JOSHUA GOLD RESOURCES INC.

(A Development Stage Corporation)

NOTES TO FINANCIAL STATEMENTS

FOR THE SIX MONTHS ENDED JUNE 30, 2011

(UNAUDITED)

1. Nature of Operations

Joshua Gold Resources Inc. (until February 10, 2011 known as Bio-Carbon Systems International Inc., collectively referred to herein as "Joshua", or the "Company"), was incorporated on July 10, 2009 in the State of Nevada.

The Company operates as a mineral exploration business located in Oakville, Ontario. Its principal business activity is the acquisition, exploration and development of mineral property interests in Canada. The Company is considered to be in the exploration stage and substantially all of the Company's efforts are devoted to financing and developing these property interests. There has been no determination whether the Company's interests in unproven mineral properties contain mineral reserves which are economically recoverable.

On December 23, 2010, the Company optioned a 1,550 acre mineral lease in the Canadian territory, the Northwest Territories, two hours north-north-west of the capital city of Yellowknife.

2. Basis of Presentation

The accompanying unaudited interim consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Security and Exchange Commission ("SEC") Form 10-Q and Article 8 of SEC Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and six months ended June 30, 2011 are not necessarily indicative of the results that may be expected for the year ending December 31, 2011.

3. Going Concern

The financial statements have been prepared on a going concern basis. The going concern basis of presentation assumes that the Company will continue operations for the foreseeable future and will be able to realize its assets and discharge its liabilities and commitments in the normal course of operation.

The Company has incurred a net loss of \$63,796 for the six months ended June 30, 2011, and a working capital deficit of \$209,442. This casts doubt on the Company's ability to continue as a going concern unless it can generate net profit and raise adequate financing.

The Company has been seeking additional debt or equity financing to support its operations until it becomes cash flow positive. There can be no assurances that action and plan such as above will be sufficient for the Company to continue operating as a going concern.

The financial statements do not include any adjustments relating to the recoverability and classification of recorded asset amounts or amounts classified as liabilities that might be necessary should the Company be unable to continue in existence. These adjustments could be material.

4. Deposit on Mineral Rights

On June 25, 2011 the Company entered into a Mineral Property Acquisition Agreement with Firelake Resources Inc. whereby it acquired certain mineral interests in the townships of Eric and Huffman in the Province of Ontario. Consideration for the mineral interests is as follows:

1. CDN \$50,000 to be paid in two equal installments of CDN \$25,000 on January 31, 2012 and January 31, 2013.
2. 2,000,000 shares of common stock to be issued before January 31, 2012
3. Royalty of 2% of all net smelter returns upon commencement of commercial production at the property.

The Company has paid an advance against the required installments of \$6,240 (CDN \$6,000). The Company will record the full price of the acquisition when all conditions of the agreement are met.

5. Related Party Transactions

During the six months ended June 30, 2011, shareholders advanced \$129,282 (six months ended June 30, 2010 - \$Nil) to fund the Company's working capital from continuing operations. As of June 30, 2011 the Company has total advances from shareholders of \$168,993 (December 31, 2010 - \$39,711) which bear interest at an annual rate of 12%.

6. Subsequent Events

Events that have occurred subsequent June 30, 2011 have been evaluated through the date of filing these financial statements. There have been no subsequent events that occurred during such period that would require disclosure in these financial statements or would be required to be recognized in the financial statements as of or for the six months ended June 30, 2011.

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operation.

Forward Looking Statements

Certain statements, other than purely historical information, including estimates, projections, statements relating to our business plans, objectives, and expected operating results, and the assumptions upon which those statements are based, are "forward looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995, Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements generally are identified by the words "believes", "project", "expects", "anticipates", "estimates", "intends", "strategy", "plan", "may", "will", "would", "will be", "will continue", "will likely result", and similar words. We intend such forward-looking statements to be covered by the safe-harbor provisions for forward-looking statements contained in the Private Securities Litigation Reform Act of 1995, and we are including this statement for purposes of complying with those safe-harbor provisions. Forward-looking statements are based on current expectations and assumptions that are subject to risks and uncertainties which may cause actual results to differ materially from the forward-looking statements. Our ability to predict results or the actual effect of future plans or strategies is inherently uncertain. Factors which could have a material adverse affect on our operations and future prospects on a consolidated basis include, but are not limited to: changes in economic conditions, legislative/regulatory changes, availability of capital, interest rates, competition, and generally accepted accounting principles. These risks and uncertainties should also be considered in evaluating forward-looking statements and undue reliance should not be placed on such statements. We undertake no obligation to update or revise publicly any forward-looking statements, whether as a result of new information, future events or otherwise. Further information concerning our business, including additional factors that could materially affect our financial results, is included herein and in our other filings with the SEC.

Overview

With respect to this discussion, the terms "we" "us" "our" and the "Company" refer to Joshua Gold Resources Inc.

(a) Corporate History and Background.

We were incorporated in the State of Nevada on July 10, 2009. Prior to the Stock Purchase transaction described below in this Item 2, our business purpose was to seek the acquisition of or merger with, an existing private company. Accordingly, we were engaged in organizational efforts in order to put us in a position where we could seek to target and eventually acquire an existing private company.

On June 4, 2010, Ben Fuschino, our sole officer and director at that time, sold his 35,000,000 shares of the Company's common stock, which shares represented 100% of our issued and outstanding common stock, to Luc Duchesne and Robert Cormier for a total purchase price of \$7,000 (the "Stock Purchase"). Upon closing of the Stock Purchase, (i) Mr. Duchesne and Mr. Cormier held a controlling 100% ownership in the Company, (ii) we changed our business and became a start-up carbon measuring company and (iii) we changed our name to Bio-Carbon Systems International Inc. to better reflect our new business enterprise.

Immediately after the closing of the Stock Purchase, on June 4, 2010, we entered into a license agreement (the "Cormier License") with R&B Cormier Enterprises Inc. ("Cormier Enterprises"), an Ontario corporation and a license

agreement (the “GSN License”) with GSN Dreamworks, Inc., an Ontario corporation (“GSN”). The Cormier License and GSN License (collectively, the “License Agreements”) granted the Company licensed intellectual property and technology to conduct airborne and other surveys of forested lands in areas that are difficult to access. Those surveys would have been conducted in a statistically verifiable process designed for use in carbon trading programs to assess the potential value of the surveyed lands as carbon sequestration land parcels in carbon trading, carbon sequestration, and other greenhouse gas emission control, offset and reduction programs.

Also, on June 4, 2010, the Company entered into consulting agreements (collectively, the “Consulting Agreements”) with Mr. Duchesne and Mr. Cormier, pursuant to which Mr. Duchesne and Mr. Cormier agreed to provide the Company with management and advisory services with respect to the intellectual property licensed to the Company under the Cormier and GSN Licenses.

On December 23, 2010, the Company elected to terminate the License Agreements and Consulting Agreements as the Company determined that conditions were not in place for the successful exploitation of the technology covered by the License Agreements. The termination did not give rise to any penalties against the Company as the termination was concluded through a mutual agreement of separation.

(b) Current Business of Issuer.

Upon termination of the aforementioned License and Consulting Agreements, the Company abandoned the carbon measuring business and became a mineral exploration company located in Chapleau, Ontario through the acquisition of a mineral rights lease, as described in further detail below. The Company’s principal business activity now is the acquisition, exploration and development of mineral property interests. The Company is considered to be in the exploration stage and substantially all of the Company’s efforts are devoted to financing and developing mineral property interests. There has been no determination whether the Company’s interests in unproven mineral properties contain mineral reserves which are economically recoverable.

On December 23, 2010, the Company entered into a mineral property acquisition agreement (the “2214098 Acquisition Agreement”) with 2214098 Ontario Ltd. (“2214098”) whereby the Company purchased from 2214098 the mining lease for a certain property located 195 kilometers north-northwest of the City of Yellowknife, N.W.T, on the west shore of Damoti Lake in the Indin Lake Greenstone Belt and known as a claim BR2 (the “Carson Property”). The term of the lease runs until June 30, 2024. The lease is registered at the Northwest Territories Mining Recorder as mining lease 3446 and covers an area of approximately 1,550 acres. Management believes that the Carson Property could potentially host economic gold deposits and, upon expert opinion of their geologists, warrants continued mineral exploration on the property.

In December of 2010, the Company retained an independent geological firm, Aurora Geosciences Inc. to visit the Carson Property and write an evaluation report under Canada’s National Instrument 43-101 guidelines. Management, upon the recommendation of Mr. David White, the qualified person who completed the National Instrument 43-101 report, has committed to a phased exploration of the Carson Property upon attainment of sufficient capital. Management is currently preparing an exploration budget based on this recommendation.

Additionally, on June 25, 2011, the Company entered into a mineral property acquisition agreement (the “Fire Lake Acquisition Agreement”) with Fire Lake Resources Inc. (“Fire Lake”) whereby the Company agreed to purchase from Fire Lake certain mineral interests located in the townships of Eric and Huffman in the Province of Ontario, Canada (the “Eric and Huffman Property”) in consideration for the sum of Fifty Thousand and No/100 Dollars (CDN \$50,000) and Two Million (2,000,000) shares of common stock of the Company (the “Firelake Shares”), to be paid by Company to Fire Lake as follows: CDN \$25,000 on or before January 31, 2012; CDN \$25,000 on or before January 31, 2013; and delivery of the Fire Lake Shares on or before January 31, 2012. Additionally, upon commencement of commercial production of the Eric and Huffman Property, the Company will pay to Fire Lake a royalty equal to 2% of all net

smelter returns on minerals from the Property. CDN \$50,000 is approximately USD \$52,220 and CDN \$25,000 is approximately USD \$26,102.

Liquidity and Capital Resources

We are an exploration stage company focused on developing our business in the mineral exploration sector. Our principal business objective for the next twelve (12) months will be to continue to develop our business plan in this sector. As we have not commenced material operations, we have not earned any revenues.

As of August 16, 2011, we had cash on hand of \$2,168.40 and current liabilities of \$238,390. We do not have sufficient capital to operate our business and will require additional funding to sustain operations through December 2011. There is no assurance that we will be able to achieve revenues sufficient to become profitable.

We have incurred losses since inception and our ability to continue as a going concern depends upon our ability to develop profitable operations and to continue to raise adequate financing. We are actively targeting sources of additional financing to provide continuation of our operations. In order for us to meet our liabilities as they come due and to continue our operations, we are solely dependent upon our ability to generate such financing.

There can be no assurance that the Company will be able to continue to raise funds, in which case we may be unable to meet our obligations and we may cease operations.

Results of Operations

As we are an exploration stage company, we are not yet operational; therefore, we do not have any operations to report at this time. Our focus has been on the development of our business plan. All expenses to date have related to the development of our business plan and other expenses related to the daily operations of a public company.

Off-Balance Sheet Arrangements

We have not entered into any off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, changes in financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources and would be considered material to investors.

Inflation

We do not believe that inflation has had in the past or will have in the future any significant negative impact on our operations.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

As we are a smaller reporting company, we are not required to provide the information required by this item.

Item 4. Controls and Procedures.

(a) Evaluation of disclosure controls and procedures.

We maintain disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) that are designed to assure that information required to be disclosed in our Exchange Act reports is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to management, including our Chief Executive Officer and Chief Financial Officer, as appropriate, to allow timely decisions regarding required disclosures. As required by Exchange Act Rule 13a-15(b), as of the end of the period covered by this report, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, we evaluated the effectiveness of our disclosure controls and procedures and concluded that our disclosure controls and procedures are ineffective as of the date of filing this Form 10-Q due to limited accounting and reporting personnel, inadequate accounting policies and procedures, and a lack of segregation of duties due to limited financial resources and the size of our company. We will need to adopt additional disclosure controls and procedures prior to commencement of material operations. Consistent therewith, on an on-going basis we will evaluate the adequacy of our controls and procedures.

(b) Changes in internal control over financial reporting.

There were no changes in our internal control over financial reporting during the last fiscal quarter covered by this report that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II---OTHER INFORMATION

Item 1. Legal Proceedings.

There are no legal proceedings that have occurred within the past five years concerning our directors or control persons which involved a criminal conviction, a criminal proceeding, an administrative or civil proceeding limiting one's participation in the securities or banking industries, or a finding of securities or commodities law violations.

Item 1A. Risk Factors.

As we are a smaller reporting company, we are not required to provide the information required by this item.

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

(a) Unregistered Sales of Equity Securities.

Pursuant to the terms and conditions of that certain Firelake Acquisition Agreement entered into on June 25, 2011, we agreed to issue, on or before January 31, 2012, Two Million (2,000,000) shares of the Company's common stock to Firelake Resources Inc. in partial consideration for the acquisition by Company of the Eric and Huffman Property.

The transaction described above was exempt from registration pursuant to Section 4(2) of the Securities Act of 1933, as amended.

(b) Use of Proceeds.

Not Applicable.

(c) Affiliated Purchases of Common Stock.

None.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. (Removed and Reserved).

Item 5. Other Information.

None.

Item 6. Exhibits.
