UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

(Mark
One)

**QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934**

For the quarterly period ended June 30, 2017

or

**TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES
EXCHANGE ACT OF 1934**

For the transition period from _____ to _____

Commission file number 001-36613

Middlefield Banc. Corp.

(Exact Name of Registrant as Specified in its Charter)

Ohio 34-1585111
State or Other Jurisdiction of I.R.S. Employer Identification No.
Incorporation or Organization

15985 East High Street, Middlefield, Ohio 44062-0035
Address of Principal Executive Offices Zip Code

440-632-1666

Registrant's
Telephone
Number,
Including
Area Code

Former Name, Former Address and Former Fiscal Year, if Changed Since Last Report

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer (Do not check if a smaller reporting company) Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes No

APPLICABLE ONLY TO ISSUERS INVOLVED IN BANKRUPTCY PROCEEDINGS DURING THE PRECEDING FIVE YEARS:

Edgar Filing: MIDDLEFIELD BANC CORP - Form 10-Q

Indicate by check mark whether the registrant has filed all documents and reports required to be filed by Section 12, 13 or 15(d) of the Securities Exchange Act of 1934 subsequent to the distribution of securities under a plan confirmed by a court. Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Class: Common Stock, without par value

Outstanding at August 14, 2017: 3,211,830

MIDDLEFIELD BANC CORP.

NOTES TO UNAUDITED CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1 - BASIS OF PRESENTATION

The consolidated financial statements of Middlefield Banc Corp. ("Company") include its bank subsidiary, The Middlefield Banking Company ("MBC"), and a nonbank asset resolution subsidiary EMORECO, Inc. All significant inter-company items have been eliminated.

On January 12, 2017, the Company completed its acquisition of Liberty Bank, N.A. ("Liberty"), pursuant to a previously announced definitive merger agreement. Under the terms of the merger agreement, Liberty shareholders received \$37.96 in cash or 1.1934 shares of the Company's common stock in exchange for each share of Liberty common stock they owned immediately prior to the merger. The Company issued 544,610 shares of its common stock in the merger and the aggregate merger consideration was approximately \$42.2 million. Upon closing, Liberty was merged into MBC, and its three full-service bank offices, in Twinsburg, in northern Summit County, and in Beachwood and Solon in eastern Cuyahoga County, became offices of MBC. The systems integration of Liberty into MBC was completed in February.

The accompanying unaudited financial statements have been prepared in accordance with U.S. generally accepted accounting principles and the instructions for Form 10-Q and Article 10 of Regulation S-X. In management's opinion, the financial statements include all adjustments, consisting of normal recurring adjustments, that the Company considers necessary to fairly state the Company's financial position and the results of operations and cash flows. The consolidated balance sheet at December 31, 2016, has been derived from the audited financial statements at that date but does not include all of the necessary informational disclosures and footnotes as required by U.S. generally accepted accounting principles. The accompanying financial statements should be read in conjunction with the financial statements and notes thereto included with the Company's Form 10-K for the year ended December 31, 2016. The results of the Company's operations for any interim period are not necessarily indicative of the results of the Company's operations for any other interim period or for a full fiscal year.

Recent Accounting Pronouncements –

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (a new revenue recognition standard). The Update's core principle is that a company will recognize revenue to depict the transfer of goods or

services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. In addition, this Update specifies the accounting for certain costs to obtain or fulfill a contract with a customer and expands disclosure requirements for revenue recognition. This Update is effective for annual reporting periods beginning after December 15, 2016, including interim periods within that reporting period. Because the guidance does not apply to revenue associated with financial instruments, including loans and securities, we do not expect the new standard, or any of the amendments, to result in a material change from our current accounting for revenue because the majority of the Company's financial instruments are not within the scope of Topic 606. However, we do expect that the standard will result in new disclosure requirements, which are currently being evaluated.

In August 2015, the FASB issued ASU 2015-14, Revenue from Contracts with Customers (Topic 606). The amendments in this Update defer the effective date of ASU 2014-09 for all entities by one year. Public business entities, certain not-for-profit entities, and certain employee benefit plans should apply the guidance in ASU 2014-09 to annual reporting periods beginning after December 15, 2017, including interim reporting periods within that reporting period. All other entities should apply the guidance in ASU 2014-09 to annual reporting periods beginning after December 15, 2018, and interim reporting periods within annual reporting periods beginning after December 15, 2019. The Company is evaluating the effect of adopting this new accounting Update.

In January 2016, the FASB issued ASU 2016-01, Financial Instruments – Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities. This Update applies to all entities that hold financial assets or owe financial liabilities and is intended to provide more useful information on the recognition, measurement, presentation, and disclosure of financial instruments. Among other things, this Update (a) requires equity investments (except those accounted for under the equity method of accounting or those that result in consolidation of the investee) to be measured at fair value with changes in fair value recognized in net income; (b) simplifies the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment; (c) eliminates the requirement to disclose the fair value of financial instruments measured at amortized cost for entities that are not public business entities; (d) eliminates the requirement for public business entities to disclose the method(s) and significant assumptions used to estimate the fair value that is required to be disclosed for financial instruments measured at amortized cost on the balance sheet; (e) requires public business entities to use the exit price notion when measuring the fair value of financial instruments for disclosure purposes; (f) requires separate presentation of financial assets and financial liabilities by measurement category and form of financial asset (that is, securities or loans and receivables) on the balance sheet or the accompanying notes to the financial statements; and (g) clarifies that an entity should evaluate the need for a valuation allowance on a deferred tax asset related to available-for-sale securities in combination with the entity's other deferred tax assets. For public business entities, the amendments in this Update are effective for fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. For all other entities, including not-for-profit entities and employee benefit plans within the scope of Topics 960 through 965 on plan accounting, the amendments in this Update are effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. All entities that are not public business entities may adopt the amendments in this Update earlier as of the fiscal years beginning after December 15, 2017, including interim periods within those fiscal years. The Company is currently evaluating the impact the adoption of the standard will have on the Company's financial position or results of operations.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842). The standard requires lessees to recognize the assets and liabilities that arise from leases on the balance sheet. A lessee should recognize in the statement of financial position a liability to make lease payments (the lease liability) and a right-of-use asset representing its right to use the underlying asset for the lease term. A short-term lease is defined as one in which (a) the lease term is 12 months or less and (b) there is not an option to purchase the underlying asset that the lessee is reasonably certain to exercise. For short-term leases, lessees may elect to recognize lease payments over the lease term on a straight-line basis. For public business entities, the amendments in this Update are effective for fiscal years beginning after December 15, 2018, and interim periods within those years. For all other entities, the amendments in this Update are effective for fiscal years beginning after December 15, 2019, and for interim periods within fiscal years beginning after December 15, 2020. The amendments should be applied at the beginning of the earliest period presented using a modified retrospective approach with earlier application permitted as of the beginning of an interim or annual reporting period. The Company is currently assessing the practical expedients it may elect at adoption, but does not anticipate the amendments will have a significant impact on the financial statements. Based on the Company's preliminary analysis of its current portfolio, the impact to the Company's balance sheet is estimated to result in less than a 1 percent increase in assets and liabilities. The Company also anticipates additional disclosure to be provided at adoption.

In March 2016, the FASB issued ASU 2016-08, Revenue from Contracts with Customers (Topic 606). The amendments in this Update affect entities with transactions included within the scope of Topic 606, which includes entities that enter into contracts with customers to transfer goods or services (that are an output of the entity's ordinary activities) in exchange for consideration. The amendments in this Update do not change the core principle of the guidance in Topic 606; they simply clarify the implementation guidance on principal versus agent considerations. The amendments in this Update are intended to improve the operability and understandability of the implementation guidance on principal versus agent considerations. The amendments in this Update affect the guidance in ASU 2014-09, Revenue from Contracts with Customers (Topic 606), which is not yet effective. The effective date and transition requirements for the amendments in this Update are the same as the effective date and transition requirements of Update 2014-09. ASU 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date, defers the effective date of Update 2014-09 by one year. The Company is currently evaluating the impact the adoption of the standard will have on the Company's financial position or results of operations.

In April 2016, the FASB issued ASU 2016-10, Revenue from Contracts with Customers (Topic 606). The amendments in this Update affect entities with transactions included within the scope of Topic 606, which includes entities that enter into contracts with customers to transfer goods or services in exchange for consideration. The amendments in this Update do not change the core principle for revenue recognition in Topic 606. Instead, the amendments provide (1) more detailed guidance in a few areas and (2) additional implementation guidance and examples based on feedback the FASB received from its stakeholders. The amendments are expected to reduce the degree of judgment necessary to comply with Topic 606, which the FASB expects will reduce the potential for diversity arising in practice and reduce the cost and complexity of applying the guidance. The amendments in this Update affect the guidance in ASU 2014-09, Revenue from Contracts with Customers (Topic 606), which is not yet effective. The effective date and transition requirements for the amendments in this Update are the same as the effective date and transition requirements in Topic 606 (and any other Topic amended by Update 2014-09). ASU 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date, defers the effective date of Update 2014-09 by one year. The Company is currently evaluating the impact the adoption of the standard will have on the Company's financial position or results of operations.

In May 2016, the FASB issued ASU 2016-12, Revenue from Contracts with Customers (Topic 606), which among other things clarifies the objective of the collectability criterion in Topic 606, as well as certain narrow aspects of Topic 606. The amendments in this Update affect the guidance in ASU 2014-09, Revenue from Contracts with Customers (Topic 606), which is not yet effective. The effective date and transition requirements for the amendments in this Update are the same as the effective date and transition requirements for Topic 606 (and any other Topic amended by Update 2014-09). ASU 2015-14, Revenue from Contracts with Customers (Topic 606): Deferral of the Effective Date, defers the effective date of Update 2014-09 by one year. This Update is not expected to have a significant impact on the Company's financial statements.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments - Credit Losses: Measurement of Credit Losses on Financial Instruments, which changes the impairment model for most financial assets. This Update is intended to improve financial reporting by requiring timelier recording of credit losses on loans and other financial instruments held by financial institutions and other organizations. The underlying premise of the Update is that financial assets measured at amortized cost should be presented at the net amount expected to be collected, through an allowance for credit losses that are deducted from the amortized cost basis. The allowance for credit losses should reflect management's current estimate of credit losses that are expected to occur over the remaining life of a financial asset. The income statement will be effected for the measurement of credit losses for newly recognized financial assets, as well as the expected increases or decreases of expected credit losses that have taken place during the period. ASU 2016-13 is effective for annual and interim periods beginning after December 15, 2019, and early adoption is permitted for annual and interim periods beginning after December 15, 2018. With certain exceptions, transition to the new requirements will be through a cumulative effect adjustment to opening retained earnings as of the beginning of the first reporting period in which the guidance is adopted. We expect to recognize a one-time cumulative effect adjustment to the allowance for loan losses as of the beginning of the first reporting period in which the new standard is effective, but cannot yet determine the magnitude of any such one-time adjustment or the overall impact of the new guidance on the consolidated financial statements.

In August 2016, the FASB issued ASU 2016-15, *Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments*, which addresses eight specific cash flow issues with the objective of reducing diversity in practice. Among these include recognizing cash payments for debt prepayment or debt extinguishment as cash outflows for financing activities; cash proceeds received from the settlement of insurance claims should be classified on the basis of the related insurance coverage; and cash proceeds received from the settlement of bank-owned life insurance policies should be classified as cash inflows from investing activities while the cash payments for premiums on bank-owned policies may be classified as cash outflows for investing activities, operating activities, or a combination of investing and operating activities. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. For all other entities, the amendments are effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. Early adoption is permitted, including adoption in an interim period. If an entity early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. An entity that elects early adoption must adopt all of the amendments in the same period. The amendments in this Update should be applied using a retrospective transition method to each period presented. If it is impracticable to apply the amendments retrospectively for some of the issues, the amendments for those issues would be applied prospectively as of the earliest date practicable. The Company is currently evaluating the impact the adoption of the standard will have on the Company's statement of cash flows.

In October 2016, the FASB issued ASU 2016-16, *Income Taxes (Topic 740)*, which requires recognition of current and deferred income taxes resulting from an intra-entity transfer of any asset (excluding inventory) when the transfer occurs. Consequently, the amendments in this Update eliminate the exception for an intra-entity transfer of an asset other than inventory. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2017, including interim periods within those annual reporting periods. For all other entities, the amendments are effective for annual reporting periods beginning after December 15, 2018, and interim reporting periods within annual periods beginning after December 15, 2019. Early adoption is permitted for all entities as of the beginning of an annual reporting period for which financial statements (interim or annual) have not been issued or made available for issuance. That is, earlier adoption should be in the first interim period if an entity issues interim financial statements. The amendments in this Update should be applied on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings as of the beginning of the period of adoption. The Company is currently evaluating the impact the adoption of the standard will have on the Company's financial position or results of operations.

In October 2016, the FASB issued ASU 2016-18, *Statement of Cash Flows (Topic 230)*, which requires that a statement of cash flows explains the change during the period in the total of cash, cash equivalents, and amounts generally described as restricted cash or restricted cash equivalents. Therefore, amounts generally described as restricted cash and restricted cash equivalents should be included with cash and cash equivalents when reconciling the beginning-of-period and end-of-period total amounts shown on the statement of cash flows. The amendments in this Update are effective for public business entities for fiscal years beginning after December 15, 2017, and interim periods within those fiscal years. For all other entities, the amendments are effective for fiscal years beginning after December 15, 2018, and interim periods within fiscal years beginning after December 15, 2019. Early adoption is permitted, including adoption in an interim period. If an entity early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. The amendments in this Update should be applied using a retrospective transition method to each period presented. The Company is currently evaluating the impact the adoption of the standard will have on the Company's statement of cash

flows.

In January 2017, the FASB issued ASU 2017-01, Business Combinations (Topic 805), Clarifying the Definition of a Business, which provides a more robust framework to use in determining when a set of assets and activities (collectively referred to as a “set”) is a business. The screen requires that when substantially all of the fair value of the gross assets acquired (or disposed of) is concentrated in a single identifiable asset or a group of similar identifiable assets, the set is not a business. This screen reduces the number of transactions that need to be further evaluated. Public business entities should apply the amendments in this Update to annual periods beginning after December 15, 2017, including interim periods within those periods. All other entities should apply the amendments to annual periods beginning after December 15, 2018, and interim periods within annual periods beginning after December 15, 2019. The amendments in this Update should be applied prospectively on or after the effective date. This Update is not expected to have a significant impact on the Company’s financial statements.

In January 2017, the FASB issued ASU 2017-04, *Simplifying the Test for Goodwill Impairment*. To simplify the subsequent measurement of goodwill, the FASB eliminated Step 2 from the goodwill impairment test. In computing the implied fair value of goodwill under Step 2, an entity had to perform procedures to determine the fair value at the impairment testing date of its assets and liabilities (including unrecognized assets and liabilities) following the procedure that would be required in determining the fair value of assets acquired and liabilities assumed in a business combination. Instead, under the amendments in this Update, an entity should perform its annual, or interim, goodwill impairment test by comparing the fair value of a reporting unit with its carrying amount. An entity should recognize an impairment charge for the amount by which the carrying amount exceeds the reporting units fair value; however, the loss recognized should not exceed the total amount of goodwill allocated to that reporting unit. A public business entity that is a U.S. Securities and Exchange Commission (“SEC”) filer should adopt the amendments in this Update for its annual or any interim goodwill impairment tests in fiscal years beginning after December 15, 2019. A public business entity that is not an SEC filer should adopt the amendments in this Update for its annual or any interim goodwill impairment tests in fiscal years beginning after December 15, 2020. All other entities, including not-for-profit entities, that are adopting the amendments in this Update should do so for their annual or any interim goodwill impairment tests in fiscal years beginning after December 15, 2021. This Update is not expected to have a significant impact on the Company’s financial statements.

In March 2017, the FASB issued ASU 2017-08, *Receivables – Nonrefundable Fees and Other Costs (Subtopic 310-20)*. The amendments in this Update shorten the amortization period for certain callable debt securities held at a premium. Specifically, the amendments require the premium to be amortized to the earliest call date. The amendments do not require an accounting change for securities held at a discount; the discount continues to be amortized to maturity. For public business entities, the amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. For all other entities, the amendments are effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020. Early adoption is permitted, including adoption in an interim period. If an entity early adopts the amendments in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period. An entity should apply the amendments in this Update on a modified retrospective basis through a cumulative-effect adjustment directly to retained earnings as of the beginning of the period of adoption. Additionally, in the period of adoption, an entity should provide disclosures about a change in accounting principle. This Update is not expected to have a significant impact on the Company’s financial statements.

In May 2017, the FASB issued ASU 2017-09, *Compensation – Stock Compensation (Topic 718)*, which affects any entity that changes the terms or conditions of a share-based payment award. This Update amends the definition of modification by qualifying that modification accounting does not apply to changes to outstanding share-based payment awards that do not affect the total fair value, vesting requirements, or equity/liability classification of the awards. The amendments in this Update are effective for all entities for annual periods, and interim periods within those annual periods, beginning after December 15, 2017. Early adoption is permitted, including adoption in any interim period, for (1) public business entities for reporting periods for which financial statements have not yet been issued and (2) all other entities for reporting periods for which financial statements have not yet been made available for issuance. The amendments in this Update should be applied prospectively to an award modified on or after the adoption date. The Company is currently evaluating the impact the adoption of the standard will have on the Company’s financial position or results of operations.

NOTE 2 - STOCK-BASED COMPENSATION

The Company had no unvested stock options outstanding or unrecognized stock-based compensation costs outstanding as of June 30, 2017 and 2016.

Stock option activity during the six months ended June 30 is as follows:

	2017	Weighted- average Exercise Price	2016	Weighted- average Exercise Price
Outstanding, January 1	29,324	\$ 23.67	31,949	\$ 25.03
Exercised	(7,949)	29.87	-	-
Outstanding, June 30	21,375	\$ 26.91	31,949	\$ 25.03
Exercisable, June 30	21,375	\$ 26.91	31,949	\$ 25.03

NOTE 3 - EARNINGS PER SHARE

The Company provides dual presentation of basic and diluted earnings per share. Basic earnings per share is calculated by dividing net income by the average shares outstanding. Diluted earnings per share adds the dilutive effects of stock options to average shares outstanding.

The following table sets forth the composition of the weighted-average common shares (denominator) used in the basic and diluted earnings per share computation.

	For the Three Months Ended June 30,		For the Six Months Ended June 30,	
	2017	2016	2017	2016
Weighted-average common shares outstanding	3,386,616	2,437,302	3,227,184	2,350,822
Average treasury stock shares	(386,165)	(386,165)	(386,165)	(386,165)
Weighted-average common shares and common stock equivalents used to calculate basic earnings per share	3,000,451	2,051,137	2,841,019	1,964,657
Additional common stock equivalents (stock options) used to calculate diluted earnings per share	13,689	8,274	13,139	8,522
Weighted-average common shares and common stock equivalents used to calculate diluted earnings per share	3,014,140	2,059,411	2,854,158	1,973,179

Options to purchase 21,375 shares of common stock, at prices ranging from \$17.55 to \$37.48, were outstanding during the three and six months ended June 30, 2017. Of those options, 21,375 were considered dilutive for the three and six month periods based on the market price exceeding the strike price and no options were anti-dilutive.

Options to purchase 31,949 shares of common stock, at prices ranging from \$17.55 to \$40.24, were outstanding during the three and six months ended June 30, 2016. Of those options, 24,700 were considered dilutive and 7,249 were considered anti-dilutive for the three and six month periods based on the market price exceeding the strike price.

NOTE 4 - FAIR VALUE MEASUREMENTS

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in the principal or most advantageous market for an asset or liability in an orderly transaction between market participants at the measurement date. GAAP established a fair value hierarchy that prioritizes the use of inputs used in valuation methodologies into the following levels:

Level I: Quoted prices are available in active markets for identical assets or liabilities as of the reported date.

Pricing inputs are other than the quoted prices in active markets, which are either directly or indirectly Level observable as of the reported date. The nature of these assets and liabilities includes items for which quoted II: prices are available but traded less frequently and items that are fair valued using other financial instruments, the parameters of which can be directly observed.

Level III: Assets and liabilities that have little to no pricing observability as of the reported date. These items do not have two-way markets and are measured using management's best estimate of fair value, where the inputs into the determination of fair value require significant management judgment or estimation.

The following tables present the assets measured on a recurring basis on the Consolidated Balance Sheet at their fair value by level within the fair value hierarchy. Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement.

(Dollar amounts in thousands)	June 30, 2017			Total
	Level I	Level II	Level III	
Assets measured on a recurring basis:				
U.S. government agency securities	\$ -	\$9,514	\$ -	\$9,514
Obligations of states and political subdivisions	-	77,635	-	77,635
Mortgage-backed securities in government-sponsored entities	-	17,512	-	17,512
Total debt securities	-	104,661	-	104,661
Equity securities in financial institutions	-	290	-	290
Total	\$ -	\$104,951	\$ -	\$104,951

(Dollar amounts in thousands)	December 31, 2016			Total
	Level I	Level II	Level III	
Assets measured on a recurring basis:				
U.S. government agency securities	\$ -	\$10,236	\$ -	\$10,236
Obligations of states and political subdivisions	-	81,223	-	81,223
Mortgage-backed securities in government-sponsored entities	-	20,069	-	20,069
Private-label mortgage-backed securities	-	1,709	-	1,709
Total debt securities	-	113,237	-	113,237
Equity securities in financial institutions	-	1,139	-	1,139
Total	\$ -	\$114,376	\$ -	\$114,376

The Company obtains fair values from an independent pricing service which represent either quoted market prices for the identical securities (Level I inputs) or fair values determined by pricing models using a market approach that considers observable market data, such as interest rate volatilities, LIBOR yield curve, credit spreads and prices from market makers and live trading systems (Level II).

The Company uses prices compiled by third party vendors.

The following tables present the assets measured on a nonrecurring basis on the Consolidated Balance Sheet at their fair value by level within the fair value hierarchy.

Impaired Loans – The Company has measured impairment on collateral-dependent impaired loans generally based on the fair value of the loan’s collateral. Fair value is generally determined based upon independent third-party appraisals of the properties. In some cases, management may adjust the appraised value due to the age of the appraisal, changes in market conditions, or observable deterioration of the property since the appraisal was completed. Additionally, management makes estimates about expected costs to sell the property which are also included in the net realizable value. If the fair value of the collateral dependent loan is less than the carrying amount of the loan, a specific reserve for the loan is made in the allowance for loan losses or a charge-off is taken to reduce the loan to the fair value of the collateral (less estimated selling costs) and the loan is included in the following table as a Level III measurement. If the fair value of the collateral exceeds the carrying amount of the loan, then the loan is not included in the following table as it is not currently being carried at its fair value. The fair values in the following table exclude estimated selling costs of \$767,000 at June 30, 2017.

Other Real Estate Owned (OREO) – OREO is carried at the lower of cost or fair value, which is measured at the date of foreclosure. If the fair value of the collateral exceeds the carrying amount of the loan, no charge-off or adjustment is necessary, the loan is not considered to be carried at fair value, and is therefore not included in the following table. If the fair value of the collateral is less than the carrying amount of the loan, management will charge the loan down to its estimated realizable value. The fair value of OREO is based on the appraised value of the property, which is generally unadjusted by management and is based on comparable sales for similar properties in the same geographic region as the subject property, and is included in the following table as a Level II measurement. In some cases, management may adjust the appraised value due to the age of the appraisal, changes in market conditions, or observable deterioration of the property since the appraisal was completed. In these cases, the loans are categorized in the following table as Level III measurement since these adjustments are considered to be unobservable inputs. Income and expenses from operations and further declines in the fair value of the collateral subsequent to foreclosure are included in net expenses from OREO.

(Dollar amounts in thousands)	June 30, 2017			Total
	Level I	Level II	Level III	
Assets measured on a nonrecurring basis:				
Impaired loans	\$ -	\$-	\$3,183	\$3,183
Other real estate owned	-	-	88	88

(Dollar amounts in thousands)	December 31, 2016			Total
	Level I	Level II	Level III	
Assets measured on a nonrecurring basis:				
Impaired loans	\$ -	\$-	\$6,498	\$6,498
Other real estate owned	-	-	511	511

The following tables present additional quantitative information about assets measured at fair value on a nonrecurring basis and for which the Company uses Level III inputs to determine fair value:

(Dollar amounts in thousands)	Quantitative Information about Level III Fair Value Measurements			Range (Weighted Average)
	Fair Value Estimate	Valuation Techniques	Unobservable Input	
June 30, 2017				
Impaired loans	\$3,183	Appraisal of collateral (1)	Appraisal adjustments (2)	3.3% to 8.3% (5.1%)
Other real estate owned	\$88	Appraisal of collateral (1)	Appraisal adjustments (2)	0.0% to 10.0%

Quantitative Information about Level III Fair Value Measurements

(Dollar amounts in thousands)

	Fair Value Estimate	Valuation Techniques	Unobservable Input	Range (Weighted Average)
December 31, 2016				
Impaired loans	\$4,928	Discounted cash flow	Discount rate	3.1% to 7.0% (5.1%)
	1,570	Appraisal of collateral (1)	Appraisal adjustments (2)	0.0% to 59.7% (28.2%)
Other real estate owned	\$511	Appraisal of collateral (1)	Appraisal adjustments (2)	0% to 10.0%

(1) Fair value is generally determined through independent appraisals of the underlying collateral, which generally include various level 3 inputs which are not identifiable, less any associated allowance.

Appraisals may be adjusted by management for qualitative factors such as economic conditions and estimated (2) liquidation expenses. The range and weighted average of liquidation expenses and other appraisal adjustments are presented as a percent of the appraisal.

The estimated fair value of the Company's financial instruments is as follows:

	June 30, 2017				Total Fair Value
	Carrying Value	Level I	Level II	Level III	
	(Dollar amounts in thousands)				
Financial assets:

Financial instruments are defined as cash, evidence of ownership interest in an entity, or a contract which creates an obligation or right to receive or deliver cash or another financial instrument from/to a second entity on potentially favorable or unfavorable terms.

Fair value is defined as the amount at which a financial instrument could be exchanged in a current transaction between willing parties other than in a forced liquidation sale. If a quoted market price is available for a financial instrument, the estimated fair value would be calculated based upon the market price per trading unit of the instrument.

If no readily available market exists, the fair value estimates for financial instruments should be based upon management's judgment regarding current economic conditions, interest rate risk, expected cash flows, future estimated losses, and other factors as determined through various option pricing formulas or simulation modeling. Since many of these assumptions result from judgments made by management based upon estimates which are inherently uncertain, the resulting estimated fair values may not be indicative of the amount realizable in the sale of a particular financial instrument. In addition, changes in assumptions on which the estimated fair values are based may have a significant impact on the resulting estimated fair values.

As certain assets such as deferred tax assets and premises and equipment are not considered financial instruments, the estimated fair value of financial instruments would not represent the full value of the Company.

The Company employed simulation modeling in determining the estimated fair value of financial instruments for which quoted market prices were not available based upon the following assumptions:

Cash and Cash Equivalents, Federal Home Loan Bank Stock, Accrued Interest Receivable, Accrued Interest Payable, and Short-Term Borrowings

The fair value is equal to the current carrying value.

Bank-Owned Life Insurance

The fair value is equal to the cash surrender value of the life insurance policies.

Investment Securities Available for Sale

The fair value of investment securities is equal to the available quoted market price. If no quoted market price is available, fair value is estimated using the quoted market price for similar securities.

Loans Held for Sale

Loans held for sale are carried at lower of cost or fair value. The fair value of loans held for sale is based on secondary market pricing on portfolios with similar characteristics. The changes in fair value of the assets are largely driven by changes in interest rates subsequent to loan funding and changes in the fair value of servicing associated with the mortgage loan held for sale.

Net Loans

The fair value is estimated by discounting future cash flows using current market inputs at which loans with similar terms and qualities would be made to borrowers of similar credit quality. Where quoted market prices were available, primarily for certain residential mortgage loans, such market rates were used as estimates for fair value.

Deposits and Other Borrowings

The fair values of certificates of deposit and other borrowings are based on the discounted value of contractual cash flows. The discount rates are estimated using rates currently offered for similar instruments with similar remaining maturities. Demand, savings, and money market deposits are valued at the amount payable on demand as of period end.

Commitments to Extend Credit

These financial instruments are generally not subject to sale, and estimated fair values are not readily available. The carrying value, represented by the net deferred fee arising from the unrecognized commitment or letter of credit, and the fair value, determined by discounting the remaining contractual fee over the term of the commitment using fees currently charged to enter into similar agreements with similar credit risk, are not considered material for disclosure.

NOTE 5 – ACCUMULATED OTHER COMPREHENSIVE INCOME

The following tables present the changes in accumulated other comprehensive income by component net of tax for the three and six months ended June 30, 2017 and 2016, respectively:

(Dollars in thousands)		Unrealized gains on available-for-sale securities
Balance as of December 31, 2016	\$	1,201
Other comprehensive income before reclassification		153
Amount reclassified from accumulated other comprehensive income	(322)
Period change	(169)
Balance at March 31, 2017	\$	1,032
Other comprehensive income before reclassification		783
Amount reclassified from accumulated other comprehensive income		-
Period change		783
Balance at June 30, 2017	\$	1,815

(Dollars in thousands)	Unrealized gains on available-for-sale securities
Balance as of December 31, 2015	\$ 2,395
Other comprehensive income before reclassification	360
Amount reclassified from accumulated other comprehensive income	(34)
Period change	326
Balance at March 31, 2016	2,721
Other comprehensive loss before reclassification	1,325
Amount reclassified from accumulated other comprehensive income	(166)
Period change	1,159
Balance at June 30, 2016	\$ 3,880

(a) All amounts are net of tax. Amounts in parentheses indicate debits to accumulated other comprehensive income.

The following tables present significant amounts reclassified out of each component of accumulated other comprehensive income for the three and six months ended June 30, 2017 and 2016, respectively:

(Dollars in thousands)	Amount Reclassified from Accumulated Other Comprehensive Income (a) For the Three Months Ended	Affected Line Item in the Statement Where Net Income is Presented
	June 30, 2017	June 30, 2016
Details about other comprehensive income		
Unrealized gains on available-for-sale securities	-	\$ 252
	-	(86)
	-	\$ 166

(Dollars in thousands)	Amount Reclassified from Accumulated Other Comprehensive Income (a) For the Six Months Ended	June 30, 2017	June 30, 2016	Affected Line Item in the Statement Where Net Income is Presented
Details about other comprehensive income				
Unrealized gains on available-for-sale securities		\$ 488	\$ 303	Investment securities gains, net
		(166)	(103)	Income taxes
		\$ 322	\$ 200	

(a) Amounts in parentheses indicate debits to net income

NOTE 6 - INVESTMENT SECURITIES AVAILABLE FOR SALE

The amortized cost and fair values of securities available for sale are as follows:

(Dollar amounts in thousands)	June 30, 2017			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
U.S. government agency securities	\$9,383	\$ 180	\$ (49)) \$9,514
Obligations of states and political subdivisions:				
Taxable	1,613	149	(2)) 1,760
Tax-exempt	73,582	2,333	(40)) 75,875

Total debt securities	102,033	2,854	(226)) 104,661
Equity securities in financial institutions	170	120	-) 290
Total	\$102,203	\$ 2,974	\$ (226)) \$104,951

	December 31, 2016			
	Amortized Cost	Gross Unrealized Gains	Gross Unrealized Losses	Fair Value
U.S. government agency securities	\$10,158	\$ 174	\$ (96)) \$10,236
Obligations of states and political subdivisions:				
Taxable	1,615	129	(4)) 1,740
Tax-exempt	78,327	1,678	(522)) 79,483
Mortgage-backed securities in government-sponsored entities	20,128	202	(261)) 20,069
Private-label mortgage-backed securities	1,579	130	-) 1,709
Total debt securities	111,807	2,313	(883)) 113,237
Equity securities in financial institutions	750	389	-) 1,139
Total	\$112,557	\$ 2,702	\$ (883)) \$114,376

The amortized cost and fair value of debt securities at June 30, 2017, by contractual maturity, are shown below. Expected maturities will differ from contractual maturities because borrowers may have the right to call or prepay obligations with or without call or prepayment penalties.

Edgar Filing: MIDDLEFIELD BANC CORP - Form 10-Q

(Dollar amounts in thousands)	Amortized Cost	Fair Value
Due in one year or less	\$ 3,607	\$ 3,652
Due after one year through five years	10,229	10,615
Due after five years through ten years	11,699	12,073
Due after ten years	76,498	78,321
Total	\$ 102,033	\$ 104,661

Proceeds from the sales of securities available for sale and the gross realized gains and losses for the three and six months ended June 30 are as follows:

(Dollar amounts in thousands)	For the Three Months		For the Six Months	
	Ended June 30, 2017	2016	Ended June 30, 2017	2016
Proceeds from sales	\$2,678	\$7,793	\$2,678	\$9,115
Gross realized gains	-	255	488	306
Gross realized losses	-	(3)	-	(3)

Investment securities with an approximate carrying value of \$59.3 million and \$60.3 million at June 30, 2017 and December 31, 2016, respectively, were pledged to secure deposits and other purposes as required by law. Pledged cash with a carrying value of \$4.5 million at June 30, 2017 was also pledged to secure deposits and other purposes as required by law.

Prior to the acquisition of Liberty Bank, N.A., the Company had a previously held equity interest in Liberty which was re-measured at fair value on the acquisition date and resulted in a gain of \$488,000, which was recorded in Investment Securities Gains on the consolidated Income Statement for the six months ended June 30, 2017.

The following tables show the Company's gross unrealized losses and fair value, aggregated by investment category and length of time that the individual securities have been in a continuous unrealized loss position.

(Dollar amounts in thousands)	June 30, 2017

There were 27 securities considered temporarily impaired at June 30, 2017.

On a quarterly basis, the Company performs an assessment to determine whether there have been any events or economic circumstances indicating that a security with an unrealized loss has suffered other-than-temporary impairment (“OTTI”). A debt security is considered impaired if the fair value is less than its amortized cost basis at the reporting date. The Company assesses whether the unrealized loss is other than temporary.

OTTI losses are recognized in earnings when the Company has the intent to sell the debt security or it is more likely than not that it will be required to sell the debt security before recovery of its amortized cost basis. However, even if the Company does not expect to sell a debt security, it must evaluate expected cash flows to be received and determine if a credit loss has occurred.

An unrealized loss is generally deemed to be other than temporary and a credit loss is deemed to exist if the present value of the expected future cash flows is less than the amortized cost basis of the debt security. As a result the credit loss component of an OTTI is recorded as a component of investment securities gains (losses) in the accompanying Consolidated Statement of Income, while the remaining portion of the impairment loss is recognized in other comprehensive income, provided the Company does not intend to sell the underlying debt security and it is “more likely than not” that the Company will not have to sell the debt security prior to recovery.

Debt securities issued by U.S. government agencies, U.S. government-sponsored enterprises, and state and political subdivisions accounted for 100% of the total available-for-sale portfolio as of June 30, 2017 and no credit losses are expected, given the explicit and implicit guarantees provided by the U.S. federal government and the lack of prolonged unrealized loss positions within the obligations of state and political subdivisions security portfolio. The Company considers the following factors in determining whether a credit loss exists and the period over which the debt security is expected to recover:

- The length of time and the extent to which the fair value has been less than the amortized cost basis.
- Changes in the near term prospects of the underlying collateral of a security such as changes in default rates, loss severity given default and significant changes in prepayment assumptions;
- The level of cash flows generated from the underlying collateral supporting the principal and interest payments of the debt securities; and
- Any adverse change to the credit conditions and liquidity of the issuer, taking into consideration the latest information available about the overall financial condition of the issuer, credit ratings, recent legislation and government actions affecting the issuer’s industry and actions taken by the issuer to deal with the present economic climate.

For the six months ended June 30, 2017 and 2016, there were no available-for-sale debt securities with an unrealized loss that suffered OTTI. Management does not believe any individual unrealized loss as of June 30, 2017 or December 31, 2016 represented an other-than-temporary impairment. The unrealized losses on debt securities are primarily the result of interest rate changes. These conditions will not prohibit the Company from receiving its contractual principal and interest payments on these debt securities. The fair value of these debt securities is expected to recover as payments are received on these securities and they approach maturity. Should the impairment of any of these securities become other than temporary, the cost basis of the investment will be reduced and the resulting loss recognized in net income in the period the other-than-temporary impairment is identified.

NOTE 7 - LOANS AND RELATED ALLOWANCE FOR LOAN AND LEASE LOSSES

Major classifications of loans are summarized as follows (in thousands):

	June 30, 2017	December 31, 2016
Commercial and industrial	\$97,160	\$60,630
Real estate - construction	35,571	23,709
Real estate - mortgage:		
Residential	308,519	270,830
Commercial	406,670	249,490
Consumer installment	19,944	4,481
	867,864	609,140
Less: Allowance for loan and lease losses	6,605	6,598
Net loans	\$861,259	\$602,542

The amounts above include deferred loan origination costs of \$1.9 million and \$1.7 million at June 30, 2017 and December 31, 2016, respectively.

The Company's primary business activity is with customers located within its local Northeastern Ohio trade area, eastern Geauga County, and contiguous counties to the north, east, and south. The Company also serves the central Ohio market with offices in Dublin, Sunbury and Westerville, Ohio. The Northeastern Ohio trade area includes the newly acquired Liberty locations in Beachwood, Twinsburg, and Solon, Ohio. Commercial, residential, consumer, and agricultural loans are granted. Although the Company has a diversified loan portfolio, loans outstanding to individuals and businesses are dependent upon the local economic conditions in the Company's immediate trade area.

Loans that management has the intent and ability to hold for the foreseeable future or until maturity or payoff generally are reported at their outstanding unpaid principal balances net of the allowance for loan and lease losses. Interest income is recognized as income when earned on the accrual method. The accrual of interest is discontinued on a loan when management believes, after considering economic and business conditions, the borrower's financial condition is such that collection of interest is doubtful. Interest received on nonaccrual loans is recorded as income or applied against principal according to management's judgment as to the collectability of such principal.

Loan origination fees and certain direct loan origination costs are being deferred and the net amount amortized as an adjustment of the related loan's yield. Management is amortizing these amounts over the contractual life of the related loans.

The following tables summarize the primary segments of the loan portfolio and allowance for loan and lease losses (in thousands):

June 30, 2017	Commercial and industrial	Real estate- construction	Real Estate- Mortgage		Consumer installment	Total

The Company's loan portfolio is segmented to a level that allows management to monitor risk and performance. The portfolio is segmented into Commercial and Industrial ("C&I"), Real Estate Construction, Real Estate - Mortgage which is further segmented into Residential and Commercial real estate ("CRE"), and Consumer Installment Loans. The C&I loan segment consists of loans made for the purpose of financing the activities of commercial customers. The residential mortgage loan segment consists of loans made for the purpose of financing the activities of residential homeowners. The commercial mortgage loan segment consists of loans made for the purpose of financing the activities of commercial real estate owners and operators. The consumer loan segment consists primarily of installment loans and overdraft lines of credit connected with customer deposit accounts. The increase in the allowance for loan loss for C&I, Real Estate Construction, and CRE loan portfolios were partially offset by a decreases in the allowance for the Residential and Consumer Installment loan portfolio.

Management evaluates individual loans in all of the commercial segments for possible impairment based on guidance established by the Board of Directors. Loans are considered to be impaired when, based on current information and events, it is probable that the Company will be unable to collect the scheduled payments of principal or interest when

due according to the contractual terms of the loan agreement. Factors considered by management in evaluating impairment include payment status, collateral value, and the probability of collecting scheduled principal and interest payments when due. Management determines the significance of payment delays and payment shortfalls on a case-by-case basis, taking into consideration all of the circumstances surrounding the loan and the borrower, including the length of the delay, the reasons for the delay, the borrower's prior payment record, and the amount of the shortfall in relation to the principal and interest owed. The Company does not separately evaluate individual consumer and residential mortgage loans for impairment, unless such loans are part of a larger relationship that is impaired.

Once the determination has been made that a loan is impaired, the determination of whether a specific allocation of the allowance is necessary is measured by comparing the recorded investment in the loan to the fair value of the loan using one of the following methods: (a) the present value of expected future cash flows discounted at the loan's effective interest rate; (b) the loan's observable market price; or (c) the fair value of the collateral less selling costs. The method is selected on a loan-by-loan basis, with management primarily utilizing the fair value of collateral method. The evaluation of the need and amount of a specific allocation of the allowance and whether a loan can be removed from impairment status is made on a quarterly basis. The Company's policy for recognizing interest income on impaired loans does not differ from its overall policy for interest recognition.

The following tables present impaired loans by class, segregated by those for which a specific allowance was required and those for which a specific allowance was not necessary (in thousands):

June 30, 2017

Management uses a nine-point internal risk-rating system to monitor the credit quality of the overall loan portfolio. The first five categories are considered not criticized and are aggregated as Pass rated. The criticized rating categories utilized by management generally follow bank regulatory definitions. The Special Mention category includes assets that are currently protected but are potentially weak, resulting in an undue and unwarranted credit risk, but not to the point of justifying a Substandard classification. Loans in the Substandard category have well-defined weaknesses that jeopardize the liquidation of the debt and have a distinct possibility that some loss will be sustained if the weaknesses are not corrected. All loans greater than 90 days past due are considered Substandard. Any portion of a loan that has been charged off is placed in the Loss category.

To help ensure that risk ratings are accurate and reflect the present and future capacity of borrowers to repay a loan as agreed, the Company has a structured loan-rating process with several layers of internal and external oversight. Generally, consumer and residential mortgage loans are included in the Pass categories unless a specific action, such as bankruptcy, repossession, or death, occurs to raise awareness of a possible credit event. The Company's Commercial Loan Officers are responsible for the timely and accurate risk rating of the loans in their portfolios at origination and on an ongoing basis with the Chief Credit Officer ultimately responsible for accurate and timely risk ratings. The Credit Department performs an annual review of all commercial relationships with loan balances of \$1,000,000 or greater. Confirmation of the appropriate risk grade is included in the review on an ongoing basis. The Company engages an external consultant to conduct loan reviews on a semiannual basis. Generally, the external consultant reviews commercial relationships greater than \$250,000 and/or criticized relationships greater than \$125,000. Detailed reviews, including plans for resolution, are performed on loans classified as Substandard on a quarterly basis. Loans in the Special Mention and Substandard categories that are collectively evaluated for impairment are given separate consideration in the determination of the allowance.

The primary risk of commercial and industrial loans is the current economic uncertainties. C&I loans are, by nature, secured by less substantial collateral than real estate-secured loans. The primary risk of real estate construction loans is potential delays and /or disputes during the completion process. The primary risk of residential real estate loans is current economic uncertainties along with the slow recovery in the housing market. The primary risk of commercial real estate loans is loss of income of the owner or occupier of the property and the inability of the market to sustain rent levels. Consumer installment loans historically have experienced higher delinquency rates. Consumer installments are typically secured by less substantial collateral than other types of credits.

The following tables present the classes of the loan portfolio summarized by the aggregate Pass and the criticized categories of Special Mention, Substandard and Doubtful within the internal risk-rating system (in thousands):

	Pass	Special Mention	Substandard	Doubtful	Total Loans
June 30, 2017

Total	\$591,706	\$ 5,657	\$ 11,777	\$ -	\$609,140

Management further monitors the performance and credit quality of the loan portfolio by analyzing the age of the portfolio as determined by the length of time a recorded payment is past due.

Nonperforming assets include nonaccrual loans, troubled debt restructurings (TDRs), loans 90 days or more past due, EMORECO assets, other real estate owned, and repossessed assets. A loan is classified as nonaccrual when, in the opinion of management, there are serious doubts about collectability of interest and principal. Accrual of interest is discontinued on a loan when management believes, after considering economic and business conditions, the borrower's financial condition is such that collection of principal and interest is doubtful. Payments received on nonaccrual loans are applied against the principal balance.

The following tables present the classes of the loan portfolio summarized by the aging categories of performing loans (in thousands):

Edgar Filing: MIDDLEFIELD BANC CORP - Form 10-Q

		30-59 Days Past Due	60-89 Days Past Due	90 Days+ Past Due	Total Past Due	Total Loans

Total	\$ 5,903	\$ -

Interest income that would have been recorded had these loans not been placed on nonaccrual status was \$278,400 for the six months ended June 30, 2017 and \$309,000 for the year ended December 31, 2016.

An allowance for loan and lease losses (“ALLL”) is maintained to absorb losses from the loan portfolio. The ALLL is based on management’s continuing evaluation of the risk characteristics and credit quality of the loan portfolio, assessment of current economic conditions, diversification and size of the portfolio, adequacy of collateral, past and anticipated loss experience, and the amount of nonperforming loans.

The Company’s methodology for determining the ALLL is based on the requirements of ASC Section 310-10-35 for loans individually evaluated for impairment (discussed above) and ASC Subtopic 450-20 for loans collectively evaluated for impairment, as well as the Interagency Policy Statements on the Allowance for Loan and Lease Losses and other bank regulatory guidance. The total of the two components represents the Company’s ALLL. Management also performs impairment analyses on TDRs, which may result in specific reserves.

Loans that are collectively evaluated for impairment are analyzed with general allowances being made as appropriate. For general allowances, historical loss trends are used in the estimation of losses in the current portfolio. These historical loss amounts are modified by other qualitative factors.

The classes described above, which are based on the purpose code assigned to each loan, provide the starting point for the ALLL analysis. Management tracks the historical net charge-off activity at the purpose code level. The historical charge-off factor was calculated using the last twelve consecutive historical quarters.

Management has identified a number of additional qualitative factors which it uses to supplement the historical charge-off factor because these factors are likely to cause estimated credit losses associated with the existing loan pools to differ from historical loss experience. The additional factors that are evaluated quarterly and updated using information obtained from internal, regulatory, and governmental sources are: national and local economic trends and conditions; levels of and trends in delinquency rates and nonaccrual loans; trends in volumes and terms of loans; effects of changes in lending policies; experience, ability, and depth of lending staff; value of underlying collateral; and concentrations of credit from a loan type, industry and/or geographic standpoint.

Management reviews the loan portfolio on a quarterly basis using a defined, consistently applied process in order to make appropriate and timely adjustments to the ALLL. When information confirms all or part of specific loans to be uncollectible, these amounts are promptly charged off against the ALLL.

The following tables summarize the primary segments of the loan portfolio (in thousands):

	Commercial and industrial	Real estate- construction	Real estate- residential mortgage	Real estate- commercial mortgage	Consumer installment	Total
ALLL balance at December 31, 2016	\$ 448	\$ 172	\$ 2,818	\$ 3,135	\$ 25	\$6,598

Commercial real estate	1	-	1	311	311

One contract, with a recorded investment of \$33,000, subsequently defaulted in the three months ended March 31, 2017. This contract was paid off as of June 30, 2017. There were no other subsequent defaults of troubled debt restructurings for the three and six months ended June 30, 2017.

One contract, with a recorded investment of \$270,000, subsequently defaulted in the three and six months ended June 30, 2016.

NOTE 8 – OTHER REAL ESTATE OWNED (“OREO”)

OREO comprises foreclosed assets acquired in settlement of loans and is carried at fair value less estimated cost to sell and is included in other assets on the Consolidated Balance Sheet. At June 30, 2017 and December 31, 2016, there was \$650,000 and \$934,000 of OREO, respectively. As of June 30, 2017, there were no formal foreclosures proceedings.

NOTE 9 – BUSINESS ACQUISITION

In the second quarter of 2016, the Company announced the signing of a definitive merger agreement to acquire 100% of the outstanding equity interest of Liberty Bank for cash and stock. Liberty was an Ohio bank that conducted its business from a main office in Beachwood, Ohio with branches in Twinsburg and Solon, Ohio.

The transaction closed on January 12, 2017, with Liberty having been merged into Middlefield Bank, with Middlefield Bank as the surviving entity. The acquisition established the Company's presence in Cuyahoga and Summit Counties.

Under the terms of the merger agreement, the Company acquired all of the outstanding shares of Liberty for a total purchase price of \$42.2 million. As a result of the acquisition, the Company issued 544,610 common shares and \$21.2 million in cash to the former shareholders of Liberty Bank. The shares were issued with a value of \$38.55 per share, which was the closing price of the Company's stock on January 12, 2017. Prior to the acquisition the Company had a previously held equity interest in Liberty Bank which was re-measured at fair value on the acquisition date and resulted in a gain of \$488,000, which was recorded in the Investment Securities Gains – Taxable Interest line on the consolidated Income Statement for the six months ended June 30, 2017.

The acquired assets and assumed liabilities were measured at estimated fair values. The Company relied on the income approach to estimate the value of the loans. The loans' underlying characteristics (account types, remaining terms (in months), annual interest rates or coupons, interest types, past delinquencies, timing of principal and interest payments, current market rates, loan-to-value ratios, loss exposures and remaining balance) were considered. Various assumptions were applied regarding credit, interest, and prepayment risks for the loans based on loan types, payment types and fixed or variable classifications.

The Company also recorded an identifiable intangible asset representing the core deposit base of Liberty Bank. The discounted cash flow method was used in valuing this intangible. This method is based upon the principle of future benefits; economic value is based on anticipated future benefits as measured by cash flows expected to occur in the future. The estimated future cash flows are converted to a value indicator by determining the present value of the cash flows using a discount rate. The discount rate is based upon the nature of the business, the level of risk, and the expected stability of the estimated future cash flows. The higher the risk, the higher the discount rate, and the lower the value indicator.

Time deposit fair values were estimated using an income approach. The methodology entailed discounting the contractual cash flows of the instruments over their remaining contractual lives at prevailing market rates. Interest and principal payments were projected for each category of CDs over the period from the valuation date to the maturity

dates. These payments represent future cash flows to be paid to depositors until maturity. Using appropriate market interest rates for each category of CDs, the future cash flows were discounted to their present value equivalents. The market interest rates were selected based on peer rates in Ohio from Bankrate as of the valuation date.

The following table summarizes the purchase of Liberty Bank as of January 12, 2017:

(In Thousands, Except Per Share Data)

Purchase Price Consideration in Common Stock		
Middlefield Banc Corp. shares issued	544,610	
Value assigned to Middlefield Banc Corp. common share	\$38.55	
Purchase price assigned to Liberty Bank common shares exchanged for Middlefield Banc Corp. shares		20,995
Purchase Price Consideration in Cash		
Purchase price assigned to Liberty Bank common shares exchanged for cash		21,173
Total Purchase Price		42,168
Previously held equity interest in Liberty Bank		1,068
Net Assets Acquired:		
Liberty Bank shareholders equity	\$30,277	
Adjustments to reflect assets acquired at fair value:		
Loans		
Allowance for loan loss	3,257	
Core deposit intangible	3,087	
Loans - interest rate	578	
Loans - general credit	(2,161)	
Deferred tax asset	(1,073)	
Other	254	
Adjustments to reflect liabilities acquired at fair value:		
Time deposits	(141)	
Change in control	(1,718)	
		32,360
Goodwill resulting from merger		\$10,876

The following condensed statement reflects the amounts recognized as of the acquisition date for each major class of asset acquired and liability assumed, at fair value:

(In Thousands)	
Total purchase price	\$42,168
Previously held equity interest in Liberty Bank	1,068
Assets (liabilities) acquired:	
Net assets acquired:	
Cash	26,604
Loans and loans held for sale	201,341
Premises and equipment, net	325
Accrued interest receivable	440
Bank-owned life insurance	1,681
Core deposit intangible	3,087
Deferred tax asset	(1,073)
Other assets	997
Time deposits	(30,744)
Non-time deposits	(167,300)
Accrued interest payable	(47)
Other liabilities	(2,951)
	32,360
Goodwill resulting from the Liberty Bank merger	\$10,876

Middlefield recorded goodwill and intangibles associated with the purchase of Liberty Bank totaling \$10,876,000. Goodwill is not amortized, but is periodically evaluated for impairment. The Bank did not recognize any impairment during the six months ended June 30, 2017. Management made an adjustment to goodwill during the quarter ended June 30, 2017 of \$211,000 due to a refinement in a purchase accounting adjustment.

Identifiable intangibles are amortized to their estimated residual values over the expected useful lives. Such lives are also periodically reassessed to determine if any amortization period adjustments are required. During the six months ended June 30, 2017, no such adjustments were recorded. The identifiable intangible assets consist of a core deposit intangible which is being amortized over the estimated useful life. The gross carrying amount of the core deposit intangible at June 30, 2017 was \$2,932,000 with \$155,000 accumulated amortization as of that date.

As of June 30, 2017, the current year and estimated future amortization expense for the core deposits intangible is as follows:

Remaining	2017	187
	2018	348
	2019	341
	2020	332
	2021	321
	2022	309
	2023	296
	2024	281
	2025	264
	2026	253
		2,932

Results of operations for Liberty prior to the acquisition date are not included in the Consolidated Statement of Income for the three-month period and six-month period ended June 30, 2017. The results of activities from the former Liberty Bank operations that are included in the Consolidated Statement of Income from the date of acquisition through June 30, 2017 are broken out in the following table:

	Actual from Acquisition Date Through June 30, 2017 (in thousands)	Actual Second Quarter 2017 (in thousands)
Net interest income	\$ 5,244	\$ 2,509
Noninterest income	525	234
Net income	\$ 1,302	\$ 1,204

The table below presents unaudited pro forma information as if the acquisition of Liberty Bank had occurred on January 1, 2016 and as if the acquisition had occurred on January 1, 2017. This had been prepared for comparative purposes only and is not necessarily indicative of the actual results that would have been attained had the acquisition occurred as of the beginning of the periods presented, nor is it indicative of future results. Furthermore, the unaudited pro forma information does not reflect management's estimate of any revenue-enhancing opportunities nor anticipated cost savings as a result of the integration and consolidation of the acquisition. Merger and acquisition integration costs and amortization of fair value adjustments are included in the amounts below.

	Pro Formas Six-month period ended June 30, 2017		Pro Formas Three-month period ended June 30, 2017	
	2017	2016	2017	2016
Net interest income	\$18,630	\$17,198	\$9,575	\$8,868
Noninterest income	2,622	2,695	1,050	1,538
Net income	\$2,573	\$4,513	\$1,490	\$2,691

Pro forma earnings per share:

Basic	\$0.91	\$2.30	\$0.52	\$1.37
Diluted	\$0.90	\$2.29	\$0.52	\$1.36

Included in the above net income amount for June 30, 2017 are \$467,000 of non-recurring merger expenses.

NOTE 10 – SUBSEQUENT EVENTS

Management has evaluated subsequent events through August 14, 2017, which is the date the consolidated financial statements were available to be issued. Management determined there were no subsequent events that required adjustments to or disclosure in the consolidated financial statements as of June 30, 2017.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis provides further detail to the financial condition and results of operations of the Company. The MD&A should be read in conjunction with the notes and financial statements presented in this report.

The information contained or incorporated by reference in this current report on Form 10-Q contain forward-looking statements, including certain plans, expectations, goals, and projections, which are subject to numerous assumptions, risks, and uncertainties. Actual results could differ materially from those contained or implied by such statements for a variety of factors, including: changes in economic conditions; movements in interest rates; competitive pressures on product pricing and services; success and timing of business strategies; the nature, extent, and timing of government actions and reforms; and extended disruption of vital infrastructure. All forward-looking statements included in this current report on Form 10-Q are based on information available at the time of the report. Middlefield Banc Corp. assumes no obligation to update any forward-looking statement.

CHANGES IN FINANCIAL CONDITION

General. The Company's total assets ended the June 30, 2017 quarter at \$1.1 billion, an increase of \$283.3 million or 36.0% from December 31, 2016. For the same time period, cash and cash equivalents increased \$7.1 million, or 21.8% while net loans increased \$258.7 million, or 42.9%. Total liabilities increased \$243.0 million, or 34.2% while stockholders' equity increased \$40.2 million, or 52.3%.

On January 12, 2017, the Company completed its acquisition of Liberty Bank, N.A. ("Liberty"), pursuant to a previously announced definitive merger agreement. Under the terms of the merger agreement, Liberty shareholders received \$37.96 in cash or 1.1934 shares of Middlefield's common stock in exchange for each share of Liberty common stock they owned immediately prior to the merger. Middlefield issued 544,610 shares of its common stock in the merger and the aggregate merger consideration was approximately \$42.2 million.

Pursuant to its private placement, on May 10, 2017, the Company sold 400,000 shares of its common stock, without par value, at a purchase price of \$40.00 per share. The offering was to accredited investors only, without the use of a general solicitation or general advertising. The gross proceeds of the offering were \$16,000,000 before compensation of \$760,000 payable to the investment bank acting as placement agent. The offer and sale of the Company's common stock in the private placement was exempt from the registration requirements of the Securities Act of 1933, as amended (the "Securities Act") pursuant to Section 4(a)(2) of, and Rule 506 of Regulation D under, the Securities Act. The Company used the proceeds of the private placement to repay outstanding borrowings of approximately \$12 million, for general corporate purposes, and for future cash flows.

Cash and cash equivalents. Cash and due from banks and Federal funds sold represent cash and cash equivalents. Cash and cash equivalents increased \$7.1 million or 21.8% to \$39.6 million at June 30, 2017 from \$32.5 million at December 31, 2016. Deposits from customers into savings and checking accounts, loan and securities repayments and proceeds from borrowed funds typically increase these accounts. Decreases result from customer withdrawals, new loan originations, purchases of investment securities and repayments of borrowed funds.

Investment securities. Investment securities available for sale on June 30, 2017 totaled \$105.0 million, a decrease of \$9.4 million or 8.2% from \$114.4 million at December 31, 2016. During this period the Company recorded repayments, calls, and maturities of \$7.9 million. The Company recorded \$488,000 in security gains as of June 30, 2017, which is the liquidation of the Company's investment in Liberty stock due to the acquisition. Sales of securities were \$2.7 million during the period, the results of which included an insignificant effect on the Company's consolidated statement of income and consolidated statement of cash flows.

Loans receivable. The loans receivable category consists primarily of single-family mortgage loans used to purchase or refinance personal residences located within the Company's market area and commercial real estate loans used to finance properties that are used in the borrowers' businesses or to finance investor-owned rental properties, and to a lesser extent, construction and consumer loans. Net loans receivable increased \$258.7 million or 42.9% to \$861.3 million as of June 30, 2017 from \$602.5 million at December 31, 2016 due to the Liberty acquisition as well as strategic growth goals. The Liberty acquisition resulted in a net increase of loans receivable of \$195.4 million as of the date of acquisition. Included in the total increase to loans receivable were increases in the commercial real estate, residential real estate, commercial and industrial, consumer installment, and construction portfolios of \$157.2 million, or 63.0%, \$37.7 million, or 13.9%, \$36.5 million or 60.3%, 15.5 million or 345.1%, and \$11.9 million, or 50.0%, respectively.

The Company's Mortgage Banking operation generates loans for sale to FHLMC. Loans held for sale on June 30, 2017 totaled \$9.8 million, an increase of \$9.2 million, or 1,444.3%, from December 31, 2016. This increase is a result of a greater number of funded loans being held in the warehouse at quarter end. This increase is also the result of the acquisition of Liberty's Student Lending loans which are classified as Loans Held for Sale. The amount of loans under this Student Lending program was \$8.5 million as of June 30, 2017.

Student Lending. Through its merger with Liberty Bank, N.A., on January 12, 2017, MBC acquired Liberty's private student loan business, which provides qualified borrowers nationwide with the ability to finance the costs associated with obtaining their undergraduate or graduate degrees and to refinance their existing student loans. Pursuant to loan origination agreements with student loan origination and servicing companies, MBC will make student loans to qualified students and sell those loans, without recourse and with servicing released, into the secondary market. This "originate-to-sell" model allows the Bank to enhance its liquidity, making credit more widely available while transferring the risk of non-payment to third parties. During the six-month period ended June 30, 2017, the Company originated \$211.9 million in student loans. The Company anticipates continuing the student loan program but can give no assurance that MBC will originate student loans at equivalent levels.

Allowance for Loan and Lease Losses and Asset Quality. The allowance for loan and lease losses increased \$7,000 or 0.1% to \$6.6 million at June 30, 2017 from \$6.6 million at December 31, 2016. For the three months ended June 30, 2017, net loan charge-offs totaled \$285,000, or 0.13% of average loans, compared to net charge-offs of \$96,000, or 0.07%, for the same period in 2016. To maintain the allowance for loan and lease losses, the Company recorded a provision for loan loss of \$170,000 in the three-month period ending June 30, 2017. For the six months ended June 30, 2017, net loan charge-offs totaled \$328,000, or 0.08% of average loans, compared to net charge-offs of \$229,000, or 0.08%, for the same period in 2016. To maintain the allowance for loan and lease losses, the Company recorded a provision for loan loss of \$335,000 in the six month period ending June 30, 2017.

MBC recorded loans acquired through the Liberty acquisition net of any allowance. As such, the acquisition of these loans had a negligible effect on the determination of the allowance for loans and lease losses as of June 30, 2017.

Management analyzes the adequacy of the allowance for loan and lease losses regularly through reviews of the performance of the loan portfolio considering economic conditions, changes in interest rates and the effect of such changes on real estate values and changes in the amount and composition of the loan portfolio. The allowance for loan and lease losses is a significant estimate that is particularly susceptible to changes in the near term. Such evaluation includes a review of all loans designated as impaired, historical loan loss experience, the estimated fair value of the underlying collateral, economic conditions, current interest rates, trends in the borrower's industry and other factors that management believes warrant recognition in providing for an appropriate allowance for loan and lease losses. Future additions or reductions to the allowance for loan and lease losses will be dependent on these factors. Additionally, the Company uses an outside party to conduct an independent review of commercial and commercial real estate loans that is designed to validate management conclusions of risk ratings and the appropriateness of the allowance allocated to these loans. The Company uses the results of this review to help determine the effectiveness of policies and procedures and to assess the adequacy of the allowance for loan and lease losses allocated to these types of loans. Management believes the allowance for loan and lease losses is appropriately stated at June 30, 2017. Based on the variables involved and management's judgments about uncertain outcomes, the determination of the allowance for loan and lease losses is considered a critical accounting policy.

Nonperforming assets. Nonperforming assets includes nonaccrual loans, troubled debt restructurings (TDRs), loans 90 days or more past due, EMORECO assets, other real estate, and repossessed assets. Real estate owned is written

down to fair value at its initial recording and continually monitored for changes in fair value. A loan is classified as nonaccrual when, in the opinion of management, there are serious doubts about collectability of interest and principal. Accrual of interest is discontinued on a loan when management believes, after considering economic and business conditions, the borrower's financial condition is such that collection of principal and interest is doubtful. Payments received on nonaccrual loans are applied against principal until doubt about collectability ceases. TDRs are those loans which the Company, for economic or legal reasons related to a borrower's financial difficulties, grants a concession to the borrower that the Company would not otherwise consider. The Company has 21 TDRs with a total balance of \$2.2 million as of June 30, 2017. A TDR that yields market interest rate at the time of restructuring and is in compliance with its modified terms is no longer reported as TDR in calendar years after the year in which the restructuring took place. To be in compliance with its modified terms, a loan that is a TDR must not be in nonaccrual status and must be current or less than 30 days past due on its contractual principal and interest payments under the modified repayment terms. Nonperforming loans secured by real estate totaled \$11.8 million as of June 30, 2017, an increase of \$4.7 million from \$7.1 million at December 31, 2016.

Asset Quality History

(Dollar amounts in thousands)	6/30/2017	3/31/2017	12/31/2016	9/30/2016	6/30/2016
Nonperforming loans	\$12,581	\$ 8,019	\$ 7,075	\$ 12,675	\$ 9,491
Real estate owned	650	1,634	934	1,205	1,142
Nonperforming assets	\$13,231	\$ 9,653	\$ 8,009	\$ 13,880	\$ 10,633
Allowance for loan and lease losses	6,605	6,720	6,598	6,334	6,366
Ratios					
Nonperforming loans to total loans	1.45 %	0.96 %	1.16 %	2.16 %	1.64 %
Nonperforming assets to total assets	1.24 %	0.90 %	1.02 %	1.82 %	1.40 %
Allowance for loan and lease losses to total loans	0.76 %	0.80 %	1.08 %	1.08 %	1.10 %
Allowance for loan and lease losses to nonperforming loans	52.50 %	83.80 %	93.26 %	49.97 %	67.07 %

A major factor in determining the appropriateness of the allowance for loan and lease losses is the type of collateral which secures the loans. Of the total nonperforming loans at June 30, 2017, 94.1% were secured by real estate. Although this does not insure against all losses, the real estate typically provides for at least partial recovery, even in a distressed-sale and declining-value environment. The Company's objective is to minimize the future loss exposure to the Company.

The allowance for loan and lease losses to total loans ratio decreased from 1.08% as of December 31, 2016 to 0.76% as of June 30, 2017. This decrease is primarily due to the increase in total loans resulting from the Liberty acquisition as legacy Liberty loans and investments have required no additional reserves.

Deposits. The Company considers various sources when evaluating funding needs, including but not limited to deposits, which are a significant source of funds totaling \$846.8 million or 89.2% of the Company's total funding sources at June 30, 2017. Total deposits increased \$216.9 million or 34.4% at June 30, 2017 from \$629.9 million at December 31, 2016. The Liberty acquisition resulted in a net increase of deposits of \$175.6 million as of the date of acquisition. The total increase in deposits is primarily related to increases in noninterest-bearing demand, interest-bearing demand, money market, savings, and time deposits of \$38.6 million or 28.9%, \$27.5 million or 46.2%, \$85.9 million or 114.6%, \$8.9 million or 5.2%, and \$56.0 million or 29.5%, respectively, at June 30, 2017.

Borrowed funds. The Company uses short and long-term borrowings as another source of funding for asset growth and liquidity needs. These borrowings primarily include FHLB advances, junior subordinated debt, short-term borrowings from other banks, federal funds purchased, and repurchase agreements. Short-term borrowings decreased

\$5.0 million, or 7.3%, to \$63.4 million as of June 30, 2017. Other borrowings increased \$30.0 million, or 316.9%, to \$39.4 million as of June 30, 2017 from \$9.4 million as of December 31, 2016. This increase is due to new FHLB borrowings during the six-month period ending June 30, 2017 used primarily to fund loan growth.

Stockholders' equity. Stockholders' equity increased \$40.2 million, or 52.3%, to \$117.2 million at June 30, 2017 from \$77.0 million at December 31, 2016. This growth was largely the result of an increase in common stock in relation to the Liberty Bank, N.A. acquisition (Note 9), and of the proceeds from the private placement discussed above. This growth was also the result of increases in retained earnings of \$3.0 million. The change in retained earnings is due to the year-to-date net income offset by dividends paid. The increase in stockholders' equity is also attributable to an increase in accumulated other comprehensive income ("AOCI") of \$614,000 due to fair value adjustments of available-for-sale securities.

RESULTS OF OPERATIONS

General. Net income for the three months ended June 30, 2017, was \$2.5 million, a \$581,000, or 30.2% increase from the amount earned during the same period in 2016. Diluted earnings per share for the quarter decreased to \$0.83, compared to \$0.94 from the same period in 2016. Net income for the six months ended June 30, 2017, was \$4.6 million, a \$1.2 million, or 35.0% increase from the amount earned during the same period in 2016. Diluted earnings per share decreased to \$1.61, compared to \$1.73 from the same period in 2016.

The Company's annualized return on average assets (ROA) and return on average equity (ROE) for the quarter were 0.94% and 9.34%, respectively, compared with 1.03% and 11.78% for the same period in 2016. The Company's ROA and ROE for the six-month period were 0.89% and 9.05%, respectively, compared with 0.92% and 10.62% for the same period in 2016.

Net interest income. Net interest income, the primary source of revenue for the Company, is determined by the Company's interest rate spread, which is defined as the difference between income on earning assets and the cost of funds supporting those assets, and the relative amounts of interest-earning assets and interest-bearing liabilities. Management periodically adjusts the mix of assets and liabilities, as well as the rates earned or paid on those assets and liabilities in order to manage and improve net interest income. The level of interest rates and changes in the amount and composition of interest-earning assets and liabilities affect the Company's net interest income. Historically from an interest rate risk perspective, it has been management's goal to maintain a balance between steady net interest income growth and the risks associated with interest rate fluctuations.

Net interest income for the three months ended June 30, 2017 totaled \$9.3 million, an increase of 46.4% from that reported in the comparable period of 2016. The net interest margin was 3.80% for the second quarter of 2017, up from the 3.78% reported for the same quarter of 2016. Net interest income for the six months ended June 30, 2017 totaled \$18.0 million, an increase of 42.4% from that reported in the comparable period of 2016. The net interest margin was 3.82%, no change from that reported for the same period of 2016.

Interest and dividend income. Interest and dividend income increased \$3.5 million, or 47.2%, for the three months ended June 30, 2017, compared to the same period in the prior year. This is attributable to an increase in interest and fees on loans of \$3.6 million, partially offset by a decrease in interest earned on investment securities of \$187,000. Interest and dividend income increased \$6.4 million, or 43.0%, for the six months ended June 30, 2017, compared to the same period in the prior year. This is attributable to an increase in interest and fees on loans (including the interest and fees on the loans acquired through the Liberty acquisition) of \$6.6 million, partially offset by a decrease in interest earned on investment securities of \$462,000.

Interest earned on loans receivable increased \$3.6 million, or 57.0%, for the three months ended June 30, 2017, compared to the same period in the prior year. This is attributable to an increase in average loan balances of \$293.5 million, accompanied by a 12 basis point increase in the average yield, to 4.67%. Interest earned on loans receivable increased \$6.6 million or 52.9%, for the six months ended June 30, 2017, compared to the same period in the prior year. This is attributable to an increase in average loan balances of \$281.1 million, accompanied by a 5 basis point increase in the average yield, to 4.66%. The net increase in interest and fees earned on loans receivable attributed to the Liberty acquisition is \$5.2 million for the six months ended June 30, 2017.

Interest earned on securities decreased by \$187,000 for the three months ended June 30, 2017 when compared to the same period in the prior year. The average balance of investment securities decreased \$27.5 million, or 20.2%, while the 4.34% yield on the investment portfolio increased by 13 basis points, from 4.21%, for the same period in the prior year. Interest earned on securities decreased by \$462,000 for the six months ended June 30, 2017 when compared to the same period in the prior year. The average balance of investment securities decreased \$31.2 million, or 22.08% while the 4.32% yield on the investment portfolio increased by 10 basis points, from 4.22%, for the same period in the prior year.

Interest expense. Interest expense increased \$559,000, or 52.4%, for the three months ended June 30, 2017, compared to the same period in the prior year. The increase is largely attributable to increases in the average balances of money market deposits, certificates of deposit, and borrowings of \$78.7 million, or 97.7%, \$61.8 million, or 33.5%, and \$62.2 million, or 134.2%, respectively. This increase was partially offset by decreases in costs of 15 and 7 basis points for the average balances of money market deposits and borrowings, respectively, and accompanied by an increase in cost of 2 basis points for the average balance of certificates of deposit. Interest expense increased \$976,000, or 46.7%, for the six months ended June 30, 2017, compared to the same period in the prior year. The increase is largely attributable to increases in the average balances of money market deposits and borrowings of \$76.7 million, or 95.5%, and 65.5 million, or 146.3%, respectively. This increase was partially offset by a decrease in cost of 25 basis points for the average balance of borrowings, accompanied by an increase in cost of 3 basis points for the average balance of money market deposits. The Liberty acquisition resulted in a net increase of interest expense of \$564,800 as of June 30, 2017.

Provision for loan losses. The provision for loan losses represents the charge to income necessary to adjust the allowance for loan and lease losses to an amount that represents management's assessment of the estimated probable incurred credit losses inherent in the loan portfolio. Each quarter management performs a review of estimated probable incurred credit losses in the loan portfolio. Based on this review, a provision for loan losses of \$170,000 was recorded for the quarter ended June 30, 2017, an increase of \$65,000, or 61.9% from the quarter ended June 30, 2016. A provision for loan losses of \$335,000 was recorded for the six month period ended June 30, 2017, compared to \$210,000 in the same period in 2016. Nonperforming loans were \$12.6 million, or 1.5% of total loans at June 30, 2017 compared with \$9.5 million, or 1.6% at June 30, 2016. For the three months ended June 30, 2017, net loan charge-offs totaled \$285,000, or 0.13% of average loans, compared to net charge-offs of \$96,000, or 0.07%, for the second quarter of 2016. For the six months ended June 30, 2017, net loan charge-offs totaled \$328,000, or 0.08% of average loans, compared to net charge-offs of \$229,000, or 0.08%, for the same period in 2016.

Noninterest income. Noninterest income decreased \$184,000 for the three months ended June 30, 2017 over the comparable 2016 period. This decrease was largely the result of a decrease in net investment security gains of \$252,000 offset by an increase in the gain on sale of loans of \$125,000. Noninterest income increased \$418,000 for the six months ended June 30, 2017 over the comparable 2016 period. This increase was largely the result of an increase in gains on sales of loans of \$ 272,000 and net investment security gains of \$185,000.

Noninterest expense. Noninterest expense of \$6.7 million for the second quarter 2017 was 36.4%, or \$1.8 million more than the second quarter of 2016. Salaries and employee benefits, data processing costs, and professional fees increased \$920,000 or 40.3%, \$266,000 or 82.6%, and \$205,000, or 94.0%, respectively. These were partially offset by a net gain on other real estate sales of \$126,000. The salary increase is mostly due to annual pay adjustments and the increase of employees due to the acquisition of Liberty Bank, N.A. Professional fees and data processing costs are also higher due to additional on-going services provided related to the acquisition. The increase of gain on other real estate sales is attributable to a \$284,000, or 30.4%, reduction in other real estate owned as of June 30, 2017. Nonrecurring merger expense due to the acquisition of Liberty Bank, N.A. included in noninterest expense for the second quarter 2017 was \$307,000. Noninterest expense of \$14.0 million for the six month period ended June 30, 2017 was 36.3% or \$3.7 million more than the same period in 2016. Salaries and employee benefits, professional fees, and data processing costs increased \$1.8 million, or 36.3%, \$286,000, or 56.1%, and \$314,000, or 52.9%, respectively. These increases were partially offset by a net gain on other real estate sales of \$129,000. The salary increase is mostly due to annual pay adjustments and the increase of employees due to the acquisition of Liberty Bank, N.A. Professional fees and data processing costs are also higher due to on-going additional services provided related to the acquisition. Nonrecurring merger expense due to the acquisition of Liberty Bank, N.A. included in noninterest expense for the six month period ended June 30, 2017 was \$694,000.

Provision for income taxes. The Company recognized \$885,000 in income tax expense, which reflected an effective tax rate of 26.1% for the three months ended June 30, 2017, as compared to \$566,000 with an effective tax rate of 22.7% for the comparable 2016 period. The Company recognized \$1.6 million in income tax expense, which reflected an effective tax rate of 26.0% for the six months ended June 30, 2017, as compared to \$868,000 million with an effective tax rate of 20.3% for the comparable 2016 period. The provision is directly correlated to the increase in net income before taxes. The increase in the effective tax rate is due to a lower level of nontaxable income and certain non-deductible merger expenses.

Average Balance Sheet and Yield/Rate Analysis. The following table sets forth, for the periods indicated, information concerning the total dollar amounts of interest income from interest-earning assets and the resultant average yields, the total dollar amounts of interest expense on interest-bearing liabilities and the resultant average costs, net interest income, interest rate spread and the net interest margin earned on average interest-earning assets. For purposes of this table, average balances are calculated using monthly averages and the average loan balances include nonaccrual loans and exclude the allowance for loan and lease losses, and interest income includes accretion of net deferred loan fees. Interest and yields on tax-exempt securities (tax exempt for federal income tax purposes) are shown on a fully tax-equivalent basis utilizing a federal tax rate of 34%. Yields and rates have been calculated on an annualized basis utilizing monthly interest amounts.

(Dollar amounts in thousands)	For the Three Months Ended June 30,							
	2017		2016					
	Average Balance	Interest	Average Yield/Cost	Average Balance	Interest	Average Yield/Cost		
Interest-earning assets:								
Loans receivable	\$851,754	\$9,916	4.67	% \$558,298	\$6,317	4.55	%	
Investment securities (3)	108,774	853	4.34	% 136,266	1,040	4.21	%	
Interest-bearing deposits with other banks	52,077	133	1.02	% 21,806	48	0.89	%	
Total interest-earning assets	1,012,605	10,902	4.45	% 716,370	7,405	4.37	%	
Noninterest-earning assets	58,632			34,405				
Total assets	\$1,071,237			\$750,775				
Interest-bearing liabilities:								
Interest-bearing demand deposits	\$90,337	\$135	0.60	% \$68,540	\$53	0.31	%	
Money market deposits	159,333	103	0.26	% 80,593	83	0.41	%	
Savings deposits	181,547	110	0.24	% 175,032	107	0.25	%	
Certificates of deposit	246,196	879	1.43	% 184,448	646	1.41	%	
Borrowings	108,513	398	1.47	% 46,334	177	1.54	%	
Total interest-bearing liabilities	785,926	1,625	0.83	% 554,947	1,066	0.77	%	
Noninterest-bearing liabilities								
Other liabilities	177,696			130,045				
Stockholders' equity	107,615			65,783				
Total liabilities and stockholders' equity	\$1,071,237			\$750,775				
Net interest income		\$9,277			\$6,339			
Interest rate spread (1)			3.62	%		3.60	%	
Net interest margin (2)			3.80	%		3.78	%	
Ratio of average interest-earning assets to average interest-bearing liabilities			128.84	%		129.09	%	

(1) Interest rate spread represents the difference between the average yield on interest-earning assets and the average cost of interest-bearing liabilities

(2) Net interest margin represents net interest income as a percentage of average interest-earning assets.

(3) Tax-equivalent adjustments to interest income for tax-exempt securities were \$325 and \$386 for the three months ended June 30, 2017 and 2016, respectively.

Analysis of Changes in Net Interest Income. The following table analyzes the changes in interest income and interest expense, between the three month periods ended June 30, 2017 and 2016, in terms of: (1) changes in volume of interest-earning assets and interest-bearing liabilities and (2) changes in yields and rates. The table reflects the extent to which changes in the Company's interest income and interest expense are attributable to changes in rate (change in rate multiplied by prior period volume), changes in volume (changes in volume multiplied by prior period rate) and changes attributable to the combined impact of volume/rate (change in rate multiplied by change in volume). The changes attributable to the combined impact of volume/rate are allocated on a consistent basis between the volume and rate variances. Changes in interest income on securities reflects the changes in interest income on a fully tax-equivalent basis.

(Dollar amounts in thousands)	2017 versus 2016		
	Increase (decrease) due to		
	Volume	Rate	Total
Interest-earning assets:			
Loans receivable	\$3,329	\$270	\$3,599
