax purposes. Net late-year losses incurred after December 31 within the taxable year are deemed to arise on the first day of the Fund's next taxable year.

In accordance with GAAP, the Fund is required to determine whether a tax position is more likely than not to be sustained upon examination by the applicable taxing authority, including resolution of any related appeals or litigation processes, based on the technical merits of the position. The Fund files an income tax return in the U.S. federal jurisdiction, and may file income tax returns in various U.S. states and foreign jurisdictions. Generally the Fund is no longer subject to income tax examinations by major taxing authorities for years before June 30, 2015. The tax benefit recognized is measured as the largest amount of benefit that has a greater than fifty percent likelihood of being realized upon ultimate settlement. De-recognition of a tax benefit previously recognized results in the Fund recording a tax liability that reduces ending net assets.

The Fund's policy would be to recognize accrued interest expense to unrecognized tax benefits in interest expense and penalties in operating expenses. There were none for the year ended June 30, 2018.

The tax character of distributions paid to shareholders during the fiscal year ended June 30, 2018 and June 30, 2017 were as follows: long-term capital gains of \$723,772 and \$827,799, respectively.

NOTE 8. INVESTMENT RISKS

Foreign Securities Risk

Securities traded in foreign markets have often (though not always) performed differently from securities traded in the United States. However, such investments often involve special risks not present in U.S. investments that can increase the chances that the Fund will lose money. In particular, the Fund is subject to the risk that because there may be fewer investors on foreign exchanges and a smaller number of securities traded each day, it may be more difficult for the Fund to buy and sell securities on those exchanges. In addition, prices of foreign securities may go up and down more than prices of securities traded in the United States.

Foreign Economy Risk

The economies of certain foreign markets may not compare favorably with the economy of the United States with respect to such issues as growth of gross national product, reinvestment of capital, resources and balance of payments position. Certain foreign economies may rely heavily on particular industries or foreign capital and are more vulnerable to diplomatic developments, the imposition of economic sanctions against a particular country or countries, changes in international trading patterns, trade barriers and other protectionist or retaliatory measures. Investments in foreign markets may also be adversely affected by governmental actions such as the imposition of capital controls, nationalization of companies or industries, expropriation of assets or the imposition of punitive taxes. In addition, the governments of certain countries may prohibit or impose substantial restrictions on foreign investments in their capital markets or in certain industries. Any of these actions could severely affect securities prices or impair the Fund's ability to purchase or sell foreign securities or transfer the Fund's assets or income back into the United States, or otherwise adversely affect the Fund's operations.

Other potential foreign market risks include foreign exchange controls, difficulties in pricing securities, defaults on foreign government securities, difficulties in enforcing legal judgments in foreign courts and political and social instability. Legal remedies available to investors in certain foreign countries may be less extensive than those available to investors in the United States.

Currency Risk

Securities and other instruments in which the Fund invests may be denominated or quoted in currencies other than the U.S. Dollar. Changes in foreign currency exchange rates may affect the value of the Fund's portfolio. Because the Fund's assets are primarily invested in securities of Caribbean Basin Companies, and because some portion of revenues and income may be received in foreign currencies while Fund distributions will be made in dollars, the dollar equivalent of the Fund's net assets and distributions would be adversely affected by reductions in the value of the foreign currencies relative to the dollar. For this reason, changes in foreign currency exchange rates can affect the value of the Fund's portfolio. Generally, when the U.S. Dollar rises in value against a foreign currency, a security denominated in that currency loses value because the currency is worth fewer U.S. Dollars. Conversely, when the U.S. Dollar decreases in value against a foreign currency, a security denominated in that currency gains value because the currency is worth more U.S. Dollars. This risk, generally known as "currency risk," means that a strong U.S. Dollar may reduce returns for U.S. investors while a weak U.S. Dollar may increase those returns. The Fund is managed with the assumption that most of its stockholders hold their assets in U.S. Dollars. As a result, and because distributions are made in U.S. Dollars, other non-U.S. investors will be adversely affected by reductions in the value of the U.S. Dollar relative to their home currency.

- 24 -

Notes to Financial Statements

Geographic Concentration Risk

The Fund may invest from time to time a substantial amount of assets in issuers located in a single country or a limited number of countries. If the Fund concentrates its investments in this manner, it assumes the risk that economic, political and social conditions in those countries will have a significant impact on its investment performance. The Fund's investment performance may also be more volatile if it concentrates its investments in certain countries, especially emerging market countries.

NOTE 9. SUBSEQUENT EVENTS

Management has evaluated the impact of subsequent events on the Fund, through the date the financial statements were issued, and has determined that there were no subsequent events that required disclosure in the financial statements.

Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Fund is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audits we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Fund’s internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. Our procedures included confirmation of securities owned as of June 30, 2018 by correspondence with the custodian. We believe that our audits provide a reasonable basis for our opinion.

CASH OPTION. Pursuant to the Fund’s Plan, unless a holder of Common Stock otherwise elects, all dividend and capital gains distributions payable in cash (“Distributions”) will be automatically reinvested by the Agent in additional Common Stock of the Fund. Stockholders who elect not to participate in the Plan will receive all cash distributions in cash paid by check mailed directly to the shareholder of record (or, if the shares are held in street or other nominee name then to such nominee) by the Agent, as dividend paying agent. Stockholders and Participants may elect not to participate in the Plan and to receive all cash distributions of dividends and capital gains in cash by sending written instructions to the Agent, as dividend paying agent, at the address set forth below.

MARKET PREMIUM ISSUANCES. If on the payment date for a Distribution, the net asset value per Common Stock is equal to or less than the market price per Common Stock plus estimated brokerage commissions, the Agent shall receive newly issued Common Stock (“Additional Common Stock”) from the Fund for each Participant’s account. The number of Additional Common Stock to be credited shall be determined by dividing the dollar amount of the Distribution by the greater of (i) the net asset value per Common Share on the payment date, or (ii) 95% of the market price per Common Share on the payment date.

MARKET DISCOUNT PURCHASES. If the net asset value per Common Stock exceeds the market price plus estimated brokerage commissions on the payment date for a Distribution, the Agent (or a broker-dealer selected by the Agent) shall endeavor to apply the amount of such Distribution on each Participant’s Common Stock to purchase Common Stock on the open market. In the event of a market discount on the payment date, the Agent will have 30 days after the dividend payment date (the “last purchase date”) to invest the dividend amount in shares acquired in open-market purchases. The weighted average price (including brokerage commissions) of all Common Stock purchased by the Agent as Agent shall be the price per Common Stock allocable to each Participant. If, before the Agent has completed its purchases, the market price plus estimated brokerage commissions exceeds the net asset value of the Common Stock as of the payment date, the purchase price paid by Agent may exceed the net asset value of the Common Stock, resulting in the acquisition of fewer Common Stock than if such Distribution had been paid in Common Stock issued by the Fund. Because of the foregoing difficulty with respect to open-market purchases, the Plan provides that if the Plan Agent is unable to invest the full dividend amount in open-market purchases during the purchase period or if the market discount shifts to a market premium during the purchase period, the Plan Agent may cease making open-market purchases and may invest the uninvested portion of the dividend amount in newly issued Common Stock at the net asset value per Common Stock at the close of business on the last purchase date. Participants should note that they will not be able to instruct the Agent to purchase

Common Stock at a specific time or at a specific price. Open-market purchases may be made on any securities exchange where Common Stock are traded, in the over-the-counter market or in negotiated transactions, and may be on such terms as to price, delivery and otherwise as the Agent shall determine. Each Participant's uninvested funds held by the Agent will not bear interest. The Agent shall have no liability in connection with any inability to purchase Common Stock within the time provided, or with the timing of any purchases effected. The Agent shall have no responsibility for the value of Common Stock acquired. The Agent may commingle Participants' funds to be used for open-market purchases of the Fund's shares and the price per share allocable to each Participant in connection with such purchases shall be the average price (including brokerage commissions and other related costs) of all Fund shares purchased by Agent. The rules and regulations of the Securities and Exchange Commission may require the Agent to limit the Agent's market purchases or temporarily cease making market purchases for Participants.

- 34 -

Dividend Reinvestment Plan (Unaudited)(continued)

The market price of Common Stock on a particular date shall be the last sales price on the securities exchange where the Common Stock are listed on that date (currently the NASDAQ Capital Market)(the “Exchange”), or, if there is no sale on the Exchange on that date, then the average between the closing bid and asked quotations on the Exchange on such date will be used. The net asset value per Common Stock on a particular date shall be the amount calculated on that date (or if not calculated on such date, the amount most recently calculated) by or on behalf of the Fund.

Whenever the Agent receives or purchases shares or fractional interests for a Participant’s account, the Agent will send such Participant a notification of the transaction as soon as practicable. The Agent will hold such shares and fractional interests as such Participant’s agent and may hold them in the Agent’s name or the name of the Agent’s nominee. The Agent will not send a Participant stock certificates for shares unless a Participant so requests in writing or unless a Participant’s account is terminated as stated below. The Agent will vote any shares so held for a Participant in accordance with any proxy returned to the Fund by such Participant in respect of the shares of which such Participant is the record holder.

Dividend Reinvestment Plan (Unaudited) (continued)

7. There is presently no service charge for the Agent serving as Participants' agent and maintaining Participants' accounts. The Agent may, however, charge Participants for extra services performed at their request. The Plan may be amended in the future to impose a service charge. In acting as Participants' agent under the Plan, the Agent shall be liable only for acts, omissions, losses, damages or expenses caused by the Agent's willful misconduct or gross negligence. In addition, the Agent shall not be liable for any taxes, assessments or governmental charges which may be levied or assessed on any basis whatsoever in connection with the administration of the Plan.

8. The Agent may hold each Participant's Common Stock acquired pursuant to the Plan together with the Common Stock of other Stockholders of the Fund acquired pursuant to the Plan in non-certificated form in the Agent's name or that of the Agent's nominee. Each Participant will be sent a confirmation by the Agent of each acquisition made for his or her account as soon as practicable, but in no event later than 60 days, after the date thereof. Upon a Participant's request, the Agent will deliver to the Participant, without charge, a certificate or certificates for the full Common Stock. Although each Participant may from time to time have an undivided fractional interest in a Common Share of the Fund, no certificates for a fractional share will be issued. Similarly, Participants may request to sell a portion of the Common Stock held by the Agent in their Plan accounts by calling the Agent, writing to the Agent, or completing and returning the transaction form attached to each Plan statement. The Agent will sell such Common Stock through a broker-dealer selected by the Agent within 5 business days of receipt of the request. The sale price will equal the weighted average price of all Common Stock sold through the Plan on the day of the sale, less brokerage commissions. Participants should note that the Agent is unable to accept instructions to sell on a specific date or at a specific price. Any share dividends or split shares distributed by the Fund on Common Stock held by the Agent for Participants will be credited to their accounts. In the event that the Fund makes available to its Stockholders rights to purchase additional Common Stock, the Common Stock held for each Participant under the Plan will be added to other Common Stock held by the Participant in calculating the number of rights to be issued to each Participant.

If a Participant holds more than one Common Stock Certificate registered in similar but not identical names or if more than one address is shown for a Participant on the Fund's records, all of such Participant's shares of Common Stock must be put into the same name and address if all of them are to be covered by one account. Additional shares subsequently acquired by a Participant otherwise than through the Plan will be covered by the Plan.

9. The reinvestment of Distributions does not relieve Participants of any federal, state or local taxes which may be payable (or required to be withheld on Distributions.) Participants will receive tax information annually for their personal records and to help them prepare their federal income tax return. For further information as to tax consequences of participation in the Plan, Participants should consult with their own tax advisors.

Dividend Reinvestment Plan (Unaudited) (continued)

- Each registered Participant may terminate his or her account under the Plan by notifying the Agent in writing at State Street Bank and Trust, P.O. Box 642, Boston, MA 02117-0642, or by calling the Agent at (617) 662-2760. Such termination will be effective with respect to a particular Distribution if the Participant's notice is received by the Agent prior to such Distribution record date. The Plan may be terminated by the Agent or the Fund upon notice in writing mailed to each Participant at least 60 days prior to the effective date of the termination. Upon any termination, the Agent will cause a certificate or certificates to be issued for the full shares held for each
10. Participant under the Plan and cash adjustment for any fraction of a Common Share at the then current market value of the Common Shares to be delivered to him. If preferred, a Participant may request the sale of all of the Common Shares held by the Agent in his or her Plan account in order to terminate participation in the Plan. If any Participant elects in advance of such termination to have Agent sell part or all of his shares, Agent is authorized to deduct from the proceeds the brokerage commissions incurred for the transaction. If a Participant has terminated his or her participation in the Plan but continues to have Common Shares registered in his or her name, he or she may re-enroll in the Plan at any time by notifying the Agent in writing at the address above.

- These terms and conditions may be amended by the Agent or the Fund at any time but, except when necessary or appropriate to comply with applicable law or the rules or policies of the Securities and Exchange Commission or any other regulatory authority, only by mailing to each Participant appropriate written notice at least 30 days prior
11. to the effective date thereof. The amendment shall be deemed to be accepted by each Participant unless, prior to the effective date thereof, the Agent receives notice of the termination of the Participant's account under the Plan. Any such amendment may include an appointment by the Agent of a successor Agent, subject to the prior written approval of the successor Agent by the Fund.

12. These terms and conditions shall be governed by the laws of the State of Maryland.

(a)(1) Thomas J. Herzfeld, Chairman and Portfolio Manager of The Herzfeld Caribbean Basin Fund, Inc. serves as a portfolio manager of the Fund and has held this position since its inception in 1993. This information is as of August 17, 2018.

Erik M. Herzfeld, President and Portfolio Manager of The Herzfeld Caribbean Basin Fund, Inc. serves as a portfolio manager of the Fund and has held this position since 2007. Before joining the Fund's investment adviser in 2007, Mr. E. Herzfeld served in quantitative research and trading with both Lehman Brothers and JPMorgan, where he served as Vice President in New York and Asia. This information is as of August 17, 2018.

(a)(2)(i) and (ii) As of June 30, 2018, Mr. Thomas J. Herzfeld and Mr. Erik M. Herzfeld were also portfolio managers for approximately 270 other accounts comprising \$246 million under management, one other investment company comprising \$64 million under management, and 0 pooled investment vehicles comprising \$0 under management, however, none of the these accounts are managed with an investment strategy similar to the Fund's. (a)(2)(iv) The Fund does not believe that any material conflicts are likely to arise through Mr. Thomas J. Herzfeld's or Mr. Erik M. Herzfeld's management of other accounts in addition to the Fund in that there is very little overlap in the type of investments made for the Fund and other accounts, which generally trade shares of closed-end funds. The Fund is permitted, to a limited extent, to buy shares of other closed-end funds and occasionally other clients or Mr. T. Herzfeld may buy shares of securities also held in the portfolio of the Fund. The Advisor and the Fund have adopted procedures overseen by the Chief Compliance Officer ("CCO") intended to monitor compliance with such policies which include conflicts which may occur regarding allocation of investment opportunities between the Fund and other account. The CCO of the Fund reports directly to the Board of Directors at least annually.

(a)(3) Mr. Thomas J. Herzfeld and Mr. Erik M. Herzfeld receive no direct compensation from the Fund for their services as Portfolio Managers. Mr. Thomas J. Herzfeld owns 100% of the voting stock of the Advisor, a Subchapter S Corporation, therefore he is taxed on its profits. Portfolio managers, other than Thomas J. Herzfeld, are paid a fixed salary by the Advisor. In addition, the Advisor retains the ability to pay bonuses based on the overall profitability of the Advisor, however, compensation is not directly based upon the performance of a particular client or account, including the Fund's pre or after-tax performance, nor the value of a particular client or account, including the value of the Fund's assets.

(a)(4)(a) Range of value of shares of the Fund owned by Mr. Thomas J. Herzfeld as of June 30, 2018: over \$1,000,000. Range of value of shares of the Fund owned by Mr. Erik M. Herzfeld as of June 30, 2018: \$500,001-\$1,000,000.

APPENDIX A

THE HERZFELD CARIBBEAN BASIN FUND, INC.

Proxy Voting Policy and Procedures

The Board of Directors of The Herzfeld Caribbean Basin Fund, Inc. (the "Fund") hereby adopts the following policy and procedures with respect to voting proxies relating to portfolio securities held by the Fund:

Policy

It is the policy of the Board of Directors of the Fund (the "Board") to delegate the responsibility for voting proxies relating to portfolio securities held by the Fund to the Fund's investment adviser (the "Adviser") as a part of the Adviser's general management of the Fund, subject to the Board's continuing oversight.' The voting of proxies is an integral part of the investment management services that the Adviser provides pursuant to the advisory contract.

The Adviser may, but is not required to, delegate the responsibility for voting proxies relating to portfolio securities held by the Fund to a sub-adviser ("Sub-Adviser") retained to provide investment advisory services, if applicable. If such responsibility is delegated to a Sub-Adviser, then the Sub-Adviser shall assume the fiduciary duty and reporting responsibilities of the Adviser under these policy guidelines.

Fiduciary Duty

The right to vote a proxy with respect to portfolio securities held by the Fund is an asset of the Fund. The Adviser, to which authority to vote on behalf of the Fund is delegated, acts as a fiduciary of the Fund and must vote proxies in a manner consistent with the best interest of the Fund and its shareholders.

Procedures

The following are the procedures adopted by the Board for the administration of this policy:

A. Review of Adviser Proxy Voting Procedures. The Adviser with authority to vote proxies on behalf of the Fund shall present to the Board its policies, procedures and other guidelines for voting proxies at least annually, and must notify the Board promptly of material changes to any of these documents.

B. Voting Record Reporting. No less than annually, the Adviser shall report to the Board a record of each proxy voted with respect to portfolio securities of the Fund during the year. With respect to those proxies that the Adviser has identified as involving a conflict of interest(2), the Adviser shall submit a separate report indicating the nature of the conflict of interest and how that conflict was resolved with respect to the voting of the proxy.

Revocation

The delegation by the Board of the authority to vote proxies relating to portfolio securities of the Fund is entirely voluntary and may be revoked by the Board, in whole or in part, at any time.

Annual Filing

The Fund shall file an annual report of each proxy voted with respect to its portfolio securities during the twelve-month period ended June 30 on Form N-PX not later than August 31 of each year.

Disclosures

The Fund shall include in its annual report to stockholders:

A description of this policy and of the policies and procedures used by the Adviser to determine how to vote proxies relating to portfolio securities (3); and

A statement disclosing that information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge, upon request, by calling the Fund's toll-free telephone number and on the SEC website(4).

The Fund shall also include in its annual and semi-annual reports to stockholders:

A statement disclosing that a description of the policies and procedures used by or on behalf of the Fund to determine how to vote proxies relating to portfolio securities of the Funds is available without charge, upon request, by calling the Fund's toll-free telephone number and on the SEC website.(5)

A statement disclosing that information regarding how the Fund voted proxies relating to portfolio securities during the most recent 12-month period ended June 30 is available without charge, upon request, by calling the Fund's toll-free telephone number and on the SEC website.(6)

Review of Policy.

At least annually, the Board shall review this Policy to determine its sufficiency and shall make and approve any changes that it deems necessary from time to time

- (1) This policy is adopted for the purpose of the disclosure requirements adopted by the Securities and Exchange Commission, Release Nos. 33-8188, 34-47304, IC-25922.

- (2) As it is used in this document, the term "conflict of interest" refers to a situation in which the Adviser or Sub-Adviser or affiliated persons of the Adviser or Sub-Adviser have a financial interest in a matter presented by a proxy other than the obligation it incurs as investment adviser to the Fund which compromises the Adviser's or Sub-Adviser's independence of judgment and action with respect to the voting of the proxy.

THOMAS J. HERZFELD ADVISORS, INC.

PROXY VOTING

POLICIES AND PROCEDURES

I. POLICY

Thomas J. Herzfeld Advisors, Inc. (the "Adviser") acts as discretionary investment adviser for various clients, including The Herzfeld Caribbean Basin Fund, Inc. an investment company registered under the Investment Company Act of 1940, as amended, and clients governed by the Employee Retirement Income Security Act of 1974 ("ERISA").

Selected clients, including The Herzfeld Caribbean Basin Fund, Inc. have elected to have the Adviser vote proxies or act on the other shareholder actions on their behalf, while other clients vote proxies themselves.

When voting proxies or acting on corporate actions for clients, the Adviser's utmost concern is that all decisions be made in the best interest of its clients (for ERISA accounts, plan beneficiaries and participants, in accordance with the letter and spirit of ERISA). The Adviser will act in a manner deemed prudent and diligent and which is intended to enhance the economic value of the assets of its clients' accounts.

II. PURPOSE

The purpose of these Policies and Procedures is to memorialize the procedures and policies adopted by the Adviser to enable it to comply with its responsibilities and the requirements of Rule 206(4)-6 under the Investment Advisers Act of 1940, as amended ("Advisers Act"). These Policies and Procedures also reflect the fiduciary standards and responsibilities set forth by the Department of Labor for ERISA accounts.

III. PROCEDURES

The Portfolio Managers are ultimately responsible for ensuring that all proxies received by the Adviser are voted in a timely manner and voted consistently across all portfolios. Although many proxy proposals can be voted in accordance with the Adviser's established guidelines (see Section V. below) (the "Guidelines"), the Adviser recognizes that certain circumstances may require special consideration, which may dictate that the Adviser makes an exception

to the provisions of these Procedures. When an exception is made to these Procedures, the Portfolio Managers shall provide to the Chief Compliance Officer of the Adviser (“CCO”) a written statement detailing the circumstances and rationale for an exception from these Policies and Procedures.

The Portfolio Managers are also responsible for ensuring that all corporate actions received by the Adviser are addressed in a timely manner and consistent action is taken across all portfolios.

A. Conflicts of Interest. Where a proxy proposal raises a material conflict of interest between the Adviser's interests and that of one or more its clients, the Adviser shall resolve such conflict in the manner described below.

1. Vote in Accordance with the Guidelines. To the extent that the Adviser has little or no discretion to deviate from the Guidelines with respect to the proposal in question, the Adviser shall vote in accordance with such pre-determined voting policy.

2. Obtain Consent of Clients. To the extent that the Adviser has discretion to deviate from the Guidelines with respect to the proposal in question, the Adviser shall disclose the conflict to the relevant clients and obtain their consent to the proposed vote prior to voting the securities. The disclosure to the clients will include sufficient detail regarding the matter to be voted on and the nature of our conflict that the clients would be able to make an informed decision regarding the vote. When a client does not respond to such a conflict disclosure request or denies the request, the Adviser will abstain from voting the securities held by that client's account.

B. Limitations. In certain circumstances, in accordance with a client's investment advisory contract (or other written directive) or where the Adviser has determined that it is in the client's best interest, the Adviser will not vote proxies received. The following are some circumstances where the Adviser may limit its role in voting proxies received on client securities:

1. Client Maintains Proxy Voting Authority: Where a client has not specifically delegated the authority to vote proxies to the Adviser or that it has delegated the right to vote proxies to a third party, the Adviser will not vote the securities and will direct the relevant custodian to send the proxy material directly to the client. If any proxy material is received by the Adviser, it will promptly be forwarded to the client.

2. Terminated Account: Once a client account has been terminated with the Adviser in accordance with its investment advisory agreement, the Adviser will not vote any proxies received after the termination. However, the client may specify in writing that proxies should be directed to the client for action.

3. Limited Value: If the Adviser concludes that the client's economic interest or the value of the portfolio holding is indeterminable or insignificant, the Adviser may abstain from voting a client's proxies. The Adviser does not vote proxies received for securities which are not held in the client's account at the time the proxies are received; although it may vote such proxies if determined to be in the best interest of the client. In addition, the Adviser generally does not vote securities where the economic value of the securities in the client's account is less than \$500.

4. Securities Lending Programs: When securities are out on loan, they are transferred into the borrower's name and are voted by the borrower, in its discretion. However, where the Adviser determines that a proxy vote (or shareholder

action) is materially important to the client's account, the Adviser may recall the security.

5. Unjustifiable Costs: In certain circumstances, after doing a cost-benefit analysis, the Adviser may abstain from voting where the cost of voting a client's proxy would exceed any anticipated benefits of the proxy proposal.

IV. RECORD KEEPING

In accordance with Rule 204-2 under the Advisers Act, the Adviser will maintain for the time periods set forth in the Rule (i) these proxy voting procedures and policies, and amendments thereto; (ii) all proxy statements received regarding client securities (provided however, that the Adviser may rely on the proxy statement filed on EDGAR as its records)(1); (iii) a record of votes cast on behalf of clients; (iv) records of client requests for proxy voting information; (v) any documents prepared by the adviser that were material to making a decision how to vote or that memorialized the basis for the decision; and (vi) records relating to requests made to clients regarding conflicts of interest in voting the proxy.

The Adviser will describe in its Part II of Form ADV (or other brochure fulfilling the requirement of Rule 204-3) its proxy voting policies and procedures and advising clients how they may obtain information on how the Adviser voted their securities. Clients may obtain information on how their securities were voted or a copy of our Policies and Procedures by written request addressed to the Adviser.

V. GUIDELINES

Each proxy issue will be considered individually. The following guidelines are a partial list to be used in voting proposals contained in the proxy statements, but will not be used as rigid rules.

1. Issues regarding the issuer's Board entrenchment and anti-takeover measures such as the following: Oppose
 - b. Proposals to limit the ability of shareholders to call special meetings;
 - c. Proposals to require super majority votes;
 - d. Proposals requesting excessive increases in authorized common or preferred shares where management provides no explanation for the use or need for these additional shares;
 - e. Proposals regarding "poison pill" provisions; and
 - f. Permitting "green mail".
2. Providing cumulative voting rights. Oppose

|---|---------|
| 3. "Social issues," unless specific client guidelines supersede, e.g., restrictions regarding South Africa. | Oppose |
| 4. Election of directors recommended by management, except if there is a proxy fight. | Approve |
| 5. Election of auditors recommended by management, unless seeking to replace if there exists a dispute over policies. | Approve |
| 6. Date and place of annual meeting. | Approve |
| 7. Limitation on charitable contributions or fees paid to lawyers. | Approve |
| 8. Ratification of directors' actions on routine matters since previous annual meeting. | Approve |
| 9. Confidential voting | Approve |

Confidential voting is most often proposed by shareholders as a means of eliminating undue management pressure on shareholders regarding their vote on proxy issues.

The Adviser will generally approve these proposals as shareholders can later divulge their votes to management on a selective basis if a legitimate reason arises.

|-----------------------------------|---------|
| 10. Limiting directors' liability | Approve |
| 11. Eliminate preemptive right | Approve |

Preemptive rights give current shareholders the opportunity to maintain their current percentage ownership through any subsequent equity offerings. These provisions are no longer common in the U.S., and can restrict management's ability to raise new capital.

The Adviser approves the elimination of preemptive rights, but will oppose the elimination of limited preemptive rights, E.G., on proposed issues representing more than an acceptable level of total dilution.

| 12. Employee Stock Purchase Plan | Approve |
| 13. Establish 401(k) Plan | Approve |
| 14. Rotate annual meeting location/date | Approve |

| 17. Option and stock grants to management and directors | Case-by-Case |
| 18. Allowing indemnification of directors and/or officers after reviewing the applicable laws and extent of protection requested. | Case-by-Case |
