PROXY STATEMENT

OF

BANK OF MARIN BANCORP

504 Redwood Boulevard, Suite 100

Novato, California 94947

These proxy materials are furnished in connection with the solicitation by the Board of Directors of Bank of Marin Bancorp (the “Company”), of proxies for use at the Annual Meeting of Shareholders of the Company to be held on Tuesday, May 14, 2019, at 6:00 p.m. at the Buck Institute for Research on Aging, 8001 Redwood Boulevard, Novato, California, and at any adjournment thereof. These proxy materials were first sent to shareholders on or about April 9, 2019.

PURPOSE OF MEETING

The matters to be considered and voted upon at the meeting will be:

- Proposal Number 1: The election of ten directors to serve until the next Annual Meeting of Shareholders and until their successors are elected and qualified.

- Proposal Number 2: An advisory vote to approve the Company’s executive compensation for Named Executive Officers.

- Proposal Number 3: The ratification of the selection of independent auditor.

- Transacting such other business as may properly come before the meeting and any adjournments thereof.

GENERAL PROXY STATEMENT INFORMATION

Bank of Marin Bancorp, a corporation existing and organized under the laws of the State of California, is authorized to issue up to 30,000,000 shares of common stock and 5,000,000 shares of preferred stock. All of the outstanding shares are voting common shares and are entitled to vote at the Annual Meeting. Only those common shareholders of record as of March 25, 2019 (the "Record Date") will be entitled to notice of, and to vote at, the meeting. On that date, 13,797,070 shares of common stock were outstanding. The determination of shareholders entitled to vote at the meeting and the number of votes to which they are entitled was made on the basis of the Company's records as of the Record Date. The presence in person or by proxy (including internet and telephone voting) of a majority of the outstanding shares of stock entitled to vote at the Annual Meeting will constitute a quorum for the purpose of transacting business at the meeting. Abstentions, shares as to which voting authority has been withheld from any nominee and "broker non-votes" (as defined below), will be counted for purposes of determining the presence or absence of a quorum.

A broker or nominee holding shares for beneficial owners may vote on certain matters at the meeting pursuant to discretionary authority or instructions from the beneficial owners, but with respect to other matters for which the broker or nominee may not have received instructions from the beneficial owners and may not have discretionary voting power under the applicable rule of the New York Stock Exchange or other self-regulatory organizations to which the broker or nominee is a member, the shares held by the broker or nominee may not be voted. Such un-voted shares are called "broker non-votes." The rules of the New York Stock Exchange and other self-regulatory organizations generally permit a broker or nominee, in the absence of instructions, to deliver a proxy to vote for routine items, such as the ratification of independent auditors. Consequently, shares held by a broker or nominee will

Table of Contents

constitute "broker non-votes" regarding non-routine items, such as the election of directors and the advisory vote on executive compensation. It is important that you provide voting instructions to your broker or nominee.

Revocability of Proxies

A proxy for use at the meeting is enclosed. Any shareholder who executes and delivers such proxy has the right to revoke it at any time before it is exercised by filing with the Corporate Secretary of the Company an instrument revoking it or by filing a duly executed proxy bearing a later date. In addition, the powers of the proxy holder will be revoked if the person executing the proxy is present at the meeting, revokes such proxy and elects to vote in person. Subject to such revocation, all shares represented by a properly executed proxy received in time for the meeting will be voted by the proxy holders in accordance with the instructions on the proxy.

IF NO INSTRUCTION IS SPECIFIED WITH REGARD TO A MATTER TO BE ACTED UPON, THE SHARES REPRESENTED BY THE PROXY WILL BE VOTED IN ACCORDANCE WITH THE RECOMMENDATIONS OF THE BOARD OF DIRECTORS "FOR" THE ELECTION OF ALL NOMINEES FOR DIRECTOR LISTED HEREIN, "FOR" THE APPROVAL OF THE COMPANY'S EXECUTIVE COMPENSATION AND "FOR" RATIFICATION OF THE SELECTION OF INDEPENDENT AUDITOR.

Person Making the Solicitation

This solicitation of proxies is being made by the Board of Directors of the Company. The expense of preparing, assembling, printing, and mailing this proxy statement and the material used in the solicitation of proxies for the meeting will be borne by the Company. It is contemplated that proxies will be solicited principally through the use of the mail, but officers, directors, and employees of the Company and Bank of Marin may solicit proxies personally or by telephone, without receiving special compensation therefor. Although there is no formal agreement to do so, the Company may reimburse banks, brokerage houses, and other custodians, nominees, and fiduciaries for their reasonable expense in forwarding these proxy materials to their principals.

Voting Rights

In connection with the election of directors, in accordance with California law, each shareholder entitled to vote may vote the shares owned by such shareholder as of the Record Date cumulatively if a shareholder present at the meeting has given notice at the meeting, prior to the voting, of his or her intention to vote cumulatively. If any shareholder has given such notice, then all shareholders entitled to vote for the election of directors may cumulate their votes for candidates properly nominated. Under cumulative voting, each share carries as many votes as the number of directors to be elected, and the shareholder may cast all of such votes for a single nominee or may distribute them in any manner among as many nominees as desired. In the election of directors, the ten nominees receiving the highest

number of votes will be elected.

On all other matters submitted to the vote of the shareholders, each shareholder is entitled to one vote for each share of common stock owned on the books of the Company as of the Record Date.

PROPOSAL NUMBER 1: ELECTION OF DIRECTORS

Board of Directors

At the Annual Meeting ten (10) directors of the Company are to be elected to serve until the next Annual Meeting of Shareholders and until their successors are elected and qualified. All of the nominees are currently members of the Board of Directors. The Bylaws of the Company provide for not fewer than nine (9) or more than seventeen (17) directors. By resolution, the Board of Directors has fixed the number of directors at ten (10).

The persons named below are nominated by the Board of Directors and, unless the shareholder marks the proxy to withhold the vote, the enclosed proxy, if returned and not subsequently revoked, will be voted in favor of their election as directors. If for any reason any such nominee becomes unavailable for election, the proxy holders will vote for such substitute nominee as may be designated by the Board of Directors. The proxy holders reserve the right to cumulate votes for the election of directors and to cast all of such votes for any one or more of the nominees, to the exclusion of the others, and in such order of preference as the proxy holders may determine in their discretion if cumulative voting is involved as described above under "Voting Rights."

The following table sets forth the names of the persons nominated by the Board of Directors for election as directors and certain additional information as of March 25, 2019, including biographical information, qualifications, business experience and directorships with other public companies of each nominee covering at least the last five years.

- (1) During 2018, each member of the Board who is not also an officer or employee of the Company received a director fee of \$65,000; approximately \$32,500 in Company stock and/or non-qualified stock options to purchase Company stock, and approximately \$32,500 in cash. Compensation for service for incumbent directors is paid semi-annually in arrears in July and January. The equity component of the annual compensation is paid, at the election of the director, in 100% common stock, 100% non-qualified stock options to purchase common stock, or in a combination of 50% common stock and 50% non-qualified stock options. An analysis performed by the Company's compensation consultant, Pearl Meyer & Partners, confirmed that the practice of delivering 50% of compensation in equity and 50% in cash meets with industry standards. The stock based compensation to each director for service in 2018 was paid in Company common stock with a market value at time of grant, with fractional shares being paid in cash. The non-qualified stock options were granted at fair market value at the time of grant with the number of shares covered by the option determined based on the Black-Scholes valuation method. The Chairs of the Bank's WMTS Committee and the Company's Compensation Committee and Nominating and Governance Committee received an additional annual cash payment of \$5,000. The Chairs of the Audit Committee and the Bank's Asset/Liability Management Committee received an additional annual cash payment of \$6,000. The Chairman of the Board received an additional annual cash payment of \$20,000. The Vice Chairperson of the Board received an additional annual cash payment of \$3,000. The Compensation Committee has reviewed the additional cash payments paid to the Chairman of the Board, the Vice Chairperson of the Board and committee chairs relative to the Company's peer group, discussed further in the Compensation Discussion and Analysis. Upon this review, the Committee affirmed the annual cash payments for these services. The stock portion of the fees was awarded from the 2010 Director Stock Plan. The non-qualified stock options were awarded from the Bank of Marin 2017 Equity Plan. If a director retires from the Board before earned director compensation is paid, that individual receives payment in cash rather than in stock.
- (2) Mr. Barlow elected to receive 638 non-qualified stock options, Mr. Hale elected to receive 2,232 non-qualified stock options, Mr. Kennedy elected to receive 1,115 non-qualified stock options and Mr. McDevitt elected to

receive 1,273 non-qualified stock options. The stock options granted in 2018 were fully vested and exercisable immediately. As of December 31, 2018, Mr. Barlow had 1,890 exercisable shares, which include 614 shares from an award received from Bank of Napa and assumed by Bank of Marin. Mr. Hale had 12,078 exercisable shares, Mr. McDevitt had 10,160

exercisable shares and Mr. Kennedy had 10,834 exercisable shares, which include 4,800 shares from an award granted in 2015.

(3) Mr. Barlow joined the Board in November 2017 and was paid for his service provided in November and December in January 2018.

The Nominating and Governance Committee assists the Board in carrying out its duties and functions regarding corporate governance oversight and Board membership nominations. Subject to the standards required by applicable NASDAQ listing rules, the Committee is composed of no less than a majority of independent directors of the Board. The Committee will consider suggestions or recommendations for Board membership received from shareholders. Shareholders who wish to make such suggestions or recommendations should forward their written suggestions to the Chairman of the Nominating & Governance Committee addressed to Bank of Marin Bancorp, Attn: Corporate Secretary, 504 Redwood Boulevard, Suite 100, Novato, CA 94947. Whether a person is recommended for Board membership by a shareholder or by a director of the Company, the standards and qualifications to be considered for Board membership include local community involvement, sound reputation, and business or educational experience that will be beneficial to the Company. The Committee also considers each candidate's contribution to the diversity of the Board, including personal characteristics, education, experience and skills. While the Committee carefully considers diversity when evaluating director candidates, it has not adopted a formal diversity policy. At present, the Committee does not engage a third party to identify and evaluate potential director candidates. All of the nominees approved by the Committee for election at the 2019 Annual Meeting were recommended by the Board. The Committee met four (4) times in 2018.

The Compensation Committee, consisting solely of independent directors as defined in the NASDAQ listing rules and Section 10C of the Securities Exchange Act of 1934, has primary responsibility for ensuring that compensation and benefits policies and programs for executive officers and the Board of Directors comply with applicable law and stock listing requirements, and are devised and maintained to provide and retain a high level of executive management and corporate governance competence. The Committee met six (6) times in 2018.

The Audit Committee, consisting solely of independent members as defined in the NASDAQ listing rules and Section 10A of the Securities Exchange Act of 1934, selects and recommends the appointment of independent auditors, reviews and approves professional services performed by the independent auditors and reviews the reports of their work together with regulatory agency examination reports. The Committee also reviews and approves the programs, work plan and reports of the Bank's Audit Manager and internal auditor. Director James C. Hale has been determined to be the Audit Committee Financial Expert. The Committee met eight (8) times in 2018.

Each current and nominated Board member is encouraged to attend the Annual Meeting of Shareholders. All members of the Board attended the 2018 Annual Meeting.

Indebtedness and Other Transactions with Directors and Executive Officers

Edgar Filing: Bank of Marin Bancorp - Form DEF 14A

In accordance with the Nominating and Governance Committee Charter, the Nominating and Governance Committee is responsible for reviewing and acting upon all related party transactions required to be disclosed by Item 404 of Regulation S-K for potential conflicts of interest. Additionally, the Company's Code of Ethical Conduct provides rules that restrict transactions with affiliated persons.

Prior to engaging in any related party transaction, a completed questionnaire describing the nature and structure of the transaction, along with any necessary supporting documentation, is submitted to the

Nominating and Governance Committee. In determining whether to approve a related party transaction, the Nominating and Governance Committee will consider, among other things, the following:

- Whether the terms of the transaction are fair to the Company;

- Whether the transaction is material to the Company;

- The importance of the related person to the transaction;

- The role the related person has played in arranging the transaction;

- The structure of the transaction; and,

- The interests of all related persons in the transaction.

The Company will only enter into a related party transaction if the Nominating and Governance Committee determines that any interested director has abstained from voting on the matter and that the transaction is beneficial to the Company, and the terms of the transaction are fair to the Company.

In February 2012, the Board, at the recommendation of the Nominating and Governance Committee, approved a related party transaction between Bank of Marin and Terra Verde Property Management Corporation (“Terra Verde”) to outsource the oversight of facility maintenance for the Company. The annual contract provides for an assessment of all of the Company’s facilities, oversight and analysis of expenses incurred, preventative maintenance and lease negotiations. The initial term of the agreement is three years with an initial base annual compensation of \$72,000, and an annual increase of 3.0% per year on each anniversary of the effective date of the agreement. Kevin Colombo, son of President and CEO Russell A. Colombo, is 100% owner of Terra Verde. As CEO and President, Russell A. Colombo is not directly involved in facility management and the costs associated with the contract are covered in an annual budget that is approved by the Board of Directors. The Company obtained two other bids from reputable companies and both were determined to be more costly and did not provide the added value of handling lease negotiations. The Board determined that the transaction is beneficial to the Company, and the terms of the transaction are fair to the Company. No waiver of the Company’s Code of Ethical Conduct was required in approving the transaction.

In February 2015, the Board, at the recommendation of the Nominating and Governance Committee, approved a three year extension of the agreement, including a provision for an automatic three-year extension, for the same services at an initial base annual compensation of \$78,676, with an annual increase of 3.0% per year on each anniversary of the effective date of the agreement's extension. The agreement, as extended, was assigned, with the Company's consent, by Terra Verde to Collier International Real Estate Services Management (CA), Inc. Kevin Colombo has been hired as a consultant by Collier to serve as the point of contact with the Company. No waiver of the Company's Code of Ethical Conduct was required in approving the extension of the agreement.

Additionally, the Company's subsidiary, Bank of Marin, has had and expects to have banking transactions in the ordinary course of business with some of the directors and executive officers of the Bank (and their associates), on substantially the same terms (including interest rates, collateral and repayment terms) as those prevailing at the time for comparable loans with persons not related to the Company. During 2018 no loan to any director or executive officer of the Company (or their associates) has involved more than normal risk of collectability or presented other unfavorable features. All loans to directors or executive officers would

be subject to the limitations prescribed by California Financial Code Section 1360, et seq. and applicable federal law and regulations.

Board Leadership Structure

It is the role of the Nominating and Governance Committee to annually review, and when appropriate make recommendations to the Board of Directors concerning board composition, structure, and functions. The Board has deemed it appropriate to have two separate individuals serve as Chairman of the Board and Chief Executive Officer. According to the Company's bylaws, the Chairman of the Board shall preside at meetings of the Board of Directors and shareholders and exercise and perform such other powers and duties as may be from time to time assigned to him/her by the Board of Directors. The bylaws further provide that the President of the Company will be the Chief Executive Officer and shall, subject to the control of the Board of Directors, have general supervision, direction, and control of the business and the officers of the Company. As the oversight responsibilities of the Board of Directors grows, the Board believes it is beneficial to have an independent Chairman with the sole job of leading the Board, while allowing the President to focus his efforts on the day-to-day management of the Company and the Bank. The Board does believe that it is important to have the President as a director. The Company aims to foster an appropriate level of separation between these two distinct levels of leadership of the Company. In addition to the Chairman, leadership is also provided through the respective chairs of the Board's various committees.

Board's Role in Risk Oversight

It is a fundamental part of the Board's responsibility to understand the risks the Company faces and what steps management is taking to manage those risks. It is also important that the Board understands what level of risk is appropriate for the Company. While the Board of Directors has the ultimate oversight responsibility for the risk management process, various committees of the Board also have responsibility for risk management. In particular, the Audit Committee focuses on risk assessment and risk management as they relate to financial reporting, including appropriate guidelines and policies to govern the process, as well as the Company's major financial reporting risks and the steps management has taken to monitor and control them, and the Committee receives an annual risk assessment report from the Company's outside auditor. The Executive Committee fulfills its oversight responsibility with respect to compliance and operational risk, by working with the Company's Compliance Manager to understand regulatory and legislative issues and the Company's projects and systems. In setting compensation, the Compensation Committee strives to create incentives that do not encourage excessive risk-taking beyond the Company's ability to effectively identify and manage risk. The Bank's Asset Liability Management Committee functions as a directors' loan committee, oversees the Bank's balance sheet, liquidity and capital management, as well as the management of credit, interest rate, and market risk within the context of the risk tolerance established by the Board of Directors, and receives monthly reports from the Chief Credit Officer and Chief Financial Officer. Additionally, the Board of Directors and various sub-committees oversee the Company's consolidated enterprise risk management program that ensures the adequacy of policies, procedures, tolerance levels, risk measurement systems, monitoring processes, management information systems and internal controls. The Board of Directors is also provided physical and information security risk assessments by management on an annual basis.

Compensation Discussion and Analysis

This section addresses the compensation programs, philosophy and objectives, of the Bank of Marin Bancorp and its banking subsidiary, Bank of Marin (collectively in this section, the "Company"), including the process for making compensation decisions, the roles of the Board of Directors, the Compensation Committee (in this section, the "Committee"), and management in the design of such programs, and its 2018 executive compensation components. This section also addresses the factors most relevant to understanding the Company's compensation programs and what they are designed to reward, including the essential elements of compensation, the reasons for determining payment of each element of compensation, and how each compensation element fits into the Company's overall compensation objectives and affects decisions regarding other compensation elements.

Executive Summary

The Committee of the Board of Directors establishes and administers the compensation and benefit programs for Named Executive Officers, the persons identified in the Summary Compensation Table which follows. In addition, the Committee is responsible for administering other companywide compensation and benefits plans for all employees. The Committee consists entirely of independent directors. The Committee carefully considers the components of the executive compensation programs to attract and retain high quality Named Executive Officers and to incent the behavior of Named Executive Officers to create shareholder value and accomplish the Company's strategic goals. The Committee engages independent consultants from time to

Table of Contents

time and considers the compensation programs of peer financial institutions to ensure that the Company's compensation programs are competitive with market practices.

The Committee's philosophy, practices and policies have been developed over a number of years and have not historically been subject to sweeping, material changes. At the 2018 annual meeting of shareholders, the Company included an advisory vote to approve executive compensation, providing shareholders with an opportunity to communicate their views on the Company's executive compensation program. The Company's executive compensation was approved by 66% of the shares voted. The Committee considered the results of this vote in setting executive compensation for 2019 and concluded that the support of the Company's compensation program indicates that shareholders generally concur with the Company's alignment of compensation and performance. Although representing a strong majority, the percentage of shareholders providing an advisory vote to approve executive compensation declined between the 2017 annual meeting and the 2018 annual meeting. The Committee took this as an opportunity to enhance the Company's disclosure of Named Executive Officer compensation in this Proxy Statement by, among other things, providing more detail on the performance based compensation of such executives. At the 2018 Annual Meeting of Shareholders, the shareholders held, by majority vote, for a one-year frequency of the non-binding, advisory vote on executive compensation. While the frequency vote was non-binding, the Board of Directors has made the decision to continue to include the advisory vote to approve executive compensation annually.

Shareholder outreach and feedback is a critical component of our investor relations philosophy, and, in 2018, we continued to maintain a regular dialogue with our shareholders. Throughout the year, we engaged in conversations and meetings, including sell-side conferences, non-deal road shows and in-person or telephonic one-on-one meetings with our shareholder base. In response to the 2018 say-on-pay advisory vote on executive compensation, the Committee, along with members of senior management initiated a targeted investor outreach program. The purpose of the program is to solicit feedback from shareholders who voted against the proposal and understand the factors that informed their vote.

Philosophy

The Company's executive compensation programs are designed to attract and retain high quality officers that are critical to its long-term success. The Company's Board of Directors and management believe that the most effective executive compensation program is one that is designed to reward the achievement of specific annual, long-term and strategic goals, which aligns Named Executive Officers' interests with those of the shareholders by rewarding performance above established goals, with the ultimate goal of improving shareholder value without rewarding undue short-term risk-taking. This is achieved by utilizing a combination of short-term cash incentives, paid annually, and long-term equity incentives, which vest over either a three-year period or a five-year period and include performance based vesting metrics. The Committee engages independent national human resources consulting firms to periodically conduct a review of the Company's total compensation programs. During these periodic reviews, each component of total compensation is compared against a regional peer group that is similar to the Company in asset size, geography and performance. (For details, see "Compensation Consultants" and "Peer Group Review" herein.) In 2018, the Committee adopted a new peer group to be used in 2018 and 2019. They are used in the charts below. The 2018 peer group was made up of major exchange publicly traded banks on the West Coast, including Hawaii, with total assets between \$1 billion and \$5 billion.

The Committee's compensation philosophy is to target base salaries at or near the median (50th percentile) and to pay total compensation (including annual cash incentives, long-term equity incentives, and benefits) between the 50th and 75th percentiles of the regional peer group, with variation based on individual experience and performance. During the 2018 review of executive compensation, target total direct

Table of Contents

compensation for the top six officers was found to be 4% below the market median in aggregate. The Company believes paying total compensation between the 50th and 75th percentile for above-average performance is critical for attracting and retaining the qualified executives it needs to achieve its business objectives. Overall, compensation paid to Company executives is believed to be competitive with market practices.

Base compensation levels for Named Executive Officers are established based on market data and are adjusted based on individual performance and experience. Annual incentives, including performance-based bonuses and long term equity awards, are based on both Company and/or individual performance objectives, which include asset and revenue growth targets, deposit growth targets, profitability targets, identification of strategic opportunities, and core earnings performance. It is the Committee's desire to remove as much discretion as possible from the incentive based compensation in favor of a metrics based program.

Business Highlights

- In 2017, Bank of Marin acquired Bank of Napa. As a result, Bank of Marin is the largest community bank in Napa County by deposit share. This is the third acquisition in the past seven years that strengthens the Bank's presence in the San Francisco Bay Area and has allowed for average deposit growth of 10% over the past ten years.
- As part of its organic growth plan, the Bank expanded its senior management and lending teams with several strategic hires in 2018.
- Strong credit quality remains a cornerstone of the Bank's consistent performance, with non-performing assets under 2% every year for the past ten years, ending 2018 at 0.60%.

Table of Contents

- Return on assets ("ROA") historically exceeded Peer Bank median returns and was 1.31% in 2018. 2017 ROA was below median, due, in part, to acquisition expenses and the deferred tax asset write-down, which reduced ROA by 0.22 percentage points.

Table of Contents

- With a focus on strong credit quality and growth, the Company generated total shareholder return over the period January 1, 2009 through December 31, 2018 at the 99th percentile of the peer group, while stock volatility was below the average of the Peer Group.

As the chart indicates, a \$100 investment in the Company's common stock on January 1, 2009 would have grown to \$413 on December 31, 2018 after dividend reinvestment. This compares to a \$188 median after dividend reinvestment for the peer group companies adopted in 2018 that remain publicly held. As a result, the Company's total shareholder return over the ten-year period was at the 99th percentile of the peer group. The five year period ending in December 2018 was at the 87th percentile of the peer group and the three year period ending in December 2018 was at the 73rd percentile of the peer group.

Compensation Best Practices

The Compensation Committee has implemented strong governance practices that reinforce our principles, support sound risk management and are shareholder-aligned:

- Assess Pay versus Performance. The Committee continually reviews the relationship between compensation and Company performance.
- Reasonable Compensation Targets. Base salaries are targeted at or near the median (50th percentile) while total compensation (including annual cash incentives, long-term equity incentives, and benefits) is designed to pay between the 50th and 75th percentiles of the regional peer group, with variation based on individual experience and performance. During the 2018 review, aggregate target total direct compensation and actual 2017 total direct compensation were both below the market median, as was target and actual total cash compensation. During 2017 and 2018, the Bank provided somewhat above the median market levels of long-term incentives, emphasizing long-term returns to shareholders relative to its peers.
- Balanced Performance Measurement. To mitigate risk while driving performance the Committee approved an annual incentive plan based on multiple measures, including Net Income, Return on Assets, the Efficiency Ratio, Annual Loan Growth, Annual Deposit Growth, Annual Demand Deposit Growth, Pre-Tax Pre-Provision Earnings, Net Interest Margin, Non-Interest Expenses, and individual performance.
- Clawback Provisions. The Committee has approved a clawback provision with respect to the annual incentive plan to allow for the recoupment of compensation under certain circumstances.
- Performance-Based Long-Term Incentives. The Committee set the proportion of Performance Restricted Stock to 45% of the total equity grant. Performance objectives for 2018 include performance relative to peers.
- Stock Ownership Guidelines. Our stock ownership requirements are rigorous: 2 times base salary for the CEO, 1.5 times base salary for the COO, 1 times base salary for other Named Executive Officers, and 2 times maximum annual cash retainer for Board members. All Named Executive Officers and Board members are in compliance with the guidelines.
- No Hedging. The Company does not allow directors and Named Executive Officers to enter into short sales of common stock or similar transactions where potential gains are linked to a decline in the price of our stock. Recipients of equity awards also may not enter into any agreement that has the effect of transferring or exchanging any economic interest in an award for any other consideration.
- No Pledging. Directors and Named Executive Officers, as well as all officers of the Company, are prohibited from pledging Company securities as collateral for a loan or holding Company securities in a margin account.
- No Option repricing Without Shareholder Approval.
- No Excise Tax Gross-Ups.
- Use of an Independent Compensation Consultant Reporting to the Compensation Committee.

Process for Making Compensation Decisions

Role of the Chief Executive Officer

Shortly following the conclusion of each calendar year, the Company's Chief Executive Officer (the "CEO"), assisted by the Director of Human Resources, conducts an annual performance evaluation process for all Named Executive Officers, other than for himself, as well as for other members of senior management who are not Named Executive Officers. As part of each annual performance evaluation, the CEO considers, among other key factors, i) the executive's performance of job responsibilities and achievement of individual and/or departmental objectives and ii) management and leadership skills, such as effective communication, problem solving, business development and community involvement. In addition, the executive's contributions to the Company's overall financial goals are indirectly considered. Based on this evaluation, the CEO determines, for each of the Named Executive Officers (other than himself), recommendations for salary adjustments, including merit increases, and annual performance-based bonus amounts to be made to the Committee for its approval. The Named Executive Officer's performance-based bonus is determined by the Company's financial performance relative to that year's financial performance goal and individual performance goals.

In addition, recommendations by the CEO and the Director of Human Resources for the grant of equity awards to Named Executive Officers under the Company's equity compensation plan are submitted to the Committee for approval and are based on Named Executives Incentive Equity opportunity and the Company's financial performance relative to that year's financial performance goals.

Role of the Compensation Committee

The Committee periodically reviews the compensation levels of the Board of Directors. In its review, the Committee looks to ensure that the compensation is fair, reasonably competitive and commensurate to the responsibilities of both the individual directors as well as the Board in the aggregate. Additionally, the Committee specifically takes into consideration the Directors' adherence to the Company's Director Stock Ownership Guidelines when reviewing compensation.

The Committee has responsibility for establishing, implementing and continually monitoring adherence with the Company's compensation philosophy. The Committee ensures that the total compensation paid to Named Executive Officers is fair, reasonable and competitive and that the types of compensation and benefits provided to the Named Executive Officers are similar to comparable executives within an established peer group. The Committee is also responsible for the review and approval of Company goals and objectives relevant to the compensation, including the incentive awards, of the Company's CEO, to evaluate the performance of the CEO in light of the goals and objectives and to determine and approve the CEO's compensation levels based on this evaluation. The Committee reviews compensation levels for the other Named Executive Officers, including the CEO's recommendations on annual bonus and salary increases for Named Executive Officers and makes final determinations and approvals. Additionally, the Committee reviews and approves the grant of equity awards to assure that the Committee considers all elements of proposed compensation.

To achieve these goals and objectives, the Committee expects to maintain compensation plans that create an executive compensation program that is set at competitive levels of comparable public financial services institutions with comparable performance. The Committee has followed certain fundamental objectives to ensure the effectiveness of the Company's compensation strategy. These objectives include the following:

Internal and external fairness. The Committee recognizes the importance of perceived fairness both internally and externally of compensation practices. The Committee has evaluated the overall economic impact of the

Table of Contents

Company's compensation practices and, when deemed necessary, has consulted with independent outside advisors in the evaluation of contractual obligations and compensation levels.

Performance-based incentives. The Company has established financial incentives for executives who meet certain objectives, which thereby assist the Company in meeting its long-term growth and financial goals.

Shareholder value and long-term incentives. The Committee believes that the long-term success of the Company and its ability to consistently increase shareholder value is dependent on its ability to attract and retain skilled executives. The Company's compensation strategy encourages equity-based compensation to align the interests of management and shareholders.

Full disclosure. The Committee seeks to provide full disclosure to the members of the Board of Directors of the Company of the compensation practices and issues to ensure that all directors understand the implications of the Committee's decisions.

The Committee has reviewed the compensation practices of peers and considered management's individual efforts for the benefit of the Company, and has reviewed various subjective measures in determining the adequacy and appropriateness of the compensation of Named Executive Officers. The Committee takes into account the performance of the Named Executive Officers and recognizes that the competition among financial institutions for attracting and retaining executives has become more intense in the past few years. The Committee takes such market considerations into account to ensure that the Company is providing appropriate long-term equity incentives to enable it to continue to attract new executives and to retain the ones it already employs. General economic conditions and the past practice of the Company are also factors that are considered by the Committee. Further, the Committee specifically takes into consideration:

- Double-trigger Change in Control Severance Payments
- Absence of any gross-ups in any of the incentive programs
- Clawback Policy in our performance based incentive plan
- Executive Stock Ownership Guidelines

The Committee has established various processes to assist in ensuring that the Company's compensation program is achieving its objectives. Among these are:

Assessment of Company Performance. In establishing total compensation ranges, the Committee uses company performance measures, including net income, asset growth, earnings per share, return on assets, asset quality, and efficiency ratio in two ways: to gauge generally the overall Company performance relative to peer companies and to gauge generally the overall Company performance against the Company's own strategic objectives. These specific performance targets provide guidance for a view of general Company performance, which is then utilized as one

element in determining overall compensation ranges.

Assessment of Individual Performance. Individual performance has a strong impact on the compensation of all employees, including the CEO and the other Named Executive Officers. For the Named Executive Officers, the Committee receives a performance assessment and compensation recommendation from the CEO, other than for himself, and also exercises its judgment based on the Board's interactions with its Named Executive Officers. As with the CEO, the performance evaluation of these Named Executive Officers is based on his or her contribution to the Company's performance, and other leadership accomplishments.

Total Compensation Review. The Committee reviews each Named Executive Officer's base pay, bonus, and equity award compensation annually. In addition to these primary compensation elements, the Committee reviews the perquisites and other compensation and payments that would be required under various severance and change-in-control scenarios. Following the 2018 review, the Committee determined that these elements of compensation were reasonable in the aggregate.

Compensation Consultants

Pearl Meyer & Partners ("Pearl Meyer"), a large independent compensation consulting firm, was first engaged by the Committee in April 2012 to conduct a formal, comprehensive review of the Company's executive and director compensation. Pearl Meyer was also engaged in 2013, 2014, 2015, 2016, 2017, and 2018 to provide supplemental reviews and support for the Committee. After the Committee's review of applicable rules for independence, the Committee determined that there are no known conflicts of interest between Pearl Meyer and its affiliates and the Company and its affiliates. Pearl Meyer reports directly to the Committee and does not provide services to, or on behalf of, any other part of the Company's business.

The major services provided by Pearl Meyer in 2018 included: 1) review of the Company's then current peer group, 2) recommendations to the Committee to refine the peer group based on the Company's and peers size, 3) comprehensive review of the Company's executive compensation programs, 4) comprehensive review of the Company's non-employee director compensation program, and 5) review of the Company's 2018 target total direct compensation levels provided to the Company's Named Executive Officers and non-employee directors, as well as the Company's financial performance relative to the selected peer group to make recommendations to the Committee. The analysis and review performed by Pearl Meyer in 2018 were used in 2018 in setting executive compensation programs.

During 2018, Pearl Meyer provided minor, additional consulting activities, including reviewing the Company's performance relative to peers, and review of the Compensation Discussion and Analysis.

Peer Group Review and Market Study

When reviewing each compensation component for the Named Executive Officers, the Committee considers the compensation practices of specific peer companies whose asset size, geography and performance are comparable to the Company. As discussed above, the Committee first engaged Pearl Meyer in 2012 to review the Company's peer group and make recommendations to the Committee. In 2018, the Committee adopted an updated peer group to be used in 2018. The 2018 peer group was made up of major exchange publicly traded banks on the West Coast, including Hawaii, with total assets between \$1 billion and \$5 billion.

Table of Contents

Following is the specific peer group of eighteen publicly-traded financial institutions approved by the Committee for use in 2018 (the “2018 Peer Banks”):

Bank of Commerce Corporation	Heritage Financial Corporation
Central Valley Community Bancorp	National Bank Holdings Corporation
CoBiz Financial	Northrim Bancorp, Inc.
Farmers & Merchants Bancorp	Oak Valley Bancorp
First Financial Northwest, Inc.	Pacific Mercantile Bancorp
First Foundation, Inc.	People’s Utah Bancorp
First Northern Community Bancorp	Preferred Bank
Guaranty Bancorp	Sierra Bancorp
Heritage Commerce Corporation	TriCo Bancshares

The median assets at the time of the study for the peer group was \$2.6 billion as compared to Bank of Marin’s \$2.5 billion. Comparisons to the Peer Banks in this discussion are based on the 2018 Peer Banks excluding those acquired as of March 15, 2018.

The Committee evaluated executive compensation to like positions in the 2016 and 2018 Peer Banks in setting 2018 compensation. Based on this evaluation and Pearl Meyer’s analysis of the Company’s compensation programs relative to the peer group, the Committee approved the following executive compensation structure:

- Target executive base compensation near the 50th percentile of the peer group, as established in 2018, which reflects a minor de-emphasis on base compensation with more focus on incentive opportunity.
- Maximum incentive opportunity in 2018 was placed at 200% of the target incentive for both short term and long term incentives and 50% for threshold performance.

Executive Compensation Components

For the fiscal year ended December 31, 2018, the principal components of compensation for Named Executive Officers were i) base salary, ii) performance-based bonuses, iii) equity awards and iv) perquisites and other plans and benefits. The Company’s policies and practices for each of the principal compensation components are explained in the following paragraphs.

Base Salary

Base salary is established based on market data and is adjusted based on individual performance and experience.

Performance-Based Incentives

The Company provides annual cash incentive award opportunities for eligible employees, through the use of the Annual Individual Incentive Compensation Plan (the "Incentive Plan"). The Incentive Plan allows for performance-based bonuses for Named Executive Officers that are based on the overall performance of the Company and on goals specific to the executive's area of responsibility. The following table shows the bonus potential expressed as a percentage of base salary that may be earned in the Incentive Plan under three scenarios, Threshold Performance, Target Performance and Maximum Performance, and then shows the relative split between Bankwide performance goals versus individual performance metrics by Named Executive Officer that must be met under the Incentive Plan.

Named Executive Officers Cash Incentive Opportunity:

Incentive Opportunity	Colombo	Kimball	Girton	Pelham	Reizman	Myers
Threshold Performance	25.00%	20.00%	15.00%	17.50%	15.00%	17.50%

Company Goals	75.00%	50.00%	50.00%	50.00%	50.00%	50.00%
Company / Individual	25.00%	50.00%	50.00%	50.00%	50.00%	50.00%

Overall Company performance comprises at least 75% of the CEO's and at least 50% of the other Named Executive Officers' cash incentive potential, with the remaining percentage based on achievement of individual goals.

Individual Named Executive Officer goals are either independent from the six Company metrics or may be used to give greater weighting to one of the six Company goals within the executive's specific area of responsibility. The allocation between company goals and individual goals varies from year to year. For 2018 the weights of each metric as a percent of the total incentive compensation opportunity for the Named Executive Officers were:

The specific goal for each of these metrics is revised each year, and each metric is given its own specific weighting in the determination of the overall performance-based bonus opportunity. The metrics are derived from the Company's annual budgeting process and are weighted based on the Company's particular focus and relative importance for that year. For 2018 the specific Company goals and relative weights of each metric were:

The plan gate provides that for the Incentive Plan to be funded and "activated" for a Plan Year, the Company must achieve a threshold performance level calculated as a percentage of the Company's budgeted net income.

In line with the Company's pay for performance philosophy, over the past five years the Committee has awarded the Named Executive Officers 120% of their target incentive, on average, which is consistent with the Company's favorable performance relative to peers. Further, the Committee has awarded the maximum incentive payout under the Plan in only one of the past eight years, reflecting the difficulty in achieving the maximum payout of incentives under our Incentive Plan. Incentive payouts are calculated based on the individual goal result and weight. This format allows for higher payouts for exceptional results in one or more categories even if there is low or below minimum results for one or more categories.

Clawback Provision for Performance-Based Incentives

The clawback provision provides that if financial results are significantly restated due to negligence, fraud or intentional misconduct, there may be recoupment of the amounts paid in excess of amounts otherwise earned.

Equity Awards

The purposes of equity awards are to allow executives to share in the growth and prosperity of the Company, to retain executives over the long term and to maintain competitive levels of total compensation.

At the 2017 annual meeting, by majority shareholder vote, the Bank of Marin Bancorp 2017 Equity Plan was adopted. The 2017 Plan replaced the Company's 2007 Equity Plan which expired in 2017. The Board of Directors wanted to continue with the flexibility and material features of the 2007 Plan and, therefore, the terms and conditions of the 2017 Plan are substantially similar to the terms and conditions of the 2007 Plan. In 2018, our shareholders approved the allocation of additional shares to the 2017 Equity Plan.

The 2017 Equity Plan allows the Company to offer multiple equity vehicles as incentives, including stock options, unrestricted stock, restricted stock, and stock appreciation rights. Executives may be awarded a blend of equity awards. The Committee considers the attributes of each form of equity award when

Table of Contents

determining equity compensation; including the ability to align management with the long-term interests of shareholders, the immediate value versus appreciation opportunity of each form, as well as the tax consequences of each type of award.

Award levels are based upon market and the executive's level of responsibility and influence on the performance of the Company. Executives are granted stock options and/or restricted stock annually, based on overall Company performance. The option exercise price is based on the fair market value on the effective date of the grant. Grants are approved at regularly scheduled Committee meetings.

In 2015 Performance Equity was added as a form of equity compensation. Performance shares were granted on March 1, 2015, March 1, 2016, March 1, 2017 and March 1, 2018 and cliff vest after three years based on achieving established performance metrics relative to peers. Three-year performance metrics include earnings per share growth, efficiency ratio, return on assets, as well as loan quality metrics, to provide incentive for balanced growth and quality.

For 2018, Named Executive Officers with the title of Executive Vice President and above were granted a blend of 30% Incentive Stock Options ("ISO"), 25% Restricted Stock, and 45% Performance Restricted Stock.

(1) The 2017 results were adjusted to exclude both the positive and negative impact of the Bank of Napa acquisition. This allows the Company to measure actual results compared to the actual targets established, which did not include an acquisition. Adjustments were also made for the one-time expense related to the Deferred Tax Asset write-down associated with the Tax Cuts and Jobs Act of 2017.

For the 2018 equity grant, Company goal metrics were achieved and paid out at 133.70% of the target amount.

The 2015 performance equity award vested in 2018 at 94.71% of Target.

The 2015 – 2018 performance metrics were:

In 2018 the Committee granted one-time “Acquisition Equity” for the successful close of the Bank of Napa acquisition. The grant amount was approximately one-fourth of the total equity granted in 2018. The acquisition grant vests over a three-year period.

Perquisites and Other Plans and Benefits

Consistent with the Company’s compensation objectives, Named Executive Officers are provided perquisites and other benefits that management believes are reasonable and consistent with the Company’s overall compensation program and which keep the Company competitive in the marketplace. The Company periodically reviews the level of perquisites and other benefits provided to the Named Executive Officers for suitability with the program objectives.

The Company is competitive with market practices by providing medical, dental, vision and life insurance, a 401(k) employer matching contribution up to \$5,000 annually, and an Employee Stock Purchase Plan (the “ESPP”). The Company also offers key management, including the Named Executive Officers, a monthly auto allowance that is based on position and his/her contact with clients.

Employee Stock Ownership Plan

The Company also provides an Employee Stock Ownership Plan (the “ESOP”). Annually, the Company may make discretionary contributions of shares of common stock to the ESOP. The decision normally is based on the Company's financial performance and condition. The purposes of the ESOP are to include all eligible employees in the ownership of the Company, to provide them with compensation that is free from current income tax and to accumulate benefits for retirement. Stock is awarded as a percentage of eligible cash compensation. Executives receive the same percentage as all other employees, up to the IRS limits.

Deferred Compensation Plan

The Company sponsors an unsecured, non-qualified plan known as the Deferred Compensation Plan, which allows Named Executive Officers and certain other highly compensated employees to defer all or a portion of their base salary and/or bonus. Balances in the plan receive earnings, all of which are described in the “Nonqualified Deferred Compensation” table of this Proxy Statement. Other than earnings accruals, all credits to the Deferred Compensation Plan represent a Named Executive Officer’s compensation previously earned and deferred; the Company does not provide any matching or similar credits. The plan was designed to allow Named Executive Officers to defer some of their current income to help them with tax planning, and to assist the Company in attracting and retaining top executives by providing retirement benefits that are competitive within the Company’s peer group.

Supplemental Executive Retirement Plan

The Company also sponsors the Bank of Marin Supplemental Executive Retirement Plan. This plan allows named executives with the title of Executive Vice President and above who contribute materially to the continued growth, development and future business success of the Company, to receive a supplemental income at retirement. As this type of plan is commonly offered among the Company’s peers, the inclusion of this benefit enhances the Company’s compensation program allowing the Company to recruit, retain and reward key decision makers of the Company. See “Supplemental Retirement Plan for Named Executive Officers” herein for more information on this plan.

Change in Control Agreements

The Company provides Named Executive Officers and other senior officers with agreements that provide for certain specified benefits upon a change in control of the Company. These agreements are very useful tools that help the Company retain its key employees, including the Named Executive Officers, by providing those executives some certainty in compensation in the event the Company was to be sold, and also helps to ensure that the Company will have the benefit of their services through the pendency of any merger. Such agreements are particularly necessary in an industry such as ours, where there has been considerable consolidation over the last ten years. See “Potential Payments upon Termination or Change in Control” herein for detailed information about these agreements, including a description of payout amounts under a hypothetical change in control of the Company as of the last business day of 2018.

Compensation Risk Assessment

In determining the level of risk arising from the Company's compensation policies and practices, a thorough review and risk assessment evaluation of the Company's compensation plans for all employees, as well as the overall compensation philosophy was conducted. The Committee evaluated the form and mix of compensation, controls and process, and the Company's business strategies. The Committee has concluded that the Company's compensation arrangements do not encourage employees to take unnecessary and excessive risks.

Compensation Committee Interlocks and Insider Participation

At March 25, 2019 the Compensation Committee was comprised of Dr. Sklar (chair), Messrs. Sobel, Heller and McDevitt, Jr., and Ms. Howard. Each member of the committee is considered independent and none of the members are or have been officers of the Company, nor does any member have any relationship with the

- (1) The Black-Scholes pricing model was used to derive the fair value of the awards. The assumptions used in valuing the grants in 2018 are presented following the table "Grants of Plan Based Awards."
- (2) The "Other" column includes perquisites and personal benefits, such as car allowances, provided to the Named Executive Officers. Each of the above Named Executive Officers received less than \$11,000 of aggregate perquisites and personal benefits, except Mr. Colombo who received a car allowance of \$14,400 and annual

country club membership dues of \$12,045. The “Other” column also includes matching contributions to the 401(k) Plan, profit sharing contributions to the Employee Stock Ownership Plan, imputed income on life insurance paid by the Company, imputed income on long term care insurance paid by the Company, dividends paid on unvested restricted stock, interest paid on the Deferred Compensation Plan, one-time payments pursuant to offers of employment letters, and the prorated account value increase attributable to the Supplemental Executive Retirement Plan. Of those, Mr. Colombo received \$5,000 of matching 401(k) contributions, \$13,924 of profit sharing contributions to the Employee Stock Ownership Plan, \$2,203 of imputed income on long term care insurance, \$13,916 of unvested restricted stock dividends and \$75,293 of interest paid on the Deferred Compensation Plan.

CEO Pay Ratio

As required by Section 953(b) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 402(u) of Regulation S-K, we have calculated the pay ratio between Russell A. Colombo, our Chief Executive Officer (“CEO”), and the median annual total compensation of our employees. The Company believes that the ratio of pay included in this information is a reasonable estimate calculated in a manner consistent with Item 402(u) of Regulation S-K.

As of December 31, 2018:

The median annual total compensation of all employees of our company (other than the CEO) was \$86,429; and

The annual total compensation of our CEO was \$1,253,347, including non-discriminatory benefits.

Based on this information, for 2018 the ratio of the annual total compensation for our CEO to the median of the annual total compensation of our employees was 15 to 1.

Methodology

This pay ratio is a reasonable estimate calculated in a manner consistent with SEC rules based on our payroll and employment records and the methodology described above. The SEC rules for identifying the median compensated employee and calculating the pay ratio based on that employee’s annual total compensation allow companies to adopt a variety of methodologies, to apply certain exclusions, and to make reasonable estimates and assumptions that reflect their compensation practices. Therefore, the pay ratio reported by other companies may not be comparable to the pay ratio reported above, as other companies may have different employment and compensation practices and may utilize different methodologies, exclusions, estimates and assumptions in calculating their own pay ratios

Median Employee Identification and Compensation Calculation

For purposes of determining the compensation paid to the employees under consideration, we used earnings subject to Medicare tax as reported in Box 5, “Medicare wages and tips,” on each employee’s 2017 Form W 2. This group includes full-time, part-time and temporary workers. We did not exclude from consideration any employees who joined our

company during the year as the result of a business acquisition. We did annualize the compensation of anyone who was employed by us for only part of the year.

SEC rules permit determination of the median employee once every three years. The median employee was determined in 2017. December 31, 2017 was the date selected to identify the “median employee” because our employee base does not materially change at any point during the year.

Once we identified our median employee, we identified and calculated the elements of such employee’s compensation for 2018 in accordance with the requirements of Item 402(c)(2)(x) of Regulation S-K. The median employee’s total compensation for 2018 consisted of the following elements: base wages plus overtime, an annual cash incentive earned in 2018 and paid in February 2019, change in pension SERP value, contributions to the Employee Stock Ownership Plan and matching contribution into the 401(k) plan. We also include the value of any non-discriminatory benefit plans in the total compensation amount.

CEO Compensation Calculation

We then calculated our CEO’s annual total compensation using the same approach to determine the pay ratio shown above.

As stated earlier in this discussion, we believe compensation must be competitive to attract and retain essential talent, to reward high performance, and to be internally equitable. Our expected total compensation opportunities for our employees are specific to the role they hold at the Company and generally reflect market median pay levels for our broader base of employees and median pay levels of our peer group for our executives, with variations based on specific talent needs, experience, and other internal factors. We believe that actual total compensation should vary with the performance of the organization, such that outstanding performance results in above-market compensation.

The tax reform legislation passed in December 2017, generally referred to as The Tax Cuts and Jobs Act, substantially modifies Section 162(m) and, among other things, eliminates the “performance based” exception to the \$1 million deduction limit with respect to taxable years beginning after December 31, 2017. Effective for the fiscal year beginning January 1, 2018, compensation paid to our Named Executive Officers (including our Chief Financial Officer), will be subject to the limitations on deductibility under Section 162(m), and we will not be able to deduct performance based compensation to our Named Executive Officers (including our Chief Financial Officer) who receive annual compensation in excess of \$1 million.

We invest in our employees at all levels in the Company by rewarding performance that balances risk and reward, empowering professional growth and development, and by offering affordable benefits and programs that meet the diverse needs of our employees and their families.

The grant-date fair value of the restricted stock awards was \$33.575, which was the intrinsic value, or stock price, on the grant date.

- (1) The stock option awards granted through 2014 vest 20% per year beginning on the first anniversary of the grant date. The stock option awards granted in 2015, 2016, 2017 and 2018 vest by approximately 33% on each anniversary of the grant date for three years.
- (2) The restricted stock awards granted through 2014 vest in five equal increments on the first five anniversaries of the grant date and pay dividend equivalents. The time-based restricted stock awards granted in 2015, 2016, 2017 and 2018 vest by approximately 33% on each anniversary of the grant date for three years. The performance-based restricted stock awards added in 2015 are contingent upon the achievement of pre-established long-term performance goals. Performance is measured over a three-year period and cliff vested. Further discussion regarding restricted stock awards can be found in the Equity Awards section in the Compensation Discussion and Analysis of this proxy statement.
- (3) The market value of the restricted stock awards that have not vested was determined by multiplying the closing market price of the Company's Common stock on December 31, 2018 (\$41.24) by the number of restricted shares

Supplemental Executive Retirement Plan

The Company has established a Supplemental Executive Retirement Plan (the “SERP” or the “Plan”) covering officers in business lines of the Company with the title of Executive Vice President and above. The SERP is an unsecured non-qualified defined benefit plan that is unfunded and has no plan assets. Under the Plan, the participant’s benefit payment is valued at 25% of his or her final salary. Most participants will be required to participate in the Plan for five years before vesting begins and after five years, the participant will vest ratably in the benefit over the remaining period until age 65. The payout duration for eligible employees will be a minimum of five years and a maximum of fifteen years and each benefit contract is set up to provide one year of benefit payout per year of participation in the plan subject to the minimum and maximum durations.

See “Potential Payments upon Termination or Change of Control” herein for a description of the events that will result in payout of the benefit payment and the terms for each event under this Plan.

The following table shows the present value of the accumulated benefit payable to each of the Named Executive Officers that participate in the SERP as of December 31, 2018:

Name	Plan Name	Number of Years of Credited Service (#)	Present Value of Accumulated Benefit (\$)(1)	Payments During Last Fiscal Year (\$)
Russell A. Colombo	Bank of Marin SERP	8	545,734	—

(1)The accumulated benefit obligation is determined by discounting the expected present value of the retirement payments at normal retirement age using a 6.00% discount rate, which is appropriate under generally accepted accounting principles.

Nonqualified Deferred Compensation for 2018

The Nonqualified Deferred Compensation Plan is intended for a select group of employees of the Company who are in the highest salary band. Employees can defer up to 80% of base salary and up to 100% of bonus compensation into the plan. These are considered irrevocable elections and stay in place for the entire calendar year. The Company does not make any employer contributions to this plan, and employees are always 100% vested in their contributions. Named Executive Officers also make an election for distributions from the plan at termination.

The following table sets forth the plan contributions and earnings during 2018 and the aggregate balances at December 31, 2018:

Potential Payments upon Termination or Change in Control

Set forth below is a description of the plans and agreements that could result in potential payments to the Named Executive Officers in the case of their termination of employment and/or a change in control.

Change in Control Agreements

Each Named Executive Officer has signed a Change in Control Agreement. The circumstances that would trigger payment(s) or the provision of other benefits, including perquisites and health care benefits under the Change in

Control Agreement are: i) a Change in Control (defined in accordance with Section 409A of the Internal Revenue Code) followed by, ii) the occurrence within one year after the Change in Control of either termination of employment or a subsequent "Good Reason," including:

- Without the executive's express written consent, an adverse change in executive's position or title, the assignment to the executive of any duties or responsibilities inconsistent with the executive's position or removal of the executive from or any failure to re-elect the executive to any of such positions;
- A reduction of the executive's base salary;
- A 20% or greater reduction in non-salary benefits;

Table of Contents

- Failure of the Company to obtain the assumption of the Change in Control Agreement by any successor; or
- Requirement by the Company that the executive be based anywhere other than within 40 miles of the Company's current headquarters located in Novato, California.

Stock Options and Restricted Stock Awards

In the event of a change in control in which the Company is not the surviving corporation, unvested options and restricted stock awards immediately vest.

Supplemental Executive Retirement Plan

A participant whose employment terminates due to a change in control will be vested in 100% of the amount that the Company has accrued to that point to pay their retirement benefit. This accrued benefit will be paid out in a one-time payment.

Other Payments and Benefits

The Company shall pay to the executive as severance pay (and without regard to the provisions of any benefit plan) in a lump sum on the fifth day following the date of termination, the average salary of the executive for the last three full years of service multiplied by the executive's Seniority Factor (CEO 2.25 times; EVP 1.50 times), the executive's annual bonus for the previous year, and the executive's health premiums under COBRA for eighteen months and Dental/Vision premiums under COBRA for twelve months.

Estimated Total Benefits

The table below quantifies the estimated payments and benefits that would be provided to our Named Executive Officers in connection with the termination of his or her employment under the provisions of the Change in Control Agreements.

Table of Contents

In all cases, the information assumes that the triggering event occurred on the last day of fiscal year 2018, and the price per share of the Company's common stock is the closing market price as of that date (which was \$41.24).

Deferred compensation account balances will be distributed six months after separation, following the executive's distribution elections. Death

Unvested options and restricted stock awards will be cancelled*. Vested options shall remain exercisable upon the earlier of (a) expiration of the twelve-month period measured from the date of the executive's death or (b) the expiration date of the option term. Deferred compensation account balances will be distributed six months after the executive's death, following the executive's distribution elections. Benefits of 1.5 times the executive's salary (at the time of death) will be payable to the beneficiary of record. If the executive is employed by the Company at the time of his or her death, the beneficiary of the executive will be paid the value of the executive's projected supplemental retirement account balance at the normal retirement age. The balance will be paid to the beneficiary in a one-time payment. The Company has an appropriate amount of life insurance in force on the life of each participant to properly fund for this contingency.

*Stock options and restricted stock awards issued in 2018 include a retirement eligibility clause whereby the awards immediately vest upon the executive's retirement, provided he or she meets the established criteria of retirement eligibility. In addition, the clause provides that unvested stock options and restricted stock awards for eligible executives immediately vest in the event of death or disability (as defined in the 2017 Equity Plan and Equity Agreements). This clause was approved by the Committee in 2018.

The Committee Sets the Terms and Conditions for Equity Awards

The Committee or the Board, as the case may be, may accelerate (i) the date on which any option award may be exercised or (ii) the date of termination of the restrictions applicable to a restricted stock award, if the Committee or the Board, as appropriate, determines that to do so will be in the best interests of the Company and the participants in the plan.

Employment Contracts

There are currently no employment contracts between the Company or the Bank and their executive officers except the Company and the Bank have an employment agreement with Russell A. Colombo, their President and Chief Executive Officer. The agreement was for an initial two-year term commencing on December 1, 2008, but renews annually on December 1st of each year unless a party gives written notice to the other within certain time periods. The agreement originally established a base salary of \$281,036 and allowed for an increase annually. As of December 31, 2018 the base salary was \$464,242. While the agreement provides the potential to earn an annual incentive payment of up to seventy-five percent (75%), of the executive's salary, the Compensation Committee has approved the potential to earn an annual incentive payment of up to 100% of the executive's salary. The agreement also provides participation in the Company's reimbursement policy and participation in the Company's benefit plans that are available to senior executives and employees generally. Additionally, the agreement provides for payment of an automobile allowance

of \$1,200 per month, a reimbursement for monthly membership dues for the Marin Country Club, and reimbursement for necessary air travel expenses for Mr. Colombo's spouse up to a maximum of \$2,000 per year. If the agreement were terminated without cause, Mr. Colombo would receive severance pay equal to one year's annual base salary in effect at the date of termination, an amount equal to his pro rata bonus earned up to the date of the termination, plus eighteen months' COBRA payments for health premiums and dental/vision premiums.

It is anticipated that James Kimball will enter into an employment agreement with the Company and the Bank in the near future.

Employee Stock Ownership Plan and 401(k) Plan

An employee becomes a participant in the 401(k) Plan as of the first day of the quarter following the date on which he/she attains age eighteen and has completed ninety days of employment. A participant may elect to defer a portion of his/her salary, not to exceed limitations set by the IRS, into the plan. Distributions from the 401(k) Plan are not permitted before age 59 1/2 except in the event of death, disability, termination of employment or IRS permitted hardships. As determined by the Board of Directors, the Company may make discretionary matching contributions to the 401(k) Plan. In 2018 and 2017 the Company made matching contributions of \$851 thousand and \$765 thousand, respectively.

An employee becomes a participant in the Employee Stock Ownership Plan (“ESOP”) as of the first day of the quarter following the date on which he/she attains age eighteen and has completed ninety days of employment. A participant will have a non-forfeitable right to 100% of his/her ESOP account balance upon disability or upon his/her normal retirement date or completion of at least five years of service, whichever is later. Distributions from the plan are not permitted before age 59 1/2 except in the event of death, disability, termination of employment or IRS permitted diversification. The Company's contributions of \$1,173 thousand in 2018 and \$1,152 thousand in 2017 were used to purchase shares of Company stock for the ESOP.

Incentive Bonus Plan

Bank of Marin has incentive bonus programs for the Bank's executive officers, and for the non-executive officers and staff pursuant to the Bank of Marin Individual Incentive Plan (discussed elsewhere herein). Contributions by the Bank to both programs are based upon the Bank's achievement of specified levels of financial performance as determined by the Board of Directors. In 2018 the Bank expensed \$3,489,121 for these programs and bonus payments were made in the first quarter of 2019.

Section 16(a) of the Securities Exchange Act of 1934 requires the Company's directors and executive officers and persons who own more than 10% of the Company's common stock to file with the Securities and Exchange Commission (the "SEC") initial reports of ownership and reports of changes in ownership of common stock of the Company. Directors, officers, and greater than 10% shareholders are required by SEC regulation to furnish the Company with copies of all Section 16(a) forms they file.

To the Company's knowledge, based on a review of the copies of such reports furnished to the Company and written representations that no other reports were required, during the fiscal year ended December 31, 2018, all Section 16(a) filing requirements applicable to its directors, officers, and 10% shareholders have been met on a timely basis.

PROPOSAL NUMBER 2: ADVISORY VOTE TO APPROVE EXECUTIVE COMPENSATION

The Company seeks a non-binding advisory vote from shareholders to approve the compensation of the Named Executive Officers, as described in detail under the Executive Compensation section of this proxy statement.

In 2018, the Company included an advisory vote to approve executive compensation, providing shareholders with an opportunity to communicate their views on the Company's executive compensation program. The Company's executive compensation was approved by over 66% of the shares voted. The Committee considered the results of this vote in setting executive compensation for 2019 and concluded that the support of the Company's compensation program indicates that shareholders generally concur with the Company's alignment of compensation and performance. Although representing a strong majority, the percentage of shareholders providing an advisory vote to approve executive compensation declined between the 2017 annual meeting and the 2018 annual meeting. The Compensation Committee and management took this as an opportunity to enhance the Company's disclosure of Named Executive Officer compensation in this Proxy Statement by, among other things, providing more detail on the performance based compensation of such executives. At the 2017 Annual Meeting of Shareholders the shareholders held, by majority vote, for a one-year frequency of the non-binding, advisory vote on executive compensation. While the frequency vote was non-binding, the Board of Directors has made the decision to include the advisory vote to approve executive compensation annually.

As discussed in the Compensation Discussion and Analysis, the Company's Board of Directors and management believe that the most effective executive compensation program is one that is designed to reward the achievement of specific annual, long-term and strategic goals. The Company believes that this philosophy aligns the interests of executive officers with those of the shareholders by rewarding performance above established goals.

The Company's compensation programs are designed to attract and retain high quality executive officers that are critical to long-term success. There are four components to the compensation of Named Executive Officers:

- Base salary, which is established based on market data and adjusted on individual performance and experience.
- Performance-based incentives, which are based on the overall performance of the Company and on individual goals specific to the executive's area of responsibility.
- Equity incentives, which allow the executives to share in the growth and prosperity of the Company.
- Perquisites and other benefits that management believes are reasonable and consistent with the Company's overall compensation program and will keep the Company competitive in the marketplace.

Table of Contents

This proposal gives you as a shareholder of the Company the opportunity to make a non-binding advisory basis vote on the Company's overall executive compensation of the Named Executive Officers as disclosed in this proxy statement. Accordingly, you may vote on the following resolution:

“RESOLVED, that the shareholders approve the compensation of the Company's Named Executive Officers as disclosed in this proxy statement pursuant to the compensation disclosure rules of the Securities and Exchange Commission (which includes the Compensation Discussion and Analysis, the compensation tables and related narrative discussion).”

The Board of Directors and the Compensation Committee value the opinions of shareholders and will take into account the outcome of the vote when considering future executive compensation arrangements.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE “FOR” THE APPROVAL, ON AN ADVISORY BASIS, OF THE EXECUTIVE OFFICER COMPENSATION AS DESCRIBED IN THE COMPENSATION DISCUSSION AND ANALYSIS AND THE ACCOMPANYING COMPENSATION TABLES CONTAINED IN THE PROXY STATEMENT.

PROPOSAL NUMBER 3: INDEPENDENT AUDITOR

Appointment of Independent Auditor

The Audit Committee of the Board of Directors has selected the independent registered public accounting firm of Moss Adams LLP (“Moss Adams”) to perform audit services for the Company and its subsidiary, Bank of Marin, for the year ending December 31, 2019. This selection has been approved by unanimous resolution of the Board of Directors.

In accordance with our long standing tradition, the shareholders are hereby asked to ratify the selection of the Company’s independent auditor. The approval of a majority of the shares represented at the Annual Meeting is required to ratify the selection of Moss Adams as the Company’s independent auditor. It is anticipated that a representative of the firm will be present at the Annual Meeting and will be available to answer questions.

Factors Considered in Selection

In making this selection the Audit Committee considered, among other factors, the quality and efficiency of Moss Adams’ historical and recent audit plans, communications and performance on the Company’s audit; their capability and expertise in assessing the breadth and complexity of the Company’s operations; and the potential impact on the Company of selecting a different independent accounting firm. There are no affiliations between the Company and Moss Adams, its partners, associates or employees other than those which pertain to the engagement of Moss Adams in the previous year as independent auditor for the Company and for certain permitted consulting services. Moss Adams has served as the Company’s independent auditor since 2004.

The audit reports on the financial statements of Bank of Marin Bancorp and subsidiary as of and for the fiscal years ended December 31, 2013 through 2018 were issued by Moss Adams and did not contain an adverse opinion or disclaimer of opinion, nor were they qualified or modified as to uncertainty, audit scope, or accounting principles.

The Audit Committee carefully considers the qualifications of the audit firm’s lead partner when approving his or her appointment to serve a five year rotation with the Company. Jeff Clair was selected to lead Moss Adams’ audit engagements with the Company for the fiscal years 2019-2023, replacing Tullus Miller after Mr. Miller completed his five year rotation (2014-2018).

Independent Auditor Fees

Following are disclosures regarding the fees billed by Moss Adams during 2018 and 2017. The fees for 2017 included \$66,000 in audit and other fees related to the Bank of Napa acquisition. The Audit Committee has considered whether the provision of non-audit services by Moss Adams is compatible with maintaining auditor independence.

Table of Contents

Fees incurred for professional services provided by Moss Adams for 2018 and 2017:

(\$ in thousands)	2018	2017
Audit Fees (1)	\$ 304,500	\$ 329,360
Audit-Related Fees	\$ 5,300	\$ 4,200
All Other Fees	\$ 29,975	\$ 42,859
Tax Fees	\$ —	\$ —
Total Fees	\$ 339,775	\$ 376,419

(1) Audit Fees are the aggregate fees billed for professional services in the fiscal year 2018 and 2017 by Moss Adams for the audit of the annual financial statements, review of the quarterly financial statements and work related to compliance with the Sarbanes-Oxley Act of 2002.

The Audit Committee discussed these fees and services with the independent auditor and Company management, and determined that they are permitted under the rules and regulations concerning auditor independence promulgated by the SEC to implement the Sarbanes-Oxley Act of 2002, the NASDAQ and the American Institute of Certified Public Accountants.

Pre-Approval of Independent Auditor Fees and Services

It is the policy of the Audit Committee that all engagements for audit, audit-related, tax, and other non-audit services provided by the independent auditor be pre-approved by the Audit Committee, and cannot commence until such approval has been granted. The pre-approval includes a review of the services to be undertaken, consideration of potential for conflicts of interest, and the estimated fees. The services performed by Moss Adams for the 2018 audit engagement were pre-approved by the Audit Committee, in accordance with the Committee's procedures. The services and fees proposed by Moss Adams for the 2019 engagement will be reviewed for pre-approval by the Audit Committee at the April 2019 meeting.

Normally, pre-approval is discussed at regularly scheduled Audit Committee meetings. However, the authority to grant specific pre-approval between meetings, as necessary, has been delegated to the Chair of the Audit Committee. The Chair must update the Audit Committee at the next regularly scheduled meeting of any services that were granted specific pre-approval.

THE BOARD OF DIRECTORS UNANIMOUSLY RECOMMENDS A VOTE "FOR" THE RATIFICATION OF THE INDEPENDENT AUDITOR.

AUDIT COMMITTEE REPORT

The Audit Committee (for this Audit Committee Report, the “Committee”) of the Board of Directors (for this Audit Committee Report, the “Board”) oversees the accounting and financial reporting processes of the Company, the audits of the Company's financial statements, the qualifications of the public accounting firm engaged as the Company's independent auditor and the performance of the Company's internal and independent auditors. The Committee's function is more fully described in the Board approved Audit Committee charter, available through the Company's investor relations website at www.bankofmarin.com. The charter specifies the scope of the Committee's responsibilities and the framework within which it carries out those responsibilities. The Committee reviews its charter every year, and any proposed changes are reviewed and approved by the full Board.

The Committee consists of no fewer than three (3) members of the Board, each of whom is independent under the NASDAQ listing standards, SEC rules and other regulations applicable to audit committees. The Company's Board has determined that all Committee members satisfy the financial literacy requirements in the NASDAQ listing standards and that the Committee has at least one “audit committee financial expert” as defined by the SEC rules. However, Committee members are not professional accountants or auditors, are not experts under the Securities Act of 1933 in these fields, and their functions are not intended to duplicate or to certify the activities of management and the independent audit firm. Members of the Committee are expected to participate in continuing education relating to the duties and requirements of audit committees. The Committee serves a Board-level oversight role in which it provides advice, counsel, and direction to management and to the auditors. The Committee assembles information from a range of sources, including discussions with management, independent auditors and internal audit personnel, and the experience of the Committee's members in business, financial, and accounting matters.

The Committee meets as needed but at least quarterly. There were eight (8) meetings in 2018 (four general quarterly meetings and four meetings to review financial report filings). The Committee schedules its meetings with a view to ensuring that it devotes appropriate attention to all of its tasks. These meetings include, whenever appropriate, executive sessions in which the Committee meets separately with the independent auditors, internal audit personnel and management to determine if there are any concerns regarding the Company's accounting or financial practices.

The Committee has the authority to engage its own outside advisors, including experts in particular areas of accounting, as it determines appropriate. These advisors are apart from counsel or advisors hired by management. The Company's Internal Audit department reports directly to the Committee and is responsible for objectively reviewing and evaluating the adequacy, effectiveness, and quality of the Company's system of internal controls related to the reliability and integrity of its financial information and the safeguarding of its assets. Moss Adams, the Company's independent registered public accounting firm, is responsible for performing an independent audit of the Company's consolidated financial statements in accordance with generally accepted auditing standards and expressing an opinion on the effectiveness of the Company's internal controls over financial reporting.

Moss Adams has provided the Committee with the written disclosures and the letter required by the Public Company Accounting Oversight Board (“PCAOB”) regarding the independent accountant's communications with the Committee concerning independence, and the Committee has discussed with the audit firm and management that firm's independence. During this process nothing came to the attention of the Committee which suggested that Moss Adams is not independent; however, the Committee is not required (and does not) certify that the independent audit firm is independent under applicable rules.

Table of Contents

The Committee meets with Moss Adams, Bank of Marin management and the Internal Audit Manager to review interim financial results before publication of quarterly earnings results. Discussions cover topics and events that may have a significant financial impact. The Committee also reviews and discusses with management steps taken to identify, monitor and control significant financial reporting risks.

In accordance with law, the Committee has ultimate authority and responsibility for selecting, compensating, evaluating, and, when appropriate, replacing the Company's independent audit firm. Although the Committee has the sole authority to appoint the independent audit firm, the Committee will continue its longstanding practice of recommending that the Board ask the shareholders to ratify the appointment of the independent accountants at the Annual Meeting.

The Committee annually reviews Moss Adams' performance in connection with the determination to retain Moss Adams. In conducting this review, the Committee considered, among other things:

- Moss Adams' historical and recent performance of the audit, including the extent and quality of its communications with the Committee
- Data relating to audit quality and performance, including recent PCAOB reports on Moss Adams
- The appropriateness of Moss Adams' fees, both on an absolute basis and as compared with its peer firms
- Moss Adams' tenure as the Company's independent auditor and its depth of understanding of the Company's business, accounting policies and practices, including the potential effect on the financial statements of the major risks facing the Company and internal control over financial reporting
- Moss Adams' professional skepticism and objectivity, including perspectives brought through periodic required rotation of the lead audit partner, quality review partner and other engagement team partners, and
- The advisability and potential impact of selecting a different independent public accounting firm.

The Committee agenda for a given year includes reviewing Bank of Marin's interim financial results, financial statements, internal controls over financial reporting, and all audit-related activities, including approval of the annual audit schedule, auditor reports and management responses to findings. The Committee reviews and discusses with management and the independent auditor the Company's major financial reporting risks and the steps that management has taken to monitor and control such risks. The Committee also reviews and approves the engagement and funding for supplementary internal auditing services, currently provided by AuditOne LLP.

The Committee is responsible for establishing and monitoring procedures for the receipt, retention and disposition of complaints received by the Bank regarding accounting, financial reporting, internal accounting and financial controls,

and auditing concerns (also known as the “Whistleblower” policy and procedures). This responsibility includes ensuring that there is a means for the confidential submission by employees of the Company, or of third-parties that provide services to the Company, of any concerns regarding potentially questionable accounting or auditing matters. The Committee is committed to ensuring that these submissions can be made anonymously while meeting all regulatory requirements.

The Committee has reviewed and discussed with management its assessment and report on the effectiveness of the Company's internal controls over financial reporting as of December 31, 2018. The Committee also has reviewed and discussed with Moss Adams its review and report on the Company's internal control over financial reporting.

The Committee has reviewed and discussed the audited financial statements for fiscal year 2018 with management and Moss Adams. Management represented to the Committee that the Company's audited financial statements were prepared in accordance with U.S. generally accepted accounting principles, and

Table of Contents

Moss Adams represented that its presentations to the Committee included the matters required to be discussed with the independent registered public accounting firm by applicable PCAOB rules regarding "Communication with Audit Committees." This review included a discussion with management of the quality (and not merely the acceptability) of the Company's accounting principles, the reasonableness of significant estimates and judgments, and the clarity of disclosure in the Company's financial statements, including the disclosures related to critical accounting estimates.

In reliance on these reviews and discussions, and the reports of Moss Adams, the Audit Committee has recommended to the Board, and the Board has approved the audited financial statements in the Company's Annual Report on Form 10-K for the year ended December 31, 2018.
