

PACCAR INC
Form 10-Q
November 03, 2017

UNITED STATES

SECURITIES AND EXCHANGE COMMISSION

Washington, D.C. 20549

FORM 10-Q

Quarterly Report Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934
For the quarterly period ended September 30, 2017

Commission File No. 001-14817

PACCAR Inc

(Exact name of registrant as specified in its charter)

Delaware	91-0351110
(State or other jurisdiction of incorporation or organization)	(I.R.S. Employer Identification No.)

777 - 106th Ave. N.E., Bellevue, WA 98004
(Address of principal executive offices) (Zip Code)

(425) 468-7400

(Registrant's telephone number, including area code)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files).

Yes No

Edgar Filing: PACCAR INC - Form 10-Q

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See the definitions of “large accelerated filer,” “accelerated filer” and “smaller reporting company” in Rule 12b-2 of the Exchange Act.

Large accelerated filer	Accelerated filer
Non-accelerated filer	Smaller reporting company
	Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Exchange Act).

Yes No

Indicate the number of shares outstanding of each of the issuer's classes of common stock, as of the latest practicable date.

Common Stock, \$1 par value — 351,610,175 shares as of October 31, 2017

Notes to Consolidated Financial Statements (Unaudited) (Millions, Except Share Amounts)

NOTE A - Basis of Presentation

The accompanying unaudited consolidated financial statements have been prepared in accordance with generally accepted accounting principles (GAAP) for interim financial information and with the instructions to Form 10 Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by GAAP for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring accruals and the non-recurring European Commission charge) considered necessary for a fair presentation have been included. Operating results for the three and nine months ended September 30, 2017 are not necessarily indicative of the results that may be expected for the year ending December 31, 2017. For further information, refer to the consolidated financial statements and footnotes included in PACCAR Inc's (PACCAR or the Company) Annual Report on Form 10 K for the year ended December 31, 2016.

Earnings per Share: Basic earnings per common share are computed by dividing earnings by the weighted average number of common shares outstanding, plus the effect of any participating securities. Diluted earnings per common share are computed assuming that all potentially dilutive securities are converted into common shares under the treasury stock method. The dilutive and antidilutive options are shown separately in the table below.

	Three Months Ended		Nine Months Ended	
	September 30		September 30	
	2017	2016	2017	2016
Additional shares	1,035,000	738,500	1,021,000	679,400
Antidilutive options	599,400	1,099,600	695,900	1,943,500

New Accounting Pronouncements: In March 2017, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2017-07 Compensation - Retirement Benefits (Topic 715): Improving the Presentation of Net Periodic Pension Cost and Net Periodic Postretirement Benefit Cost. The amendment disaggregates the service cost component from non-service cost components of pension expense and prescribes where to present the various components of pension cost on the income statement. This ASU also allows only the service cost component to be eligible for capitalization, when applicable (e.g. as a cost of manufactured inventory or self-constructed assets). The Company will adopt this ASU in January 2018 and accordingly will apply the income statement presentation of service and non-service components of pension expense retrospectively and the capitalization of service cost prospectively. Non-service components of pension expense (see Note K) are currently reported in Cost of sales and revenues and Selling, general and administrative expenses. Upon adoption of this ASU these costs will be reported in Interest and other expenses, net in the Company's Truck, Parts and Other segments.

In October 2016, the FASB issued ASU 2016-16, Income Taxes (Topic 740): Intra-Entity Transfers of Assets Other Than Inventory. The amendment in this ASU requires recognition of income tax consequences of an intra-entity transfer of an asset other than inventory when the transfer occurs. Currently the recognition of current and deferred income taxes for an intra-entity asset transfer is recognized when the asset has been sold to an outside party. This ASU

is effective for annual reporting periods beginning after December 15, 2017 and interim periods within those annual periods, and early adoption is permitted. This amendment should be applied on a modified retrospective basis with a cumulative effect adjustment to retained earnings as of the beginning of the period of adoption. The Company adopted this ASU on January 1, 2017. The effect of the adoption reduced prepaid income taxes and retained earnings by \$19.9. Because the corresponding deferred tax asset is not realizable, the Company recorded an offsetting valuation allowance.

In June 2016, the FASB issued ASU 2016-13, Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. The amendment in this ASU requires entities having financial assets measured at amortized cost to estimate credit reserves under an expected credit loss model rather than the current incurred loss model. Under this new model, expected credit losses will be based on relevant information about past events, including historical experience, current conditions and reasonable and supportable forecasts that affect collectability. The ASU is effective for annual periods beginning after December 15, 2019 and interim periods within those annual periods. Early adoption is permitted, but not earlier than annual and interim periods beginning after December 15, 2018. This amendment should be applied on a modified retrospective basis with a cumulative effect adjustment to retained earnings as of the beginning of the period of adoption. The Company is currently evaluating the impact on its consolidated financial statements.

In February 2016, the FASB issued ASU 2016-02, Leases (Topic 842) which amends the existing accounting standards for leases. Under the new lease standard, lessees will recognize a right-of-use asset and a lease liability for virtually all leases (other than short-term leases). Lessor accounting is largely unchanged. The ASU is effective for annual periods beginning after December 15, 2018 and interim periods within those annual periods. Early adoption is permitted. This ASU requires leases to be recognized and measured at the beginning of the earliest period presented using a modified retrospective approach. The Company is currently evaluating the impact on its consolidated financial statements.

Notes to Consolidated Financial Statements (Unaudited) (Millions, Except Share Amounts)

In May 2014, the FASB issued ASU 2014-09, Revenue from Contracts with Customers. This ASU amends the existing accounting standards for revenue recognition. Under the new revenue recognition model, a company should recognize revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the company expects to be entitled in exchange for those goods or services. The FASB has subsequently issued several related ASUs to clarify the implementation guidance in ASU 2014-09. This standard may be applied retrospectively to each prior period presented or modified retrospectively with a cumulative effect recognized as of the date of initial application. The Company expects to adopt this ASU in January 2018 on a modified retrospective basis, with the cumulative effect adjustment recognized into retained earnings as of January 1, 2018.

The Company's evaluation of the new standard is substantially complete, and the Company does not expect adoption of the new standard to have a material impact on the income statement or retained earnings. The Company currently expects the most significant effect of the standard relates to trucks sold in Europe that are subject to a residual value guarantee (RVG) and are currently accounted for as an operating lease in the Truck, Parts and Other section of the Company's Consolidated Balance Sheets (see Note E in the 2016 Form 10-K). Under the new standard, based on the Company's current assessment, revenues would be recognized immediately for certain of these RVG contracts that allow customers the option to return their truck and for which there is no economic incentive to do so. Based on the existing portfolio of RVG contracts, under the new standard, revenues are expected to be recognized immediately for approximately half of the RVG portfolio instead of being deferred and amortized over the life of the RVG contract. The Company will continue to evaluate the new standard, including any new interpretive guidance, and any related impact to its consolidated financial statements.

In addition to ASU 2016-16 disclosed above, the Company adopted the following standards effective January 1, 2017, none of which had a material impact on the Company's consolidated financial statements.

STANDARD DESCRIPTION

2017-04 *	Intangibles – Goodwill and Other (Topic 350): Simplifying the Test for Goodwill Impairment.
2016-09 **	Compensation – Stock Compensation (Topic 718): Improvements to Employee

Share-Based
Payment
Accounting.

2015-11 ** Inventory (Topic
330):
Simplifying the
Measurement of
Inventory.

*The Company early adopted in 2017.

**The Company adopted on the effective date of January 1, 2017.

The FASB also issued the following standards, which is not expected to have a material impact on the Company's consolidated financial statements.

STANDARD	DESCRIPTION	EFFECTIVE DATE*
2016-01 *	Financial Instruments - Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities.	January 1, 2018
2016-15 *	Statement of Cash Flows (Topic 230): Classification of Certain Cash Receipts and Cash Payments	January 1, 2018
2017-12 **	Derivative and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities.	January 1, 2019

*The Company expects to adopt on the effective date.

**The Company expects to early adopt on January 1, 2018.

PACCAR Inc – Form 10-Q

Notes to Consolidated Financial Statements (Unaudited) (Millions, Except Share Amounts)

NOTE B - Investments in Marketable Debt Securities

The Company's investments in marketable debt securities are classified as available-for-sale. These investments are stated at fair value with any unrealized gains or losses, net of tax, included as a component of accumulated other comprehensive income (loss) (AOCI).

The Company utilizes third-party pricing services for all of its marketable debt security valuations. The Company reviews the pricing methodology used by the third party pricing services, including the manner employed to collect market information. On a quarterly basis, the Company also performs review and validation procedures on the pricing information received from the third party providers. These procedures help ensure that the fair value information used by the Company is determined in accordance with applicable accounting guidance.

The Company evaluates its investment in marketable debt securities at the end of each reporting period to determine if a decline in fair value is other-than-temporary. Realized losses are recognized upon management's determination that a decline in fair value is other-than-temporary. The determination of other-than-temporary impairment is a subjective process, requiring the use of judgments and assumptions regarding the amount and timing of recovery. The Company reviews and evaluates its investments at least quarterly to identify investments that have indications of other-than-temporary impairments. It is reasonably possible that a change in estimate could occur in the near term relating to other-than-temporary impairment. Accordingly, the Company considers several factors when evaluating debt securities for other-than-temporary impairment, including whether the decline in fair value of the security is due to increased default risk for the specific issuer or market interest-rate risk.

In assessing default risk, the Company considers the collectability of principal and interest payments by monitoring changes to issuers' credit ratings, specific credit events associated with individual issuers as well as the credit ratings of any financial guarantor, and the extent and duration to which amortized cost exceeds fair value.

In assessing market interest rate risk, including benchmark interest rates and credit spreads, the Company considers its intent for selling the securities and whether it is more likely than not the Company will be able to hold these securities until the recovery of any unrealized losses.

Marketable debt securities at September 30, 2017 and December 31, 2016 consisted of the following:

	AMORTIZED COST	UNREALIZED GAINS	UNREALIZED LOSSES	FAIR VALUE
At September 30, 2017				
U.S. tax-exempt securities	\$ 520.8	\$ 1.3	\$.1	\$522.0
U.S. corporate securities	58.6	.3		58.9
U.S. government and agency securities	12.2			12.2
Non-U.S. corporate securities	397.7	1.4	1.2	397.9
Non-U.S. government securities	97.0	.3	.1	97.2
Other debt securities	128.1	.1	.4	127.8
	\$ 1,214.4	\$ 3.4	\$ 1.8	\$1,216.0

Edgar Filing: PACCAR INC - Form 10-Q

At December 31, 2016	AMORTIZED COST	UNREALIZED GAINS	UNREALIZED LOSSES	FAIR VALUE
U.S. tax-exempt securities	\$ 597.9	\$.2	\$ 3.1	\$595.0
U.S. corporate securities	47.6	.2		47.8
U.S. government and agency securities	16.0			16.0
Non-U.S. corporate securities	306.9	1.5	.4	308.0
Non-U.S. government securities	97.6	.6		98.2
Other debt securities	75.9	.2	.2	75.9
	\$ 1,141.9	\$ 2.7	\$ 3.7	\$1,140.9

The cost of marketable debt securities is adjusted for amortization of premiums and accretion of discounts to maturity. Amortization, accretion, interest and dividend income and realized gains and losses are included in investment income. The cost of securities sold is based on the specific identification method. Gross realized gains were \$1.3 and \$4.2 and gross realized losses were \$.4 and \$.1 for the nine month periods ended September 30, 2017 and 2016, respectively.

PACCAR Inc – Form 10-Q

Notes to Consolidated Financial Statements (Unaudited) (Millions, Except Share Amounts)

Marketable debt securities with continuous unrealized losses and their related fair values were as follows:

	September 30, 2017		December 31, 2016	
	LESS THAN TWELVE MONTHS		LESS THAN TWELVE MONTHS	
	GREATER		GREATER	
	TWELVE MONTHS	TWELVE MONTHS	TWELVE MONTHS	TWELVE MONTHS
Fair value	\$ 409.8	\$ 11.3	\$ 615.5	
Unrealized losses	1.7	.1	3.7	

For the investment securities in gross unrealized loss positions identified above, the Company does not intend to sell the investment securities. It is more likely than not that the Company will not be required to sell the investment securities before recovery of the unrealized losses, and the Company expects that the contractual principal and interest will be received on the investment securities. As a result, the Company recognized no other-than-temporary impairments during the periods presented.

Contractual maturities on marketable debt securities at September 30, 2017 were as follows:

Maturities:	AMORTIZED COST	FAIR VALUE
Within one year	\$ 404.4	\$404.6
One to five years	800.9	802.3
More than ten years	9.1	9.1
	\$ 1,214.4	\$1,216.0

NOTE C - Inventories

Inventories are stated at the lower of cost or market. Cost of inventories in the U.S. is determined principally by the last in, first-out (LIFO) method. Cost of all other inventories is determined principally by the first-in, first-out (FIFO) method.

Inventories include the following:

	September 30, 2017	December 31, 2016
Finished products	\$ 574.1	\$ 452.3

Edgar Filing: PACCAR INC - Form 10-Q

Work in process and raw materials	581.6	444.7
	1,155.7	897.0
Less LIFO reserve	(172.7)	(169.2)
	\$ 983.0	\$ 727.8

Under the LIFO method of accounting (used for approximately 45% of September 30, 2017 inventories), an actual valuation can be made only at the end of each year based on year-end inventory levels and costs. Accordingly, interim valuations are based on management's estimates of those year-end amounts.

- 10 -

PACCAR Inc – Form 10-Q

Notes to Consolidated Financial Statements (Unaudited) (Millions, Except Share Amounts)

NOTE D - Finance and Other Receivables

Finance and other receivables include the following:

	September 30 2017	December 31 2016
Loans	\$ 4,024.3	\$ 3,948.6
Direct financing leases	3,142.1	2,798.0
Sales-type finance leases	761.3	867.3
Dealer wholesale financing	1,910.6	1,528.5
Operating lease receivables and other	192.1	150.9
Unearned interest: Finance leases	(362.0)	(344.7)
	\$ 9,668.4	\$ 8,948.6
Less allowance for losses:		
Loans and leases	(104.0)	(97.1)
Dealer wholesale financing	(6.5)	(5.5)
Operating lease receivables and other	(9.2)	(8.6)
	\$ 9,548.7	\$ 8,837.4

Recognition of interest income and rental revenue is suspended (put on non-accrual status) when the receivable becomes more than 90 days past the contractual due date or earlier if some other event causes the Company to determine that collection is not probable. Accordingly, no finance receivables more than 90 days past due were accruing interest at September 30, 2017 or December 31, 2016. Recognition is resumed if the receivable becomes current by the payment of all amounts due under the terms of the existing contract and collection of remaining amounts is considered probable (if not contractually modified) or if the customer makes scheduled payments for three months and collection of remaining amounts is considered probable (if contractually modified). Payments received while the finance receivable is on non-accrual status are applied to interest and principal in accordance with the contractual terms.

Allowance for Credit Losses

The Company continuously monitors the payment performance of its finance receivables. For large retail finance customers and dealers with wholesale financing, the Company regularly reviews their financial statements and makes site visits and phone contact as appropriate. If the Company becomes aware of circumstances that could cause those customers or dealers to face financial difficulty, whether or not they are past due, the customers are placed on a watch list.

The Company modifies loans and finance leases in the normal course of its Financial Services operations. The Company may modify loans and finance leases for commercial reasons or for credit reasons. Modifications for commercial reasons are changes to contract terms for customers that are not considered to be in financial difficulty. Insignificant delays are modifications extending terms up to three months for customers experiencing some short-term financial stress, but not considered to be in financial difficulty. Modifications for credit reasons are changes to contract terms for customers considered to be in financial difficulty. The Company's modifications typically result in granting more time to pay the contractual amounts owed and charging a fee and interest for the term of the modification.

When considering whether to modify customer accounts for credit reasons, the Company evaluates the creditworthiness of the customers and modifies those accounts that the Company considers likely to perform under the modified terms. When the Company modifies loans and finance leases for credit reasons and grants a concession, the modifications are classified as troubled debt restructurings (TDR). The Company does not typically grant credit modifications for customers that do not meet minimum underwriting standards since the Company normally repossesses the financed equipment in these circumstances. When such modifications do occur, they are considered TDRs.

On average, modifications extended contractual terms by approximately four months in 2017 and 2016 and did not have a significant effect on the weighted average term or interest rate of the total portfolio at September 30, 2017 and December 31, 2016.

Notes to Consolidated Financial Statements (Unaudited) (Millions, Except Share Amounts)

The Company has developed a systematic methodology for determining the allowance for credit losses for its two portfolio segments, retail and wholesale. The retail segment consists of retail loans and direct and sales-type finance leases, net of unearned interest. The wholesale segment consists of truck inventory financing loans to dealers that are collateralized by trucks and other collateral. The wholesale segment generally has less risk than the retail segment. Wholesale receivables generally are shorter in duration than retail receivables, and the Company requires periodic reporting of the wholesale dealer's financial condition, conducts periodic audits of the trucks being financed and in many cases, obtains guarantees or other security such as dealership assets. In determining the allowance for credit losses, retail loans and finance leases are evaluated together since they relate to a similar customer base, their contractual terms require regular payment of principal and interest, generally over 36 to 60 months, and they are secured by the same type of collateral. The allowance for credit losses consists of both specific and general reserves.

The Company individually evaluates certain finance receivables for impairment. Finance receivables that are evaluated individually for impairment consist of all wholesale accounts and certain large retail accounts with past due balances or otherwise determined to be at a higher risk of loss. A finance receivable is impaired if it is considered probable the Company will be unable to collect all contractual interest and principal payments as scheduled. In addition, all retail loans and leases which have been classified as TDRs and all customer accounts over 90 days past due are considered impaired. Generally, impaired accounts are on non-accrual status. Impaired accounts classified as TDRs which have been performing for 90 consecutive days are placed on accrual status if it is deemed probable that the Company will collect all principal and interest payments.

Impaired receivables are generally considered collateral dependent. Large balance retail and all wholesale impaired receivables are individually evaluated to determine the appropriate reserve for losses. The determination of reserves for large balance impaired receivables considers the fair value of the associated collateral. When the underlying collateral fair value exceeds the Company's recorded investment, no reserve is recorded. Small balance impaired receivables with similar risk characteristics are evaluated as a separate pool to determine the appropriate reserve for losses using the historical loss information discussed below.

The Company evaluates finance receivables that are not individually impaired on a collective basis and determines the general allowance for credit losses for both retail and wholesale receivables based on historical loss information, using past due account data and current market conditions. Information used includes assumptions regarding the likelihood of collecting current and past due accounts, repossession rates, the recovery rate on the underlying collateral based on used truck values and other pledged collateral or recourse. The Company has developed a range of loss estimates for each of its country portfolios based on historical experience, taking into account loss frequency and severity in both strong and weak truck market conditions. A projection is made of the range of estimated credit losses inherent in the portfolio from which an amount is determined as probable based on current market conditions and other factors impacting the creditworthiness of the Company's borrowers and their ability to repay. After determining the appropriate level of the allowance for credit losses, a provision for losses on finance receivables is charged to income as necessary to reflect management's estimate of incurred credit losses, net of recoveries, inherent in the portfolio.

In determining the fair value of the collateral, the Company uses a pricing matrix and categorizes the fair value as Level 2 in the hierarchy of fair value measurement. The pricing matrix is reviewed quarterly and updated as appropriate. The pricing matrix considers the make, model and year of the equipment as well as recent sales prices of comparable equipment sold individually, which is the lowest unit of account, through wholesale channels to the Company's dealers (principal market). The fair value of the collateral also considers the overall condition of the

equipment.

Accounts are charged-off against the allowance for credit losses when, in the judgment of management, they are considered uncollectible, which generally occurs upon repossession of the collateral. Typically the timing between the repossession and charge-off is not significant. In cases where repossession is delayed (e.g., for legal proceedings), the Company records a partial charge-off. The charge-off is determined by comparing the fair value of the collateral, less cost to sell, to the recorded investment.

For the following credit quality disclosures, finance receivables are classified into two portfolio segments, wholesale and retail. The retail portfolio is further segmented into dealer retail and customer retail. The dealer wholesale segment consists of truck inventory financing to PACCAR dealers. The dealer retail segment consists of loans and leases to participating dealers and franchises that use the proceeds to fund customers' acquisition of commercial vehicles and related equipment. The customer retail segment consists of loans and leases directly to customers for the acquisition of commercial vehicles and related equipment. Customer retail receivables are further segregated between fleet and owner/operator classes. The fleet class consists of customer retail accounts operating more than five trucks. All other customer retail accounts are considered owner/operator. These two classes have similar measurement attributes, risk characteristics and common methods to monitor and assess credit risk.

PACCAR Inc – Form 10-Q

Notes to Consolidated Financial Statements (Unaudited) (Millions, Except Share Amounts)

Credit Quality

The Company's customers are principally concentrated in the transportation industry in North America, Europe and Australia. The Company's portfolio assets are diversified over a large number of customers and dealers with no single customer or dealer balances representing over 5% of the total portfolio assets. The Company retains as collateral a security interest in the related equipment.

At the inception of each contract, the Company considers the credit risk based on a variety of credit quality factors including prior payment experience, customer financial information, credit-rating agency ratings, loan-to-value ratios and other internal metrics. On an ongoing basis, the Company monitors credit quality based on past due status and collection experience as there is a meaningful correlation between the past due status of customers and the risk of loss.

The Company has three credit quality indicators: performing, watch and at-risk. Performing accounts pay in accordance with the contractual terms and are not considered high-risk. Watch accounts include accounts 31 to 90 days past due and large accounts that are performing but are considered to be high risk. Watch accounts are not impaired. At-risk accounts are accounts that are impaired, including TDRs, accounts over 90 days past due and other accounts on non-accrual status. The tables below summarize the Company's finance receivables by credit quality indicator and portfolio class.

	DEALER		CUSTOMER RETAIL		
	WHOLESALE	RETAIL	FLEET	OWNER/ OPERATOR	TOTAL
At September 30, 2017					
Performing	\$1,905.6	\$1,327.0	\$4,916.7	\$1,197.5	\$9,346.8
Watch	4.9		64.8	6.2	75.9
At-risk	.1	4.1	42.1	7.3	53.6
	\$1,910.6	\$1,331.1	\$5,023.6	\$1,211.0	\$9,476.3

	DEALER		CUSTOMER RETAIL		
	WHOLESALE	RETAIL	FLEET	OWNER/ OPERATOR	TOTAL
At December 31, 2016					
Performing	\$1,519.3	\$1,406.0	\$4,863.4	\$922.1	\$8,710.8
Watch	9.1		14.9	5.5	29.5
At-risk	.1		50.4	6.9	57.4
	\$1,528.5	\$1,406.0	\$4,928.7	\$934.5	\$8,797.7

The tables below summarize the Company's finance receivables by aging category. In determining past due status, the Company considers the entire contractual account balance past due when any installment is over 30 days past due. Substantially all customer accounts that were greater than 30 days past due prior to credit modification became current upon modification for aging purposes.

	DEALER		CUSTOMER RETAIL		
	WHOLESALE	RETAIL	FLEET	OWNER/ OPERATOR	TOTAL
At September 30, 2017

PACCAR Inc – Form 10-Q

Notes to Consolidated Financial Statements (Unaudited) (Millions, Except Share Amounts)

Troubled Debt Restructurings

The balance of TDRs was \$40.6 and \$43.1 at September 30, 2017 and December 31, 2016, respectively. At modification date, the pre-modification and post-modification recorded investment balances for finance receivables modified during the period by portfolio class are as follows:

	Three Months Ended September 30, 2017		Nine Months Ended September 30, 2017	
	RECORDED INVESTMENT		RECORDED INVESTMENT	
	PRE-MODIFICATION	POST-MODIFICATION	PRE-MODIFICATION	POST-MODIFICATION
Fleet	\$.9	\$.9	\$ 17.5	\$ 17.5
Owner/operator	.1	.1	.5	.5
	\$ 1.0	\$ 1.0	\$ 18.0	\$ 18.0

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2016	
	RECORDED INVESTMENT		RECORDED INVESTMENT	
	PRE-MODIFICATION	POST-MODIFICATION	PRE-MODIFICATION	POST-MODIFICATION
Fleet	\$ 9.1	\$ 9.1	\$ 23.1	\$ 23.0
Owner/operator	.4	.4	3.7	3.7
	\$ 9.5	\$ 9.5	\$ 26.8	\$ 26.7

The effect on the allowance for credit losses from such modifications was not significant at September 30, 2017 and 2016.

TDRs modified during the previous twelve months that subsequently defaulted (i.e., became more than 30 days past due) during the period by portfolio class are as follows:

	Nine Months Ended September 30,	
	2017	2016
Fleet	\$5.1	\$.1
Owner/operator	.3	.4
	\$5.4	\$.5

There were \$1.5 and \$5.1 of finance receivables modified as TDRs during the previous twelve months that subsequently defaulted and were charged off in the nine months ended September 30, 2017 and 2016, respectively.

Repossessions

When the Company determines a customer is not likely to meet its contractual commitments, the Company repossesses the vehicles which serve as collateral for the loans, finance leases and equipment under operating leases. The Company records the vehicles as used truck inventory included in Financial Services Other assets on the Consolidated Balance Sheets. The balance of repossessed inventory at September 30, 2017 and December 31, 2016 was \$20.4 and \$25.4, respectively. Proceeds from the sales of repossessed assets were \$44.7 and \$34.2 for the nine months ended September 30, 2017 and 2016, respectively. These amounts are included in Proceeds from asset disposals in the Condensed Consolidated Statements of Cash Flows. Write-downs of repossessed equipment on operating leases are recorded as impairments and included in Financial Services depreciation and other expenses on the Consolidated Statements of Comprehensive Income.

Notes to Consolidated Financial Statements (Unaudited) (Millions, Except Share Amounts)

NOTE E - Product Support Liabilities

Product support liabilities include estimated future payments related to product warranties and deferred revenues on optional extended warranties and repair and maintenance (R&M) contracts. The Company generally offers one year warranties covering most of its vehicles and related aftermarket parts. For vehicles equipped with engines manufactured by PACCAR, the Company generally offers two year warranties on the engine. Specific terms and conditions vary depending on the product and the country of sale. Optional extended warranty and R&M contracts can be purchased for periods which generally range up to five years. Warranty expenses and reserves are estimated and recorded at the time products or contracts are sold based on historical data regarding the source, frequency and cost of claims, net of any recoveries. The Company periodically assesses the adequacy of its recorded liabilities and adjusts them as appropriate to reflect actual experience. Revenue from extended warranty and R&M contracts is deferred and recognized to income generally on a straight-line basis over the contract period. Warranty and R&M costs on these contracts are recognized as incurred.

Changes in product support liabilities are summarized as follows:

WARRANTY RESERVES	2017	2016
Balance at January 1	\$282.1	\$346.2
Cost accruals	168.7	159.7
Payments	(177.6)	(194.9)
Change in estimates for pre-existing warranties	.1	(2.5)
Currency translation	12.6	(6.7)
Balance at September 30	\$285.9	\$301.8

DEFERRED REVENUES ON EXTENDED WARRANTIES AND R&M CONTRACTS	2017	2016
Balance at January 1	\$573.5	\$524.8
Deferred revenues	272.3	276.5
Revenues recognized	(239.6)	(205.6)
Currency translation	32.8	(7.2)
Balance at September 30	\$639.0	\$588.5

Stock Compensation Plans

Stock-based compensation expense was \$1.9 and \$10.9 for the three and nine months ended September 30, 2017, respectively, and \$2.0 and \$11.1 for the three and nine months ended September 30, 2016, respectively. Realized tax benefits related to the excess of deductible amounts over expense recognized was nil for the three and nine months

ended September 30, 2017 and \$.1 and \$.3 for the three and nine months ended September 30, 2016, respectively.

During the first nine months of 2017, the Company issued 777,808 common shares under deferred and stock compensation arrangements.

- 20 -

PACCAR Inc – Form 10-Q

Notes to Consolidated Financial Statements (Unaudited) (Millions, Except Share Amounts)

NOTE G - Income Taxes

The effective tax rate for the third quarter of 2017 was 30.8% compared to 30.0% in the third quarter of 2016, primarily due to the increase in mix of income generated in jurisdictions with higher tax rates in 2017 as compared to 2016. For the first nine months, the effective tax rate was 30.8% in 2017 compared to 67.3% in 2016. Substantially all of the difference in tax rate was due to the non-deductible expense of \$833.0 for the European Commission charge (EC charge) in 2016.

NOTE H - Segment Information

PACCAR operates in three principal segments: Truck, Parts and Financial Services. The Company evaluates the performance of its Truck and Parts segments based on operating profits, which excludes investment income, other income and expense, the EC charge and income taxes. The Financial Services segment's performance is evaluated based on income before income taxes. The accounting policies of the reportable segments are the same as those applied in the consolidated financial statements as described in Note A of the Company's Annual Report on Form 10-K for the year ended December 31, 2016.

Truck and Parts

The Truck segment includes the design and manufacture of high-quality, light-, medium- and heavy-duty commercial trucks and the Parts segment includes the distribution of aftermarket parts for trucks and related commercial vehicles, both of which are sold through the same network of independent dealers. These segments derive a large proportion of their revenues and operating profits from operations in North America and Europe. The Truck segment incurs substantial costs to design, manufacture and sell trucks to its customers. The sale of new trucks provides the Parts segment with the basis for parts sales that may continue over the life of the truck, but are generally concentrated in the first five years after truck delivery. To reflect the benefit the Parts segment receives from costs incurred by the Truck segment, certain expenses are allocated from the Truck segment to the Parts segment. The expenses allocated are based on a percentage of the average annual expenses for factory overhead, engineering, research and development and selling, general and administrative (SG&A) expenses for the preceding five years. The allocation is based on the ratio of the average parts direct margin dollars (net sales less material and labor costs) to the total truck and parts direct margin dollars for the previous five years. The Company believes such expenses have been allocated on a reasonable basis. Truck segment assets related to the indirect expense allocation are not allocated to the Parts segment.

Financial Services

The Financial Services segment derives its earnings primarily from financing or leasing of PACCAR products and services provided to truck customers and dealers. Revenues are primarily generated from operations in North America and Europe.

PACCAR Inc – Form 10-Q

Notes to Consolidated Financial Statements (Unaudited) (Millions, Except Share Amounts)

Other

Included in Other is the Company's industrial winch manufacturing business. Also within this category are other sales, income and expense not attributable to a reportable segment, including the EC charge and a portion of corporate expenses.

Notes to Consolidated Financial Statements (Unaudited) (Millions, Except Share Amounts)

NOTE I - Derivative Financial Instruments

As part of its risk management strategy, the Company enters into derivative contracts to hedge against interest rates and foreign currency risk. Certain derivative instruments designated as either cash flow hedges or fair value hedges are subject to hedge accounting. Derivative instruments that are not subject to hedge accounting are held as economic hedges. The Company's policies prohibit the use of derivatives for speculation or trading. At the inception of each hedge relationship, the Company documents its risk management objectives, procedures and accounting treatment. All of the Company's interest-rate and certain foreign-exchange contracts are transacted under International Swaps and Derivatives Association (ISDA) master agreements. Each agreement permits the net settlement of amounts owed in the event of default and certain other termination events. For derivative financial instruments, the Company has elected not to offset derivative positions in the balance sheet with the same counterparty under the same agreements and is not required to post or receive collateral.

Exposure limits and minimum credit ratings are used to minimize the risks of counterparty default. The Company's maximum exposure to potential default of its swap counterparties is limited to the asset position of its swap portfolio. The asset position of the Company's swap portfolio is \$47.8 at September 30, 2017.

The Company uses regression analysis to assess effectiveness of interest-rate contracts on a quarterly basis. For foreign-exchange contracts, the Company performs quarterly assessments to ensure that critical terms continue to match. All components of the derivative instrument's gain or loss are included in the assessment of hedge effectiveness. Gains or losses on the ineffective portion of cash flow hedges are recognized currently in earnings. Hedge accounting is discontinued prospectively when the Company determines that a derivative financial instrument has ceased to be a highly effective hedge.

Interest-Rate Contracts: The Company enters into various interest-rate contracts, including interest-rate swaps and cross currency interest-rate swaps. Interest-rate swaps involve the exchange of fixed for floating rate or floating for fixed rate interest payments based on the contractual notional amounts in a single currency. Cross currency interest-rate swaps involve the exchange of notional amounts and interest payments in different currencies. The Company is exposed to interest-rate and exchange-rate risk caused by market volatility as a result of its borrowing activities. The objective of these contracts is to mitigate the fluctuations on earnings, cash flows and fair value of borrowings. Net amounts paid or received are reflected as adjustments to interest expense.

At September 30, 2017, the notional amount of the Company's interest-rate contracts was \$2,879.5. Notional maturities for all interest-rate contracts are \$129.5 for the remainder of 2017, \$985.8 for 2018, \$918.2 for 2019, \$383.4 for 2020, \$279.7 for 2021, \$150.3 for 2022 and \$32.6 thereafter.

Foreign-Exchange Contracts: The Company enters into foreign-exchange contracts to hedge certain anticipated transactions and assets and liabilities denominated in foreign currencies, particularly the Canadian dollar, the euro, the British pound, the Australian dollar, the Brazilian real and the Mexican peso. The objective is to reduce fluctuations in earnings and cash flows associated with changes in foreign currency exchange rates. At September 30, 2017, the notional amount of the outstanding foreign-exchange contracts was \$411.9. Foreign-exchange contracts mature within one year.

Fair Value Hedges

Changes in the fair value of derivatives designated as fair value hedges are recorded in earnings together with the changes in fair value of the hedged item attributable to the risk being hedged. The (income) or expense recognized in earnings related to fair value hedges was included in interest and other borrowing expenses in the Financial Services segment of the Consolidated Statements of Comprehensive Income as follows:

	Three Months Ended September 30 2017		Nine Months Ended September 30 2016	
Interest-rate swaps	\$.4	\$ 3.7	\$ 1.0	\$ (1.3)
Term notes	(.2)	(3.8)	(.6)	.6

Cash Flow Hedges

Substantially all of the Company's interest-rate contracts and some foreign-exchange contracts have been designated as cash flow hedges. Changes in the fair value of derivatives designated as cash flow hedges are recorded in AOCI to the extent such hedges are considered effective. Amounts in AOCI are reclassified into net income in the same period in which the hedged transaction affects earnings. The maximum length of time over which the Company is hedging its exposure to the variability in future cash flows is 9.8 years. For the three and nine month period ended September 30, 2017 and 2016, the Company recognized no gains or losses on the ineffective portion.

The following table presents the pre-tax effects of derivative instruments recognized in other comprehensive income (loss) (OCI):

	Three Months Ended September 30, 2017		Nine Months Ended September 30, 2017	
	INTEREST- RATE CONTRACTS	FOREIGN- EXCHANGE CONTRACTS	INTEREST- RATE CONTRACTS	FOREIGN- EXCHANGE CONTRACTS
Loss recognized in OCI:

	\$(25.6) \$ 13.9	\$(78.9) \$ 23.8

- 25 -

Notes to Consolidated Financial Statements (Unaudited) (Millions, Except Share Amounts)

Expense (income) reclassified out of AOCI into income was as follows:

	Three Months Ended September 30, 2017		Nine Months Ended September 30, 2017	
	INTEREST- RATE CONTRACTS	FOREIGN- EXCHANGE CONTRACTS	INTEREST- RATE CONTRACTS	FOREIGN- EXCHANGE CONTRACTS
Truck, Parts and Other:				
Net sales and revenues	\$ (3.0)	\$ 13.3	
Cost of sales and revenues	5.5		4.3	
Interest and other expense, net	1.0		1.6	
Financial Services:				
Interest and other borrowing expenses	\$ 24.6		\$ 110.4	
Total	\$ 24.6	\$ 3.5	\$ 110.4	\$ 19.2

	Three Months Ended September 30, 2016		Nine Months Ended September 30, 2016	
	INTEREST- RATE CONTRACTS	FOREIGN- EXCHANGE CONTRACTS	INTEREST- RATE CONTRACTS	FOREIGN- EXCHANGE CONTRACTS
Truck, Parts and Other:				
Net sales and revenues	\$ (11.1)	\$ (17.6)
Cost of sales and revenues			.6	
Interest and other expense, net	(.3)	1.6	
Financial Services:				
Interest and other borrowing expenses	\$ 28.2		\$ 78.5	
Total	\$ 28.2	\$ (11.4) \$ 78.5	\$ (15.4

The amount of loss recorded in AOCI at September 30, 2017 that is estimated to be reclassified into earnings in the following 12 months if interest rates and exchange rates remain unchanged is approximately \$2.3, net of taxes. The fixed interest earned on finance receivables will offset the amount recognized in interest expense, resulting in a stable interest margin consistent with the Company's risk management strategy.

The amount of gains (losses) reclassified out of AOCI into net income based on the probability that the original forecasted transactions would not occur was nil for the three and nine months ended September 30, 2017, respectively, and nil and \$.3 for the three and nine month periods ended September 30, 2016, respectively.

PACCAR Inc – Form 10-Q

Notes to Consolidated Financial Statements (Unaudited) (Millions, Except Share Amounts)

Economic Hedges

For other risk management purposes, the Company enters into derivative instruments that do not qualify for hedge accounting. These derivative instruments are used to mitigate the risk of market volatility arising from borrowings and foreign currency denominated transactions. Changes in the fair value of economic hedges are recorded in earnings in the period in which the change occurs.

The expense (income) recognized in earnings related to economic hedges was as follows:

	Three Months Ended September 30, 2017	Nine Months Ended September 30, 2017
	INTEREST- RATE EXCHANGE CONTRACTS	FOREIGN- RATE EXCHANGE CONTRACTS
Truck, Parts and Other:

Total	\$.1 \$ (5.4)	\$.1 \$ (13.3)

Notes to Consolidated Financial Statements (Unaudited) (Millions, Except Share Amounts)

NOTE J - Fair Value Measurements

Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Inputs to valuation techniques used to measure fair value are either observable or unobservable. These inputs have been categorized into the fair value hierarchy described below.

Level 1 – Valuations are based on quoted prices that the Company has the ability to obtain in actively traded markets for identical assets or liabilities. Since valuations are based on quoted prices that are readily and regularly available in an active market or exchange traded market, valuation of these instruments does not require a significant degree of judgment.

Level 2 – Valuations are based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market.

Level 3 – Valuations are based on model-based techniques for which some or all of the assumptions are obtained from indirect market information that is significant to the overall fair value measurement and which require a significant degree of management judgment.

There were no transfers of assets or liabilities between Level 1 and Level 2 of the fair value hierarchy during the nine months ended September 30, 2017. The Company's policy is to recognize transfers between levels at the end of the reporting period.

The Company uses the following methods and assumptions to measure fair value for assets and liabilities subject to recurring fair value measurements.

Marketable Securities: The Company's marketable debt securities consist of municipal bonds, government obligations, investment-grade corporate obligations, commercial paper, asset-backed securities and term deposits. The fair value of U.S. government obligations is determined using the market approach and is based on quoted prices in active markets and are categorized as Level 1.

The fair value of U.S. government agency obligations, non-U.S. government bonds, municipal bonds, corporate bonds, asset-backed securities, commercial paper and term deposits is determined using the market approach and is primarily based on matrix pricing as a practical expedient which does not rely exclusively on quoted prices for a specific security. Significant inputs used to determine fair value include interest rates, yield curves, credit rating of the security and other observable market information and are categorized as Level 2.

Derivative Financial Instruments: The Company's derivative contracts consist of interest-rate swaps, cross currency swaps and foreign currency exchange contracts. These derivative contracts are traded over the counter, and their fair value is determined using industry standard valuation models, which are based on the income approach (i.e. discounted cash flows). The significant observable inputs into the valuation models include interest rates, yield curves, currency exchange rates, credit default swap spreads and forward rates and are categorized as Level 2.

PACCAR Inc – Form 10-Q

Notes to Consolidated Financial Statements (Unaudited) (Millions, Except Share Amounts)

Assets and Liabilities Subject to Recurring Fair Value Measurement

The Company's assets and liabilities subject to recurring fair value measurements are either Level 1 or Level 2 as follows:

At September 30, 2017	LEVEL 1	LEVEL 2	TOTAL
Assets:			
Marketable debt securities			
U.S. tax-exempt securities		\$522.0	\$522.0

PACCAR Inc – Form 10-Q

Notes to Consolidated Financial Statements (Unaudited) (Millions, Except Share Amounts)

Fair Value Disclosure of Other Financial Instruments

For financial instruments that are not recognized at fair value, the Company uses the following methods and assumptions to determine the fair value. These instruments are categorized as Level 2, except cash which is categorized as Level 1 and fixed rate loans which are categorized as Level 3.

Cash and Cash Equivalents: Carrying amounts approximate fair value.

Financial Services Net Receivables: For floating-rate loans, wholesale financings, and operating lease and other trade receivables, carrying values approximate fair values. For fixed rate loans, fair values are estimated using the income approach by discounting cash flows to their present value based on current rates for comparable loans. Finance lease receivables and related allowance for credit losses have been excluded from the accompanying table.

Debt: The carrying amounts of financial services commercial paper, variable rate bank loans and variable rate term notes approximate fair value. For fixed rate debt, fair values are estimated using the income approach by discounting cash flows to their present value based on current rates for comparable debt.

The Company's estimate of fair value for fixed rate loans and debt that are not carried at fair value was as follows:

	September 30, 2017		December 31, 2016	
	CARRYING	FAIR	CARRYING	FAIR
	AMOUNT	VALUE	AMOUNT	VALUE
Assets:				
Financial Services fixed rate loans	\$3,612.6	\$3,622.4	\$3,607.4	\$3,638.4
Liabilities:				
Financial Services fixed rate debt	5,372.5	5,378.6	4,915.2	4,929.3

NOTE K - Employee Benefit Plans

The Company has several defined benefit pension plans, which cover a majority of its employees. The following information details the components of net pension expense for the Company's defined benefit plans:

Three Months	Nine Months
Ended	Ended
September 30	September 30

Edgar Filing: PACCAR INC - Form 10-Q

	2017	2016	2017	2016
Service cost	\$23.5	\$22.2	\$69.5	\$66.7
Interest on projected benefit obligation	20.5	23.4	60.9	71.1
Expected return on assets	(40.1)	(35.2)	(119.5)	(106.9)
Amortization of prior service costs	.3	.3	.9	.9
Recognized actuarial loss	6.3	6.9	18.9	20.8
Net pension expense	\$10.5	\$17.6	\$30.7	\$52.6

On January 1, 2017, the Company changed the method used to estimate service cost and interest cost components of pension expense from a single weighted-average method, which is a single discount rate determined at the pension plans measurement date, to an individual spot rate approach, which applies specific spot rates along the yield curve to the relevant projected cash flows. This approach is a more precise measurement of net periodic benefit costs and does not impact the benefit obligation. The Company considers this a change in estimate inseparable from a change in accounting principle and is being accounted for prospectively. This change will lower net pension expense by approximately \$15.0 in 2017.

During the three and nine months ended September 30, 2017, the Company contributed \$4.9 and \$ 15.3 to its pension plans, respectively, and \$5.8 and \$65.1 for the three and nine months ended September 30, 2016, respectively.

- 30 -

Notes to Consolidated Financial Statements (Unaudited) (Millions, Except Share Amounts)

NOTE L – Commitments and Contingencies

In the first half of 2016, the Company recorded a charge of €752.7 (\$833.0) in connection with an investigation by the EC of all major European truck manufacturers, including DAF Trucks N.V., its subsidiary DAF Trucks Deutschland GmbH (collectively, “DAF”) and the Company as their parent. On July 19, 2016, the EC reached a settlement with DAF and the Company under which the EC imposed a fine of €752.7 (\$833.0) for infringement of European Union competition rules. DAF paid the fine in August 2016. Following the EC settlement, claims and a petition to certify a claim as a class action have been filed against DAF and other truck manufacturers. Others may bring EC-related claims against the Company or its subsidiaries. While the Company believes it has meritorious defenses, such claims will likely take a significant period of time to resolve, and it is not possible to estimate a range of potential loss. An adverse outcome of such proceedings could have a material impact on the Company’s results of operations.

The Company is a defendant in various legal proceedings and, in addition, there are various other contingent liabilities arising in the normal course of business. After consultation with legal counsel, management does not anticipate that disposition of these various proceedings and contingent liabilities will have a material effect on the consolidated financial statements.

PACCAR Inc – Form 10-Q

ITEM MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF
 2. OPERATIONS
 OVERVIEW:

PACCAR is a global technology company whose Truck segment includes the design and manufacture of high-quality light-, medium- and heavy-duty commercial trucks. In North America, trucks are sold under the Kenworth and Peterbilt nameplates, in Europe, under the DAF nameplate and in Australia and South America, under the Kenworth and DAF nameplates. The Parts segment includes the distribution of aftermarket parts for trucks and related commercial vehicles. The Company's Financial Services segment derives its earnings primarily from financing or leasing PACCAR products in North America, Europe and Australia. The Company's Other business includes the manufacturing and marketing of industrial winches.

Third Quarter Highlights:

- Worldwide net sales and revenues were \$5.06 billion in 2017 compared to \$4.25 billion in 2016.
 - Truck sales were \$3.87 billion in 2017 compared to \$3.17 billion in 2016, primarily due to higher truck deliveries in the U.S. and Canada, Europe and Australia, and favorable currency translation effects.
 - Parts sales were a record \$840.0 million in 2017 compared to \$764.8 million in 2016 reflecting higher demand in all markets.
 - Financial Services revenues were \$328.2 million in 2017 compared to \$296.2 million in 2016. The increase was primarily the result of higher average operating lease assets.
 - Net income was \$402.7 million (\$1.14 per diluted share) in 2017 compared to \$346.2 million (\$.98 per diluted share) in 2016. The operating results reflect higher truck deliveries and record worldwide Parts segment sales and profit.
 - Capital investments were \$115.3 million in 2017 compared to \$111.4 million in 2016.
 - Research and development (R&D) expenses were \$67.0 million in 2017 compared to \$59.2 million in 2016.
- First Nine Months Highlights:

- Worldwide net sales and revenues were \$14.00 billion in 2017 compared to \$12.96 billion in 2016.
 - Truck sales were \$10.55 billion in 2017 compared to \$9.78 billion in 2016, primarily reflecting higher deliveries in the U.S. and Canada as well as Europe, partially offset by unfavorable currency translation effects.
 - Parts sales were a record \$2.45 billion in 2017 compared to \$2.24 billion in 2016 reflecting higher demand in all markets.
 - Financial Services revenues were \$936.7 million in 2017 compared to \$883.0 million in 2016. The increase was primarily revenues from higher average operating lease earning assets and higher used truck sales.
 - Net income was \$1.09 billion (\$3.08 per diluted share) in 2017 compared to \$232.9 million (\$.66 per diluted share) in 2016. Excluding the \$833.0 million non-recurring EC charge, the Company earned adjusted net income (non-GAAP) of \$1.07 billion (\$3.03 per diluted share) in 2016. See Reconciliation of GAAP to non-GAAP Financial Measures on page 49. The operating results reflect higher truck deliveries and record worldwide Parts segment sales and profit, partially offset by lower truck margins and lower Financial Services segment results.
 - Capital investments were \$275.1 million in 2017 compared to \$265.8 million in 2016.
 - R&D expenses were \$194.1 million in 2017 compared to \$179.6 million in 2016.
- In the third quarter of 2017, the Company opened the PACCAR Innovation Center in Sunnyvale, California. The advanced technology research and development center coordinates next-generation product development and identifies emerging technologies to enhance future vehicle performance. Technology areas of focus include advanced driver assistance systems, artificial intelligence, vehicle connectivity and powertrain electrification.

In the third quarter of 2017, the Company launched a new proprietary 12-speed automated transmission in North America, the lightest transmission for Class 8 on-highway vehicles. The PACCAR automated transmission is designed to complement the superior performance of PACCAR MX engines and PACCAR axles. The transmission also reduces vehicle weight by up to 105 pounds, enhances low-speed maneuverability through excellent gear ratio coverage, and contributes to increased customer uptime with its industry-leading 750,000 mile oil change interval.

- 32 -

PACCAR Inc – Form 10-Q

The Company's Kenworth division will collaborate with the PACCAR Technical Center and the Company's DAF division to launch its U.S. Department of Energy (DOE) SuperTruck II program. The five-year project will utilize the Kenworth T680 with a 76-inch sleeper and the fuel-efficient PACCAR MX-13 engine with the goal to double Class 8 vehicle freight efficiency and achieve greenhouse gas emissions requirements for model years 2021, 2024 and 2027.

Beginning in the first quarter of 2018, the Company's DAF division will participate in a two-year truck platooning trial organized by the United Kingdom Department for Transport. The trial is organized to demonstrate that wirelessly-linked truck combinations, or platoons, can deliver improved efficiency to the transportation industry by lowering fuel consumption, reducing CO₂ emissions, improving traffic flow and contributing to increased road safety.

The PACCAR Financial Services (PFS) group of companies has operations covering four continents and 24 countries. The global breadth of PFS and its rigorous credit application process support a portfolio of loans and leases with record total assets of \$13.06 billion. PFS issued \$1.33 billion in medium-term notes during the first nine months of 2017 to support portfolio growth.

Truck Outlook

Truck industry retail sales in the U.S. and Canada in 2017 are expected to be 210,000 to 220,000 units compared to 215,700 in 2016. Estimates for the U.S. and Canada truck industry retail sales in 2018 are in the range of 220,000 to 250,000 units. In Europe, the 2017 truck industry registrations for over 16-tonne vehicles are expected to be 300,000 to 310,000 units compared to 302,500 truck registrations in 2016. In Europe, the 2018 truck industry registrations in the above 16-tonne truck market are projected to be in a range of 280,000 to 310,000 units. In South America, heavy-duty truck industry sales in 2017 are estimated to be in a range of 55,000 to 60,000 units compared to 56,500 in 2016. In South America, the 2018 heavy-duty truck industry sales are projected to be in a range of 65,000 to 70,000 units.

Parts Outlook

In 2017, PACCAR Parts sales in North America are expected to be 8-10% higher than 2016 sales. In 2018, North America parts sales are expected to grow 3-5%. In Europe, 2017 aftermarket parts sales are expected to be 3-4% higher than 2016 sales. In 2018, Europe aftermarket sales are expected to increase 2-4%.

Financial Services Outlook

Based on the truck market outlook, average earning assets in 2017 are expected to be comparable to 2016. Current good levels of freight tonnage, freight rates and fleet utilization are contributing to customers' profitability and cash flow. If current freight transportation conditions decline due to weaker economic conditions, then past due accounts, truck repossession and credit losses would likely increase from the current low levels and new business volume would likely decline. In 2018, average earning assets are expected to increase 1-3%.

Capital Spending and R&D Outlook

Capital investments in 2017 are expected to be \$400 to \$450 million and R&D is expected to be \$260 to \$270 million. These expenditures are focused on manufacturing facilities, new product development and enhanced aftermarket support.

In 2018, capital investments are projected to be \$425 to \$475 million and R&D is expected to be \$270 to \$300 million. The Company is investing in new truck models, integrated powertrain, enhanced aerodynamic truck designs, advanced driver assistance and truck connectivity technologies, and expanded manufacturing and parts distribution facilities.

See the Forward-Looking Statements section of Management's Discussion and Analysis for factors that may affect these outlooks.

The following provides an analysis of the results of operations for the Company's three reportable segments - Truck, Parts and Financial Services. Where possible, the Company has quantified the impact of factors identified in the following discussion and analysis. In cases where it is not possible to quantify the impact of factors, the Company lists them in estimated order of importance. Factors for which the Company is unable to specifically quantify the impact include market demand, fuel prices, freight tonnage and economic conditions affecting the Company's results of operations.

PACCAR Inc – Form 10-Q

2017 Compared to 2016:

Truck

The Company's Truck segment accounted for 76% and 75% of revenues in the third quarter and first nine months of 2017, respectively, compared to 75% in the third quarter and first nine months of 2016.

The Company's new truck deliveries are summarized below:

	Three Months Ended September 30			Nine Months Ended September 30		
	2017	2016	% CHANGE	2017	2016	% CHANGE
U.S. and Canada	23,300	18,800	24	61,500	57,100	8
Europe	12,400	11,600	7	40,500	38,200	6
Mexico, South America, Australia and other	4,500	4,500		12,600	11,700	8
Total units	40,200	34,900	15	114,600	107,000	7

In the first nine months of 2017, industry retail sales in the heavy-duty market in the U.S. and Canada decreased to 152,900 units from 166,700 units in the same period of 2016. The Company's heavy-duty truck retail market share was 30.1% in the first nine months of 2017 compared to 27.9% in the first nine months of 2016. The medium-duty market was 64,900 units in the first nine months of 2017 compared to 65,100 units in the same period of 2016. The Company's medium-duty market share was 16.2% in the first nine months of 2017 compared to 15.9% in 2016.

The over 16 tonne truck market in Europe in the first nine months of 2017 was 226,300 units compared to 224,500 units in the first nine months of 2016. DAF EU market share was 15.1% in the first nine months of 2017 compared to 15.6% in the same period of 2016. The 6 to 16 tonne market in the first nine months of 2017 was 38,500 units compared to 38,400 units in the first nine months of 2016. DAF market share in the 6 to 16-tonne market in the first nine months of 2017 was 10.5% compared to 9.7% in the same period of 2016. DAF deliveries in 2017 also reflect higher deliveries to Russia.

Mexico, South America, Australia and other deliveries in the third quarter declined in Mexico but were offset by higher deliveries in Australia and South America.

The Company's worldwide truck net sales and revenues are summarized below:

(\$ in millions)	Three Months Ended September 30			Nine Months Ended September 30		
	2017	2016	% CHANGE	2017	2016	% CHANGE
Truck net sales and revenues:						
U.S. and Canada	\$2,444.6	\$1,901.5	29	\$6,430.9	\$5,855.7	10
Europe	958.7	843.2	14	2,893.5	2,821.9	3

Mexico, South America, Australia and

other	464.1	426.0	9	1,226.7	1,104.8	11
	\$3,867.4	\$3,170.7	22	\$10,551.1	\$9,782.4	8
Truck income before income taxes	\$357.4	\$284.9	25	\$922.8	\$918.4	
Pre-tax return on revenues	9.2	% 9.0	%	8.7	% 9.4	%

The Company's worldwide truck net sales and revenues in the third quarter increased to \$3.87 billion in 2017 from \$3.17 billion in 2016, primarily due to higher truck deliveries in the U.S. and Canada, Europe and Australia, and favorable currency translation effects. In the first nine months of 2017, worldwide truck net sales and revenues were \$10.55 billion compared to \$9.78 billion in 2016, reflecting higher truck deliveries in the U.S. and Canada, Europe, and Australia, partially offset by unfavorable currency translation effects.

For the third quarter of 2017, Truck segment income before taxes and pretax return on revenues reflect the impact of higher truck unit deliveries. For the first nine months, Truck segment income before taxes and pretax return on revenues reflect higher truck deliveries, largely offset by lower gross margins and the effects of translating weaker foreign currencies into the U.S. dollar.

- 35 -

PACCAR Inc – Form 10-Q

The major factors for the changes in net sales and revenues, cost of sales and revenues and gross margin between the three months ended September 30, 2017 and 2016 for the Truck segment are as follows:

(\$ in millions)	NET SALES AND REVENUES	COST OF SALES AND REVENUES	GROSS MARGIN
Three Months Ended September 30, 2016	\$ 3,170.7	\$ 2,796.2	\$ 374.5
Increase (decrease)			
Truck delivery volume	600.5	510.8	89.7
Average truck sales prices	34.0		34.0
Average per truck material, labor and other direct costs		21.2	(21.2)
Factory overhead and other indirect costs		20.5	(20.5)
Operating leases	1.1	.7	.4
Currency translation	61.1	59.8	1.3
Total increase	696.7	613.0	83.7
Three Months Ended September 30, 2017	\$ 3,867.4	\$ 3,409.2	\$ 458.2

Truck delivery volume reflects higher truck deliveries which resulted in higher sales and cost of sales, primarily in the U.S. and Canada (\$499.2 million sales and \$423.2 million cost of sales), Europe (\$74.1 million sales and \$60.3 million cost of sales) and Australia (\$68.8 million sales and \$55.8 cost of sales), partially offset by lower truck deliveries in Mexico which resulted in lower sales (\$53.8 million) and cost of sales (\$43.7 million).

Average truck sales prices increased sales by \$34.0 million, primarily due to higher price realization in the U.S. and Canada (\$24.2 million) and Europe (\$7.5 million).

Average cost per truck increased cost of sales by \$21.2 million, reflecting higher material costs.

Factory overhead and other indirect costs increased \$20.5 million, primarily due to higher salaries and related expense (\$11.4 million) and higher maintenance costs (\$8.9 million).

The currency translation effect on sales and cost of sales primarily reflects an increase in the value of the euro relative to the U.S. dollar.

Truck gross margin was 11.8% in the third quarter of 2017 and 2016.

- 36 -

PACCAR Inc – Form 10-Q

The major factors for the changes in net sales and revenues, cost of sales and revenues and gross margin between the nine months ended September 30, 2017 and 2016 for the Truck segment are as follows:

(\$ in millions)	NET SALES AND REVENUES	COST OF SALES AND REVENUES	GROSS MARGIN
Nine Months Ended September 30, 2016	\$ 9,782.4	\$ 8,589.4	\$ 1,193.0
Increase (decrease)			
Truck delivery volume	845.0	728.2	116.8
Average truck sales prices	36.6		36.6
Average per truck material, labor and other direct costs		47.8	(47.8)
Factory overhead and other indirect costs		43.2	(43.2)
Operating leases	(68.1)	(66.1)	(2.0)
Currency translation	(44.8)	(5.1)	(39.7)
Total increase	768.7	748.0	20.7
Nine Months Ended September 30, 2017	\$ 10,551.1	\$ 9,337.4	\$ 1,213.7

Truck delivery volume primarily reflects higher truck deliveries in the U.S. and Canada which resulted in higher sales and cost of sales (\$526.1 million sales and \$450.8 million cost of sales) and Europe (\$209.3 million sales and \$180.4 million cost of sales).

Average truck sales prices increased sales by \$36.6 million, primarily due to higher price realization in Europe (\$32.2 million) and the U.S. and Canada (\$22.0 million), partially offset by lower price realization in Mexico (\$14.0 million).

Average cost per truck increased cost of sales by \$47.8 million, reflecting higher material costs.

Factory overhead and other indirect costs increased \$43.2 million, primarily due to higher salaries and related expenses (\$17.2 million), higher maintenance costs (\$15.1 million) as well as higher depreciation expense (\$7.5 million).

Operating lease revenues decreased by \$68.1 million and cost of sales decreased by \$66.1 million, reflecting higher revenues deferred and lower revenues recognized.

The currency translation effect on sales and cost of sales primarily reflects a decline in the value of the British pound relative to the U.S. dollar.

- Truck gross margins in the first nine months of 2017 of 11.5% decreased from 12.2% in the same period in 2016 primarily due to the factors noted above.

Truck SG&A in the third quarter of 2017 increased to \$51.1 million from \$47.8 million in the third quarter of 2016, and in the first nine months of 2017, Truck SG&A increased to \$150.2 million from \$147.6 million in the first nine months of 2016. The increase for both periods was primarily due to higher professional fees and salaries and related expenses, partially offset by lower sales and marketing expenses.

As a percentage of sales, Truck SG&A decreased to 1.3% in the third quarter of 2017 from 1.5% in the third quarter of 2016. In the first nine months of 2017, Truck SG&A as a percentage of sales decreased to 1.4% from 1.5% in the first nine months of 2016. The decrease for both periods was primarily due to higher net sales.

PACCAR Inc – Form 10-Q

Parts

The Company's Parts segment accounted for 17% of revenues in the third quarter and first nine months of 2017 compared to 18% and 17% in the third quarter and first nine months of 2016, respectively.

(\$ in millions)	Three Months Ended September 30			Nine Months Ended September 30		
	2017	2016	% CHANGE	2017	2016	% CHANGE
Parts net sales and revenues:						
U.S. and Canada	\$547.5	\$501.5	9	\$1,610.1	\$1,440.0	12
Europe	200.3	185.5	8	582.5	570.8	2
Mexico, South America, Australia and other	92.2	77.8	19	257.2	229.9	12
	\$840.0	\$764.8	10	\$2,449.8	\$2,240.7	9
Parts income before income taxes	\$152.9	\$138.3	11	\$457.0	\$406.3	12
Pre-tax return on revenues	18.2 %	18.1 %		18.7 %	18.1 %	

The Company's worldwide parts net sales and revenues for the third quarter increased to a record \$840.0 million in 2017 from \$764.8 million in 2016, and for the first nine months, worldwide parts net sales and revenues increased to a record \$2.45 billion in 2017 from \$2.24 billion in 2016, primarily due to higher aftermarket demand in all markets.

For the third quarter and first nine months of 2017, the increase in Parts segment income before income taxes and pre-tax return on revenues was primarily due to higher sales volume.

The major factors for the changes in net sales, cost of sales and gross margin between the three months ended September 30, 2017 and 2016 for the Parts segment are as follows:

(\$ in millions)	NET SALES	COST OF SALES	GROSS MARGIN
Three Months Ended September 30, 2016	\$764.8	\$560.0	\$204.8
Increase (decrease)			
Aftermarket parts volume	62.3	38.5	23.8
Average aftermarket parts sales prices	3.8		3.8
Average aftermarket parts direct costs		8.6	(8.6)
Warehouse and other indirect costs		4.1	(4.1)
Currency translation	9.1	7.3	1.8
Total increase	75.2	58.5	16.7
Three Months Ended September 30, 2017	\$840.0	\$618.5	\$221.5

Aftermarket parts sales volume increased by \$62.3 million and related cost of sales increased by \$38.5 million due to higher demand in all markets, primarily in North America and Europe.

• Average aftermarket parts sales prices increased sales by \$3.8 million, primarily due to higher price realization in the U.S. and Canada.

• Average aftermarket parts direct costs increased \$8.6 million due to higher material costs.

• Warehouse and other indirect costs increased \$4.1 million, primarily due to higher salaries and related expenses to support higher sales volume.

• The currency translation effect on sales and cost of sales reflects an increase in the value of the euro relative to the U.S. dollar.

• Parts gross margins in the third quarter of 2017 decreased to 26.4% from 26.8% in the third quarter of 2016 due to the factors noted above.

- 38 -

PACCAR Inc – Form 10-Q

The major factors for the changes in net sales, cost of sales and gross margin between the nine months ended September 30, 2017 and 2016 for the Parts segment are as follows:

	NET	COST	GROSS
(\$ in millions)	SALES	OF SALES	MARGIN
Nine Months Ended September 30, 2016	\$2,240.7	\$1,634.7	\$ 606.0
Increase (decrease)			
Aftermarket parts volume	195.9	129.8	66.1
Average aftermarket parts sales prices	26.4		26.4
Average aftermarket parts direct costs		20.3	(20.3)
Warehouse and other indirect costs		11.4	(11.4)
Currency translation	(13.2)	(2.8)	(10.4)
Total increase	209.1	158.7	50.4
Nine Months Ended September 30, 2017	\$2,449.8	\$1,793.4	\$ 656.4

▲Aftermarket parts sales volume increased by \$195.9 million and related cost of sales increased by \$129.8 million due to higher demand in all markets, primarily in the U.S. and Canada.

▲Average aftermarket parts sales prices increased sales by \$26.4 million, reflecting higher price realization in the U.S. and Canada and Europe.

▲Average aftermarket parts direct costs increased \$20.3 million due to higher material costs.

▲Warehouse and other indirect costs increased \$11.4 million, primarily due to higher salaries and related expenses to support the higher sales volume.

▲The currency translation effect on sales and cost of sales primarily reflects a decline in the value of the British pound relative to the U.S. dollar.

▲Parts gross margins in the first nine months of 2017 decreased to 26.8% from 27.0% in the first nine months of 2016 due to the factors noted above.

Parts SG&A expense increased in the third quarter to \$50.1 million in 2017 from \$48.1 million in 2016, and for the first nine months to \$145.6 million in 2017 from \$144.3 million in 2016, due to higher salaries and related expenses.

As a percentage of sales, Parts SG&A decreased to 6.0% in the third quarter of 2017 from 6.3% in the third quarter of 2016. For the first nine months of 2017, Parts SG&A as a percentage of sales was 5.9%, down from 6.4% in the first nine months of 2016. The decrease for both periods was primarily due to higher net sales.

PACCAR Inc – Form 10-Q

Financial Services

The Company's Financial Services segment accounted for 6% of revenues in the third quarter and 7% of revenues for the first nine months of 2017 compared to 7% in the third quarter and first nine months of 2016.

(\$ in millions)	Three Months Ended September 30			Nine Months Ended September 30

Europe	79.6	71.8	11	223.1	214.8	4
Mexico, Australia and other	59.7	50.8	18	167.9	155.8	8
	\$328.2	\$296.2	11	\$936.7	\$883.0	6
Revenue by product:						
Loans and finance leases	\$96.8	\$92.1	5	\$278.3	\$278.0	
Dealer wholesale financing	14.4	13.8	4	39.3	42.4	(7)
Equipment on lease and other	217.0	190.3	14	619.1	562.6	10
	\$328.2	\$296.2	11	\$936.7	\$883.0	6
Income before income taxes	\$71.2	\$71.0		\$191.5	\$228.6	(16)

Edgar Filing: PACCAR INC - Form 10-Q

For the third quarter, new loan and lease volume was \$1,086.0 million in 2017 compared to \$1,058.4 million in 2016 and for the first nine months was \$2,942.4 million in 2017 compared to \$3,068.9 million in 2016.

In the third quarter of 2017, PFS finance market share on new PACCAR truck sales was 24.7% compared to 27.2% in the third quarter of 2016. In the first nine months of 2017, PFS finance market share on new PACCAR truck sales was 24.5% compared to 25.7% in the first nine months of 2016.

In the third quarter, PFS revenue increased to \$328.2 million in 2017 from \$296.2 million in 2016, primarily due to higher average operating lease earning assets and effects of currency translation, which increased third quarter 2017 PFS revenues by \$5.3 million. In the first nine months, PFS revenue increased to \$936.7 million in 2017 from \$883.0 million in 2016, primarily due to higher average operating lease earning assets and higher used truck sales, partially offset by the effects of currency translation, which lowered PFS revenues by \$7.2 million for the first nine months of 2017.

- 40 -

PACCAR Inc – Form 10-Q

PFS income before income taxes of \$71.2 million in the third quarter of 2017 was comparable to the \$71.0 million earned in the third quarter of 2016, reflecting higher average earning asset balances and the effects of currency translation, largely offset by lower results on returned lease assets and higher borrowing rates. For the first nine months, PFS income before income taxes decreased to \$191.5 million in 2017 from \$228.6 million in 2016, primarily due to lower results on returned lease assets, higher borrowing rates, a higher provision for losses on receivables and the effects of translating weaker foreign currencies to the U.S. dollar, partially offset by higher average earning assets. The currency exchange impact increased PFS income before income taxes by \$1.4 million for the third quarter of 2017 and lowered PFS income before income taxes by \$1.7 million for the first nine months of 2017.

Included in Financial Services “Other Assets” on the Company’s Consolidated Balance Sheets are used trucks held for sale, net of impairments, of \$203.2 million at September 30, 2017 and \$267.2 million at December 31, 2016. These trucks are primarily units returned from matured operating leases in the ordinary course of business, and also includes trucks acquired from repossessions or through acquisitions of used trucks in trades related to new truck sales.

The Company recognized losses on used trucks, excluding repossessions, of \$8.6 million in the third quarter of 2017 compared to \$6.3 million in the third quarter of 2016, including losses on multiple unit transactions of \$6.3 million in the third quarter of 2017 compared to \$2.0 million in the third quarter of 2016. Used truck losses related to repossessions, which are recognized as credit losses, were \$.7 million and \$.9 million in the third quarter of 2017 and 2016, respectively.

The Company recognized losses on used trucks, excluding repossessions, of \$31.6 million in the first nine months of 2017 compared to \$10.8 million in the same period of 2016, including losses on multiple unit transactions of \$21.9 million in the first nine months of 2017 compared to \$5.4 million in the first nine months of 2016. Used truck losses related to repossessions, which are recognized as credit losses, were \$3.8 million and \$2.7 million in the first nine months of 2017 and 2016, respectively.

The major factors for the changes in interest and fees, interest and other borrowing expenses and finance margin between the three months ended September 30, 2017 and 2016 are outlined below:

	INTEREST AND OTHER		
	INTEREST AND FEES	BORROWING EXPENSES	FINANCE MARGIN
(\$ in millions)			
Three Months Ended September 30, 2016	\$ 105.9	\$ 32.2	\$ 73.7
Increase (decrease)			
Average finance receivables	.9		.9
Average debt balances		.5	(.5)
Yields	2.6		2.6
Borrowing rates		5.0	(5.0)
Currency translation	1.8	.6	1.2
Total increase (decrease)	5.3	6.1	(.8)
Three Months Ended September 30, 2017	\$ 111.2	\$ 38.3	\$ 72.9

• Average finance receivables increased \$72.1 million (excluding foreign exchange effects) in the third quarter of 2017 as a result of retail portfolio new business volume exceeding collections and higher average dealer wholesale financing.

• Average debt balances increased \$125.9 million (excluding foreign exchange effects) in the third quarter of 2017. The higher average debt balances reflect funding for a higher average earnings asset portfolio, which includes loans, finance leases, wholesale and equipment on operating lease.

• Higher portfolio yields (4.8% in 2017 compared to 4.7% in 2016) increased interest and fees by \$2.6 million. The higher portfolio yields reflect higher lending volumes in North America which have higher market rates than Europe.

• Higher borrowing rates (1.7% in 2017 compared to 1.5% in 2016) were primarily due to higher debt market rates in North America, partially offset by lower debt market rates in Europe.

• The currency translation effects reflect an increase in the value of foreign currencies relative to the U.S. dollar.

- 41 -

PACCAR Inc – Form 10-Q

The major factors for the changes in interest and fees, interest and other borrowing expenses and finance margin between the nine months ended September 30, 2017 and 2016 are outlined below:

	INTEREST AND OTHER		
	INTEREST AND FEES	BORROWING EXPENSES	FINANCE MARGIN
(\$ in millions)			
Nine Months Ended September 30, 2016	\$ 320.4	\$ 95.1	\$ 225.3
(Decrease) increase			
Average finance receivables	(2.4)		(2.4)
Average debt balances		1.1	(1.1)
Yields	2.6		2.6
Borrowing rates		14.5	(14.5)
Currency translation	(3.0)	(.9)	(2.1)
Total (decrease) increase	(2.8)	14.7	(17.5)
Nine Months Ended September 30, 2017	\$ 317.6	\$ 109.8	\$ 207.8

▲Average finance receivables decreased \$72.7 million (excluding foreign exchange effects) in the first nine months of 2017 as a result of lower average dealer wholesale financing.

- Average debt balances increased \$85.3 million (excluding foreign exchange effects) in the first nine months of 2017. The higher average debt balances reflect funding for a higher average earnings asset portfolio, which includes loans, finance leases, wholesale and equipment on operating lease.

♣Higher portfolio yields (4.82% in 2017 compared to 4.77% in 2016) increased interest and fees by \$2.6 million. The higher portfolio yields reflect higher lending volumes in North America which have higher market rates than Europe.

♣Higher borrowing rates (1.7% in 2017 compared to 1.5% in 2016) were primarily due to higher debt market rates in North America, partially offset by lower debt market rates in Europe.

♣The currency translation effects reflect a decline in the value of foreign currencies relative to the U.S. dollar.

The following table summarizes operating lease, rental and other revenues and depreciation and other expenses:

(\$ in millions)	Three Months Ended		Nine Months Ended	
	September 30 2017	September 30 2016	September 30 2017	September 30 2016
Operating lease and rental revenues	\$202.4	\$180.2	\$578.8	\$534.9
Used truck sales and other	14.6	10.1	40.3	27.7
Operating lease, rental and other revenues	\$217.0	\$190.3	\$619.1	\$562.6
Depreciation of operating lease equipment	\$149.3	\$130.4	\$434.4	\$378.1
Vehicle operating expenses	24.9	22.2	71.6	67.2
Cost of used truck sales and other	12.0	10.0	32.7	24.6

Depreciation and other expenses	\$186.2	\$162.6	\$538.7	\$469.9
---------------------------------	---------	---------	---------	---------

PACCAR Inc – Form 10-Q

The major factors for the changes in operating lease, rental and other revenues, depreciation and other expenses and lease margin between the three months ended September 30, 2017 and 2016 are outlined below:

(\$ in millions)	OPERATING		
	LEASE, RENTAL	DEPRECIATION	
	AND OTHER	AND OTHER	LEASE
	REVENUES	EXPENSES	MARGIN
Three Months Ended September 30, 2016	\$ 190.3	\$ 162.6	\$ 27.7
Increase (decrease)			
Used truck sales	3.5	4.0	(.5)
Results on returned lease assets		2.6	(2.6)
Average operating lease assets	16.4	14.1	2.3
Revenue and cost per asset	2.2	2.5	(.3)
Currency translation and other	4.6	.4	4.2
Total increase (decrease)	26.7	23.6	3.1
Three Months Ended September 30, 2017	\$ 217.0	\$ 186.2	\$ 30.8

▲ A higher volume of used truck sales increased operating lease, rental and other revenues by \$3.5 million. Depreciation and other expenses increased by \$4.0 million due to higher volume of truck sales and losses on multiple unit transactions.

■ Results on returned lease assets increased depreciation and other expenses by \$2.6 million, primarily due to higher losses on sales of returned lease units.

▲ Average operating lease assets increased \$235.5 million (excluding foreign exchange effects), which increased revenues by \$16.4 million and related depreciation and other expenses by \$14.1 million.

■ Revenue per asset increased \$2.2 million primarily due to higher rental income. Cost per asset increased \$2.5 million due to higher depreciation expense, partially offset by lower vehicle operating expenses.

■ The currency translation effects reflect an increase in the value of foreign currencies relative to the U.S. dollar.

The major factors for the changes in operating lease, rental and other revenues, depreciation and other expenses and lease margin between the nine months ended September 30, 2017 and 2016 are outlined below:

(\$ in millions)	OPERATING		
	LEASE, RENTAL	DEPRECIATION	
	AND OTHER	AND OTHER	LEASE
	REVENUES	EXPENSES	MARGIN
Nine Months Ended September 30, 2016	\$ 562.6	\$ 469.9	\$ 92.7
Increase (decrease)			

Edgar Filing: PACCAR INC - Form 10-Q

Used truck sales	10.9	10.1	.8
Results on returned lease assets		21.6	(21.6)
Average operating lease assets	45.7	38.5	7.2
Revenue and cost per asset	2.3	4.4	(2.1)
Currency translation and other	(2.4)	(5.8)	3.4
Total increase (decrease)	56.5	68.8	(12.3)
Nine Months Ended September 30, 2017	\$ 619.1	\$ 538.7	\$ 80.4

▲ A higher volume of used truck sales increased operating lease, rental and other revenues by \$10.9 million and increased depreciation and other expenses by \$10.1 million.

✱ Results on returned lease assets increased depreciation and other expenses by \$21.6 million, primarily due to higher losses on sales of returned lease units.

▲ Average operating lease assets increased \$240.8 million (excluding foreign exchange effects), which increased revenues by \$45.7 million and related depreciation and other expenses by \$38.5 million.

✱ Revenue per asset increased \$2.3 million primarily due to higher rental income. Cost per asset increased \$4.4 million due to higher depreciation expense, partially offset by lower vehicle operating expenses.

✱ The currency translation effects reflect a decline in the value of foreign currencies relative to the U.S. dollar.

- 43 -

PACCAR Inc – Form 10-Q

The following table summarizes the provision for losses on receivables and net charge-offs:

(\$ in millions)	Three Months Ended September 30, 2017 PROVISION FOR		Nine Months Ended September 30, 2017 PROVISION FOR	
	LOSSES ON NET		LOSSES ON NET	
	RECEIVABLES	CHARGE-OFFS	RECEIVABLES	CHARGE-OFFS
U.S. and Canada	\$ 3.2	\$ 3.9	\$ 11.5	\$ 12.0
Europe	.2	.4	1.6	1.1
Mexico, Australia and other	1.3	.8	4.3	1.7
	\$ 4.7	\$ 5.1	\$ 17.4	\$ 14.8

(\$ in millions)	Three Months Ended September 30, 2016 PROVISION FOR		Nine Months Ended September 30, 2016 PROVISION FOR	
	LOSSES ON NET		LOSSES ON NET	
	RECEIVABLES	CHARGE-OFFS	RECEIVABLES	CHARGE-OFFS
U.S. and Canada	\$ 3.9	\$ 3.8	\$ 10.2	\$ 11.2
Europe	.2	.4	1.0	.9
Mexico, Australia and other	1.0	.7	3.3	2.7
	\$ 5.1	\$ 4.9	\$ 14.5	\$ 14.8

The provision for losses on receivables was \$4.7 million for the third quarter of 2017 compared to \$5.1 million in 2016. For the first nine months of 2017, the provision for losses on receivables was \$17.4 million compared to \$14.5 million in 2016, reflecting continued good portfolio performance.

The Company modifies loans and finance leases as a normal part of its Financial Services operations. The Company may modify loans and finance leases for commercial reasons or for credit reasons. Modifications for commercial reasons are changes to contract terms for customers that are not considered to be in financial difficulty. Insignificant delays are modifications extending terms up to three months for customers experiencing some short-term financial stress, but not considered to be in financial difficulty. Modifications for credit reasons are changes to contract terms for customers considered to be in financial difficulty. The Company's modifications typically result in granting more time to pay the contractual amounts owed and charging a fee and interest for the term of the modification. When considering whether to modify customer accounts for credit reasons, the Company evaluates the creditworthiness of the customers and modifies those accounts that the Company considers likely to perform under the modified terms. When the Company modifies loans and finance leases for credit reasons and grants a concession, the modifications are classified as troubled debt restructurings (TDR).

PACCAR Inc – Form 10-Q

The post-modification balance of accounts modified during the nine months ended September 30, 2017 and 2016 are summarized below:

(\$ in millions)

Nine Months Ended September 30,	2017			2016		
	RECORDED	OF TOTAL		RECORDED	OF TOTAL	
	INVESTMENT PORTFOLIO*			INVESTMENT PORTFOLIO*		
Commercial	\$ 138.0	2.4	%	\$ 186.8	3.4	%
Insignificant delay	67.1	1.2	%	80.1	1.5	%
Credit – no concession	48.2	.9	%	45.9	.8	%
Credit – TDR	18.0	.3	%	26.7	.5	%
	\$ 271.3	4.8	%	\$ 339.5	6.2	%

*Recorded investment immediately after modification as a percentage of ending retail portfolio, on an annualized basis.

Modification activity decreased in the first nine months of 2017 compared to the first nine months of 2016. The decrease in modifications for commercial reasons reflects lower volumes of refinancing, primarily in the U.S. The decrease in modifications for insignificant delay reflects fewer fleet customers requesting payment relief for up to three months. Credit-TDR modifications decreased to \$18.0 in 2017 from \$26.7 in 2016 mainly due to the contract modifications for two fleet customers in 2016.

The following table summarizes the Company's 30+ days past due accounts:

	September 30		December 31		September 30	
	2017		2016		2016	
Percentage of retail loan and lease accounts 30+ days past due:						
U.S. and Canada	.3	%	.3	%	.3	%
Europe	.6	%	.5	%	.6	%
Mexico, Australia and other	2.0	%	1.8	%	2.2	%
Worldwide	.6	%	.5	%	.6	%

Accounts 30+ days past due was .6% at September 30, 2017 compared to .5% at December 31, 2016, primarily due to higher past due accounts in Europe and Mexico. The Company continues to focus on maintaining low past due balances.

When the Company modifies a 30+ days past due account, the customer is then generally considered current under the revised contractual terms. The Company modified \$2.2 million of accounts worldwide during the third quarter of 2017, \$2.6 million during the fourth quarter of 2016 and \$2.8 million during the third quarter of 2016 that were 30+

days past due and became current at the time of modification. Had these accounts not been modified and continued to not make payments, the pro forma percentage of retail loan and lease accounts 30+ days past due would have been as follows:

	September 30		December 31		September 30	
	2017		2016		2016	
Pro forma percentage of retail loan and lease accounts 30+ days past due:						
U.S. and Canada	.3	%	.3	%	.3	%
Europe	.6	%	.5	%	.6	%
Mexico, Australia and other	2.2	%	2.0	%	2.5	%
Worldwide	.7	%	.6	%	.6	%

Modifications of accounts in prior quarters that were more than 30 days past due at the time of modification are included in past dues if they were not performing under the modified terms at September 30, 2017, December 31, 2016 and September 30, 2016. The effect on the allowance for credit losses from such modifications was not significant at September 30, 2017, December 31, 2016 and September 30, 2016.

The Company's annualized pre-tax return on average earning assets for Financial Services was 2.4% and 2.2% for the third quarter and the first nine months of 2017, respectively, compared to 2.4% and 2.6% for the same periods in 2016.

PACCAR Inc – Form 10-Q

Other

Other includes the winch business as well as sales, income and expenses not attributable to a reportable segment, including the EC charge and a portion of corporate expense. Other sales represent less than 1% of consolidated net sales and revenues for both the third quarter and first nine months of 2017 and 2016. Other SG&A increased to \$11.7 million for the third quarter of 2017 from \$9.6 million for the third quarter of 2016, and for the first nine months, other SG&A increased to \$36.2 million in 2017 from \$34.0 million in 2016. The increase in other SG&A for both periods was primarily due to higher labor related costs.

For the third quarter, other income (loss) before tax was a loss of \$8.7 million in 2017 compared to a loss of \$7.8 million in 2016. For the first nine months, other income (loss) before tax was a loss of \$28.1 million in 2017 compared to a loss of \$862.4 million in 2016, which included the impact of the \$833.0 million EC charge.

Investment income for the third quarter increased to \$9.0 million in 2017 from \$8.5 million in 2016, and for the first nine months, investment income increased to \$25.8 million in 2017 from \$20.6 million in 2016. The higher investment income in the third quarter and first nine months of 2017 was primarily due to higher average U.S. portfolio balances and higher yields on U.S. investments due to higher market interest rates.

Income Taxes

The effective tax rate for the third quarter of 2017 was 30.8% compared to 30.0% for the third quarter of 2016, primarily due to the increase in mix of income generated in jurisdictions with higher tax rates in 2017 as compared to 2016. For the first nine months, the effective tax rate was 30.8% in 2017 compared to 67.3% in 2016. Substantially all of the difference in tax rate was due to the non-deductible expense of \$833.0 million for the EC charge in 2016.

(\$ in millions)	Three Months		Nine Months Ended	
	Ended		September 30	
	September 30	September 30	September 30	September 30
	2017	2016	2017	2016
Domestic income before taxes	\$385.6	\$318.5	\$996.5	\$959.6
Foreign income (loss) before taxes	196.2	176.4	572.5	(248.1)
Total income before taxes	\$581.8	\$494.9	\$1,569.0	\$711.5
Domestic pre-tax return on revenues	13.5 %	13.2 %	12.8 %	13.2 %
Foreign pre-tax return on revenues	8.9 %	9.6 %	9.2 %	(4.4)%
Total pre-tax return on revenues	11.5 %	11.6 %	11.2 %	5.5 %

For the third quarter of 2017, the increase in domestic income before income taxes and return on revenues was primarily due to higher revenues from truck and parts operations. The increase in income before income taxes for foreign operations was primarily due to higher revenues from truck and parts operations. The decline in foreign return on revenues was primarily due to a higher mix of truck results and currency impacts.

For the first nine months of 2017, the increase in income before income taxes for domestic operations was primarily due to higher revenues from truck and parts operations, partially offset by lower financial services results. The decline in domestic return on revenues was primarily due to lower margins from finance operations. In the first nine months

of 2016, the EC charge of \$833.0 million resulted in a loss before income taxes and a negative return on revenues for foreign operations. Excluding the 2016 EC charge, foreign operations income before income taxes and return on revenues decreased slightly in the first nine months of 2017 primarily due to lower truck margins in Europe and Mexico.

- 46 -

PACCAR Inc – Form 10-Q

LIQUIDITY AND CAPITAL RESOURCES:

	September 30 2017	December 31 2016
(\$ in millions)		
Cash and cash equivalents	\$ 2,313.3	\$ 1,915.7
Marketable debt securities	1,216.0	1,140.9
	\$ 3,529.3	\$ 3,056.6

The Company's total cash and marketable debt securities at September 30, 2017 increased \$472.7 million from the balances at December 31, 2016, primarily due to an increase in cash and cash equivalents.

The change in cash and cash equivalents is summarized below:

(\$ in millions)	2017	2016
Nine Months Ended September 30,		
Operating activities:		
Net income	\$1,086.0	\$232.9
Net income items not affecting cash	826.8	762.3
Changes in operating assets and liabilities, net	(90.3)	495.3
Net cash provided by operating activities	1,822.5	1,490.5
Net cash used in investing activities	(1,139.5)	(921.4)
Net cash used in financing activities	(369.3)	(832.0)
Effect of exchange rate changes on cash	83.9	34.4
Net increase (decrease) in cash and cash equivalents	397.6	(228.5)
Cash and cash equivalents at beginning of period	1,915.7	2,016.4
Cash and cash equivalents at end of period	\$2,313.3	\$1,787.9

Operating activities: Cash provided by operations increased by \$332.0 million to \$1,822.5 million in the first nine months of 2017 from \$1,490.5 million in 2016. Higher operating cash flows reflect higher net income of \$1,086.0 million in 2017, compared to net income of \$232.9 million in 2016, which includes payment of the \$833.0 million EC charge. In addition, there were higher cash inflows of \$443.2 million from accounts payable and accrued expenses as purchases of goods and services exceeded payments. The higher cash inflows were offset by Financial Services segment wholesale receivables of \$528.1 million as originations exceeded cash receipts in the first nine months of 2017 (\$316.3 million) compared to cash receipts exceeding originations in 2016 (\$211.8 million). In addition, there was a higher cash usage of \$266.2 million from accounts receivable as sales and services exceeded cash receipts, and higher net purchases of inventory of \$200.4 million.

Investing activities: Cash used in investing activities increased by \$218.1 million to \$1,139.5 million in the first nine months of 2017 from \$921.4 million in 2016. Higher net cash used in investing activities reflects \$405.5 million in marketable debt securities as there was \$34.8 million in net purchases of marketable debt securities in 2017 compared

to \$370.7 million in net proceeds from sales of marketable debt securities in 2016. The outflows were partially offset by lower cash used in the acquisitions of equipment for operating leases of \$154.5 million, less net originations of \$39.3 million from retail loans and direct financing leases, and higher proceeds from assets disposals of \$36.1 million.

Financing activities: Cash used in financing activities decreased by \$462.7 million to \$369.3 million for the first nine months of 2017 from \$832.0 million in 2016. The Company paid \$470.4 million in dividends in the first nine months of 2017 compared to \$745.2 million in 2016; the decrease of \$274.8 million was primarily due to a lower special dividend paid in January 2017 than the special dividend paid in January 2016. In the first nine months of 2016, the Company repurchased 1.1 million shares of common stock for \$56.3 million, and there were no stock repurchases in 2017. In the first nine months of 2017, the Company issued \$1,371.0 million of term debt, increased its outstanding commercial paper and short-term bank loans by \$261.9 million and repaid term debt of \$1,560.0 million. In the nine months of 2016, the Company issued \$1,864.4 million of term debt, repaid term debt of \$1,622.6 million and reduced its outstanding commercial paper and short-term bank loans by \$283.6 million. This resulted in cash provided by borrowing activities of \$72.9 million in the first nine months of 2017, \$114.7 million higher than the cash used in borrowing activities of \$41.8 million in 2016.

- 47 -

PACCAR Inc – Form 10-Q

Credit Lines and Other

The Company has line of credit arrangements of \$3.55 billion, of which \$3.32 billion were unused at September 30, 2017. Included in these arrangements are \$3.0 billion of syndicated bank facilities, of which \$1.0 billion expires in June 2018, \$1.0 billion expires in June 2021 and \$1.0 billion expires in June 2022. The Company intends to replace these credit facilities on or before expiration with facilities of similar amounts and duration. These credit facilities are maintained primarily to provide backup liquidity for commercial paper borrowings and maturing medium-term notes. There were no borrowings under the syndicated bank facilities for the nine months ended September 30, 2017.

On September 23, 2015, PACCAR's Board of Directors approved the repurchase of up to \$300.0 million of the Company's common stock, and as of September 30, 2017, \$206.7 million of shares have been repurchased pursuant to the 2015 authorization.

Truck, Parts and Other

The Company provides funding for working capital, capital expenditures, R&D, dividends, stock repurchases and other business initiatives and commitments primarily from cash provided by operations. Management expects this method of funding to continue in the future.

Investments for property, plant and equipment in the first nine months of 2017 increased to \$270.2 million from \$260.0 million for the same period of 2016. Over the past decade, the Company's combined investments in worldwide capital projects and R&D totaled \$6.17 billion, and have significantly increased the operating capacity and efficiency of its facilities and enhanced the quality and operating efficiency of the Company's premium products.

In 2017, capital investments are expected to be \$400 to \$450 million and R&D is expected to be \$260 to \$270 million. These expenditures are focused on manufacturing facilities, new product development and enhanced aftermarket support. In 2018, capital investments are projected to be \$425 to \$475 million, and R&D is expected to be \$270 to \$300 million. The Company is investing in PACCAR's new truck models, integrated powertrain, enhanced aerodynamic truck designs, advanced driver assistance and truck connectivity technologies, and expanded manufacturing and parts distribution facilities.

The Company conducts business in certain countries which have been experiencing or may experience significant financial stress, fiscal or political strain and are subject to the corresponding potential for default. The Company routinely monitors its financial exposure to global financial conditions, global counterparties and operating environments. As of September 30, 2017, the Company's exposures in such countries were insignificant.

Financial Services

The Company funds its financial services activities primarily from collections on existing finance receivables and borrowings in the capital markets. The primary sources of borrowings in the capital markets are commercial paper and medium-term notes issued in the public markets and, to a lesser extent, bank loans. An additional source of funds is loans from other PACCAR companies.

The Company issues commercial paper for a portion of its funding in its Financial Services segment. Some of this commercial paper is converted to fixed interest rate debt through the use of interest-rate swaps, which are used to manage interest-rate risk.

In November 2015, the Company's U.S. finance subsidiary, PACCAR Financial Corp. (PFC), filed a shelf registration under the Securities Act of 1933. The total amount of medium-term notes outstanding for PFC as of September 30, 2017 was \$4.45 billion. The registration expires in November 2018 and does not limit the principal amount of debt securities that may be issued during that period. PFC intends to renew the registration in 2018.

As of September 30, 2017, the Company's European finance subsidiary, PACCAR Financial Europe, had €1.32 billion available for issuance under a €2.50 billion medium-term note program listed on the Professional Securities Market of the London Stock Exchange. This program replaced an expiring program in the second quarter of 2017 and is renewable annually through the filing of new listing particulars.

In April 2016, PACCAR Financial Mexico registered a 10.00 billion peso medium-term note and commercial paper program with the Comision Nacional Bancaria y de Valores. The registration expires in April 2021 and limits the amount of commercial paper (up to one year) to 5.00 billion pesos. At September 30, 2017, 6.90 billion pesos were available for issuance.

- 48 -

PACCAR Inc – Form 10-Q

In the event of a future significant disruption in the financial markets, the Company may not be able to issue replacement commercial paper. As a result, the Company is exposed to liquidity risk from the shorter maturity of short-term borrowings paid to lenders compared to the longer timing of receivable collections from customers. The Company believes its cash balances and investments, collections on existing finance receivables, syndicated bank lines and current investment-grade credit ratings of A+/A1 will continue to provide it with sufficient resources and access to capital markets at competitive interest rates and therefore contribute to the Company maintaining its liquidity and financial stability. A decrease in these credit ratings could negatively impact the Company's ability to access capital markets at competitive interest rates and the Company's ability to maintain liquidity and financial stability. PACCAR believes its Financial Services companies will be able to continue funding receivables, servicing debt and paying dividends through internally generated funds, access to public and private debt markets and lines of credit.

RECONCILIATION OF GAAP TO NON-GAAP FINANCIAL MEASURES:

This Form 10-Q includes “adjusted net income (non-GAAP)” and “adjusted net income per diluted share (non-GAAP)”, which are financial measures that are not in accordance with U.S. generally accepted accounting principles (“GAAP”), since they exclude the non-recurring EC charge in 2016. These measures differ from the most directly comparable measures calculated in accordance with GAAP and may not be comparable to similarly titled non-GAAP financial measures used by other companies. In addition, this Form 10-Q includes the financial ratios noted below calculated based on non-GAAP measures.

Management utilizes these non-GAAP measures to evaluate the Company's performance and believes these measures allow investors and management to evaluate operating trends by excluding a significant non-recurring charge that is not representative of underlying operating trends. Reconciliations from the most directly comparable GAAP measures to adjusted non-GAAP measures are as follows:

	Nine Months Ended September 30, 2016	
(\$ in millions, except per share amounts)		
Net income	\$ 232.9	
Non-recurring European Commission charge	833.0	
Adjusted net income (non-GAAP)	\$ 1,065.9	
Per diluted share		
Net income	\$.66	
Non-recurring European Commission charge	2.37	
Adjusted net income (non-GAAP)	\$ 3.03	
After-tax return on revenues	1.8	%
Non-recurring European Commission charge	6.4	%
After-tax adjusted return on revenues (non-GAAP) *	8.2	%

* Calculated using adjusted net income.

FORWARD-LOOKING STATEMENTS:

This report contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995. Forward-looking statements include statements relating to future results of operations or financial position and any other statement that does not relate to any historical or current fact. Such statements are based on currently available operating, financial and other information and are subject to risks and uncertainties that may affect actual results. Risks and uncertainties include, but are not limited to: a significant decline in industry sales; competitive pressures; reduced market share; reduced availability of or higher prices for fuel; increased safety, emissions, or other regulations resulting in higher costs and/or sales restrictions; currency or commodity price fluctuations; lower used truck prices; insufficient or under-utilization of manufacturing capacity; supplier interruptions; insufficient liquidity in the capital markets; fluctuations in interest rates; changes in the levels of the Financial Services segment new business volume due to unit fluctuations in new PACCAR truck sales or reduced market shares; changes affecting the profitability of truck owners and operators; price changes impacting truck sales prices and residual values; insufficient supplier capacity or access to raw materials; labor disruptions; shortages of commercial truck drivers; increased warranty costs; litigation, including EC-related claims; or legislative and governmental regulations. A more detailed description of these and other risks is included under the heading Part 1, Item 1A, “Risk Factors” in the Company’s Annual Report on Form 10 K for the year ended December 31, 2016.

PACCAR Inc – Form 10-Q

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

There were no material changes in the Company's market risk during the nine months ended September 30, 2017. For additional information, refer to Item 7A as presented in the 2016 Annual Report on Form 10 K.

ITEM 4. CONTROLS AND PROCEDURES

The Company's management, with the participation of the Principal Executive Officer and Principal Financial Officer, conducted an evaluation of the effectiveness of the Company's disclosure controls and procedures (as defined in Exchange Act Rule 13a-15(e)) as of the period covered by this report. Based on that evaluation, the Principal Executive Officer and Principal Financial Officer concluded that the Company's disclosure controls and procedures were effective as of the end of the period covered by this report.

There have been no significant changes in the Company's internal controls over financial reporting that occurred during the fiscal quarter covered by this quarterly report that have materially affected, or are reasonably likely to materially affect, the Company's internal control over financial reporting.

PART II – OTHER INFORMATION

For Items 3, 4 and 5, there was no reportable information for the nine months ended September 30, 2017.

ITEM 1. LEGAL PROCEEDINGS

The Company and its subsidiaries are parties to various lawsuits incidental to the ordinary course of business. Management believes that the disposition of such lawsuits will not materially affect the Company's business or financial condition.

ITEM 1A. RISK FACTORS

For information regarding risk factors, refer to Part I, Item 1A as presented in the 2016 Annual Report on Form 10-K. There have been no material changes in the Company's risk factors during the nine months ended September 30, 2017.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS

For Items 2(a) and (b), there was no reportable information for the nine months ended September 30, 2017.

(c) Issuer purchases of equity securities.

On September 23, 2015, the Company's Board of Directors approved a plan to repurchase up to \$300 million of the Company's outstanding common stock. As of September 30, 2017, the Company has repurchased 4.1 million shares for \$206.7 million under this plan. There were no repurchases made under this plan during the third quarter of 2017.

ITEM 6. EXHIBITS

Any exhibits filed herewith are listed in the accompanying index to exhibits.
