Item 8.01 Other Events.

Tidewater Inc. (the "Company") has previously reported that it was in a dispute with a U.S. shipyard over the construction of two 5,400 deadweight ton (DWT) deepwater platform supply vessels (PSVs). During the quarter ended March 31, 2017, the Company rejected the delivery of the first PSV under construction and withheld the final contractual milestone payment. In March 2017, the shipyard filed a notice of arbitration alleging that the Company was (a) in breach of contract because of its rejection of the first PSV and (b) in anticipatory breach of contract based on the shipyard's expectation that the Company would reject delivery of the second PSV under construction. Further details of that dispute have been disclosed by the Company in prior filings. The Company has also disclosed that subsequent to September 30, 2017, the parties had engaged in settlement negotiations to resolve all outstanding disputes related to both vessels.

The Company and the shipyard entered into a settlement agreement effective November 22, 2017 to resolve all outstanding disputes associated with these vessels. With respect to the first PSV, the Company will receive a credit of \$233,000 against the contract price due to actual deadweight being under the deadweight guaranties. The Company agreed to reimburse the shipyard for certain expenses in the aggregate amount of \$65,000 and for costs associated with re-starting and testing equipment. Delivery of the first PSV occurred on November 22, 2017. The final installment for the first PSV is \$4.3 million (after deduction of the contracted deadweight credit). With respect to the second PSV, the Company will receive a credit for liquidated damages due to any inability of the vessel to attain contracted deadweight guarantee when testing is performed at a later date. The Company agreed to reimburse the shipyard for certain costs and expenses of third party vendors to complete construction. That reimbursement obligation is expected to be in the aggregate amount of \$655,000. The second PSV is expected to be delivered on or before June 2018. The remaining installment payment for the second PSV, in aggregate, is \$4.9 million. As part of the overall settlement, the shipyard provided the Company with a \$250,000 drydock credit for any future drydocking services to be provided by the shipyard to the Company.
