Item 1.01

Entry Into a Material Definitive Agreement.

Underwritten Offering

On March 10, 2015, Heat Biologics, Inc. (the Company or Heat) entered into an Underwriting Agreement (the Underwriting Agreement) with Aegis Capital Corp. (Aegis), as representative of the several underwriters named therein (the Underwriters), providing for the offer and sale in a firm commitment underwritten public offering (the Offering) of 1,640,000 shares of the Company s common stock, par value \$0.0002 per share (the Common Stock), at an offering price of \$6.50 per share. Pursuant to the Underwriting Agreement, the Company granted to the Underwriters an option for a period of 45 days to purchase up to 246,000 additional shares of Common Stock solely to cover over-allotments, if any. The net proceeds to the Company from the Offering are expected to be approximately \$9.6 million, after deducting underwriting discounts and commissions and estimated Offering expenses payable by the Company, assuming no exercise by the Underwriters of their option to purchase additional shares of Common Stock. The Underwriting Agreement contains customary representations, warranties, and agreements by the Company, customary conditions to closing, indemnification obligations of the Company and the Underwriters, including for liabilities under the Securities Act of 1933, as amended (the Securities Act), other obligations of the parties and termination provisions.

The shares of Common Stock will be issued in the Offering pursuant to the Company s shelf registration statement on Form S-3 (File No. 333-199274), which was declared effective on October 23, 2014, and the base prospectus included therein, as supplemented by the preliminary prospectus supplement, dated March 10, 2015, which was filed with the Securities and Exchange Commission (the Commission), and a prospectus supplement, dated March 10, 2015, which was filed with the Commission on March 12, 2015. The Offering is expected to close on March 16, 2015, contingent upon the satisfaction of customary closing conditions.

The foregoing description of the terms of the Underwriting Agreement does not purport to be complete and is subject to, and qualified in its entirety by reference to, the Underwriting Agreement, a copy of which is filed as Exhibit 1.1 to this Current Report on Form 8-K and is incorporated herein by reference. The provisions of the Underwriting Agreement, including the representations and warranties contained therein, are not for the benefit of any party other than the parties to such agreement and are not intended as a document for investors and the public to obtain factual information about the current state of affairs of the parties to that document. Rather, investors and the public should look to other disclosures contained in the Company s filings with the Commission.

Use of Proceeds

The Company currently intends to use the net proceeds from the sale of shares of Common Stock in the Offering for general corporate purposes, which may include, among other things, increasing working capital, funding research and development (including clinical trials), vendor payables, regulatory submissions, hiring additional personnel and capital expenditures. In addition, the Company may use a portion of the net proceeds for licensing or acquiring intellectual property to incorporate into its products and product candidates or its research and development programs. The Company may also use a portion of the net proceeds to in-license, acquire or invest in complementary businesses or products; however, the Company has no current commitments or obligations to do so.

Opinion of Counsel

A copy of the opinion of Gracin & Marlow, LLP, New York, New York, relating to the legality of the issuance and sale of the Company's shares of Common Stock in the Offering is filed as Exhibit 5.1 to this Current Report on Form 8-K.
