RICH STAR DEVELOPMENT CORPORATION

NOTES TO FINANCIAL STATEMENTS

FOR THE NINE MONTHS ENDED SEPTEMBER 30, 2014

UNAUDITED

1.

DESCRIPTION OF BUSINESS

Rich Star Development Corporation (the Company) was incorporated in the State of Nevada on May 29, 2009.

The Company is a wholesale distribution company that plans to import and source locally products in the food service business including food, paper products, janitorial products, restaurant utensils and equipment.

2.

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The accompanying unaudited interim financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Year-End - The Company has selected December 31 as its year end.

Use of Estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Such estimates and assumptions have an impact on the fair value of share-based payments, estimates and the valuation allowance for deferred tax assets due to continuing and expected future operating losses.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at the date of the financial statements, which management considered in formulating its estimate could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from estimates.

Cash - The Company considers all highly liquid instruments purchased with a maturity of three months or less at date of acquisition to be cash equivalents. There were no cash equivalents at September 30, 2014 and December 31, 2013, respectively.

The Company maintains cash balances at an institution that is insured by the Federal Deposit Insurance Corporation. As of September 30, 2014 no amounts were in excess of the federally insured program.

Revenue Recognition - The Company currently has not generated revenues. Any future revenues earned, primarily through the sale of products, will be recognized utilizing the following general revenue recognition criteria: 1) pervasive evidence of an arrangement exists; 2) delivery has occurred; 3) the price to the buyer is fixed or determinable; and 4) collectability is reasonably assured.

Equity-based Compensation Expense - The Company recognizes all forms of equity-based payments, including stock option grants, warrants, and restricted stock grants, at their fair value on the grant date, which are based on the estimated number of awards that are ultimately expected to vest.

Equity-based payments, excluding restricted stock, are valued using a Black-Scholes option pricing model. Equity-based payment awards issued to non-employees for services rendered are recorded at either the fair value of the services rendered or the fair value of the equity-based payment, whichever is more readily determinable. The grants are amortized on a straight-line basis over the requisite service periods, which is generally the vesting period.

When computing fair value of equity-based compensation, the Company considers the following variables:

.

The expected option term is computed using the simplified method.

.

The expected volatility is based on the historical volatility of its common stock using the daily quoted closing trading prices.

.

The risk-free interest rate assumption is based on the U.S. Treasury yield for a period consistent with the expected term of the option in effect at the time of the grant.

.

The Company has not paid any dividends on common stock since its inception and does not anticipate paying dividends on our common stock in the foreseeable future.

.

The forfeiture rate is based on the historical forfeiture rate for its unvested stock options.

Income Taxes - Income taxes are accounted for under the asset and liability method. Deferred tax assets and liabilities are determined based on temporary differences between the bases of certain assets and liabilities for income tax and financial reporting purposes. The deferred tax assets and liabilities are classified according to the financial statement classification of the assets and liabilities generating the differences.

The Company maintains a valuation allowance with respect to deferred tax assets. The Company establishes a valuation allowance based upon the potential likelihood of realizing the deferred tax asset and taking into consideration the Company's financial position and results of operations for the current period. Future realization of the deferred tax benefit depends on the existence of sufficient taxable income within the carry forward period under the Federal tax laws.

Changes in circumstances, such as the Company generating taxable income, could cause a change in judgment about the realizability of the related deferred tax asset. Any change in the valuation allowance will be included in income in the year of the change in estimate.

Earnings (Loss) per Share - Basic earnings (loss) per share is computed by dividing net income (loss) by the weighted average number of shares of common stock outstanding during each period. Diluted earnings (loss) per share is computed by dividing net income (loss), adjusted for changes in income or loss that resulted from the assumed conversion of convertible shares, by the weighted average number of shares of common stock, common stock equivalents and potentially dilutive securities outstanding during the period.

The computation of basic and diluted loss per share for the periods presented is equivalent since the Company had continuing losses. The Company had no common stock equivalents as of September 30, 2014 and December 31, 2013, respectively.

Financial Instruments - Financial instruments consist of accounts payable and notes payable. Recorded values of accounts payable and accrued liabilities approximate fair values due to the short maturities of such instruments. Recorded values for notes payable and related liabilities approximate fair values, since their stated or imputed interest rates are commensurate with prevailing market rates for similar obligations.

Recent Accounting Pronouncements There are no recent accounting pronouncements that are expected to have a material effect on the Company's financial statements.

3.

GOING CONCERN

As reflected in the accompanying financial statements, the Company had a net loss of \$22,517, net cash used in operations of \$20,046 during the nine months ended September 30, 2014 and a working capital deficit and stockholders' deficit of \$78,738 at September 30, 2014.

The Company anticipates that it will continue to generate losses from operations in the near future raising substantial doubt about the Company's ability to continue as a going concern. The ability of the Company to continue its operations is dependent on Management's plans, which include the raising of capital through debt and/or equity markets until such time that funds provided by operations are sufficient to fund working capital requirements.

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. These financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should the Company be unable to continue as a going concern.

4.

NOTE PAYABLE RELATED PARTY

As of September 30, 2014 and December 31, 2013, notes payable consisted of the following:

	Principal
	\$
Balance, December 31, 2013	57,967
Advances	20,046
Repayments	-
	\$
Balance, September 30, 2014	78,013

All advances are non-interest bearing, unsecured, and due on demand. Imputed interest of \$2,296 and \$2,692 was recorded to donated capital at 8% for the nine months ended September 30, 2014 and 2013, respectively.

5.

STOCKHOLDERS (DEFICIT)

Stock Issued for Services - In August 2009, the Company issued 1,500,000 shares of common stock to its founders for pre-incorporation services, at \$0.001 per share having a fair value of \$1,500, based upon the fair value of the services rendered. The Company expensed this stock issuance as a component of general and administrative expense.

Stock Issued for Cash - In November 2009, under the terms of a private placement, the Company issued 2,000,000 shares of common stock at \$0.05 per share for total gross proceeds of \$100,000.

6.

SUBSEQUESNT EVENTS

Management has performed an evaluation after the balance sheet date through the date of this document and has determined that no reportable events have occurred.

Item 2

Management's Discussion and Analysis of Financial Condition and Results of Operations

The following discussion and analysis of our financial condition and plan of operations should be read in conjunction with our unaudited interim financial statements and related notes appearing elsewhere in this Quarterly Report. Various statements have been made in this Quarterly Report on Form 10-Q that may constitute forward-looking statements. Forward-looking statements may also be made in our other reports filed with or furnished to the United States Securities and Exchange Commission (the SEC) and in other documents. In addition, through our management we may make oral forward-looking statements.

Forward-looking statements are subject to risks and uncertainties which could cause actual results to differ materially from such statements. The words believe, expect, anticipate, optimistic, intend, plan, aim, will, may, would, likely and similar expressions are intended to identify forward-looking statements. These statements are not guarantees of future performance, and therefore, you should not put undue reliance upon them. Some of the statements that are forward-looking include: our ability to successfully implement our business plan; our estimates of revenues and of other expenses associated with our operations; and our ability to generate sufficient cash flows and maintain adequate sources of liquidity to finance our ongoing operations and capital expenditures. We undertake no obligation to update or revise any forward-looking statements.

History and Overview

Rich Star Development Corporation (we, our, us, or the Company) was incorporated in the State of Nevada on March 29, 2009.

Plan of Operations

We are a wholesale distribution company that plans to import and source locally products in the food service.

Our business is in the developmental stage. Our ability to commence operations is entirely dependent upon our ability to raise additional capital. If we cannot raise additional capital, we will not be able to establish a base of operations to generate revenue. We do not have any formal or informal agreements to attain such financing. We cannot assure any investor that, if needed, sufficient financing can be obtained or, if obtained, that it will be on reasonable terms.

Products

We intend to source and distribute food products, paper products, janitorial products, restaurant utensils and equipment.

Sources of Supply

Our future plans include buying products directly from factories, participating in joint ventures and branding products to achieve best possible cost levels and maximize profitability.

Customers

Our initial customers will include the restaurant and hospitality industries as well as small retail grocery stores primarily located in the western United States.

Employees

We do not currently have any employees.

Competition

The food service industry is a highly competitive market. Industry sources estimate that there are more than 15,000 companies engaged in food service distribution in the United States. Our customers may also choose to purchase products directly from retail outlets or negotiate prices directly with our suppliers.

Many of our competitors have significant advantages over our Company in terms of scale, operating histories, number of locations in operation, customer base, capital and other resources. The intense competition constitutes significant risk factors for our operations in the industry.

We are a start-up company that has yet to commence commercial operations. Accordingly, there can be no assurances that we can successfully compete in the food service distribution market.

We intend to offer a complete package of high quality products to our customers at competitive prices. Management believes that these characteristics will provide us with the ability to compete successfully within the industry.

Patents and Trademarks

We do not own, either legally or beneficially, any patents or trademarks.

Subsidiaries

We do not currently have any subsidiaries.

Results of Operations

We are a wholesale distribution company that plans to import and source locally products in the food service. The following discussion of the financial condition and results of operations should be read in conjunction with the unaudited financial statements included herewith. This discussion should not be construed to imply that the results discussed herein will necessarily continue into the future, or that any conclusion reached herein will necessarily be indicative of actual operating results in the future.

Revenues

We did not generate any revenues during the period from May 29, 2009 (inception) to September 30, 2014. During this development stage, we were primarily focused on corporate organization, the initial public offering and the development of our business plan.

Expenses

Our total expenses for six months ended September 30, 2014 were general and administrative expense of \$20,221 and interest expense of \$2,296, compared to general and administrative expense of \$18,399 and interest expense of \$2,692 for the nine months ended September 30, 2013. The largest components of general and administrative expense were professional fees in the amounts of \$20,221 and \$18,399, for nine months ended September 30, 2014 and 2013 respectively.

Net Loss

Our net loss for the nine months ended September 30, 2014 was \$22,517 compared to a net loss of \$21,091 for the nine months ended September 30, 2013.

Operating Activities

During the nine months ended September 30, 2014, we used cash in the amount of \$20,046 for operating activities. This includes a net loss of \$22,517, imputed interest of \$2,296 and an increase in accounts payable of \$175. By comparison, during the nine months ended September 30, 2013, we used cash in the amount of \$18,781 for operating activities. This includes a net loss of \$21,091, imputed interest of \$2,692 and a \$382 decrease in accounts payable.

Investing Activities

There were no investing activities for the nine months ended September 30, 2014.

Financing Activities

During the nine months ended September 30, 2014, we received proceeds from notes payable in the amount of \$20,046 for total cash provided by financing activities of \$20,046. By contrast, during the nine months ended September 30, 2013, we received proceeds from notes payable in the amount of \$18,781 for total cash provided by financing activities of \$18,781.

We currently do not have sufficient funds to satisfy the minimum cash requirements to implement our business plan over the next twelve months. Due to our brief history and historical net losses, our operations have not been a source of liquidity. Therefore, our ability to continue as a going concern is dependent on our ability to raise additional capital.

We presently do not have any available credit, financing or other external sources of liquidity. In order to obtain capital, we may need to sell additional shares of common stock or borrow funds from private lenders. However, the low trading price of our common stock and a downturn in the U.S. stock and debt markets is likely to make it more difficult to obtain financing through the issuance of equity or debt securities. As a result, there can be no assurance that we will be successful in obtaining additional funding.

Even if we are able to raise the funds required, it is possible that we could incur unexpected costs and expenses, fail to collect amounts owed to us, or experience unexpected cash requirements that would force us to seek alternative financing. Further, if we issue additional equity or debt securities, stockholders may experience dilution or the new equity securities may have rights, preferences or privileges senior to those of existing holders of common stock.

Going Concern

As reflected in the accompanying financial statements, we had a net loss of \$22,517, net cash used in operations of \$20,046 during the nine months ended September 30, 2014 and a working capital deficit and stockholders' deficit of \$78,738 at September 30, 2014.

We anticipate that we will continue to generate losses from operations in the near future raising substantial doubt about our ability to continue as a going concern. Our ability to continue its operations is dependent on Management's plans, which include the raising of capital through debt and/or equity markets until such time that funds provided by operations are sufficient to fund working capital requirements.

The accompanying financial statements have been prepared on a going concern basis, which contemplates the realization of assets and the satisfaction of liabilities in the normal course of business. These financial statements do not include any adjustments relating to the recovery of the recorded assets or the classification of the liabilities that might be necessary should we be unable to continue as a going concern.

Summary of Significant Accounting Policies

Our financial statements and related public financial information are based on the application of accounting principles generally accepted in the United States (GAAP). GAAP requires the use of estimates; assumptions, judgments and subjective interpretations of accounting principles that have an impact on the assets, liabilities, revenues and expense amounts reported. These estimates can also affect supplemental information contained in our external disclosures including information regarding contingencies, risk and financial condition. We believe our use of estimates and underlying accounting assumptions adhere to GAAP and are consistently and conservatively applied. We base our estimates on historical experience and on various other assumptions that we believe to be reasonable under the circumstances. Actual results may differ materially from these estimates under different assumptions or conditions. We continue to monitor significant estimates made during the preparation of our financial statements.

Our significant accounting policies are summarized in Note 2 of our unaudited interim financial statements. While all these significant accounting policies impact our financial condition and results of operations, we view certain of these policies as critical. Policies determined to be critical are those policies that have the most significant impact on our financial statements and require management to use a greater degree of judgment and estimates. Actual results may differ from those estimates. Our management believes that given current facts and circumstances, it is unlikely that applying any other reasonable judgments or estimate methodologies would cause effect on our results of operations, financial position or liquidity for the periods presented in this report.

Recent Accounting Pronouncements

None.

Off-Balance Sheet Arrangements

We do not have any off-balance sheet arrangements, financings, or other relationships with unconsolidated entities or other persons, also known as special purpose entities (SPEs).

Item 3

Quantitative and Qualitative Disclosures about Market Risk

Not required for a smaller reporting company.

Item 4

Controls and Procedures

Disclosure Controls and Procedures.

Our management has evaluated, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures as of the end of the period covered by this report pursuant to Rule 13a-15(b) and 15d-15 (b) under the Securities Exchange Act of 1934 (the Exchange Act). Based on that evaluation, our management, including our Chief Executive Officer and Chief Financial Officer have concluded that, as of the end of the period covered by this report, our disclosure controls and procedures are ineffective in ensuring that information required to be disclosed in our Exchange Act reports is (1) recorded, processed, summarized and reported in a timely manner, and (2) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure.

Changes in Internal Control Over Financial Reporting

There have been no changes in our internal control over financial reporting that occurred during the period covered by this report that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

Chief Executive Officer

Exhibit 31.1

CERTIFICATION PURSUANT TO RULE 13a-14(a)

I, Siu Mun Kung, certify that:

1.

I have reviewed this quarterly report on Form 10-Q of Rich Star Development Corporation;

2.

Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;

3.

Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;

4.

The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f) for the registrant and have:

(a)

designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under my supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to me by others within those entities, particularly during the period in which this report is

being prepared;

(b)

designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under my supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;

(c)

evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report my conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and

(d)

disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5.

The registrant's other certifying officer and I have disclosed, based on my most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of registrant's board of directors (or persons performing the equivalent functions):

(a)

all significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and

(b)

any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
