Form 10-Q
August 10, 2012

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
Washington, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF
THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended: June 30, 2012

Commission file number: 001-35424

HOMESTREET, INC.

(Exact name of registrant as specified in its charter)

Washington

(State or other jurisdiction of incorporation)

601 Union Street, Suite 2000

Seattle, Washington 98101

(Address of principal executive offices)

(Zip Code)

(206) 623-3050

(Registrant's telephone number, including area code)

91-0186600

(IRS Employer Identification No.)

Indicate by check mark whether the registrant: (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act:

Large Accelerated Filer

Accelerated Filer

Non-accelerated Filer

Smaller Reporting Company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act). Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date. On July 31, 2012 there were 7,163,753 shares of no par value Common Stock outstanding.

Table of Contents

HomeStreet, Inc. and Subsidiaries
Notes to Interim Consolidated Financial Statements (Unaudited)

NOTE 1—SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

HomeStreet, Inc. and its wholly owned subsidiaries (the “Company”) is a diversified financial services company that serves consumers and businesses in the Pacific Northwest and Hawaii. The Company is principally engaged in real estate lending, including mortgage banking activities and retail and business banking operations. The consolidated financial statements include the accounts of HomeStreet, Inc. and its wholly owned subsidiaries, HomeStreet Capital Corporation and HomeStreet Bank (the “Bank”), and the Bank’s subsidiaries, HomeStreet/WMS, Inc., HomeStreet Reinsurance, Ltd., Continental Escrow Company, Union Street Holdings LLC and Lacey Gateway LLC. HomeStreet Bank was formed in 1986 and is a state-chartered savings bank.

The Company’s accounting and financial reporting policies conform to accounting principles generally accepted in the United States of America (“U.S. GAAP”). Inter-company balances and transactions have been eliminated in consolidation. In preparing the consolidated financial statements, the Company is required to make estimates and assumptions that affect the reported amounts of assets and liabilities as of the date of the financial statements and revenues and expenses during the reporting period and related disclosures. Although these estimates contemplate current conditions and how they are expected to change in the future, it is reasonably possible that actual conditions could be worse than anticipated in those estimates, which could materially affect the Company’s results of operations and financial condition. Actual results could differ from those estimates. Certain amounts in the financial statements from prior periods have been reclassified to conform to the current financial statement presentation.

The information furnished in these unaudited interim statements reflects all adjustments that are, in the opinion of management, necessary for a fair statement of the results for the periods presented. These adjustments are of a normal recurring nature, unless otherwise disclosed in this Form 10-Q. The results of operations in the interim statements do not necessarily indicate the results that may be expected for the full year. The interim financial information should be read in conjunction with the Company’s Annual Report on Form 10-K for the year ended December 31, 2011, filed with the Securities and Exchange Commission (“2011 Annual Report on Form 10-K”).

Accounting Developments in 2012

ASU 2011-04, Amendments to Achieve Common Fair Value Measurement and Disclosure Requirements in U.S. GAAP and IFRS, amends requirements for measuring fair value and for disclosing information about fair value. The Company adopted the amendments in this ASU effective January 1, 2012, which did not have a material effect on our consolidated financial statements.

NOTE 2—SIGNIFICANT RISKS AND UNCERTAINTIES:

Regulatory Agreements

On May 18, 2009, the Company entered into a Stipulation and Consent to the Issuance of an Order to Cease and Desist (the “Company Order”) with the Office of Thrift Supervision (the “OTS”). The Company Order most significantly provides that the Company shall not pay dividends and shall not incur, issue, renew, repurchase, make payments on (including interest), or rollover any debt, increase any current lines of credit, or guarantee the debt of any entity without prior approval of the Federal Reserve, which subsequently replaced the OTS as the primary regulator. The Company Order will remain in effect until terminated, modified, or suspended, by written notice of such action by the Federal Reserve. The Company Order, however, does not prohibit the Holding Company from transacting its normal

business.

On May 8, 2009, HomeStreet Bank (the "Bank") entered into an agreement with its primary banking regulators, the Federal Deposit Insurance Corporation ("FDIC"), and the Washington State Department of Financial Institutions ("DFI"), pursuant to which we consented to the entry of an Order to Cease & Desist from certain allegedly unsafe and unsound banking practices (the "Bank Order").

As a result of improvement in the Bank's capital position, including the successful completion of our initial public offering and the subsequent contribution of \$65.0 million of net proceeds to the Bank, and improvement in the Bank's asset quality, management, earnings, liquidity and sensitivity to interest rates since the imposition of the Bank Order, on March 26, 2012, the FDIC and DFI terminated the Bank Order. In connection with this termination, we and those regulators have entered into a

10

Table of Contents

memorandum of understanding, which requires, among other things, that the Bank maintain a minimum Tier 1 leverage capital ratio of 9.0% and continue to reduce the level of adversely classified assets. The memorandum of understanding continues to prohibit the Bank from paying dividends without the regulators' prior written consent.

NOTE 3—INVESTMENT SECURITIES AVAILABLE FOR SALE:

The amortized cost and fair value of investment securities available for sale at June 30, 2012 and December 31, 2011, are summarized as follows.

	Amortized cost	Gross unrealized gains	Gross unrealized losses	Fair value
(in thousands)				
June 30, 2012:				
Mortgage backed:				
Residential	\$47,963	\$312	\$(139)) \$48,136
Commercial	13,872	730	—) 14,602
Municipal bonds	124,900	2,385	(666)) 126,619
Collateralized mortgage obligations:				
Residential	181,011	5,054	(33)) 186,032
Commercial	9,128	37	—) 9,165
US Treasury	31,084	—	(28)) 31,056
	\$407,958	\$8,518	\$(866)) \$415,610
December 31, 2011:				
Commercial mortgage backed				
	\$13,941	\$542	\$—) \$14,483
Municipal bonds				
	48,948	728	(92)) 49,584
Collateralized mortgage obligations:				
Residential	220,418	3,119	(147)) 223,390
Commercial	10,081	—	(11)) 10,070
US Treasury	31,540	3	(23)) 31,520
	\$324,928	\$4,392	\$(273)) \$329,047

Mortgage-backed and collateralized mortgage obligations represent securities issued by Government Sponsored Enterprises ("GSEs"). Substantially all securities held are rated and considered at least investment grade, according to their credit rating by Standard and Poor's Rating Services ("S&P") or Moody's Investors Services ("Moody's").

Table of Contents

Investment securities that were in an unrealized loss position at June 30, 2012 and December 31, 2011 are presented in the following tables based on the length of time the individual securities have been in an unrealized loss position.

(in thousands)	Less than 12 months		12 months or more		Total	
	Gross unrealized losses	Fair value	Gross unrealized losses	Fair value	Gross unrealized losses	Fair value
June 30, 2012:						
Mortgage backed:						
Residential	\$(139)) \$4,498	\$—	\$—	\$(139)) \$4,498
Municipal bonds	(635)) 45,513	(31)) 1,155	(666)) 46,668
Collateralized mortgage obligations:						
Residential	(33)) 9,705	—	—	(33)) 9,705
US Treasury	(28)) 29,551	—	—	(28)) 29,551
	\$(835)) \$89,267	\$(31)) \$1,155	\$(866)) \$90,422
December 31, 2011:						
Municipal bonds	\$—	\$—	\$(92)) \$1,095	\$(92)) \$1,095
Collateralized mortgage obligations						
Residential	(147)) 37,807	—	—	(147)) 37,807
Commercial	(11)) 10,070	—	—	(11)) 10,070
US Treasury	(23)) 27,510	—	—	(23)) 27,510
	\$(181)) \$75,387	\$(92)) \$1,095	\$(273)) \$76,482

The Company has evaluated securities that have been in an unrealized loss position and has determined that the decline in value is temporary and is related to the change in market interest rates since purchase. The decline in value is not related to any company- or industry-specific credit event. The Company anticipates full recovery of the amortized cost with respect to these securities at maturity or sooner in the event of a more favorable market interest rate environment and does not have the intent to sell these securities, nor is it more likely than not that the Company will be required to sell such securities.

Table of Contents

The following tables present the fair value of investment securities available for sale by contractual maturity along with the associated contractual yield for the periods indicated below. Contractual maturities for mortgage-backed securities and collateralized mortgage obligations were determined assuming no prepayments. Expected maturities will differ from contractual maturities because borrowers may have the right to prepay obligations before the underlying mortgages mature. The weighted average yield is computed using the contractual coupon of each security weighted based on the fair value of each security and does include adjustments to a tax equivalent basis.

Table of Contents

Sales of investment securities available for sale were as follows.

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Proceeds	\$85,492	\$2,415	\$119,539	\$9,214
Gross gains	1,233	1	1,346	1
Gross losses	(322) —	(394) —

There were no securities pledged to secure advances from the Federal Home Loan Bank ("FHLB") at June 30, 2012 and December 31, 2011. At June 30, 2012 and December 31, 2011 there were \$159.2 million and \$22.5 million, respectively, of securities pledged to secure derivatives in a liability position and \$115.3 million and \$0, respectively, of securities pledged under repurchase agreements.

Tax-exempt interest income on securities available for sale totaling \$1.0 million and \$64 thousand for the three months ended June 30, 2012 and 2011, respectively, and \$1.7 million and \$131 thousand, for the six months ended June 30, 2012 and 2011, respectively, were recorded in the Company's consolidated statements of operations.

NOTE 4—LOANS AND CREDIT QUALITY:

Loans held for investment consist of the following.

(in thousands)	At June 30, 2012	At December 31, 2012
Consumer loans		
Single family residential	\$537,174	\$496,934
Home equity	147,587	158,936
	684,761	655,870
Commercial loans

Multifamily residential	47,069	56,379
Construction/land development	83,797	173,405
Commercial business	79,980	59,831
	580,910	691,754
	1,265,671	1,347,624
Net deferred loan fees and costs	(3,508) (4,062
	1,262,163	1,343,562
Allowance for loan losses	(26,910) (42,689
	\$1,235,253	\$1,300,873

Loans are pledged to secure borrowings from the FHLB as part of our liquidity management strategy. The FHLB does not have the right to sell or repledge these loans, which totaled \$443.8 million and \$490.4 million at June 30, 2012 and December 31, 2011, respectively.

Loans held for investment are primarily secured by real estate located in the states of Washington, Oregon, Idaho and Hawaii.

Loan concentrations may exist when there are amounts loaned to borrowers engaged in similar activities or similar types of loans extended to a diverse group of borrowers that would cause them to be similarly impacted by economic or other conditions. At June 30, 2012 we had concentrations representing 10% or more of the total portfolio by state and property type for the loan classes of single family and commercial real estate within the state of Washington, which represented 31.0% and 22.3% respectively. At December 31, 2011 we had concentrations representing 10% or more of the total portfolio by state and property type for the loan classes of single family, commercial real estate and construction/land development within the state of Washington, which represented 28.4%, 23.8% and 11.1% respectively. These loans were mostly located within the Puget Sound area, particularly within King County.

Table of Contents

Credit Quality

Management considers the level of allowance for credit losses to be appropriate to cover credit losses inherent within the loans held for investment portfolio as of June 30, 2012. The allowance for credit losses is comprised of the allowance for loan losses as well as the allowance for unfunded credit commitments, which is reported as an other liability.

Credit quality within the loans held for investment portfolio is continuously monitored by management and is reflected in the allowance for credit losses. Allowance levels are influenced by loan volumes, loan asset quality ratings (AQR) or delinquency status, historic loss experience and other conditions influencing loss expectations, such as economic conditions. The methodology for evaluating the adequacy of the allowance for loan losses has two basic elements: first, the identification of impaired loans and the measurement of impairment for each individual loan identified; and second, a method for estimating an allowance for all other loans.

For further information on the policies that govern the determination of the allowance for loan losses levels, see Note 5, Loans and Credit Quality to the Consolidated Financial Statements within the 2011 Annual Report on Form 10-K.

For the three and six months ended June 30, 2012 and 2011, activity in the allowance for credit losses by loan portfolio segment and loan class is as follows.

The Company had 158 impaired relationships totaling \$128.2 million at June 30, 2012 and 145 impaired relationships totaling \$177.4 million at December 31, 2011. Impaired loans totaling \$62.7 million and \$82.5 million had a valuation allowance of \$5.4 million and \$18.7 million at June 30, 2012 and December 31, 2011, respectively. Interest on impaired loans, applied against loan principal or recognized as interest income, of \$1.6 million and \$1.1 million was recorded for cash payments received during the three months ended June 30, 2012 and 2011 respectively, and \$3.0 million and \$2.1 million was recorded for cash payments received during the six months ended June 30, 2012 and 2011 respectively.

Loans are reported as troubled debt restructurings (“TDRs”) when the Company grants concessions that it would not otherwise consider to borrowers experiencing financial difficulty. A TDR loan is considered re-defaulted when it becomes doubtful that the objectives of the modifications will be met, generally when a TDR loan becomes 90 days or more past due for interest or principal payments.

The Company had 153 loan relationships classified as TDRs totaling \$117.0 million at June 30, 2012 and unfunded commitments of \$14 thousand. The Company had 126 loan relationships classified as TDRs in the amount of \$118.5 million at December 31, 2011 and unfunded commitments of \$32 thousand. TDR loans within the loans held for investment portfolio and the related reserves are included in the impaired loan tables above. TDR loans held for sale totaled \$427 thousand, comprised of three relationships, and \$1.0 million, comprised of five relationships, as of June 30, 2012 and December 31, 2011, respectively, and are predominately comprised of loans previously repurchased from Ginnie Mae and cured by modifying interest rate terms.

Table of Contents

The following tables present information about TDRs by loan portfolio segment and loan class as of June 30, 2012 and December 31, 2011.

NOTE 5—OTHER REAL ESTATE OWNED:

Other real estate owned consisted of the following.

(in thousands)	June 30, 2012	December 31, 2011
Single family	\$3,446	\$7,006
Commercial real estate	3,184	2,436

Edgar Filing: HomeStreet, Inc. - Form 10-Q

Construction/land development	46,178	50,632	
	52,808	60,074	
Valuation allowance	(12,190) (21,502)
	\$40,618	\$38,572	

25

Table of Contents

Activity in other real estate owned was as follows for the periods indicated.

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Balance, beginning of period	\$31,640	\$98,863	\$38,572	\$170,455
Additions	24,360	26,163	29,059	32,144
Loss provisions	(5,578) (4,739) (8,332) (15,298
Reductions related to sales	(9,804) (17,590) (18,681) (84,604
Balance, end of period	\$40,618	\$102,697	\$40,618	\$102,697

For the three months ended June 30, 2012 and 2011, OREO properties were sold for a net loss of \$266 thousand and a net gain of \$127 thousand, respectively. For the six months ended June 30, 2012 and 2011, OREO properties were sold for a net gain of \$324 thousand and \$363 thousand, respectively.

Activity in the valuation allowance for other real estate owned was as follows for the periods indicated.

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Balance, beginning of period	\$17,726	\$36,178	\$21,502	\$29,099
Loss provisions	5,578	4,739	8,332	15,298
Charge-offs, net of recoveries	(11,114) (3,637) (17,644) (7,117
Balance, end of period	\$12,190	\$37,280	\$12,190	\$37,280

At June 30, 2012 and December 31, 2011, we had concentrations within the state of Washington representing 96.7% and 84.5%, respectively, of the total balance of other real estate owned.

At June 30, 2012, construction/land development in Washington, primarily in Thurston county, represented 84.1% of the total portfolio. At December 31, 2011, construction/land development in Washington, primarily in Thurston county, represented 68.6% of the total balance of other real estate owned.

NOTE 6—DERIVATIVES AND HEDGING ACTIVITIES:

The Company uses derivatives to manage exposure to market risk, interest rate risk and to assist customers with their risk management objectives. Derivative transactions are measured in terms of notional amount, which is not recorded on the consolidated statements of financial condition. The notional amount is generally not exchanged and is used as the basis for which interest and other payments are determined. All derivatives are recorded within other assets or liabilities and carried at fair value, with changes in fair value reflected in current period earnings. At June 30, 2012 the Company did not hold any cash flow or foreign currency hedge instruments.

For further information on the policies that govern derivative and hedging activities, see Note 11, Derivatives and Hedging Activities to the Consolidated Financial Statements within the 2011 Annual Report on Form 10-K.

The notional amounts and fair values for derivatives consist of the following.

June 30, 2012 (in thousands)	Notional Amount	Fair Value Derivatives	
		Asset	Liability
Forward commitments	\$ 1,106,173	\$735	\$(8,119
Interest rate swaptions	120,000	—	—

Edgar Filing: HomeStreet, Inc. - Form 10-Q

Interest rate lock commitments	883,422	28,345	(8)
Interest rate swaps	372,810	7,770	(8,649)
	\$ 2,482,405	\$36,850	\$(16,776)

26

Table of Contents

December 31, 2011	Notional Amount	Fair Value Derivatives	
		Asset	Liability
Forward commitments	\$ 428,803	\$1,206	\$(2,223)
Interest rate swaptions	110,000	1	—
Interest rate lock commitments	244,138	6,836	—
Interest rate swaps	337,705	5,719	(8,777)
	\$ 1,120,646	\$13,762	\$(11,000)

The ineffective portion of net gains (losses) on derivatives in fair value hedging relationships, recognized in other noninterest income on the consolidated statements of operations, for loans held for investment were \$(2) thousand and \$(36) thousand for the three months ended June 30, 2012 and 2011, respectively and \$48 thousand and \$66 thousand for the six months ended June 30, 2012 and 2011, respectively.

The following table shows the net gains (losses) recognized on economic hedge derivatives within the respective line items in the statement of operations for the periods indicated.

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Recognized in noninterest income:				
Net gain (loss) on mortgage loan origination and sale activities ⁽¹⁾	\$3,865	\$1,103	\$10,565	\$(3,982)
Mortgage servicing ⁽²⁾	20,254	8,774	19,739	7,186
	\$24,119	\$9,877	\$30,304	\$3,204

(1) Comprised of mortgage loan interest rate lock commitments and forward contracts used as an economic hedge on loans held for sale.

(2) Comprised of interest rate swaps, interest rate swaptions and forward contracts used as an economic hedge of mortgage servicing rights.

NOTE 7—MORTGAGE BANKING OPERATIONS:

Loans held for sale consist of the following.

(in thousands)	At June 30, 2012	At December 31, 2012
Single family residential	\$400,019	\$130,546
Multifamily residential	12,914	19,863
	\$412,933	\$150,409

Loans sold during the periods indicated consisted of the following.

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Single family residential	\$962,704	\$272,090	\$1,497,015	\$658,264
Multifamily residential	27,178	47,010	58,601	60,872
	\$989,882	\$319,100	\$1,555,616	\$719,136

Table of Contents

Net gain on mortgage loan origination and sale activities, including the effects of derivative risk management instruments, consisted of the following during the periods indicated.

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Secondary market gains ⁽¹⁾	\$29,051	\$969	\$45,485	\$(3,332)
Provision for repurchase losses ⁽²⁾	(1,930)	(304)	(2,320)	(463)
Net gain from secondary market activities	27,121	665	43,165	(3,795)
Mortgage servicing rights originated	11,295	6,136	18,817	13,495
Loan origination and funding fees	7,070	2,350	12,015	4,236
Net gain on mortgage loan origination and sale activities	\$45,486	\$9,151	\$73,997	\$13,936

Comprised of gains and losses on single family and Fannie Mae DUS loans, interest rate lock commitments and forward sale commitments used to economically hedge loans held for sale, less premiums paid to Windermere Mortgage Services Series LLC on loans purchased or committed to be purchased and the fair value of estimated future loan losses on repurchase or indemnity recognized on new loan sales.

(2) Represents increases in estimated probable future repurchase losses on previously sold loans.

The Company's portfolio of loans serviced for others is primarily comprised of loans held in U.S. government and agency mortgage-backed securities issued by Fannie Mae, Freddie Mac and Ginnie Mae. Loans serviced for others are not included in the consolidated financial statements as they are not assets of the Company. The composition of loans serviced for others is presented below at the unpaid principal balance.

(in thousands)	June 30, 2012	December 31, 2011
Single family residential mortgage loans		
U.S. government agency MBS	\$7,061,232	\$6,464,815
Other	407,750	420,470
	7,468,982	6,885,285
Commercial		
Multifamily	772,473	758,535
Other	56,840	56,785
	829,313	815,320
Total loans serviced for others	\$8,298,295	\$7,700,605

The Company has made representations and warranties that the loans sold meet certain requirements. The Company may be required to repurchase mortgage loans or indemnify loan purchasers due to defects in the origination process of the loan, such as documentation errors, underwriting errors and judgments, appraisal errors, early payment defaults and fraud. For further information on the Company's mortgage repurchase liability, see Note 8, Commitments, Guarantees and Contingencies to the Interim Consolidated Financial Statements in this Form 10-Q. The following is a summary of changes in the Company's liability for mortgage repurchase losses.

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Beginning balance	\$861	\$671	\$471	\$533
Additions ⁽¹⁾	2,215	304	2,605	463
Realized Losses ⁽²⁾	(957)	(155)	(957)	(176)
Balance, end of period	\$2,119	\$820	\$2,119	\$820

(1) Includes additions for new loan sales and changes in estimated probable future repurchase demands.

- (2) Includes principal losses and accrued interest on repurchased loans, “make-whole” settlements, settlements with claimants and certain related expense.

Table of Contents

Loans sold with recourse, such as certain single family residential loans, or as part of a loss sharing arrangement, such as multifamily loans, are included in the Company's loans serviced for others as follows.

(in thousands)	June 30, 2012	December 31 2011
Single family residential	\$289	\$347
Multifamily	772,473	758,535
	\$772,762	\$758,882

Advances are made to Ginnie Mae mortgage pools for delinquent loan and foreclosure costs and for funding of loans repurchased from Ginnie Mae mortgage pools prior to recovery of guaranteed amounts. Ginnie Mae advances of \$5.5 million and \$5.8 million were recorded in accounts receivable and other assets as of June 30, 2012 and December 31, 2011, respectively.

At June 30, 2012 and December 31, 2011, the Company recorded delinquent or defaulted mortgage loans currently in Ginnie Mae pools as if they had been repurchased, totaling \$4.8 million and \$2.3 million, respectively. For those Ginnie Mae pool loans previously sold that are more than 90 days past due, the Company has the unilateral right to repurchase the loans. Although this right has not been exercised, such loans have been recorded as repurchased for accounting purposes. An asset was recorded in loans held for investment along with a corresponding amount within accounts payable and accrued expenses as of June 30, 2012 and December 31, 2011. This accounting treatment does not impact the accounting for the previously recognized mortgage servicing rights.

Revenue from mortgage servicing, including the effects of derivative risk management instruments, consisted of the following.

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Servicing income, net:				
Servicing fees and other	\$6,705	\$6,736	\$13,142	\$12,814
Changes in fair value of single family MSR due to modeled amortization ⁽¹⁾	(4,052) (3,258) (9,022) (6,090
Amortization of multifamily MSRs	(462) (345) (953) (666
	2,191	3,133	3,167	6,058
Risk management, single family MSRs:				
Changes in fair value due to changes in model inputs and/or assumptions ⁽²⁾	(15,354) (4,194) (7,942) 317
Net gain from derivatives economically hedging MSR	20,254	8,774	19,739	7,186
	4,900	4,580	11,797	7,503
Mortgage servicing income	\$7,091	\$7,713	\$14,964	\$13,561

(1) Represents changes due to collection/realization of expected cash flows and curtailments over time.

(2) Principally reflects changes in model assumptions and prepayment speed assumptions, which are primarily affected by changes in interest rates.

All mortgage servicing rights ("MSRs") are initially measured and recorded at fair value at the time loans are sold. Single family MSRs are subsequently carried at fair value with changes in fair value reflected in earnings in the periods in which the changes occur.

The fair value of single family MSR's is determined based on the price that would be received to sell the MSR's in an orderly transaction between market participants at the measurement date. The Company determines fair value using a valuation model that calculates the net present value of estimated future cash flows. Estimates of future cash flows include contractual servicing fees, ancillary income and costs of servicing, the timing of which are impacted by assumptions, primarily prepayment speeds and discount rates, regarding the underlying performance of the loans.

Table of Contents

Key economic assumptions used in measuring the initial value of capitalized single family MSR were as follows.

(rates per annum) ⁽¹⁾	Three Months Ended June 30,		Six Months Ended June 30,		
	2012	2011	2012	2011	
Constant prepayment rate ⁽²⁾	11.36	% 12.43	% 10.68	% 10.68	%
Discount rate ⁽³⁾	10.28	% 10.51	% 10.33	% 10.39	%

(1) Weighted average rates for sales during the period for sales of loans with similar characteristics.

(2) Represents the expected lifetime average.

(3) Discount rate is a rate based on market observations.

The initial measurement of the fair value of the MSRs capitalized at the date of the loan sales with servicing retained is determined using a fair value model based on factors observed for similar assets, primarily market interest rates. The initial fair value is adjusted up or down depending on whether the underlying loan pool interest rate is at a premium, discount or par.

At June 30, 2012, key economic assumptions and the sensitivity of the current fair value for single family MSRs to immediate adverse changes in those assumptions were as follows.

(in thousands)	June 30, 2012	
Fair value of single family MSR	\$70,585	
Expected weighted-average life (in years)	4.01	
Constant prepayment rate ⁽¹⁾	21.09	%
Impact on fair value of 25 basis points decrease	\$(6,295))
Impact on fair value of 50 basis points decrease	\$(11,558))
Discount rate	10.7	%
Impact on fair value of 100 basis points increase	\$(1,899))
Impact on fair value of 200 basis points increase	\$(3,697))

(1) Represents the expected lifetime average.

These sensitivities are hypothetical and should be used with caution. As the table above demonstrates, the Company's methodology for estimating the fair value of MSRs is highly sensitive to changes in assumptions. For example, actual prepayment experience may differ and any difference may have a material effect on MSR fair value. Changes in fair value resulting from changes in assumptions generally cannot be extrapolated because the relationship of the change in assumption to the change in fair value may not be linear. Also, in this table, the effect of a variation in a particular assumption on the fair value of the MSRs is calculated without changing any other assumption; in reality, changes in one factor may be associated with changes in another (for example, decreases in market interest rates may indicate higher prepayments; however, this may be partially offset by lower prepayments due to other factors such as a borrower's diminished opportunity to refinance), which may magnify or counteract the sensitivities. Thus, any measurement of MSR fair value is limited by the conditions existing and assumptions made as of a particular point in time. Those assumptions may not be appropriate if they are applied to a different point in time.

Table of Contents

The changes in single family MSR measured at fair value are as follows.

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Beginning balance	\$79,381	\$89,947	\$70,169	\$81,197
Originations	10,598	5,187	17,321	12,255
Purchases	12	30	59	33
Changes due to modeled amortization ⁽¹⁾	(4,052) (3,258) (9,022) (6,090
Net additions and amortization	6,558	1,959	8,358	6,198
Changes due to changes in model inputs or assumptions ⁽²⁾	(15,354) (4,194) (7,942) 317
Ending balance	\$70,585	\$87,712	\$70,585	\$87,712

(1) Represents changes due to collection/realization of expected future cash flows over time

(2) Principally reflects changes in model assumptions or prepayment speed assumptions, which are primarily affected by changes in mortgage interest rates.

MSRs resulting from the sale of multifamily loans are subsequently carried at the lower of amortized cost or fair value.

Multifamily MSRs are recorded based on the estimated discounted cash flows and are amortized in proportion to, and over, the estimated period the net servicing income will be collected.

The changes in multifamily MSRs measured at the lower of amortized cost or fair value are as follows.

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
Beginning balance	\$7,420	\$6,005	\$7,112	\$6,035
Origination	697	948	1,496	1,239
Amortization	(462) (345) (953) (666
Ending balance	\$7,655	\$6,608	\$7,655	\$6,608

At June 30, 2012, the expected weighted-average life of the Company's multifamily MSRs was 8.91 years. Projected amortization expense for the gross carrying value of multifamily MSRs at June 30, 2012 is estimated as follows.

(in thousands)	June 30, 2012
2012	\$864
2013	1,467
2014	1,190
2015	993
2016	856
2017 and thereafter	2,285
Carrying value of multifamily MSR	\$7,655

NOTE 8—COMMITMENTS, GUARANTEES AND CONTINGENCIES:

Commitments

Commitments to extend credit are agreements to lend to customers in accordance with predetermined contractual provisions. These commitments may be for specific periods or contain termination clauses and may require the payment of a fee. The total amounts of unused commitments do not necessarily represent future credit exposure or cash requirements in those commitments may expire without being drawn upon.

Table of Contents

In the ordinary course of business, the Company makes unfunded loan commitments as part of its residential mortgage lending activities generally in the form of a written confirmation from the Company to the seller of a property that it will advance the specified sums enabling the buyer to complete the purchase of the property. Unfunded loan commitments totaled \$899.6 million (\$871.3 million fixed and \$28.3 million adjustable-rate commitments) at June 30, 2012 and \$256.9 million (\$250.2 million fixed and \$6.7 million adjustable-rate commitments) at December 31, 2011.

In the normal course of business, the Company extends secured and unsecured open-end loans to meet the financing needs of its customers. These commitments related to unused home equity lines of credit and business banking line funds totaled \$83.5 million and \$87.1 million at June 30, 2012 and December 31, 2011. Additionally, undistributed construction loan proceeds, where the Company has an obligation to advance funds for construction progress payments, was \$8.7 million and \$9.7 million at June 30, 2012 and December 31, 2011, respectively. The Company has recorded an allowance for losses on loan commitments, included in accounts payable and accrued expenses on our consolidated statements of financial condition, of \$215 thousand and \$110 thousand at June 30, 2012 and December 31, 2011, respectively.

Guarantees

In the ordinary course of business, the Company sells loans through the Fannie Mae Multifamily Delegated Underwriting and Servicing Program (“DUS®”) that are subject to a loss sharing relationship. For loans that have been sold through this program and are no longer on the Company's consolidated statement of financial condition, a liability is recorded for this loss sharing relationship under the accounting guidance for guarantees. As of June 30, 2012 and December 31, 2011, the total principal balance of loans sold under this program totaled \$772.5 million and \$758.5 million. The Company's reserve liability related to this program totaled \$3.7 million and \$3.6 million at June 30, 2012 and December 31, 2011, respectively. There were no actual losses incurred under this program during the three and six months ended June 30, 2012 and 2011.

Mortgage repurchase liability

In the ordinary course of business, the Company sells residential mortgage loans to government-sponsored entities (GSEs) that include the mortgage loans in GSE-guaranteed mortgage securitizations. In addition, the Company pools FHA-insured and VA-guaranteed mortgage loans that are used to back Ginnie Mae-guaranteed securities. The Company has made representations and warranties that the loans sold meet certain requirements. The Company may be required to repurchase mortgage loans or indemnify loan purchasers due to defects in the origination process of the loan, such as documentation errors, underwriting errors and judgments, early payment defaults and fraud.

In such cases, the Company would be exposed to any credit loss on the repurchased mortgage loans after accounting for any mortgage insurance or mortgage guaranty payments that it may receive. Generally, the maximum amount of future payments the Company would be required to make for breaches of these representations and warranties would be equal to the unpaid principal balance of such loans that are deemed to have defects that were sold to purchasers plus, in certain circumstances, accrued and unpaid interest on such loans and certain expense.

The Company does not typically receive repurchase requests from Ginnie Mae, FHA or VA. As an originator of FHA insured or VA guaranteed loans, the Company is responsible for obtaining the insurance with FHA or the guarantee with the VA. To the extent the Company is not able to obtain the insurance or the guarantee it must request to repurchase the loan from the Ginnie Mae pool. Such repurchases from Ginnie Mae pools typically represent a self-initiated process upon discovery of the uninsurable loan (generally within 180 days from funding of the loan). Alternatively, in lieu of repurchasing loans from Ginnie Mae pools, the Company may be asked by the FHA or the VA to indemnify them (as applicable) for defects. The Company's liability for mortgage loan repurchase losses incorporates probable losses associated with such indemnification.

At June 30, 2012 and December 31, 2011, the Company has recorded a mortgage repurchase liability, included in accounts payable and accrued expenses on our consolidated statements of financial condition, of \$2.1 million and \$0.5 million, respectively.

Contingencies

In the normal course of business, the Company may have various legal claims and other contingent matters outstanding for which a loss may materialize. For these matters the Company establishes a liability for contingent losses when it is probable that a loss has been incurred and the amount of loss can be reasonably estimated. For matters determined to be reasonably possible but not probable, there may be a range of possible losses in excess of the established liability. At June 30, 2012, we reviewed our legal matters and determined that there were no matters that are considered to be probable or reasonably possible of resulting in a loss. As a result, the Company did not have any amounts reserved for legal claims as of June 30, 2012.

Table of Contents

NOTE 9—INCOME TAXES:

Income tax (benefit) expense for the three and six months ended June 30, 2012 was \$3.4 million and \$1.6 million, compared with \$(17) thousand and \$26 thousand for the same periods in 2011. The Company's year-to-date income tax expense is based on a projected annual effective income tax rate, which excludes discrete tax benefits of \$6.3 million recognized year to date. The Company's effective tax rate differs from the Federal statutory tax rate of 35% primarily due to state income taxes on income in Oregon, Hawaii and Idaho, tax exempt income and a discrete tax benefit related to the full reversal of the Company's beginning of year valuation allowance against deferred tax assets. A valuation allowance is recognized for a deferred tax asset if, based on the weight of the available positive and negative evidence, it is more-likely-than-not that some portion of the entire deferred tax asset will not be realized. More weight is given to evidence that can be objectively verified. Primarily as a result of credit losses, the Company had a three year cumulative pre-tax loss position in 2009. A cumulative loss position is considered significant negative evidence in assessing the realizability of a deferred tax asset and is difficult to overcome and accordingly, the Company established a valuation allowance against the net deferred tax asset at September 30, 2009.

During the second quarter 2012, management analyzed the positive and negative evidence to determine if the benefit of its net deferred tax asset will more likely than not be realized. This evidence included the Company reporting five consecutive quarters of profitability, the future reversals of deferred tax assets and deferred tax liabilities over a similar period of time, future expectations of profitability, significant improvement in overall asset quality and related credit/risk metrics and the expectation that we will be able to exit a three-year cumulative pre-tax loss position in 2012. Based on these factors, we determined during the quarter ended June 30, 2012 that we had sufficient objective positive evidence to reverse the remaining valuation allowance.

As a consequence of our recent initial public offering, we believe the Company has experienced a change of control within the meaning of Section 382 of the Internal Revenue Code of 1986, as amended. Section 382 substantially limits the ability of a corporate taxpayer to use recognized built-in losses and net operating loss carryforwards incurred prior to the change of control against income earned after a change of control. Based on our analysis, the change of control will not result in a loss of deferred tax benefits other than a small impact on deferred tax assets related to state income taxes in Oregon.

The Company's income tax expense for the three and six months ended June 30, 2012 includes a discrete tax benefit of \$4.6 million and \$6.3 million, respectively, related to the reversal of the beginning of year valuation allowance against net deferred tax assets. We expect to have income tax expense through the remainder of the year and the effective tax rate will be recalculated quarterly.

At June 30, 2012 we had a net deferred tax asset of \$9.9 million compared with a net deferred tax liability of \$1.8 million at December 31, 2011. For further discussion of the Company's income taxes see Note 14—Income Taxes in Company's 2011 Annual Report on Form 10-K.

NOTE 10—FAIR VALUE MEASUREMENT:

For a further discussion of fair value measurements, including information regarding the Company's valuation methodologies and the fair value hierarchy, see Note 17, Fair Value Measurement of our 2011 Annual Report on Form 10-K.

Valuation Processes

The Company has various processes and controls in place to ensure that fair value is reasonably estimated. The Company's Asset/Liability Policy governs, among other things, the application and control of the valuation models used to estimate and measure fair value. On a quarterly basis the Company's Asset/Liability Management Committee (ALCO) and the Finance Committee of the Bank's Board of Directors review significant modeling variables used to measure the fair value of the Company's financial instruments, including the significant inputs used in the valuation of MSR. Additionally, at least annually ALCO commissions a complete review of the MSR validation process and procedures, including a review of the model architecture and the valuation assumptions. The Finance Committee of the Bank provides oversight and approves the Company's Asset/Liability Policy. The Company obtains an MSR valuation from an independent valuation firm at least quarterly to assist with the validation of the results and the reasonableness of the assumptions used during the valuation process.

The Company's real estate valuations are overseen by the Company's appraisal department, which is independent of the Company's lending and credit administration functions. The appraisal department maintains the Company's appraisal policy and recommends changes to the policy subject to the approval of Company's Loan Committee and the Credit Committee of the

Table of Contents

Bank's Board of Directors. The Company's appraisals are prepared by independent third-party appraisers and the Company's internal appraisers. Single family appraisals are generally reviewed by the Company's single family loan underwriters. Single family appraisals with unusual, higher risk or complex characteristics, as well as commercial real estate appraisals, are reviewed by the Company's appraisal department.

The following table summarizes the fair value measurement methodologies, including significant inputs and assumptions, and classification of the Company's assets and liabilities.

Asset/Liability class	Valuation methodology, inputs and assumptions	Classification
Cash and cash equivalents	Carrying value is a reasonable estimate of fair value based on the short-term nature of the instruments. Observable market prices of identical or similar securities are used where available.	Estimated fair value classified as Level 1.
Investment securities available for sale	If market prices are not readily available, value is based on discounted cash flows with the following significant inputs: <ul style="list-style-type: none"> • Expected prepayment speeds • Credit loss estimates • Market liquidity 	Level 2 recurring fair value measurement
Loans held for sale	Fair value is based on observable market data: <ul style="list-style-type: none"> • Quoted market prices, where available • Dealer quotes for similar portfolios • Forward sale commitments 	Level 2 recurring fair value measurement
Single-family loans	The sale price is set at the time the loan commitment is made, and as such subsequent changes in market conditions have a very limited effect, if any, on the value of these loans carried on the balance sheet, which are typically sold within 30 days of origination.	Carried at lower of amortized cost or fair value.
Multifamily loans		Estimated fair value classified as Level 2.
Loans held for investment	Fair value is based on discounted cash flows, which considers the following inputs: <ul style="list-style-type: none"> • Current lending rates for new loans • Expected prepayments • Credit loss estimates 	For the carrying value of loans see Note 1—Summary of Significant Accounting Policies of our 2011 Annual Report on Form 10-K.
Loans held for investment, excluding collateral dependent loans		Estimated fair value classified as Level 3.
Loans held for investment – collateral dependent	Fair value is based on appraised value of collateral, which considers sales comparison and income approach methodologies. Adjustments are made for various factors, which may include:	Carried at lower of amortized cost or fair value of collateral, less the estimated cost to sell.

Edgar Filing: HomeStreet, Inc. - Form 10-Q

- Adjustments for variations in specific property qualities such as location, physical dissimilarities, market conditions at the time of sale, income producing characteristics and other factors
 - Adjustments to obtain “upon completion” and “upon stabilization” values (e.g., property hold discounts where the highest and best use would require development of a property over time)
 - Bulk discounts applied for sales costs, holding costs and profit for tract development and certain other properties
- Classified as a Level 3 nonrecurring fair value measurement in periods where carrying value is adjusted to reflect the appraised value of collateral.

Table of Contents

Asset/Liability class	Valuation methodology, inputs and assumptions	Classification
Mortgage Servicing Rights		
Single family MSR	For information on how the Company measures the fair value of its MSRs, including key economic assumptions and the sensitivity of Single Family MSR fair value to changes in those assumptions, see Note 8–Mortgage Banking Operations of this Form 10-Q.	Level 3 recurring fair value measurement
Multifamily MSR	Fair value is based on discounted estimated future net servicing income cash flows. The fair value is based on quoted prices for identical or similar instruments, when available. When quoted prices are not available, fair value is based on internally developed modeling techniques, which require the use of multiple observable market inputs including:	Carried at lower of amortized cost or fair value Estimated fair value classified as Level 3.
Derivatives	<ul style="list-style-type: none"> • Forward interest rates • Interest rate volatilities 	Level 2 recurring fair value measurement
Other real estate owned (“OREO”)	Fair value is based on appraised value of collateral, less the estimated cost to sell. See discussion of loans held for investment –collateral dependent above for further information on appraisals.	Carried at lower of amortized cost or fair value of collateral (Level 3), less the estimated cost to sell. Carried at par value.
Federal Home Loan Bank Stock	Carrying value approximates fair value as FHLB stock can only be purchased or redeemed at par value.	Estimated fair value classified as Level 2.
Deposits		Carried at historical cost.
Demand deposits	Fair value is estimated as the amount payable on demand at the reporting date.	Estimated fair value classified as Level 2. Carried at historical cost.
Fixed-maturity certificates of deposit	Fair value is estimated using discounted cash flows based on market rates currently offered for deposits of similar remaining maturities.	Estimated fair value classified as Level 2. Carried at historical cost.
Federal Home Loan Bank Advances	Fair value is estimated using discounted cash flows based on rates currently available for advances with similar terms and remaining maturities.	Estimated fair value classified as Level 2. Carried at historical cost.
Long-term debt	Fair value is estimated using discounted cash flows based on current lending rates for similar long-term debt instruments with similar maturities.	Estimated fair value classified as Level 2.

Table of Contents

The following presents the hierarchy level for the Company's assets and liabilities measured at fair value on a recurring basis.

(in thousands)	Fair Value at June 30, 2012	Level 1	Level 2	Level 3

There were no transfers between levels of the fair value hierarchy for assets and liabilities held as of June 30, 2012 and December 31, 2011 during the respective six- and twelve-month reporting periods. For information regarding fair value changes and activity for single family MSR's during the six months ended June 30, 2012 and 2011, see Note 8—Mortgage Banking Operations of this Form 10-Q.

Certain assets held by the Company are not included in the tables above, but are measured at fair value on a nonrecurring basis. These assets include certain loans held for investment and other real estate owned that are carried at the lower of cost or fair value, less the estimated cost to sell. The following presents only those assets that were recorded at fair value during the three and six months ended June 30, 2012 and 2011 and still held at the end of the respective reporting period.

(in thousands)	For the Three Months Ended June 30, 2012				Total Gains (Losses)
	Fair Value of Assets Still Held at June 30, 2012	Level 1	Level 2	Level 3

(in thousands)	For the Six Months Ended June 30, 2011				
	Fair Value of				
	Assets Still	Level 1	Level 2	Level 3	Total Gains
	Held at June				(Losses)
	30, 2011				
Loans held for investment ⁽¹⁾	\$120,472	—	—	\$120,472	\$(12,342)
Other real estate owned ⁽²⁾	101,756	—	—	101,756	(15,001)
Total	\$222,228	\$—	\$—	\$222,228	\$(27,343)

(1) Represents the carrying value of loans for which adjustments are based on the fair value of the collateral.

(2) Represents other real estate owned where an updated fair value of collateral is used to adjust the carrying amount subsequent to the initial classification as other real estate owned.

The following information presents significant Level 3 unobservable inputs used to measure fair value on a nonrecurring basis during the three and six months ended June 30, 2012.

(dollars in thousands)	Fair Value at June 30, 2012	Valuation Technique	Significant Unobservable Input	Three months ended June 30, 2012	
				Low	High
Loans held for investment	\$36,505	Sales comparison approach	Comparable sale adjustments ⁽¹⁾	6%	57%
			Income approach	Capitalization rate	6%
Other real estate owned	\$12,412	Sales comparison approach	Comparable sale adjustments ⁽¹⁾	0%	57%
			Other discounts ⁽²⁾	4%	52%
(dollars in thousands)	Fair Value at June 30, 2012	Valuation Technique	Significant Unobservable Input	Six Months Ended June 30, 2012	
				Low	High
Loans held for investment	\$37,752	Sales comparison approach	Comparable sale adjustments ⁽¹⁾	0%	65%
			Other discounts ⁽²⁾	28%	74%
Other real estate owned	\$21,885	Income approach Sales comparison approach	Capitalization rate	6%	11%
			Comparable sale adjustments ⁽¹⁾	0%	70%
			Other discounts ⁽²⁾	4%	64%

(1) Represents the range of gross adjustments reflecting differences between a comparable sale and the property being appraised. Because an adjustment relates to only one of many market factors used to compare property values, such

adjustments are not representative of the overall increase or decrease to the appraised value as a whole.

(2) Includes bulk sale discounts applied to the aggregate retail value of tract development properties, accelerated marketing period discounts and time-hold or other discounts applied to derive the “as is” market value of certain properties requiring a holding period before reaching a state of feasibility or completion (e.g., “upon completion” or “upon stabilization” value).

The Company's property appraisals are primarily based on the sales comparison approach and income approach methodologies, which consider recent sales of comparable properties, including their income generating characteristics, and then make adjustments to reflect the general assumptions that a market participant would undergo when analyzing the property for purchase. These adjustments may increase or decrease an appraised value and can vary significantly depending on the location,

Table of Contents

physical characteristics and income producing potential of each individual property. Additionally, the quality and volume of market information available at the time of the appraisal can vary from period-to-period and cause significant changes to the nature and magnitude of comparable sale adjustments. Given these variations, comparable sale adjustments are generally not a reliable indicator for how fair value will increase or decrease from period to period. Under certain circumstances, management discounts are applied based on specific characteristics of an individual property.

The following presents the carrying values and the hierarchy of the fair values of the Company's financial instruments other than assets and liabilities measured at fair value on a recurring basis.

(in thousands)	June 30, 2012				
	Carrying Value	Fair Value	Level 1	Level 2	Level 3
Assets:					
Cash and cash equivalents	\$75,063	\$75,063	\$75,063	\$—	\$—
Loans held for investment	1,235,253	1,276,936	—	—	1,276,936
Loans held for sale – Multifamily	12,914	12,914	—	12,914	—
Mortgage servicing rights – Multifamily	7,655	9,062	—	—	9,062
Federal Home Loan Bank stock	37,027	37,027	—	37,027	—
Liabilities:					
Deposits	\$1,904,749	\$1,905,503	\$—	\$1,905,503	\$—
Federal Home Loan Bank advances	65,590	69,607	—	69,607	—
Securities sold under agreements to repurchase	100,000	100,007	—	100,007	—
Long-term debt	61,857	60,246	—	60,246	—

(in thousands)	December 31, 2011	
	Carrying Value	Fair Value
Assets:		
Cash and cash equivalents	\$263,302	\$263,302
Loans held for investment	1,300,873	1,349,680
Loans held for sale – Multifamily	19,863	19,863
Mortgage servicing rights – Multifamily	7,112	8,444
Federal Home Loan Bank stock	37,027	37,027
Liabilities:		
Deposits	\$2,009,755	\$2,012,708
Federal Home Loan Bank advances	57,919	63,243
Long-term debt	61,857	60,591

Excluded from the fair value tables above are certain off-balance sheet loan commitments such as unused home equity lines of credit, business banking line funds and undisbursed construction funds. A reasonable estimate of the fair value of these instruments is the carrying value of deferred fees plus the related allowance. This amounted to \$498 thousand and \$413 thousand at June 30, 2012 and December 31, 2011, respectively.

Table of Contents

NOTE 11—DEPOSITS:

Money market accounts, due on demand 0.00% to 1.55%	630,798	499,457
Certificates of deposit 0.20% to 5.00%	755,646	1,033,798
	\$1,904,749	\$2,009,755

Interest expense on deposits consists of the following.

(in thousands)	Three Months Ended June 30,		Six Months Ended June 30,	
	2012	2011	2012	2011
NOW accounts	\$124	\$162	\$239	\$318
Statement savings accounts	93	94	176	184
Money market accounts	816	806	1,536	1,582
Certificates of deposit	3,165	5,476	7,126	11,495
	\$4,198	\$6,538	\$9,077	\$13,579

There were no public funds included in deposits as of June 30, 2012 and December 31, 2011.

The weighted-average interest rate on certificates of deposit at June 30, 2012 and December 31, 2011 was 1.55% and 1.66%, respectively.

Certificates of deposit outstanding as of June 30, 2012, mature as follows.

(in thousands)	June 30, 2012
Within one year	\$590,946
One to two years	104,261
Two to three years	41,057
Three to four years	7,805
Four to five years	11,577
	\$755,646

The aggregate amount of time deposits in denominations of \$100,000 or more at June 30, 2012 and December 31, 2011 was \$327.2 million and \$454.5 million, respectively. The aggregate amount of time deposits in denominations of more than \$250,000 at June 30, 2012 and December 31, 2011 was \$48.7 million and \$67.3 million, respectively. There were no brokered deposits as of June 30, 2012 or December 31, 2011.

NOTE 12—SECURITIES SOLD UNDER AGREEMENTS TO REPURCHASE:

The Company enters into security repurchase agreements primarily to finance its loan origination and sale activities. All of the Company's repurchase agreements are treated as secured borrowings on the consolidated statements of financial condition and are carried at the amounts at which the securities will be subsequently repurchased, plus

accrued interest. Fees paid in connection with security repurchase agreements are recorded in interest expense. At June 30, 2012 and December 31, 2011, the Company had \$100.0 million and \$0, respectively, of securities sold under agreements to repurchase. At June 30, 2012 and December 31, 2011 the Company had pledged securities under these agreements that may not be sold or repledged by the secured parties with a carrying value of \$115.3 million and \$0, respectively.

NOTE 13—SHARE-BASED COMPENSATION PLANS:

For the three months ended June 30, 2012 and 2011, \$1.9 million and \$3 thousand of compensation costs, respectively, were recognized for share-based compensation awards. For the six months ended June 30, 2012 and 2011, \$2.2 million and \$8 thousand of compensation costs, respectively, was recognized for share-based compensation awards.

2010 Equity Incentive Plan

In January 2010, the shareholders approved the Company's 2010 Equity Incentive Plan (the "2010 EIP"). Under the 2010 EIP, all of the Company's officers, employees, directors and/or consultants are eligible to receive awards. Awards which may be granted under the 2010 EIP include Incentive Stock Options, Nonqualified Stock Options, Stock Appreciation Rights, Restricted Stock Awards, Restricted Stock Unit Awards, Stock Bonus Awards and Incentive Bonus Awards, or a combination of the foregoing. This plan became effective during February 2012, upon the completion of the Company's initial public offering. The maximum amount of HomeStreet, Inc. common stock available for grant under the 2010 EIP is 706,306 shares.

Nonqualified Stock Options

Upon the successful completion of the initial public offering in February of 2012, nonqualified options were granted to key senior management personnel. A summary of changes in nonqualified stock options granted, but not vested, for the six months ended June 30, 2012, is as follows.

	Number	Weighted Average Exercise Price	Weighted Average Remaining Contractual Term (in yrs.)	Aggregate Intrinsic Value ⁽²⁾ (in thousands)
Options outstanding at December 31, 2011	228,800	\$ 1.53	8.9	\$ 3,540
Granted	267,825	22.06	9.6	2,660
Cancelled or forfeited	(3,500)	1.50	—	107
Exercised	—	—	—	—
Options outstanding at June 30, 2012	493,125	12.68	9.0	9,523
Options that are exercisable and expected to be exercisable ⁽¹⁾	486,800	12.60	9.0	9,440
Options exercisable	175,100	1.53	8.4	5,334

(1) Adjusted for estimated forfeitures.

(2) Intrinsic value is the amount by which fair value of the underlying stock exceeds the exercise price.

No options have been exercised under this plan from issuance through June 30, 2012, and as such there is no cash received or income tax benefits to exercised options. As of June 30, 2012, there were \$1.4 million of total unrecognized compensation costs related to stock options. Compensation costs are recognized over the requisite service period, which typically is the vesting period. Unrecognized compensation costs are expected to be recognized over the remaining weighted-average requisite service period of 2.4 years.

As observable market prices are generally not available for estimating the fair value of stock options, an option-pricing model is utilized to estimate fair value. The fair value of the options granted during the six months ended June 30, 2012 was estimated as of the grant date using a Black-Scholes Merton ("Black-Scholes") model and the

assumptions noted in the following table.

Expected term of the option	6 years	
Expected stock price volatility	34.73	%
Annual risk-free interest rate	1.38	%
Expected annual dividend yield	2.67	%

The expected term of six years is an estimate based on an expectation that the holders of the stock options, once vested, will exercise them – ultimately reflecting the settlement of all vested options. As the Company does not have historical exercise behavior to reference for these types of options, the Company leveraged the “simplified” method for estimating the expected term of these “plain-vanilla” stock options.

Table of Contents

When estimating expected volatility and the dividend yield, the Company considered historical data of other similar entities that are publicly traded over a period commensurate with the life of the options. A single median was derived for each input from this population of banks.

Restricted Shares

Upon the completion of the initial public offering in February of 2012, restricted shares were granted to key senior management personnel, and non-employee directors. A summary of the status of these restricted shares follows.

	Number	Weighted Average Grant Date Fair Value
Restricted shares outstanding at December 31, 2011	—	\$—
Granted	99,042	22.05
Cancelled or forfeited	—	—
Vested	(88,545) —
Restricted shares outstanding at June 30, 2012	10,497	22.33
Nonvested at June 30, 2012	10,497	22.33

At June 30, 2012, there was \$206 thousand of total unrecognized compensation cost related to nonvested restricted shares. Unrecognized compensation costs are generally expected to be recognized over a weighted average period of 3.1 years. Restricted shares granted to non-employee directors vest one-third at each one year anniversary from the grant date. However, for the restricted stock awards granted to senior management in connection with the initial public offering, the performance goals required to be met for certain vesting events to occur were achieved prior to that expectation, therefore any unrecognized compensation costs associated with the portion of restricted shares that vested earlier than expected were immediately recognized in earnings. These restricted shares granted to key senior management personnel in February 2012 became vested based upon the achievement of certain market conditions: one-third vested when the 30-day rolling average share price exceeded 25% of the grant date fair value; one-third vested when the rolling average share price exceeded 40% of the grant date fair value; and one-third vested when the 30 day rolling average share price exceeded 50% of grant date fair value. Due to the increase in our stock price during the second quarter of 2012, these restricted stock grants were fully vested prior to June 30, 2012, and the Company recognized \$1.7 million and \$2.0 million in compensation expense for restricted shares during the three and six months ended June 30, 2012, respectively, predominantly related to the vesting of those 88,545 restricted shares.

NOTE 14—EARNINGS PER SHARE:

The following table summarizes the calculation of earnings per share for the three and six months ended June 30, 2012 and 2011.

(in thousands, except share data)	For the three months ended		For the six months ended June	
	June 30, 2012	2011	30, 2012	2011
Net income (loss)	\$17,996	\$1,284	\$37,047	\$(6,165)
Weighted average shares:				
Basic weighted-average number of common shares outstanding	7,126,060	2,701,749	6,136,171	2,701,749
	285,972	135,942	249,928	67,971

Edgar Filing: HomeStreet, Inc. - Form 10-Q

Dilutive effect of outstanding common stock equivalents ⁽¹⁾				
Diluted weighted-average number of common stock outstanding	\$7,412,032	\$2,837,691	\$6,386,099	\$2,769,720
Earnings per share:				
Basic earnings (loss) per share	\$2.53	\$0.48	\$6.04	\$(2.28)
Diluted earnings (loss) per share	\$2.43	\$0.45	\$5.80	\$(2.23)

Excluded from the computation of diluted earnings per share for the three and six months ended June 30, 2012 were certain options (due to their antidilutive effect) and unvested restricted stock issued to key senior management (1) personnel and directors of the Company. The aggregate number of common stock equivalents from such options and unvested restricted shares was 3,834 at June 30, 2012. There were no outstanding common stock equivalents during the three and six months ended June 30, 2011.

Table of Contents

NOTE 15–BUSINESS SEGMENTS:

The Company has identified four business lines for the purposes of management reporting: Community Banking; Single Family Lending; Income Property Lending; and Residential Construction Lending. The results for these lines of business are based on a management accounting process that assigns income statement items to each responsible operating segment. This process is dynamic and, unlike financial accounting, there is no comprehensive, authoritative guidance for management accounting equivalent to GAAP. Our approach has focused, in the years presented, on managing revenues and expenses by segment and in total. The management accounting process measures the performance of the operating segments based on the Company's management structure and is based on management's view of the Company's operations and is not necessarily comparable with similar information for other financial services companies. The Company defines its operating segments by product type and customer segment. If the management structure and/or the allocation process changes, allocations, transfers and assignments may change.

Community Banking provides diversified financial products and services to our consumer and business customers, including deposit products, investment products, insurance products, cash management services and consumer and business loans.

Single Family Lending purchases and originates single family residential mortgage loans directly and through our relationship with Windermere Mortgage Services Series LLC for sale into the secondary market. This segment also originates and services loans for our portfolio on a selective basis, including home equity loans and lines of credit.

Income Property Lending originates commercial real estate loans with a focus on multifamily lending through its Fannie Mae DUS business. These loans are sold to or securitized by Fannie Mae, and we generally continue to service them after the sale. We also originate commercial construction and land loans, bridge loans and permanent loans for our own portfolio.

Residential Construction Lending originates and services residential construction loans for our own portfolio, focusing on single family home construction that is short duration in nature. Generally we will not lend on land development projects or raw land.

The All Other category includes corporate items not specific to an operating segment and elimination of certain items that are included in more than one business segment, including: (1) asset/liability management which includes interest rate risk, liquidity position and capital. Asset/liability management responsibilities involve managing the Company's portfolio of investment securities and providing oversight and direction across the enterprise over matters impacting the Company's balance sheet and off-balance sheet risk. Such activities include determining the optimal production composition and concentration of loans in the loan portfolio, the appropriate mix of funding sources at any given point in time and the allocation of capital resources to the business segments; (2) general corporate overhead costs associated with the Company's facilities, legal, accounting and finance functions, human resources, and technology services; and (3) the residual impact of our cost allocation processes.

We use various management accounting methodologies to assign certain income statement items to the responsible operating segment, including:

- a funds transfer pricing ("FTP") system, which allocates interest income credits and funding charges between the operating segments and the Treasury division within the All Other category, which then assigns to each segment a funding credit for its liabilities, such as deposits, and a charge to fund its assets;
- an allocation of charges for services rendered to the segments by centralized functions, such as corporate overhead, which are generally based on each segment's consumption patterns; and
- an allocation of the Company's consolidated income taxes which are based on the effective tax rate applied to the segment's pretax income or loss.

Effective January 1, 2012 management updated the FTP methodology it uses for reviewing segment results and managing the Company's lines of business. Under the previous FTP methodology, we computed the cost of funds from our current period's financial results and then allocated a portion of that cost of funds to each respective business segment. This approach was based on internal financial results and updated for current period information, thereby providing an updated funding cost applied to certain assets or liabilities originated in prior periods.

The updated methodology is based on external market factors and more closely aligns the expected weighted-average life of the financial asset or liability to external economic data, such as the U.S. Dollar LIBOR/Swap curve, and provides a more consistent basis for determining the cost of funds to be allocated to each business segment. The updated approach is also more

Table of Contents

consistent with FTP measurement techniques employed by other industry participants. We have reclassified all prior period amounts to conform to the current period's methodology and presentation.

In general, the impact of the FTP change resulted in a lower cost of funds as compared with the previous method as the Company's funding costs have generally been higher than market prices due to the historical structure of the deposit portfolio and wholesale borrowings.

Financial highlights by operating segment were as follows.

	Three Months Ended June 30, 2012

Net income (loss)	\$(11,324)	\$ 8,691	\$4,017	\$(15,568)	\$8,019	\$(6,165)

Net interest income is the difference between interest earned on assets and cost of liabilities to fund those assets.

Interest earned includes actual interest earned on segment assets and, if the segment has excess liabilities, interest (1) credits for providing funding to other segments. The cost of liabilities includes interest expense on segment liabilities and, if the segment does not have enough liabilities to fund its assets, a funding charge based on the cost of excess liabilities from another segment or category.

NOTE 16—SUBSEQUENT EVENTS:

We have evaluated all material events that occurred subsequent to June 30, 2012 and have determined that there are no subsequent events that require disclosure.

ITEM 2. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL
CONDITION AND RESULTS OF OPERATIONS

FORWARD-LOOKING STATEMENTS

This Form 10-Q and the documents incorporated by reference contain, in addition to historical information, "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Securities Exchange Act of 1934, as amended (the "Exchange Act"). These statements relate to our future plans, objectives, expectations, intentions and financial performance, and assumptions that underlie these statements. All statements other than statements of historical fact are "forward-looking statements" for the purposes of these provisions, including:

the factors referenced in this Form 10-Q including, but not limited to, those listed under Item 1A "Risk Factors" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" and elsewhere in this Form 10-Q.;

- our ability to manage the credit risks of our lending activities, including potential increases in loan delinquencies, nonperforming assets and write offs, decreased collateral values, inadequate loan reserve amounts and the effectiveness of our hedging strategies;
- general economic conditions, either nationally or in our market area, including a continuation or worsening of the decline in the housing market, employment trends, business contraction, consumer confidence, real estate values and other recessionary pressures;
- changes in the levels of general interest rates, deposit interest rates, our net interest margin and funding sources;
- potential changes in interest rates which may affect demand for our products as well as the success of our interest rate risk management strategies;
- compliance with regulatory requirements, including new laws and regulations such as the Dodd-Frank Act as well as restrictions that may be imposed by the FDIC, the DFI, the Federal Reserve or other regulatory authorities pursuant to the Company cease and desist order, the Bank's memorandum of understanding with its regulators, or other discretionary enhanced supervision which could adversely affect our capital, liquidity and earnings;
- compliance with requirements of investors and/or government-owned or sponsored entities, including Fannie Mae, Freddie Mac, Ginnie Mae, FHA/HUD and VA;
- our ability to control costs while meeting operational needs and retaining key members of our senior management team and other key managers and business producers;
- the possibility of a significant reduction in our mortgage banking profitability if we are not able to or are limited in our ability to resell mortgages;
- increased competition in our industry due in part to consolidation;
- any projections of revenues, estimated operating expenses or other financial items;
- any statements of the plans and objectives of management for future operations or programs;
- any statements regarding future operations, plans, or regulatory approvals;
- any statements concerning proposed new products or services;
- any statements regarding pending or future mergers or acquisitions; and
- any statement regarding future economic conditions or performance, and any statement of assumption underlying any of the foregoing.

When used in this Form 10-Q, terms such as "anticipates," "believes," "continue," "could," "estimates," "expects," "intends," "plans," "potential," "predicts," "should," or "will" or the negative of those terms or other comparable terms are intended to identify such forward-looking statements. These statements involve known and unknown risks, uncertainties and other factors that may cause industry trends or actual results, level of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these statements. Our actual results may differ significantly from the results discussed in such forward-looking statements.

Table of Contents

We do not intend to update any of the forward-looking statements after the date of this Form 10-Q to conform these statements to actual results or changes in our expectations. Readers are cautioned not to place undue reliance on these forward-looking statements, which apply only as of the date of this Form 10-Q.

You may review a copy of this quarterly report on Form 10-Q, including exhibits and any schedule filed therewith, and obtain copies of such materials at prescribed rates, at the Securities and Exchange Commission's Public Reference Room in Room 1580, 100 F Street, NE, Washington, D.C. 20549-0102. You may obtain information on the operation of the Public Reference Room by calling the Securities and Exchange Commission at 1-800-SEC-0330. The Securities and Exchange Commission maintains a website (<http://www.sec.gov>) that contains reports, proxy and information statements and other information regarding registrants, such as HomeStreet, Inc., that file electronically with the Securities and Exchange Commission.

(1) Per share data shown after giving effect to the 2-for-1 forward stock split implemented on March 6, 2012 as well as the 1-for-2.5 reverse stock split implemented on July 19, 2011.

(2) Net earnings (loss) available to common shareholders divided by average common shareholders' equity.

(3) Net interest income divided by total interest earning assets on a tax equivalent basis.

(4) The efficiency ratio is noninterest expense divided by total revenue (net interest income and noninterest income).

(5) Generally, loans are placed on nonaccrual status when they are 90 or more days past due.

(6) We include an operating efficiency ratio which is not calculated based on accounting principles generally accepted in the United States ("GAAP"), but which we believe provides important information regarding our results of operations. Our calculation of the operating efficiency ratio is computed by dividing noninterest expense less costs

Edgar Filing: HomeStreet, Inc. - Form 10-Q

related to OREO (gains (losses) on sales, valuation allowance adjustments, and maintenance and taxes) by total revenue (net interest income and noninterest income). Management uses this non-GAAP measurement as part of its assessment of performance in managing noninterest expense. We believe that costs related to OREO are more appropriately considered as credit-related costs rather than as an indication of our operating efficiency. The following table provides a reconciliation of non-GAAP to GAAP measurement.

The following discussion should be read in conjunction with the Interim Consolidated Financial Statements and the related Notes included in Part I, Item 1 of this Form 10-Q for the quarter ended June 30, 2012. The following discussion contains statements using the words “anticipate,” “believe,” “could,” “estimate,” “expect,” “intend,” “may,” “plan,” “potential,” “should,” “will,” “would” and similar expressions (or the negative of these terms) that generally identify forward-looking statements. Such statements involve inherent risks and uncertainties, many of which are difficult to predict and are generally beyond the control of the Company and are subject to risks and uncertainties, including, but not limited to, those discussed below and elsewhere in this Form 10-Q. For further discussion of such risks and uncertainties, see Part I, Item IA of HomeStreet’s Annual Report on Form 10-K for the year ended December 31, 2011, filed with the Securities and Exchange Commission (“2011 Annual Report on Form 10-K”). Although we believe that expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. We do not intend to update any of the forward-looking statements after the date of this Form 10-Q to conform these statements to actual results or changes in our expectations. Readers are cautioned not to place undue reliance on these forward-looking statements, which apply only as of the date of this Form 10-Q.

Management’s Overview of Second Quarter 2012 Financial Performance

We are a 91-year-old diversified financial services company headquartered in Seattle, Washington, serving consumers and businesses in the Pacific Northwest and Hawaii. Our primary subsidiaries are HomeStreet Bank (the “Bank”) and HomeStreet Capital Corporation. HomeStreet Bank is a Washington state-chartered savings bank that provides deposit and investment products and cash management services. HomeStreet Bank also provides loans for single family homes, commercial real estate, construction and commercial businesses. HomeStreet Capital Corporation, a Washington corporation, originates, sells and services multifamily mortgage loans under the Fannie Mae Delegated Underwriting and Servicing Program (“DUS[®]”), in conjunction with HomeStreet Bank. We also provide insurance products and services for consumers and businesses as HomeStreet Insurance and loans for single family homes through an affiliated business arrangement, Windermere Mortgage Services Series LLC (“WMS LLC”).

We generate revenue through positive “net interest income” and by earning “noninterest income.” Net interest income is primarily the difference between our interest income earned on loans and investment securities less the interest we pay on deposits and other borrowings. We earn noninterest income from the origination, sale and servicing of loans and fees earned on deposit services and investment and insurance sales.

At June 30, 2012, we had total assets of \$2.42 billion, net loans held for investment of \$1.24 billion, deposits of \$1.90 billion and shareholders’ equity of \$214.0 million.

Our reported net income for the second quarter of 2012 represents our fifth consecutive quarter of profitability reflecting substantial progress in the execution of our plan to address the negative impact of the economic downturn on the Company’s financial condition, results of operations and risk profile. As discussed below, during the first half of 2012 we improved or expanded major components of our business, including recapitalizing the Company, upgrading the Bank’s regulatory standing, expanding our mortgage origination capacity, improving the quality of our deposits and recognizing significantly improved results of operations.

¹ DUS® is a registered trademark of Fannie Mae.

Table of Contents

Financial Performance

For second quarter 2012, net income was \$18.0 million, or \$2.43 per diluted share, on net revenue of \$70.2 million, compared with net income of \$1.3 million, or \$0.45 per share, on net revenue of \$30.5 million for the second quarter 2011. For the first six months of 2012, net income was \$37.0 million, or \$5.80 per diluted share, on net revenue of \$122.2 million, compared with a net loss of \$6.2 million, or \$2.23 net loss per share, on net revenue of \$56.4 million, for the first half of the prior year. Current-year results included income tax expense of \$3.4 million for second quarter 2012, and \$1.6 million for the first half of 2012, which includes a benefit related to the release of the remaining valuation allowance with respect to the Company's net deferred tax assets.

Net interest income, on a tax equivalent basis, for second quarter 2012 increased \$3.2 million or 26.3%, to \$15.1 million from \$12.0 million a year ago. For the first six months of 2012 net interest income, on a tax equivalent basis, increased \$4.7 million or 19.9%, to \$28.4 million from \$23.6 million in the same period last year. Our net interest margin for the second quarter of 2012 improved to 2.83% from 2.35% in the second quarter of 2011 and for the first half of 2012 improved to 2.68% from 2.26% in the same period in the prior year. The improvement in our net interest income over these periods in large part reflects the execution of our deposit product and pricing strategy, increased average balances of loans held for sale and the investment of proceeds from our initial public offering, thereby increasing the average balance of interest earning assets for the first six months of 2012.

Provision for credit losses was \$2.0 million for second quarter 2012, and the first half of 2012, compared to \$2.3 million for the same periods in the prior year. Asset quality trends continue to improve as nonaccrual loans declined to \$33.1 million at June 30, 2012, a decrease of \$43.4 million or 56.7%, from \$76.5 million at December 31, 2011.

Noninterest income was \$55.5 million in the second quarter 2012, an increase of \$36.9 million, or 198.2%, from \$18.6 million in the second quarter 2011. For the first six months of 2012, noninterest income was \$94.6 million, an increase of \$61.7 million, or 187.4%, from \$32.9 million for the first half of the prior year. Our noninterest income is heavily dependent upon our single family mortgage banking activities, which are comprised of mortgage origination and sale activities and mortgage servicing activities. The increase in noninterest income is predominantly due to higher net gain on mortgage loan origination and sale activities, which increased \$36.3 million for second quarter of 2012 and \$60.1 million for the first half of 2012 as compared to the same periods in 2011, totaling \$45.5 million for second quarter 2012 and \$74.0 million for the first half of 2012, compared with \$9.2 million and \$13.9 million for the same periods in the prior year.

Noninterest expense was \$46.8 million for second quarter 2012, an increase of \$19.9 million, or 73.8%, from \$27.0 million a year ago. Noninterest expense was \$81.5 million for the first half of 2012, an increase of \$21.3 million, or 35.3%, from \$60.3 million for the same period in the prior year. Noninterest expense increased primarily due to salary and related costs, which increased \$16.5 million for second quarter 2012 and \$25.7 million for the first half of 2012 as compared to the same periods a year ago, reflecting higher incentive compensation expenses and an increase in employees as we expanded our mortgage origination and support personnel and added lending and support personnel in our lending lines of business. For the first six months of 2012, this increase was offset by lower OREO expenses, as valuation losses decreased compared with the same period a year ago.

Income tax expense was \$3.4 million for second quarter 2012 as compared to a tax benefit of \$17 thousand in the second quarter of 2011. For the first six months of 2012, income tax expense was \$1.6 million compared with \$26 thousand for the first six months of 2011. The Company's 2012 year-to-date income tax expense of \$1.6 million is based on a projected annual effective income tax rate, which excludes discrete benefits recognized year to date. The Company's effective tax rate differs from the Federal statutory tax rate of 35% primarily due to state income taxes on income in Oregon, Hawaii and Idaho, tax exempt income and a discrete tax benefit of \$6.3 million related to the reversal of the Company's beginning of year valuation allowance against deferred tax assets. The reversal of the

valuation allowance in the second quarter was based on the Company's assessment of its ability to fully realize its deferred tax assets in the future.

Table of Contents

Credit Quality

Management believes that the Company's allowance for loan losses is at a level appropriate to cover estimated incurred losses inherent within the loans held for investment portfolio. Our credit risk profile has improved since December 31, 2011, illustrated by the credit trends below.

For the second quarter of 2012, net charge-offs totaled \$10.3 million, compared with \$4.7 million for the prior year. For the first six months of 2012, net charge-offs totaled \$17.7 million, compared with \$6.8 million for the same period in 2011.

We recorded a \$2.0 million provision for loan losses in the second quarter of 2012, compared to no provision in the preceding quarter and a \$2.3 million provision in the second quarter of 2011. The allowance for loan losses decreased to \$26.9 million at June 30, 2012, or 2.1% of loans held for investment, compared with \$42.7 million, or 3.2% of total loans held for investment, as of December 31, 2011. The decrease in the allowance for loan losses since December 31, 2011 primarily relates to reductions in specific reserves from charge-offs from the resolution of certain nonaccrual loans as they are transferred to other real estate owned ("OREO"). Additionally, the overall level of loans in default continues to improve as seen in the improvement in nonaccrual loans and total loan delinquencies. Nonperforming assets decreased to \$73.7 million at June 30, 2012, from \$115.1 million at December 31, 2011. Nonaccrual loans declined to \$33.1 million at June 30, 2012, compared with \$76.5 million at December 31, 2011. Past due loans totaled \$83.9 million, or 6.63% of total loans, at June 30, 2012, compared with \$139.9 million, or 10.38% of total loans, at year end. OREO balances increased to \$40.6 million at June 30, 2012, compared with \$38.6 million at December 31, 2011. In April 2012, bankruptcy courts affirmed the Company's settlement of collection litigation related to two nonperforming construction/land development loans with aggregate carrying values of \$26.6 million. As a result, we charged-off \$11.8 million on both loans and transferred the estimated net recovery value of \$18.8 million to OREO, of which \$2.3 million was sold during the second quarter of 2012.

Expansion of Mortgage Banking Operations

During the first six months of 2012, we expanded our mortgage origination capacity, accelerating our strategic plan to increase mortgage origination market share and volume by hiring approximately 242 mortgage origination personnel, 170 of whom were previously employed in Washington and Idaho by MetLife Home Loans, including MetLife's Pacific Northwest regional sales manager and its regional builder services manager, as well as regional and branch managers, loan officers and related production support staff. In the second quarter we continued to hire additional mortgage origination personnel, adding 56 loan officers and support staff. We have opened or are in the process of opening 15 new mortgage lending centers in Washington, Oregon and Idaho to accommodate the expansion of these operations.

Regulatory Matters

We improved our Bank regulatory capital ratios during the first six months of 2012, increasing our Tier 1 leverage and total risk-based capital ratios to 10.1% and 17.0%, compared with 6.0% and 11.2% as of December 31, 2011, respectively. This improvement reflects the completion of our initial public offering of common stock as well as earnings for the first six months of 2012.

On February 15, 2012, we completed our initial public offering of 4,361,816 shares of common stock for an initial offering price of \$22.00 per share (after giving effect to the 2-for-1 forward stock split effective March 6, 2012). The net increase in HomeStreet's capital was \$86.4 million, of which \$55.0 million was contributed to the Bank on February 24, 2012 with an additional \$10.0 million contributed on April 26, 2012.

On March 26, 2012 the Federal Deposit Insurance Corporation (“FDIC”) and the Washington State Department of Financial Institutions (“DFI”) terminated the cease and desist order for the Bank (“Bank Order”), dated May 8, 2009. The Bank Order was replaced with a memorandum of understanding that requires, among other things, the maintenance of a minimum Tier 1 leverage ratio of 9.0%, pre-approval of dividends and the continued reduction of classified assets. The Company remains under a cease and desist order (the “Company Order”) supervised by the Federal Reserve.

The Bank is no longer classified as a “troubled institution” and is now considered “well-capitalized” within the meaning of the FDIC’s prompt corrective action rules.

The termination of the Bank Order provides several benefits, including a reduction in our FDIC assessment and examination fees; allowing us to resume portfolio lending for certain lending products; allowing us to open or re-locate retail

Table of Contents

deposit branches; access federal funds lines from correspondent banks; the re-opening of certain correspondent lending channels that had previously been restricted; and increase the amount of trading partner relationships used for hedging purposes. Additionally, as a result of the termination of the Bank Order and the related impact on certain rating agency metrics, the Bank now fully complies with the seller servicer requirements of government-sponsored entities such as Fannie Mae and Freddie Mac. We believe that the termination of the Bank Order also improves the reputation of the Bank in our markets, removing any stigma associated with the Bank's prior status as a troubled institution and improving the Bank's attractiveness to current and prospective customers and employees.

In recognition of the significant improvement in the Bank's financial condition, results of operations and risk profile, the Federal Reserve Bank on July 10, 2012 granted full access to all Federal Reserve Bank lending and depository services.

On June 12, 2012, the three federal banking regulators (including the Federal Reserve and the FDIC) jointly announced that they were seeking comment on three sets of proposed regulations relating to capital (the "Proposed Rules"). The Proposed Rules would apply to certain depository institutions (including the Bank) and their holding companies. Although parts of the Proposed Rules would apply only to large, complex financial institutions, a substantial portion of the Proposed Rules would apply to the Bank and the Company. The Proposed Rules include requirements contemplated by the Dodd-Frank Act as well as certain standards adopted by the Basel Committee on Banking Supervision ("BCBS") in December 2010, which standards are commonly referred to as "Basel III." For further discussion, see Liquidity Risk and Capital Resources - New Proposed Capital Rules within Management's Discussion and Analysis of this Form 10-Q.

Recent Developments

On July 26, 2012, the Company announced that it will appoint Cory Stewart, age 40, as the Company's Executive Vice President and Chief Accounting Officer, effective upon receipt of approval by or non-objection from the Federal Reserve and upon the expiration, without objection, of a 30-day period after written notice is given to the FDIC and the DFI. Mr. Stewart joined the Company in March 2012 and currently serves as Senior Vice President and Controller of the Company; Senior Vice President and Finance Director of the Bank. Upon his promotion, Mr. Stewart will be the Principal Accounting Officer of the Company.

On July 26, 2012, the Company also announced that it will appoint Darrell van Amen, age 46, as the Company's Executive Vice President and Chief Investment Officer, effective upon receipt of approval by or non-objection from the Federal Reserve and upon the expiration, without objection, of a 30-day period after written notice is given to the FDIC and the DFI. Mr. van Amen currently serves as Senior Vice President and Treasurer of the Company; Senior Vice President, Asset/Liability Manager and Treasurer of the Bank. Mr. van Amen joined the Company in 2003. Upon his promotion, Mr. van Amen will be the Principal Investment Officer of the Company.

Between them, Mr. Stewart and Mr. van Amen will share the traditional functions of the office of Chief Financial Officer. Mark Mason will remain the interim Chief Financial Officer until these appointments are approved.

Critical Accounting Policies and Estimates

Our significant accounting policies are fundamental to understanding our results of operations and financial condition because they require that we use estimates and assumptions that may affect the value of our assets or liabilities and financial results. Six of these policies are critical because they require management to make difficult, subjective and complex judgments about matters that are inherently uncertain and because it is likely that materially different amounts would be reported under different conditions or using different assumptions. These policies govern:

• Allowance for Loan Losses

• Other Real Estate Owned

• Fair Value Measurements of Mortgage Servicing Rights

•

Fair Value Measurements of Investment

Securities

Derivatives and Hedging Activities

Income Taxes

These policies and estimates are described in further detail in Part II, Item 7 Management's Discussion and Analysis of Financial Condition and Results of Operations and Note 1, Summary of Significant Accounting Policies to Financial Statements in our 2011 Annual Report on Form 10-K.

(2) Includes loan balances that have been foreclosed and are now reclassified to other real estate owned.

(3) Includes taxable-equivalent adjustments, which is a non-GAAP measure, primarily related to tax-exempt income on certain loans and securities of \$749 thousand for the six months ended June 30, 2012 and \$135 thousand for the six months ended June 30, 2011, respectively. The Company's estimated marginal tax rate was 36% for the periods presented.

Table of Contents

We have not included interest income from nonaccrual loans in interest income. The additional interest income that would have been recorded during the period if the loans had been accruing was \$319 thousand and \$1.4 million for the three months ended June 30, 2012 and 2011 and \$1.1 million and \$2.9 million for the six months ended June 30, 2012 and 2011, respectively.

Net Interest Income

Our profitability depends significantly on net interest income, which is the difference between income earned on our interest-earning assets, primarily loans and investment securities, and interest paid on interest-bearing liabilities. Our interest-bearing liabilities consist primarily of deposits and borrowed funds, including our outstanding trust preferred securities and advances from the Federal Home Loan Bank ("FHLB").

Net interest income, on a tax equivalent basis, for second quarter 2012 increased \$3.2 million or 26.3%, to \$15.1 million from \$12.0 million a year ago. For the first half of 2012 net interest income increased \$4.7 million or 19.9%, to \$28.4 million from \$23.6 million in the same period last year. Our net interest margin for the second quarter of 2012 improved to 2.83% from 2.35%, and for the first half of 2012 was 2.68% from 2.26% for the same periods in 2011. The improvement in our net interest income in large part reflects the execution of our deposit product and pricing strategy, increased average balances of our loans held for sale and the investment of proceeds from our initial public offering, thereby increasing the average balance of investment securities for the first half of 2012. We also continued our balance sheet restructuring activities such as prepaying or allowing higher cost FHLB advances to mature without renewal. During the second quarter of 2012, the Company prepaid \$25.5 million of long-term FHLB advances.

Total interest income, on a tax equivalent basis, for the second quarter of 2012 was relatively flat, increasing \$258 thousand or 1.3% to \$20.2 million, from \$19.9 million a year ago. This increase reflects a higher average balance of loans held for sale, which increased by \$214.2 million or 223.1% for the second quarter of 2012 as compared to second quarter 2011, due primarily to increased closed loan volume. The increase in interest income also reflects a higher average balance of investment securities, which increased \$123.8 million or 40.2% over the same periods, as proceeds from our initial public offering were invested in highly liquid securities along with proceeds from the sale of loans. These increases were largely offset by a decrease in the average balance of loans held for investment in the second quarter of 2012, which decreased \$207.6 million or 13.7% as compared to the prior year and a lower interest yield on loans held for sale, which decreased 83 basis points as mortgage interest rates declined. For the first half of 2012 net interest income decreased \$1.2 million or 2.9%, to \$39.4 million from \$40.6 million in the same period last year due to a decline in the average balance of loans held for investment, which decreased by \$229.1 million or 14.8%, largely offset by an increase in the average balance of loans held for sale and investment securities.

Total interest expense for the three months ended June 30, 2012 decreased \$2.9 million or 36.4% to \$5.1 million, from \$8.0 million for the three months ended June 30, 2011. This decrease was primarily due to a \$411.6 million, or 33.7%, decline in the average balance of higher cost certificates of deposit, partially offset by an increase in money market and other core deposit accounts. Also contributing to the decrease in interest expense was the restructuring of FHLB advances, prepaying certain long term advances and utilizing short-term FHLB advances to meet short term mortgage origination and sales funding needs, which contributed to a 159 basis point decline in interest cost on FHLB advances. For the first half of 2012 net interest expense decreased \$5.9 million or 34.7%, to \$11.1 million from \$17.0 million in the same period in the prior year, driven by a \$368.8 million, or 29.3%, decline in the average balance of certificates of deposit and a \$53.6 million, or 43.8%, decline in the average balance of FHLB advances.

Provision for Loan Losses

Our provision for loan losses for the three and six months ended June 30, 2012 was \$2.0 million, a decrease from \$2.3 million for the same periods in 2011. Asset quality trends continue to improve as nonaccrual loans declined to \$33.1 million at June 30, 2012, a decrease of \$57.8 million or 63.6%, from \$90.9 million a year ago, and past due loans declined to \$83.9 million at June 30, 2012, a decrease of \$48.6 million or 36.6%, from \$132.5 million a year ago.

Net charge-offs of \$10.3 million for second quarter 2012 increased from \$4.7 million in the second quarter of 2011, while for the first six months of 2012 net charge-offs were \$17.7 million compared with \$6.8 million for the same period in the prior year. Net charge-offs during the first six months of 2012 included a \$11.8 million charge-off related to the settlement of collection litigation and resolution of certain related nonperforming construction/land development loans with aggregate carrying values of \$26.6 million. For a more detailed discussion on our allowance for loan losses and related provision for loan losses see Credit Risk Management within Management's Discussion and Analysis of Financial Condition and Results of Operation in this Form 10-Q.

Table of Contents

Noninterest Income

Noninterest income was \$55.5 million in second quarter 2012, an increase of \$36.9 million, or 198.2%, from \$18.6 million in second quarter 2011. For the first half of 2012, noninterest income was \$94.6 million, an increase of \$61.7 million, or 187.4%, from \$32.9 million for the first half of the prior year. Our noninterest income is heavily dependent upon our single family mortgage banking activities which are comprised of mortgage origination and sale activities and mortgage servicing activities. The level of our mortgage banking activity fluctuates and is influenced by mortgage interest rates, the economy, employment and housing affordability, among other factors. The increase in noninterest income is predominately due to higher net gain on mortgage loan origination and sale activities as detailed in the tables below.

Noninterest income consisted of the following.

(in thousands)	Three Months Ended June 30,		Dollar Change 2012 vs. 2011	Six Months Ended June 30,		Dollar Change 2012 vs. 2011
	2012	2011		2012	2011	
Noninterest income
