(Registrant's telephone number, including area code)

Not Applicable

(Former name, former address and former fiscal year, if changed since last report)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. [X] Yes [] No

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). [X] Yes [] No

Edgar Filing: PROVECTUS BIOPHARMACEUTICALS, INC. - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of “large accelerated filer,” “accelerated filer,” “smaller reporting company,” and “emerging growth company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).
Yes No

The number of shares outstanding of the registrant’s common stock, par value \$0.001 per share, as of November 2, 2018, was 384,614,528.

Cautionary Note Regarding Forward-Looking Statements

This Quarterly Report on Form 10-Q contains “forward-looking statements” as defined under U.S. federal securities laws. These statements reflect management’s current knowledge, assumptions, beliefs, estimates, and expectations. These statements also express management’s current views of future performance, results, and trends and may be identified by their use of terms such as “anticipate,” “believe,” “could,” “estimate,” “expect,” “intend,” “may,” “plan,” “predict,” “will,” and other similar terms. Forward-looking statements are subject to a number of risks and uncertainties that could cause our actual results to materially differ from those described in the forward-looking statements. Readers should not place undue reliance on forward-looking statements. Such statements are made as of the date of this Quarterly Report on Form 10-Q, and we undertake no obligation to update such statements after this date, unless otherwise required by law.

Risks and uncertainties that could cause our actual results to materially differ from those described in forward-looking statements include those discussed in our filings with the Securities and Exchange Commission (including those described in Item 1A of Part I of our Annual Report on Form 10-K for the year ended December 31, 2017), and the following:

our potential receipt of sales from investigational drug products PV-10 and PH-10 (if and when approved), transaction fees, licensing and royalty payments, and/or payments in connection with the Company’s liquidation, dissolution or winding up, or any sale, lease, conveyance or other disposition of any intellectual property relating to our investigational drug products, and/or drug substance Rose Bengal (and/or any other halogenated xanthene);

our ability to raise additional capital; and

our ability to close on additional tranches of the financing from a group of the Company’s stockholders (the “PRH Group”) pursuant to the Definitive Financing Commitment Term Sheet we entered into with the PRH Group effective as of March 19, 2017.

PROVECTUS BIOPHARMACEUTICALS, INC.

NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

1. Business Organization, Nature of Operations and Basis of Presentation

Provectus Biopharmaceuticals, Inc., a Delaware corporation (together with its subsidiaries, “Provectus” or the “Company”), is a clinical-stage biotechnology company developing a new class of drugs for oncology and dermatology based on halogenated xanthenes. Intralesional PV-10 is undergoing clinical study for adult solid tumor cancers, like melanoma and gastrointestinal cancers, and preclinical study for pediatric cancers. Topical PH-10 is undergoing clinical study for inflammatory dermatoses, like psoriasis and atopic dermatitis. To date, the Company has not generated any revenues from planned principal operations. The Company’s activities are subject to significant risks and uncertainties, including failing to successfully develop and license or commercialize the Company’s prescription drug candidates.

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America (“GAAP”) for interim financial information pursuant to Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements and should be reviewed in conjunction with the Company’s audited consolidated financial statements included in the Company’s Form 10-K for the year ended December 31, 2017 filed with the U.S. Securities and Exchange Commission (the “SEC”) on March 23, 2018. In the opinion of management, all adjustments (consisting of normal recurring accruals) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2018 are not necessarily indicative of the results that may be expected for the year ending December 31, 2018.

2. Liquidity and Going Concern

The Company’s cash and cash equivalents were \$231,920 at September 30, 2018, compared with \$105,504 at December 31, 2017. The Company continues to incur significant operating losses. Management expects that significant on-going operating expenditures will be necessary to successfully implement the Company’s business plan and develop and market its products. These circumstances raise substantial doubt about the Company’s ability to continue as a going concern within one year after the date that these financial statements are issued. Implementation of the Company’s plans and its ability to continue as a going concern will depend upon the Company’s ability to develop PV-10 and PH-10 and to raise additional capital.

The Company plans to access capital resources through possible public or private equity offerings, including the 2017 Financing (as defined in Note 4), exchange offers, debt financings, corporate collaborations or other means. In addition, the Company continues to explore opportunities to strategically monetize its lead drug candidates, PV-10 and PH-10, through potential co-development and licensing transactions, although there can be no assurance that the Company will be successful with such plans. The Company has historically been able to raise capital through equity offerings, but no assurance can be provided that it will continue to be successful in the future. If the Company is unable to raise sufficient capital through the 2017 Financing or otherwise, it will not be able to pay its obligations as they become due. Subsequent to September 30, 2018, the Company received aggregate loans of \$100,000 in connection with the 2017 Financing. See Note 7 – Subsequent Events.

The primary business objective of management is to build the Company into a fully integrated global biotechnology company. The Company, however, cannot assure you that it will be successful in co-developing or licensing PV-10, PH-10, or any other halogenated xanthene-based drug candidate developed by the Company, or entering into any financial transaction. Moreover, even if the Company is successful in improving its current cash flow position, the Company nonetheless plans to seek additional funds to meet its long-term requirements in 2018 and beyond. The Company anticipates that these funds will otherwise come from the proceeds of private placement transactions, including the 2017 Financing, the exercise of existing warrants and outstanding stock options, or public offerings of debt or equity securities. While the Company believes that it has a reasonable basis for its expectation that it will be able to raise additional funds, the Company cannot provide assurance that it will be able to complete additional financing in a timely manner. In addition, any such financing may result in significant dilution to stockholders.

3. Significant Accounting Policies

The Company's significant accounting policies are disclosed in Note 3 – Significant Accounting Policies in the Company's Annual Report on Form 10-K for the year ended December 31, 2017. Since the date of the Annual Report, there have been no material changes to the Company's significant accounting policies, except as disclosed below.

Recent Accounting Pronouncements

In May 2017, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2017-09, "Compensation—Stock Compensation (Topic 718): Scope of Modification Accounting" ("ASU 2017-09"). ASU 2017-09 provides clarity on the accounting for modifications of stock-based awards. ASU 2017-09 requires adoption on a prospective basis in the annual and interim periods beginning after December 15, 2017 for share-based payment awards modified on or after the adoption date. The adoption of this ASU did not have a material impact on the Company's condensed consolidated financial statements.

In March 2018, the FASB issued ASU No. 2018-05, "Income Taxes (Topic 740), Amendments to SEC Paragraphs Pursuant to SEC Staff Accounting Bulletin No. 118" ("ASU 2018-05"). ASU 2018-05 adds various "SEC" paragraphs pursuant to the issuance of the December 2017 SEC Staff Accounting Bulletin No. 118, Income Tax Accounting Implications of the Tax Cuts and Jobs Act ("SAB 118"), which was effective immediately. The SEC issued SAB 118 to address concerns about reporting entities' ability to timely comply with the accounting requirements to recognize all of the effects of the Tax Cuts and Jobs Act in the period of enactment. SAB 118 allows disclosure that timely determination of some or all of the income tax effects from the Tax Cuts and Jobs Act are incomplete by the due date of the financial statements and if possible to provide a reasonable estimate. The Company has accounted for the tax effects of the Tax Cuts and Jobs Act under the guidance of SAB 118 and does not believe that the adoption of ASU 2018-05 will have a material impact on the Company's condensed consolidated financial statements or disclosures.

In June 2018, the FASB issued ASU No. 2018-07, “Compensation — Stock Compensation (Topic 718), Improvements to Nonemployee Share-Based Payment Accounting” (“ASU 2018-07”). ASU 2018-07 is intended to reduce cost and complexity and to improve financial reporting for nonemployee share-based payments. Currently, the accounting requirements for nonemployee and employee share-based payment transactions are significantly different. ASU 2018-07 expands the scope of Topic 718, Compensation — Stock Compensation (which currently only includes share-based payments to employees) to include share-based payments issued to nonemployees for goods or services. Consequently, the accounting for share-based payments to nonemployees and employees will be substantially aligned. This ASU supersedes Subtopic 505-50, Equity — Equity-Based Payments to Nonemployees. The amendments in this ASU are effective for public business entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2018. Early adoption is permitted, but no earlier than a company’s adoption date of Topic 606, Revenue from Contracts with Customers. The Company is currently evaluating ASU 2018-07 and its impact on the Company’s condensed consolidated financial statements.

In July 2018, the FASB issued Accounting Standards Update No. 2018-10, “Codification Improvements to Topic 842, Leases,” (“ASU 2018-10”). The amendments in ASU 2018-10 are to address stakeholders’ questions about how to apply certain aspects of the new guidance in ASC 842. The clarifications address the rate implicit in the lease, impairment of the net investment in the lease, lessee reassessment of lease classification, lessor reassessment of lease term and purchase options, variable payments that depend on an index or rate and certain transition adjustments. The amendments in ASC Topic 842 are effective for public business entities for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. The Company is currently in the process of evaluating its lease assets and lease liabilities to be recorded as of January 1, 2019. The Company continues to evaluate other provisions of the updated guidance and expects to complete its analysis by December 31, 2018.

In July 2018, the FASB issued Accounting Standards Update No. 2018-11, “Leases (Topic 842): Targeted Improvements,” (“ASU 2018-11”). The amendments in ASU 2018-11 related to transition relief on comparative reporting at adoption affect all entities with lease contracts that choose the additional transition method and the amendments in ASU 2018-11 related to separating components of a contract affect only lessors whose lease contracts qualify for the practical expedient. The amendments in ASC Topic 842 are effective for public business entities for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. The Company is currently in the process of evaluating its lease assets and lease liabilities to be recorded as of January 1, 2019. The company continues to evaluate other provisions of the updated guidance and expects to complete its analysis by December 31, 2018.

In August 2018, the FASB issued Accounting Standards Update No. 2018-13, “Fair Value Measurement (Topic 820): Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement (“ASU 2018-13”). The amendments in ASU 2018-13 modify the disclosure requirements on fair value measurements based on the concepts in the Concepts Statement, including the consideration of costs and benefits. The amendments on changes in unrealized gains and losses, the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements, and the narrative description of measurement uncertainty should be applied prospectively for only the most recent interim or annual period presented in the initial fiscal year of adoption. All other amendments should be applied retrospectively to all periods presented upon their effective date. The amendments are effective for all entities for fiscal years beginning after December 15, 2019, and interim periods within those fiscal years. Early adoption is permitted, including adoption in an interim period. The Company is currently evaluating ASU 2018-13 and its impact on its condensed consolidated financial statements.

Reclassifications

Certain accounts in the prior year’s condensed consolidated financial statements have been reclassified for comparative purposes to conform to the presentation in the current year’s condensed consolidated financial statements. These reclassifications have no effect on the previously reported net loss.

4. Convertible Notes Payable

On March 23, 2017, the Company entered into an exclusive Definitive Financing Commitment Term Sheet with a group of the Company's stockholders (the "PRH Group"), which was amended and restated effective as of March 19, 2017 (the "Term Sheet") that set forth the terms on which the PRH Group would use their best efforts to arrange for a financing of a minimum of \$10,000,000 and maximum of \$20,000,000 (the "2017 Financing").

The 2017 Financing is in the form of secured convertible loans (the "Loans") from the PRH Group or other investors in the 2017 Financing (the "Investors"). The Loans are evidenced by secured convertible promissory notes (individually a "PRH Note" and collectively, the "PRH Notes") from the Company to the PRH Group or the investors.

The principal amounts of the PRH Notes and the interest payable under the Loan would automatically convert into shares of the Company's Series D Preferred Stock at a price per share equal to \$0.2862 effective on the 18-month anniversary of the funding of the final tranche of the 2017 Financing subject to certain exceptions if the Company's Board of Directors (the "Board") designates such series of preferred stock in the future.

As of September 30, 2018, and through the date of filing, the Series D Preferred Stock had not been designated by the Board and, accordingly, the PRH Notes are not convertible into shares of Series D Preferred Stock. As a result, the Company did not analyze the Loan for a potential beneficial conversion feature as the definition of a firm commitment has not been met since the PRH Notes were not convertible as of their respective dates of issuance or as of September 30, 2018.

As of September 30, 2018, the Company had received aggregate Loans of \$13,362,000 in connection with the 2017 Financing from both non-related and related parties. For further details on the terms of the PRH Notes, refer to the Company's Annual Report on Form 10-K for the year ended December 31, 2017 as filed with the SEC on March 23, 2018.

Convertible Notes Payable – Related Parties

On February 21, 2017, the Company issued a promissory note in favor of Eric A. Wachter, Ph.D., the Company's Chief Technology Officer ("Wachter"), evidencing an unsecured loan from Wachter to the Company in the original principal amount of up to \$2,500,000 (the "Wachter Note"). Interest accrues on the outstanding balance of the Wachter Note at six percent (6%) per annum calculated on a 360-day basis. As of September 30, 2018, the Company had borrowed the entire \$2,500,000 under this note.

On April 3, 2017, the Company entered into a PRH Note with Cal Enterprises LLC, a Nevada limited liability company, an affiliate of Dominic Rodrigues, a director of the Company, in the principal amount of up to \$2,500,000. As of September 30, 2018, the Company had borrowed the entire \$2,500,000 under this note.

During the nine months ended September 30, 2018, the Company amended the above notes to modify the maturity date from 24 months to 18 months from the date of the funding of the final tranche of the 2017 Financing, which has yet to occur, in order to be consistent with the other outstanding PRH Notes. The actual maturity dates will be determined after the completion of the 2017 Financing.

During the nine months ended September 30, 2018, the Company entered into additional PRH Notes with related parties in the aggregate principal amount of \$1,350,000. As of September 30, 2018, the Company had drawn down the entire \$1,350,000 under these notes.

Convertible Notes Payable – Non-Related Parties

During the nine months ended September 30, 2018, the Company entered into additional PRH Notes with accredited investors in the aggregate principal amount of \$2,556,000. As of September 30, 2018, the Company had drawn down the entire \$2,556,000 under these notes. Included in these notes is one PRH Note totaling \$500,000 with terms of principal and interest due twenty-four (24) months from date of signing. This note will mature in June 2020.

5. Stockholders' Deficiency

Exercise of Warrants

During the nine months ended September 30, 2018, warrant holders exercised warrants to purchase an aggregate of 11,539,577 shares of common stock at a price of \$0.0533 per share. In connection with these exercises, the Company received aggregate cash proceeds of \$615,059 and issued 11,539,577 shares of common stock to the warrant holders.

Other Common Stock Issuances

During the nine months ended September 30, 2018, the Company issued 1,000,000 shares of common stock in payment of services with a grant date fair value of \$80,000. As the fair market value of the service was not readily determinable, the service was valued based on the fair market value of the stock at grant date.

6. Commitments, Contingencies and Litigation

Agreement with Clinical Operations Vendor

On April 18, 2018, the Company reached a settlement with a former clinical operations vendor whereby the Company received a credit of approximately \$1.7 million to be applied against amounts previously owed by the Company for services rendered. Such credit has been included as a reduction in research and development expenses on the Company's condensed consolidated statements of operations.

Culpepper Travel Expenses and Related Collection Efforts

On December 27, 2016, the Board unanimously voted to terminate Peter R. Culpepper ("Culpepper"), effective immediately, from all positions he held with the Company and each of its subsidiaries, including interim Chief Executive Officer and Chief Operating Officer of the Company, "for cause", in accordance with the terms of the Amended and Restated Executive Employment Agreement entered into by Culpepper and the Company on April 28, 2014 (the "Culpepper Employment Agreement") based on the results of the investigation conducted by the Audit Committee of the Board regarding improper expense reimbursements to Culpepper.

The Audit Committee retained independent counsel and an advisory firm with forensic accounting expertise to assist the Audit Committee in conducting the investigation. The Audit Committee found that Culpepper received \$294,255 in expense reimbursements that were unsubstantiated or otherwise improper. The Company seeks to recover from Culpepper the entire \$294,255 in expense reimbursements, as well as all attorney's fees and auditors'/experts' fees incurred by the Company in connection with the examination of his expense reimbursements. On December 12, 2017, Culpepper agreed to an order by the SEC to pay disgorgement of \$140,115, and prejudgment interest of \$12,261, for a total of \$152,376, to the Company within 30 days. The Company received the payment of \$152,376 in January 2018.

The Company took the position that under the terms of the Culpepper Employment Agreement, Culpepper is owed no severance payments as a result of his termination "for cause" as that term is defined in the Culpepper Employment Agreement. Furthermore, Culpepper is no longer entitled to the 2:1 credit under the Stipulated Settlement Agreement and Mutual Release in the Kleba shareholder derivative lawsuit (the "Derivative Lawsuit Settlement") such that the total \$2,240,000 owed by Culpepper pursuant to the Derivative Lawsuit Settlement plus Culpepper's proportionate share of the litigation cost in the amount of \$227,750, less the amount that he repaid as of December 31, 2016, is immediately due and payable. The Company sent Culpepper a notice of default in January 2017 for the total amount he owes the Company and is in the process of pursuing these claims in accordance with the alternative dispute resolution provision of the Culpepper Employment Agreement. The Company has established a reserve of \$2,051,083 as of September 30, 2018 and December 31, 2017, which amount represents the amount the Company currently believes Culpepper owes

to the Company under the Derivative Lawsuit Settlement (excluding the amount of attorneys' fees incurred in enforcing the terms of the Derivative Lawsuit Settlement), while the Company pursues collection of this amount.

Culpepper disputed that he was terminated "for cause" under the Culpepper Employment Agreement. Pursuant to the alternative dispute resolution provisions of that agreement, the Company and Culpepper participated in a mediation of their dispute on June 28, 2017. Having reached no resolution during the mediation, the parties participated in arbitration under the commercial rules of the American Arbitration Association, arbitrating both Culpepper's claim for severance against the Company and the Company's claims against Culpepper for improper expense reimbursements and amounts Culpepper owes the Company under the Derivative Lawsuit Settlement (the "Culpepper Arbitration"). The Culpepper Arbitration hearing was held from May 15, 2018 through May 18, 2018.

On July 12, 2018, the arbitrator issued an interim award in favor of the Company, the terms of which are confidential pursuant to the terms of the Culpepper Employment Agreement and instructed the parties that a final award was forthcoming. On September 12, 2018, the arbitrator issued its final award in favor of the Company. On October 4, 2018, the Company filed a petition with the Chancery Court for Davidson County, Tennessee to confirm the arbitration award. On November 7, 2018, the Company received Culpepper's answer to the petition filed on October 4, 2018. The Company is reviewing the response.

The Bible Harris Smith Lawsuit

On November 17, 2016, the Company filed a lawsuit in the Circuit Court for Knox County, Tennessee (the “Tennessee Circuit Court”) against Bible Harris Smith PC (“BHS”) for professional negligence, common law negligence and breach of fiduciary duty arising from accounting services provided by BHS to the Company. The Company alleges that between 2013 and 2015, H. Craig Dees, Ph. D (“Dees”), the Company’s former Chairman and Chief Executive Officer, received approximately \$2.4 million in advanced or reimbursed travel and entertainment expenses from the Company and that Dees did not submit back-up documentation in support of substantially all of the advances he received purportedly for future travel and entertainment expenses. The Company further alleges that had BHS provided competent accounting and tax preparation services, it would have discovered Dees’ failure to submit back-up documentation supporting the advanced travel funds at the inception of Dees’ conduct, and prevented the misuse of these and future funds. The Company has made a claim for damages against BHS in an amount in excess of \$3 million. The complaint against BHS has been filed and served, an answer has been received, and the parties are in the midst of discovery. BHS filed a Motion for Summary Judgment, which was denied in full by the Tennessee Circuit Court June 21, 2018. Depositions for the BHS lawsuit were taken on August 16 and August 17, 2018. The Company and BHS participated in a mediation of their dispute on October 23, 2018. Having reached no resolution during the mediation, the parties may work towards a resolution. If a settlement between the parties cannot be reached, the Company will continue with the lawsuit.

The RSM Lawsuit

On June 9, 2017, the Company filed a lawsuit in the Circuit Court for Mecklenburg County, North Carolina (the “North Carolina Circuit Court”) against RSM USA LLP (“RSM”) for professional negligence, common law negligence, gross negligence, intentional misrepresentation, negligent misrepresentation and breach of fiduciary duty arising from accounting, internal auditing and consulting services provided by RSM to the Company. The Company alleges that between 2013 and 2015, Dees received approximately \$2.4 million in advanced or reimbursed travel and entertainment expenses from the Company and that Dees did not submit back-up documentation in support of substantially all of the advances he received purportedly for future travel and entertainment expenses. The Company similarly alleges that Culpepper received \$294,255 in travel expense reimbursements and advances that were unsubstantiated. The Company further alleges that had RSM provided competent accounting, internal audit and consulting services, it would have discovered Dees’ and Culpepper’s conduct at its inception and prevented the misuse of these and future funds. The Company has made a claim for damages against RSM in an amount in excess of \$10 million. The Complaint against RSM was filed by the Company and RSM moved to dismiss the Complaint. On September 28, 2018, RSM’s motion to dismiss was granted in part for breach of fiduciary duty and denied in part for negligence, professional malpractice, negligent misrepresentation, gross negligence, intentional misrepresentation, and fraudulent concealment. The Company was not precluded from seeking consequential or punitive damages on its claims for gross negligence, intentional misrepresentation, and fraudulent concealment at this stage of the litigation. The Company also was not precluded, at this time, from seeking consequential or punitive damages on its claims for breach of contract, negligence, negligent misrepresentation, or professional malpractice to the extent those claims are premised on the outsourcing engagement between the Company and RSM or the engagement between the Company and RSM under which RSM was to review the Company’s financial statements. The North Carolina Circuit Court has recently entered a Case Management Order and the Parties are in the process of beginning discovery in the case.

The BDO Matter

On November 16, 2017, the Company filed a demand for arbitration with the American Arbitration Association that alleged professional negligence, common law negligence, gross negligence, intentional misrepresentation, negligent misrepresentation, and breach of fiduciary duty by the Company's former external audit firm, BDO USA LLP ("BDO"), arising from accounting, external auditing, and consulting services provided by BDO related to travel and expense advances and reimbursements received by Dees and former Company executive Culpepper. During the quarter ended June 30, 2018, this matter was resolved pursuant to a settlement between the parties, the terms of which are confidential. The proceeds from the settlement were received and recorded during the third quarter of 2018.

7. Subsequent Events

Convertible Notes Payable

Subsequent to September 30, 2018, the Company entered into a PRH Note with a related party in the principal amount of \$175,000. The Company has received the proceeds of \$175,000 relating to the note.

Exercise of Warrants

Subsequent to September 30, 2018, warrant holders exercised warrants to purchase an aggregate of 1,113,500 shares of common stock at \$0.0533 per share. In connection with these exercises, the Company received aggregate cash proceeds of \$59,350 and issued 1,113,500 shares of common stock to the warrant holders.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS.

The following discussion is intended to assist in the understanding and assessment of significant changes and trends related to our results of operations and our financial condition together with our consolidated subsidiaries. This discussion and analysis should be read in conjunction with the accompanying unaudited financial statements and our Annual Report on Form 10-K for the year ended December 31, 2017 filed with the Securities and Exchange Commission ("SEC) on March 23, 2018 ("2017 Form 10-K"), which includes additional information about our critical accounting policies and practices and risk factors. Historical results and percentage relationships set forth in the statement of operations, including trends which might appear, are not necessarily indicative of future operations.

Overview of Core Technologies

Provectus is a clinical-stage biotechnology company developing a new class of drugs for oncology and dermatology based on halogenated xanthenes, such as Rose Bengal (4,5,6,7-tetrachloro-2',4',5',7'-tetraiodofluorescein). Intralesional PV-10, the first small molecule oncolytic immunotherapy, which can induce immunogenic cell death, is undergoing clinical study for adult solid tumor cancers, like melanoma and gastrointestinal cancers, and preclinical study for pediatric cancers. Topical PH-10 is undergoing clinical study for inflammatory dermatoses, like psoriasis and atopic dermatitis. For psoriasis, pathways significantly improved include published psoriasis transcriptomes and cellular

responses mediated by IL-17, IL-22, and interferons.

Our approach to drug development comprises two related, complementary, clinical development program paths based on the features of our investigational drugs and their clinically rational applicability to different patient populations. In solid tumor cancers for adults, for example, we believe PV-10 has important implications as a single agent for earlier states of disease (i.e., locally advanced disease, or Stage III or earlier), while the combination of PV-10 with other classes of therapy or therapeutic agent (e.g., chemotherapy, immunotherapy, radiotherapy, targeted therapy) is more appropriate for more advanced disease states (i.e., widely metastatic disease, or Stage IV).

Results of Operations

Comparison of the Three Months Ended September 30, 2018 and September 30, 2017

Research and Development

Research and development expenses decreased by \$1,732,705 from \$2,261,060 for the three months ended September 30, 2017 to \$528,355 for the three months ended September 30, 2018, a decrease of approximately 77% year-over-year. The decrease was due primarily to the settlement between the Company and a former clinical operations vendor whereby the Company received a credit for \$696,894 against its overall amounts due coupled with overall lower contractor costs of \$1,036,895, and payroll of \$76,534, offset by an increase in lab supplies and pharmaceutical preparations of \$25,412, travel cost of \$12,886, rent and utilities of \$15,477, and other costs totaling \$23,843.

Research and development costs of \$528,355 for the three months ended September 30, 2018 included amortization of patents of \$167,780, payroll of \$139,171, consulting and contract labor of \$56,833, insurance of \$67,964, lab supplies and pharmaceutical preparations of \$33,232, travel cost of \$31,143, rent and utilities of \$16,459, depreciation expense of \$2,162, and other costs of \$13,611.

Research and development costs of \$2,261,060 for the three months ended September 30, 2017 included patent amortization expense of \$167,780, payroll of \$215,705, consulting and contract labor of \$1,790,622, insurance of \$75,073, lab supplies and pharmaceutical preparations of \$7,820, rent and utilities of \$982, and depreciation expense of \$3,078.

General and Administrative

General and administrative expenses increased by \$96,718, from \$732,688 for the three months ended September 30, 2017 to \$829,406 for the three months ended September 30, 2018, an increase of approximately 13% year-over-year. The increase was due primarily to (i) increased legal expenses of approximately \$17,763 related to lawsuits, (ii) an approximate \$40,000 increase in directors' fees, which were accrued, (iii) increased travel and entertainment of \$18,155, and (iv) an increase in payroll expense of \$78,205, partially offset by (v) a decrease in information technology charges of \$7,775, (vi) a decrease in accounting expense of \$31,777, and (vii) other costs savings of \$17,853.

Interest Expense

Interest expense increased by \$130,918 from \$125,256 for the three months ended September 30, 2017 to \$256,173 for the three months ended September 30, 2018, an increase of approximately 105% period-over-period. The increase was due to the increased number of convertible notes payable relating to the PRH Notes.

Comparison of Nine Months Ended September 30, 2018 and September 30, 2017

Research and Development

Research and development expenses decreased by \$2,808,941, from \$6,267,598 for the nine months ended September 30, 2017 to \$3,458,657 for the nine months ended September 30, 2018, a decrease of approximately 45% year-over-year. The decrease was due primarily to the settlement between the Company and a former clinical operations vendor whereby the Company received a credit for \$1,748,010 against its overall amounts due coupled with lower consulting and contract labor cost on clinical trials of \$1,285,876, and conference expense of \$19,054, partially offset by an increase in payroll expense of \$28,574, travel expense of \$105,827, lab supplies and pharmaceutical preparations of \$52,634, rent and utilities of \$11,153, and other cost increases of \$45,811.

Research and development costs of \$3,458,657 for the nine months ended September 30, 2018 included patent amortization expense of \$503,340, payroll of \$423,766, conference expense of \$15,000, consulting and contract labor of \$1,998,472, insurance of \$218,917, lab supplies and pharmaceutical preparations of \$74,906, rent and utilities of \$50,075, depreciation expense of \$6,485, travel and entertainment of \$134,648, and other cost of \$33,048.

Research and development costs of \$6,267,598 for the nine months ended September 30, 2017 included patent amortization expense of \$503,340, payroll of \$395,192, conference expense of \$34,054, consulting and contract labor of \$5,032,357, insurance of \$228,961, lab supplies and pharmaceutical preparations of \$22,272, rent and utilities of \$38,922, and depreciation expense of \$12,500.

General and Administrative

General and administrative expenses decreased by \$1,632,558, from \$4,325,851 for the nine months ended September 30, 2017 to \$2,693,293 for the nine months ended September 30, 2018, a decrease of approximately 38% year-over-year. The decrease was primarily due to (i) decreased legal expense of \$518,919 due to a decline in investigations and litigations, (ii) an approximate \$1.2 million decrease in professional fees due to the termination and reduction in scope of certain vendor services contracts, and (iii) other cost decreases of \$5,142 partially offset by (iv) an increase in directors' fees of \$145,024, which were accrued, (v) a credit of \$97,500 applied in 2017 for contributions not contributed, and (vi) increased rent expense of \$43,979.

Interest Expense

Interest expense increased by \$470,591 from \$226,622 for the nine months ended September 30, 2017 to \$697,213 for the nine months ended September 30, 2018, an increase of approximately 208% period-over-period. The increase was due to the increased number of convertible notes payable relating to the PRH Notes.

Liquidity and Capital Resources

Our cash and cash equivalents were \$231,920 at September 30, 2018, compared to \$105,504 at December 31, 2017. The condensed consolidated financial statements and notes thereto included in this Quarterly Report on Form 10-Q have been prepared on a basis that contemplates the realization of assets and the satisfaction of liabilities and commitments in the normal course of business. We have continuing net losses and negative cash flows from operating activities. In addition, we have an accumulated deficit of \$224,706,059 as of September 30, 2018. These conditions raise substantial doubt about our ability to continue as a going concern for a period within one year from the date that the financial statements included elsewhere in this Quarterly Report on Form 10-Q are issued. Our financial statements do not include any adjustments to the amounts and classification of assets and liabilities that may be necessary should we be unable to continue as a going concern. Our ability to continue as a going concern depends on our ability to obtain additional financing as may be required to fund current operations.

Management's plans include selling our equity securities and obtaining other financing to fund our capital requirement and on-going operations, including the 2017 Financing discussed elsewhere in this filing; however, there can be no assurance we will be successful in these efforts. The financial statements do not include any adjustment that might be necessary if we are unable to continue as a going concern. Significant funds will be needed for us to continue and complete our Phase 3 and other clinical trials.

Subsequent to September 30, 2018, the Company entered into a PRH Note with a related party in the principal amount of \$175,000. The Company has received the proceeds of \$175,000 relating to the note. Also, subsequent to September 30, 2018, warrant holders exercised warrants to purchase an aggregate of 1,113,500 shares of common stock at \$0.0533 per share. In connection with these exercises, the Company received aggregate cash proceeds of \$59,350 and issued 1,113,500 shares of common stock to the warrant holders.

Access to Capital

Management plans to access capital resources through possible public or private equity offerings, including the 2017 Financing, exchange offers, debt financings, corporate collaborations or other means. If we are unable to raise sufficient capital through the 2017 Financing or otherwise, we will not be able to pay our obligations as they become due.

Critical Accounting Policies

For a description of our critical accounting policies, see Note 3 – Significant Accounting Policies in Part 1, Item 1 of this Quarterly Report on Form 10-Q.

Recently Issued Accounting Pronouncements

For a description of our recently issued accounting pronouncements, see Note 3 – Significant Accounting Policies in Part 1, Item 1 of this Quarterly Report on Form 10-Q.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements, financings, or other relationships with unconsolidated entities or other persons, also known as “special purpose entities” (SPEs).

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Not applicable.

ITEM 4. CONTROLS AND PROCEDURES.

Evaluation of Disclosure Controls and Procedures

Our management, with the participation of our principal executive officer and principal financial officer, carried out an evaluation of the effectiveness of the design and operation of our disclosure controls and procedures, as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Based on this evaluation, our principal executive officer and principal financial officer concluded that, as of the end of the period covered in this report, our disclosure controls and procedures were effective to provide reasonable assurance that the information required to be disclosed by us in reports that we file or submit under the Exchange Act is recorded, processed, summarized, and reported within the time periods specified in the SEC’s rules and forms, and is accumulated and communicated to our management, including our principal executive officer and principal financial officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There has been no change in our internal control over financial reporting that occurred during the fiscal quarter covered by this Quarterly Report on Form 10-Q that has materially affected, or is reasonably likely to materially affect, our internal control over financial reporting.

PART II OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

The information required by this item is incorporated by reference from Part I, Item 1. Financial Statements, Notes to Condensed Consolidated Financial Statements, Note 6 – Litigation.

ITEM 1A. RISK FACTORS.

There have been no material changes to the risk factors disclosed in our Annual Report on Form 10-K for the year ended December 31, 2017.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

2017 Financing

During the nine months ended September 30, 2018, the Company entered into additional PRH Notes with related parties in the aggregate principal amount of \$1,350,000. As of September 30, 2018, the Company had drawn down the entire \$1,350,000 under these notes.

During the nine months ended September 30, 2018, the Company entered into additional PRH Notes with accredited investors in the aggregate principal amount of \$2,556,000. As of September 30, 2018, the Company had drawn down the entire \$2,556,000 under these notes.

The Company believes that such transactions were exempt from the registration requirements of the Securities Act of 1933, as amended, (the “Securities Act”), in reliance on Section 4(a)(2) of the Securities Act (or Rule 506 of Regulation D promulgated thereunder) as transactions by an issuer not involving a public offering.

For further details on the terms of the PRH Notes, refer to in our Annual Report on Form 10-K for the year ended December 31, 2017 as filed with the SEC on March 23, 2018.

Other Common Stock Issuance

During the nine months ended September 30, 2018, the Company issued 1,000,000 shares of common stock in payment of services with a grant date fair value of \$80,000.

The Company believes that such transaction was exempt from the registration requirements of the Securities Act in reliance on Section 4(a)(2) of the Securities Act (or Rule 506 of Regulation D promulgated there under) as a transaction by an issuer not involving a public offering.

Exercise of Warrants

During the nine months ended September 30, 2018, warrant holders exercised warrants to purchase 11,539,577 shares of common stock at a price of \$0.0533 per share or \$615,059.

ITEM 3. DEFAULTS UPON SENIOR SECURITIES.

None

ITEM 4. Mine Safety Disclosures.

Not applicable.

ITEM 5. OTHER INFORMATION.

None.

ITEM 6. EXHIBITS.

Exhibit No.	Description
10.1	<u>Secured Convertible Promissory Note between the Company and Edward V. Pershing, dated July 26, 2018 (incorporated by reference to Exhibit 10.1 of the Company's current report on Form 8-K filed on July 30, 2018)</u>
