CRIMSON WINE GROUP, LTD.

Notes to Unaudited Interim Condensed Consolidated Financial Statements

1. Background and Basis of Presentation

Background

Crimson Wine Group, Ltd. and its subsidiaries (collectively, “Crimson” or the “Company”) is a Delaware corporation that has been conducting business since 1991. Crimson is in the business of producing and selling ultra-premium and luxury wines (i.e., wines that retail for \$14 to \$25 and over \$25 per 750ml bottle, respectively). Crimson is headquartered in Napa, California and through its subsidiaries owns six wineries: Pine Ridge Vineyards, Archery Summit, Chamisal Vineyards, Seghesio Family Vineyards, Double Canyon Vineyards and Seven Hills Winery.

Financial Statement Preparation

The accompanying unaudited condensed consolidated financial statements have been prepared in accordance with accounting principles generally accepted in the U.S. (“GAAP”) and pursuant to the rules and regulations of the Securities and Exchange Commission (the “SEC”) for interim financial information. The unaudited interim condensed consolidated financial statements, which reflect all adjustments (consisting of normal recurring items or items discussed herein) that management believes necessary to fairly state results of interim operations, should be read in conjunction with the Notes to Consolidated Financial Statements (including the Significant Accounting Policies and Recent Accounting Pronouncements) included in the Company’s audited consolidated financial statements for the year ended December 31, 2015, as filed with the SEC on Form 10-K (the “2015 Report”). Results of operations for interim periods are not necessarily indicative of annual results of operations. The unaudited condensed consolidated balance sheet at December 31, 2015 was extracted from the audited annual financial statements and does not include all disclosures required by GAAP for annual financial statements.

Significant Accounting Policies

There were no changes to the Company’s significant accounting policies during the six months ended June 30, 2016. See Note 3 to the 2015 Report for a description of the Company’s significant accounting policies.

Recent Accounting Pronouncements

The following table provides a brief description of recent accounting pronouncements issued by the Financial Accounting Standards Board (“FASB”) subsequent to the filing of the 2015 Report that could have a material effect on Crimson’s financial statements. The following table also provides a brief description of recent accounting pronouncements adopted during the six months ended June 30, 2016:

5

Edgar Filing: Crimson Wine Group, Ltd - Form 10-Q

Standard	Description	Date of adoption	Effect on the financial statements or other significant matters
Standards that are not yet adopted			
Accounting Standard Update ("ASU") 2016-08, Revenue from Contracts with Customers (Topic 606)	In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers (Topic 606), which is guidance outlining a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers that supersedes most current revenue recognition guidance. ASU 2016-08 amends the principal-versus-agent implementation guidance set forth in ASU 2014-09. Among other things, ASU 2016-08 clarifies that an entity should evaluate whether it is the principal or the agent for each specified good or service promised in a contract with a customer.	January 1, 2018, early adoption is permitted for the Company beginning on January 1, 2017.	Management is currently evaluating the potential impact of this guidance on the Company's consolidated financial statements.
ASU 2016-10, Revenue from Contracts with Customers (Topic 606)	Amends certain aspects of ASU 2014-09 related to identifying performance obligations and licensing implementation.	January 1, 2018, early adoption is permitted for the Company beginning on January 1, 2017.	Management is currently evaluating the potential impact of this guidance on the Company's consolidated financial statements.
Standards that were adopted			
ASU 2015-16, Business Combinations (Topic 805)	The standard eliminates the requirement for retrospective treatment of measurement-period adjustments in a business combination. Instead, a measurement-period adjustment will be recognized in the period in which the adjustment is determined.	January 1, 2016.	The adoption of this standard did not have a material impact on the Company's consolidated financial statements.
ASU 2015-05, Intangibles- Goodwill and Other- Internal-Use Software (Subtopic 350-40)	Cloud computing arrangements represent the delivery of hosted services over the internet which includes software, platforms, infrastructure and other hosting arrangements. The ASU provides criteria to determine whether the cloud computing arrangement includes a software license. A software license can include customized development, maintenance, hosting and other related costs. If the criteria are met, the customer will capitalize the fee attributable to the software license portion of the arrangement as internal-use software. If the arrangement does not include a software license, it should be treated as a service contract.	January 1, 2016.	The adoption of this standard did not have a material impact on the Company's consolidated financial statements.

2.Acquisition of Seven Hills Winery

On January 27, 2016, one of Crimson's wholly-owned subsidiaries entered into a purchase agreement pursuant to which Crimson's subsidiary acquired, or has rights in, substantially all of the assets and certain liabilities with respect to the Seven Hills Winery located in Walla Walla, Washington. The acquisition provides a strategic opportunity for Crimson to expand its portfolio.

The acquisition-date fair value of total consideration for the Seven Hills Winery acquisition was \$7.9 million, consisting of \$7.3 million in cash, which included a working capital adjustment of \$0.3 million, and \$0.6 million of non-cash contingent consideration. The contingent consideration arrangement requires the Company to pay up to \$0.8 million in future earn-out payments based on certain achievements of the acquired business over the 38 months following the closing of the acquisition. The Company estimated the fair value of the contingent consideration at January 27, 2016 (the acquisition date) to be \$0.6 million, using a probability-weighted discounted cash flow model. This fair value measurement is based on significant inputs not observable in the market and thus represents a Level 3 measurement as defined in ASC 820, Fair Value Measurement. Changes to the estimated fair value of the contingent consideration at each reporting period shall be recorded in the Company's consolidated income statement under the line item entitled 'General and administrative expense' as an operating expense. The fair value of the contingent consideration as of June 30, 2016 was \$0.6 million and during the three and six months ended June 30, 2016 the amounts recognized in the unaudited condensed consolidated income statements related to the changes in the estimated fair value of the contingent liability were immaterial.

The Seven Hills Winery acquisition was recorded during the first quarter of 2016 using the acquisition method of accounting as prescribed under ASC 805, Business Combinations. Accordingly, assets acquired and liabilities assumed were recorded at their fair values estimated by management as of January 27, 2016. The Company is in the process of finalizing fair value measurements of certain assets; thus, the measurements are subject to change.

Edgar Filing: Crimson Wine Group, Ltd - Form 10-Q

The following table summarizes the estimated fair values of the assets acquired and liabilities assumed at the acquisition date (in thousands):

Accounts receivable	\$ 232
Inventory	4,229
Property, plant and equipment	2,927
Intangible assets	600
Total assets	7,988
Accounts payable and accruals	201
Net assets acquired	7,787
Goodwill	143
Total purchase price	\$ 7,930

The fair value of accounts receivable acquired of \$0.2 million is equal to the gross contractual amount due, as the Company expects all amounts to be collectible.

Adjustments to record the assets acquired and liabilities assumed at fair value include the recognition of \$0.6 million of intangible assets as follows (in thousands, except estimated life information):

	Amount	Estimated Life
Brand	\$ 500	15 years
Distributor relationships	100	10 years
Total	\$ 600	

As described in Note 11 “Business Segment Information,” based on the nature of the Company’s business, revenue generating assets are utilized across segments. Therefore, goodwill recognized has not been allocated to any particular segment of the Company.

The Company recognized \$0.1 million and \$0.2 million of acquisition related costs during the three and six months ended June 30, 2016, respectively. These costs are included in the unaudited condensed consolidated income statements under the line item entitled ‘General and administrative expense.’ The Company’s results for the three and six months ended June 30, 2016 include the results of Seven Hills Winery for the period since the date of acquisition. The amount of revenue and net loss included in the Company’s unaudited condensed consolidated income statements for the three months ended June 30, 2016 were \$0.4 million and \$0.1 million, respectively, and for the six months ended June 30, 2016 were \$0.9 million and \$0.2 million, respectively. Pro forma financial statements are not presented as they are not material to the Company’s overall consolidated financial statements.

5. Financial Instruments

The Company's material financial instruments include cash and cash equivalents and investments classified as available for sale. Investments classified as available for sale are the only assets or liabilities that are measured at fair value on a recurring basis. All of the Company's investments mature within three years or less.

The par value, amortized cost, gross unrealized gains and losses and estimated fair value of investments classified as available for sale as of June 30, 2016 and December 31, 2015 are as follows (in thousands):

As of June 30, 2016 and December 31, 2015, other than the assets and liabilities related to the Seven Hills Winery acquisition (see Note 2), the Company did not have any assets or liabilities measured at fair value on a nonrecurring basis. For cash and cash equivalents, the carrying amounts of such financial instruments approximate their fair values. For short-term and long-term debt, the carrying amounts of such financial instruments approximate their fair values. The Company has estimated the

Edgar Filing: Crimson Wine Group, Ltd - Form 10-Q

fair value of its short-term and long-term debt based upon Level 3 inputs, such as the terms that management believes would currently be available to the Company for similar issues of debt, taking into account the current credit risk of the Company and other factors.

The Company does not invest in any derivatives or engage in any hedging activities.

6.Intangible and Other Non-Current Assets

Revolving Credit Facility

In March 2013, Crimson and its subsidiaries entered into a \$60.0 million revolving credit facility with American AgCredit, FLCA, as agent for the lenders identified in the revolving credit facility, comprised of a revolving loan facility and a term revolving loan facility, which together is secured by substantially all of Crimson's assets. The revolving credit facility is for up to \$10.0 million of availability in the aggregate for a five year term, and the term revolving credit facility is for up to \$50.0 million in the aggregate for a fifteen year term. All obligations of Crimson under the revolving credit facility are collateralized by certain real property, including vineyards and certain winery facilities of Crimson, accounts receivable, inventory and intangible assets. In addition to unused line fees ranging from 0.15% to 0.25%, rates for the borrowings are priced based on a performance grid tied to certain financial ratios

and the London Interbank Offered Rate. The revolving credit facility can be used to fund acquisitions, capital projects and other general corporate purposes. Covenants include the maintenance of specified debt and equity ratios, limitations on the incurrence of additional indebtedness, limitations on dividends and other distributions to shareholders and restrictions on certain mergers, consolidations and sales of assets. No amounts have been borrowed under the revolving credit facility to date.

Term Loan

On November 10, 2015, Pine Ridge Winery, LLC (“Borrower”), a wholly-owned subsidiary of Crimson, entered into a senior secured term loan agreement (the “term loan”) with American AgCredit, FLCA (“Lender”) for an aggregate principal amount of \$16.0 million. Amounts outstanding under the term loan will bear a fixed interest rate of 5.24% per annum.

The term loan will mature on October 1, 2040 (the “Maturity Date”). On the first day of each January, April, July and October, commencing January 1, 2016, a principal payment in the amount of \$160,000 and an interest payment equal to the amount of all interest accrued through the previous day shall be made. A final payment of all unpaid principal, interest and any other charges with respect to the term loan shall be due and payable on the Maturity Date.

The Company incurred debt issuance costs of approximately \$0.1 million related to this term loan. These costs are recorded as a reduction from short-term or long-term debt, based on the timeframe in which the fees will be expensed (i.e. – expensed within 12-months shall be classified against short-term debt). The costs are being amortized to interest expense using the effective interest method over the contractual term of the loan.

Borrower’s obligations under the term loan are guaranteed by the Company. All obligations of Borrower under the term loan are collateralized by certain real property of the Company. Borrower’s covenants include the maintenance of a specified debt service coverage ratio and certain customary affirmative and negative covenants, including limitations on the incurrence of additional indebtedness; limitations on distributions to shareholders; and restrictions on certain investments, sale of assets and merging or consolidating with other persons.

The full \$16.0 million was drawn at closing and the term loan can be used to fund acquisitions, capital projects and other general corporate purposes. As of June 30, 2016, \$15.6 million in principal was outstanding, net of unamortized loan fees of \$0.1 million.

The Company was in compliance with all debt covenants as of June 30, 2016.

9. Stockholders' Equity

In March 2014, the Board of Directors of the Company authorized a share repurchase program (the "2014 Repurchase Program") that provides for the repurchase of up to \$2.0 million of outstanding common stock. Under the 2014 Repurchase Program, any repurchased shares are constructively retired. During the six months ended June 30, 2016, the Company repurchased 76,710 shares under the 2014 Repurchase Program which were constructively retired at an original repurchase cost of \$0.6 million, and on February 29, 2016 the 2014 Repurchase Program was completed. Under the total 2014 Repurchase Program the Company repurchased 228,522 shares which were constructively retired at an original repurchase cost of \$2.0 million.

In March 2016, the Board of Directors of the Company authorized a second share repurchase program (the "2016 Repurchase Program") that provides for the repurchase of up to \$2.0 million of outstanding common stock. Under the 2016 Repurchase Program, any repurchased shares are constructively retired. During the six months ended and as of June 30, 2016, the Company repurchased 114,039 shares under the 2016 Repurchase Program which were constructively retired at an original repurchase cost of \$1.0 million. Through August 5, 2016, the Company had repurchased 136,782 shares under the 2016 Repurchase Program which were constructively retired at an original repurchase price of \$1.2 million.

10. Income Taxes

The Company's effective tax rates for the three months ended June 30, 2016 and 2015 were 44.3% and 32.9%, respectively. The Company's effective tax rates for the six months ended June 30, 2016 and 2015 were 42.4% and 38.1%, respectively. The consolidated income tax expense for the three and six months ended June 30, 2016 and 2015 was determined based upon estimates of the Company's consolidated effective income tax rates for the years ending December 31, 2016 and 2015, respectively. The difference between the consolidated effective income tax rate and the U.S. federal statutory rate is primarily attributable to state taxes and permanent items, which primarily consist of meals and entertainment and the domestic production activity deduction.

The Company does not have any amounts in its consolidated balance sheet for unrecognized tax benefits related to uncertain tax positions at June 30, 2016 and December 31, 2015.

11. Business Segment Information

The Company has identified two operating segments which are reportable segments for financial statement reporting purposes, Wholesale Sales and Direct to Consumer Sales, based upon their different distribution channels, margins and selling strategies. Wholesale Sales includes all sales through a third party where prices are given at a wholesale rate whereas Direct to Consumer Sales includes retail sales in the tasting room, remote sites and on-site events, Wine Club sales and other sales made directly to the consumer without the use of an intermediary.

The two segments reflect how the Company's operations are evaluated by senior management and the structure of its internal financial reporting. The Company evaluates performance based on the gross profit of the respective business

segments. Selling expenses that can be directly attributable to the segment are allocated accordingly. However, centralized selling expenses and general and administrative expenses are not allocated between operating segments. Therefore, net income information for the respective segments is not available. Based on the nature of the Company's business, revenue generating assets are utilized across segments. Therefore, discrete financial information related to segment assets and other balance sheet data is not available and that information continues to be aggregated.

The following table outlines the net sales, cost of sales, gross profit, directly attributable selling expenses and operating income for the Company's reportable segments for the three and six months ended June 30, 2016 and 2015, and also includes a reconciliation of consolidated income (loss) from operations. Other/Non-allocable net sales and gross profit include bulk wine and grape sales, event fees and retail sales. Other/Non-allocable expenses include centralized corporate expenses not specific to an identified reporting segment. Sales figures are net of related excise taxes.

We expressly disclaim any obligation, except as required by federal securities laws, or undertaking to update or revise any forward-looking statements contained herein to reflect any change or expectations with regard thereto or to reflect any change in events, conditions, or circumstances on which any such forward-looking statements are based, in whole or in part. Our actual results may differ materially from the results discussed in or implied by such forward-looking statements.

Factors that could cause actual results to differ materially from any results projected, forecasted, estimated or budgeted or that may materially and adversely affect our actual results include but are not limited to the following: worsening economic conditions causing a decline in estimated future cash flows; our dependence on certain key personnel; significant increases in operating costs and reduced profitability due to competition for skilled management and staff employees; various diseases, pests and weather conditions affecting the quality and quantity of grapes; our inability to grow or acquire enough fruit for our wines; significant competition adversely affecting our profitability; competition for shelf space in retail stores and for marketing focus by our independent distributors; the contamination of our wines; a reduction in consumer demand for our wines; a decrease in wine score rating by important rating organizations; climate change, or legal, regulatory or market measures to address climate change, negatively affecting our business, operations or financial performance, and water scarcity or poor quality negatively impacting our production costs and capacity, including the continuation or worsening of the drought in California; environmental

issues or hazardous substances on our properties resulting in us incurring significant liabilities; indebtedness we may incur materially affecting our financial health; changes in laws and government regulations or in the implementation and/or enforcement of government rules and regulations increasing our costs or restricting our ability to sell our products into certain markets; our inability to insure certain risks economically; being subject to litigation which may have a significant adverse effect on our consolidated financial condition or results of operations; not paying dividends currently or in the future; impairment of our intangible assets; the limited market for our common stock because our stock is not listed on any securities exchange; volatility in our common stock price; future sales of our common stock depressing the market price of our stock; public company compliance costs; loss of our status as an emerging growth company; restrictions on our ability to enter into certain transactions that could jeopardize our tax free spin-off from Leucadia National Corporation; and the significant influence of certain principal stockholders. For additional information see Part I, Item 1A. Risk Factors in the 2015 Report.

Overview of Business

The Company generates revenues from sales of wine to wholesalers and direct to consumers, sales of bulk wine and grapes, special event fees, tasting fees and retail sales.

Our wines are primarily sold to wholesale distributors, who then sell to retailers and restaurants. As permitted under federal and local regulations, we have also been placing increased emphasis on generating revenue from direct sales to consumers which occur through wine clubs, at the wineries' tasting rooms and through the internet and direct outreach to customers. Direct sales to consumers are more profitable for the Company as it is able to sell its products at a price closer to

retail prices rather than the wholesale price sold to distributors. From time to time, we may sell grapes or bulk wine, because the wine does not meet the quality standards for the Company's products, market conditions have changed resulting in reduced demand for certain products, or because the Company may have produced more of a particular varietal than it can use. When these sales occur, they may result in a loss.

Cost of sales includes grape and bulk wine costs, whether purchased or produced from the Company's controlled vineyards, crush costs, winemaking and processing costs, bottling and packaging, warehousing and shipping and handling costs. For the Company controlled vineyard produced grapes, grape costs include annual farming labor costs, harvest costs and depreciation of vineyard assets. For wines that age longer than one year, winemaking and processing costs continue to be incurred and capitalized to the cost of wine, which can range from 3 to 36 months. Reductions to the carrying value of inventories are also included in costs of sales.

At June 30, 2016, wine inventory includes approximately 0.6 million cases of bottled and bulk wine in various stages of the aging process. Cased wine is expected to be sold over the next 12 to 36 months and generally before the release date of the next vintage.

Seasonality

As discussed in the 2015 Report, the wine industry in general historically experiences seasonal fluctuations in revenues and net income. The Company typically has lower sales and net income during the first quarter and higher sales and net income during the fourth quarter due to seasonal holiday buying as well as wine club shipment timing. We anticipate similar trends in the future.

Results of Operations

Three Months Ended June 30, 2016 Compared to Three Months Ended June 30, 2015

Net Sales

(in thousands, except percentages)	Three Months Ended June 30,			% change
	2016	2015	Increase (Decrease)

Total net sales	\$ 15,235	\$ 14,791	\$ 444	3%

Edgar Filing: Crimson Wine Group, Ltd - Form 10-Q

Wholesale net sales increased \$0.1 million, or 1%, in the current quarter as compared to the same period in 2015. The increase in the current quarter was driven by export volume growth of 58% and decreased price support, partially offset by a decrease in domestic volume of 4% which was anticipated due to planned second quarter price increases for certain products and a temporary shift in product mix to lower priced products.

Direct to consumer net sales decreased \$0.1 million, or 1%, in the current quarter as compared to the same period in 2015. In the current quarter tasting room net sales increased \$0.3 million offset by a decrease in wine club net sales of \$0.3 million, due to a temporary shift in product mix, and a decrease in e-commerce net sales of \$0.1 million.

Other net sales include bulk wine and grape sales, event fees and retail sales which had an overall increase of \$0.5 million, or 71%, in the current quarter as compared to the same period in 2015. The year over year increase was primarily driven by a higher volume of higher priced bulk wine sales.

Gross Profit

	2016	2015	Increase (Decrease)	
Wholesale	\$ 3,829	\$ 4,238	\$ (409)	-10%

Total gross profit	\$ 7,566	\$ 8,089	\$ (523)	-6%

Edgar Filing: Crimson Wine Group, Ltd - Form 10-Q

Wholesale gross profit decreased \$0.4 million, or 10%, in the current quarter as compared to the same period in 2015. Gross margin percentage, which is defined as gross profit as a percentage of net sales, decreased approximately 504 basis points in the current quarter, which was driven primarily by a temporary shift in product mix to lower margin products. Planned price increases on certain products, as well as improved mix of higher margin products, are expected to improve margins in the second half of the year.

Direct to consumer gross profit decreased \$0.2 million, or 6%, in the current quarter as compared to the same period in 2015. Gross margin percentage decreased approximately 330 basis points in the current period, which was driven primarily by an overall expected temporary shift in product mix to lower margin products and expected lower margins on the inventory purchased in the Seven Hills Winery acquisition due to fair value acquisition related accounting. We anticipate higher margins in the second half of the year when the mix of our wine clubs shifts to the higher value and margin items.

Other gross profit includes bulk wine and grape sales, event fees, non-wine retail sales and inventory write-downs which reflected an overall increase of \$0.1 million, or 54%, in the current quarter as compared to the same period in 2015. The overall increase was primarily driven by lower inventory write-downs and higher margins recognized on non-wine retail sales, partially offset by an increased loss on higher volume bulk wine sales.

Operating Expenses

(in thousands, except percentages)	Three Months Ended June 30,			
	2016	2015	Increase	% change
Sales and marketing	\$ 3,878	\$ 3,398	\$ 480	14%
General and administrative	2,624	2,618	6	0%
Total operating expenses	\$ 6,502	\$ 6,016	\$ 486	8%

Sales and marketing expenses increased \$0.5 million, or 14%, in the current quarter as compared to the same period in 2015. The increase was primarily to support growth, partially due to the addition of the Estates Wine Room in December 2015 and the acquisition of Seven Hills Winery in January 2016, which resulted in higher compensation costs and increased contract services, office related expenses and marketing costs.

General and administrative expenses remained relatively flat in the current quarter as compared to the same period in 2015. The current quarter had increases in operating expenses associated with Seven Hills Winery, contract services, depreciation of leasehold improvements and depreciation and other costs associated with technology enhancements to support planned business growth. These increases were offset by decreases due to several other general and administrative items.

Other income decreased \$0.1 million, or 44%, in the current quarter as compared to the same period in 2015.

The overall decrease in other income relates to one-time income of \$0.1 million, recognized during the three months ended June 30, 2015, associated with a vineyard lease.

The Company's effective tax rates for the three months ended June 30, 2016 and 2015 were 44.3% and 32.9%, respectively. The effective tax rate for the second quarter of 2016 increased compared to the same period in 2015 primarily due to a reduction in the benefit from the domestic production activities deduction.

Wholesale gross profit decreased \$0.2 million, or 2%, in the current six-month period as compared to the same period in 2015. Gross margin percentage decreased approximately 516 basis points in the current quarter, which was driven primarily by a temporary shift in product mix to lower margin products including the close out of one lower priced

Sales and marketing expenses increased \$1.3 million, or 19%, in the current six-month period as compared to the same period in 2015. The increase was primarily to support growth, partially due to the addition of the Estates Wine Room in December 2015 and the acquisition of Seven Hills Winery in January 2016, which resulted in higher compensation costs, increased travel expenses, increased professional fees and increased contract services. These increases were partially offset by an overall decrease in public relations special programs and design services.

General and administrative expenses increased \$0.6 million, or 12%, in the current six-month period as compared to the same period in 2015. The increase was primarily driven by operating expenses and one-time acquisition related professional fees associated with Seven Hills Winery, increased outside services, depreciation of leasehold improvements, depreciation and other costs associated with technology enhancements to support planned business growth and increased salaries. These increases were partially offset by a decrease in recruiting fees and several other general and administrative items.

Interest expense increased \$0.4 million, or 487%, in the current six-month period as compared to the same period in 2015. The increase relates to interest expense incurred on the term loan entered into with American AG Credit during November 2015.

Other income, net remained relatively flat year over year, and is primarily comprised of interest income and rental property income.

Income Tax Provision

The Company's effective annual tax rates for the six months ended June 30, 2016 and 2015 were 42.4% and 38.1%, respectively. The effective tax rate for the first half of 2016 increased compared to the first half of 2015 primarily due to a reduction in the benefit from the domestic production activities deduction.

Liquidity and Capital Resources

General

The Company's principal sources of liquidity are its available cash, funds generated from operations and its revolving credit facility. The Company's primary cash needs are to fund working capital requirements and capital expenditures.

Credit Facilities

In March 2013, Crimson entered into a \$60.0 million revolving credit facility with American AgCredit, FLCA, as agent for the lenders identified in the revolving credit facility, comprised of a revolving loan facility and a term revolving loan facility, which together is secured by substantially all of Crimson's assets. The revolving credit facility is for up to \$10.0 million of availability in the aggregate for a five year term, and the term revolving credit facility is for up to \$50.0 million in the aggregate for a fifteen year term. All obligations of Crimson under the revolving credit facility are collateralized by certain real property, including vineyards and certain winery facilities of Crimson, accounts receivable, inventory and intangibles. In addition to unused line fees ranging from 0.15% to 0.25%, rates for the borrowings are priced based on a performance grid tied to certain financial ratios and the London Interbank Offered Rate. The revolving credit facility can be used to fund acquisitions, capital projects and other general corporate purposes. Covenants include the maintenance of specified debt and equity ratios, limitations on the incurrence of additional indebtedness, limitations on dividends and other distributions to shareholders and restrictions on certain mergers, consolidations and sales of assets. No amounts have been borrowed under the revolving credit facility to date.

On November 10, 2015, Pine Ridge Winery, LLC ("Borrower"), a wholly-owned subsidiary of Crimson entered into a senior secured term loan agreement (the "term loan") with American AgCredit, FLCA ("Lender") for an aggregate principal amount of \$16.0 million. Amounts outstanding under the term loan will bear a fixed interest rate of 5.24% per annum.

The term loan will mature on October 1, 2040 (the "Maturity Date"). On the first day of each January, April, July and October, commencing January 1, 2016, Borrower is required to make a principal payment in the amount of One Hundred Sixty Thousand Dollars (\$160,000) and an interest payment equal to the amount of all interest accrued through the previous

day. A final payment of all unpaid principal, interest and any other charges with respect to the term loan shall be due and payable on the Maturity Date.

Borrower's obligations under the term loan are guaranteed by the Company. All obligations of Borrower under the term loan are collateralized by certain real property of the Company. Borrower's covenants include the maintenance of a specified debt service coverage ratio and certain customary affirmative and negative covenants, including limitations on the incurrence of additional indebtedness; limitations on distributions to shareholders; and restrictions on certain investments, sale of assets and merging or consolidating with other persons.

The full \$16.0 million was drawn at closing and the term loan can be used to fund acquisitions, capital projects and other general corporate purposes. As of June 30, 2016, \$15.7 million in principal was outstanding, net of unamortized loan fees of \$0.1 million.

Cash provided by operating activities

Net cash provided by operating activities was \$5.4 million for the six months ended June 30, 2016, consisting primarily of \$0.7 million of net income adjusted for non-cash items such as \$4.1 million of depreciation and amortization, \$0.3 million of loss on write-down of inventory, \$0.3 million of deferred income tax provision and \$0.2 million of net cash outflow related to changes in operating assets and liabilities. The change in operating assets and liabilities was primarily due to a decrease in accounts payable and expense accruals, partially offset by a decrease in accounts receivable, inventory, excluding inventory acquired in the Seven Hills Winery acquisition and other current assets.

Net cash provided by operating activities was \$5.5 million for the six months ended June 30, 2015, consisting primarily of \$2.6 million of net income adjusted for non-cash items such as \$3.7 million of depreciation and amortization, \$1.1 million of deferred income tax provision and \$2.0 million of net cash outflow related to changes in operating assets and liabilities. The change in operating assets and liabilities was primarily due to a decrease in

accounts payable and expense accruals and an increase in inventory, partially offset by a decrease in accounts receivable.

Cash used in investing activities

Net cash used in investing activities was \$11.6 million for the six months ended June 30, 2016, consisting primarily of \$7.3 million of cash paid in the acquisition of Seven Hills Winery, capital expenditures of \$6.1 million and net purchases and redemptions of available for sale investments of \$1.8 million. The increase in capital expenditures primarily relates to \$3.1 million in strategic land acquisitions. The Company expects to spend approximately \$5.0 million in the remainder of 2016 for capital expenditures, excluding costs to buildout the recently announced winemaking facility in West Richland, Washington. We expect to use our available cash and cash flows generated from operating activities to fund capital expenditures.

Net cash used in investing activities was \$2.8 million for the six months ended June 30, 2015, consisting primarily of capital expenditures of \$3.6 million partially offset by net purchases and redemptions of available for sale investments of \$0.8 million.
