The Notice of Internet Availability of Proxy Materials contains instructions about how to access our proxy materials and vote online. If you would like to receive a paper copy of our proxy materials, please follow the instructions included in the Notice of Internet Availability of Proxy Materials. If you previously chose to receive our proxy materials electronically, you will continue to receive access to these materials via e-mail unless you elect otherwise.

Solicitation of Proxies

The Board of Directors of the Company is soliciting the proxy accompanying this Proxy Statement. Proxies may be solicited by officers, directors, and employees of the Company, none of whom will receive any additional compensation for their services. These solicitations may be made personally or by mail, facsimile, telephone, messenger, email, or the Internet. The Company will pay persons holding shares of Common Stock in their names or in the names of nominees, but not owning such shares beneficially (such as brokerage houses, banks, and other fiduciaries) for the expense of forwarding solicitation materials to their principals. The Company will pay all proxy solicitation costs.

Householding

To reduce costs and reduce the environmental impact of our Annual Meeting, a single proxy statement, annual report, and Form 10-Q for the three months ended June 30, 2018 will be delivered in one envelope to certain stockholders having the same last name and address and to individuals with more than one account registered at our transfer agent with the same address, unless contrary instructions have been received from an affected stockholder. Stockholders participating in householding will continue to receive separate proxy cards. If you are a registered stockholder and would like to enroll in this service or receive individual copies of this year's and/or future proxy materials, please contact our transfer agent, Broadridge Corporate Issuer Solutions, by phone at (800) 542-1061 or mail at Broadridge, Householding Department, 51 Mercedes Way, Edgewood, New York 11717. If you are a beneficial stockholder, you may contact the broker or bank where you hold the account.

Record Date; Shares Eligible to Vote; Quorum

Stockholders of record at the close of business on October 15, 2018 will be entitled to vote at the meeting on the basis of one vote for each share held. On October 15, 2018, there were 175,513,549 shares of Common Stock outstanding and 624 record holders of the Company's Common Stock.

The presence of the holders of a majority of the outstanding shares of Common Stock entitled to vote at the Annual Meeting (87,756,775 shares), in person or represented by proxy, is necessary to constitute a quorum. Abstentions and "broker non-votes" are counted as "present and entitled to vote" for purposes of determining a quorum.

Election of Directors

Eight directors are to be elected at the Annual Meeting to hold office until the next Annual Meeting of Stockholders or until their respective successors are elected and qualified or until such director's earlier resignation or removal.

The Board of Directors expects that each of the nominees will be available for election, but if any of them is unable to serve at the time the election occurs, the proxy will be voted for the election of another nominee designated by our Board.

If, for any reason, the directors are not elected at an Annual Meeting, they may be elected at a special meeting of stockholders called for that purpose in the manner provided by the By-Laws of the Company ("By-Laws").

Voting Procedures and Votes Required for Election of Directors and Approval of Proposals

Voting of proxies

All proxies solicited by the Company, whether received by means of a proxy card, telephone, or the Internet, will be voted, and where a choice is made with respect to a matter to be voted on, the shares will be voted in accordance with the specifications so made.

Except for broker non-votes (explained below), if a proxy is submitted *without* indicating that the shares are to be cast (i) FOR all nominees (ii) WITHHOLD for all nominees or (iii) FOR all except specified nominee(s), it will be deemed to grant authority to vote FOR all nominees to serve as directors as set forth in Part 7 – "Proposals to be voted on" and discussed in Part 2 "Information concerning Directors".

Except for broker non-votes, if a proxy is submitted without indicating voting instructions on Proposal 2 (Say-on-Pay), Proposal 3 (advisory vote to approve the frequency of the advisory vote to approve the compensation of the company's named executive officers) or Proposal 4 (ratification of independent auditor), it will be deemed to grant authority to vote FOR the Proposal(s) as to which no instruction is given.

Voting of shares held of record, but not beneficially, by brokers and other custodians

Beneficial owners will receive a voting instruction form or other means, as specified by the broker or custodian, to instruct your broker, custodian, or other fiduciary how to vote. Beneficial owners may instruct the broker or custodian or other fiduciaries how to vote the shares through the voting instruction form or other means. If you wish to vote the shares you own beneficially at the meeting, you must request and obtain from your broker or other custodian and bring to the meeting, a “legal proxy” (a written authorization from the broker or custodian authorizing you to vote at the meeting).

Tabulation of shares present at meeting and tabulation of votes

Employees of the Company will tabulate the shares present at the meeting and the votes cast. We expect to report the final vote tabulation on a Form 8-K filed with the SEC within four business days of the Annual Meeting.

Vote standard for election of directors; additional nominations

The directors will be elected by a plurality of the votes cast, meaning the directors receiving the largest number of “FOR” votes will be elected to the open positions. The Company’s By-Laws contain advance notice provisions for nominations for director by stockholders. If a stockholder makes a nomination that is not made in accordance with such advance-notice provisions, the nomination may not be voted on at the meeting. As of the date of this proxy statement, the date for stockholder to comply with the advance notice provisions, and thus to be eligible to make a nomination at the meeting, has passed

Broker Non-Votes

If you are the beneficial owner of shares held by a broker or other custodian and you instruct the broker or custodian to vote but choose not to provide instructions as to one or more ballot items, your shares are referred to as “uninstructed shares” as to the ballot items on which you do not provide instructions. Whether your broker or custodian has the discretion to vote these shares on your behalf depends on the ballot item. See table below. If the broker or custodian has discretion, the broker or custodian may vote as it chooses. If the broker or custodian does not have discretion to vote on a proposal, the shares will not be voted on that proposal and are referred to as “broker non-votes” as to that proposal.

Quorum

Shares represented by proxies submitted without instructions or with instructions only on some issues or with withhold or absentions as well as shares represented by broker non-votes will be included in the number of shares present at the Annual Meeting to determine whether a quorum is present.

Vote required for approval

The following table summarizes the votes required for passage of each proposal, the effect of abstentions on the voting of shares, and the effect of uninstructed shares held by brokers or other custodians on the voting of such shares.

	Votes Required for Approval	<u>Abstentions</u> Is Vote Cast or Not Cast?	<u>Broker Non-Votes</u> Is Vote Cast or Not Cast?
Election of directors	Plurality of shares cast	Vote not cast	Vote not cast
Advisory vote on executive compensation ("Say-on-Pay")	Majority of shares cast	Vote not cast	Vote not cast
Ratification of independent auditor	Majority of shares cast	Vote not cast	Broker or custodian may vote using its discretion

Voting on Other Matters

Under the Company's By-Laws, if other matters in addition to those listed in the Notice are properly presented at the Annual Meeting for consideration, the persons appointed as proxies by the Board of Directors (the persons named on your proxy card if you are a stockholder of record) will have the discretion to vote the proxies they hold on those matters for you and will follow the instructions of the Board of Directors. However, the Company's By-Laws contain advance notice provisions for proposals to be made by stockholders. If a stockholder offers a proposal for a vote that is not made in accordance with such advance-notice provisions, the proposal may not be voted on at the meeting. As of the date of this proxy statement, the date for a stockholder to comply with the advance notice provisions, and thus to be eligible to make a proposal at the meeting, has passed.

The Board exercises oversight by reviewing key strategic and financial plans with management at each of its regular quarterly meetings as well as at certain special meetings. The Board's risk oversight function is coordinated under the leadership of the independent Chair of the Board and the Board believes that this oversight is enhanced by the separation of the role of Chair from CEO.

Governance and Nominating Committee and Nomination Process.

The Governance and Nominating Committee does not have a set process for identifying and evaluating nominees for director and does not have any specific minimum requirements that must be met by any committee-recommended nominee for a position on the Board of Directors. Characteristics expected of all directors include integrity, high personal and professional ethics, sound business judgment, and the ability and willingness to commit sufficient time to the Board. In evaluating the suitability of individual Board members, the Board takes into account many factors, including general understanding of marketing, finance, and other disciplines relevant to the success of a publicly-traded company in today's business environment; understanding of the Company's business; educational and professional background; and personal accomplishment. The Board evaluates each individual in the context of the Board as a whole, with the objective of recommending a group that can best promote the success of the Company's business and represent stockholder interests through the exercise of sound judgment. In determining whether to recommend a director for re-election, the Governance and Nominating Committee also considers the director's past attendance and the results of the most recent Board self-evaluation.

The Board does not have a policy relating to diversity in connection with the identification or selection of nominees and has not considered the issue.

The Board will consider director candidates recommended by any stockholder. In evaluating candidates recommended by our stockholders, the Board of Directors has no set process for evaluating nominees, and the criteria would include the ones set forth above that are applied to nominees nominated by the Board. Any stockholder recommendations for director nominees proposed for consideration by the Board should include the candidate's name and qualifications for service as a Board member, a document signed by the candidate indicating the candidate's willingness to serve, if elected, and evidence of the stockholder's ownership of Company Common Stock and should be addressed in writing to the Chairman, Applied Minerals, Inc., 55 Washington Street, Suite 301 Brooklyn, NY 11201.

There have been no changes in the procedures by which stockholders may recommend candidates for director.

His salary was not increased to a rate of \$200,000 per year and Mr. Carney is owed \$18,765 in respect thereof relating to 2017. In lieu of a \$50,000 salary reduction for twelve months beginning August 16, 2016, Mr. Carney received three-year options to purchase common stock with a Black Scholes value of \$40,500. During the first 7.5 months of 2017, \$23,625 of the Black Scholes value of the options vested.

(8) In December 2017, the Board of Directors granted to Mr. Carney and Mr. Gleeson options to purchase 4,780,550 shares of common stock and 3,749,440 shares of common stock, respectively, at \$0.06 per share. The options would vest based upon certain performance goals being met by management. During December 2017, options to purchase 2,390,275 shares of stock by Mr. Carney and options to purchase 1,874,720 shares of common stock by Mr. Gleeson vested. The Black Scholes values of the options to purchase common stock by Mr. Carney and Mr. Gleeson were \$223,495 and \$175,290, respectively.

(9) The 2015 potential bonus arrangement for each Messrs. Carney and Gleeson, as determined in February, 2015, was as follows: the total amount of the possible bonus compensation would be \$100,000; \$25,000 would be based

on personal performance metrics; \$75,000 would be based on revenue goals. Revenues could include the amount of firm commitment and take-and-pay arrangements. If revenues exceeded f \$5 million or more, a total of \$75,000 No determination was made when the performance goals were established as to the probability that the goals would be achieved. Revenues for 2015, including a \$5 million take-or-pay agreement for the delivery of iron oxide over a period of 18 months, exceeded \$5 million. In January, 2016, the Board determined that although all of the goals we satisfied, the total bonus to be paid to each of Messrs. Carney and Gleeson was \$75,000 and up to \$37,500 would be paid in cash and the remainder would be paid in options. In March, 2016, Messrs. Carney and Gleeson elected to receive \$37,500 of his 2015 bonus in cash and the remaining \$37,500 of value in options to purchase common stock of the Company. These options provide the right to purchase 248,344 shares of common stock of the Company at a price of \$0.24 per share over a five-year period.

(10) During February, 2015 Mr. Carney was granted options to purchase 50,000 shares of common stock of the Company. The fair value of the options at the time of grant was \$16,562. They were granted to Mr. Carney for his performance as VP of Business Development during 2014 but were not part of a pre-defined bonus arrangement. In June, 2014, Mr. Carney was granted options to purchase 75,000 shares of common stock of the Company. The fair value of the options at the time of grant was \$31,055. Part 4 Compensation Discussion and Analysis

Objectives and Strategy

The Company's objectives are to develop a range of commercial applications for its halloysite clay-based and iron oxide-based products and to market those applications to industries seeking enhanced product functionality and to market its iron oxides for pigment and other uses. We believe the successful marketing of such applications will generate material profits for the Company, which, in turn, will create significant value for its stockholders. To realize this objective, the Company must attract and retain individuals, including our Named Executive Officers ("*Named Executive Officers*" or "*NEOs*") (Messrs. Zeitoun, Carney and Gleeson), who possess the skill sets and experience needed to effectively develop and implement the business strategies and corporate governance infrastructure necessary to achieve commercial success.

Accordingly, compensation for the Named Executive Officers is designed to:

Attract, motivate, and retain qualified Named Executive Officers;

Incentivize the Named Executive Officers to lead the Company to profitable operations and to increase stockholder value;

Assure that over time a significant part of NEO compensation is linked to the Company's long-term stock price performance, which aligns the Named Executive Officers' financial interests with those of the Company's stockholders

Motivate the Named Executive Officers to develop long-term careers at the Company and to contribute to its future prospects; and

Permit the Named Executive Officers to remain focused on the development of the Company's business in the midst of actual or potential change-in-control transactions.

The Company does not have a policy concerning minimum ownership or hedging by officers of Company securities.

Compensation of Mr. Zeitoun

Mr. Zeitoun has been president and CEO of the Company since 2009.

2015 Compensation

In October, 2014, the Compensation Committee determined that because of shareholder sensitivity to compensation matters and because of the Company's cash burn, it was deemed necessary to get the latest comparative data on CEO compensation in order to make good decisions regarding 2015 compensation for Mr. Zeitoun. Accordingly, Committee engaged Compensation Resources to provide an executive compensation study to the Compensation Committee.

Compensation Resources had provided an executive compensation study to the Compensation Committee in March, 2014 in connection with Mr. Zeitoun's 2014 compensation. Compensation Resources delivered its 2015 executive compensation to the Committee on December 3, 2014.

On December 9, 2014, representatives of Compensation Resources met with the Compensation Committee and told the Committee the following. Compensation Resources was retained to prepare a competitive compensation study of the Company's President and Chief Executive Officer in order to determine the competitive levels of compensation for comparable positions among similar publicly traded companies. The study presented findings with regard to the current competitive levels of the total compensation package (cash and equity compensation) and the findings in the report reflect an update to a study completed on behalf of the Compensation Committee dated March, 2014 and was meant to provide the most recent compensation data from peer organizations, which reflect, for the most part, fiscal years ending December 31, 2013. The study utilized the same list of publicly traded companies benchmarked as part of the March 2014 study, with the exception of Accelrys, Inc., which had been recently acquired.

For purposes of valuing equity awards, the study continued to use a three-year average to more accurately recognize the variety and timing of long-term plans. All data inputs were increased on an annual factor of 3.0% to a common date of January 1, 2015, the percentage representing the average of the actual 2014 merit increase factors for executive positions within the various industries represented in the analysis. To determine "Market Consensus," Compensation Resources calculated the competitive market level of each compensation element from the peer market analysis and published survey analysis, utilizing multiple measures of central tendency, which included mean: simple average; median: the middle number, 50th percentile; trimmed mean: average that eliminates the highest and lowest data elements (outliers); regression: calculated based on statistical analysis using "Line of Least Square," which is a mathematical computation used to model a presumed linear relationship between two variables, a dependent variable (compensation element) and an independent variable (Market Cap) (peer analysis only). Market Consensus is the average of the Mean, Median, Trimmed Mean, and Regression and represents the best estimate of the market value (consensus) for the position. To calculate the overall Market Consensus, Compensation Resources calculated a weighted average of peer and published survey data at a ratio of 2:1.

Typically, the market range of base salary is conservatively considered to be $\pm 10\%$ of the market consensus. This range represents the central tendency of the market data. The range for total cash compensation is wider and usually varies by $\pm 20\%$ of the market consensus. The range for total direct compensation is $\pm 25\%$.

With respect to Mr. Zeitoun's compensation opportunity, Compensation Resources utilized the following figures: base salary of \$600,000; total cash compensation which includes base salary of \$600,000 plus an annual incentive opportunity of \$300,000 and an award option of \$50,000 for a total of \$950,000; and total direct compensation of \$950,000. Because equity grants in 2011 and 2012 were considered by the Compensation Committee to be one-time awards, Compensation Resources excluded them from the analysis. At the 50th percentile, Mr. Zeitoun's base salary and total cash compensation were well above the market consensus as of January 1, 2015 and his total direct compensation is within the market consensus. At the 75th percentile, Mr. Zeitoun's base salary and total cash compensation was within the market consensus as of January 1, 2015 and his total direct compensation is below the market consensus.

Mr. Concha, chairman of the Compensation Committee, indicated that the goal of the Compensation Committee with respect to Mr. Zeitoun's compensation was to provide incentives to Mr. Zeitoun consistent with the desires of shareholders. He noted the difficulties of finding good comparables for Mr. Zeitoun's compensation and said that compensating Mr. Zeitoun under a strategic leadership model may be more useful.

Thereafter, the directors discussed with Mr. Zeitoun present and later at great length in executive session without Mr. Zeitoun, the structure and amount of Mr. Zeitoun's 2015 bonus.

It was preliminarily decided at a time when Mr. Zeitoun was not present that Mr. Zeitoun's bonus would be broken into two parts, one part related to revenues and the other to the achievement of non-revenue goals. The total amount of the possible bonus compensation to Mr. Zeitoun would be \$500,000, with the last \$100,000 of revenue-based compensation being paid in stock or options and the maximum amount of the revenue-based bonus payable at \$5 million in revenues, which could include the amount of firm commitment and take-and-pay arrangements.

It was determined that Mr. Zeitoun should prepare goals and objectives and submit them to the Compensation Committee and the Board for approval. At the same time that the Compensation Committee and the Board approved the personal goals, it would approve the amounts of the bonus allocated to personal goals and the revenues, the percentages of the revenue-based amounts to be paid on partial achievement of the revenue based-goals, and the revenue points at which such amounts would be paid.

On February 4, 2015, the Compensation Committee reported to the Board that, between December 9, 2014 and February 4, 2015, it met several times and had discussed and approved the following compensation proposal for Mr.

Zeitoun (“Zeitoun Compensation Proposal”): Salary of \$600,000, potential bonus of \$500,000 of which 40% would depend on the achievement of four personal goals and 60% would be dependent on revenues. If revenues were below \$2 million, no revenue-based bonus would be paid; if between \$2 million and \$2,999,999, \$100,000 in cash would be paid; if between \$3 million and \$3,999,999, a total of \$150,000 would be paid; if between \$4 million and \$4,999,999, a total of \$200,000 in cash would be paid; if \$5 million or above, a total of \$200,000 in cash and \$100,000 in stock options would be paid.

Mr. Concha on behalf of the Compensation Committee explained (i) the revenue and non-revenue goals that the Compensation Committee had worked out with Mr. Zeitoun regarding Mr. Zeitoun’s 2015 bonus arrangements, (ii) salary and bonus amounts, and (iii) the reason for not awarding Mr. Zeitoun any equity compensation in respect of 2015, except for the \$100,000 in options.

Mr. Concha, on behalf of the Compensation Committee, recommended to the Board that the Board approve the revenue and non-revenue goals related to Mr. Zeitoun’s 2015 bonus as well as the salary and bonus arrangements.

Mr. Concha noted the Executive Compensation Study Update performed by Compensation Resources (the compensation consultant hired by the Compensation Committee) indicated that (i) at the 50th percentile, Mr. Zeitoun’s base salary and total cash compensation are well above the market consensus and his total direct compensation is within the market consensus and (ii) at the 75th percentile, Mr. Zeitoun’s base salary and total cash compensation are within the market consensus as of January 1, 2015 and his total direct compensation is below the market consensus.

There was a general discussion, with Mr. Zeitoun abstaining, of the goals and the compensation elements and amounts and relative mix of elements. After such discussion, the Board, with Mr. Zeitoun abstaining, adopted the Zeitoun Compensation Proposals.

In January, 2016 Mr. Zeitoun and the Board agreed that Mr. Zeitoun satisfied the metrics for the payment of the full bonus amount, but Mr. Zeitoun would receive a bonus for 2015 consisting of \$299,000 in cash and \$50,000 of five-year options.

2016 Compensation

In order to assist the Compensation Committee in setting the 2016 compensation, the Compensation Committee hired Compensation Resources, the same compensation consultant that the Committee had used in connection with 2014 and 2015. At a meeting with the Compensation Committee on December 8, 2015, Compensation Resources presented a written report. The report indicated that Compensation Resources redefined the peer group used in connection with Mr. Zeitoun's 2015 compensation.

The peer group was redefined to provide a "similar industry look." The peer group companies for purposes of 2016 compensation: (i) were involved in specialty chemical manufacturing, biotech and pharmaceuticals, software, and mining; (ii) were national in geographic location with compensation adjusted to New York City; (iii) had a market capitalization between \$20 million and \$75 million; and (iv) had less than 50 employees

The Compensation Consultant assumed that Mr. Zeitoun's compensation would consist of a base salary of \$500,000, a potential personal performance bonus of \$200,000 and a potential revenue goal bonus of \$100,000 for total direct compensation of \$800,000.

Based on such assumptions measured against the peer group, the Compensation Consultant provided the following findings:

			Market Range	Market Range		Relative Position
	Actual	Market Consensus	(+/-)	Low	High	
Base Salary	\$500,000	\$414,600	10%	\$373,100	\$465,100	Above
Total Cash Comp.	\$800,000	\$549,900	20%	\$439,900	\$659,900	Within
Total Direct Comp.	\$800,000	\$746,500	25%	\$559,900	\$933,100	Above

After extensive discussion, the Board decided upon the following compensation package for Mr. Zeitoun in 2016. Salary: \$350,000; bonus based on revenues: 4% of revenues up to a maximum bonus of \$150,000; bonus if the Company became cash flow positive: \$400,000; bonus based on personal goals: up to \$100,000, which would be payable in options if the cash flow goal is not met.

2017 Compensation

On March 8, 2017, the Board determined that Mr. Zeitoun's 2017 compensation is as follows: salary -- \$350,000; cash receipts bonus -- 4% of monthly gross cash receipts, up to a maximum bonus of \$150,000; revenue bonus -- \$100,000 if GAAP revenue exceeded \$6 million; cash flow bonus -- \$100,000 if the Company is cash flow positive for 2017. The cash receipts bonus was earned. The revenue and cash flow bonuses were not earned.

On August 18, 2017, options to purchase 11,910,772 shares of common stock were issued to Mr. Zeitoun. The options are ten-year options and the exercise price is \$0.06. Vesting conditions are as follows:

25% of the options would vest upon the closing of the sale of an aggregate of \$600,000 of units (consisting of a share of Common Stock and a warrant to buy .25 of a share of Common Stock) at \$0.04 per unit. This vesting condition has been satisfied.

25% of the options would vest upon the receipt of at least \$900,000 from one or more of the following sources: sale(s) of Common Stock over and above \$600,000, consideration for entering into licensing or similar agreement(s), and/or consideration for entering into agreement(s) relating to the sale or lease of minerals rights or entering into options or other agreements relating mineral rights..

25% of the options would vest when the Company has toll processing arrangements with two toll processors of halloysite that, in management's good faith belief, can process halloysite to the Company's specifications. One of the agreements may be a back-up or standby arrangement.

8.3% of the options if EBITDA is positive over a period of twelve months.

8.3% of the options if EBITDA equals or exceeds \$2 million over a period of twelve months.

The first three conditions were satisfied in 2017.

On December 7, 2017, the Board of Directors, on the recommendation of the Compensation Committee, granted to Mr. Zeitoun a bonus for service in 2017, and in particular for work on amendments to the Series A and Series 2023 Notes and the BASF supply and tolling agreements, of \$120,000. The bonus was payable in six monthly installments beginning in January, 2018 to the extent that in the judgment of the audit committee there is sufficient cash available for other corporate purposes. The bonus was fully paid as of June 29, 2018.

Compensation for Messrs. Gleeson and Carney

2015 Compensation for Messrs. Gleeson, and Carney

At the February 4, 2015, Board meeting, Mr. Concha, acting on behalf of the Compensation Committee, indicated that the Compensation Committee has discussed and approved a compensation proposal for certain employees, which included Messrs. Gleeson and Carney (“Management Compensation Proposals”) and that he had sent to each Board member who was not a member of the Compensation Committee a copy of the Management Compensation Proposals. Mr. Concha explained the revenue and non-revenue goals that the Compensation Committee, with the assistance of Mr. Zeitoun, had worked out. He also explained the proposed salary, bonus and equity compensation arrangements for senior management, which had the approval of Mr. Zeitoun.

Under the Management Compensation Proposals,

Salaries remained at 2014 levels.

Mr. Carney received ten-year at-the-market options to purchase 60,000 shares of common stock vesting annually over a three-year period.

Each of Messrs. Gleeson, and Carney would be eligible for possible bonus compensation of up to \$100,000; \$25,000 would be based on personal performance metrics; \$75,000 would be based on revenue goals. Revenues could include the amount of firm commitment and take-and-pay arrangements. The last \$25,000 based on revenue goals would be payable in five-year stock options. If revenues were below \$2 million, no revenue-based bonus would be paid; if between \$2 million and \$2,999,999, \$25,000 in cash would be paid; if between \$3 and \$3,999,999, a total of \$35,000 would be paid; if between \$4 million and \$4,999,999, a total of \$50,000 in cash would be paid; if \$5 million or more, A total of \$50,000 in cash and \$25,000 in stock options would be paid. Revenues in 2015, including a \$5 million take-or-pay agreement for the delivery of iron oxide over a period of 18 months, exceeded the \$5 million goal for the calculation of bonus arrangements.

Mr. Concha, on behalf of the Compensation Committee, recommended to the Board that the Board approve the revenue and non-revenue goals related to management’s 2015 bonus as well as the salary and bonus arrangements, all as set forth in the Senior Management Compensation Proposals. After a general discussion, the Board gave its approval.

No compensation consultant was used by the Board for the Management Compensation Proposals and no benchmarking against peers was used.

Revenues for 2015, including a \$5 million take-or-pay agreement for the delivery of iron oxide over a period of 18 months, exceeded the \$5 million goal for the calculation of bonus arrangements. In January, 2016, the Board reduced the total value of the bonuses to be paid to Messrs. Carney and Gleeson to \$75,000. Messrs. Carney and Gleeson would receive a bonus for 2015 consisting of \$75,000 of value to be paid, at their election, in stock, five-year options, or cash (up to \$37,500) or any combination thereof, payable on March 31, 2016. Each of Messrs. Carney and Gleeson elected to take \$37,500 in five year options and \$37,500 in cash

2016 Compensation

On December 9, 2016, the Board determined that the 2016 salary for Mr. Gleeson would be \$250,000 and the 2016 salary for Mr. Carney would be \$200,000.

On March 9, 2016, the Board determined that 2016 bonus arrangements for Messrs. Carney, and Gleeson would be as follows:

Up to \$25,000 based on achievement of personal goals and \$50,000 if (i) the Statement of Cash Flow from Operations in the audited financial statements for the year ended December 31, 2016, adjusted for purposes of determining whether bonuses are payable to assume payment of all such bonuses is positive (based upon the business being operated in the ordinary course consistent with past practices, in the judgment of the Compensation Committee) and (ii) the Compensation Committee believes that it is more likely than not that cash flow from operations in 2017 will be positive.

Payments would be made in cash within 15 days after the date of the audited financial statements, but in any case payment will be made, in all events, no later than June 30, 2017, except that if the bonus based on cash flow is not payable, the bonus based on personal goals will be, at the employee's election, paid in and combination of common stock and/or five or ten year options, the number of which will be determined using a Black-Scholes value as of the date of the audited financial statements (the value as approved by the Chairman of the Board) and the exercise price will be the closing price as of such date.

In July 2016, Mr. Carney volunteered to exchange \$50,000 of salary for options. Mr. Carney agreed to reduce his salary by \$50,000 in the period from August 15, 2016 to August 1, 2017 in exchange for options that had a Black Scholes value of approximately \$40,500. The options are three-year options, but in accordance with Mr. Carney's offer to exchange cash for options, the number of options was based on \$50,000

The cash flow goal was not met but the personal goals were met. In January, 2017, the Compensation Committee determined that the number of options would be determined by dividing \$25,000 by \$0.25 and the exercise price would be \$0.25 per option. At the time of grant, the market price of the stock was \$0.11 and the Black-Scholes value of the options was approximately \$0.034 per option.

2017 Compensation

In December, 2016, the Board on the recommendation of the Compensation Committee, determined as follows:

Mr. Carney's 2017 compensation was as follows: salary -- \$150,000 per annum through August 15, 2017 and a. \$200,000 per annum thereafter; revenue bonus -- \$25,000 if GAAP revenue exceeds \$6 million; cash flow bonus -- \$25,000 if the Company is cash flow positive for 2017. The bonuses were not paid.

b. Mr. Gleeson's 2017 compensation was as follows: salary -- \$250,000; revenue bonus -- \$25,000 if GAAP revenue exceeds \$6 million; cash flow bonus -- \$25,000 if the Company is cash flow positive for 2017.

None of the bonuses were earned or paid.

On August 18, 2017, 4,780,550 options to purchase Common Stock were granted to Mr. Carney and 3,748,439 options were granted to Mr. Gleeson. The vesting conditions and the relevant definitions are the same as vesting conditions and definitions described above relating to the options granted to Mr. Zeitoun on August 18, 2017.

On December 7, 2017, the Board of Directors, on the recommendation of the Compensation Committee, granted to each of Mr. Carney and Mr. Gleeson a bonus for service, in particular for work on amendments to the Series A and Series 2023 Notes and the BASF supply and tolling agreements, in 2017 of \$30,000. The bonuses were payable to the extent that in the judgment of the audit committee there is sufficient cash available for other corporate purposes. The bonuses have been paid.

Tax and Accounting Treatment of Compensation

The Compensation Committee is aware that Section 162(m) of the Internal Revenue Code treats certain elements of executive compensation in excess of \$1 million a year as an expense not deductible by the Company for federal income tax purposes. Depending on the market price of the Company's common stock on the date of exercise of options that are not performance-based, the compensation of certain executive officers in future years may be in

excess of \$1 million for purposes of Section 162(m). The Compensation Committee reserves the right to pay compensation that may be non-deductible to the Company if it determines that it would be in the best interests of the Company.

Tax and Accounting Treatment of Options

We are required to recognize in our financial statements compensation costs arising from the issuance of stock options. GAAP requires that such that compensation cost is determined using fair value principles (we use the Black-Scholes method of valuation) and is recognized in our financial statements over the requisite service period of an instrument. However, the tax deduction is only recorded on our tax return when the option is exercised. The tax benefit received at exercise and recognized in our tax return is generally equal to the intrinsic value of the option on the date of exercise.

Compensation Committee Report

The Compensation Committee has reviewed and discussed the Compensation Discussion and Analysis with management. Based on such review and discussions, the Compensation Committee recommended to the Board that the Compensation Discussion and Analysis be included in the Annual Report on Form 10-K and the proxy statement.

Part 5 Information concerning Independent Registered Public Accountant

Independent Registered Accountant for 2018

On October 4, 2018, MaloneBaily LLP was selected by our Audit Committee as the Company's independent accountant for the fiscal year ending December 31, 2018. The Board asks stockholders to ratify that selection. Although current law, rules, and regulations require the Board of Directors to engage and retain the Company's independent auditor, the Board considers the selection of the independent auditor to be an important matter of stockholder concern and is submitting the selection of MaloneBaily LLP for ratification by stockholders as a matter of good corporate practice.

The affirmative vote of holders of a majority of the shares of Common Stock cast in person or by proxy at the meeting is required to approve the ratification of the selection of MaloneBaily LLP as the Company's independent auditor for the current fiscal year. If a majority of votes cast does not ratify the selection of MaloneBaily LLP, the Board of Directors will consider the result a recommendation to consider the selection of a different firm.

Representatives of the MaloneBaily LLP are expected to be present at the Annual Meeting, will have the opportunity to make a statement if they desire to do so, and such representatives are expected to be available to respond to appropriate questions.

There were no disagreements with EisnerAmper on any matter of accounting principles or practices, financial statement disclosure, or auditing scope or procedure, which disagreement(s), if not resolved to the satisfaction of

Under the policy, any services provided by the independent registered public accounting firm, including audit, audit-related, tax and other services must be specifically pre-approved by the Board of Directors. The Board of Directors does not delegate responsibilities to pre-approve services performed by the independent registered public accounting firm to management. OUR BOARD OF DIRECTORS RECOMMENDS A VOTE

FOR THE ELECTION TO THE BOARD OF EACH OF THE NOMINEES.

Proposal 2: Advisory Vote on Executive Compensation

As required by Section 14A of the Securities and Exchange Act of 1934, we are asking for your approval of the following resolution (the “Say-on-Pay” resolution):

RESOLVED, that the stockholders approve, in a nonbinding vote, the compensation of the Company’s Named Executive Officers.

At the Annual Meeting in 2015, the vote on the “Say-on-Pay” resolution (the advisory, non-binding vote on executive compensation) was FOR 33,329,844, AGAINST 18,893,595 and ABSTAIN 88,369. 63.9% of the shares voting either FOR or AGAINST voted FOR. While stockholders approved the Say-on-Pay resolution, a favorable vote of 63.9% is, relatively speaking, rather low. Such a percentage could be presumed to reflect a negative view on the Board’s handling of executive compensation from holders of a significant percentage of the shares voted.

The Board of Directors believes that the actions it has taken since the 2015 Annual Meeting (as described below) have more properly aligned executive pay with executive performance and have been responsive to the negative stockholder sentiments that may have been expressed in the Say-on-Pay vote at the 2015 Annual Meeting.

Reductions in 2015 Bonus Compensation

At the beginning of 2015, potential bonus compensation for 2015 was set for each of the Named Executive Officers.

Mr. Zeitoun's potential bonus was \$500,000, of which \$200,000 was related to predetermined personal performance goals and \$300,000 (including \$100,000 payable in options) was related to a predetermined revenue goal.

Mr. Carney's and Mr. Gleeson's potential bonuses were \$100,000, of which \$25,000 was related to predetermined personal performance goals and \$75,000 (including \$25,000 payable in options) was related to predetermined revenue goals. Their revenue goal was the same as Mr. Zeitoun's.

The 2015 revenue goal for the officers was satisfied.

After the 2015 Annual Meeting, the Board negotiated with Mr. Zeitoun an arrangement whereby Mr. Zeitoun agreed to a cash bonus of \$299,000 and \$50,000 bonus payable in options.

The Board also cut the maximum bonuses for Messrs. Carney and Gleeson to \$75,000 from \$100,000, of which only \$37,500 could be taken in cash and the remainder would be paid in options (both Messrs. Carney and Gleeson took \$37,500 in cash).

The restructured bonuses represented reductions of

\$101,000 in Mr. Zeitoun's 2015 potential cash bonus (20% reduction) and \$50,000 (50% reduction) in his potential option bonus; and
\$37,500 (50% reduction) in the 2015 potential cash bonus and \$25,000 (25% reduction) in total potential bonus for each of Messrs. Carney and Gleeson.

Reductions in 2016 Compensation as Compared to 2015 Compensation

2016 cash compensation and 2016 total compensation for the Named Executive Officers represented significant reductions in comparison to 2015 cash compensation and 2015 total compensation. Details about 2015 and 2016 compensation are set forth below.

2015 Compensation

	Cash Bonus		Bonus Paid in		February	Total 2015	Total 2015
2015	for 2015	Total 2015 Cash	Options in 2016	for 2015	2015	Option Compensation	Compensation
Salary	Performance	Compensation	for 2015	performance (1)	Option Grant (1)	(1)	(1)
Zeitoun	\$600,000	\$299,000	\$899,000	\$50,000		\$50,000	\$949,000
Gleeson	\$300,000	\$37,500	\$337,500	\$37,500		\$37,500	\$375,000
Carney	\$200,000	\$37,500	\$237,500	\$37,500	\$16,562 (2)	\$54,062	\$291,062

(1) Option values are based on Black Scholes value at the date of grant.

(2) Option grant was not tied to any performance goals, past or future

For 2016, the Board cut the salaries from 2015 levels as follows: Mr. Zeitoun -- 42% reduction: (from \$600,000 to \$350,000) and Mr. Gleeson -- 16% reduction (from \$300,000 to \$250,000). Mr. Carney agreed to take options in lieu of 25% of his salary for one year (\$50,000) beginning in August, 2016.

Mr. Zeitoun's 2016 compensation arrangement included a revenue-based bonus of up to \$150,000 (4% of revenues up to \$4 million up to a \$150,000 bonus) and he was paid that amount in full.

The Board agreed to pay performance bonuses to the Named Executive Officers based on financial performance and personal goals. The financial performance bonus required management to cause the Company to perform at a high level in comparison to prior years, the standard for payment of the bonus being sustainable cash flow breakeven after payment of the bonuses. The cash flow performance bonus was structured on an “all-or-nothing” basis.

If the Company were to reach cash flow breakeven, the entire bonuses (both for financial performance and for personal goals) would have been payable in cash, but if cash flow goal was not met, any bonus for achievement of personal goals would be payable in options. The cash flow goal was not met.

Mr. Zeitoun’s total maximum bonus for 2016 was \$500,000. 80% of Zeitoun’s bonus was based on achievement of cash flow goals and 20% was based on achievement of personal goals. The cash flow goals were not met. No bonus for achievement of personal goals will be paid, although no determination was made as to the achievement of personal goals.

The maximum total bonus for each of Messrs. Carney and Gleeson was \$75,000, two-thirds of which is based on the cash flow goal and one-third was based on for personal goals. The cash flow goals were not met. No bonus for achievement of personal goals will be paid, although no determination was made as to the achievement of personal goals.

The following table sets forth 2016 compensation taking into account that the breakeven cash flow goal was not be met and assuming that the Board will determine that the 2016 personal goals were achieved and the full personal goal bonuses will be paid in options, the number of which are calculated using Black-Scholes valuation.

2016 Compensation

	2016 cash bonus based on revenue (1)	Total 2016 cash compensation (2)(3)	Reduction in cash compensation 2015 to 2016	2016 option grant in lieu of salary	Bonus payable in options	Reduction in total compensation 2015 to 2016
Zeitoun	\$350,000	\$150,000	\$500,000	<i>\$399,000 or 44%</i>	\$0	<i>\$550,000 or 57%</i>
Gleeson	\$250,000	\$250,000		<i>\$87,500 or 26%</i>	\$0	<i>\$125,000 or 33%</i>

Carney \$181,250 (4) \$181,250(4) **\$56,250 or 23%** \$18,750 (4) \$0 **\$91,062 or 31%**

1. Mr. Zeitoun's revenue-related bonus was 4% of the first \$4 million in revenues up to \$150,000. The revenue goal was fully achieved.

Bonuses payable in cash, but if cash flow goal was not met, any bonus for achievement of personal goals would be payable in options. 80% of Zeitoun's bonus was based on achievement of cash flow goal and 20% was based on achievement of personal goals. Others' fractions were two-thirds for cash flow goal and one-third for personal goals. No bonus for achievement of personal goals will be paid, although no determination was made as to the achievement of personal goals.

3. The cash flow goal was met and no cash bonus based on cash flow breakeven was paid.

Mr. Carney's salary was at the rate of \$200,000 per year for first 7.5 months of 2016 and was at the rate of \$150,000 for the final 4.5 months. Mr. Carney agreed to reduce his salary by \$50,000 in the period from August 15, 2016 to August 15, 2017 in exchange for options that had a Black Scholes value of approximately \$40,500. The options are three-year options, but in accordance with Mr. Carney's offer to exchange cash for options, the number of options was based on \$50,000 divided by the Black Scholes value of five-year options.

2017 Compensation

In March 2017, on recommendation of the Compensation Committee, the Board determined the compensation of the Named Executive Officers would be as follows:

Mr. Zeitoun's 2017 compensation is as follows: salary -- \$350,000; cash receipts bonus -- 4% of monthly gross cash receipts, up to a maximum bonus of \$150,000; revenue bonus -- \$100,000 if GAAP revenue exceeds \$6 million; cash flow bonus -- \$100,000 if the Company is cash flow positive for 2017.

Mr. Carney's 2017 compensation is as follows: salary -- \$150,000 per annum until August 15, 2017 and \$200,000 thereafter; revenue bonus -- \$25,000 if GAAP revenue exceeds \$6 million;; cash flow bonus -- \$25,000 if the Company is cash flow positive for 2017.

Mr. Gleeson's 2017 compensation is as follows: salary -- \$250,000; revenue bonus -- \$25,000 if GAAP revenue exceeds \$6 million; cash flow bonus -- \$25,000 if the Company is cash flow positive for 2017.

Mr. Zeitoun was paid the revenue bonuses. Because the thresholds were not achieved, none of the other bonuses were paid to any Named Executive Officer.

On August 18, 2017, on the recommendation of the Compensation Committee, the Board, in order that the Named Executive Officers would be properly motivated to take action that would increase value for stockholders, granted options to Named Executive Officers as follows: Andre Zeitoun: 12,910,772 options; Christopher Carney: 4,780,550 options; William Gleeson: 3,749,439 options. The options are ten-year options and the exercise price is \$0.06. Vesting conditions are as follows: (i) 25% of the options will vest upon the closing of the sale of an aggregate of \$600,000 of units (consisting of one share of Common Stock and a warrant to purchase .25 of a share of Common Stock) at \$.04 per unit (this goal has been achieved); (ii) 25% of the options will vest upon the receipt of at least \$900,000 from one or more of the following sources: sale(s) of Common Stock over and above \$600,000, consideration for entering into licensing or similar agreement(s), and/or consideration for entering into agreement(s) relating to the sale or lease of minerals rights or entering into options or other agreements relating mineral rights; (iii) 25% of the options will vest when the Company has toll processing arrangements with two toll processors of halloysite that, in management's good faith belief, can process halloysite to the Company's specifications (one of the agreements may be a back-up or standby arrangement); (iv) 8.3% of the options if EBITDA is positive over a period of twelve months; (v) 8.3% of the options if EBITDA equals or exceeds \$2 million over a period of twelve months; and (vi) 8.3% of the options if EBITDA equals or exceeds \$4 million over a period of twelve months. The vesting under the first three conditions need not be sequential and the vesting under fourth and fifth or under the fourth, fifth, and sixth, or the fifth and sixth can occur simultaneously. EBITDA is defined as operating income plus depreciation and amortization expense plus non-cash expense plus any unusual, one-time expense incurred during the period.

The options were granted under the 2017 Incentive Plan , which was adopted on August 18, 2017 by the Board of Directors. Forty million shares of Common Stock are subject to the plan.

On December 7, 2017, the Board of Directors, on the recommendation of the Compensation Committee, granted to Mr. Zeitoun a bonus for service in 2017 of \$120,000, and in particular for work on amendments to the Series A and Series 2023 Notes and the BASF supply and tolling agreements, and to each of Mr. Carney and Mr. Gleeson a bonus for service in 2017,. The bonuses were paid in 2018

2018 Compensation

2018 salaries for the Named Executive Officers are as follows: Mr. Zeitoun: \$350,000; Mr. Carney: \$200,000; Mr. Grleeson; \$250,000. There are no arrangements or understandings under which the Board would award equity compensation in 2018 or pay bonuses for 2018 performance, but the Board reserves the award equity compensation or pay bonuses if it deems appropriate.

Approval of the advisory vote on executive compensations requires a majority of votes cast.

OUR BOARD UNANIMOUSLY RECOMMENDS VOTING

“FOR” ON THE ADVISORY VOTE ON EXECUTIVE COMPENSATION

Proposal 3: Advisory Vote on Frequency of Future Advisory Vote on Named Executive Officer Compensation

As described in Proposal No. 2 above, the Company’s stockholders are being provided the opportunity to cast an advisory vote on the compensation of the Company’s named executive officers.

This Proposal No. 3 affords stockholders the opportunity to cast an advisory vote on how often the Company should include an advisory vote on executive compensation in its proxy materials for future annual stockholder meetings (or special stockholder meeting for which the Company must include executive compensation information in the proxy statement for that meeting). Under this Proposal No. 3, stockholders may vote to have the advisory vote on executive compensation held every one year, every two years or every three years.

Our Board of Directors believes that advisory votes on executive compensation should be conducted every year so that stockholders may annually express their views on the Company's executive compensation program. The Compensation Committee and the Board value the opinions expressed by stockholders in these votes and will consider the outcome of these votes when making future compensation decisions for our Named Executive Officers.

This proposal on the frequency of future advisory votes on executive compensation is advisory only and will not be binding on the Company or our Board. In voting on this proposal, you will be able to indicate your preference regarding the frequency of future advisory votes on executive compensation by specifying a choice of one year, two years or three years. If you do not have a preference regarding the frequency of future advisory votes on executive compensation, you should abstain from voting on the proposal. Stockholders are not voting to approve or disapprove the Board's recommendation. Although non-binding, the Board and the Compensation Committee will carefully review the voting results. Notwithstanding the Board's recommendation and the outcome of the stockholder vote, the Board may in the future decide to conduct advisory votes on executive compensation on a more or less frequent basis and may vary practice based on factors such as discussions with stockholders and the adoption of material changes to the Company's executive compensation program.

OUR BOARD OF DIRECTORS RECOMMENDS A VOTE TO HOLD FUTURE ADVISORY VOTES ON EXECUTIVE COMPENSATION EVERY ONE YEAR (AS OPPOSED TO EVERY TWO YEARS OR EVERY THREE YEARS).

Proposal 4: Ratification of Independent Auditor

The Audit Committee has selected MaloneBaily LLP as the Company's independent auditor for fiscal year 2018, and the Board asks stockholders to ratify that selection.

**OUR BOARD OF DIRECTORS RECOMMENDS A VOTE
FOR RATIFICATION OF THE INDEPENDENT AUDITOR.**
