QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the quarterly period ended March 31, 2016

OR

TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934

For the transition period from _____ to _____

Commission File Number 1-12744

MARTIN MARIETTA MATERIALS, INC.

(Exact name of registrant as specified in its charter)

North Carolina 56-1848578
(State or other jurisdiction of (I.R.S. Employer

incorporation or organization) Identification Number)

2710 Wycliff Road, Raleigh, NC 27607-3033
(Address of principal executive offices) (Zip Code)

Registrant's telephone number, including area code 919-781-4550

Edgar Filing: MARTIN MARIETTA MATERIALS INC - Form 10-Q

Former name: None

Former name, former address and former fiscal year, if changes since last report.

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days.

Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of "large accelerated filer," "accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer

Non-accelerated filer Smaller reporting company

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of each of the issuer's classes of Common Stock, as of the latest practicable date.

Class	Outstanding as of May 2, 2016
Common Stock, \$0.01 par value	63,527,166

MARTIN MARIETTA MATERIALS, INC. AND CONSOLIDATED SUBSIDIARIES

FORM 10-Q

For the Quarter Ended March 31, 2016

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

1. Significant Accounting Policies

Organization

Martin Marietta Materials, Inc. (the “Corporation” or “Martin Marietta”) is engaged principally in the construction aggregates business. The aggregates product line accounted for 55% of 2015 consolidated net sales and includes crushed stone, sand and gravel, and is used for construction of highways and other infrastructure projects, and in the nonresidential and residential construction industries. Aggregates products are also used in the railroad, agricultural, utility and environmental industries. These aggregates products, along with the Corporation’s aggregates-related downstream product lines, which accounted for 27% of 2015 consolidated net sales and include asphalt products, ready mixed concrete and road paving construction services, are sold and shipped from a network of more than 400 quarries, distribution facilities and plants in 26 states, Nova Scotia and the Bahamas. The aggregates and aggregates-related downstream product lines are reported collectively as the “Aggregates business”.

The Corporation currently conducts the Aggregates business through three reportable segments: the Mid-America Group, the Southeast Group and the West Group.

AGGREGATES BUSINESS

Reportable

Segments	Mid-America Group	Southeast Group	West Group
Operating Locations	Indiana, Iowa, northern Kansas, Kentucky, Maryland, Minnesota, Missouri, eastern Nebraska, North Carolina, Ohio, South Carolina, Virginia, Washington and West Virginia	Alabama, Florida, Georgia, Tennessee, Nova Scotia and the Bahamas	Arkansas, Colorado, southern Kansas, Louisiana, western Nebraska, Nevada, Oklahoma, Texas, Utah and Wyoming

The Corporation has a Cement segment, which accounted for 11% of 2015 consolidated net sales. The Cement segment has production facilities located in Midlothian, Texas, south of Dallas/Fort Worth and Hunter, Texas, north of San Antonio. The Cement business produces Portland and specialty cements. Similar to the Aggregates business,

cement is used in infrastructure projects, nonresidential and residential construction, and the railroad, agricultural, utility and environmental industries. The high calcium limestone reserves, used as a raw material, are owned by the Cement business and are adjacent to each of the plants.

The Corporation has a Magnesia Specialties segment with manufacturing facilities in Manistee, Michigan, and Woodville, Ohio. The Magnesia Specialties segment, which accounted for 7% of 2015 consolidated net sales, produces magnesia-based chemicals products used in industrial, agricultural and environmental applications and dolomitic lime sold primarily to customers in the steel industry.

MARTIN MARIETTA MATERIALS, INC. AND CONSOLIDATED SUBSIDIARIES

FORM 10-Q

For the Quarter Ended March 31, 2016

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

1. Significant Accounting Policies (continued)

Basis of Presentation

The accompanying unaudited consolidated financial statements of the Corporation have been prepared in accordance with generally accepted accounting principles for interim financial information and with the instructions to the Quarterly Report on Form 10-Q and in Article 10 of Regulation S-X. The Corporation has continued to follow the accounting policies set forth in the audited consolidated financial statements and related notes thereto included in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2015. In the opinion of management, the interim consolidated financial information provided herein reflects all adjustments, consisting of normal recurring accruals, necessary for a fair presentation of the results of operations, financial position and cash flows for the interim periods. The consolidated results of operations for the three months ended March 31, 2016 are not indicative of the results expected for other interim periods or the full year. The consolidated balance sheet at December 31, 2015 has been derived from the audited consolidated financial statements at that date but does not include all of the information and notes required by generally accepted accounting principles for complete financial statements. These consolidated financial statements should be read in conjunction with the audited consolidated financial statements and notes thereto included in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2015.

Debt Issuance Costs

The Financial Accounting Standards Board ("FASB") issued Accounting Standard Update ("ASU") 2015-03, "Simplifying the Presentation of Debt Issuance Costs" ("ASU 2015-03"), which amends the presentation of debt issuance costs in the financial statements. The ASU requires an entity to present debt issuance costs related to a recognized debt liability in the balance sheet as a direct deduction from the carrying amount of the debt liability, consistent with debt discounts, and does not impact the recognition and measurement guidance for debt issuance costs. The Corporation adopted this ASU on January 1, 2016 and has retrospectively adjusted the prior periods presented, resulting in a reclassification of \$3,588,000 and \$4,427,000 from Other noncurrent assets to Long-term debt as of December 31, 2015 and March 31, 2015, respectively, and \$533,000 from Other current assets to Current maturities of long-term debt and short-term maturities as of December 31, 2015 and March 31, 2015.

Revenue Recognition Standard

The FASB issued an accounting standard update that amends the accounting guidance on revenue recognition. The new standard intends to provide a more robust framework for addressing revenue issues, improve comparability of revenue recognition practices and improve disclosure requirements. The new standard is effective January 1, 2018 and can be applied on a full retrospective or modified retrospective approach. The Corporation is currently evaluating the impact the provisions of the new standard will have on its financial statements.

MARTIN MARIETTA MATERIALS, INC. AND CONSOLIDATED SUBSIDIARIES

FORM 10-Q

For the Quarter Ended March 31, 2016

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

1. Significant Accounting Policies (continued)

Lease Standard

In February 2016, the FASB issued a new accounting standard, Accounting Codification Standard 842 – Leases, intending to improve financial reporting of leases and to provide more transparency into off-balance sheet leasing obligations. The guidance requires virtually all leases, excluding mineral interest leases, to be recorded on the balance sheet and provides guidance on the recognition of lease expense and income. The new standard is effective January 1, 2019 and must be applied on a modified retrospective approach. The Corporation is currently evaluating the impact the new standard will have on its financial statements.

Share-based Payment Standard

In March 2016, the FASB issued ASU 2016-09, “Compensation—Stock Compensation (Topic 718): Improvements to Employee Share-Based Payment Accounting”, which simplifies certain aspects of accounting guidance and requirements for share-based transactions. The ASU is effective for reporting periods beginning January 1, 2017. The Corporation is evaluating the impact of the ASU on its financial statements.

Consolidated Comprehensive Earnings/Loss and Accumulated Other Comprehensive Loss

Consolidated comprehensive earnings/loss for the Corporation consist of consolidated net earnings or loss; adjustments for the funded status of pension and postretirement benefit plans; foreign currency translation adjustments; and the amortization of the value of terminated forward starting interest rate swap agreements into interest expense, and are presented in the Corporation’s consolidated statements of earnings and comprehensive earnings.

Comprehensive earnings attributable to Martin Marietta is as follows:

	Three Months Ended March 31, 2016 2015	
	(Dollars in Thousands)	
Net earnings attributable to Martin Marietta Materials, Inc.	\$44,994	\$6,126
Other comprehensive earnings (loss), net of tax	1,789	(564)

FORM 10-Q

For the Quarter Ended March 31, 2016

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

1. Significant Accounting Policies (continued)

Earnings per Common Share

The numerator for basic and diluted earnings per common share is net earnings attributable to Martin Marietta Materials, Inc. reduced by dividends and undistributed earnings attributable to the Corporation's certain stock-based compensation. If there is a net loss, no amount of the undistributed loss is attributed to unvested participating securities. The denominator for basic earnings per common share is the weighted-average number of common shares outstanding during the period. Diluted earnings per common share are computed assuming that the weighted-average number of common shares is increased by the conversion, using the treasury stock method, of awards to be issued to employees and nonemployee members of the Corporation's Board of Directors under certain stock-based compensation arrangements if the conversion is dilutive. For the three months ended March 31, 2016 and 2015, the diluted per-share computations reflect a change in the number of common shares outstanding to include the number of additional shares that would have been outstanding if the potentially dilutive common shares had been issued.

The following table reconciles the numerator and denominator for basic and diluted earnings per common share:

	Three Months Ended March 31, 2016 2015 (In Thousands)	
Net earnings from continuing operations attributable to		
Martin Marietta Materials, Inc.	\$44,994	\$6,126
Less: Distributed and undistributed earnings attributable to		
unvested awards	298	1,369
Basic and diluted net earnings available to common		
shareholders attributable to Martin Marietta Materials, Inc.	\$44,696	\$4,757
Basic weighted-average common shares outstanding	64,158	67,411
Effect of dilutive employee and director awards	192	265
Diluted weighted-average common shares outstanding	64,350	67,676

Long-term debt	\$1,575,327	\$ 1,550,061	\$1,562,190

The Corporation, through a wholly-owned special-purpose subsidiary, has a \$250,000,000 trade receivable securitization facility (the "Trade Receivable Facility"), which matures on September 30, 2016. The Trade Receivable Facility, with SunTrust Bank, Regions Bank, PNC Bank, N.A. and certain other lenders that may become a party to the facility from time to time, is backed by eligible trade receivables, as defined, and is limited to the lesser of the facility limit or the borrowing base, as defined, of \$324,734,000, \$282,258,000 and \$280,101,000 at March 31, 2016, December 31, 2015 and March 31, 2015, respectively. These receivables are originated by the Corporation and then sold to the wholly-owned special-purpose subsidiary by the Corporation. The Corporation continues to be responsible for the servicing and administration of the receivables purchased by the wholly-owned special-purpose subsidiary. Borrowings under the Trade Receivable Facility bear interest at a rate equal to one-month LIBOR plus 0.7%. The Trade Receivable Facility contains a cross-default provision to the Corporation's other debt agreements.

The Corporation's Credit Agreement, which provides a \$250,000,000 senior unsecured term loan (the "Term Loan Facility") and a \$350,000,000 five-year senior unsecured revolving facility (the "Revolving Facility"), requires the Corporation's ratio of consolidated debt to consolidated earnings before interest, taxes, depreciation, depletion and amortization ("EBITDA"), as defined by the Credit Agreement, for the trailing twelve months (the "Ratio") to not exceed 3.50x as of the end of any fiscal quarter, provided that the Corporation may exclude from the Ratio debt incurred in connection with certain acquisitions for a period of 180 days so long as the Corporation, as a consequence of such specified acquisition, does not have its rating on long-term unsecured debt fall below BBB by Standard & Poor's or Baa2 by Moody's and the Ratio calculated without such exclusion does not exceed 3.75x. Additionally, if no amounts are outstanding under both the Revolving Facility and the Trade Receivable Facility, consolidated debt, including debt for which the Corporation is a co-borrower, may be reduced by the Corporation's unrestricted cash and cash equivalents in excess of \$50,000,000, such reduction not to exceed \$200,000,000, for purposes of the covenant calculation.

MARTIN MARIETTA MATERIALS, INC. AND CONSOLIDATED SUBSIDIARIES

FORM 10-Q

For the Quarter Ended March 31, 2016

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

3. Long-Term Debt (continued)

In accordance with the amended Credit Agreement, the Corporation adjusted consolidated EBITDA to add back any integration or similar costs or expenses related to the TXI business combination incurred in any period prior to the second anniversary of the closing of the TXI business combination, not to exceed \$70,000,000. The Corporation was in compliance with this Ratio at March 31, 2016.

Available borrowings under the Revolving Facility are reduced by any outstanding letters of credit issued by the Corporation under the Revolving Facility. At March 31, 2016, December 31, 2015 and March 31, 2015, the Corporation had \$2,507,000 of outstanding letters of credit issued under the Revolving Facility.

Current debt maturities consist of borrowings under the Trade Receivable Facility as well as the current portions of the Term Loan Facility and other notes. The increase in current debt maturities as of March 31, 2016 is attributable to the balance drawn on the Trade Receivable Facility.

On April 5, 2016, the Corporation repaid the \$30,000,000 outstanding on the Revolving Facility.

Accumulated other comprehensive loss includes the unamortized value of terminated forward starting interest rate swap agreements. For the three months ended March 31, 2016 and 2015, the Corporation recognized \$332,000 and \$307,000, respectively, as additional interest expense. The ongoing amortization of the terminated value of the forward starting interest rate swap agreements will increase annual interest expense by approximately \$1,400,000 until the maturity of the 6.6% Senior Notes in 2018.

4. Financial Instruments

The Corporation's financial instruments include cash equivalents, accounts receivable, notes receivable, bank overdraft, accounts payable, publicly-registered long-term notes, debentures and other long-term debt.

Cash equivalents are placed primarily in money market funds, money market demand deposit accounts and Eurodollar time deposits. The Corporation's cash equivalents have original maturities of less than three months. Due to the short maturity of these investments, they are carried on the consolidated balance sheets at cost, which approximates fair value.

Accounts receivable are due from a large number of customers, primarily in the construction industry, and are dispersed across wide geographic and economic regions. However, accounts receivable are more heavily concentrated in certain states (namely, Texas, Colorado, North Carolina, Iowa and Georgia). The estimated fair values of accounts receivable approximate their carrying amounts due to the short-term nature of the receivables.

Notes receivable are not publicly traded. Management estimates that the fair value of notes receivable approximates the carrying amount due to the short-term nature of the receivables.

The bank overdraft represents amounts to be funded to financial institutions for checks that have cleared the bank. The estimated fair value of the bank overdraft approximates its carrying value due to the short-term nature of the overdraft.

Accounts payable represent amounts owed to suppliers and vendors. The estimated fair value of accounts payable approximates its carrying amount due to the short-term nature of the payables.

MARTIN MARIETTA MATERIALS, INC. AND CONSOLIDATED SUBSIDIARIES

FORM 10-Q

For the Quarter Ended March 31, 2016

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Continued)

4. Financial Instruments (continued)

The carrying values and fair values of the Corporation's long-term debt were \$1,752,757,000 and \$1,817,950,000, respectively, at March 31, 2016; \$1,568,774,000 and \$1,625,193,000, respectively, at December 31, 2015; and \$1,576,063,000 and \$1,691,478,000, respectively, at March 31, 2015. The estimated fair value of the publicly-registered long-term notes was estimated based on Level 1 of the fair value hierarchy using quoted market prices. The estimated fair value of other borrowings, which primarily represents variable-rate debt, was based on Level 2 of the fair value hierarchy using quoted market prices for similar debt instruments, and approximates their carrying amounts as the interest rates reset periodically.

5. Income Taxes

The Corporation's effective income tax rate for the three months ended March 31, 2016 was 30.4%. The estimated effective income tax rates reflect the effect of federal and state income taxes and the impact of differences in book and tax accounting arising from the net permanent benefits associated with the statutory depletion deduction for mineral reserves and the domestic production deduction. For the three months ended March 31, 2015, there was an income tax benefit which reflects the exercise of converted stock awards issued to former TXI personnel.

The Corporation records interest accrued in relation to unrecognized tax benefits as income tax expense. Penalties, if incurred, are recorded as operating expenses in the consolidated statements of earnings and comprehensive earnings.

6. Pension and Postretirement Benefits

The estimated components of the recorded net periodic benefit cost (credit) for pension and postretirement benefits are as follows:

	Three Months Ended March 31,			
	Pension		Postretirement Benefits	
	2016	2015	2016	2015
	(Dollars in Thousands)			
Service cost	\$5,507	\$6,290	\$34	\$39
Interest cost	8,871	8,112	238	230
Expected return on assets	(9,434)	(9,104)	—	—
Amortization of:				
Prior service cost (credit)	88	105	(462)	(576)
Actuarial loss (gain)	2,831	3,108	(99)	(82)
Settlement charge	59	—	—	—
Special termination benefit	126	256	—	—
Net periodic benefit cost (credit)	\$8,048	\$8,767	\$(289)	\$(389)

7. Commitments and Contingencies

Legal and Administrative Proceedings

The Corporation is engaged in certain legal and administrative proceedings incidental to its normal business activities. In the opinion of management and counsel, based upon currently-available facts, it is remote that the ultimate outcome of any litigation and other proceedings, including those pertaining to environmental matters, relating to the Corporation and its subsidiaries, will have a material adverse effect on the overall results of the Corporation's operations, its cash flows or its financial position.

Borrowing Arrangements with Affiliate

The Corporation is a co-borrower with an unconsolidated affiliate for a \$25,000,000 revolving line of credit agreement with BB&T Bank. The affiliate has agreed to reimburse and indemnify the Corporation for any payments and expenses the Corporation may incur from this agreement. The Corporation holds a lien on the affiliate's membership interest in a joint venture as collateral for payment under the revolving line of credit.

In addition, the Corporation has a \$6,000,000 outstanding loan due from this unconsolidated affiliate as of March 31, 2016, December 31, 2015 and March 31, 2015.

Employees

Approximately 10% of the Corporation's employees are represented by a labor union. All such employees are hourly employees. The Corporation maintains collective bargaining agreements relating to the union employees with the Aggregates business and Magnesia Specialties segments. For the Magnesia Specialties segment located in Manistee, Michigan and Woodville, Ohio, 100% of its hourly employees are represented by labor unions. The Manistee collective bargaining agreement expires in August 2019, and the Woodville collective bargaining agreement expires in May 2018.

8. Business Segments

The Aggregates business contains three reportable business segments: Mid-America Group, Southeast Group and West Group. The Corporation also has Cement and Magnesia Specialties segments. Corporate loss from operations primarily includes depreciation on capitalized interest, expenses for certain corporate administrative functions, business development and integration expenses, unallocated corporate expenses and other nonrecurring and/or non-operational adjustments. Intersegment sales represent net sales from one segment to another segment.

8. Business Segments (continued)

Cement intersegment sales, which are to the aggregates and ready mixed concrete product lines in the West Group, were \$27,147,000 and \$18,377,000 for the three months ended March 31, 2016 and 2015, respectively.

The Aggregates business includes the aggregates product line and aggregates-related downstream product lines, which include asphalt, ready mixed concrete and road paving product lines. All aggregates-related downstream product lines reside in the West Group. The following tables, which are reconciled to consolidated amounts, provide net sales and gross profit by line of business: Aggregates (further divided by product line), Cement and Magnesia Specialties.

	Three Months Ended	
	March 31,	
	2016	2015
	(Dollars in	
	Thousands)	
Net sales:		
Aggregates	\$406,439	\$332,214
Asphalt	3,875	9,645

9. Supplemental Cash Flow Information

The components of the change in other assets and liabilities, net, are as follows:

	Three Months Ended March 31,	
	2016	2015
	(Dollars in Thousands)	
Other current and noncurrent assets	\$(2,089)	\$(4,083)
Accrued salaries, benefits and payroll taxes	(12,951)	(13,703)
Accrued insurance and other taxes	(10,280)	386
Accrued income taxes	(8,473)	(46,700)
Accrued pension, postretirement and postemployment benefits	5,775	5,830
Other current and noncurrent liabilities	(6,282)	(10,827)
	\$(34,300)	\$(69,097)

The change in accrued insurance and other taxes is attributable to certain property tax payments for tax year 2015 made in January 2016. These property taxes for tax year 2014 were paid prior to in 2014. The change in accrued income taxes is attributable to an increase in income tax expense in the current year.

Noncash investing and financing activities are as follows:

	Three Months Ended March 31,	
	2016	2015
	(Dollars in Thousands)	
Noncash investing and financing activities:		
Acquisition of assets through capital lease	\$ —	\$ 1,222
Acquisition of assets through asset exchange	—	5,153

10. Business Combination

During the quarter ended March 31, 2016, the Corporation acquired the outstanding stock of Rocky Mountain Materials and Asphalt, Inc., and Rocky Mountain Premix Inc. The acquisition provides more than 500 million tons of mineral reserves and expands the Corporation's presence along the Front Range of the Rocky Mountains, home to 80% of Colorado's population. The acquired operations are reported through the West Group. The Corporation has recorded preliminary fair values of the assets acquired and liabilities assumed; however, certain amounts are subject to change as additional reviews are performed, including asset and liability verification. Specific accounts subject to ongoing purchase accounting include property, plant and equipment; goodwill; other intangible assets; deferred income taxes and accrued expenses. The acquisition was not financially material and therefore pro forma information

is not required.

11. Stock-Based Compensation

During the quarter ended March 31, 2016, the Corporation awarded its annual grant of stock-based compensation, which included 75,421 of performance stock units and 68,720 of restricted stock units. The grant-date fair value of each award is \$142.02 for the performance stock units and \$124.41 for the restricted stock units. No stock options are expected to be awarded in 2016. In past years, annual stock-based compensation awards were primarily made in the second quarter of the year. The change in the composition of the awards and the timing of the annual grant resulted in higher expense recorded in the first quarter compared with prior years. For the quarters ended March 31, 2016 and 2015, stock-based compensation expense was \$7,228,000 and \$2,907,000, respectively.

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND
RESULTS OF OPERATIONS

First Quarter Ended March 31, 2016

Item 2. Management's Discussion and Analysis of Financial Condition and Results of Operations.

OVERVIEW

Martin Marietta Materials, Inc. (the Corporation or Martin Marietta) is a leading supplier of aggregates products (crushed stone, sand and gravel) and heavy building materials for the construction industry, including infrastructure, nonresidential, residential, railroad ballast, agricultural and chemical grade stone used in environmental applications. The Corporation's annual consolidated net sales and operating earnings are predominately derived from its Aggregates business, which mines, processes and sells granite, limestone, sand, gravel and other aggregates-related downstream products, including asphalt, ready mixed concrete and road paving construction services for use in all sectors of the public infrastructure, environmental industries, nonresidential and residential construction industries, as well as agriculture, railroad ballast, chemical, utility and other uses. The Aggregates business shipped and delivered aggregates, asphalt products and ready mixed concrete from a network of more than 400 quarries, underground mines, distribution facilities and plants in 26 states, Nova Scotia and the Bahamas. The Aggregates business' products are used primarily by commercial customers principally in domestic construction of highways and other infrastructure projects and for nonresidential and residential building development. Aggregates products are also used in the railroad, agricultural, utility and environmental industries.

The Corporation currently conducts its Aggregates business through three reportable business segments: Mid-America Group, Southeast Group and West Group.

AGGREGATES BUSINESS

RESULTS OF OPERATIONS

First Quarter Ended March 31, 2016

(Continued)

The Cement business produces Portland and specialty cements. Similar to the Aggregates business, cement is used in infrastructure projects, nonresidential and residential construction, and the railroad, agricultural, utility and environmental industries. The production facilities are located in Midlothian, Texas, south of Dallas/Fort Worth and Hunter, Texas, north of San Antonio. The limestone reserves used as a raw material are located on property, owned by the Corporation, adjacent to each of the plants. In addition to the manufacturing facilities, the Corporation operates cement distribution terminals.

The Corporation also has a Magnesia Specialties segment that produces magnesia-based chemicals products used in industrial, agricultural and environmental applications and dolomitic lime sold primarily to customers in the steel industry.

CRITICAL ACCOUNTING POLICIES

The Corporation outlined its critical accounting policies in its Annual Report on Form 10-K for the year ended December 31, 2015. There were no changes to the Corporation's critical accounting policies during the three months ended March 31, 2016.

RESULTS OF OPERATIONS

Except as indicated, the comparative analysis in this Management's Discussion and Analysis of Financial Condition and Results of Operations is based on net sales and cost of sales. Gross margin and operating margin calculated as percentages of total revenues represent the most directly comparable financial measures calculated in accordance with generally accepted accounting principles ("GAAP"). However, gross margin as a percentage of net sales and operating margin as a percentage of net sales represent non-GAAP measures. The Corporation presents these ratios calculated based on net sales, as it is consistent with the basis by which management reviews the Corporation's operating results. Further, management believes it is consistent with the basis by which investors analyze the Corporation's operating results given that freight and delivery revenues and costs represent pass-throughs and have no profit mark-up. The following tables present the calculations of gross margin and operating margin for the three months ended March 31, 2016 and 2015 in accordance with GAAP and reconciliations of the ratios as percentages of total revenues to percentages of net sales.

Earnings before interest, income taxes, depreciation, depletion and amortization ("EBITDA") is a widely accepted financial indicator of a company's ability to service and/or incur indebtedness. EBITDA is not defined by generally accepted accounting principles and, as such, should not be construed as an alternative to net earnings or operating cash flow. EBITDA is as follows for the three months ended March 31, 2016 and 2015.

A reconciliation of net earnings (loss) attributable to Martin Marietta Materials, Inc. to consolidated EBITDA is as follows:

	Three Months Ended March 31,	
	2016	2015
Net Earnings Attributable to Martin Marietta Materials, Inc.	\$44,994	\$6,126
Add back:

Incremental gross margin (excluding freight and delivery revenues) is a non-GAAP measure. The Corporation presents this metric to enhance analysts' and investors' understanding of the impact of increased net sales on profitability. The following shows the calculation of consolidated incremental gross margin (excluding freight and delivery revenues) for the quarter ended March 31, 2016 (dollars in thousands).

Consolidated net sales for the quarter ended March 31, 2016	\$733,960
Consolidated net sales for the quarter ended March 31, 2015	631,876
Incremental net sales	\$102,084
Consolidated gross profit for the quarter ended March 31, 2016	\$144,634
Consolidated gross profit for the quarter ended March 31, 2015	74,261
Incremental gross profit	\$70,373
Consolidated incremental gross margin (excluding freight and delivery revenues) for quarter ended	
March 31, 2016	68.9 %

Significant items for the quarter ended March 31, 2016 (unless noted, all comparisons are versus the prior-year quarter):

- Record consolidated net sales of \$734.0 million compared with \$631.9 million, an increase of 16.2%
- Aggregates product line volume increase of 13.1%; aggregates product line price increase of 8.1%
- Cement business net sales of \$69.9 million and gross profit of \$32.6 million
- Magnesia Specialties net sales of \$59.5 million and gross profit of \$23.0 million
- Consolidated gross margin (excluding freight and delivery revenues) of 19.7%, an increase of 790 basis points
 - Consolidated selling, general and administrative expenses ("SG&A") of \$59.9 million, or 8.2% of net sales
- Consolidated earnings from operations of \$83.8 million compared with \$25.6 million
- Earnings per diluted share of \$0.69 compared with \$0.07

⁽³⁾ Aggregates Product Line includes all acquisitions from the date of acquisition and divestitures through the date of disposal.

Aggregates product line shipments reflect growth in all end-use markets. Shipments to the infrastructure market comprised 39% of quarterly volumes and increased 13%. Growth was driven by large projects in North Carolina and Georgia, two states that passed legislation in 2015 increasing near and long-term state infrastructure spending.

The nonresidential market represented 33% of quarterly aggregates product line shipments and increased 14%. The Mid-America Group led with a 50% increase in heavy nonresidential and 25% in light nonresidential. Notably, an improving economy is driving business investment in, for example, industrial warehouse and distribution facilities, which have been dormant in much of the Mid-America Group's markets over the past several years. The West Group saw a

MARTIN MARIETTA MATERIALS, INC. AND CONSOLIDATED SUBSIDIARIES

FORM 10-Q

For the Quarter Ended March 31, 2016

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND

RESULTS OF OPERATIONS

First Quarter Ended March 31, 2016

(Continued)

slight increase in nonresidential activity as the diversified Texas economy generated a broad range of projects replacing energy-related shale shipments currently displaced by volatile oil prices.

The residential end-use market accounted for 18% of quarterly aggregates product line shipments. Volumes within this market increased 20% as the housing recovery continues and expands, particularly in the Corporation's markets in the southeastern United States. Housing activity in the United States generally remains well below historic averages. That said, housing permits, starts and completions are all up more than ten percent for the trailing-twelve months ended March 2016. Notably, during the first quarter, North Carolina, Iowa, Florida and South Carolina all reported double-digit growth in housing starts. The ChemRock/Rail market accounted for the remaining 10% of aggregates product line volumes and increased slightly.

Overall, aggregates product line shipments increased 13.1%. Geographically, growth was led by the Mid-America Group, which increased 27.8%. The Southeast and West Groups achieved an increase of 5.6% and 4.4%, respectively.

The average per-ton selling price for the heritage aggregates product line was \$13.04 and \$12.06 for the three months ended March 31, 2016 and 2015, respectively. Aggregates product line pricing improvement of 8.1% reflects growth in all reportable groups, led by the 11.3% increase in the West Group. The most significant improvement was achieved in Colorado, followed by Central and South Texas. The Southeast Group and Mid-America Group reported increases of 7.3% and 4.3%, respectively. The average per-ton selling price for the acquired aggregates product line was \$12.50 for the three months ended March 31, 2016.

The Corporation's aggregates-related downstream product lines include asphalt, ready mixed concrete and road paving businesses in Arkansas, Colorado, Texas and Wyoming. Average selling prices by product line for the Corporation's aggregates-related downstream product lines are as follows:

	Three Months Ended	
	March 31,	
	2016	2015
Heritage:		
Asphalt	\$42.85/ton	\$43.65/ton
Ready Mixed Concrete	\$102.28/yd ³	\$91.72/yd ³
Acquisitions:		
Asphalt	\$39.95/ton	—
Ready Mixed Concrete	\$115.84/yd ³	—

MARTIN MARIETTA MATERIALS, INC. AND CONSOLIDATED SUBSIDIARIES

FORM 10-Q

For the Quarter Ended March 31, 2016

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND
RESULTS OF OPERATIONS

First Quarter Ended March 31, 2016

(Continued)

Unit shipments by product line for the Corporation's aggregates-related downstream product lines are as follows:

	Three Months Ended March 31,	
	2016	2015
Asphalt Product Line (in thousands):		
Tons to external customers	69	213
Internal tons used in road paving business	65	57
Total heritage asphalt tons	134	270
Acquisitions:		
Tons to external customers	11	—
Ready Mixed Concrete (in thousands of cubic yards):		
Heritage	1,763	1,363
Acquisitions	23	—
Total cubic yards	1,786	1,363

The decline in asphalt product line shipments is primarily attributable to the divestiture of San Antonio Asphalt operations, sold in third quarter 2015, which contributed 123,000 tons during the three months ended March 31, 2015.

The ready mixed concrete product line benefitted from strong demand and much improved operating conditions, driving a reported 31.0% increase in shipments and an 11.7% increase in average selling price, resulting in a 46.4% increase in net sales and an 810-basis-point improvement in gross margin (excluding freight and delivery revenues).

The Aggregates business is significantly affected by erratic weather patterns, seasonal changes and other weather-related conditions. Production and shipment levels for aggregates, asphalt, ready mixed concrete and road paving materials correlate with general construction activity levels, most of which occurs in the spring, summer and fall. Thus, production and shipment levels vary by quarter. Operations concentrated in the northern and midwestern United States generally experience more severe winter weather conditions than operations in the southeast and southwest. Excessive rainfall, and conversely excessive drought, can also jeopardize shipments, production and profitability in all markets served by the Corporation. Because of the potentially significant impact of weather on the Corporation's operations, current period and year to date results are not indicative of expected performance for other

interim periods or the full year.

Cement Business

The Cement business benefitted from strong demand and better weather in Texas and for the quarter generated \$69.9 million of net sales and \$32.6 million of gross profit. Cement shipments increased 13.8% coupled with a 3.6% improvement in pricing (excluding the impact of the California cement operations sold in 2015). The Corporation's reported quarterly gross margin (excluding freight and delivery revenues) of 46.6% compared very favorably to the prior year quarter's 35.9% (excluding the impact of the California cement operations sold in 2015), which was partly aided by

MARTIN MARIETTA MATERIALS, INC. AND CONSOLIDATED SUBSIDIARIES

FORM 10-Q

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND
RESULTS OF OPERATIONS

First Quarter Ended March 31, 2016

(Continued)

favorable energy costs. The business announced price increases effective April 1, 2016. However, there is a lag time before the full impact of the price increases are realized.

The Cement business is benefitting from broad based strength in Texas markets, where demand exceeds local supply. During the first quarter 2016, the business incurred \$5.6 million in planned cement kiln maintenance costs, and expects to incur \$2.7 million, \$12.6 million and \$1.5 million in the second, third and fourth quarters, respectively.

Cement shipments for the three months ended March 31 were (tons in thousands):

	2016	2015
Tons to external customers	685	1,025
Internal tons used in other product lines	272	192
Total cement tons	957	1,217

The decline in 2016 shipments is attributable to the prior-year divestiture of the California operations, which accounted for 376,000 tons in the first-quarter of 2015.

The Portland Cement Association, or PCA, forecasts continued favorable supply/demand imbalance in Texas over the next several years. Further, the PCA currently forecasts growth each year through 2019.

Magnesia Specialties Business

Magnesia Specialties continued to deliver strong performance and generated first-quarter net sales of \$59.5 million. Gross margin (excluding freight and delivery revenues) in the quarter expanded 430 basis points to a record 38.6%. First-quarter earnings from operations were \$20.6 million compared with \$17.8 million.

Gross Profit

The following presents a rollforward of consolidated gross profit (dollars in thousands):

Consolidated gross profit, quarter ended March 31, 2015	\$74,261

Gross profit (loss) by business is as follows:

	Three Months Ended March 31, 2016 2015 (Dollars in Thousands)	
Gross profit (loss):		
Heritage:		
Aggregates	\$82,265	\$41,417
Asphalt	(2,067)	(1,463)
Ready Mixed Concrete	18,000	2,084
Road Paving	(3,867)	(3,311)
Total Aggregates Business	94,331	38,727
Cement	32,556	18,985
Magnesia Specialties	22,970	20,178
Corporate	(3,898)	(3,629)
Total Heritage	145,959	74,261
Acquisitions:		
Aggregates	(1,182)	—
Asphalt	(202)	—
Ready Mixed Concrete	86	—
Road Paving	(27)	—
Total Acquisitions	(1,325)	—
Total	\$144,634	\$74,261

The consolidated heritage gross margin (excluding freight and delivery revenues) for the quarter was 20%, an 830-basis-point improvement compared with the prior-year quarter. The increase reflects better weather, which lead to increased shipments, pricing growth, management's cost-disciplined approach and divesting the low-margin California cement operations in the third quarter of 2015.

Consolidated Operating Results

Consolidated SG&A was 8.2% of net sales compared with 7.8% in the prior-year quarter. The increase of 40 basis points reflects increased incentive compensation costs and continued investment in information systems improvements. Earnings from operations for the quarter were \$83.8 million compared with \$25.6 million in the prior-year quarter.

Among other items, other operating income and expenses, net, includes gains and losses on the sale of assets; recoveries and writeoffs related to customer accounts receivable; rental, royalty and services income; accretion expense, depreciation expense and gains and losses related to asset retirement obligations. For the first quarter, consolidated other operating income and expenses, net, was an expense of \$0.6 million in 2016 and income of \$2.4 million in 2015.

MARTIN MARIETTA MATERIALS, INC. AND CONSOLIDATED SUBSIDIARIES

FORM 10-Q

For the Quarter Ended March 31, 2016

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND
RESULTS OF OPERATIONS

First Quarter Ended March 31, 2016

(Continued)

Other nonoperating income and expenses, net, includes foreign currency transaction gains and losses, interest and other miscellaneous income and equity adjustments for nonconsolidated affiliates.

The estimated effective income tax rate for the quarter was 30%, in line with annual guidance. For the year, the Company expects to fully utilize the remaining allowable net operating loss carryforwards of \$33 million acquired with TXI.

LIQUIDITY AND CAPITAL RESOURCES

Cash provided by operating activities for the first quarter was \$67.1 million compared with \$35.1 million for the same period in 2015. The increase was primarily attributable to higher earnings before depreciation, depletion and amortization expense. Operating cash flow is primarily derived from consolidated net earnings before deducting depreciation, depletion and amortization, and the impact of changes in working capital. Depreciation, depletion and amortization were as follows:

	Three Months Ended March 31, 2016 2015 (Dollars in Thousands)	
Depreciation	\$61,353	\$59,796
Depletion	3,236	3,078
Amortization	3,821	4,394
	\$68,410	\$67,268

The seasonal nature of the construction aggregates business impacts quarterly operating cash flow when compared with the full year. Full-year 2015 net cash provided by operating activities was \$573.2 million compared with \$35.1 million for the first three months of 2015.

During the first three months ended March 31, 2016, the Corporation invested \$94.2 million of capital into its business. Full-year capital spending is expected to approximate \$350 million.

During the quarter ended March 31, 2016, the Corporation acquired the outstanding stock of Rocky Mountain Materials and Asphalt, Inc., and Rocky Mountain Premix Inc. The acquisition included four aggregates plants, two asphalt plants and two ready mixed concrete operations, and provides more than 500 million tons of mineral reserves and expands the Corporation's presence along the Front Range of the Rocky Mountains, home to 80% of Colorado's population.

The Corporation can repurchase its common stock through open-market purchases pursuant to authority granted by its Board of Directors or through private transactions at such prices and upon such terms as the Chief Executive Officer deems appropriate. During the first quarter, the Corporation repurchased 1,028,000 shares of common stock for \$150 million. At March 31, 2016, 15,686,000 shares of common stock were remaining under the Corporation's repurchase authorization.

The Credit Agreement (which consists of a \$250 million Term Loan Facility and a \$350 million Revolving Facility) requires the Corporation's ratio of consolidated debt to consolidated earnings before interest, taxes, depreciation, depletion and amortization ("EBITDA"), as defined, for the trailing twelve month period (the Ratio) to not exceed 3.50x as of the end of

MARTIN MARIETTA MATERIALS, INC. AND CONSOLIDATED SUBSIDIARIES

FORM 10-Q

For the Quarter Ended March 31, 2016

MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND
RESULTS OF OPERATIONS

(Continued)

any fiscal quarter, provided that the Corporation may exclude from the Ratio debt incurred in connection with certain acquisitions for a period of 180 days so long as the Corporation, as a consequence of such specified acquisition, does not have its ratings on long-term unsecured debt fall below BBB by Standard & Poor's or Baa2 by Moody's and the Ratio calculated without such exclusion does not exceed 3.75x. Additionally, if there are no amounts outstanding under the Revolving Facility, consolidated debt, including debt for which the Corporation is a co-borrower, will be reduced for purposes of the covenant calculation by the Corporation's unrestricted cash and cash equivalents in excess of \$50 million, such reduction not to exceed \$200 million.

The Ratio is calculated as debt, including debt for which the Corporation is a co-borrower, divided by consolidated EBITDA, as defined by the Credit Agreement, for the trailing twelve months. Consolidated EBITDA is generally defined as earnings before interest expense, income tax expense, and depreciation, depletion and amortization expense for continuing operations. Additionally, stock-based compensation expense is added back and interest income is deducted in the calculation of consolidated EBITDA. Certain other nonrecurring noncash items, if they occur, can affect the calculation of consolidated EBITDA.

In accordance with the amended Credit Agreement, the Corporation adjusted consolidated EBITDA to add back any integration or similar costs or expenses related to the TXI business combination incurred in any period prior to the second anniversary of the closing of the TXI business combination, not to exceed \$70,000,000.

At March 31, 2016, the Corporation's ratio of consolidated debt to consolidated EBITDA, as defined, for the trailing-twelve months EBITDA was 2.09 times and was calculated as follows:

	April 1, 2015 to March 31, 2016 (Dollars in thousands)
Earnings from continuing operations attributable to Martin Marietta	\$327,661
Add back:	
Interest expense	76,991
Income tax expense	145,286
Depreciation, depletion and amortization expense	262,485

Edgar Filing: MARTIN MARIETTA MATERIALS INC - Form 10-Q

Stock-based compensation expense	17,910
Acquisition-related expenses, net, related to the TXI acquisition	20,616
Deduct:	
Interest income	(549)
Consolidated EBITDA, as defined	\$850,400
Consolidated debt, including debt for which the Corporation is a co-borrower,	
at March 31, 2016	\$1,777,064
Consolidated debt to consolidated EBITDA, as defined, at March 31, 2016	
for the trailing-twelve months EBITDA	2.09x

The Trade Receivable Facility contains a cross-default provision to the Corporation's other debt agreements. In the event of a default on the Ratio, the lenders can terminate the Credit Agreement and Trade Receivable Facility and declare any

MARTIN MARIETTA MATERIALS, INC. AND CONSOLIDATED SUBSIDIARIES

(Continued)

outstanding balances as immediately due. Outstanding amounts on the Trade Receivable Facility have been classified as a current liability on the Corporation's consolidated balance sheet.

On April 5, 2016, the Corporation repaid the \$30,000,000 outstanding on the Revolving Facility.

Cash on hand, along with the Corporation's projected internal cash flows and availability of financing resources, including its access to debt and equity capital markets, is expected to continue to be sufficient to provide the capital resources necessary to support anticipated operating needs, cover debt service requirements, meet capital expenditures and discretionary investment needs, fund certain acquisition opportunities that may arise and allow for payment of dividends for the foreseeable future. At March 31, 2016, the Corporation had \$407 million of unused borrowing capacity under its Revolving Facility and Trade Receivable Facility, subject to complying with the related leverage covenant. The Revolving Facility expires on November 29, 2018 and the Trade Receivable Facility expires on September 30, 2016.

The Corporation may be required to obtain financing to fund certain strategic acquisitions, if any such opportunities arise, or to refinance outstanding debt. Any strategic acquisition of size for cash would likely require an appropriate balance of newly-issued equity with debt in order to maintain a composite investment-grade credit rating. Furthermore, the Corporation is exposed to the credit markets, through the interest cost related to its variable-rate debt, which included borrowings under its Term Loan Facility at March 31, 2016. The Corporation is currently rated by three credit rating agencies; two of those agencies' credit ratings are investment-grade level and the third agency's credit rating is one level below investment grade. The Corporation's composite credit rating remains at investment-grade level, which facilitates obtaining financing at lower rates than noninvestment-grade ratings.

TRENDS AND RISKS

The Corporation outlined the risks associated with its business in its Annual Report on Form 10-K for the year ended December 31, 2015. Management continues to evaluate its exposure to all operating risks on an ongoing basis.

OUTLOOK

The Corporation is encouraged by positive trends in the markets it serves and its ability to execute its strategic business plans. Notably:

- For the public sector, modest growth is expected in 2016 as new monies begin to flow into the system, particularly in the second half of the year. Additionally, state initiatives to finance infrastructure projects, including support

from TIFIA (Transportation Infrastructure Finance and Innovation Act), are expected to grow and continue to play an expanded role in public-sector activity.

· Nonresidential construction is expected to increase in both the heavy industrial and commercial sectors. The Dodge Momentum Index is near its highest level since 2009 and signals continued growth. Additionally, energy-related economic activity, including follow-on public and private construction activities in its primary markets, will be mixed with overall strength in large downstream construction projects more than offsetting declines in shale exploration-related volumes.

- Residential construction is expected to continue to experience good growth metrics, driven by positive employment gains, historically low levels of construction activity over the previous several years, low mortgage rates, significant lot absorption, and higher multi-family rental rates.

OTHER MATTERS

If you are interested in Martin Marietta stock, management recommends that, at a minimum, you read the Corporation's current annual report and Forms 10-K, 10-Q and 8-K reports to the Securities and Exchange Commission (SEC) over the past year. The Corporation's recent proxy statement for the annual meeting of shareholders also contains important information. These and other materials that have been filed with the SEC are accessible through the Corporation's website at www.martinmarietta.com and are also available at the SEC's website at www.sec.gov. You may also write or call the Corporation's Corporate Secretary, who will provide copies of such reports.

Investors are cautioned that all statements in this Form 10-Q that relate to the future involve risks and uncertainties, and are based on assumptions that the Corporation believes in good faith are reasonable but which may be materially different from actual results. Forward-looking statements give the investor management's expectations or forecasts of future events. You can identify these statements by the fact that they do not relate only to historical or current facts. They may use words such as "anticipate," "expect," "should be," "believe," "will", and other words of similar meaning in connection with future events or future operating or financial performance. Any or all of management's forward-looking statements here and in other publications may turn out to be wrong.

Factors that the Corporation currently believes could cause actual results to differ materially from the forward-looking statements in this Form 10-Q include, but are not limited to, the performance of the United States economy and the resolution and impact of the debt ceiling and sequestration issues; widespread decline in aggregates pricing; the history of both cement and ready mixed concrete being subject to significant changes in supply, demand and price; the termination, capping and/or reduction or suspension of the federal and/or state gasoline tax(es) or other revenue related to infrastructure construction; the level and timing of federal and state transportation funding, most particularly in Texas, North Carolina, Iowa, Colorado and Georgia; the ability of states and/or other entities to finance approved projects either with tax revenues or alternative financing structures; levels of construction spending in the markets the Corporation serves; a reduction in defense spending, and the subsequent impact on construction activity on or near military bases; a decline in the commercial component of the nonresidential construction market, notably office and retail space; a further slowdown in energy-related drilling activity, particularly in Texas; a slowdown in residential construction recovery; a reduction in construction activity and related shipments due to a decline in funding under the domestic farm bill; unfavorable weather conditions, particularly Atlantic Ocean hurricane activity, the late start to spring or the early onset of winter and the impact of a drought or excessive rainfall in the markets served by the

Corporation; the volatility of fuel costs, particularly diesel fuel, and the impact on the cost of other consumables, namely steel, explosives, tires and conveyor belts, and with respect to the Specialty Products business, natural gas; continued increases in the cost of other repair and supply parts; unexpected equipment failures, unscheduled maintenance, industrial accident or other prolonged and/or significant disruption to cement production facilities; increasing governmental regulation, including environmental laws; transportation availability, notably the availability of railcars and locomotive power to move trains to supply the Corporation's Texas, Florida and Gulf Coast markets; increased transportation costs, including increases from higher passed-through energy and other costs to comply with tightening regulations as well as higher volumes of rail and water shipments; availability of trucks and licensed drivers for transport of the Corporation's materials, particularly in areas with significant energy-related activity, such as Texas and Colorado;

availability and cost of construction equipment in the United States; weakening in the steel industry markets served by the Corporation's dolomitic lime products; proper functioning of information technology and automated operating systems to manage or support operations; inflation and its effect on both production and interest costs; ability to successfully integrate acquisitions quickly and in a cost-effective manner and achieve anticipated profitability to maintain compliance with the Corporation's leverage ratio debt covenant; changes in tax laws, the interpretation of such laws and/or administrative practices that would increase the Corporation's tax rate; violation of the Corporation's debt covenant if price and/or volumes return to previous levels of instability; downward pressure on the Corporation's common stock price and its impact on goodwill impairment evaluations; reduction of the Corporation's credit rating to non-investment grade resulting from strategic acquisitions; and other risk factors listed from time to time found in the Corporation's filings with the SEC. Other factors besides those listed here may also adversely affect the Corporation, and may be material to the Corporation. The Corporation assumes no obligation to update any such forward-looking statements.

INVESTOR ACCESS TO COMPANY FILINGS

Shareholders may obtain, without charge, a copy of Martin Marietta's Annual Report on Form 10-K, as filed with the Securities and Exchange Commission for the fiscal year ended December 31, 2015, by writing to:

FORM 10-Q

For the Quarter Ended March 31, 2016

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

The Corporation's operations are highly dependent upon the interest rate-sensitive construction and steelmaking industries. Consequently, these marketplaces could experience lower levels of economic activity in an environment of rising interest rates or escalating costs.

Management has considered the current economic environment and its potential impact to the Corporation's business. Demand for aggregates products, particularly in the infrastructure construction market, is affected by federal and state budget and deficit issues. Further, delays or cancellations of capital projects in the nonresidential and residential construction markets could occur if companies and consumers are unable to obtain financing for construction projects or if consumer confidence continues to be eroded by economic uncertainty.

Demand in the residential construction market is affected by interest rates. The Federal Reserve kept the federal funds rate near zero percent during the three months ended March 31, 2016, unchanged since 2008. The residential construction market accounted for 17% of the Corporation's aggregates product line shipments in 2015.

Aside from these inherent risks from within its operations, the Corporation's earnings are also affected by changes in short-term interest rates. However, rising interest rates are not necessarily predictive of weaker operating results. In fact, since 2007, the Corporation's profitability increased when interest rates rose, based on the last twelve months quarterly historical net income regression versus a 10-year U.S. government bond. In essence, the Corporation's underlying business generally serves as a natural hedge to rising interest rates.

Variable-Rate Borrowing Facilities. At March 31, 2016, the Corporation had a \$600 million Credit Agreement, comprised of a \$350 million Revolving Facility and \$250 million Term Loan Facility, and a \$250 million Trade Receivable Facility. Borrowings under these facilities bear interest at a variable interest rate. A hypothetical 100-basis-point increase in interest rates on borrowings of \$407 million, which was the collective outstanding balance at March 31, 2016, would increase interest expense by \$4.1 million on an annual basis.

Pension Expense. The Corporation's results of operations are affected by its pension expense. Assumptions that affect pension expense include the discount rate and, for the defined benefit pension plans only, the expected long-term rate of return on assets. Therefore, the Corporation has interest rate risk associated with these factors. The impact of hypothetical changes in these assumptions on the Corporation's annual pension expense is discussed in the Corporation's Annual Report on Form 10-K for the year ended December 31, 2015.

Energy Costs. Energy costs, including diesel fuel, natural gas, coal and liquid asphalt, represent significant production costs of the Corporation. The Corporation entered into a fixed price arrangement, which expires December 31, 2016, for approximately 40% of its diesel fuel to reduce its diesel fuel price risk. The Magnesia Specialties business has fixed price agreements covering half of its 2016 coal requirements and the cement business has fixed pricing agreements on 100% of its 2016 coal requirements. A hypothetical 10% change in the Corporation's energy prices in 2016 as compared with 2015, assuming constant volumes, would change 2016 energy expense by \$25.7 million. However, the impact would be partially offset by the change in the amount capitalized into inventory standards.

MARTIN MARIETTA MATERIALS, INC. AND CONSOLIDATED SUBSIDIARIES

FORM 10-Q

For the Quarter Ended March 31, 2016

(Continued)

Commodity risk. Cement is a commodity and competition is based principally on price, which is highly sensitive to changes in supply and demand. Prices are often subject to material changes in response to relatively minor fluctuations in supply and demand, general economic conditions and other market conditions beyond the Corporation's control. Increases in the production capacity of industry participants or increases in cement imports tend to create an oversupply of such products leading to an imbalance between supply and demand, which can have a negative impact on product prices. There can be no assurance that prices for products sold will not decline in the future or that such declines will not have a material adverse effect on the Corporation's business, financial condition and results of operations. Based on forecasted net sales for the Cement business for full-year 2016 of \$310 million to \$325 million, a hypothetical 10% change in sales price would impact net sales by \$31 million to \$32.5 million.

Item 4. Controls and Procedures

As of March 31, 2016, an evaluation was performed under the supervision and with the participation of the Corporation's management, including the Chief Executive Officer and Chief Financial Officer, of the effectiveness of the design and the operation of the Corporation's disclosure controls and procedures. Based on that evaluation, the Corporation's management, including the Chief Executive Officer and Chief Financial Officer, concluded that the Corporation's disclosure controls and procedures were effective as of March 31, 2016. There were no changes in the Corporation's internal control over financial reporting during the most recently completed fiscal quarter that materially affected, or are reasonably likely to materially affect, the Corporation's internal control over financial reporting.
