ETHAN ALLEN INTERIORS INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Unaudited)

(1) Basis of Presentation

Basis of Presentation

Ethan Allen Interiors Inc. ("Interiors") is a Delaware corporation incorporated on May 25, 1989. The consolidated financial statements include the accounts of Interiors, its wholly owned subsidiary Ethan Allen Global, Inc. ("Global"), and Global's subsidiaries (collectively "We", "Us", "Our", "Ethan Allen", or the "Company"). All intercompany accounts and transactions have been eliminated in the consolidated financial statements. All of Global's capital stock is owned by Interiors, which has no assets or operating results other than those associated with its investment in Global.

We prepare our consolidated financial statements in conformity with accounting principles generally accepted in the United States, which requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Due to the inherent uncertainty involved in making those estimates, actual results could differ from those estimates. Areas in which significant estimates have been made include, but are not limited to, revenue recognition, the allowance for doubtful accounts receivable, inventory obsolescence, tax valuation allowances, useful lives for property, plant and equipment and intangible assets, goodwill and indefinite-lived intangible asset impairment analyses, the evaluation of uncertain tax positions and the fair value of assets acquired and liabilities assumed in business combinations.

(2) Interim Financial Presentation

In our opinion, all adjustments, consisting only of normal recurring adjustments necessary for fair presentation, have been included in the consolidated financial statements. The results of operations for the three months ended September 30, 2011 are not necessarily indicative of results that may be expected for the entire fiscal year. The interim consolidated financial statements should be read in conjunction with the consolidated financial statements and accompanying notes included in our Annual Report on Form 10-K for the year ended June 30, 2011.

(3) Income Taxes

The Company reviews its expected annual effective income tax rates and makes changes on a quarterly basis as necessary based on certain factors such as changes in forecasted annual operating income; changes to actual or forecasted permanent book to tax differences; impacts from future tax audits with state, federal or foreign tax authorities; impacts from tax law changes; or change in judgment as to the realizability of deferred tax assets. The Company identifies items which are not normal and are non-recurring in nature and treats these as discrete events. The tax effect of discrete items is recorded in the quarter in which the discrete events occur. Due to the volatility of these factors, the Company's consolidated effective income tax rate can change significantly on a quarterly basis.

The Company conducts business globally and, as a result, the Company or one or more of its subsidiaries files income tax returns in the U.S., various state, and foreign jurisdictions. In the normal course of business, the Company is subject to examination by the taxing authorities in such major jurisdictions as the U.S., Canada, and Mexico. As of September 30, 2011, the Company and certain of its subsidiaries are currently under U.S. audit from 2001 through 2010. It is reasonably possible that some of these audits may be completed during the next twelve months. It is reasonable to expect that various issues relating to uncertain tax benefits will be resolved within the next twelve months as exams are completed or as statutes expire and will impact the effective tax rate.

Due to the challenging economic times, financial losses in fiscal 2009 and 2010 resulting in a three year cumulative loss, and after considering both positive and negative evidence, management's assessment is that realization of tax assets is not reasonably assured due to a lack of available objective positive evidence. As a result the Company established a full valuation allowance as of June 30, 2010. At September 30, 2011, the Company remains in a three year cumulative loss and the full valuation allowance remains in place with a balance of \$24.2 million compared with \$23.5 million at June 30, 2011. Management will continue to assess the realizability of the tax assets based on actual and forecasted operating results on a quarterly basis, which will likely cause volatility in the effective tax rate of the Company.

Table of Contents

ETHAN ALLEN INTERIORS INC. AND SUBSIDIARIES
Notes to Consolidated Financial Statements (Unaudited)

The Company's consolidated effective tax rate was 40.3% and 31.5% for the three months ended September 30, 2011 and 2010 respectively. The current quarter effective tax rate includes tax expense on the current quarter's net income, interest expense on uncertain tax positions, and the impact of maintaining valuation allowances on deferred tax assets which also affected the income tax expense in both periods. The prior period effective tax rate benefitted from the utilization of certain deferred tax assets.

(4) Restricted Cash and Investments

At September 30, 2011 and June 30, 2011, we held \$15.4 million and \$16.4 million, respectively of restricted cash and investments in lieu of providing letters of credit for the benefit of the provider of our workmen's compensation and other insurance and for the benefit of the issuer of our private label credit card. These funds can be invested in high quality money market mutual funds, U.S. Treasuries and U.S. Government agency fixed income instruments, and cannot be withdrawn without the prior written consent of the secured party. These assets are carried at cost, which approximates market value and are classified as long-term assets because they are not expected to be used within one year to fund operations. See also Note 14, "Financial Instruments".

(5) Marketable Securities

At September 30, 2011 and June 30, 2011, the Company held marketable securities of \$11.1 million and \$12.9 million, respectively classified as current assets, consisting of U.S. municipal bonds with maturities ranging from less than one year to less than two years, which were rated A+/A1 or better by the rating services Standard & Poors ("S&P") and Moodys Investors Service ("Moodys") respectively. There have been no material realized or unrealized gains or losses for the three months ended September 30, 2011 and September 30, 2010. We do not believe there are any impairments considered to be other than temporary at September 30, 2011. Also see Note 4, "Restricted Cash and Investments" and Note 14, "Financial Instruments".

(6) Inventories

Inventories at September 30, 2011 and June 30, 2011 are summarized as follows (in thousands):

	September 30, 2011	June 30, 2011
Finished goods	\$ 109,541	\$ 108,438
Work in process	8,488	8,868
Raw materials	23,021	24,386
	\$ 141,050	\$ 141,692

Inventories are presented net of a related valuation allowance of \$3.1 million at September 30, 2011 and \$1.7 million at June 30, 2011.

(7) Restructuring and Impairment Charges

In recent years, we have announced and executed plans to consolidate our operations as part of an overall strategy to maximize production efficiencies and maintain our competitive advantage. Plans announced in fiscal 2008 and 2009 had no material impact on fiscal 2012 financial statements and the balance of reserves for these actions, for

non-cancellable lease obligations with expirations ranging from less than one to 22 years, totaled \$1.7 million and \$2.5 million at September 30, 2011 and June 30, 2011, respectively.

(8) Business Acquisitions

From time to time the Company acquires design centers from its independent retailers in arms length transactions. There were no acquisitions completed during the three months ended September 30, 2011 and 2010, respectively.

(9) Borrowings

Total debt obligations at September 30, 2011 and June 30, 2011 consist of the following (in thousands):

	September 30, 2011	June 30, 2011
5.375% Senior Notes due 2015	\$ 162,861	\$ 164,821
Other debt	-	211
Total debt	162,861	165,032
Less current maturities	-	19
Total long-term debt	\$ 162,861	\$ 165,013

In September 2005, we issued \$200.0 million in ten-year senior unsecured notes due 2015 (the "Senior Notes"). The Senior Notes were issued by Global, bearing an annual coupon rate of 5.375% with interest payable semi-annually in arrears on April 1 and October 1. We have used the net proceeds of \$198.4 million to improve our retail network, invest in our manufacturing and logistics operations, and for other general corporate purposes. During fiscal 2011, the Company reduced its outstanding debt by \$38.2 million. Outstanding debt was further reduced by \$2.2 million during the current fiscal year.

We also maintain a \$50 million senior secured, asset-based revolving credit facility (the "Facility"). At September 30, 2011 and June 30, 2011, we had no revolving loans and \$0.7 million of standby and trade letters of credit outstanding under the Facility. The Facility is subject to borrowing base availability and includes a right for the Company to increase to total facility to \$100 million subject to certain conditions. The Facility is secured by all property owned, leased or operated by the Company in the United States excluding any real property owned by the Company and contains customary covenants which may limit the Company's ability to incur debt, engage in mergers and consolidations, make restricted payments (including dividends), sell certain assets, and make investments. Remaining availability under the facility totaled \$49.3 million at September 30, 2011 and June 30, 2011 and as a result, covenants and other restricted payment limitations did not apply. The Facility expires March 25, 2016, or June 26, 2015 if the Senior Notes have not been refinanced prior to that date.

At September 30, 2011 and June 30, 2011, we were in compliance with all covenants of the Senior Notes and the Facility.

(10) Litigation

Environmental Matters

We and our subsidiaries are subject to various environmental laws and regulations. Under these laws, we and/or our subsidiaries are, or may be, required to remove or mitigate the effects on the environment of the disposal or release of certain hazardous materials. As of September 30, 2011 and June 30, 2011, we believe that the Company was adequately reserved. We believe our currently anticipated capital expenditures for environmental control facility matters are not material.

We are subject to other federal, state and local environmental protection laws and regulations and are involved, from time to time, in investigations and proceedings regarding environmental matters. Such investigations and proceedings typically concern air emissions, water discharges, and/or management of solid and hazardous wastes. We believe that our facilities are in material compliance with all such applicable laws and regulations.

Regulations issued under the Clean Air Act Amendments of 1990 required the industry to reformulate certain furniture finishes or institute process changes to reduce emissions of volatile organic compounds. Compliance with many of these requirements has been facilitated through the introduction of high solids coating technology and alternative formulations. In addition, we have instituted a variety of technical and procedural controls, including reformulation of finishing materials to reduce toxicity, implementation of high velocity low pressure spray systems, development of storm water protection plans and controls, and further development of related inspection/audit teams, all of which have served to reduce emissions per unit of production. We remain committed to implementing new waste minimization programs and/or enhancing existing programs with the objective of (i) reducing the total volume of waste, (ii) limiting the liability associated with waste disposal, and (iii) continuously improving environmental and job safety programs on the factory floor which serve to minimize emissions and safety risks for employees. We will continue to evaluate the most appropriate, cost effective, control technologies for finishing operations and design production methods to reduce the use of hazardous materials in the manufacturing process.

(11) Share-Based Compensation

During the quarter ended September 30, 2011, the Company awarded options to purchase 30,000 shares of our common stock to certain executives other than Mr. Kathwari, at the closing stock price on the respective grant dates. These options vest in four equal annual installments on the grant date anniversary. On July 26, 2011, as a result of the Company's performance, the Compensation Committee of the Company's board of directors awarded M. Farooq Kathwari, our President and Chief Executive Officer 30,000 service-based restricted shares which vest in three equal annual installments on the grant date anniversary.

(12) Earnings Per Share

Basic and diluted earnings per share are calculated using the following weighted average share data (in thousands):

	Three months ended September 30,	
	2011	2010
Weighted average common shares outstanding for basic calculation	28,760	28,779
	191	171

Effect of dilutive stock options and other share-based awards

Weighted average common shares outstanding adjusted for dilution calculation	28,951	28,950
--	--------	--------

As of September 30, 2011 and 2010, stock options to purchase 1,883,018 and 2,060,628 common shares, respectively, were excluded from the respective diluted earnings per share calculation because their impact was anti-dilutive.

(13) Comprehensive Income

Our accumulated other comprehensive income, which is comprised of losses on certain derivative instruments, accumulated foreign currency translation adjustments, and unrealized gain and loss on investments totaled \$0.6 million at September 30, 2011 and \$2.3 million at June 30, 2011. Foreign currency translation adjustments are the result of changes in foreign currency exchange rates related to our operations in Canada and Mexico. Foreign currency translation adjustments exclude income tax expense (benefit) given that the earnings of non-U.S. subsidiaries are deemed to be reinvested for an indefinite period of time.

(14) Financial Instruments

We determine fair value as the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability. The fair value is calculated based on assumptions that market participants use in pricing the asset or liability, and not on assumptions specific to the Company. In addition, the fair value of liabilities include consideration of non-performance risk including our own credit risk. Each fair value measurement is reported in one of three levels, determined by the lowest level input that is significant to the fair value measurement in its entirety. These levels are:

Level
1 Inputs are based upon unadjusted quoted prices for identical instruments traded in active markets.

Level
2 Inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level
3 Inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

The following section describes the valuation methodologies we use to measure different financial assets and liabilities at fair value.

Assets and Liabilities Measured at Fair Value on a Recurring Basis

The following table presents our assets and liabilities measured at fair value on a recurring basis at September 30, 2011 and June 30, 2011 (in thousands):

	September 30, 2011			Balance

	June 30, 2011			Balance

Available-for-sale securities	-	12,909	-	12,909
Total	\$ 94,910	\$ 12,909	\$ -	\$ 107,819

Cash equivalents consist of money market accounts and mutual funds in U.S. government and agency fixed income securities. We use quoted prices in active markets for identical assets or liabilities to determine fair value. At September 30, 2011 and June 30, 2011, \$15.4 million and \$16.4 million, respectively, of the cash equivalents were restricted, and classified as a long-term asset.

Available-for-sale securities consist of U.S. agency bonds with a maturity of five years, and U.S. municipal bonds with maturities of less than two years. The agency bonds are rated AAA/Aaa by S&P/Moody's, and the municipal bonds are rated A+/A1 or better by S&P/Moodys respectively. We obtain fair value based upon quoted prices for similar instruments in active markets. As of September 30, 2011 and September 30, 2010, there were no material gross unrealized gains or losses on available-for-sale securities.

As of September 30, 2011 and June 30, 2011, the contractual maturities of our available-for-sale investments were as follows:

	September 30, 2011		Estimated Fair Value
		Cost	
Due in one year or less	\$ 8,255	\$ 8,362	
Due after one year through five years	\$ 2,705	\$ 2,745	

	June 30, 2011		Estimated Fair Value
		Cost	
Due in one year or less	\$ 7,311	\$ 7,393	
Due after one year through five years	\$ 5,428	\$ 5,517	

No investments have been in a continuous loss position for more than one year, and no other-than-temporary impairments were recognized. Also see Note 4, "Restricted Cash and Investments", and Note 5, "Marketable Securities".

Assets and Liabilities Measured at Fair Value on a Non-recurring Basis

We measure certain assets at fair value on a non-recurring basis. These assets are recognized at fair value when they are deemed to be other-than-temporarily impaired. During the three months ended September 30, 2011, we did not record any other-than-temporary impairments on those assets required to be measured at fair value on a non-recurring basis.

(15) Segment Information

Our operations are classified into two operating segments: wholesale and retail. These operating segments represent strategic business areas which, although they operate separately and provide their own distinctive services, enable us to more effectively offer our complete line of home furnishings and accessories.

The wholesale segment is principally involved in the development of the Ethan Allen brand, which encompasses the design, manufacture, domestic and offshore sourcing, sale and distribution of a full range of home furnishings and accessories to a network of independently operated and Ethan Allen operated design centers as well as related marketing and brand awareness efforts. Wholesale revenue is generated upon the wholesale sale and shipment of our product to all retail design centers, including those operated by Ethan Allen. Wholesale profitability includes (i) the wholesale gross margin, which represents the difference between the wholesale sales price and the cost associated with manufacturing and/or sourcing the related product, and (ii) other operating costs associated with wholesale segment activities.

Table of Contents

ETHAN ALLEN INTERIORS INC. AND SUBSIDIARIES

Notes to Consolidated Financial Statements (Unaudited)

The retail segment sells home furnishings and accessories to consumers through a network of Company operated design centers. Retail revenue is generated upon the retail sale and delivery of our product to our customers. Retail profitability includes (i) the retail gross margin, which represents the difference between the retail sales price and the cost of goods purchased from the wholesale segment, and (ii) other operating costs associated with retail segment activities.

Inter-segment eliminations result, primarily, from the wholesale sale of inventory to the retail segment, including the related profit margin.

We evaluate performance of the respective segments based upon revenues and operating income. While the manner in which our home furnishings and accessories are marketed and sold is consistent, the nature of the underlying recorded sales (i.e. wholesale versus retail) and the specific services that each operating segment provides (i.e. wholesale manufacturing, sourcing, and distribution versus retail selling) are different. Within the wholesale segment, we maintain revenue information according to each respective product line (i.e. case goods, upholstery, or home accessories and other). The allocation of retail sales by product line is reasonably similar to that of the wholesale segment. A breakdown of wholesale sales by these product lines for the three months ended September 30, 2011 and 2010 is provided as follows:

	Three months ended September 30,			
	2011		2010

- (1) Operating income (loss) for the retail segment for the three months ended September 30, 2010 includes pre-tax restructuring and impairment charges of \$0.2 million.
- (2) Represents the change in wholesale profit contained in Ethan Allen operated design center inventory at the end of the period.
- (3) Represents the wholesale profit contained in Ethan Allen operated design center inventory that has not yet been realized. These profits are realized when the related inventory is sold.

At September 30, 2011, there were 78 independent retail design centers located outside the United States compared with 57 at September 30, 2010. Approximately 5.9% of our net sales during the current three months were derived from sales to these retail design centers compared with 6.4% in the prior year.

(16) Subsequent Events

Employment Agreement / Share-Based Awards

Effective October 1, 2011, the Company and M. Farooq Kathwari, our President and Chief Executive Officer, entered into a new employment agreement (the "Agreement"). Pursuant to the terms of the Agreement, Mr. Kathwari was awarded on October 1, 2011, (i) options to purchase 300,000 shares of our common stock at an exercise price of \$13.61 (the closing price of a share of our common stock on September 30, 2011), and (ii) 105,000 shares of restricted stock, with both awards vesting ratably over a 5-year period on each June 30. The options have a contractual term of 10 years. In addition, the Agreement provides that Mr. Kathwari will be entitled to an annual incentive bonus based upon the amount by which the Company's operating income for the applicable fiscal year exceeds certain thresholds specified in the Agreement. The incentive bonus components of the Agreement are subject to approval by the stockholders of the Company.

(17) Recently Issued Accounting Pronouncements

In June 2011, the Financial Accounting Standards Board ("FASB") issued ASU 2011-05, "Presentation of Comprehensive Income". This ASU increases the prominence of items reported in other comprehensive income by eliminating the option to present components of other comprehensive income as part of the statement of changes in stockholders' equity. The amendment requires that all non-owner changes in stockholders' equity be presented either in a single continuous statement of comprehensive income or in two separate but consecutive statements. The amendments do not change the items that must be reported in other comprehensive income. This ASU is effective for the Company's financial statements for annual and interim periods beginning on or after December 15, 2011 (July 1, 2012 for the Company), and must be applied retrospectively.

(18) Financial Information About the Parent, the Issuer and the Guarantors

On September 27, 2005, Global (the "Issuer") issued \$200 million aggregate principal amount of Senior Notes which have been guaranteed on a senior basis by Interiors (the "Parent"), and other wholly owned domestic subsidiaries of the Issuer and the Parent, including Ethan Allen Retail, Inc., Ethan Allen Operations, Inc., Ethan Allen Realty, LLC, Lake Avenue Associates, Inc. and Manor House, Inc. The subsidiary guarantors (other than the Parent) are collectively called the "Guarantors". The guarantees of the Guarantors are unsecured. All of the guarantees are full, unconditional and joint and several and the Issuer and each of the Guarantors are 100% owned by the Parent. Our other subsidiaries which are not guarantors are called the "Non-Guarantors".

The following tables set forth the condensed consolidating balance sheets as of September 30, 2011 and June 30, 2011, the condensed consolidating statements of operations for the three months ended September 30, 2011 and 2010, and the condensed consolidating statements of cash flows for the three months ended September 30, 2011 and 2010 of the Parent, the Issuer, the Guarantors and the Non-Guarantors.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion of financial condition and results of operations should be read in conjunction with (i) our Consolidated Financial Statements, and notes thereto, included in item 1 of Part I of this Quarterly Report on Form 10-Q and (ii) our Annual Report on Form 10-K for the year ended June 30, 2011.

Forward-Looking Statements

Management's discussion and analysis of financial condition and results of operations and other sections of this Quarterly Report contain forward-looking statements relating to our future results. Such forward-looking statements are identified by use of forward-looking words such as "anticipates", "believes", "plans", "estimates", "expects", and "intends" or words or phrases of similar expression. These forward-looking statements are subject to management decisions and various assumptions, risks and uncertainties, including, but not limited to: the effects of terrorist attacks or conflicts or wars involving the United States or its allies or trading partners; the potential effects of natural disasters affecting our suppliers or trading partners; the effects of labor strikes; weather conditions that may affect sales; volatility in fuel, utility, transportation and security costs; changes in global or regional political or economic conditions, including changes in governmental and central bank policies; changes in business conditions in the furniture industry, including changes in consumer spending patterns and demand for home furnishings; effects of our brand awareness and marketing programs, including changes in demand for our existing and new products; our ability to locate new design center sites and/or negotiate favorable lease terms for additional design centers or for the expansion of existing design centers; competitive factors, including changes in products or marketing efforts of others; pricing pressures; fluctuations in interest rates and the cost, availability and quality of raw materials; those matters discussed in Items 1A and 7A of our Annual Report on Form 10-K for the year ended June 30, 2011 and in our SEC filings; and our future decisions. Accordingly, actual circumstances and results could differ materially from those contemplated by the forward-looking statements.

Critical Accounting Policies

The Company's consolidated financial statements are based on the accounting policies used. Certain accounting policies require that estimates and assumptions be made by management for use in the preparation of the financial statements. Critical accounting policies are those that are central to the presentation of the Company's financial condition and results and that require subjective or complex estimates by management. There have been no material changes with respect to the Company's critical accounting policies from those disclosed in its Annual Report on Form 10-K filed with the SEC on August 18, 2011.

Results of Operations

Our Company and the furniture industry remain in a slow recovery period following the 'Great Recession' in the United States and abroad. Unemployment remains high, capital and equity markets are volatile, and performance in housing and related markets remain well below pre-Great Recession levels. However, the actions we took during the Great Recession and the ongoing improvements in how we operate our business have resulted in sales growth and improving profits. In North America, we now manufacture approximately 70% of our products in our six domestic facilities with support from one in Mexico. Our domestic case goods products are manufactured with a custom, made to order process providing a significant differentiating factor in the market. We operate one major wholesale distribution center and 16 retail service centers. We believe we have retained sufficient scalable capacity domestically and abroad to meet higher volumes of demand.

We continually re-examine our retail footprint to ensure we remain properly represented in the most profitable markets as well as identify and address underperforming locations. At September 30, 2011, the Company operated 146 design centers compared with 147 at June 30, 2011. Independent retailers operated 148 design centers at September 30, 2011 compared with 140 at June 30, 2011, with eight additional international design centers in China bringing their total to 61. Our international net sales represented 5.9% and 6.4% of our consolidated net sales in the quarters ended September 30, 2011 and 2010 respectively, with most of that revenue coming from our retailer in China.

Table of Contents

ETHAN ALLEN INTERIORS INC. AND SUBSIDIARIES

Despite the current economic conditions for our industry, we continue to achieve significant revenue growth. Our wholesale and retail business segments have completed seven consecutive quarters of year over year sales growth and we have had five consecutive profitable quarters. The Company's written business for the quarter also increased compared to the first quarter of fiscal 2011. We have ramped up production in our manufacturing plants and continue to add highly skilled interior designers in our retail division. We are launching major new product offerings, the first phase of which began in September, and will continue throughout fiscal 2012. In taking these actions to grow the business, we remain cautious but optimistic.

Quarter Ended September 30, 2011 Compared to Quarter Ended September 30, 2010

Consolidated revenue for the three months ended September 30, 2011 increased 12.2% to \$184.9 million, from \$164.8 million for the three months ended September 30, 2010, with increases in both the wholesale and retail segments. Written orders and backlogs also increased over the prior year for both segments. We attribute this growth to (i) continued success of our new and innovative marketing initiatives including promotional pricing and our interactive web site ethanallen.com, (ii) the positive effects of our national television and direct mail media campaigns, (iii) an increase in the number of our highly skilled interior designers and other retail associates, and (iv) our continued repositioning of the retail network.

Wholesale revenue for the first quarter of fiscal 2012 increased 8.2% to \$116.4 million from \$107.6 million in the prior year comparable period. The increase was primarily attributable to an increase in the incoming order rate due to promotional activities, our ability to increase production through operating efficiencies, staffing increases, and to a lesser extent, an increase in the number of total design centers globally to 294 from 281 last year, largely from growth in China. The independently operated retail network grew by ten design centers to 148 at September 30, 2011 and there were three more Ethan Allen-operated design centers. There was the same number of shipping days in the current quarter compared to the comparable quarter last year.

Retail revenue from Ethan Allen-operated design centers for the three months ended September 30, 2011 increased 16.7% to \$141.2 million from \$121.0 million for the three months ended September 30, 2010. We believe the increase in retail sales by Ethan Allen-operated design centers is due to our promotional marketing campaigns and the design solutions approach of our interior design professionals, continued use of both our national television and direct mail media campaigns, our digital communications to prospective clients, the positive effects of repositioning the retail network, an increase in the number of highly skilled interior designers and other retail associates, and a net increase of three Ethan Allen-operated design centers between September 30, 2010 and September 30, 2011. We ended the current quarter with 146 Ethan Allen-operated design centers including six acquired from independent dealers since September 30, 2010.

Comparable design centers are those which have been operating for at least 15 months. Minimal net sales, derived from the delivery of customer ordered product, are generated during the first three months of operations of newly opened (including relocated) design centers. Design centers acquired by us from independent retailers are included in comparable design centers sales in their 13th full month of Ethan Allen-owned operations. Quarter-over-quarter, written business of Ethan Allen-operated design centers increased 13.2% while comparable design centers written business increased 11.4%. Over that same period, there was an 8.5% increase in wholesale orders. The frequency of our promotional events as well as the timing of the end of those events can impact the orders booked during a given quarter.

ETHAN ALLEN INTERIORS INC. AND SUBSIDIARIES

We have made considerable investment within the retail network to strengthen the level of service, professionalism, interior design competence, efficiency, and effectiveness of the retail design center personnel. We believe that over time, we will continue to benefit from (i) our repositioning of the retail network, (ii) new product introductions, (iii) new marketing promotions, and our interior design affiliate (IDA) program, (iv) continued use of technology including our state-of-the-art website coupled with personal service from our design professionals, and (v) ongoing use of targeted advertising media.

Gross profit increased during the quarter to \$97.9 million (52.9% of net sales) from \$82.4 million (50.0% of net sales) in the prior year comparable quarter. The 18.8% increase in gross profit was primarily attributable to (i) an overall increase in net sales of 12.2%, with increases in shipments in both market segments, (ii) more efficient manufacturing compared to the prior year when the ramping up of upholstery production and the transition to custom case goods continued to be under way, and (iii) net improved pricing. The higher mix of retail net sales to consolidated net sales in the current quarter (76%) compared to the prior year period (73%) also contributed to the higher gross profit margin in the current quarter.

Operating expenses increased 9.4% in absolute terms to \$84.2 million from \$77.0 million in the prior year quarter, while decreasing as a percent of sales to 45.6% from 46.7% of sales in the prior year quarter. The dollar increase was driven primarily by higher selling and delivery costs from the 12.2% higher net sales and an increase in administrative expenses due to increased headcount.

Operating income and profit margin for the quarter ended September 30, 2011 was \$13.6 million, or 7.4% of net sales, an increase of \$8.3 million or 153.2% from the prior year quarter's \$5.4 million, or 3.3% of net sales. Wholesale operating income for the three months ended September 30, 2011 was \$15.7 million, or 13.5% of sales, compared to \$11.9 million, or 11.1% of sales, in the prior year comparable quarter. The Retail operating loss for the first quarter of fiscal 2012 was \$1.5 million, or a negative 1.1% of sales, compared to a loss of \$4.3 million, or a negative 3.5% of sales the prior year. Improvements in operating income across the business were driven primarily by the 12.2% growth in consolidated net sales but also arose from continued operating efficiencies achieved.

Interest and other miscellaneous income, net decreased \$3.1 million from the prior year comparable quarter. This decrease was due to the recording of a \$1.5 million out of period adjustment related to non-operating income recorded in the prior year and a decrease in miscellaneous non-operating fees.

Interest and other related financing costs amounted to \$2.4 million in the current quarter compared to \$3.0 million in the prior year comparable quarter. This reduction is due to lower interest expense resulting from reductions in debt outstanding. Since September 2010, debt has been reduced by \$38.1 million, including \$2.2 million reduced during the current quarter.

Income tax expense for the three months ended September 30, 2011 totaled \$4.6 million and \$1.8 million for the three months ended September 30, 2010. Our effective tax rate for the current quarter was a 40.3% compared to 31.5% in the prior year quarter. The current quarter effective tax rate includes tax expense on the current quarter's net income, interest expense on uncertain tax positions, and the impact of maintaining valuation allowances on deferred tax assets which also affected the income tax expense in both periods. The prior period effective tax rate benefitted from the utilization of certain deferred tax assets.

Net income for the three months ended September 30, 2011, was \$6.8 million compared to \$3.8 million in the prior year comparable period. This resulted in net income per diluted share of \$0.23 in the current quarter compared to \$0.13 in the prior year quarter.

Liquidity and Capital Resources

At September 30, 2011, we held cash and cash equivalents of \$79.4 million, marketable securities of \$11.1 million, and restricted cash and investments of \$15.4 million. At June 30, 2011, we held cash and cash equivalents of \$78.5 million, marketable securities of \$12.9 million, and restricted cash and investments of \$16.4 million. Our principal sources of liquidity include cash and cash equivalents, marketable securities, cash flow from operations, amounts available under our credit facility, and other borrowings.

In September 2005, we issued \$200.0 million in ten-year senior unsecured notes due 2015 (the "Senior Notes"). The Senior Notes were issued by Global, bearing an annual coupon rate of 5.375% with interest payable semi-annually in arrears on April 1 and October 1. We have used the net proceeds of \$198.4 million to improve our retail network, invest in our manufacturing and logistics operations, and for other general corporate purposes. During fiscal 2011, the Company reduced its outstanding debt by \$38.2 million. Outstanding debt was further reduced by \$2.2 million during the quarter ended September 30, 2011.

We also maintain a \$50 million senior secured, asset-based revolving credit facility (the "Facility"). At September 30, 2011 and June 30, 2011, we had no revolving loans and \$0.7 million of standby and trade letters of credit outstanding under the Facility. The Facility is subject to borrowing base availability and includes a right for the Company to increase to total facility to \$100 million subject to certain conditions. The Facility is secured by all property owned, leased or operated by the Company in the United States excluding any real property owned by the Company and contains customary covenants which may limit the Company's ability to incur debt, engage in mergers and consolidations, make restricted payments (including dividends), sell certain assets, and make investments. Remaining availability under the facility totaled \$49.3 million at September 30, 2011 and June 30, 2011 and as a result, covenants and other restricted payment limitations did not apply. The Facility expires March 25, 2016, or June 26, 2015 if the Senior Notes have not been refinanced prior to that date.

At September 30, 2011 and June 30, 2011, we were in compliance with all covenants of the Senior Notes and the Facility.

Operating Activities

In the first quarter of fiscal 2012, cash of \$6.3 million was generated by operating activities, an increase of \$7.1 million from the prior fiscal period. This increase was due largely to a \$4.4 million reduction in the use of cash for working capital (accounts receivable, inventories, prepaid and other current assets, customer deposits, payables, accrued expenses, and other current liabilities) and a \$3.0 million increase in net income derived largely from a \$20.1 million increase in net sales.

Investing Activities

In the first quarter of fiscal 2012, \$0.4 million of cash was used in investing activities, which is \$0.7 million less than used during the first quarter of fiscal 2011. This decrease was largely from higher proceeds from sales of marketable securities in the current quarter, partly offset by an increase in capital expenditures in the current quarter. We anticipate that cash from operations will be sufficient to fund future capital expenditures.

Financing Activities

In the first quarter of fiscal 2012, \$5.1 million was used in financing activities, which is a \$4.0 million reduction in cash used than in the first quarter of fiscal 2011. This decrease was primarily caused by a reduction of Company stock repurchases during the current quarter, which was partly offset by a 40% increase in dividend payments. The Company has continuously paid dividends every quarter since 1996 and we expect to continue to do so as economic conditions and liquidity permit.

As of September 30, 2011, our outstanding debt totaled \$162.9 million, which is all long-term. This consists of our long-term Senior Notes which mature in September 2015 (fiscal 2016). At June 30, 2011, our outstanding debt totaled \$165.0 million, the current and long-term portions of which amounted to less than \$0.1 million and \$165.0 million respectively.

There has been no material change to the amount or timing of cash payments related to our outstanding contractual obligations as set forth in Part II, Item 7 – Management’s Discussion and Analysis of Financial Condition and Results of Operation of our Annual Report on Form 10-K for the year ended June 30, 2011 as filed with the SEC on August 18, 2011.

We believe that our cash flow from operations, together with our other available sources of liquidity, will be adequate to make all required payments of principal and interest on our debt, to permit anticipated capital expenditures, and to fund working capital and other cash requirements. As of September 30, 2011, we had working capital of \$118.2 million compared to \$113.9 million at June 30, 2011, an increase of \$4.3 million (3.8%). The Company had a current ratio of 1.79 to 1 at September 30, 2011 and 1.74 to 1 at June 30, 2011.

In addition to using available cash to fund changes in working capital, capital expenditures, acquisition activity, the repayment of debt, the payment of dividends, and debt repurchases, we have been authorized by our Board of Directors to repurchase our common stock, from time to time, either directly or through agents, in the open market at prices and on terms satisfactory to us. All of our common stock repurchases and retirements are recorded as treasury stock and result in a reduction of shareholders’ equity.

During the three months ended September 30, 2011 and 2010, we repurchased and/or retired the following shares of our common stock:

	Three months ended September 30,	
	2011	2010
Common shares repurchased	52,293	204,286
Cost to repurchase common shares	\$ 846,587	\$ 2,787,777
Average price per share	\$ 16.19	\$ 13.65

At September 30, 2011, we had a remaining Board authorization to repurchase 1,128,490 shares as compared to 1,180,783 shares at June 30, 2011.

Off-Balance Sheet Arrangements and Other Commitments, Contingencies and Contractual Obligations

We do not utilize or employ any off-balance sheet arrangements, including special-purpose entities, in operating our business. As such, we do not maintain any (i) retained or contingent interests, (ii) derivative instruments (other than as specified below), or (iii) variable interests which could serve as a source of potential risk to our future liquidity, capital resources and results of operations.

We may, from time to time in the ordinary course of business, provide guarantees on behalf of selected affiliated entities or become contractually obligated to perform in accordance with the terms and conditions of certain business agreements. The nature and extent of these guarantees and obligations may vary based on our underlying relationship with the benefiting party and the business purpose for which the guarantee or obligation is being provided. The only such program in place at September 30, 2011 and June 30, 2011 was for our consumer credit program.

Ethan Allen Consumer Credit Program

The terms and conditions of our consumer credit program, which is financed and administered by a third-party financial institution on a non-recourse basis to Ethan Allen, are set forth in an agreement between the Company and that financial service provider (the “Program Agreement”). Any independent retailer choosing to participate in the consumer credit program is required to enter into a separate agreement with that same third-party financial institution which sets forth the terms and conditions under which the retailer is to perform in connection with its offering of consumer credit to its customers (the “Retailer Agreement”). We have obligated ourselves on behalf of any independent retailer choosing to participate in our consumer credit program by agreeing, in the event of default, breach, or failure of the independent retailer to perform under such Retailer Agreement, to take on certain responsibilities of the independent retailer, including, but not limited to, delivery of goods and reimbursement of customer deposits. Customer receivables originated by independent retailers remain non-recourse to Ethan Allen. Our obligation remains in effect for the term of the Program Agreement that expires in July 2014. While the maximum potential amount of future payments (undiscounted) that we could be required to make under this obligation is indeterminable, recourse provisions exist that would enable us to recover, from the independent retailer, any amount paid or incurred by us related to our performance. Based on the underlying creditworthiness of our independent retailers, including their historical ability to satisfactorily perform in connection with the terms of our consumer credit program, we believe this obligation will expire without requiring funding by us. To ensure funding for delivery of products sold, the terms of this agreement also contain a right for the credit card issuer to demand from the Company collateral of up to \$12 million if the Company does not meet certain covenants. As of September 30, 2011 and June 30, 2011, the Company maintained a restricted cash and investment collateral account of \$6 million to satisfy the current collateral requirement.

Product Warranties

Our products, including our case goods, upholstery and home accents, generally carry explicit product warranties that extend from one to ten years and are provided based on terms that are generally accepted in the industry. All of our domestic independent retailers are required to enter into, and perform in accordance with the terms and conditions of, a warranty service agreement. We record provisions for estimated warranty and other related costs at time of sale based on historical warranty loss experience and make periodic adjustments to those provisions to reflect actual experience. On rare occasion, certain warranty and other related claims involve matters of dispute that ultimately are resolved by negotiation, arbitration or litigation. In certain cases, a material warranty issue may arise which is beyond the scope of our historical experience. We provide for such warranty issues as they become known and are deemed to be both probable and estimable. It is reasonably possible that, from time to time, additional warranty and other related claims could arise from disputes or other matters beyond the scope of our historical experience. As of September 30, 2011 and June 30, 2011, our product warranty liability totaled \$0.9 million and \$0.8 million, respectively.

Business Outlook

We continue to have year-over-year increases in sales for both business segments, strong incoming orders during the current quarter, and five quarters of profitability, all of which are indicators that the Company is performing relatively well in the current challenging overall business climate. However, renewed fears of an overseas debt crisis regarding European sovereign debt and continued volatility in major stock indices during the quarter ended September 30, 2011 signal that significant uncertainty remains. Although some of the economic factors we feel are important to our customer base including housing values, housing turnover, and home mortgage and other consumer credit availability have not improved meaningfully, customers are nevertheless returning to our design centers and buying our quality products. During the current fiscal year, we are introducing a significant number of new products which we anticipate will be well received by our clients. We remain cautiously optimistic about our long-term outlook.

Table of Contents

ETHAN ALLEN INTERIORS INC. AND SUBSIDIARIES

As macro-economic factors change, it is also possible that our costs associated with production (including raw materials and labor), distribution (including freight and fuel charges), and retail operations (including compensation and benefits, delivery and warehousing, occupancy, and advertising expenses) may increase. We may also experience production difficulties as we continue to increase capacity of our remaining manufacturing plants to match demand, and to improve efficiency in our custom case goods production. We cannot reasonably predict when, or to what extent, such events may occur or what effect, if any, such events may have on our consolidated financial condition or results of operations.

The home furnishings industry remains extremely competitive with respect to both the sourcing of products and the wholesale and retail sale of those products. Domestic manufacturers continue to face pricing pressures because of the manufacturing capabilities of other countries, particularly within Asia. In response to these pressures, a large number of U.S. furniture manufacturers have increased their overseas sourcing to retain market share. While we have also turned to overseas sourcing to remain competitive, we choose to differentiate ourselves by maintaining a substantial domestic manufacturing base. Consequently, we make and/or assemble approximately 70% of our products domestically. We continue to believe that a balanced approach to product sourcing, which includes the domestic manufacture of certain product offerings coupled with the import of other selected products, provides the greatest degree of flexibility and is the most effective approach to ensuring that acceptable levels of quality, service and value are attained.

Our retail strategy involves (i) a continued focus on providing a wide array of product solutions and superior interior design solutions, (ii) the opening of new or relocated design centers in more prominent locations, while encouraging independent retailers to do the same, and (iii) leveraging the use of technology and personal service within our retail network, and (iv) further expansion internationally. We believe this strategy provides an opportunity to grow our business.

Item 3. Quantitative and Qualitative Disclosures About Market Risk

There have been no material changes to the market risks disclosed in our Annual Report on Form 10-K for the year ended June 30, 2011 as filed with the SEC on August 18, 2011.

Item 4. Controls and Procedures

Management's Report on Disclosure Controls and Procedures

Our management, including the Chairman of the Board and Chief Executive Officer ("CEO") and the Vice President-Finance ("VPF"), conducted an evaluation of the effectiveness of disclosure controls and procedures (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the "Exchange Act")) as of the end of the period covered by this report. Based on such evaluation, the CEO and VPF have concluded that, as of September 30, 2011, our disclosure controls and procedures were effective in ensuring that material information relating to us (including our consolidated subsidiaries), which is required to be disclosed by us in our periodic reports filed or submitted under the Exchange Act is (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and forms, and (ii) accumulated and communicated to management, including the CEO and VPF, as appropriate, to allow timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

There have been no changes in our internal control over financial reporting (as such term is defined in Rules 13a-15(f) and 15d-15(f) under the Exchange Act) during the fiscal quarter ended September 30, 2011 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.
